The metal surfaces of this revolver retain about 96% original nickel finish showing a few sparsely scattered small flakes and freckles, a couple tiny pinprick pits and handling marks. The hammer shows a few hints of smoky case-hardened colors and the topstrap markings remain crisp and clear. The black checkered hard rubber grips remain in near excellent condition showing a few areas of light staining and perhaps a minor handling mark or two. The action seems to function well mechanically in both single and double action with solid timing and lock-up. (13A9275-30) {ANTIQUE}
	90% original nickel finish with most of the loss along the cylinder and barrel flaking to a mild gray-brown patina, some high edge wear along the frame, a couple light dings and scratches. The barrel address and caliber designation on the frame remain quite crisp and clear and the etched "COLT NEW 22" panel on the left side barrel is very nice and clear. The hammer has mostly toned to a silvery gray patina and the sides of the trigger and base pin still retain some faint hints of fire blue. The smooth rosewood grips remain in very good condition showing an area of small dings below the escutcheon on the left panel and along the base of the right panel is pencil-numbered to another gun and its fit is a little proud of the frame and the left is un-numbered with excellent fit. The barrel and cylinder are matching the frame and the action seems to			Est. 100 - 200 Hopkins & Allen X.L. 3 Double Action Revolver serial #9970, 32 RF, 2 3/4" octagon barrel with a good partially bright bore showing a few small patches of moderate oxidation near the breech and otherwise strong rifling throughout. The metal surfaces of this revolver retain about 96% original nickel finish showing a few sparsely scattered small flakes and freckles, a couple tiny pinprick pits and handling marks. The hammer shows a few hints of smoky case-hardened colors and the topstrap markings remain crisp and clear. The smooth rosewood grips remain in very good condition showing an area of small dings below the escutcheon on the left panel and along the base of the right but they otherwise retain about 90% original varnish. The right panel is pencil-numbered to another gun and its fit is a little proud of the frame and the left is un-numbered with excellent fit. The barrel and cylinder are matching the frame and the action seems to function well mechanically with solid timing and lock-up. A very good example with a nice bore and strong markings. (13A9275-35) {ANTIQUE}			Est. 100 - 200 Hopkins & Allen X.L. 3 Double Action Revolver serial #9970, 32 RF, 2 3/4" octagon barrel with a good partially bright bore showing a few small patches of moderate oxidation near the breech and otherwise strong rifling throughout. The metal surfaces of this revolver retain about 96% original nickel finish showing a few sparsely scattered small flakes and freckles, a couple tiny pinprick pits and handling marks. The hammer shows a few hints of smoky case-hardened colors and the topstrap markings remain crisp and clear. The black checkered hard rubber grips remain in near excellent condition showing a few areas of light staining and perhaps a minor handling mark or two. The action seems to function well mechanically in both single and double action with solid timing and lock-up. (13A9275-30) {ANTIQUE} Est. 150 - 250 Smith & Wesson No. 1 Third Issue Revolver serial #130764, 22 RF, 3 3/16" ribbed round barrel with a dark bore showing evident rifling throughout. The metal surfaces of this revolver retain about 95% original nickel finish showing some scattered tiny flakes, freckles and spots of light oxidation staining. The barrel address remains crisp and clear and the hammer shows some scattered specks of oxidation staining with strong case-hardened colors. The smooth rosewood grips remain in very good plus to perhaps near excellent condition retaining most of their original varnish with some moderate flaking along the left panel and a few scattered light dings. The right panel is stamp-numbered to the gun and the other parts are matching by assembly number. Barrel-to-frame fit is excellent and the action will

(13A8927-241) {ANTIQUE} Est. 300 - 500 Custom U.S. Model 1873 Trapdoor Rifle serial #301360, 45-70, 32 5/8" barrel with an oxidized bore. The barrel of this rifle has toned to a plum-brown patina showing a couple light dings, scratches and streaks of original blue. The breechblock still retains most of its lovely case-hardened colors and the lockplate is a replacement	65	mechanically. (13A8927-201) {ANTIQUE} Est. 50 - 100 New Hampshire Percussion Sporting Rifle by Hilliard serial #2281, about .49 cal, 32 1/4" octagon barrel with a fair bore showing scattered oxidation, light pitting and good rifling throughout. This arm shows extensive use and modifications with an added long ramrod thimble, a number of old weld repairs along the upper tang and breech area and many of the screws are more modern replacements. The metal surfaces are a mottled gray patina showing some remnants of reapplied blue, scattered light dings and handling marks. There are two drilled and tapped holes along the top barrel flat and the original D. H. Hilliard markings are intact and legible. The hammer is a more modern replacement and the lockplate maker's markings are difficult to discern, the first name appears to read "Filice". The dual spur triggerguard shows moderate tool marks from fitting, there is a rudimentary toe plate affixed and some simple German silver adornments including a patchbox, light
61	slot wear and the cock has been thinned down and rather crudely shaped. The remaining hardware is of brass with nosecap, dual ramrod thimbles, tailpipe, long tang triggerguard with a rudimentary acorn extension, buttplate and lock screw escutcheons. The smooth full length walnut stock remains in good condition as cleaned showing some cracks near the tip and lock screw, a number of repairs to the edges of the stock along the forearm that are masked by added finish, some smaller scattered repaired cracks and dings. A trumpet-shaped ramrod with an old repair at the tip is included and the lock drops at half cock but is otherwise functional. (13A8927-241) {ANTIQUE} Est. 300 - 500 Custom U.S. Model 1873 Trapdoor Rifle serial #301360, 45-70, 32 5/8' barrel with an oxidized bore. The barrel of this rifle has toned to a plum-brown patina showing a couple light dings, scratches and streaks of original blue. The breechblock still retains most of its lovely case-hardened colors and the lockplate is a replacement that is mostly bright showing some light scratches and facsimile	65	mechanically. The dual sput triggerguard shows moderate tool marks from fitting, there is a rudimentary toe plate affixed and some simple German silver adornments including a patchbox, light decorative sideplate and eagle inlay along the left side butt. The walnut buttstock remains in fair-good condition showing a small crack behind the triggerguard, a couple tiny flakes, repaired chips around the breech, two small holes on the left side and other handling marks. The rifle is fitted with simple fixed sights and is equipped with double set triggers that appear to function well mechanically. (13A8927-272) {ANTIQUE}

There are some strong remnants of nickel in the protected areas of the triggerguard and the cylinder and loading gate show strong nickel finish with some light flaking. The black checkered hard rubber grips rate poor showing large chips on both panels. The action will require mechanical attention and the hammer and mainspring have been removed and are provided. (139438-90) {ANTIQUE} Est. 20 - 80 Forehand & Wadsworth No. 32 Double Action Revolver serial #637, 32 RF, 2 3/8" round barrel with a fair bore showing some moderate oxidation and strong rifling throughout. The metal surfaces of this early double action revolver retain about 90% period nickel finish showing some scattered fine flaking, a few spots of light oxidation staining and dulling of the finish. There are some scattered light dings, a few areas a bit more moderate along the high edges of the cylinder flutes and some fine pinprick pitting that appears to be underneath the nickel in some areas, the finish likely reapplied during the period of use. The topstrap markings remain mostly crisp and clear. The smooth
	oxidized bore showing some good rifling throughout. The metal surfaces of this revolver retain about 94% older reapplied dull rust blue showing some high edge wear, a few spots of light oxidation staining and areas of old pitting beneath the finish. The original Belgian inspector markings and antique proof mark remain visible and the barrel rib is stamped with a somewhat soft facsimile of a Smith & Wesson patent. The checkered hardwood grips remain in very good condition showing an old dark finish with a few lightly chipped points and dings. The lanyard ring is missing, barrel-to-frame fit shows a little minor play and the action remains functional with generally good timing and lock-up rather loose. (13A9438-9) (ANTIQUE) Est. 200 - 300 German C96 Red Nine Semi-Auto Pistol by Mauser Oberndorf serial #132753, 9mm, 4" arsenal-shortened barrel with a mostly bright very good bore showing some light frosting, some minor pinprick pitting and strong rifling. This pistol has undergone typical Weimar era modifications including the shortened barrel with sleeved front sight and simple fixed rear sight. The metal surfaces retain about 90-92% older reapplied nickel finish showing and ermnants of old light pitting beneath the nickel. The hammer and fire control group are a dark gray patina.	140	silvery gunmetal patina showing evidence of an old cleaning with scattered light pitting and oxidation staining. There are some scattered light dings, a few areas a bit more moderate along the high edges of the cylinder flutes and some fine pinprick pitting that appears to be underneath the nickel in some areas, the finish likely reapplied during the period of use. The topstrap markings remain mostly crisp and clear. The smooth rosewood grips remain in very good plus condition showing good original varnish, high edge wear and handling marks. The mainspring tension screw and ejector rod housed on the base pin are missing, the trigger return spring is broken and the action is otherwise functional. (13A9438-95) {ANTIQUE}

The 1931-manufactured receiver and takedown extension display a pewter gray-brown patina toning to gray on the edges and carry point with fine scratches from the years. The smooth walnut pistolgrip stock and ribbed forend rate very good plus with finish wear along the toe line and scattered minor dings, dents and spots of unction well mechanically. (239400-54) {C&R} Est. 400 - 600 Winchester Model 12 Slide Action Shotgun serial #1843745, 16 ga., 28" plain barrel marked modified but choked improved cylinder with a bright excellent bore. The barreld action of this 1959-manufactured shotgun retains about 96-97% original blue with some light muzzle and high edge wear and a few scattered minor scratches while the matte blue magazine tube shows some light oxidation near the receiver extension and the expected minor wear around the checkered hard rubper butplate which a sinder body 90-97% original blue with simelight muzzle and high edge wear and a few scattered minor scratches while the attend blue magazine tube shows some light oxidation near the receiver extension and the expected minor wear around the checkered hard rubper butplate which remains in similar condition with a tordy for olid added finish, a few scattered small areas of finish loss and light impact marks, and minor wear around the checkered hard rubper butplate which remains in similar condition with a tordy bere butplate which remains in similar condition with pistoleris back and g	449	strong rifling. The metal surfaces are a dull gray patina as cleaned with scattered areas of minor pitting and light oxidation throughout. There are small splotches of welding material on the magazine end cap and the bottom of the barrel where the magazine was shortened and fixed in place, along with an added screw in the magazine tube and a replacement brass screw behind the serial number on the receiver. The smooth black walnut straight grip stock and forend rate very good plus with a narrow sliver in the left wood line of the forend which is easily missed, a short hairline crack in the right wrist and a few light scratches and minor impact marks from the years while the original crescent buttplate remains in very good plus condition with light oxidation and pinprick pitting on the heel. The nickel front sight blade is lightly marred from installation into its added dovetail and the elevator is missing from the semi-buckhorn rear sight but the action remains very smooth and appears to function well mechanically. (23A9497-3) {MODERN} Est. 200 - 400 Montgomery Ward Western Field Deluxe Model 50 Slide Action Shotgun serial #19401, 12 ga., 32" plain barrel choked full with a bright excellent bore. The barrel retains about 85% original blue with the breech and muzzle toning to a blue-gray patina with scattered spots of light oxidation and handling marks toning to brown while the action bar and magazine tube show the expected operational wear toning to gunmetal gray. The receiver retains about 60% reapplied blue with areas of pinprick pitting under the finish, spots of light oxidation and silvering on the high edges. The checkered walnut pistolgrip stock and ribbed forend rate very good plus as lightly cleaned with the remnants of an old added finish, a small hairline crack to the right of the upper tang and scattered minor impact marks from the years while the added Pachmayr ventilated rubber recoil pad remains in good condition as hardened from age with multiple hairline cracks and minor wear overall and provides
	serial #872817, 16 ga., 28" plain barrel marked full but choked improved modified with a bright excellent bore. The barrel retains about 96-97% original blue with a few small streaks of wear which are toning to a gray-brown patina, a couple small spots of light oxidation and some minor handling marks. The magazine tube is an even blend of original blue toning to blue-brown and silvery-gray from operational wear with an added screw near the magazine plug; the action bar and magazine ring are toning to a gray-brown patina with remnants of original blue in the protected areas. The 1931-manufactured receiver and takedown extension display a pewter gray-brown patina toning to gray on the edges and carry point with fine scratches from the years. The smooth walnut pistolgrip stock and ribbed forend rate very good plus with finish wear along the toe line and scattered minor dings, dents and spots of wear from use while the Winchester-marked checkered hard rubber buttplate remains in similar condition with the expected edge wear. The barrel is equipped with a silver bead sight and the action appears to function well mechanically. (239400-54) {C&R} Est. 400 - 600 Winchester Model 12 Slide Action Shotgun serial #1843745, 16 ga., 28" plain barrel marked modified but choked improved cylinder with a bright excellent bore. The barreled action of this 1959-manufactured shotgun retains about 96-97% original blue with some light muzzle and high edge wear and a few scattered minor operational wear. The smooth walnut pistolgrip stock and grooved forend rate very good plus with a touch of old added finish, a few scattered small areas of finish loss and light impact marks, and minor wear around the checkered hard rubber buttplate which remains in similar condition with light dents in the perimeter. The shotgun is equipped with a crossbot safety and silver bead sight and the action appears to function well mechanically. A very nice Model 12 showing	449	strong rifling. The metal surfaces are a dull gray patina as cleaned with scattered areas of minor pitting and light oxidation throughout. There are small splotches of welding material on the magazine end cap and the bottom of the barrel where the magazine was shortened and fixed in place, along with an added screw in the magazine tube and a replacement brass screw behind the serial number on the receiver. The smooth black walnut straight grip stock and forend rate very good plus with a narrow sliver in the left wood line of the forend which is easily missed, a short hairline crack in the right wrist and a few light scratches and minor impact marks from the years while the original crescent buttplate remains in very good plus condition with light oxidation and piprick pitting on the heel. The nickel front sight blade is lightly marred from installation into its added dovetail and the elevator is missing from the semi-buckhorn rear sight but the action remains very smooth and appears to function well mechanically. (23A9451-60) {C&R} Est. 400 - 600 Remington Model 341 A Bolt Action Rifle 22 S, L, LR, 24" barrel with a bright excellent bore. The metal surfaces retain about 95% original blue with the barrel toning to dark gray and the receiver to plum under bright light with a few scattered small spots of minor oxidation and some fine scratches on the bottom of the magazine tube toning to brown. The triggerguard is flaking to a blue-gray patina with minor silvering on the high edges while the in-the-white bolt remains		456	grip stock rates very good to very good plus with the expected minor dents, dings and impact marks from military service and features the light remnants of two cartouches on the left stock flat and "248" remains clear on the right side of the butt. A replacement brass sling loop has been installed on the triggerguard and while the front sight has been removed, the correct long-range sliding leaf sight with "\" notch remains intact. The two-position tumbler and lock remain strong and crisp making this early Trapdoor Springfield rifle an excellent candidate for restoration. (23A9451-61) (ANTIQUE) Est. 300 - 500 Unmarked American Percussion Half Stock Target Rifle .36 cal, 29 3/4" octagon barrel with a mostly bright very good plus bore with strong rifling. The barrel and under rib of this elegant rifle retain about 92-93% period applied brown finish toning to a gray patina at the muzzle and breech with scattered areas of light pitting and old oxidation and the expected silvering of the high edges. The breech tang and lock display a mellow pewter patina and feature splashes of loose foliate scroll engraving with "W.H. BARNES / BOSTON" marked on the rear of the lockplate while the German silver mountings have aged to a lovely straw-hued patina with a few scattered tiny areas of light pitting. The ornate smooth walnut straight grip half stock rates near very good plus with a repaired chip along the right wood line and above the sideplate, a wood-filled hole behind the upper tang, a hairline crack running between the lockplate and triggerguard and a few minor handling marks overall. The stock is nicely ornamented with a decorative sideplate, floral engraved patchbox, tailpipe, and cheekpiece inlay which features
minor heel and toe wear. The rifle is equipped with sling swivels, a two-position safety and the original sporting sights. Attached to the receiver in a Lyman mount is a Lyman 422 Expert scope with crosshair reticle with moderately cloudy optics which remains in very good condition with minor scratches and small chips in the finish. An excellent condition model 341 A ready to take to the range or afield. (23A9451-27) {C&R} Est. 150 - 250 minor scratches and small chips in the finish. The strong and crisp and this lovely rifle will be a welcome addition to any collection. (23C9451-56) {ANTIQUE}		serial #100040, 22 S, 20" barrel with a mostly bright very good plus bore showing a few areas of fine pitting in the rifling. The barrel and magazine of this 1908-manufacutred rifle display a mottled blue-gray patina with a few minor impact marks and small spots of light oxidation with streaks of original blue throughout. The receiver retains about 85% original thinning blue with the expected high edge wear and scattered small spots of staining, the bolt and top of the receiver rotning to a blue-gray patina with fine scratches, the triggerguard and tangs are toning to a gray-brown patina with remnants of original blue in the protected areas. The smooth walnut straight grip stock and d forearm rate near excellent as lightly cleaned with an old added finish and a few minor impact marks from the years while the Winchester-branded checkered hard rubber shotgun buttplate remains in excellent condition with light sings of use. The rifle is equipped with a takedown function and the original sights and the action appears to function well mechanically. A very nice Model 1906 with the more desirable non-grooved forend and 22 Short chambering. Some of the markings are light but remain visible, are appropriately "(eagle) / 359" marked, the serialized parts are matching and a faded "(eagle) / 359" P.38v magazine is included. (58050-657) {C&R} Est. 500 - 700 German P.38 Semi-Auto Pistol By Walther serial #8978d, 9 mm, 5" barrel with a very good bright bore showing light frosting within the grooves. This is a rather interesting pistol with an ac-44 coded Walther slide and frame but a Spreewerk barrel with matching serial number; the locking block shows signs of being renumbered, the barrel however appears to be original. The metal surfaces retain about 85% original dull military blue toning to a pale gray-brown patina with areas of plum along the frame. There is light wear along the edges and muzzle along with some scattered minor tool marks and patches of fine oxidation. The grooved brown Bakelite grips remain excellent with minor handling marks. The markings remain clear except for a slight off-struck "d" on the barrel; the slide and frame have appropriate "(eagle) / 359" Walfenamts while the barrel and locking block have "(eagle) / 88" Walfenamts and a cyq-code on the left side of the barrel. Included is an "(eagle) / 359" marked "P.38v / U" magazine. (58050-433) (C&R} Est. 600 - 800 German P.38 Semi-Auto Pistol By Walther serial #1610g, 9 mm, 5" barrel with a bright excellent bore. The metal surfaces on this ac 44-coded pistol have toned to plum with generous	508	<ul> <li>WaA135" marked P.38v magazine is included. 521	Walther P.38 Semi-Auto Pistol
	serial #1873b, 9 mm, 5" barrel with a bright near excellent bore showing
	some fine oxidation closest to the muzzle. The metal surfaces on this ac
	44-coded pistol retain about 98% quality added blue with remnants of
	fine pitting and some very fine silvering along the edges and contact
	points. The checkered black plastic grips remain very good with light handling marks. The frame and slide are numbered alike and are
	appropriately "(eagle) / 359" while the barrel and locking block are
	numbered alike but to another pistol and are "WaA135" Waffenamt
	marked. The lanyard ring has been removed and an eagle over 359
	marked P.38v magazine is included. Pistol is housed in a hinged dark
	blue leatherette presentation case with a lightly stained fitted maroon
	baize interior with Walter logo on the padded lid interior. Also included is
	a commercial factory 3" barrel with Walther banner logo on the left side of barrel and "Z8" marked on the locking block along with a banner logo
	P.38 magazine. (59491-11) {C&R}
	Est. 500 - 700
522	German P.38 Semi-Auto Pistol By Spreewerk
	serial #8504z, 9 mm, 5" barrel with a bright very good plus bore showing
	some scattered fine oxidation. This gun is partially disassembled and
	may have parts missing. The milled metal surfaces retain about 90%
	added blue finish still showing scattered light oxidation and pitting. The
	grooved brown phenolic resin grips remain very good plus showing light handling marks. There is no magazine present and it is unknown if the
	gun will function properly. (58050-689) {MODERN}
	Est. 100 - 200
523	Walther P1 Semi-Auto Pistol
	serial #021479, 9 mm, 5" barrel with a very good plus bore having some
	fine pitting closest to the muzzle. This gun is partially disassembled and
	may have parts missing. The barrel retains about 95% original
	phosphate fish with light edge wear and contact wear along the top rear of the barrel, the steel slide has been cleaned and retains 95-98%
	added blue with specks of light pitting has been re-stamped "P38" and
	has a small crack at the front right corner while the alloy frame retains
	about 90% anodized black finish, the edges bright from wear and being
	dressed. The checkered black plastic grips remain about very good
	showing modest wear. There is no magazine present and it is unknown
	if the gun will function properly. (58050-705) {MODERN}

533	L.C. Smith Field Grade Featherweight Sidelock Double Shotgun
	serial #FW174655, 12 ga., 30" matted rib barrels with about very good
	bores showing modest oxidation and pitting about 1" from the muzzle choked improved modified and modified. The barrels are primarily a
	gray-brown patina with scattered light oxidation becoming a little more
	pronounced toward the muzzle also showing light pitting. The
	case-hardened frame is a pale gray-brown patina with scattered fine
	oxidation and pinprick pitting. The checkered pistolgrip walnut buttstock
	and forend remain in about very good condition with dents, scratches
	and handling marks in an added light finish also present along the edges
	of the buttplate; the gripcap shows modest chipping along the edges.
	The barrels match the frame, the lever rests just shy of center and lock up is still solid. Loosth of pull is 14.1/8" with drops of 1.1/2" and 2.
	lock-up is still solid. Length of pull is 14 1/8" with drops of 1 1/2" and 2 1/2". The shotgun is equipped with an automatic safety and seems to
	function well mechanically. (59438-435) {C&R}
	Est. 500 - 700
534	Remington No. 3 Rider Single Barrel Shotgun
	serial #52379, 12 ga., 30" single bead plain barrel with an oxidized and
	pitted bore choked modified. The metal surfaces are a gray-brown
	patina with overall fine oxidation and sparsely scattered spots of modest
	oxidation and perhaps some light pitting at the muzzle, breech and sides
	of frame. The upper and lower rear tangs show soldered iron repairs.
	The plain pistolgrip walnut buttstock and forend remain fair to good with overall handling marks, thin separating grain, cracks on either side of the
	wrist and an old repaired crack along the bottom of the forend done with
	glue and a worn screw at the rear right side. The forend is currently
	supported with old black cloth tape. Lockup is loose, the top lever and
	side cocking lever no longer function properly. (59438-448) {C&R}

543	Ruger Old Model Single Six Revolver serial #564324, 22 LR, 6 1/2" barrel with an otherwise bright bore showing moderate oxidation at the muzzle. The metal surfaces retain about 80% original blue, loss due to light edge wear, tiny nicks along the ejector rod housing and modest flaking and oxidation on the barrel between the ejector rod and muzzle with active moderate oxidation on the front sight ramp and blade. The hammer sides show light freckling and staining. The cylinder is numbered to a different revolver. The black phoenix factory walnut grips rate good to very good with light handling marks. The transfer bar safety update has not been performed on this revolver. (594387-14) {C&R} Est. 150 - 250
544	Forehand Arms Double Action Hammerless Revolver serial #8124, 32 S&W, 3" barrel with an oxidized bore. The metal surfaces show overall modest oxidation and light pitting with perhaps 15% original nickel present along with scattered spots of moderate active oxidation. The checkered hard rubber F&W Shield grips remain good to very good with light wear and ingrained dirt. The action does not function properly and screw heads show slot wear. (59438-92) {C&R} Est. 5 - 25
545	Smith & Wesson Model 38 Safety Hammerless Revolver serial #144164, .38 S&W, 3 1/4" barrel with an about good bore showing overall oxidation and light pitting. The metal surfaces of this fourth model revolver have toned to a dull brown patina with scattered fine oxidation, impact marks and faint traces of original blue along the edges. The rear of the triggerguard shows a soldered repair and the barrel hinge pin is broken on the left side. The checkered hard rubber grips remain fair with light wear and a 1 1/4" crack in the left panel. The grip safety is missing and the action no longer moves. (59438-8) {C&R}
546	Forehand and Wadsworth Indian Bull-Dog Revolver serial #13413, 32 S&W, 2 3/8" barrel with an oxidized bore. The loose scroll engraved metal surfaces have toned to a deep brown patina with scattered fine oxidation and ingrained dirt. The mother-of-pearl grips rate fair, the left panel showing a crack through the center and a large chip missing along the front edge. The ejector rod assembly, hammer spring and possibly other small parts are missing prohibiting the action from functioning properly. (59438-94) {ANTIQUE} Est. 25 - 100
547	North American Arms NAA22 Revolver serial #B41023, 22 LR, 1 1/8" barrel with a bright near excellent bore. The stainless steel surfaces remain near excellent with minute marks and scratches. The spring latch and other possible internal parts are missing. Included is a pistol rug with two pairs of oversized grips that do not fit properly along with some pins, springs and factory parts list. (59438-109) {MODERN} Est. 25 - 100
548	Velomith Excelsior Model 1910 Top Break Revolver serial #63, 5.5 mm Velo Dog, 2 3/8" barrel with a fair bore showing moderate oxidation and pitting. The metal surfaces have toned to a brown and gray patina with scattered light oxidation and scratches still with good traces of original blue. The oversized cream color synthetic grips rate good to very good with light handling marks and simple line engraving at the top of the panels. There are pins and other small parts missing prohibiting the gun from functioning, along with a missing section of frame behind the trigger. (59438-41) {C&R} Est. 15 - 50
549	Remington Model 24 Semi-Auto Rifle serial #80748, 22 LR, 19" barrel with a good to very good bore remaining overall bright with a couple specks of light oxidation and a ring between the breech and rear sight slot. The metal surfaces retain perhaps 30% original blue toning to a brown and gray patina with scattered light oxidation and a few tiny impact marks and scratches. The plain pistolgrip walnut stock and forend remain good with overall dents and handling marks, large chips missing in the wrist behind both sides of the triggerguard and a 3" thin crack in the front left side of the forend. Rifle is sighted with a standard front sight, the rear sight has been removed and there are two large non-professional holes drilled in the rear left side of the barrel. The top of the wrist has been inletted and a Lyman peep sight with soldered homemade copper aperture has been installed on the receiver. (59438-234) {C&R} Est. 75 - 175

The rifle is sighted with a brass bead front sight and sporting rear sight, the elevator for which is absent. (14A9275-81) {C&R} Est. 75 - 150
553	forend it is crisply marked "FI"; the barrel address is softened lightly but still easily legible. The Remington information marked on the tang remains crisp. The right side of the frame features the takedown lever which still functions well mechanically, and the rifle is sighted with a silver bead front sight and a v-notch rear sight. A solid example of Remington smallest rolling block rifle. (14A9275-83) {C&R} Est. 200 - 400 Remington No. 4 Rolling Block Rifle serial #J188969, 32 RF, 24" octagon barrel with a very good bore with scattered light pitting with concentrations near the chamber. The barrel of the rifle has developed a gray-brown patina with light high edge wear and specks of oxidation, oxidation staining, and pinprick pitting. The frame of the rifle has toned lightly to brown with muted case color remaining on the sides and freckling and light oxidation staining along the edges of the frame. The hammer and breechblock retain about 80% original blue with light operational wear. The plain straight grip perch-belly walnut stock and forend are in very good plus to near excellent condition as lightly cleaned with a few scattered small divots, light handling marks, and an added finish. The barrel address and tang markings remain easily legible, the underside of the barrel is crisply marked "%21' (serial number)", and beneath the forend the barrel is which still functions well mechanically, and the rifle is sighted with a silver bead front sight and a v-notch rear sight. (14A9275-82) {C&R}	557	Stevens Favorite Falling Block Rifle serial #L799, 22 LR, 22" part octagon part round barrel with a very good lightly pitted bore with light damage at the crown. The metal surfaces of the rifle have an overall brown patina. The plain straight grip walnut stock and forend are in very good plus condition as cleaned with a divot in the toe and two in the toe of the buttplate, scattered light dings and scratches, and an added finish; the buttplate is marked "STEVENS / FAVORITE" and has had "WG" carved into it below the heel. The barrel markings remain largely legible, with only a light bit of fading, and the left side of the barrel has been lightly stamped "W. H. GRAHAM". A few of the screws show light slot damage. The rifle is sighted with a brass blade front sight and a flip-up v-notch rear sight. (14A9275-84) {C&R} Est. 150 - 250 Winchester Model 60A Bolt Action Single Shot Rifle 22 S, L, LR, 23" barrel with a bright very good plus bore with a few pinprick pits. The metal surfaces of the rifle have a mottled gray-brown patina with a few specks of oxidation, light dings, and scratches. The plain pistolgrip walnut stock is in very good condition with scattered light scratches, dings, and flaking of the finish on the toeline; the stock is fitted with a "WINCHESTER REPEATING ARMS CO" marked hard rubber buttplate in very good condition with some chipping at the toe and scattered dings. The barrel address has softened lightly but remains easily legible, and the Winchester proofs on the barrel and bolt are partially faded. The rifle is sighted with a brass bead front sight and sporting rear sight, the elevator for which is absent. ## Lot Title/Description

559	Winchester Model 69A Bolt Action Rifle	563	Winchester Model 1894 Lever Action Saddle Ring Carbine
	22 S, L, LR, 25" barrel with a bright excellent bore. The metal surfaces		serial #40003, 30 WCF, 20" nickel steel barrel with a dark, very good
	of the rifle retain about 90% original blue with scattered light oxidation		bore with light pitting throughout. The barrel and full-length magazine
	along the barrel, freckling on the receiver, and oxidation staining on the		tube have developed a brown patina with specks of oxidation
	bolt handle. The plain pistolgrip walnut stock is in very good condition		concentrated on the magazine tube and light wear on the barrel bands
	with scattered light scratches, tiny chips near the toe, and the stock has		and at the muzzle. The frame has moderate oxidation staining atop a
	been cut giving a 12 3/4" length of pull; the buttplate is absent. The		gunmetal gray patina, with specks of light oxidation and spots of original
	barrel markings remain crisp and easily legible. The rifle is sighted with a		blue remaining in the protected areas around the hammer, lever, and
	silver bead front sight and a receiver mounted aperture sight. A nice rifle		saddle ring. The lever shows traces of case color but has overall toned
			-
	that only needs a new buttplate. (14A9275-73) {C&R}		to brown. The straight grip walnut stock and forend are in very good
	Est. 150 - 250		condition with numerous light-to-moderate divots along the underside of
50	Winchester Model 270 Slide Action Rifle		the stock, about half of which have been partially repair with wood putt
	serial #B1416892, 22 S, L, LR, 20 1/2" barrel with bright excellent bore.		five parallel linear divots in the toe, and scattered light scratches. The
	The metal surfaces of the rifle retain about 95% original blue and		barrel and tang markings are lightly faded but remain largely legible. The
	anodized finishes with light oxidation staining on the barrel and		rifle is sighted with a Lyman bead front sight and the rear sight has bee
	scattered light scratches on the receiver. The checkered pistolgrip		removed and the dovetail remains empty. The saddle ring and post has
	walnut stock and forend are in very good condition with scattered finish		been removed from the rifle, and a few of the screws show light slot
	flaking on the forend, light wear on the edge of the pistolgrip, and a few		damage. (14A8958-75) {ANTIQUE}
	light scratches. The barrel markings remain crisp, and both barrel and		Est. 500 - 700
	receiver are marked with clear Winchester proofs. The rifle is sighted	564	Western Arms Long Range Boxlock Double Shotgun
	with a ramped silver bead front sight and a sporting rear sight, and the		serial #30108, 12 ga, 26" barrels choked full and improved modified wi
	receiver is grooved for optics mounting. (14A9275-75) {MODERN}		bright very good bores with scattered light frosting and two light dings i
	Est. 100 - 200		the bore near the muzzle on the right barrel. The barrels retain about
51	Lefever Nitro Special Boxlock Double Shotgun		70% original blue with thinning along the barrels from light cleaning,
	serial #2-32366, 410 Bore, 26" barrels choked modified and full with		scattered light pitting, and a few specks of light oxidation. The frame
	bright very good bores with spots of light pitting and a few light dings		shows muted case color along the left side, upper tang, and protected
	visible in the bore. The barrels have toned to a gray-brown patina with		areas around the triggerguard with the lower edge of the left side, the
	thinning toward the muzzle, traces of blue in the protected areas along		underside, and the majority of the right side having been cleaned to
	the rib, the underside of the rib is separating at the muzzle, a few light		gunmetal gray, scattered pinprick pitting and specks of oxidation, and
	dings in the barrel, and some traces of light pitting. The frame retains		light oxidation on the upper tang. The pistolgrip walnut stock and foren
	about 40% blue finish with the concentration on the right side of the		are in about very good condition with flaking of the added finish, with
	frame and the remainder having toned to brown, with light-to-moderate		concentration at the buttplate and along the toeline, finish crazing, and
	wear on the high edges and contact points and a few spots of pinprick		scattered light scratches and dings. The barrels are crisply stamped
	pitting. The checkered pistolgrip walnut stock and splinter forend are in		">LONG RANGE GUN WESTERN ARMS CORP., ITHACA, N.Y.
	very good condition as lightly cleaned with a repair cut in the buttstock		Est. 100 - 200

The lockplates and hammers, and the tang has remains of the same flaking gold finish found on the rib, as well as moderate oxidation staining. The brass triggerguard and buttplate have a few small dings and are lightly</li> </ul>
7	condition with a repaired circular 1" chip behind the bolt, light handling marks, and the black rubber rifle pad has dried out and cracked. The chrysanthemum has been ground off, but the receiver is still crisply marked with the serial number and type identification. The bolt has been elongated and bent, and the rifle is sighted with a Lyman ramped bead front sight; the rear sight has been removed from the rifle and no replacement added. A rifle that should shoot well, once provided with a rear sight. (14A9290-24) {MODERN} Est. 50 - 100 Yugoslavian M48 BO Bolt Action Rifle serial #W09981, 8mm Mauser, 23 1/4" barrel with a very good bore with light pitting but strong rifling. The rifle retains about 97% arsenal applied blue with light wear on the contact points and high edges, scattered light scratches, and some pinprick pitting beneath the finish. The European hardwood stock is in about excellent condition as lightly cleaned with a small chip on the left side of the handguard at the rear sight, and scattered light scratches and dings. The stock is marked with partially faded proofs on the underside of the wrist and in the sling cut on both sides, and is serialized and matching to the rifle; the stock is fitted with a	58	<ul> <li>nice jeweling otherwise. The checkered pistolgrip walnut stock is in about very good condition with flaking of the finish around the checkering, on the comb, and at the buttplate, and a small ding on the comb; the stock is fitted with a 3/4" "Remington" marked rubber pad. T markings on the barrel and receiver remain crisp. The rifle has no provisions for open sights, but the receiver is drilled and tapped for optics mounting; Leupold two-piece standard scope bases are mount to the receiver. A solid rifle that will likely make a nice shooter and big game rifle. The rifle retains about 97% arsenal applied blue with light wear on the contact points and high edges, scattered light scratches, and some pinprick pitting beneath the finish. The European hardwood stock is in about excellent condition as lightly cleaned with a small chip on the left side of the handguard at the rear sight, and scattered light scratches and dings. The stock is marked with partially faded proofs on the underside of the wrist and in the sling cut on both sides, and is serialized and matching to the rifle; the stock is fitted with a cupped steel buttplate which has been cleaned to bright. The metal surfaces of the rifle have scattered small "(square) 1", "(circle) 1", and "(circle) 7" proofs marks, but the receiver is unmarked with exception of the serial number; the bolt and magazine floorplate are serialized and matching to the rifle. The underside of the arrel is import marked just ahead of the bayonet lug. The trigger of the rifle has been replaced with what appears to be a Timney or similar style aftermarket trigger, and the front sight blade is an unmarked attermarket replacement; the original tangent rear sight graduated to 2000 meters remains intact. A solid	58	<ul> <li>nice jeweling otherwise. The checkered pistolgrip walnut stock is in about very good condition with flaking of the finish around the checkering, on the comb, and at the buttplate, and a small ding on the comb; the stock is fitted with a 3/4" "Remington" marked rubber pad. T markings on the barrel and receiver remain crisp. The rifle has no provisions for open sights, but the receiver is drilled and tapped for optics mounting; Leupold two-piece standard scope bases are mounte to the receiver. A solid rifle that will likely make a nice shooter and big game rifle. (14A9463-3) {MODERN}</li> <li>Est. 300 - 500</li> <li>Unmarked Percussion Double Shotgun with Domed Tack Decoration about 16 ga, 27" Damascus twist barrels choked modified and improv cylinder with oxidized bores. The barrels have a nice brown patina wit spots of old oxidation along the barrels and light edge wear at the muzzle, and the rib has a flaking gold finish. The lockplates and hammers have pewter patina with light oxidation staining on the hammers, and the tang has remains of the same flaking gold finish found on the rib, as well as moderate oxidation staining. The brass triggerguard and buttplate have a few small dings and are lightly tarnished. The walnut stock is in about very good plus condition as lightly cleaned with a small chip behind the tang, a light abrasion at the nose, and scattered light handling marks. The stock has numerous decorative rounded tacks driven into the stock along its length and wa originally obtained by the consignor from the St. Regis Indian Reservation in Northern New York State many many years ago. The hammers are lightly foliate scroll engraved and the lockplates are engraved with nature scenes depicting game birds in flight, as well as being marked with the name "Golcher". The hammers fit loosely when cocked, and the rear trigger is noticeably heavier, but both appear to</li> </ul>

The shotgun style steel buttplate is slightly oversized and its edges remain proud of the wood. Mechanically the action appears to function ok, and there is no play. A

619	Smith & Wesson No. 1 Second Issue Revolver serial #17003, 22 RF, 3 3/16" barrel with a lightly oxidized and pitted bore. The metal surfaces of the barrel are mostly gray with splashes of blue in the protected areas around the ejector rod, a mottled mix of blue and gray along the bottom three flats of the barrel, in addition to pitting and stains from oxidation. The cylinder is a mottled mix of gray, brown and blue, showing light pitting and stains from oxidation. The frame retains about 95% original silver plate with most of the loss at the high edges with evidence of light cleaning on the sideplate, scattered scratches and minor bubbling. The smooth rosewood grips are numbered to the gun and rate about very good to excellent with light scuffing on the edge of the right butt and light handling marks. The barrel and cylinder are assembly numbered to the gun, barrel-to-frame fit remains tight, it has 1855 and 1859 patent dates on the cylinder and it still times and locks up correctly. A fine little No. 1 Second Issue.	624	Custom Winchester Model 67 Smoothbore Single Shot Rifle 22 shot, 27" barrel with a very good bright bore. The barrel has been professionally reamed and honed and although not marked smoothbore there is no evidence of rifling whatsoever. The barrel is marked "S. L. OR L.R-" and as previously mentioned is not marked "SMOOTHBORE" anywhere on the barrel. The metal surfaces retain about 90% thinning original blue with some sparse light scratches and tiny impact marks where the rear sight was removed. The bolt remains overall bright with light operational wear. The plain pistolgrip walnut stock remains in very good condition with scattered light scratches and handling marks. The rear sight remains in place, the rear sight slot remains open. A good custom made "smoothbore" rifle. (56520-3507) {MODERN} [Richard "Stretch" Kennedy Collection] Est. 100 - 200
620	(1X8A9334-5) {ANTIQUE} Est. 300 - 600 U.S. Model 1842 Single Shot Percussion Pistol by H. Aston & Co.		serial #056756, 25 ACP, 2 1/4" barrel with an excellent bore. The metal surfaces retain about 75-80% original blue with thinning and freckling. The black synthetic grips are very good with signs of normal wear. The
020	.54 cal., 8" barrel with an oxidized and pitted bore. The metal surfaces have been lightly cleaned to pewter with scattered oxidation blemishes, pitting and handling marks. The brass buttcap assembly, triggerguard assembly and barrel band assembly have toned to goldenrod and rate	626	pistol comes with one factory magazine and what looks like the original two-piece box. (22A9506-22) {MODERN} Est. 50 - 100 Thompson Center Black Diamond In-Line Muzzle Loading Rifle
	about very good with scattered light-to-moderate dents, dings and scratches. The once-piece walnut stock rates good as lightly refurbished showing light-to-moderate handling marks, chipping between the barrel and lock screw, scattered smaller chips around the lock, shallow 1/4" ding in the right pistolgrip and a very small crack extending from barrel band. The gun features an iron swivel ramrod, bolster mounted nipple, the lock is dated 1846 and the barrel is stamped "GWH". The lock is crisp but the half cock notch is worn. (1X8A9407-2) {ANTIQUE}	627	<ul> <li>serial #S40520, .50 cal, 22 1/2" barrel with a bright excellent bore. The stainless barrel rates about very good with moderate oxidation staining overall. The checkered black Rynite pistolgrip stock with TC-marked ventilated rubber recoil pad rates excellent. The rifle is equipped with a red fiber optic front sight, a fully adjustable two-dot green fiber optic rear sight, sling swivel studs and a metal ramrod. (23A9506-5) {ANTIQUE} Est. 50 - 100</li> <li>Winchester Model 94 Saddle Ring Carbine</li> </ul>
621	Est. 500 - 700 U.S. Model 1819 Single Shot Percussion-Converted Pistol .54 cal., 10" barrel with an oxidized and pitted bore. The metal surfaces	627	wincrester woodel 94 Saddie King Carbine serial #931479, 32 WS, 20" round barrel with full magazine and a mostly bright about very good plus bore showing a few small patches of light pitting in the strong rifling. The metal surfaces retain about 97%
	are lightly cleaned to a pewter-brown mix with scattered oxidation stains, pitting and handling marks. The walnut stock rates about very good as lightly re-varnished showing scattered light-to-moderate dents, dings and scratches. The conversion has a drum with nipple, a later added non-factory replacement hammer with "CGO" cast into it, incorrect hammer screw, the hammer lock unique to this gun no longer functions due to the replacement hammer. The iron swivel ramrod is present but somewhat loose and the upper and lower tang screws are replacements. The lock is marked "S. NORTH / US / MIDLTN CONN", it is dated 1822 on the rear of the lock, the barrel is marked "JDJ / P / US" and a strong cartouche remains on the side of the stock. (1X8A9407-5) {ANTIQUE} Est. 400 - 600	628	reapplied blue with minor silvering of the high edges and wear points, a few areas of fine pinprick pitting under the finish and on the lever, scattered light impact marks and a couple tiny spots of loss toning to a gunmetal gray patina. The smooth walnut straight grip stock and forend rate very good plus with a light added finish, a couple short hairline cracks and the expected few minor handling marks from the years. The carbine is equipped with a Marbles brass bead front sight and semi-buckhorn rear sight, intact ring staple (saddle ring is no longer present) and the action appears to function well mechanically. A good looking 1921-vintage Winchester '94 that has plenty of life left in it. (23B9506-3) {C&R} Est. 400 - 600
622	Est. 400 - 600 High Standard Model H-E Semi-Auto Target Pistol serial #81713, 22 LR, 4 1/2" heavy barrel with a bright excellent bore. This deluxe model pistol retains about 85% plus original blue with most of the loss due to cleaned oxidation with scattered pitting on the left side of the barrel in addition to high edge wear, slight thinning of the grip frame and other handling marks. The checkered walnut Roper style factory grips rate very good to excellent with handling marks. The pistol features a serrated Patridge front sight and black blade adjustable rear sight. It includes a two-tone factory magazine. (1X88873-109) {C&R}	628	Browning Auto 5 Buck Special Semi-Auto Shotgun serial #74G47500, 12 ga., 23 1/2" Buck Special slug barrel choked modified with a bright excellent bore. The metal surfaces of this 1974-manufactured Belgian autoloader retain around 90% original blue with moderate edge wear on the receiver, particularly around the loading port, light fading on the barrel around the muzzle and receiver, minor slot damage on the lower tang screw and a few minor impact marks. The bolt shows spots of light staining. The high gloss checkered French walnut pistolgrip stock and fluted forend rate very good plus with a few light handling marks overall while the FN-marked hard rubber buttplate rates excellent with the slightest signs of use. The receiver is
623	Mauser Model Es340B Single Shot Bolt Action Rifle serial #196910, 22 LR, 26 3/4" barrel with a bright excellent bore. The barreled action retains about 98% original blue with very minor muzzle and bolt knob wear and a few scattered spots of light oxidation and pinprick pitting. The triggerguard and Mauser-trademarked buttplate are toning to a gray-brown patina also with areas of light oxidation and		ornamented with engraved zig-zag scroll around the edges and loose foliate scroll in the center with the left side marked "Light Twelve" in script atop the Browning name and a bust of Mr. Browning. The shotgun is equipped with a gold-plated trigger, sling swivel studs and factory rifle sights. A handsome Auto 5 Buck Special. (23A9400-69) {MODERN} Est. 500 - 700
	pinprick pitting. The grooved receiver bears the Mauser banner logo and has "(crown) / B" & "U" proofs as does the serial-matched barrel which is also stamped "D.R.P. D.R.G.M." along with a "Ch51" metal materials source code. The smooth walnut pistolgrip stock rates about very good with a few dents on the right grip and some scattered minor impact marks from use and shows some nice figure. The triggerguard has been shortened and a nicely shaped wood plug fitted in front of the bow. The right butt is stamped with a Mauser factory cartouche and there are the remnants of a paper sticker marked "1940/ Innsbruck" on the toe line. The sling swivels and sights remain intact, minus the front sight hood. A good example of these commercial smallbore Mauser single shot rifles. (23B9378-9) {C&R} Est. 400 - 700	629	Winchester Model 1905 Semi-Auto Rifle serial #16609, 32 Win SL, 22" barrel with a bright excellent bore. The metal surfaces of this 1907-manufactured rifle are toning to a pewter-gray patina with scattered spots of old oxidation and a few light impact marks overall along with traces of original blue along the barrel and on the wood line. The smooth walnut straight grip stock and forend rate very good plus with a few repaired hairline cracks and scattered minor impact marks from honest use while the checkered hard-rubber Winchester-marked buttplate remains in very good plus condition with light wear overall. The rifle is equipped with a bead front sight, folding leaf rear sight and an aperture tang sight and one original five-round magazine is included. A very good example of these early self-loading rifles. (23A8958-113) {C&R} Est. 300 - 500

The barrel is a dark plum-brown patina showing a few spots of old pitting near the breech and some minor oxidation staining scattered about. The action retains some generous case-hardened colors throughout toning to a deep gray patina also with some spots of old oxidation staining. Some of the screw heads show some light slot wear and Arthur Hill's Horncastle address on the barrel is rather soft. The checkered pistolgrip walnut buttstock and forend remain in very good plus condition showing a strong oil finish and nice checkering with some scattered light dings and scuffs. There is a very small drying crack along the right side of the butt through the attractively figured grain. The rear sight is missing, barrel lock-up shows just a little bit of play and the hammer seems to function well mechanically. (13A9438-307) {C&amp;R} Est. 300 - 600</li> </ul>
542	the forend and light dings. The original checkered horn buttplate is intact and rates very good showing a thin chip at the toe. Length of pull is 14 3/8", lock-up is solid, barrels are on-face and the hammers seem to function well mechanically. (13A9438-416) {ANTIQUE} Est. 300 - 500 Stephen Grant Underlever Double Hammergun serial #3216, 12 ga, 30 1/2" damascus barrels choked cylinder with partially bright bores showing some scattered spots of moderate pitting. The metal surfaces of this shotgun are a mottled gunmetal gray and mild brown patina showing scattered small spots of moderate oxidation staining, a few minor dents along the barrels, a spot of heavier oxidation along the buttplate and faint remnants of damascus patterns along the barrels. The frame and back action locks are embellished with some lovely fine foliate scrollwork that remains mostly intact, both lockplates are marked "S. GRANT" and the barrel rib with his 67A St. James Street London address. The checkered walnut buttstock and forend remain in good condition showing a thin 1" chip at the right side edge of the forend, scattered light dings and a 6" area of heavy water staining along the left side butt. The stocks have darkened from the years but still show some attractive grain figure here and there. The shotgun features rebounding hammers that seem to function well mechanically, length of pull is 13 1/2", lock-up is solid and the barrels on-face. (13A9438-352) {ANTIQUE}	645	there is light visible between the breeches although lock-up is surprisingly solid and the rebounding hammers seem to function well mechanically. Given the repairs this old Lefever has seen no thought should be given to its loading or firing; it still remains a good and very early example for the Lefever collector. (13B9438-322) {ANTIQUE} Est. 600 - 800 British Single Shot Rook Rifle by Arthur Hill 32 CF, 26" octagon barrel with an about good bore showing scattered patches of light pitting, minor oxidation and good rifling throughout. There is a very small drying crack along the right side of the butt through the attractively figured grain. The rear sight is missing, barrel lock-up shows just a little bit of play and the hammer seems to function well mechanically. (13A9438-307) (C&amp;R) Est. 300 - 600</li> <li>Scottish Falling Block Rook Rifle by Alexander Henry serial #3730, 38 CF, 25° octagon barrel with a bright very good plus bore showing a few spots of pinprick pitting, minor frosting and strong rifling throughout. The barrel of this rifle has mostly toned to a blue-gray patina showing ailvering along the high edges, a few small spots of minor oxidation staining and light dings. The frame and back action locd are a similar mild gray patina showing a few areas of more moderate</li> </ul>
	the forend and light dings. The original checkered horn buttplate is intact and rates very good showing a thin chip at the toe. Length of pull is 14 3/8", lock-up is solid, barrels are on-face and the hammers seem to function well mechanically. (13A9438-416) {ANTIQUE} Est. 300 - 500 Stephen Grant Underlever Double Hammergun serial #3216, 12 ga, 30 1/2" damascus barrels choked cylinder with partially bright bores showing some scattered spots of moderate pitting. The metal surfaces of this shotgun are a mottled gunmetal gray and mild brown patina showing scattered small spots of moderate oxidation staining, a few minor dents along the barrels, a spot of heavier oxidation along the buttplate and faint remnants of damascus patterns along the barrels. The frame and back action locks are embellished with some lovely fine foliate scrollwork that remains mostly intact, both lockplates are marked "S. GRANT" and the barrel rib with his 67A St. James Street London address. The checkered walnut buttstock and forend remain in good condition showing a thin 1" chip at the right side edge of the forend, scattered light dings and a 6" area of heavy water staining along the left side butt. The stocks have darkened from the years but still show some attractive grain figure here and there. The shotgun features rebounding hammers that seem to function well mechanically, length of pull is 13 1/2", lock-up is solid and the barrels on-face. (13A9438-352) {ANTIQUE}		<ul> <li>there is light visible between the breeches although lock-up is surprisingly solid and the rebounding hammers seem to function well mechanically. Given the repairs this old Lefever has seen no thought should be given to its loading or firing; it still remains a good and very early example for the Lefever collector. (13B9438-322) (ANTIQUE) Est. 600 - 800</li> <li>British Single Shot Rook Rifle by Arthur Hill 32 CF, 26" octagon barrel with an about good bore showing scattered patches of light pitting, minor oxidation and good rifling throughout. The barrel is a dark plum-brown patina showing a few spots of old pitting near the breech and some minor oxidation staining scattered about. Th action retains some generous case-hardened colors throughout toning to a deep gray patina also with some spots of old oxidation staining. Some of the screw heads show some light slot wear and Arthur Hill's Horncastle address on the barrel is rather soft. The checkered pistolgring walnut buttstock and forend remain in very good plus condition showing a strong oil finish and nice checkering with some scattered light dings and scuffs. There is a very small drying crack along the right side of the butt through the attractively figured grain. 		_	
720	U.S. Militia Officer's Light Artillery Saber Circa 1830-1840 Retailed by	724	French Early Model 1886 Lebel Bayonet
	A.W. Spies		Pairs with the 8mm Model 1886 Lebel rifle. 25 1/4" overall length, 20
	This brass-hilted 19th century saber measures 34 1/2" overall and bears		1/2" quadrangular "épée" blade with hollow-ground flutes and a spike
	a 30" curved single-edged blade with single wide stopped fullers, angle-ground edges and a flat-faced trailing point. The spine of the		point. This specimen appears to be an earlier configuration that has escaped the later modifications, retaining the original blade length, hook
	blade is marked "A.W. SPIES". Either face of the blade is decorated by		quillon and permanently affixed silver-alloy handle. The blade is in very
	bright blue panels with gilt etched floral sprays and panoplies of arms.		good plus condition with few handling marks, worn mostly to bright with
	The blade rates very fine, retaining estimated 90% bright blue on the		traces of original blue mostly near the guard and streaks of speckled
	panels with a thin layer of speckled ochre oxidation forming on the		ochre and dark smoky gray patina along the length. The blued steel
	lowermost spray at the ricasso. The mirror-bright foible exhibits several		guard is marked with worn French proofs and the number "49544",
	curiously deep splashes of black pitting which have been mostly		rating very good plus to excellent with some silvering at the edges and
	polished out; only the deepest recesses of the pitting remain. The hilt		spots of ochre oxidation. The silver-alloy handle remains mostly bright
	consists of a flat stirrup guard with half-oval langets and a reverse "P"		with light handling wear and speckled areas of black tarnish, rating fine
	knucklebow, a plain bird's head pommel extending into a backstrap and		overall. The included scabbard is in very good plus to excellent
	a checkered bone grip. The brass surfaces are patinated to a dull		condition, retaining estimated 95% original blue and freckled by pinprick
	brownish mustard-yellow and flecked by gray spots but exhibit few		pitting throughout. (128956-29D)
	handling marks. The bone grip rates very fine with very little wear except	725	Est. 50 - 75
	for the occasional chip at the edges. The included scabbard is brass with a small vestigial drag and rates very good, exhibiting few if any	/25	U.S. Model 1905 Bayonet by Springfield Armory Pairs with the U.S. Model 1903 (and variants) and M1 Garand rifles. 20
	dings or handling marks and a spotted gray and brown patina spattered		1/2" overall length, 16" straight single-edged blade with a 5 1/2" false
	across the surface. A battered leather strap hangs from the upper		edge, single squared unstopped fullers and a spear-point tip. The
	suspension ring which may be original and, despite overall poor		ricasso is marked "S A / (Flaming Bomb) / 1908" on the reverse face and
	condition, still shows traces of a gilt floral border design on the outer		"US / 313637". The bright blade is in very good plus to fine condition,
	face. Though seemingly intended as a dress sword, this weapon was		flecked by instances of smoky gray patina, ochre staining, and remnant
	nevertheless built suitable for battlefield service and could have seen		areas of shallow pinprick pitting that have been smoothed by a previous
	use in the Mexican-American War, Civil War or both. (12B9511-29)		cleaning. A few small dings are visible on the edge. The metal surfaces
	Est. 500 - 700		of the hilt are stained ochre-brown with remnants of original blue
721	U.S. Model 1873 Socket Bayonet		retained mostly on the tang and pommel. The walnut grips exhibit only
	18 1/4" triangular blade with hollow-ground back flutes, shallow face		light handling wear and the hilt rates very good plus overall. The
	flute, running 17" from the tip, "U.S." marking on the face and a beak		included scabbard, consisting of a green leather body and two steel
	point; 3" bottom-bridged socket with a three-step obverse-side L-mortise		mounts, rates very good plus with light scuffing and moderate staining of
	and a clasp ring. The bayonet rates near excellent, retaining estimated 98% original blue with the occasional handling mark here or there, a few		the body, moderate brown patination of the mounts, excellent stitching and little to no loss or separation. (128956-29E)
	areas toning to plum on the socket and a bit of silvering at the edges.		Est. 50 - 100
	(128596-29A)	726	U.S. Model 1892/98 Krag Bayonet
722	U.S. Model 1917 Bayonet by Remington		Pairs with the U.S. Model 1892 Krag-Jorgensen rifle and variations. 16"

#### Title/Description Lot

Title/Description Lot

736	U.S. Model 1861 Navy Rifle Bayonet by Collins
	27 1/8" overall length, 22 3/8" single-edged yataghan-style blade with a 4 1/2" false edge, wide single unstopped fullers and a trailing
	spear-point tip. The ricasso is marked "Collins & Co. / Hartford / Conn."
	on the reverse face. The blade is in generally good condition, toned to
	varying shades of smoky gray throughout and spanned by sweeping
	areas of shallow speckled pitting which has been partially smoothed by
	a previous cleaning. The very end of the tip, perhaps the last 1/8" or so, has been lost and a tiny patch of dark oxidation is evident at the break.
	The cast brass hilt is in very good condition, remaining a mostly bright
	greenish-yellow and exhibiting numerous tiny handling marks,
	occasional areas of ochre-brown patination and instances of green and
	white verdigris evident in the recesses of the ribbing and stud guide
737	channel. (128783-65A) U.S. Zouave-Type Bayonet by Collins
131	This bayonet, following the general pattern of the Remington Model
	1862 "Zouave" musket bayonet, measures 25 1/8" overall and features a
	single-edged yataghan-style blade with a 5" false edge, wide single
	unstopped fullers and a spear-point tip. The inner bore diameter of the
	muzzle ring is approximately 0.895". The ricasso is marked "Collins & Co. / Hartford / Conn." on the reverse face and dated "1862" on the
	obverse. The blade is in very fine condition and polished near
	mirror-bright; smoky gray remnants of polished patina remain and very
	few handling marks are present. The cast brass hilt is lightly patinated
	with areas of dark green-gray, brown and ochre; occasional areas of
	light green verdigris are also present, as are just a few handling marks. The hilt is in overall very good condition. The included scabbard,
	consisting of a black leather body with a brass tip and collar, is in very
	good condition overall, exhibiting light wrinkling and a few instances of
	flaking on the body and thin grayish patina on the brass alongside light
	handling marks, occasional spots of verdigris and a small indentation on
	the reverse side of the tip chape. Otherwise the scabbard is complete,
738	sturdy, tightly fitted and retains excellent stitching. (128783-65B) Unmarked Socket Bayonet
00	19 1/2" triangular blade with hollow-ground full-length back flutes, a
	full-width face flute running 18 5/8" from the tip and a thick beak point; 3"
	socket with a bottom-bridged three-step obverse-side L-mortise and a
	clasp ring. The inner bore diameter measures approximately 0.891" at
	the forward aperture. The steel is finished bright and spattered by areas of moderate ochre oxidation; few if any handling marks of note are
	evident and the bayonet is in very good plus condition as a whole.
	(128783-65C)
739	U.S. Model 1835/42 Socket Bayonet
	18" triangular blade with full-length hollow-ground back flutes and a
	full-width face flute running 16 1/2" from the beak-point tip; 2 5/8" socket with a top-bridged three-step reverse-side L-mortise and a clasp ring.
	The top face of the blade is deeply stamped "US / SC" just behind the
	flute. The blade is finished bright and flecked with remnants of smoky
	pewter patina; the socket is similarly flecked with areas of fine dark gray
	and just a few specks of ochre-brown staining. The bayonet is in quite
	fine condition overall with few if any visible handling marks. (128783-65D)
'40	U.S. Socket Bayonet
-	This bayonet is of similar configuration to the U.S. Model 1855/70 but
	with slightly larger dimensions: 19 3/4" triangular blade with
	hollow-ground full-length back flutes and a full-width face flute running
	18 3/4" from the beak-point tip; 3" socket with a bottom-bridged
	three-step obverse-side L-mortise and a clasp ring. The bore diameter measures approximately 0.898" at the forward aperture. The top face of
	the socket is marked "E. 54". The steel surfaces are bright with a smoky
	gray patina, stronger on the top face than in the back flutes, with darker
	pewter patina in the last 4" at the tip and occasional hints of ochre
7.4.4	staining on the socket. (128783-65E)
'41	U.S. Model 1864 H&P Conversion Socket Bayonet 17 7/8" triangular blade with full-length hollow-ground back flutes, "U.S."
	lettering and a shallow full-width face flute running 16 3/4" from the
	beak-point tip; 3" socket with a bottom-bridged obverse-side T-mortise.
	The blade is finished near mirror-bright with the occasional speck of gray
	patina here or there; the socket exhibits several reflective watery
	ochre-brown stains and some areas of blue tint that resembles case
	coloring. Overall the bayonet is in very fine to near excellent condition.
	The included scabbard rates somewhat poor, having lost nearly all stitching and exhibiting cracking and flaking of the body, a partial
	separation where the collar attaches to the belt loop as well as flaking
	and some mildew forming on the belt loop itself; other than the stitching,

742	U.S. Model 1855/70 Socket Bayonet 18" triangular blade with hollow-ground back flutes terminating just before the elbow, "U.S." marking on the top face and shallow full-width face flute running 16 3/4" from the beak-point tip; 3" bottom-bridged socket with an obverse-side L-mortise and a clasp ring. The blade is patinated to a pewter gray with occasional areas of ochre staining; trace amounts of original blue are visible mostly at the ricasso and toward the tip. The socket exhibits thin dark oxidation across much of the surface interspersed with speckled areas of original blue and bright spots. Few handling marks are present and the bayonet is in good condition overall. The included scabbard, consisting of a black leather body with a brass tip and a brass-fitted curved leather belt loop, is in fair condition: the brass surfaces are darkly patinated, the tip bears a number of handling dings and the leather exhibits moderate cracking and instances of mildew across the surfaces; otherwise the scabbard remains whole with complete stitching. (128783-65G)
743	First Pattern British 1853 Pattern Enfield Socket Bayonet 17 1/2" triangular blade with hollow-ground back and face flutes, a raised shoulder and a beak-point tip; 3" bottom-bridged socket with an obverse-side L-mortise and a clasp ring. The flat of the top face is marked with War Department proofs and the maker's mark "DEAKIN". The blade is spattered with a light to moderate coat of fine ochre and brown oxidation interspersed with areas of pewter, smoky gray, bright and remnant traces of original blue. The socket is deeply browned with silvering at the edges and hints of original blue. Overall the bayonet is in about good condition. (128783-65H)
744	U.S. Model 1816 Socket Bayonet 16 1/4" triangular blade with full-length hollow-ground back flutes, "US / SC" marking on the top face flat and a partial face flute running 9 1/2" from the prow-point tip; 3" bottom-bridged socket with an obverse-side T-mortise. The metal is finished bright and flecked with dark smoky flecks of gray and brown patina; the forte of the blade is more pewter-toned and the surface brightens in the foible where not flecked by the aforementioned dark gray. Few handling marks are present and the bayonet is in fine condition overall. (128783-65J)
745	U.S. Model 1816 Socket Bayonet 15 7/8" triangular blade with full-length hollow-ground back flutes and a narrow face flute running 9 1/2" from the prow-point tip; 23" bottom-bridged socket with an obverse-side T-mortise. The forward aperture of the socket is indented into a "D" shape. The edges are rough and the steel exhibits moderate to strong oxidation throughout. Overall the bayonet is in fair condition. (128783-65K)
746	U.S. Model 1816 Socket Bayonet 15 3/4" triangular blade with full-length hollow-ground back flutes and a narrow face flute running 8" from the prow-point tip; 2 7/8" bottom-bridged socket with an obverse-side T-mortise. The top face flat is marked "US / JB", "CR" and "W"; the obverse side of the socket is stamped "H / a" and "79". The steel is deeply service-browned and exhibits a number of storage and handling dings particularly at the contact points of the socket, scattered tiny pinprick pits on the blade and occasional hints of ochre, all of which have been partially smoothed by a previous cleaning. The markings remain crisp and the browned finish remains strong. Overall the bayonet is in very good condition. (128783-65L)
747	U.S. Model 1816 Socket Bayonet 16" triangular blade with full-length hollow-ground back flutes and a narrow face flute running 8 3/4" from the prow-point tip; 3" bottom-bridged socket with an obverse-side T-mortise. The steel surfaces are toned to a polished pewter patina flecked by smoky areas of dark gray and occasional areas of ochre-brown staining. Instances of previously cleaned near-black texturing and the barest hints of ochre are present in the last 3-4" of the tip in the flute and at the shank. Very few if any handling marks are present and the bayonet is in very good plus to excellent condition. (128783-65M)
748	U.S. Model 1816 Socket Bayonet 16" triangular blade with full-length hollow-ground back flutes and a narrow face flute running 9 3/4" from the beak-point tip; 3" bottom-bridged socket with an obverse-side T-mortise. The steel surfaces are finished bright and spattered by smoky clouds of gray patina; areas of dark brown patina are present on the socket. The blade shows very few handling marks and some contact wear is visible at the edges of socket. Overall the bayonet is in very good plus to excellent condition. (128783-65N)

## Lot Title/Description

67	Swedish Model 1896 Mauser Bayonot	771	LLS Reminaton Zouave Bayonet
) (	Swedish Model 1896 Mauser Bayonet	[77]	U.S. Remington Zouave Bayonet
	Pairs with the Model 1896 Swedish Mauser rifle. 12 7/8" overall length, 8		Pairs with the Remington Model 1863 "Zouave" rifle. 25" overall length,
	1/4" straight double-edged blade with single unstopped fullers and a		20" single-edged "yataghan" blade with single wide unstopped fullers
	spear-point tip. The ricasso is stamped "(crown) / 533" on the reverse		and a spear-point tip. The ricasso is marked with a small "S" on the
	face and "(crown) / C" on the obverse. The blade exhibits some areas of		reverse face; a matching "S" appears on the reverse face of the
	shallow pitting from oil corrosion but remains quite bright with no other		crosspiece, a "C" on the obverse and a "B.H." mark on the spine of the
	blemishes. The blued steel hilt exhibits some silvering on the faces and		grip just below the muzzle ring. The blade rates very good plus to fine,
	edges of the guard and pommel; the checkering on the grip is crisp and		exhibiting a strong pewter patina throughout with scattered areas of dar
	the hilt rates very fine to near excellent as a whole. The included steel		smoky gray and spots of previously cleaned shallow black pitting. A few
	scabbard retains estimated 85% blue scattered by light handling marks.		impact dings can be observed on the forward edge but otherwise most
	Overall a nice Mauser bayonet with some light superficial wear.		not all handling marks that may have once been present have been
	(129359-3A)		buffed out. The brass hilt is toned to a softly burnished mustard-yellow
68	British No. 9 Mk. 1 Bayonet		and freckled by dark specks of brown patina; stronger patina and hints
	Pairs with the Lee-Enfield No. 4 Mk. II rifle. 8" straight single-edged		of white-green verdigris are visible in the grooves and recesses. The
	blade with a 2" concave false edge, single unstopped fullers and a		stud lock spring has been lost from the obverse side of the grip and the
	clipped point; 2 1/8" socket with a rear press stud locking system. The		hilt is in overall good condition. The included scabbard consists of a
	blued ricasso of the blade is marked by a broad arrow proof on the		black leather body, brass collar and tip mounts and an original leather
	reverse face. The reverse face of the socket is marked "No. 9 Mk. 1 /		belt frog. The scabbard is in very good plus to fine condition: the body
	B-53" and "PF / 302005" on the reverse face. The bright excellent blade		exhibits light crazing and handling marks but remains whole and sturdy
	is speckled by the barest hints of light gray patina and few if any		with excellent stitching; the brass surfaces exhibit a spotted dark brown
	handling marks. The socket retains estimated 50% original blue with a		patina and a number of tiny handling marks; the frog exhibits moderate
	number of light handling marks and the exposed steel toning to dark		surface crazing, a bit of finish flaking and some fraying where it meets
	gray. The included scabbard is numbered to the bayonet and rates very		the stud of the collar; the leather remains sturdy, complete and retains
			excellent stitching. A fine Zouave bayonet overall. (129434-39B)
	good to fine, exhibiting few handling marks and retaining estimated 65%		
	of the black lacquer finish with the exposed steel (mostly toward the tip)	772	Est. 50 - 75
00	toned to a smooth earthy brown hue. (129359-29A)	112	U.S. Model 1851 Cadet Musket Bayonet
69	British Pattern 1907 Bayonet		Pairs with the U.S. Model 1851 Cadet Musket. The narrow blade is 14
	Pairs with the Short Magazine Lee-Enfield (SMLE) Mk. III rifle. 21 3/4"		1/2" with hollow-ground full-length back flutes continuing through the
	overall length, 17" straight single-edged blade with a rounded spine,		elbow, a full-width face flute running 13 1/2" from the beak-point tip and
	single unstopped fullers and a straight-back point. The ricasso is marked		"US" stamp across the face flat; the socket is 2 5/8" with a top-bridged
	"MA / 1907" on the reverse face and stamped with British proofs. The		reverse-side three-step L-mortise and a clasp ring. The blade retains
	blade retains estimated 90% crisp matte blue finish with a bit of		estimated 60% original blue wearing to a streaked pewter toward the tip
	scabbard wear but otherwise few if any discernible blemishes, rating		the surface is scattered by occasional black areas of previously cleaned
	near excellent overall. The metal surfaces of the hilt retain about 95%		pinprick pitting. The socket is mottled to a smooth blend of blue and
	original blue with some silvering at the edges and a hint of ochre		ochre-brown. The metal surfaces exhibit very few if any handling marks
	staining here or there; the red-brown hardwood grips are in very good		or wear. Overall the bayonet is in very fine condition and will no doubt
	plus condition, the reverse-side grip exhibiting a few handling marks in		serve well to complete the collector's Cadet Musket ensemble.
	the space between the screw-bolts and the obverse-side grip marked		(129434-38)

	blade. The blade remains bright and unsharpened. The special order
	brass double hilt has spots of light staining from sheath storage and the
	maroon micarta handle remains excellent and is separated from the hilt
	by red, white and black spacers. Included is a Sullivan's Model B sheath
	with handle cord. An attractive special order Little Game knife.
	(56519-405W) [Richard "Stretch" Kennedy Collection]
817	Randall Model 21 Little Game Knife
	This standard model knife measures 7 3/8" overall with a 3 1/4" tool
	steel blade equipped with thumb serrations. The blade remains bright
	and unsharpened and the brass single hilt shows light staining from
	sheath storage. The staghorn handle remains excellent and is separated
	from the hilt by red, white and black spacers. A handy Model 21
	perfectly suited for caping or any other delicate skinning. (56519-405X)
0.1.5	[Richard "Stretch" Kennedy Collection]
818	Randall Model 7 Fisherman-Hunter Fixed Blade Knife
	This knife measures 9" overall with a 4 1/2" tool steel blade. The blade
	remains unsharpened and bright overall with a few tiny specks of
	freckling along the top of the obverse side and one tiny speck on the
	reverse side. The brass single hilt shows light staining from sheath
	storage and the exposed nut Duralumin buttcap remains bright with minute storage scratches. The stacked leather washer handle remains
	excellent and is centered between red, white and blue spacers. Included
	is a Johnson roughback Model B sheath with handle cord. A nice early
	Randall Model 7. (56519-405Y) [Richard "Stretch" Kennedy Collection]
819	Randall Model 1 All-Purpose Fighting Knife
	This special order knife measures 8" overall with a 4" stainless steel
	blade. The blade remains unsharpened and bright and the nickel silver
	double hilt shows light tarnish and sheath staining. The black micarta
	handle remains excellent and is separated from the hilt by red, white
	and black spacers. Included is a Johnson roughback Model B sheath. A
	nice special Model knife made in the 1980's by the shop foreman Dave
	Griffin. (56519-405Z) [Richard "Stretch" Kennedy" Collection]
820	Randall Model 16 Divers Knife
	This massive knife measures 11 1/2" overall with a 6 3/4" full tang
	stainless steel blade equipped with thumb serrations. The blade remains
	bright and unsharpened and the brass single hilt shows light tarnish
	from sheath storage. The black micarta fingergrip handle remains
	excellent and is equipped with a brass lined lanyard hole. included is a
	Johnson roughback leather belt sheath stamped "16 W" on the rear. An
	excellent heavy-duty Model 16 knife. (56519-405AA) [Richard "Stretch"
	Kennedy Collection]

821	Randall Model 17 Astro Fixed blade
	This knife measures 10 3/4" overall with a 5 1/2" stainless steel blade
	equipped with a 2 1/2" raised false edge. The blade remains bright and
	shows a light professional sharpening and the hilt is hollowed to store
	small survival items. The nickel silver single hilt remains bright with only
	minor scuffing and staining. The replacement rosewood grips remain
	very good plus with light handling marks. Included is a Johnson
	roughback Model C sheath with handle cord, left side handle strap, hone
	in pocket and plain bright snaps. A very good plus Model 17 Astro.
000	(56519-405AB) [Richard "Stretch" Kennedy Collection]
822	The Fighting Knife Manual
	For the use of Randall Made fighting knives and similar types by W.D. Randall Jr., tenth printing, October 1955. This 36 page booklet covers
	proper grip, stance, attack and defense. Tan cover shows light fold and
	staining but remains fully intact. (56519-405AC) [Richard "Stretch"
	Kennedy Collection]
823	Assorted Small Knives
	This lot contains one Southord JPXS-6F jackknife lock pick set that
	remains in the plastic, an unmarked assisted opening knife measuring 5"
	overall with a 2" partially serrated blade (with nylon carry bag), a
	"Beretta" marked folding knife measuring 7 3/8" long with a blaze orange
	handle and a skeletonized partially serrated 3" blade, and a CRKT fixed
	tanto profile knife measuring 7 1/4" overall with a 3 1/2" blade and a
	polymer sheath with belt clip. (146519-268zz)
824	Tramontina Fixed-Blade Skinning Knife
	13 1/4" overall length, 8 1/4" curved single-edged blade with wide
	hollow-ground secondary bevels, a strong trailing point and a ridged
	concave thumb rest at the base of the spine. The reverse face of the
	blade is machine-etched "TRAMONTINA / INOX-STAINLESS-BRASIL".
	The guard is flat steel, the grip is faux staghorn with black hardwood
	ferrules and the pommel is a flared aluminum bird's head with a pebbled
	bottom face. Overall the knife is in excellent condition with very few if
	any handling marks or signs of wear. The included light tan leather
	scabbard rates near excellent with the tiniest bit of handling wear and
825	some wrinkling on the reverse face. (1X128950-26B)
020	MAS 49/56 Bayonet This is a MAS 49/56 bayonet and scabbard in excellent condition. There
	is light scabbard contact wear on the gray parkerized blade and very
	minor signs of service on the black synthetic handle. The gray
	parkerized scabbard is marked "MAT / F" on the back below the green
	leather suspension strap with belt hook. (1X239359-26A)
826	U.S. MODEL 1896 CADET KRAG BAYONET
	This attractive second type knife bayonet measures 16 1/4" overall and
	bears an 11 5/8" straight single-edged blade with squared single
	unstopped fullers, flat spine, 4 1/2" false edge and tapered spear point.
	The obverse face of the ricasso is marked "US" and the reverse is dated
	"1896". This example is the longer of two known Krag bayonet types
	used by the U.S. Corps of Cadets and shares dimensions with the
	standard-issue model. The nickel-plated blade rates just about excellent
	with some light handling marks and scabbard scratching. The grip and
	pommel, also nickeled, exhibit a few instances of minute dinging but
	otherwise rate excellent as well. The red-tinged linseed-oiled walnut
	grips show a few light handling marks and barely visible flecks of white
	and blue paint. The hilt rates near excellent to excellent as a whole. A
	beautiful West Point dress bayonet. (2X128752-134C)
007	Est. 300 - 500
827	English No. 4 Mark II Spike Bayonets
	One pair of spike bayonets each having a 2" socket and an 8" cylindrical
	spike terminating in two angle-ground faces meeting at a point. The first rates very good plus, is smoothly machined and retains estimated 40%
	blue with a pewter patina on the spike and scattered spots of ochre
	oxidation. The second rates about good, is more roughly machined at
	the socket and exhibits scattered flecks of smoky gray and ochre patina
	and oxidation. (1X128564-7R)

## Lot Title/Description

0.14	Deplies Owend Macheden
841	Replica Sword Machetes Two total; (1) 30" overall length with 23 1/2" single-edged curved blade.
	The blade is stainless steel with scattered pinprick pitting, etched on the
	reverse side in scroll "OAXACA" and floral pattern, and on the obverse
	side "ASCO LE TENGO A LOS PESOS Y TAMBIEN A LOS
	TOSTONES PERO MAS ASCO LE TENGO HA ESA BOLA DE
	CABRONES". The guard is brass with areas of black patina,
	asymmetrically shaped with a wider and longer obverse quillon. The
	handle is white bone carved with grooves, finishing in a brass eagle's
	head pommel. A brass rod runs through the eagle's head to cover the
	tang of the blade. The sheath is stitched leather decorated on the
	obverse face by imprinted ridged half-circle stamps; (1) 29 1/2" overall length with 23" single-edged curved blade. The blade is stainless steel
	with scattered pinprick pitting and flecks of oxidation. The reverse side of
	the blade is etched "OAXACA" and "CANCUN". The obverse side is
	etched "EN ESTA PIEDRA ME SIENTO HASTA QUE SALGA LA LUNA
	NO PIERDO LAS ESPERANZAS DE LAS DOS HERMANAS UNA." The
	guard is brass with areas of black patina and hints of verdigris,
	asymmetrically shaped with a longer and wider obverse quillon. The grip
	is white horn or bone carved with grooves and finishing in a brass
	eagle's head pommel. A brass rod runs through the eagle's head to cap the tang of the blade. The sheath is stitched leather decorated on the
	obverse face by imprinted ridged half-circle stamps. (1X126907-1M)
842	Reproduction Luftwaffe Dress Dagger
	15" overall length, 9 1/2" straight double-edged blade with a diamond
	cross section and spear-point tip. The ricasso extends a full 3" from the
	guard and is engraved on either face with foliate designs. The reverse
	face of the blade is stamped "CHINA / STAINLESS / STEEL" in black.
	The Luftwaffe Eagle crossguard and swastika-embossed pommel are
	both aluminum and the spiral grip is molded white plastic. The dagger is
	in overall excellent condition with few if any blemishes. Includes an aluminum scabbard with pebble grain and oak leaf designs, also in
	excellent condition. A serviceable replica for reenactment or theatrical
	purposes. (129497-9)
843	U.S. M6 Bayonet
	Pairs with the U.S. M14 rifle. 11 1/4" overall, 6 1/4" straight single-edged
	blade with a 3 1/2" false edge and spear-point tip. The blade is in near
	excellent condition, retaining estimated 90% original blue finish toning to
	plum with some streaks of thinning due to scabbard wear. The hilt is in
	excellent condition, retaining estimated 98% parkerized finish on the metal surfaces with hints of silvering at some of the edges and exhibiting
	few if any blemishes on the checkered hard rubber grips. The included
	M8A1 scabbard is also in near excellent to excellent condition with few if
	any handling marks. (129353-101H)
844	Madsen M47 Bayonet
	Pairs with the Madsen Lightweight Military Rifle Model 1947. 12 5/8"
	overall, 8 1/4" straight double-edged blade with a diamond cross-section
	and spear-point tip. The blade is finished bright and is in excellent
	condition, exhibiting only very light scabbard scratches and sporting an unblemished factory edge. The japanned steel surfaces of the hilt rate
	near excellent with a few light handling marks and the sanded hardwood
	grips are in excellent condition with very few if any blemishes. The
	included japanned sheet steel scabbard also rates excellent with no
	discernible blemishes except a small streak of exposed steel on the frog
	stud. A beautifully made mid-20th Century bayonet. (129353-101J)
845	Madsen M47 Bayonet
	Pairs with the Madsen Lightweight Military Rifle Model 1947. 12 5/8"
	overall, 8 1/4" straight double-edged blade with a diamond cross-section
	and spear-point tip. The blade is finished bright and in excellent condition, exhibiting just a few tiny handling scratches here or there and
	sporting an excellent factory edge. The japanned steel surfaces of the
	hilt exhibit only the slightest tiny handling marks, the sanded hardwood
	grips are unblemished and the hilt is in excellent condition overall. The
	japanned sheet steel scabbard is similarly excellent with no discernible
	blemishes except a few tiny specks of wear on the outer face of the frog
	stud. A beautifully made mid-20th Century bayonet. (129353-101K)
846	British Post-WWII Socket Bayonets
	Three bayonets which pair with the Lee-Enfield No. 4 rifle, comprising
	(2) No. 9 Mk. 1 knife bayonets and (1) No. 4 Mk. II spike bayonet. The
	No. 9 bayonets each feature an 8" straight single-edged bright blade
	Liwith a 2" conceve false adde, single unstanded fullers and a clined
	with a 2" concave false edge, single unstopped fullers and a clipped point. The No. 4 bayonet features a $7.3/4$ " spike with a bright finish. All
	point. The No. 4 bayonet features a 7 3/4" spike with a bright finish. All
	point. The No. 4 bayonet features a 7 3/4" spike with a bright finish. All three include their respective correct scabbards and all items are in very

847	Italian M1938 Folding Bayonet Pairs with the Mannlicher-Carcano M1938 Short Rifle. 11 3/4" overall, 7" straight single-edged blade with single squared unstopped fullers and a spear-point tip. The blade is in very good plus to excellent condition, retaining estimated 85% original blue finish scattered by occasional spots of exposed gray-brown steel, light handling marks and a small chip on the middle of the obverse side of the spine; the edge is a near excellent factory grind with only tiny handling dings. The blued steel surfaces of the hit retain estimated 90% finish scattered by occasional silvery handling marks and the hardwood grips rate near excellent with a scant few tiny dings but overall no real blemishes of note. The included blued steel scabbard features a steel belt loop and also rates near excellent with scattered tiny handling marks throughout and little to no other discernible wear. (129353-101M)
848	British No. 5 Mk. I Bayonet Pairs with the Lee-Enfield No. 5 Mk. I rifle and the Sterling M2 submachine gun. 12" overall, 8" straight single-edged blade with a 1 1/2" false edge, single unstopped fullers and a concave clipped point. The blade is blued in the first 1" and in-the-white throughout the remainder, rating very fine with a mostly unblemished surface scattered by isolated areas of polished thin gray patina and spots of cleaned shallow pitting toward the tip. The blued steel surfaces of the hilt are in near excellent condition and the hardwood grips are largely unblemished. The hilt is in about excellent condition. The included scabbard is in excellent
849	condition with few if any blemishes. (129353-101N) Brazilian Model 1935 Mauser Bayonet Pairs with the Brazilian Model 1935 Mauser rifle. 17" overall, 11 3/4" straight single-edged blade with single unstopped fullers and a spear-point tip. The reverse face of the crosspiece is numbered "3996"; no additional markings are present. The bright blade is in near excellent condition with few blemishes except some very light handling scratches mostly from scabbard wear. The factory edge and point are sharp and unblemished. The hilt is in similarly near excellent condition with only occasional tiny handling marks here or there. The included blued steel scabbard retains 98%+ original blue finish and is in excellent condition. (129353-101P)
850	French Model 1886 Lebel Bayonet Pairs with the Model 1886 Lebel rifle. 25 1/4" overall length, 20 1/2" bright quadrangular blade tapering to a narrow point. The hilt features a silver alloy handle and a bright steel crosspiece with no quillon. The bayonet is in overall excellent condition, exhibiting few if any blemishes. The included scabbard is likewise excellent, retaining estimated 98% original blue finish and only the tiniest of handling marks here or there. (129353-101Q)
851	French Model 1886 Lebel Bayonet Pairs with the Model 1886 Lebel rifle. 25 1/4" overall length, 20 1/2" bright quadrangular blade tapering to a narrow point. The hilt features a silver alloy handle and a bright steel crosspiece with a hooked front quillon. The reverse face of the quillon is stamped "AB 74117". The blade is in near excellent condition with few blemishes except a few tiny dark spots of cleaned pinprick pitting. The crosspiece is a burnished pewter tone with areas of mottled brown staining, particularly on the quillon, and exhibits few if any handling marks. The included steel scabbard is numbered to the bayonet and in very fine condition, retaining estimated 95% original blue scattered by occasional small areas of mottled dark gray-brown staining and a number of tiny silvery handling marks. (129353-101R)
852	Rare Winchester 50-45 Carbine Cartridge This is one brass-cased cartridge loaded with a lead round nose bullet. The cartridge rates very good plus, the bullet showing some light dings and minor oxidation while the brass is toning slightly to ocher patina. Head stamp is "W.R.A. Co. / 50. CARB." (136520-3512A) [Richard "Stretch" Kennedy Collection]
853	Vintage Ammo Lot Included are a partial box of 30 Luger, single cartridges and cartridge cases. There are 16 rounds of 1962-dated Swiss 30 Luger in near excellent condition. The box is about good showing tape repairs and tears with the label still mostly legible. Also included are a Remington No. 8 Arrow paper hull shotshell, two Eley 450 Nitro cartridges, one Kynoch 450 Nitro, one Kynoch 577 nitro, one Remington 45-70 hollowpoint and a tinned case 45-70 with "F / 5 / 90" headstamp. The cases include two once-fired and re-primed Kynoch brass case 12 ga., two de-primed HDS 500 NE 3 1/4, one once-fired HDS 500 NE 3 1/4, de-primed A-Square 450 NE 3 1/4 and two de-primed Kynoch 450 Nitro. (139321-1,3,4)

## Lot Title/Description

	green rabels rates fail showing some water starting and moderate scuffs, the cartridges rate very good plus showing some light tarnishing. Finally there is a yellow, red and blue Western Super X 16 gauge shotgun shell box in good condition showing some light tears, scuffs and staining. The box holds an assortment of 16 gauge shells including: 17 Western red paper hull shot shells in near excellent condition, one Western red paper hull long range short shot string shell (this being what the box is marked for), three green plastic hull Remington extra-long
861	Vintage Rifle & Shotgun Ammo Included is one full 50-round box of U.S. Cartridge Co. 35 Winchester Self-Loading cartridges loaded in brass cases with soft point bullets. The orange labeling is mostly intact and legible and the box rates very good with the ends of the lid blown out but present, some light scuffs and handling marks. The cartridges rate near excellent showing a little bit of mild tarnishing. Next is a partial 14-round box of Winchester 38-55 black powder cartridges loaded with 255 grain lead bullets. The buff box with green labels rates fair showing some water staining and moderate
860	Vintage Remington UMC 56-56 Spencer Ammunition Included is one full 25-round box of 56-56 Spencer cartridges loaded in copper cases with "U" headstamps and lead bullets. The box has a blue label with pale pink guarantee label on the underside. Some of the side labels have been lost and the color is fading somewhat with areas of light flaking but everything is otherwise legible and mostly intact. The cartridges rate very good showing moderate oxidation and some of the bullets retaining remnants of wax coating. A fine box of desirable ammo. (13A6519-188D)
859	Remington 45 Automatic Tracers Included is a single box containing 49 rounds of vintage Remington 45 ACP Tracers with red tracer material along the bullet tips. The box rates very good plus showing some light scuffs and handling marks while the cartridges rate near excellent perhaps showing a few scattered light freckles. The back of the box notes these are for Law Enforcement training only and not sporting use. A nice desirable box of vintage tracers. (13A6519-188C)
858	35 S&W Automatic Ammunition Included are two full 50-round boxes of Remington-made 35 S&W Auto. One box is a buff-colored Remington-UMC example with red ink markings and orange guarantee label. The box shows some light staining and scuffs while the cartridges rate very good plus showing some light tarnishing. The second box is a green Remington-UMC example with Kleanbore dog bone logo showing a small tape repair to one flap, light scuffs and handling marks. The cartridges rate very good plus to near excellent. (136519-188B)
050	Included are three vintage 20-round boxes. First is a box of Winchester-made ammo with pink label that appears to be dated 1917. The box is still mostly sealed with one end turning up slightly to reveal a few headstamps. The label shows some small tears and flakes and the ammo is in presumably near excellent condition. Next is a sealed box of Frankford Arsenal 38 Long Colt dated Feb 24, 1910 and shows one small dent on its front surface along with some other light handling marks. There is a box of Remington M15 45 Shot cartridges, still sealed in its wax paper that has discolored somewhat but the markings are clear. Finally included are four rounds of assorted 50 BMG showing light to moderate tarnishing. (136519-188A)
857	Included is one full 20-tround box of Dardick 38 Special cartridges loaded in their distinctive green "CELANESE FORTIFLEX" polymer cases. The cartridges rate near excellent and the box also rates near excellent showing some very light wear around the edges and a few minor scuffs. A wonderful box of this rare and desirable ammo. (13A6519-188) Vintage U.S. Military Ammo
856	This lot includes one full and still sealed 1000-round crate of Spanish F.N.P. SB 7.62 NATO. The crate is dated 1979 and has clear stencil markings with one corner starting to separate. The ammo is presumably in very good plus to excellent condition. (136519-30) Dardick 38 Special Trounds
855	8x56mm Mannlicher Surplus This lot includes 31 full 10-round boxes on clips, one full loose clip and one clip with two cartridges for a total of 317 rounds (64 clips). This ammo is the typical Nazi production for their allied nations dated 1938-1939. The cartridges and clips range in condition from very good to excellent, some clips invariably showing light oxidation staining and the clips are an assortment of makers. The boxes are about good with broken seals, small tears and staining. (136519-35) 7.62x51 NATO Surplus

862	Vintage U.S. Military 30-03 & 30-06 Lot Included are four assorted 20-round boxes. First is a full box of Frankford Arsenal Frangible cartridges showing a tape repair along the bottom flap and "30-06" written in grease pencil. The label is otherwise intact and the cartridges rate very good plus to near excellent. Next is a full box of Frankford Arsenal 30-06 dummy rounds on stripper clips. The box rates very good plus showing some scuffs and the seal is broken revealing dummy rounds with crimped alloy cases in near excellent condition. Last is a full sealed box of Frankford Arsenal blank cartridges with blue label and pull string. The label is intact with a few small tears and features a pointing hand motif to the words "MODEL 1906", it is dated May 8, 1907 and the cartridges are presumably near excellent. Finally there is a full box of 1903-dated Frankford Arsenal 30-03 on brass stripper clips. The lid has been lost and the pink label is mostly intact with the top portion cut off. The cartridges rate very good plus showing some very light tarnishing. (136519-188F)
863	Vintage U.S. Military Rifle Ammo Included are three assorted boxes. First is a full 20-round box of Frankford Arsenal 276 Pedersen dated 1929. The box remains in very good condition showing one lost end flap, some scuffs and light tears. The cartridges are very good plus to near excellent showing some very light tarnishing. Next is a full 20-round box of Frankford Arsenal tinned brass shell 45-70. The box is rather tender with lost end flap and is held together with string but the label is mostly intact and the cartridges rate very good plus to near excellent. Finally there is a full 10-round packet of Cal. 30 rifle grenade cartridges, the grease paper wrapping has darkened from the years and the ink stamps are rather difficult to discern. (136519-188G)
864	Vintage Remington Rifle Cartridges Included are three 20-round boxes of assorted Remington-UMC green box ammo with Kleanbore dog bone logo. First is a full box of 40-72 Winchester loaded in brass cases with 330 grain soft points. The box rates very good showing lost end flaps, light scuffs and minor tears while the cartridges rate near excellent. Next is a full box of 40-82 Winchester / Marlin. The box rates very good plus showing some light scuffs and other handling marks. The box is marked for 260 grain soft point bullets, 18 of the rounds are this and two are slightly older UMC-marked cartridges with lead bullets. The cartridges rate very good to very good plus showing some light to perhaps moderate tarnishing. Last is a full box of 6mm U.S. Navy cartridges loaded in brass cases with 112 grain soft point bullets. The box rates very good plus showing some light scuffs, minor staining and handling marks while the cartridges also rate very good plus showing some scattered light tarnishing, half have copper soft points and the other half cupro-nickel soft points. (136519-188H)
865	Vintage U.S. Military 44 S&W American Ammunition Included is one full 12-round box of June 1871-dated Frankford Arsenal "Martin"-primed cartridges. The glue around one end has flaked off but the pull string is intact and the box appears unopened. The box rates very good plus showing some light flaking and scuffs. The label is completely intact and legible and the rounds are in presumably very good plus condition. A very fine and desirable box of U.S. military cartridges. (136519-188J)
866	Vintage 44 S&W American & Russian Ammunition Included are two boxes. First is a partial 29-round boxes of Winchester Staynless 44 S&W Special loaded with 246 grain jacketed nose bullets with lead-bearing rear surface. The box is blue with red and white lettering and rates good showing detached end flaps that are still present, moderate scuffs and handling marks. Next is a full 50-round box of Remington UMC 44 S&W American in green box with Kleanbore dog bone logo. The box rates very good plus showing some light scuffs, handling marks and an area of flaked text along the bottom from a sticker. The cartridges rate very good to very good plus showing some scattered light tarnishing. Fifteen cartridges are older Remington cartridges with copper primers or non-Remington replacements including an assortment of U.S. Cartridge Co., WRA Co. and UMC. (136519-188K)

886	17 Remington Ammunition Included are a partial 19-round box, partial 18-round box, twelve full
000	to perhaps moderate tarnishing. (136519-121E)
	Remington-UMC all with cupro-nickel jacketed soft points and show light
	38-56. The buff box rates very good showing some light soiling and scuffs. Three cartridges are UMC and the remainder are
	mild tarnishing. Finally there is a full 20-round box of Remington UMC
	cases with jacketed soft points and rate very good plus showing some
	tender showing one lost end flap, the cartridges are loaded in brass
	of Winchester 32 Self Loading by U.S. Cartridge Co., the box is very
	moderate tarnishing and some verdigris. Next is a partial 20-round box
	WCF loaded in brass cases with lead bullets, the cartridges show light to
	are a mix of manufacturers. Next are 25 loose rounds of WRA Co. 38-72
	tarnishing and some dents on the noses of the soft point bullets, they
	Winchester housed in a tattered Peters box, the cartridges show light
	some mild tarnishing. Next is a box of 9 loaded and 4 fired cases of 33
885	Assorted Vintage Rifle Ammo First is 16 rounds of assorted Remington UMC and Super-X showing
99F	Remington Kleanbore boxes. (136519-121D)
	excellent condition housed in three rather tender green and red
	Next is 125+/- Remington 93 grain FMJ in very good plus to near
	50-round boxes of Remington 93 grain FMJ in near excellent condition.
	remainder being Western and rate very good plus. Next are three full
	and about ten of the rounds in the box are Remington replacements, the
	box with 93 grain Lubaloy bullets, one end flap on the box is missing
	Included are seven assorted boxes. Included is a full 50-round Western
884	Vintage 30 Luger Ammunition
	verdigris. (136519-121)
	and small tears throughout. The cartridges rate good to very good, a number of them showing some light to moderate tarnishing and minor
	most of its lid with one end flap lost. The boxes show moderate scuffs
	tape-repaired lid, one is missing its lid altogether and the last box retains
	about good, one shows a damaged lid, another with a extensively
	FMJ bullets in brass cases. The buff boxes with purple labels rate fair to
	Self-Loading cartridges loaded with 200 grain round nose cupro-nickel
	This lot includes four full 20-round boxes of Winchester 401
883	Vintage 401 Winchester Self-Loading Ammunition
	showing some moderate tarnishing. (136519-132D)
	is a full 50-round box of Winchester 38 Rimfire Long, the buff box with orange label is somewhat tender and the cartridges rate very good
	presumably very good plus to near excellent condition. Finally included
	tears and scuffs but is intact. The individual boxes and cartridges are in
	Lubaloy-coated bullets. The outer sleeve is rather tender with moderate
	38 RF Short loaded with Nublend powder in copper cases with 130 grain
	Included are a full 250-round packet of five 50-round boxes of Western
882	38 Rimfire Short & Long Ammunition
	excellent, a few showing some minor tarnishing. (136519-132C)
	bullets. The yellow, blue and red boxes with target logo are a little tender but mostly intact and the cartridges rate very good plus to near
	with Nublend powder in copper cases with 130 grain Lubaloy-coated
	Included are seven full 50-round boxes of Western 38 RF Short loaded with Nublend powder in copper cases with 130 grain Lubaloy-coated

000	Create 7 C2u4Emme Sumplus

1022	
1023	
1024	
1024	
	-
1025	
	This lot contains three 25-round boxes (75 total) of L'Unica 24 ga. #7
	-
	Winchester Super-X High Brass Game Loads 28 ga. #7 1/2 shot, one
	25-round box of Federal Skeet Load .410 bore #9 shot, one 5-round box
	of Peters .410 bore rifled slugs, and one partial box of 14 rounds of
	Wester Super-X 3" .410 bore #6 shot and one round of Western
	Super-X .410 bore slug. (236519-454D)
1026	Collectible Ammunition
	This lot consists of many different calibers of both pistol and rifle
	ammunition all remaining in very good to very good plus condition with
	most displaying oxidation on the exposed lead and tarnishing on the
	brass cases. Included are four rounds of 8x60 RS, six rounds of 8x57
	JR, 20 +/- rounds of 30 Mauser, about 20 assorted 32 S&W and 32
	S&W Long, 15+/- rounds of 44 Colt, perhaps 50 rounds of 32 Long Colt,
	about 30 rounds of 32 S&W, 25 +/- rounds of 32 RF, 25+/- assorted
	vintage rimfire cartridges with various headstamps, about 50 rounds of
	25 Stevens Long, roughly 20 rounds of 25-20 WCF, about 20 rounds of
	32 Long Colt, 50 +/- rounds of 22 Win Auto and about 15 rounds of 30
	Luger. No further descriptions or pictures are available. (236519-480Y)
1027	Vintage Benet-Primed 45-70 Govt. Ammunition
	This lot contains 154 Benet-primed 45-70 Govt. cartridges in seven
	20-round boxes with the remaining rounds loose and all have
	headstamps dating to the early 1880s. The cartridges appear to be
	either blanks, loaded with card stock wads alone, or had their bullets
	pulled long ago. The cartridges show scattered spots of light oxidation
	and verdigris and their cardboard packages have torn flaps and edges
	and a few are missing their tops from the years. A couple boxes are
	labeled "20 RIFLE BALL CARTRIDGES" along with "Manufactured at
	Frankford Arsenal, Philadelphia, Pa." and one is dated "Feb. 22 1882".

## Lot Title/Description

1028	5.56mm NATO, 8mm Mauser, 30 Mauser, 30-40 Krag Ammunition
	This lot consists of one opened Portuguese 400-round battle pack of
	M193 5.56mm NATO 55 gr. FMJ packaged in 10 40-round boxes. The
	ammunition remains in excellent condition and appears to date to 1987.
	Also included is one olive drab linen bandoleer holding 70 rounds of
	8mm Mauser 154 gr. FMJ on 5-round stripper clips with Turkish
	headstamps dating to 1939. The ammunition remains in about excellent
	condition with very light tarnishing overall. Also included are 160
	grounds of 30 Mauser SP ammunition packaged on 10-round stripper
	clips. The ammunition remains in very good plus condition with minor
	tarnishing on the cases and light oxidation on the lead. 20 of the rounds
	are sealed in their original UMC-marked cardboard box while 60 of the
	5
	rounds are in the remnants of their UMC boxes. Finally, there are two
	20-round boxes (40 rounds) of Western 30-40 Krag in very good
condition with scattered spots of light oxidation and (236519-422, 480AA)	condition with scattered spots of light oxidation and minor tarnishing.
1029	303 British Ammunition
	Five 20-round boxes (100 rounds) of Remington 303 British 180 gr.
	Core-Lokt SP in excellent condition. (236519-480AB)
1030	4mm Zimmerstutzen Ammunition
	This lot contains one sealed and one opened (appears full) 250-round
	package (about 500) of Hirtenberger 4mm Zimmerstutzen ammunition in
	excellent condition. (236519-480AC)
1031	45 ACP Match Ammunition
1001	
	This lot contains 12 50-round boxes (600 total) of Western Super Match
	45 ACP 185 gr. FMC Clean-Cutting ammunition in about excellent
	condition with a few cartridges showing small spots of light oxidation on
	the case heads. (236519-399A)
1032	45 ACP Match Ammunition
	This lot consists of 13 50-round boxes (650 rounds) of Western Super
	Match 45 ACP 185 gr. FMC Clean-Cutting ammunition in excellent
	condition. (236519-399B)
1033	Antique Ammunition
	This lot contains multiple cartridge types, primed brass, and one
	shotshell box. One 5 round clip of 11.15x58R Austrian Verndl M77 with
	the cartridges lightly tarnished. Three boxes of 20 rounds of "Rifle &
	Carbine, Blank. / Caliber 45" by Franklin Arsenal; the original seal has
	been broken but the boxes have been rewrapped in cellophane; the top
	of two of the boxes is stamped "FEB 25 1903". One box of 14 rounds of
	Winchester .32 short rimfire cartridges with original box; the exposed
	lead of the cartridges has oxidized and the brass is lightly coated with
	lead oxide dust. The box is in very good plus condition with the label
	peeling up on the left side. Two boxes of ".30 CALIBER / US ARMY"
	brass, most of which is unprimed. Each box contains 25 pieces of brass,
	which are lightly tarnished, and the boxes are in overall good condition
	with frayed edges, lightly faded color, and some flaking of the paper
	wrapper. Lastly is one cardboard box for Peters High Velocity 28 ga
	shotshells; no shotshells are present. The box is in very good condition
	with frayed edges, one lost and one broken flap, but the color remains
	largely strong and crisp. (149060-77A)
1034	Antique Ammunition
	This lot contains 4 boxes of ammunition, 3 containing .30-40 Krag and
	one containing .38-50 Remington. The first box is marked
	"WINCHESTER / .30 ARMY FULL PATCH" on a white label and is
	marked as containing 20 rounds of 220 gr ammunition; the label has a
has been box is ma is also ma original se cellophan with frayir	slight tear in it obscuring some of the words. Though the factory seal
	has been broken, the box has been resealed in cellophane. The second
	box is marked similarly to the first, with a red label instead of white, and
	is also marked for 220 gr ".30 ARMY FULL PATCH"; like the first the
	original seal has been broken but the box has been resealed in
	cellophane. The third box of .30-40 Krag is Remington Kleanbore brand
	with fraying and impacted edges and corners, and the cartridges within
	are tarnished with spots of oxidation and having varying overall lengths;
	this box has not been resealed. The las box of .38-50 Remington is in a
	Remington UMC box the original seal of which has been broken, and
	has been resealed in cellophane. The box is marked as containing (20)
	255 gr patched bullets over blackpowder. The box has lightly frayed

1035	Assorted Vintage Rifle Ammunition
1035	5
	This lot contains four separate boxes of vintage rifle ammunition. One
	box of 5 rounds of Kynoch brand 480 gr .450 Rigby Magnum JSP, with
	lead oxidation at the exposed tip but are otherwise untarnished; the box
	has light fraying on the edges and the bottom flap has separated along
	one side. One box of 5 rounds of Kynoch brand 400 gr 450/400 Nitro
	Express JSP, with light lead oxidation at the exposed tip and spots of
	tarnish on the brass; the box has spots of light wear on the edges and
	corners but is otherwise intact. One box of 20 rounds of Remington
	UMC brand 300 gr .405 Winchester JSP, with lightly tarnished brass but
	little to no lead oxidation; the box has light wear on the edges and a tear
	or two at the corners. Lastly is one box of Kynoch brand 10 rounds of
	".280" / RIMLESS / NITRO-EXPRESS / CATRIDGE / (ROSS
	PATTERN)" FMJ. No bullet weight is discernable from the label and the
	rounds are only lightly darkened on the brass; the box has light wear on
	the edges and the color is lightly faded. (149060-77C)
1020	, , , , , , , , , , , , , , , , , , ,
1036	CCI Pistol Shot Cartridges
	This lot contains five boxes of (10) rounds of 44 Spl/Mag shotshells
	containing 1/4 oz. No. 9 shot, three boxes of (10) rounds of 38/357 Mag
	shotshells containing 1/4 oz. No. 9 shot, two boxes of (10) rounds 9mm
	shotshells containing 1/7 oz. No. 11 shot, and one full box of 20 rounds
	and one partial box of 8 rounds of 22LR shotshells containing 1/15 oz.
	No. 12 shot. All but the one box appears to be unopened. (146519-95A)
1037	Assorted 30 Carbine Ammunition
	This lot contains 12 full boxes of 50 rounds of assorted 110 gr FMJ and
	SP manufactured by Winchester, Remington, Aguila, UMC, and PPU;
	the PPU box appears to be unopened. Also included is one coffee can
	containing approximately 150 loose rounds of 30 carbine FMJ and SP;
	amount determined by weight. Cartridges appear largely untarnished.
	(146519-95B)
1038	22 Hornet Ammo
	This lot contains 5 full boxes of 50 rounds of 45 gr SP 22 Hornet
	ammunition by PPU, and one full box of 50 rounds of 45 gr SP 22
	Hornet ammunition by Prvi Partizan. The cartridges appear to be
	unblemished. Total round count of 300 rounds of 22 Hornet.
	(146519-95C)
1039	Belted Tracer and AP 30-06 Springfield Ammunition
1039	This lot contains one fabric belt of 126 rounds of 30-06 Springfield set
	up with one tracer round followed by four AP rounds, 25 rounds of 30-06
	tracer ammo on disintegrating links, and 73 rounds of 30-06 Springfield
	AP on disintegrating links. Brass shows light tarnishing on some rounds.
	Belted ammo is stored within a metal ammo can. (146519-191)
1040	30-06 Springfield AP Ammunition
	This lot contains 63 rounds of 30-06 Springfield AP belted on
	disintegrating links, 39 rounds of 30-06 Springfield AP on a leather belt,
	15 full enbloc clips of 30-06 Springfield AP (twelve of which are stored
	within two fabric bandoleers), 4 full enbloc clips of 30-06 Springfield
	FMJ, and one empty enbloc clip. The ammunition is lightly to moderately
	tarnished, and all is stored within a .50 cal metal ammo can.
	(146519-187)
1041	Assorted Ammunition
	This lot contains approximately 140 loose rounds of 230 gr 45 Auto FMJ
	(the box flap labelled "1965 / MATCH"), two enbloc clips containing 16
	rounds of 30-06 Springfield tracer which are moderately tarnished, 100
	rounds of .223 Remington SP (90 rounds contained within 3 Israeli Orlite
	mags with carrier), 20 loose rounds of .223 Remington tracer, and 5
	boxes of 20 rounds of Yugoslavian M67 7.62x39mm. (146519-121A)
1042	45 Auto Rim Ammunition
	This lot contains two full 50 round boxes of Remington 230 gr. LRN 45
	Auto Rim. Cartridges appear largely untarnished, and the boxes show
	light wear and some writing in black marker. (146519-121B)
1043	Assorted European Rifle Ammunition
	This lot contains 8 loose rounds of RWS 8x60mm JHP, 10 loose rounds
	of 9.3x72R FP, SP, and LRN by DWM, PS, and Gecado, 18 rounds of
	Norma 9.3x57mm SP, two boxes of 10 rounds of FN 7x57mm 173 gr SP
	(one box appears to remain factory sealed), one box of 10 rounds of
	.333 Jeffery 250 gr "Solder Point", and one box of 10 rounds of .333
	Jeffery 300 gr SP. The cardboard boxes of .333 Jeffery has had the
	bottom and top tabs mostly torn leaving only one side attached on one
	box, and the top tab completely absent on the other. The ammunition is
	largely untarnished, with a few blemishes here and there.
	(146519-121C)
1044	7.62x25mm Tokarev Ammunition
	This lot contains 11 full boxes of 40 rounds of Czech surplus
	7.62x25mm surplus FMJ on 8-round stripper clips, 2 full boxes of 70
	rounds each and one partial box of 28 rounds of surplus Chinese
	7.62x25mm FMJ, and one full box of 50 rounds of Sellier & Bellot 85gr
	FMJ. Total round count approximately 658 rounds of assorted
	7.62x25mm. (146519-119A)

	This lot contains one 20-round box of Remington 225 gr 338 Win. Mag
	PSP, one cartridge of which is lightly tarnished, one 20-round box of
	Weatherby 120 gr 257 Weatherby Magnum PSP, two 20-round lightly
	worn boxes of Remington 140 gr 264 Win. Mag PSP Core-Lokt, and
	three 20-round lightly worn boxes of Remington 500 gr 458 Win. Mag
	metal case, a few cartridges of which show light blemishes to the brass.
	(146519-480E)
1056	Assorted Rifle Ammunition
	This lot contains one lightly worn 50-round box of Remington 110 gr 30
	Carbine SP, one 20-round box of Winchester Super-X 308 Win 110 gr
	Silvertip, two 20-round boxes of Federal Hi-Power 120 gr 7-30 Waters
	BTSP, two 20-round boxes of Winchester Western Super-X 175 gr 7mm
	Mauser SP, and one 20-round box of Remington 140 gr 7mm Mauser
1057	PSP. Cartridges are largely untarnished. (146519-480F) Assorted Pistol Ammunition
1037	This lot contains two 18-round plastic containers of Cor®Bon 265 gr 454
	Casull SP, two 50-round boxes of Western 130 gr .38 Short Colt
	Lubaloy, one box of about 50 rounds and one box of about 35 rounds of
	Western Super-X 60 gr 256 Win Mag HP, one box of about 50 rounds of
	Winchester 200 gr .44-40 Win SP, one 50-round box of Remington 210
	gr .41 Rem. Mag LSWC, a 20-round box of Remington 158 gr .357
	Maximum SJHP, and one 50-round box of Remington 150 gr .38 Long
	Colt LRN. Ammunition appears largely untarnished, and a few of the
	older boxes show light wear on the edges and fading colors.
	(146519-480G)
1058	Varmint Rifle Ammunition
	This lot contains five 20-round boxes of Federal Hi-Power 50 gr 222
	Remington SP, one 20-round box of Remington 50 gr 222 Remington
	Power-Lokt HP, one 20-round box of Remington 55 gr 222 Remington
	Magnum PSP, two 20-round boxes of 55 gr 223 Remington FMJ, one
	20-round box of Federal 55 gr 223 Remington SP, one 20-round box of
	Western Super-X 55 gr 22-250 Remington PSP, and two 20-round
1059	boxes of Weatherby 55 gr 224 Weatherby Magnum SP. (146519-480H) 7.5x55 Swiss Ammunition
1039	This lot contains six 20-round boxes and one partial 11-round box of
	Norma 180 gr 7.5x55 Swiss BTSP. The boxes show light wear at the
	edges, and some of the cartridges are lightly tarnished. (146519-480I)
1060	300 Weatherby Magnum Ammunition
	This lot contains one 20-round box and two partial 9 and 10-round
	boxes of Weatherby 180 gr 300 Weatherby Magnum SP, and five
	20-round boxes of Remington 220 gr 300 Weatherby Magnum
	Core-Lokt SP. The boxes show scattered light wear, and the cartridges
	are largely untarnished. (146519-480J)
1061	32 Auto Ammunition
	This lot contains one 50-round box and one partial 49-round box of
	Remington 71 gr 32 Auto FMJ, three 50-round boxes and one partial
	48-round box of Winchester Western 60 gr 32 Auto Silvertip HP, and
	four 50-round boxes of Remington 71 gr 32 Auto FMJ. Some of the
	boxes show light wear, and a few of the cartridges are lightly tarnished.
1062	(146519-480K) 44 Special & Magnum Ammunition
1002	This lot contains seven 10-round and two partial 5 and 9-round boxes of
	CCI 44 Magnum 1/3 oz. no. 9 shot cartridges, one 6-round box of Speer
	44 Magnum shot shells, three 20-round boxes of Remington 210 gr 44
	Magnum SJHP, one 20-round box of Winchester Super-X 210 gr 44
	Magnum Silvertip HP, one unopened plastic 50-round box of Cor®Bon
	240 gr 44 Magnum XTP HP, two 50-round boxes of Remington 240 gr
	44 Magnum LFN, one 50-round box of Remington Kleanbore 246 gr 44
	Special LRN, two 20-round boxes of Winchester Super-X 200 gr 44
	Special Silvertip HP, and two 50-round boxes of 246 gr 44 Special LRN.
	Some boxes show light wear, with one Remington 44 Special box
	having a tear half way down one edge, but the cartridges are largely
	untarnished. (146519-480L)
1063	John Wayne Commemorative 32-40 Winchester Ammunition
	This lot contains 6 20-round boxes of 32-40 Winchester 165 gr JSP. The
	boxes are in overall near excellent condition with only a few stains and
	crinkles, and the ammunition appears untarnished and is headstamped
	"DUKE". (146519-480M)

## Lot Title/Description

1064	43 Mauser Ammunition
	This lot contains three 20-round boxes and one partial 17-round box of
	Imperial 385 gr 43 Mauser LFN, and three 20-round boxes and one
	partial box of 15-rounds of Dominion 385 gr 43 Mauser LFN. The Imperial boxes show light to moderate wear and the Dominion boxes
	show only spots of light wear on the edges. The cartridges generally
	have a light tarnish. (146519-480N)
1065	Assorted Vintage German Rifle Ammunition
	This lot contains three 10-round and one partial 8-round box of SINOXID
	173 gr 7x65mmR SPRN, one 10-round and one 8-round box of
	SINOXID 7x65mmR 173 gr Copper HP, two 20-round and one partial
	4-round box of RWS 162 gr 7x65mmR SP, two 20-round boxes of
	SINOXID 193 gr 9.3x72mmR SPFN, and one 20-round box of RWS 154
	gr 6.5x57mm HP. The boxes show light to moderate wear with a few
	spots of tearing along edges, but cartridges are largely untarnished. (146519-480P)
1066	350 Rigby & 416 Rigby Ammunition
1000	This lot contains three unopened 10-round boxes of John Rigby & Co.
	350 Rigby "Magnum", two boxes of solids and one box of semi soft
	nose, and one 20-round box and one partial 14-round box of Federal
	410 gr 416 Rigby weldcore SP. The 350 Rigby boxes show a few light
	wear marks and stains consistent with age, and the 416 Rigby box
	shows light wear from storage. (146519-480S)
1067	Foreign Surplus Ammunition
	This lot contains a partial box of 6 rounds of 5.45x18mm, three
	unopened and one opened but full 10-round boxes of "Fabrica de Chelas" 8x60mmR, four tattered approximately 36-round boxes of
	Egyptian surplus 9mm, four boxes of Chinese surplus 7.62x25mm, and
	three 25-round boxes of FNP 9mm Largo. The boxes show light to
	moderate wear, and the Egyptian surplus shows light tarnish.
	(146519-480V)
1068	Assorted Rifle Ammunition
	This lot contains two MTM transparent blue 50-piece cases with a total
	of 67 rounds of Remington 25-35 Win SP, one partial 8-round box of
	Winchester 30-30 Win SP, a red plastic 50-round cartridge case with 50
	rounds of WRA 32 S.L. SP, one Remington box with 20 pieces of 32
	Win Spl brass, one partial 19-round box of Remington Kleanbore 170 gr 32 Remington SP, one 20-round box of Imperial 255 gr 38-55 Win SP,
	one partial 8-round box of Norma 8x57mmJR SP, one partial 5-round
	box of assorted 30-40 Krag, one 20-round box of Remington 30 Rem
	170 gr Core-Lokt SP, one partial 5-round box of Western Super-X 170
	gr 30 Rem SP, one 20-round box of Winchester Western Super-X 190 gr
	303 Savage Silvertip, and one 20-round box of Winchester 190 gr 303
	Savage Silvertip. Boxes vary in condition from only light wear to
	moderate wear with missing flaps; cartridges show scattered tarnishing.
	(146519-480X)
1069	Western Super-Match 45 Auto Ammunition
	This lot contains 12 full 50-round boxes of Western Super-Match 185 gr
	FMC w.c. ammunition. The ammunition is largely untarnished, and the boxes show light rub marks from storage. (146519-399)
1070	22 Short Rimfire
	Assorted 22 Short rimfire cartridges, detailed as follows: (2) complete
	500 rd. boxes of Aguila Super Extra 29 gr. Solid; (1) complete 100 rd.
	box of CCI 22 Short and (1) partial 100 rd. box containing 50 rds. of
	same. Also included is (1) partial 100 rd. box containing (12) rds. of CCI
	22 CB. All items rate excellent. (1X128051-10F)
1071	6mm Rem. Ammunition
	(2) full ten rd. plastic cartridge slides with Federal headstamps: written in
	ink on one of the trays is "100 gr., Nosler Partition" while the other tray
1072	reads simply "80 gr". Both are in excellent condition. (3X78801-1K)
1072	Assorted Rifle and Pistol Ammunition Included are (4) W.R.A. Co. 45-70 Govt JSP, (12) W.R.A. 30-40 Krag
	FMJ cartridges, (1) Western copper-plated LRN 38 S&W cartridge, (8)
	"DM / 42" marked 30-06 Springfield cartridges that appear to be M2 ball,
	(1) Remington UMC 30-06 Springfield HP, (5) 38 Special LRN, and one
	dummy 50 BMG cartridge. (1X147861-4B)
1073	30 M1 CARBINE AMMUNITION
	(28) 50 rd. boxes of Ruko .30 Carbine 110 gr, ball ammunition. A couple
	of the boxes may be missing one or two cartridges. Ammunition is
	overall bright excellent. (56048-3)
1074	Holland's 275 Magnum Ammunition
	This lot includes a sealed ten round box of Holland & Holland Limited
	275 Magnum Rimless Cartridges with red label and black lettering
	manufactured by the Eley Brothers. The box has crisp edges and sharp
	corners with 99% of the label intact. A fine example overall. (1X10A7818-11E)

1075	Mixed Lot of Collectible 22 Rimfire Ammunition
	This lot includes: (2) yellow and red boxes of 50 rounds each Sellier &
	Bellot "Neroxin" 22 LR ammunition, (2) partially full yellow boxes of
	Winchester-Western "Super-X" 22 LR high velocity 37 gr. hollow point
	ammunition, (1) partial yellow box of Winchester-Western "Super-X" 22
	LR high velocity 40 gr. solid ammunition, (1) yellow box of 50 rounds
	Winchester-Western "Super-X" 22 Short high velocity 29 gr. solid
	ammunition, (1) yellow and blue box of 50 rounds Western "Super-X" 22
	LR high velocity 40 gr. solid ammunition (1) white box of 50 rounds
	Winchester 22 Short high velocity 29 gr. solid ammunition, (1) partial
	white box of Winchester 22 LR crimped No. 12 shot cartridges, (1)
	yellow box of 50 rounds Seeker (Philippines) 22 LR high velocity 40 gr.
	solid ammunition, (1) yellow and red box of 50 rounds Squires Bingham
	(Philippines) 22 LR high velocity 40 gr. solid ammunition, (1) yellow box
	of 50 rounds Federal "Lightning" 22 LR high velocity 40 gr. solid
	ammunition, (1) white box with four rounds of Smith & Wesson 22 LR
	high velocity 40 gr. solid ammunition, (1) blue box with five rounds of
	Smith & Wesson 22 LR high velocity 40 gr. solid ammunition (1) black
	box of 50 rounds Ruko (Philippines) 22 LR "Max-Velocity" 40 gr. solid
	ammunition, (1) white box of 50 rounds Ruko (Philippines) 22 LR Target
	standard velocity 40 gr. solid ammunition, (1) black box of 50 rounds
	Ruko (Philippines) 22 LR Target standard velocity 40 gr. solid
	ammunition, (1) white military style box of 50 rounds Olin Corporation
	"BALL, CAL. 22 / LONG RIFLE / MATCH GRADE – FOR RIFLES"
	(sealed in later added cellophane), (1) white military style box of 50
	rounds Winchester-Western "50 CARTRIDGES / 22 WMR SHOT / NO.
	11 SHOT" with later added cellophane tape, (1) white-yellow-orange box
	of 50 rounds Sportco "Superfast" 22 LR high velocity 40 gr. solid
	ammunition, (1) plain cardboard box of 50 rounds ICI (Imperial Chemical
	Industries) "LONG RIFLE SLESS / CTGS / EMERGENCY USE"
	,
	(SLESS = smokeless) 22 LR ammunition, (1) red box of approximately
	47 rounds Sears 22 LR high velocity 40 gr. solid bullets ammunition, (1)
	yellow box of 50 rounds Vostok (Russian) Target 22 LR 40 gr. solid
	ammunition, (1) white and red box of 49 rounds Nitron (Polish) 22 LR 40
	gr. solid ammunition (one additional round of 22 short with same
	headstamp was dropped into the box), (1) red and black box of 50
	rounds Bezdimni Barut (Yugoslavian) 22 LR standard velocity 40 gr.
	solid ammunition, (1) white box of 44 rounds of unmarked Russian steel
	case 22 LR 40 gr. solid ammunition and (2) yellow-copper-black boxes
	of 50 rounds each Dynamit-Nobel 22 LR high velocity 40 gr. solid
	ammunition one box has nickel plate case the other are copper/brass
	cases. All the ammunition generally rates about excellent with some light
	handling marks on the boxes, a few showing more wear, stickers or later
	added writing and most of the cases are clean some showing light
	tarnish. (86678-77E)

#### Title/Description Lot

Lot Title/Description

1076	
	Lot of Collectible C-I-L 22 RF Ammunition
	This lot includes: (1) yellow and blue box of 50 rounds C-I-L "Canuck" 22
	WRF 45 gr. solid ammunition, (1) yellow and blue box of 50 rounds C-I-L 22 WRF 45 gr. solid ammunition, (1) yellow and blue box of 100 rounds
	C-I-L "Dominion" 22 LR 40 gr. solid ammunition, (2) yellow and red
	boxes of 50 rounds each C-I-L "Dominion" "Central V's" 22 LR 40 gr.
	solid ammunition, (1) yellow and blue partial box of approximately 19
	rounds C-I-L "Dominion" 22 Long Shot ammunition, (1) yellow and blue
	partial box of approximately 57 rounds C-I-L 22 BB Cap ammunition, (1)
	yellow and brown box of 50 rounds C-I-L 22 LR standard velocity match
	ammunition (cardboard tray), (1) yellow and brown box of 50 rounds
	C-I-L 22 LR standard velocity pistol match ammunition (plastic tray), (1) yellow and brown C-I-L 22 LR standard velocity match box repackaged
	with 50 rounds of Winchester headstamped ("W") of 22 LR 40 gr. solid
	ammunition, (1) white and blue box of 5 rounds C-I-L "Dominion" 22 LR
	40 gr. solid ammunition, (1) tan and blue box of 49 rounds C-I-L
	"Whiz-Bang" 22 LR crimped No. 12 shot ammunition, (2) yellow and red
	boxes of 50 rounds and a partial with eight rounds C-I-L "Whiz-Bang" 22
	Long high velocity ammunition, (1) yellow and red box of 50 rounds
	C-I-L "Whiz-Bang" 22 LR "Mushroom" high velocity hollow point ammunition, (1) yellow and red box of 50 rounds C-I-L "Whiz-Bang" 22
	LR high velocity solid ammunition, (1) yellow and red box of 50 rounds
	C-I-L "Whiz-Bang" 22 Long high velocity ammunition, (1) yellow and red
	partial box of C-I-L "Whiz-Bang" 22 Short high velocity ammunition, (1)
	yellow and blue box of 50 rounds C-I-L "Canuck" 22 Short high velocity
	solid ammunition, (1) gold and black box of 50 rounds C-I-L 22 Short
	high velocity "Mushroom" hollow point ammunition, (1) gold and black
	partial box of C-I-L 22 Short high velocity solid ammunition, (1) gold and black box of 50 rounds Nimrod/White Stores Inc. (C-I-L) 22 Short high
	velocity solid ammunition, (3) gold and black boxes of 50 rounds (one
	box has only 18 rounds) C-I-L "Imperial" 22 Long high velocity solid
	ammunition, (2) gold and black boxes of 50 rounds each C-I-L "Imperial"
	22 LR plated high velocity solid ammunition, (1) silver and red box of 50
	rounds Armament International (Canada) 22 LR high velocity solid
	ammunition, (1) clear plastic box with gold label of 50 rounds C-I-L
	"Imperial" 22 LR high velocity solid ammunition and (1) tan box with gold and red label of 50 rounds C-I-L "Lesmok" 22 Stevens Short RF flat
	nose solid ammunition. Overall, the ammunition rates excellent with
	some light handling marks on the boxes, a few showing more wear,
	stickers or later added writing and most of the cases are clean some
	showing light tarnish. (86678-77F)
077	Mixed Lot of Collectible 22 Rimfire Ammunition
	This lot includes: (2) blue boxes of 50 rounds each Gevelot (Canada) 22
	LR high velocity hollow point ammunition, (1) green and cream box of 50 rounds Gevelot (France) 22 LR solid ammunition, (1) blue and white box
	of 49 rounds Gevelot (France) 22 LR high velocity hollow point
	ammunition, (1) green and white partial box Gevelot (France) 22 LR
	"Grande Precision" solid match ammunition, (1) green and white box of
	9 rounds Gevelot (France) 22 LR "Flame Tracer" solid ammunition (box
	has tearing), (1) green and white Gevelot 22 LR match box repackaged
	with approximately 45 rounds of Winchester headstamped ("H") of 22
	short solid ammunition with copper cases, (1) green and white partial box Gevelot (France) 22 Long solid ammunition, (1) green and white
	partial box Gevelot (France) 22 Long solid ammunition, (1) green and white
	blue and white box of 50 rounds Gevelot 22 LR hollow point
	ammunition, (2) green boxes of 50 rounds each Russian made steel
	case 22 LR solid ammunition, (1) black box of 50 rounds Eley 22 LR $$
	Match standard velocity solid ammunition, (1) blue box of 50 rounds
	Eley 22 LR Pistol Match standard velocity solid ammunition, (1) orange
	box of 50 rounds Eley 22 LR Tenex standard velocity match solid
	ammunition, (1) red and black Eley 22 LR High Velocity box repackaged with 50 rounds of Winchester headstamped ("W") of 22 LR solid
	ammunition, (1) red and black Eley 22 LR High velocity box repackaged with 50 rounds of Winchester headstamped ("W") of 22 LR solid ammunition, (1) green box of 50 rounds Eley 22 Short Pistol Match
	with 50 rounds of Winchester headstamped ("W") of 22 LR solid
	with 50 rounds of Winchester headstamped ("W") of 22 LR solid ammunition, (1) green box of 50 rounds Eley 22 Short Pistol Match
	with 50 rounds of Winchester headstamped ("W") of 22 LR solid ammunition, (1) green box of 50 rounds Eley 22 Short Pistol Match standard velocity match solid ammunition, (1) white box of 50 rounds Eley 22 LR Tracer solid ammunition, (2) silver and blue boxes of 50 rounds each Armament International (Canada) 22 LR standard velocity
	with 50 rounds of Winchester headstamped ("W") of 22 LR solid ammunition, (1) green box of 50 rounds Eley 22 Short Pistol Match standard velocity match solid ammunition, (1) white box of 50 rounds Eley 22 LR Tracer solid ammunition, (2) silver and blue boxes of 50 rounds each Armament International (Canada) 22 LR standard velocity solid ammunition, (2) red and green boxes of 50 rounds (one box has

1070	
1078	Collectible Ammunition
	This lot includes: (3) boxes of 8 rounds each 8x50R Lebel ammunition,
	one box is headstamped "RA / S4-17" and second box is headstamped
	"RHA Co. / 2-1917" but the bullets have been pulled. The last box
	remains fully loaded with "RHA Co. / 2-1917" headstamp, all three boxes
	are marked "MIe.1886D / R.H." and the cases show light verdigris and
	oxidation. Also included: (1) box of 15 rounds on three stripper clips
	German 7.97x33 Kurz with "St fva 44 St", (1) box of 22 CB caps with "P"
	head stamped (this is a 30 Mauser box full of CB caps); (1) box of
	approximately 40 rounds Winchester 38 RF Short ammunition with "H"
	headstamp showing heavy lead oxide on the bullets, the box rating
	about fair to good, (1) faded tan slip cover partial box of Winchester 22
	Short solid ammunition, the box rates poor to fair with heavy soiling, torn
	corners and heavily faded label. (1) red tin of approximately 47 rounds
	of MGM 9mm RF shotshells in excellent condition, (1) box of 50 rounds
	Winchester 38 RF Long ammunition with "H" headstamp showing heavy
	lead oxide on the bullets, the box rating about poor with soiling, missing
	end flap and no cover, (1) partial box of UMC 22 Winchester Auto solid
	ammunition, (1) box Western 9mm Luger with 32 rounds of Western
	cupro-nickel steel truncated cone hollow point ammunition with a 1918
	date stamp in addition to 4 rounds of Peters cupro-nickel steel truncated
	cone full metal jacket and 5 rounds of Remington-UMC cupro-nickel
	steel full metal jacket round nose, the slip cover box rates poor with
	soiling, torn label, frayed and scuffed edges and other storage marks.
	(1) bag of approximately 30 rounds of 32 RF Short ammunition with no
	headstamp and good to very good condition showing light tarnish and
	moderate lead oxide, (1) bag of approximately 20 rounds UMC 41 RF
	Short in very good to excellent condition showing light tarnish and
	cleaning, (1) bag of roughly 50 plus Winchester 22 CP Caps with "H"
	headstamp that rate very good to excellent and (1) bag of mixed
	headstamped ammunition that includes various 22 RF, four 32 S&W
	Shorts and other assorted rimfire ammunition. (86678-77H)
1079	Vintage 8mm Nambu
	Two unopened boxes and (7) loose rounds of original Japanese 8mm
	Nambu ammunition. The boxes are in very fine condition with only light
	storage wear and some edge scuffing; the ink of the markings remains
	crisp and the date codes "20.2" and "16.5" are clearly visible on the rear
	face of each box. The loose cartridges are in very good plus condition
	with some areas of tarnish and oxidation on the brass. (12B9353-109C)
4000	
1080	German P.08 Luger Magazine by Simson
	This bright bodied aluminum base magazine remains in very good plus
	condition showing some light operational wear and some light dings
	along the base. The base is numbered "8809" with a "+" and two droop
	wing "(Eagle) / 6" Simson Waffenamts. The spring seems to be
	serviceable. A nice magazine to accompany a desirable Simson Luger.
	(139506-23B)
1081	StG 44 & MG 13 Magazines
	The StG magazine is qlv-coded for Erma with clear "(Eagle) / 280"
	Waffenamt, the left side marked "St.G.44" and the base plate spring
	coded "C.H.N." The magazine rates very good plus showing remnants of
	original phosphate finish, scattered light oxidation staining and areas
	toning to a gray-brown patina. The follower spring remains serviceable.
	The MG 13 magazine has "(Eagle) / 114" Sauer Waffenamt on the
	follower and shows strong original blue with moderate overall oxidation
	staining, some areas of minor pinprick pitting and the base plate
	showing flakes of bright fire blue. The spring remains serviceable.
	(136519-257A)
1082	French Chauchat Magazine
	This lot includes one original 8mm Lebel French Chauchat magazine in
	fair-good condition toning to a mix of gray-brown and pewter gunmetal
	patina with remnants of original blue, light oxidation staining and
	handling marks. The feed lips show a bit of wear and the insides show
	remnants of old grease. The left side body is marked with a boxed "SA"
	Finnish property stamp, the follower moves freely through the magazine
	body and the spring seems to be serviceable. (136519-257B)
1083	French MAS 49/56 Magazines
1003	
	Included are three original 10-round magazines for the French MAS
	49/56 7.5 family of rifles. The floorplates are importer-stamped with a
	small "308" but they do not appear to be modified in any way from the
	originals. The magazines rate very good showing light operational wear,
	(136519-257C)
	a few small spots of minor oxidation staining and serviceable springs. (136519-257C)

## Lot Title/Description

1084	European Machine Gun Magazines	1091	Assorted Magazines
	Included are a French Model 1931A Tank/Fortress machine gun		This lot includes 21 various magazines, many of which are unmarked.
	36-round 7.5 box magazine and a Spanish Model 1922 Hotchkiss 7mm		There is a Beretta M21 7-round 22 LR magazine new in the packaging,
	Mauser box magazine. The French magazine appears to be unmarked		an Astra 6-round 25 ACP magazine in nickel, an unknown 22 Short
	and retains about 65% original blue showing some scattered oxidation		nickel magazine with right side heel button catch cutout, an original
	staining, operational wear and some isolated areas of pitting. The		Ortgies 32 ACP magazine retaining 95% original nickel with some light
	follower spring remains robust. The Spanish magazine is serial #1364		operational wear, a Beretta 1934 380 ACP magazine retaining strong
	on the base plate and shows strong remnants of dull arsenal blue		blue with light oxidation staining, a French Model 1935S magazine that
	throughout with overall toning to gray-brown patina, light operational		shows moderate wear, one reproduction Korovin 25 ACP pistol
	wear and flaws in the metal from somewhat crude manufacturing		magazine like-new, one reproduction Mauser WTP 25 ACP magazine
	techniques. The follower spring remains robust. (136519-257E)		like-new, one reproduction H&R 25 ACP Self-Loading magazine
1085	Assorted Magazines		like-new, one reproduction CZ 45 25 ACP magazine like-new, one small
	This lot includes one original 20-round 9mm Smith & Wesson Model		unmarked 25 ACP magazine with left-side window cutout (heel release),
	1940 Light Rifle magazine retaining about 94% original blue with some		one small 6-round 25 ACP magazine that shows some moderate old
	light freckling, operational wear and serviceable follower spring. Next is		pitting (heel release), a reproduction Mexican-made 14-round 380 ACP
	an LIQ-coded H&K MP5 30-round 9mm magazine retaining 97% original		magazine with a right side magazine cutout, one unmarked 8-round
	Parkerized finish showing some light operational wear, handling marks		9mm magazine with an oversized base plate (heel release), one
	and robust follower spring. Finally there is a 50-round 9mm submachine		unmarked 9-round 380 ACP magazine (heel release), one original
	gun stick magazine. It is serial-numbered "S119" and marked with a		unmarked J.P. Sauer 38H 32 ACP magazine retaining 94% original blue
	Finnish "SA" property stamp although it is obviously not a Suomi		with light operational wear and a good spring, one unmarked vintage
	magazine. There is what appears to be a small stylized "L" maker's		8-round 32 ACP magazine showing moderate operational wear (heel
	mark on the left side body as well a small bit of added material on the		release), one likely 8-round 32 ACP magazine that has a later added
	left side perhaps to act as a stop for adapting to another arm. It also		baseplate repurposed at some point and showing moderate wear (heel
	includes an unmarked magazine loader and both retain strong original		release), two unmarked 7-round 32 ACP reproduction magazines (heel
	blue with spots of light to perhaps moderate oxidation staining and		release) and an unmarked 22 LR magazine with right side release
1086	handling marks. (136519-257F)	1092	cutout. (136519-257V) Covernment Model 1911 22 LB Conversion Magazines

(136519-257AH)           Winchester Model 1907 351 Self-Loading Magazines           This lot includes 4 original magazines, one 5-round and three 10-round. The 5-round magazine is a mottled gray patina showing some scattered light oxidation staining, a spot of moderate pitting at the top edge and a somewhat sluggish but likely serviceable spring. The first 10-round magazine retains perhaps 80% original blue with most of the loss due to a spot of heavy oxidation on the top right side, scattered smaller spots of oxidation and a serviceable spring. The second is a mottled gray patina
	moderate oxidation staining and the follower spring remains robust. (136519-257M) Japanese Type 14 Nambu Magazine Included is one original 8-round early variation magazine serial #843 with clear kanji and "N" inspector stamps. The body retains about 97% original nickel finish showing a couple tiny flakes and a few specks of minor oxidation staining along with a small but moderate dent along the spine. The aluminum base shows some light handling marks and the follower spring seems to be robust. (136519-257P) Japanese Type 14 Nambu Magazines Included are two later variation magazines with front spring clip cutout serial #336 and #312. The bodies retain about 85% original blue showing some spots of light oxidation staining and operational wear. The aluminum bases rate very good showing some light dings and scuffs. The follower springs appear to be robust and could likely use a		Savage Sporter Magazines This lot includes two original Savage Sporter magazines for 25-20 or 32-20. The first magazine retains perhaps 75% original blue showing an area of moderate oxidation and light pitting on the left side knurling, some overall lighter oxidation staining, slight dent at the top rear edge and a serviceable spring. The second magazine shows remnants of original blue toning to a mottled gray patina with light oxidation staining, some dings around the top rear edge and magazine catch and a serviceable spring. (136519-257AH) Winchester Model 1907 351 Self-Loading Magazines This lot includes 4 original magazines, one 5-round and three 10-round. The 5-round magazine is a mottled gray patina showing some scattered light oxidation staining, a spot of moderate pitting at the top edge and a somewhat sluggish but likely serviceable spring. The first 10-round magazine retains perhaps 80% original blue with most of the loss due to a spot of heavy oxidation on the top right side, scattered smaller spots of oxidation and a serviceable spring. The second is a mottled gray patina showing some scattered light oxidation staining, a few spots more

## Lot Title/Description

1096	MAS 45 Magazines
	This lot includes 11 original magazines for the MAS-45 22 LR bolt action
	training rifle. One rates fair showing heavy oxidation on the left side
	body and an otherwise serviceable spring. The remaining ten are sealed in greased packets of five and are very good plus to near excellent likely
	needing a good cleaning before use. (136519-257AQ)
1097	Reising M-65 Magazines
	This lot includes 15 original 10-round magazines for the Harrington &
	Richardson Reising M-65 22 LR semi-auto training rifle. Four magazines
	are good to very good, one toned to a gray patina and the remainder
	showing strong Parkerized finish with spots of light and a few more
	moderate areas of oxidation staining, all appear to have serviceable springs. Next is a rare sealed greased paper packet containing 10
	magazines in very good condition showing a couple tiny tears, scuffs
	and minor soiling. The military stamp marking is clear reading "10
	MAGAZINE, assembly / B-SA22-61 / Line Item #3148 / P.S. Reising.
	M65". The magazines are presumably in near excellent condition.
1098	(136519-257AT)
1050	L.A.R. Grizzly Magazines Two stainless steel 10mm magazines in excellent condition with the
	original white cardboard sleeve marked "10mm", the baseplates are
	marked "LAR MFG. INC. / 10mm". (226519-334D) [Richard "Stretch"
	Kennedy Collection]
1099	L.A.R. Grizzly Magazines
	Two stainless steel .45 ACP magazines in unused condition with the original white cardboard sleeve marked "45 ACP", the baseplates are
	marked "LAR MFG. INC. / 45 ACP". (226519-334B) [Richard "Stretch"
	Kennedy Collection]
1100	Lot of AR-7 and other magazines
	This lot consists of (2) plastic Ram-Line twenty-five-round 22 LR
	magazines in very good condition, (1) unmarked metal AR-7
	fifteen-round 22 LR magazine in excellent condition and (1) Savage
	Mark II 22 LR ten-round magazine that appears to be modified to fit early Savage Stevens models 4 through 982 and rates about very good
	with light oxidation stains. It is unknown how well the modifications
	worked on the Mark II magazine. (88926-105A)
1101	Assorted magazines
	This lot consists of 11 assorted military and sporting magazines
	including: 1 original Ruger 10/22 rotary magazine, 2 reproduction Luger
	magazines, 2 unmarked Browning Hi-Power 13-round magazines, 1 Beretta Model 1934 magazine, 2 1911 magazines, 3 reproduction
	30-round M1/M2 Carbine magazines marked "M2" on their spines, and 1
	magazine that is likely a Radom VIS 1935 magazine. All are blued and
	in very good condition with light signs of wear and light oxidation on the
	base of one of the Luger magazines. (239071-3)
1102	B.A.R. and 7.62mm NATO Magazines This lot consists of various steel detachable box magazine in very good
	to very good plus condition with a few showing spots of oxidation and all
	having light operational wear and signs of use. Included are: three 30-06
	Browning Automatic Rifle (BAR) 20-round magazines with one having a
	modified follower for use with blanks, three M1A/M14 magazines (one
	20-round blued, one 20-round Parkerized which has been limited to five
	rounds, one 30-round blued), and six 20-round F.A.L. magazines with
	one being inch pattern and the remaining six are metric pattern. (236519-257L)
1103	Assorted Magazines
	This lot contains one factory Ruger 77/22 22 Hornet 6-round rotary box
	magazine, and six 22 LR magazines as follows: one original Marlin
	Model 70 translucent polymer 15-round magazine marked "PART
	#407946", one original Ruger 10/22 translucent polymer 10-round rotary
	box magazine, one Mitchell 50/22 50-round polymer magazine for the
	Ruger 10/22 which comes in the original box with instructions, and three Ram-Line translucent polymer 50-round magazines for the Ruger 10/22,
	77/22, 96/22 with one still sealed in the original packaging. All
	magazines are in excellent condition. (236519-257S)
1104	Rare M16 Rifle 22 LR Conversion Magazines
	This lot consists of three U.S. Air Force surplus 10-round 22 LR white
	nylon magazines in very good plus condition. These heavy-duty
	magazines were part of a conversion kit for the M16 rifle that enabled
	sub-caliber training and according to Frank lannamico's article, "Full Auto Conversions for the M16 Rifle" in the November 2015 issue of
	Small Arms Review, these magazines were the only type to lock the bolt
	back on an empty magazine. (23A6519-257T)
1105	Colt-Marked AR-15 20 Round Magazines
	This lot contains seven 20-round aluminum magazines with baseplates
	marked "COLT AR-15 / CAL. 5.56 MM" and silvery-metal followers. They
	likely date to 1970 and are packed in a brown box with NSN
	"1005-056-2237". The magazines are in excellent condition showing light scratches and handling marks from storage and appear to be

1106	Assorted AR-15 Magazines Included in this lot are one 7.62x39mm 20-round magazine of unknown origin, one Ram-Line 5.56mm 30-round translucent polymer magazine with a baseplate marked "FOR MINI-14, M-16, AR-15, AR-180", two
	5.56mm 30-round black aluminum magazines of unknown origin, two Colt-marked 5.56mm 20-round aluminum magazines and two Universal Industries-marked 5.56mm 20-round aluminum magazines. All magazines are in very good to near excellent condition with scattered
	handling marks and light signs of use, one of the Colt magazines has had its baseplate painted orange and the other Colt mag displays minor high edge wear along with the remnants of a "5" on the right side.
	(236519-257U)
1107	Vintage Ruger Standard and Mark 1 Pistol Magazines This lot contains three vintage 22 LR 9-round magazines in their original boxes marked "RUGER MAGAZINE / FOR STANDARD & MARK 1 PISTOLS". The magazines remain in excellent condition and appear to have seen little if any use. (236519-257Z)
1108	M1 Carbine and M1A/M14 Magazine Lot This lot contains five 15-round M1 Carbine magazines in good to very good condition with spots of light oxidation and minor silvering from use
	with the following stamps on their backs: "G-Q", "SW", "U" and "BW". Also included are five 5-round M1 Carbine magazines in similar condition and one Parkerized 20-round M1A/M14 magazine in excellent
	condition with light handling marks. (236519-257AA)
1109	Rare Valmet M76/Hunter Magazine Lot This lot contains one hard-to-find Valmet M76/Hunter 308 Win. 20-round magazine in near excellent condition along with one 30-round HK G3/91, PTR91 7.62mm NATO magazine in very good plus condition with a few small spots of light oxidation and a minor dent in the baseplate.
1110	(236519-488F) Valmet M76/Hunter and SR25 Magazine Lot This lot contains one scarce Valmet M76/Hunter 20-round 308 Win.
	Magazine in about excellent condition along with one unmarked Parkerized steel SR25-type 20-round 7.62mm NATO magazine sealed in its original packaging. (236519-488G)
1111	Desirable Valmet M78 and SR25 Magazines
	This lot includes one Valmet factory-remanufactured 20-round 7.62mm
	NATO HK G3 magazine for the M78 rifle. The magazine is Parkerized
	steel and remains in excellent condition with minor handling marks and features a "(crown) / C" stamped on the left side along with the date
	"01/81". Also included are two unmarked new-in-package Parkerized
1112	steel SR25-type 20-round 7.62mm NATO magazines. (236519-488H) Assorted 9mm and 45 ACP Stick Magazines
	This lot comprises the following: one Tec-9 32-round 9mm magazine in
	very good plus condition with light silvering of the edges and wear points
	and flaking of the original blue, two Feather AT9 30-round 9mm magazines in about excellent condition with minor silvering on the wear
	points, one L1A2-marked Sterling submachine gun 34-round 9mm
	magazine produced by Rolls Razor in 1957 in very good plus condition
	with minor edge wear and the floorplate appears to be installed backwards, and three Madsen Model 1950 32-round 9mm magazines in
	very good plus condition toning to a brown patina with a few small areas
	of light pitting and minor oxidation. Also included are three Thompson
	submachine gun 30-round 45 ACP magazines, 2 manufactured by The
	Seymour Products Co with one in near excellent condition with some light pitting at the baseplate while the second has heavy pitting overall.
	The third Crosby Comanufactured Thompson magazine shows spots
	of heavy oxidation. Finally, there are two U.S. M3 "Grease Gun"
	30-round 45 ACP magazines in near excellent condition with a few scattered spots of light oxidation and patches of dried oil overall.
	(236519-257AG)
1113	Ruger Mini-30 7.62x39mm Magazine Lot Included in this lot are four factory 5-round blued steel magazines one of
	which has a Mini-14 marked baseplate, two steel U.S.A. Magazines-brand 30-round magazines one being Parkerized and one
	blued, and two 40 or perhaps 45-round U.S.A. Magazines-brand blued
	steel magazines. All magazines are in near excellent condition. (236519-257AJ)
1114	Ruger Mini-14 223 Rem. Magazine Lot This lot includes two factory 5-round blued steel magazines in excellent
	condition, one factory 20-round blued steel magazines still in its factory
	box and in excellent condition, and three factory 30-round blued steel
1115	magazines showing scattered spots of light oxidation. (236519-257AK)
1115	Ruger Mini-14 223 Rem. Magazines This lot comprises two factory five-round blued steel magazines one of
	which shows spots of heavy oxidation on the right side and one of which
	remains in excellent condition, one unmarked stainless steel 30-round
	magazine in excellent condition, one unmarked stainless steel 35 or perhaps 40-round magazine in excellent condition, and two Mitchell
	Arms aluminum 35 or perhaps 40-round magazines in about excellent
	condition. (236519-257AL)

## Lot Title/Description

135	Winchester Model 88 Magazine
	This lot contains one Winchester Model 88 magazine in excellent
	condition, still wrapped in plastic and with its original cardboard box. The
	follower is marked "M-88", the front of the mag is marked "243 / 308",
	and the underside of the baseplate is marked "WINCHESTER / TRADE
	MARK" next to a forward pointing convex arrow. The magazine appears
	to function well. The box is lightly worn on the edges, still sealed at one
	end, has been written on, and the flap at the other end has torn.
	(146519-257X)
1136	Winchester Model 100 Magazine
1150	This lot contains one Winchester Model 100 magazine in excellent
	-
	condition, still wrapped in plastic and with its original cardboard box. The
	follower is marked "M-100", the front of the magazine is marked "243 /
	308", and the underside of the baseplate is marked "WINCHESTER /
	TRADE MARK" next to a forward pointing convex arrow. The box has
	very light wear marks on the edges, and one flap has been written on.
	The magazine appears to function well. (146519-257Y)
137	22 LR Magazines
	This lot contains two Kimber K22 5-round magazines and two
	Remington 5-round magazines for Model 541T, 541S, and 581. All
	magazines remain in their original packaging, and one of the Remington
	packages has a moderate tear above the plastic and an area of
	abrasions. (146519-257AC)
1138	Assorted Double Stack Pistol Magazines
	This lot contains two Pachmayr Browning Hi-Power 22 LR conversion
	magazines in excellent condition, three Sig Sauer P226 15-round 9mm
	magazines in very good condition with light wear marks and spots of
	previously cleaned light oxidation, two 13-round and one likely 25-round
	9mm Browning Hi-Power magazines in very good condition with light
	scratches, light high edge wear, and spots of oxidation, three 10-round
	Sig Sauer P229 9mm magazines in near excellent condition, one
	Para-Ordnance P10-45 mag in near excellent condition with light
	handling marks, five unmarked double-stack 9mm magazines, and two
	12" long double stack magazines in about very good plus condition with
	scattered light handling mark, that appear to be Uzi magazines but it can
	not be guaranteed. (146519-257AE)
1139	Assorted Single Stack Pistol Magazines
	This lot contains three unmarked Sig Sauer P220 magazines stamped
	".45 Auto" on the baseplate, one mag of which is for heel-release, three
	magazines for the S&W Model 39, one in very good plus condition with
	specks of oxidation and two in original packaging, one still-in-plastic
	Glock 21 13-round 45 Auto magazine, a S&W marked 10-round 22 LR
	magazine in very good condition with light to moderate wear on the high
	edges and contact points, one unmarked 1911-style magazine, and one
	short (3 1/4" long) Colt-marked 9mm 1911-style magazine in about
	excellent condition. (146519-257AF)
1140	Assorted 9mm Double Stack Magazines
	This lot contains two 15-round magazines for the Beretta 92 pistol,
	marked "PB CAL 9 PARA MADE IN ITALY", in very good condition with
	light wear marks and scattered light scratches, one 20-round 9mm
	magazine marked "MARLIN" on the baseplate in very good condition
	with scattered light scratches, light wear marks, and a few specks of
	oxidation, and one unmarked double stack 9mm magazine in very good
	plus condition with scattered light wear marks. All magazines appear to
	function well. (146519-257AM)
1141	Winchester Model 88 Magazine
	This lot consists of one Winchester Model 88 magazine in excellent
	condition. The magazine is marked "M-88" on the follower, "243 / 308"
	on the front of the magazine, and "WINCHESTER / TRADE MARK" next
	to a forward pointing convex arrow on the baseplate. The magazine
	appears to function well and retains the original plastic packaging.
	(146519-257AN)
1142	Winchester Model 88 Magazine
	This lot consists of one Winchester Model 88 magazine in excellent
	condition. The magazine is marked "M-88" on the follower, "243 / 308"
	on the front of the magazine, and "WINCHESTER / TRADE MARK" next
	to a forward pointing convex arrow on the baseplate. The magazine
	appears to function well and retains the original plastic packaging.
	(146519-257AO)

1143	Assorted Rifle Magazines This lot contains four Savage Model 23B-C magazines for 25-20 Win and 32-20 Win in overall very good condition with scattered light scratches, light wear on the high edges, and a few light spots of oxidation. Two of the magazines are crisply marked "MOD. 23 B-C / SAVAGE / 25-20 32-20" on the underside of the baseplate and two remain unmarked. Also included are two magazines for the Winchester Model 43, one of which is in a Triple K bag and rates excellent and the other is in very good plus condition with a few light wear marks and scattered light scratches, one magazine for the Savage Model 340 which is very good plus condition with a few light wear marks on the high edges, and two likely 3-round magazines for the Sako L46 that are in excellent condition, one marked "Cal.222" and the other "Cal.222 MAGNUM" on the underside of the baseplate. (146519-257AU) H&K Model 300 Magazines
	This lot includes five likely 15-round blued H&K Model 300 .22 Magnum magazines. Two of the magazines are in excellent condition and three are in very good plus to near excellent condition with a few spots of light oxidation and a mark or two of light wear. Four of the magazines are marked ".22WMR" on the left side of the magazine body near the baseplate, and one is marked ".22WMR / JA" in the same location. The magazines appear to function well. (146519-257AV)
1145	Assorted Single Stack Pistol Magazines This lot includes four 45 ACP Sig Sauer P220 magazines, one which is in excellent condition and appears to be stainless steel construction and three unmarked black-finished heel-release magazines which are in very good to very good plus condition with light wear marks, one 9 1/2" long magazine that appears to fit a Sig Sauer P220 and is in excellent condition, two unmarked Sig Sauer 9mm P210 magazines in very good plus condition with light wear marks, one "S&W" marked Model 39 magazine in very good condition with scattered spots of light oxidation, one "Walther" marked P38 magazine in very good condition with light pitting, one "Mauser" marked likely HSC magazine in very good condition light wear marks and light oxidation, and one S&W Model 52 magazine in very good plus condition with light wear marks on the contact points. (146519-257AZ)
1146	Weatherby XXII Magazines This lot contains three unmarked 5-round Weatherby XXII magazines in very good condition with light wear marks and specks of oxidation, two unmarked Weatherby XXII 10-round magazines in very good plus condition with light handling marks, a single Beretta 21A magazine, which is extremely similar in construction to the Weatherby XXII 10-round magazines, in very good plus condition with light wear marks, and two unmarked single-stack 22 RF magazines in very good plus condition with light wear marks. All magazines appear to function well. (146519-257BB)
1147	Walther PPK Magazines This lot contains three Walther-marked 6-round 380 Auto PPK magazines (two of which have the left side rib), one Manurhin-marked 6-round 380 Auto PPK magazine with left side rib, one likely 7-round Walther-marked 380 Auto PPK mag with left side rib, three 6-round 380 Auto PPK magazines with pinky extensions and spots of oxidation, and one unmarked 22 LR PPK magazine with pinky extension. (146519-257BC)
1148	Assorted Colt Magazines This lot contains two Colt Woodsman 22 LR magazines, one marked "COLT WOODSMAN / CAL. 22 L.R. / MATCH TARGET MOD." on the bottom of the baseplate in very good condition with light wear and specks of oxidation and one unmarked in very good plus condition with a few light scratches, one 38 Special wadcutter 1911 magazine in very good condition with wear marks on the contact points and scattered light oxidation marked "COLT .38 SPEC." on the underside of the baseplate, three Colt-marked 1911 38 Super magazine, one with moderate oxidation on the right side and the other two with scattered handling marks and specks of oxidation, a stainless steel unmarked 1911 magazine, an extended unmarked 1911 magazine, and what appears to be an early x-follower S&W Model 39 magazine in very good plus condition with scattered light scratches. (146519-257BE)
1149	Assorted Colt Magazines This lot contains two Colt Woodsman magazines in very good condition with light wear patterns marked "CAL .22 / COLT" on the baseplate, four Colt-marked 9mm 1911 magazines in very good condition with spots of light oxidation, two 45 Auto 1911 magazines in very good condition with spots of oxidation (one Colt-marked), one Colt 1908 magazine in very good condition with light oxidation and wear marks, and one 1911 22 LR magazine marked "COLT / (diamond) ACE / 22 LR" on the baseplate. (146519-257BF)

## Lot Title/Description

1150	Assorted Colt Magazines
1150	Assorted Colt Magazines This lot contains two Colt-marked 1911 magazines for 38 Special
	wadcutters in very good condition with moderate wear marks, three 45
	Auto 1911 magazines (one unmarked, one Colt-marked, and one
	Randall-marked) in very good to very good plus condition, and two
	Colt-marked 380 Auto magazines in very good condition with spots of
	oxidation, one for the Mustang and the other for a Model 1908
	hammerless showing a later-added magazine cutout on the right side.
	(146519-257BG)
1151	Extended Beretta 92 Magazines
	This lot includes two 20-round extended 9mm magazines for the Beretta
	Model 92. One magazine is in excellent condition and the other is in
	very good plus condition with a light wear mark on the metal body and a
	small chip from the polymer grip extension. Both magazines are marked "PB CAL 9 PARA MADE IN ITALY", and appear to function well.
	(146519-257BJ)
1152	Extended Beretta 92 Magazines
	This lot includes two 20-round extended 9mm magazines for the Beretta
	Model 92. Both magazines appear to be in very good plus condition with
	scattered light handling marks. Both magazines are marked "PB CAL 9
	PARA MADE IN ITALY", and appear to function well. (146519-257BK)
1153	Assorted Para Ordnance Magazines
	This lot contains five 12-round P12-45 magazines, four of which are still
	wrapped in plastic and one of which shows light wear marks from use,
	and eight 14-round P14 magazines, four of which are wrapped in plastic,
	two are in plastic which has torn and show specks of light oxidation, and
	two are unwrapped and in near excellent condition with scattered light
1154	handling marks. (146519-257BL)
1104	Sig Sauer Magazines This lot contains two "Sig Sauer" marked 20-round 9mm extended P226
	magazines in about excellent condition, one "Sig Sauer" marked
	15-round 9mm P226 magazine in about excellent condition, and an
	unmarked possible P220 45 ACP extended magazine in excellent
	condition. (146519-257BM)
1155	Assorted Pistol Magazines
	This lot contains three "S&W" marked 20-round 9mm magazines with
	over-insertion prevention tabs on the front of the magazine body (two
	configured for full-sized guns and one for compact guns, with the ability
	to be modified for full-size) in very good plus to near excellent condition
	with a few light wear marks on the contact points, one Ram-Line MAS
	9017 9mm double stack magazine in very good condition with scattered
	light scratches and a few specks of oxidation, one Para-Ordnance P12
	magazine in very good condition with light wear marks with
	"turbo-speed" marked on the underside of the baseplate, one CZ-75
	9mm magazine in very good condition with light wear marks on the
	contact points, and two unmarked extended double stack magazines measuring 7 3/4" and 9" long in very good plus condition with scattered
	light scratches. (146519-257BO)
1156	Early Hi-Standard Olympic Magazine
	This lot contains one early production Hi-Standard Olympic curved
	magazine. The magazine is in very good to very good plus condition
	with light wear on the high edges and contact points, a speck of light
	oxidation, and a few light scratches. The magazine appears to function
	well mechanically. Also included are two unmarked magazines
	measuring 2 1/2" long, likely for 22 Short, and are in very good condition
	with scattered light oxidation and light wear marks. (146519-257BP)
1157	Assorted Hi-Standard and Colt Magazines
	This lot contains three "Hi-Standard" marked 22 LR magazines, two
	in-the-white and one blued, in very good condition with light oxidation
	and light wear marks (the blued magazine has an added screw in the
	baseplate), two unmarked Hi Standard magazines in very good plus
	condition with light wear marks, a single Hi-Standard 380 Auto magazine
	in very good plus condition with specks of oxidation, three second series
	Colt Woodsman magazines, one in about good condition with oxidation
	and scattered light scratches and dings and two in very good plus condition with light wear marks, and one third series Colt Woodsman
	magazine in very good condition with spots of oxidation and a few light
	wear marks. Also included is a Llama XV 10-round 22 LR magazine.
	(146519-257BS)
1158	Assorted Pistol Magazines
-	This lot includes one Pieper Bayard 32 Auto magazine in good condition
	with spots of moderate oxidation and wear on the contact points, three
	Colt Junior 22 Short magazines (one marked "Colt" on the baseplate
	and two marked "FIREARMS INT'L CORP / WASHINGTON 22-DC) with
	two in about excellent condition and one in about very good plus
	condition, two FN 1922 32 Auto magazines with faint FN marking on the
	condition, two FN 1922 32 Auto magazines with faint FN marking on the right side of the magazine body and one is in good condition with
	· · · · ·
	right side of the magazine body and one is in good condition with
	right side of the magazine body and one is in good condition with moderate oxidation and one in very good condition with light wear

This is a lot of three blued steel, unmarked, 40 rd., 7.62x39mm         magazines rating excellent and showing little indication of use. ## Lot Title/Description

1173	Cooper Arms 57-M Magazines
	Two 17 HMR magazines, one retaining about 98-99% original blue with
	some freckling and light oxidation, one retaining about 95% original blue
	with heavier oxidation on the baseplate and lip areas. (1X229420-1A)
1174	Colt Third Series Woodsman Magazine
	One original factory magazine for use in a Third Series Colt Woodsman or Challenger pistol. Magazine retains 99% original blue and is marked
	"CAL. 22 L.R." on the baseplate. (1X229385-8D) [Richard J. Stoddard
	Collection]
1175	Winchester Model 52/69/75 Magazine
	Included is a single 10-round magazine for the Winchester Model
	52/69/75 rifles. The magazine is crisply marked "MADE IN U.S.A. /
	WINCHESTER / TRADE MARK" on the baseplate. The magazine is in
	very good plus condition with handling marks and a few specks of
1176	oxidation. (1X147861-10B) 22 LR Magazines
1170	Assorted magazines for 22 LR rifles: (7) 10 rd. Ruger magazines for the
	Ruger 10/22 rifle; (3) 25 rd. aftermarket magazines for the same, the first
	two of translucent black plastic by Butler Creek and the third of black
	phosphate-finished steel labeled "TACTICALINC.COM"; (1)
	Thompson/Center 5 rd. steel magazine for the T/C 22 LR Classic rifle;
	(6) Thompson/Center 15 rd. steel magazines for the same. All items are
	in very good plus to excellent condition with no more than light handling
	wear. (126056-7B)
1177	German Zf.41 Riflescope, Mount & Case
	This is a very nice original set including duv-coded mount, clb-coded scope and jvb-coded case. The mount is serial #1747a (the second "7"
	has been factory re-struck likely to correct an error) with crisp duv code
	and "(Eagle) / 214" Waffenamt, "K98k-Zf.41." at the back surface of the
	rear arm and the rings correctly scratch-numbered "47". The scope is
	serial #60936 along with "clb +" code and "Z.F. 41" markings. The scope
	and mount retain about 85% original blue showing areas of minor overall
	thinning, some scattered light freckling and handling marks. The optics
	are cloudy and discolored, in need of a professional cleaning. The tan
	painted case is also quite nice showing a few like flakes and scuffs. The
	jvb code and Waffenamt on the lid are still visible along with the small maker's logo on the spring catch, all interior lining material and outer
	straps are intact. (13B6519-658)
1178	Lyman No. 2 Tang Sights
	Four brand new tang sights with aperture disc, mounting screws and
	paperwork housed in orange plastic factory hard cases. Two are item
	#3902094 for use with a Winchester Model 94, two are item #3902100
	and are for use with Marlin Models 336, 1895 and 30 Series.
1179	(226519-262A)
1179	Lyman 66R and 48S Aperture Sights Two total, one vintage steel Lyman 66R aperture sight with some
	silvered edges, slight freckling and minor slot wear in the adjustment
	screws and one vintage steel Lyman 48S aperture sight with some slight
	silvering and freckling. Both are in about excellent condition and do not
	include aperture discs or mounting screws. (226519-262B) [Richard
	"Stretch" Kennedy Collection]
1180	Lyman 66A and 66LA Aperture Sights
	Two total, one vintage steel Lyman 66A aperture sight with very minor
	edge wear and slight freckling and one vintage steel Lyman 66LA
	aperture sight with some slight silvering, freckling and minor slot damage to the side screw. Both are in about excellent condition and do
	not include aperture discs or mounting screws. (226519-262C) [Richard
	"Stretch" Kennedy Collection]
1181	Lyman No. 103 and No. 30 1/2 Tang Sights
	Two total, one Lyman No. 103 windage adjustable sight marked "SB" in
	about excellent condition with very slight freckling and with disc and one
	about excellent condition Lyman No. 30 1/2 adjustable tang sight
	marked "SA" with disc. (226519-262D) [Richard "Stretch" Kennedy
1100	Collection]
1182	Redfield Sights
	Two total, one Redfield Small Bore Globe Target Front Sight (Model #718003) measuring 4 1/8" with small signs of handling and finish loss
	with four orange lenses, six clear lenses, 11 reticle inserts and original
	slightly-tattered and torn box. One Redfield International Micrometer
	Receiver Sight (Model #712000) with windage and elevation adjustment
	knobs, aperture disc and original slightly-tattered and torn box.
	(226519-262F)
1183	Lyman 48 Sight
	One Lyman 48 WJS Micrometer Receiver Sight for use with Winchester
	Models 54 and 70, Remington Models 721, 722, 725, Savage Model
	110 and Weatherby Mark V. Sight appears unused in original
	slightly-compressed factory box with red and blue ink on one side. (6519-262G)

<ul> <li>Wittek Vaver Sights</li> <li>One fully-adjustable receiver sight with disc and disc extension in about excellent condition stamped '193' on the underside of the base and one front globe sight with crosshair insert and case-colored base, both are in about excellent condition stamped '193' on the underside of the base and a black two-piece box with tape repairs, one lights/tamished Boye four-sided pocket scorewidriver and nine varying size screw-in disc in sebout excellent condition stamped '392' on the underside of the base and a black two-piece box with tape repairs, one lightly-tamished Boye four-sided pocket scorewidriver and nine varying size screw-in disc inserts in original tape-repaired factory box. edge wear. (226519-262M)           1190         Winchester Lyman Tang Sight           One sight for use on Winchester Model 1892 all calibers and Winchester Model 1894 chambered in 32-40 & 38-55. The sight is a mostly brown patina with areas of original blue with mounting screws included. (226519-262N)           1191         Parker-Hale Model 5a Aperture Sight           This lot consists of a Parker-Hale Model 5a aperture rear sight for the S.M.L.E. (No. I) Rifle in the original packaging. The sight is marked "MARK VII" and "S.M.L.E." and remains in about excellent condition while the packaging rates about very good with light scuffs and writing on its right side. (237933-8A)           1192         Parker-Hale Model 5a Aperture Sight           This lot contains one Parker-Hale Model 5a aperture rear sight for the S.M.L.E. (No. I) Rifle in the original packaging. It is marked "MARK VII", "S.M.L.E." and "D.O.W. 58" denoting that it was made in South Africa by Delphos Ordnance Works under license from Parker-Hale. The sight remains in about very good plus condition and appears to be covered in dried cosmoline while the packaging remains in very good condition with light scuffs, a small hole in the front left edge, two out of three lid flaps missing, and some writing on the right and comes equipped with a pair of Redfield scope rings on a 5" mount. The optics are clear and excellent with a circle and crosshair reticle. The metal surfaces retain an estimated 95% original blue with scattered very light handling scratches including the expected slight wear at the rings as well as the occasional hint of speckled dark brown patina. Overall the scope is in quite fine condition. Also oncluded is a pair of leather lens covers in very good plus to fine condition with some light scuffs. (126519-481A) [Richard "Stretch" Ken

1000	Creith & Massar Target Marriet/Lang Dange C 24/42mm Difference
1206	Smith & Wesson Target/Varmint/Long Range 6-24x42mm Riflescope
	This scope measures 15 1/4" in length and features clear excellent
	optics with a mil-dot reticle. The metal surfaces retain about 98% plus
	original black anodized finish and are in excellent condition, exhibiting
	few if any blemishes except a few scuffs at the corners of the turret caps
	and hints of expected contact wear at the included scope rings. Includes
	the aforementioned pair of Weaver scope rings and a factory pair of
	bikini-style lens covers emblazoned with the silver-colored S&W
	medallion logo. (126519-481P) [Richard "Stretch" Kennedy Collection]
1207	Aimpoint and BSA Red Dot Sights
	Two red dot sights in factory boxes, the first a BSA Optics 30mm Red
	Dot and the second an Aimpoint 5000 XD. The BSA sight measures 3
	7/8" overall on a 2 3/4" dovetail base and features clear excellent optics;
	the dot itself is fully functional though somewhat dim and may perhaps
	be improved by a fresh battery. The rubber mold "Shadow Black" finish
	is in very good plus to excellent condition with a few light handling marks
	and a bit of stickiness in spots. Includes a pair of hard plastic slip-on
	lens covers, owner's manual and the aforementioned factory box. The
	Aimpoint sight measures 7 1/2" and features clear excellent optics with a
	brightly illuminated dot. The metal surfaces retain about 98% black
	anodized finish with a bit of silvering from scope ring contact and the
	sight is in excellent condition. Includes a pair of flip-open lens covers,
	scope rings, owner's manual and the aforementioned factory box.
	(126519-481Q) [Richard "Stretch" Kennedy Collection]
1208	Burris 2-7x Riflescope
	This scope measures 9 3/8" in length and features clear excellent optics
	with a fine duplex reticle. The metal surfaces retain about 98% plus
	original blue finish with no discernible blemishes and appears unused in
	•
	mint condition. Includes factory box and manual. (126519-481R)
	[Richard "Stretch" Kennedy Collection]
1209	Trijicon Reflex II 1x24 Sight
	This sight measures 5" overall on a 3 1/4" dovetail base. The optics are
	clear and the metal surfaces retain about 98% plus original parkerized
	finish with no discernible blemishes. The tritium has faded and will need
	to be replaced before the sight is functional again. Includes a pair of
	rubber bikini-style lens covers and the factory box. (126519-481S)
	[Richard "Stretch" Kennedy Collection]
1210	Redfield and Weaver Scopes
	Two scopes in factory boxes, the first a Redfield 2x Front-IER
	(Intermediate Eye Relief) and the second a Weaver Classic 2.5-8x28
	· · · ·
	Handgun scope. The Redfield scope measures 10 1/2" in length
	mounted on a 3 1/2" M294 Redfield scope base and features clear
	excellent optics with a crosshair reticle. The metal surfaces retain about
	98% plus original blue finish with no discernible blemishes. Includes the
	factory box, paperwork and a pair of slip-on lens covers. The Weaver
	scope is 9 1/4" in length and features clear excellent optics with a duplex
	reticle. The metal surfaces retain about 98% plus original matte blue
	finish with no discernible blemishes. Includes the factory box and
	paperwork. Both scopes appear unused and in mint condition.
	(126519-481T) [Richard "Stretch" Kennedy Collection]
1211	Scope and Rangefinder
1211	
	Two items, the first a Bushnell 1.75-4x32 Wide Angle Turkey scope for
	shotguns, the second a Ranging brand Rangematic Distance Finder.
	The scope measures 10 1/2" in length and features clear excellent
	optics with a circle crosshair reticle. The metal surfaces retain about
	98% plus matte black finish with no discernible blemishes, appearing
	unused in mint condition. Includes the factory box, a pair of slip-on lens
	covers and the owner's manual; the box does exhibit some light storage
	wear. The rangefinder is in excellent condition with clear optics and
	comes in an unlabeled box (likely original) and an excellent leather carry
	case with red cloth lining. (126519-481U) [Richard "Stretch" Kennedy
	Collection]
1212	Swarovski Optik 25-40x75 Spotting Scope
	This spotting scope measures 22 1/4" in length extended and collapses
	to 14". The body is housed in a protective OD green integral rubber
	sleeve. The optics are bright and excellent and the scope appears
	unused in mint condition. Included with the telescope are a pair of OD
	green rubber lens covers with leather closing straps, lens cleaning kit,
	factory paperwork and original two-piece factory box numbered to the
	scope. The box exhibits a few blemishes such as the separation of one
	of the edges and the occasional handling mark here or there but
	remains complete and in very good plus to excellent condition. A
	high-end piece for the connoisseur of precision optics. (12A6519-481V)
	[Richard "Stretch" Kennedy Collection]
1213	Swarovski Optik Habicht 3-9x36 Riflescope
	This scope measures 12" in length and features clear excellent optics
	with a duplex reticle. The metal surfaces retain about 98% plus original
	blued finish and the scope rates excellent overall with a few hints of
	handling wear from scope ring contact. Includes paperwork and
	two-piece factory box which is numbered to a different scope. The box is
	two-piece factory box which is numbered to a different scope. The box is lightly scuffed but otherwise largely unblemished and in near excellent condition. (12A6519-481W) [Richard "Stretch" Kennedy Collection]

## Lot Title/Description

1214	Swarovski Optik Habicht Nova 8x56 Riflescope
	This scope measures 14 5/8" in length and features clear excellent
	optics with a heavy duplex reticle. The metal surfaces retain about 98%
	plus original blued finish and the scope appears unused in mint condition. Includes a pair of bikini-style lens covers, factory paperwork
	and the original two-piece factory box numbered to the scope. An
	excellent example of these high-end riflescopes. (12A6519-481X)
	[Richard "Stretch" Kennedy Collection]
1215	Redfield 3200 16x Riflescope
	This scope measures 23 1/4" long and features clear excellent optics
	with a target dot crosshair reticle. There is a streaky instance of
	delamination present at the objective lens which does not seem to affect
	the optics in any way. The metal surfaces retain about 98% original blue
	finish and rate near excellent to excellent, exhibiting few blemishes
	except some expected wear at the scope ring contact points and occasional instances of subtle finish discoloration scattered here or
	there; some of the white paint on the range markings is faded though
	still clearly legible. Includes a factory hard plastic case, factory
	paperwork, scope rings, spare thumb screws, a screw-on objective
	sun-shade and a pair of screw-on metal lens covers. (126519-409)
	[Richard "Stretch" Kennedy Collection]
1216	Unertl 8x Riflescope
	This scope measures 19 1/2" in length and features clear excellent
	optics with a fine crosshair reticle. The metal surfaces retain about 95%
	original blue with scattered handling scratches and occasional spots
	worn to bright or subtly patinated to dusky brown. Expected light wear is
	present around the aluminum Unertl scope rings and a couple of small
	dents are present on the tube which have no effect on the optics. The described wear is largely superficial and this remains a fine scope in
	very good plus to excellent condition. (12A6519-267A) [Richard "Stretch"
	Kennedy Collection]
1217	Vintage Winchester A5 Riflescope
	This scope measures 16" in length and features fixed 5 power optics
	with a crosshair reticle. Some bubbling of glass is present within the
	ocular lens assembly which partially occludes the lower left edge of the
	sight picture, however the effect is negligible when focused on the reticle
	and the optics are otherwise clear and excellent. The metal surfaces
	retain about 90% original blue toning to a pewter gray near the lenses at
	either end. Includes the original rear mount, with 1907 patent date and
	external grasshopper spring, rating very good plus to excellent with a bit of silvering at the edges and a 1910-dated front mount in excellent
	condition. (12A6519-267B) [Richard "Stretch" Kennedy Collection]
1218	Falcon Menace Counter Sniper Series 4.5-18x Riflescope
	This scope measures 14 7/8" in length and features clear excellent
	optics with a duplex mil-dot reticle. The scope is finished in an OD green
	paint which may be later applied, as areas of flaking reveal unblemished
	factory matte black finish beneath. The paint flaking is mostly present at
	the scope ring contacts (rings not included) with occasional tiny
	instances scattered across the surface and the scope is otherwise in
	near excellent condition. (126519-261A) [Richard "Stretch" Kennedy Collection]
1219	Weaver Targeteer 8x Riflescope
0	This scope measures 17" in length and features clear excellent optics
	with a post and crosshair reticle. The metal surfaces retain about 95%
	original somewhat thinning blue with occasional spots of exposed steel
	patinated to dusky brown. Overall the scope is in very good plus to
	excellent condition. (126519-261B) [Richard "Stretch" Kennedy
	Collection]
1220	Redfield Traditional 4-12x Riflescope
	This scope measures 13 1/2" in length and features clear excellent
	optics with a crosshair reticle, rangefinding stadia and distance scale. The metal surfaces retain about 98% plus original blue finish with no
	discernible blemishes except some very light handling marks on the
	turret caps and the slightest paint fading of the markings. Overall the
	scope is in about excellent condition. (126519-261C) [Richard "Stretch"
	Kennedy Collection]
	Redfield 4-12x Traditional Riflescope
1221	This scope measures 13 3/4" in length and features clear excellent

1224  1	De déale Frank IED Or Interna diata Fran Daliat
	Redfield Front-IER 2x Intermediate Eye Relief
	This scope measures 10 1/4" in length and features clear excellent
	optics with a crosshair reticle. The metal surfaces retain about 98%+
	original blue finish and very few blemishes except for a scant few tiny
	handling marks. Overall the scope is in excellent condition.
	(126519-261G) [Richard "Stretch" Kennedy Collection] Voigtlaender & Sohn Collapsible Riflescope
	This scope measures 10 1/4" extended, 8" collapsed and features an
	integral German quick detach claw-mount base. The optics feature a
	German #1 post reticle and are a bit cloudy with a small lens blemish
	here or there, though remain somewhat serviceable in good lighting.
	The tube is in three sections: the objective lens assembly in a blued
	tube toning to plum with otherwise few blemishes, the gray central tube
	(covered when collapsed) scattered by areas of dusk dark gray-brown
	patination and the ocular lens assembly finished in 90% original gloss
	blue scattered by a number of small handling scratches with exposed
	steel toning to ochre-brown. A few spots of ochre oxidation can also be
	seen on the base. Overall the scope is in good condition, a nice
	accessory to add some character to one's German rifle. (126519-261H)

1257

#### Title/Description Lot

12/7	Assorted Seeper
1247	Assorted Scopes Four scopes, detailed as follows: First, a Kollmorgen Bear Cub 4X scope
	measuring 11" in length and featuring clear excellent optics with a
	crosshair reticle; a small speck is present on the right side of the
	horizontal crosshair which may be either dust or an instance of fraying
	but it is closer to the edge than the center and is largely negligible. The
	metal surfaces retain about 98% plus original matte black finish with no
	discernible blemishes and the scope is in excellent condition overall.
	Second, a Weaver Model 29S scope measuring 10" in length. The
	optics are heavily occluded by moisture and residue which has accrued between two lenses of the ocular assembly, which is no longer airtight;
	small parts of the image are clear and it is unknown if the residue is the
	only major source of occlusion. The outer metal surfaces are in fine
	condition, retaining about 95% original blued finish scattered by
	occasional areas of dark brown oxidation staining. The scope is in poor
	to fair condition due to the optics and will likely need disassembly,
	cleaning and perhaps repair to restore functionality. Third, a Lyman
	All-American 4x scope measuring 11 3/4" in length and featuring clear
	excellent optics with a crosshair reticle. The metal surfaces retain about
	98% original blue finish with instances of silvering and some finish were at the edges of either lens assembly. Overall the scope is in about
	excellent condition. Fourth, a Tasco 2x20 scope measuring 8" in length
	and featuring clear excellent optics with a duplex reticle. The metal
	surfaces exhibit no discernible blemishes on the bright chrome finish
	and the scope appears unused in mint condition. (126519-267Q)
	[Richard "Stretch" Kennedy Collection]
1248	Nikon 10-22x50 Scoutmaster XL Zoom Binoculars
	One pair of black binoculars. The binoculars measure approximately 7
	3/4" by 7 1/4", lenses are bright and clear and the binoculars rate near
	excellent overall with just a bit of superficial storage wear on the body. A set of plastic lens covers is included for both the ocular and objective
	lenses and the binoculars come packaged in a black nylon soft case.
	(1X128937-430B) [Cletus Klein Collection]
1249	Bausch & Lomb Balvar 8 Rifle Scope
	One 12 1/8" Bausch & Lomb Balvar 8 2.5-8x rifle scope in very good
	plus to excellent condition with very slightly cloudy optics, fine duplex
	reticle and scattered light handling marks on the tube around the scope
	ring contact areas. The original Balvar 8 mount and rings complete with
	correct original screws are included, as is a later replacement bikini-style
	rubber lens cover set. The scope mount is in fine condition with a bit of
1250	contact wear. (129330-12A) Vintage Weaver K4 scope
1250	This 4x28mm scope retains about 97% original blue with light scratches,
	scope ring mount marks and other handling marks. The scope includes
	Stith mount #S11/LS. The scope has a post and crosshair with cloudy
	optics. There appears to be blemishes and freckling inside of the ocular
	lens. (1X87022-128C)
1251	Valor Scope
	This is a Valor 2.5X32 riflescope. This vintage scope features a post and
	crosshair reticle and has very good, lightly speckled optics. A set of
	Weaver rings are included. A near excellent, vintage Japanese made scope. (2X49270-2A)
1252	UTG Scope
	This is a UTG 4-16X50 adjustable objective riflescope. This matte
	finished scope features an illuminated mil-dot reticle and has bright
	optics. The reticle can be selected for both red and green illumination,
	though it currently is not functioning and likely will need a fresh battery.
	A set of factory Weaver style rings are included which should fit on a
	variety of Picatinny mounts. Also included are a factory sunshade and a
1253	set of flip-up lens covers. An excellent example overall. (2X49292-25A)
1203	Tasco 636A Scope This 1.75-5x32 rifle scope measures 12 1/4" overall with a gloss black
	finish, duplex reticle and has crisp clear optics. There are faint ring
	marks and light scratches along the 1" diameter tube with some light
	dings and abrasions along the lip of the bells. (2X109125-1B)
1254	Laser Devices Red Dot Sight
	This stainless steel red dot sight clamps to the front of Smith & Wesson
	model 4506 and 6906 pistols. There is a left side mounted toggle switch
	and the windage and elevation can be adjusted on the front of the sight.
	(3X229038-6A)
1255	Coltmaster Sight
	One rear sight retaining nearly 99% original blue and slightly-worn screw
	heads for use on a Second Series Woodsman or similar pistol.
	(1X22A9312-30A) [Dr. Daniel L. Leary Jr. Collection] Leupold Vari-X 2.5-8x Extended Eye Relief Scope
1256	LOOPOID VAILY 2.0-0A EXIGNATE LACING OCODE
1256	
1256	This scope measures 9 3/4" in length, features clear excellent optics
1256	
1256	This scope measures 9 3/4" in length, features clear excellent optics with a duplex reticle and includes a pair of bright steel quick-release

1257	Burris 1 1/2x-4x Long Eye Relief Scope
	This scope measures 11" in length, features clear excellent optics with a
	duplex reticle and includes a pair of blued steel quick-release
	Weaver-style scope rings. The blued finish exhibits almost no
	discernible blemishes except a few tiny silver handling marks near the
1258	rings. Overall the scope is in near excellent condition. (126056-2B) Thompson/Center 3 RP 3x44 Scope
1200	This scope measures 8 3/4" in length, features clear excellent optics
	with a duplex reticle and includes a pair of matte black steel
	quick-release Weaver-style scope rings. The blued finish is thinning to a
	dark burnished yellow-brown in an area on the right side of the tube
	comprising about 40% of the total surface. Otherwise the metal surfaces
	are unblemished and feature few if any handling marks or finish loss
	even on the discolored area. Overall the scope is in very fine to near
1259	excellent condition. (126056-2A) Bushnell 1x30 Trophy Red Dot Sight & Ultra Dot 25mm Red Dot Sight
1200	Two red dot sights: the first is a Bushnell 1x30 Trophy red dot sight
	which measures 6 1/4" in length and features clear excellent optics with
	an adjustable illuminated reticle. The reticle is dial adjustable with 11
	levels of brightness and 4 reticles: 3 MOA dot, 10 MOA dot, crosshairs
	and 65 MOA circle centered by 3 MOA dot. The battery is included and
	the illumination is fully functional. The matte black finish is nearly
	unblemished except for a bit of loss of white paint from the
	manufacturer's label on the right side. Overall the sight is in excellent condition. Includes a pair of matte black quick-release weaver-style
	scope rings, a pair of rubber lens caps and the factory box. The second
	sight is an Ultradot 25mm sight with clear excellent optics and an
	illuminated dot reticle. The reticle is dial-adjustable with 11 levels of
	brightness. The battery is included and the illumination is fully functional.
	The silver anodized finish exhibits no discernible blemishes and the
	sight appears unused. Includes a pair of matching silver anodized
1260	weaver-style scope rings. (126056-7A) Bushnell ScopeChief II .22 3-8x20 Scope and Crosman 4x15 Air Rifle
1200	Scope
	Two scopes: first, a Bushnell ScopeChief II .22 3-8x20 scope featuring
	clear excellent optics with a fine crosshair reticle. The blued steel
	surfaces exhibit few if any handling marks or blemishes and the scope is
	in overall excellent condition. Includes a pair of plastic lens covers and a
	2 3/4" Weaver-style scope mount. Second, a Crosman 4x15 air rifle scope measuring 11 1/4" in length and featuring clear excellent optics
	with a crosshair reticle which exhibits a few instances of light fraying.
	The scope is in about good condition, retaining 90% black japanned
	finish with scattered handling marks exposing spots of white aluminum
	here or there. (126056-9)
1261	Bushnell Sportview 9-30x40 Zoom Telescope with Tripod
	This telescope measures 14 1/2" in length and features clear excellent optics. Includes the factory box, factory lens caps and accompanying
	black plastic tripod. The telescope is in mint condition with no discernible
	blemishes and appears unused, opened only for cursory examination.
	(126056-6F)
1262	U.S. Navy Contract Lee-Navy Rifle by Winchester issued to U.S.S. Iowa
	(Barreled Action Only)
	serial #5017, 6mm Lee-Navy, 28" barrel with an oxidized and pitted
	bore. The metal surfaces of this barreled action are predominately smoky gray with moderate to heavy oxidation and pitting, some cleaned
	to pewter in addition to a few handling marks. The action still functions,
	the rear sight is missing but the front sight and hood are present. The
	receiver ring is marked "-U.S.N / [navy anchor] / 5017 / -N.C.T" and
	the left side of the receiver has the Winchester Repeating Arms address
	and patent dates. Springfield Research shows this rifle was issued to
	the U.S.S. Iowa in October of 1897, just before her deployment to the Caribbean in 1898. (89339-14) {ANTIQUE}
	Est. 100 - 200
1263	German C96 Pistol Parts Lot
	This lot consists of a complete set of parts for a German C96 pistol
	minus the frame, in 30 Mauser with 5 1/2" barrel and a professionally
	re-lined bore with a mostly bright very good plus bore showing some
	light oxidation near the muzzle and strong rifling throughout. The barrel/receiver serial number is difficult to discern and retains about 95%
	older reapplied blue showing some areas of light to perhaps moderate
	old pitting beneath the finish and some minor oxidation staining. The
	small parts show refreshed fire blue, the bolt remains mostly bright and
	the follower, locking block and fire control group are a mild gray patina.
	The bolt is not serialized and the remaining serialized parts are a mix of
	numbers. The fire control group is equipped with the new safety and the
	magazine follower is grooved for the 9mm Mauser Export cartridge. The ribbed walnut grips and the grip screw are reproductions and the grips
	remain in near excellent condition. (13A6874-3)
	. ,

	1
1264	Luger Parts This lot consists of a small tray of assorted Luger parts including: 1 part unit Austrian mode Bahler Stahl 4" 0mm barred with a bright
	post-war Austrian-made Bohler Stahl 4" 9mm barrel with a bright excellent bore retaining about 97% original blue with some minor high
	edge wear and handling marks and no front sight present, 1
	reproduction LP.08 fine-tuning sight adjustment tool, 2 "Depose"-marked
	muzzle covers, 6 unmarked likely reproduction combination tools, 4
	Model 1900 flat recoil springs, 3 P.08 coil recoil springs, 3 Model 1900
	long extractors, 8 striker springs, 2 coil main spring guide rods, 2 toggle
	piece recoil spring links, 4 ejectors (Swiss Cross-marked), 1 Swiss-marked hold open with spring, 1 nicely-strawed safety lever, 1
	Swiss-marked "GELADEN" extractor, 1 Bulgarian "??????" extractor, 9
	sear springs of slightly varying lengths and contours, 7 trigger springs, 6
	Swiss-marked strikers, 1 unmarked striker, 5 grip screws, 4 front sights
1005	and a custom front sight adjustment tool. (136519-301)
1265	Ruger New Model Single Six Frame & Barrel serial #650-11295, 32 H&R Magnum, 9 1/2" barrel with a bright excellent
	bore. This lot consists of a frame (small parts present are the
	spring-loaded base pin button and firing pin), barrel with blade front
	sight, complete ejector rod assembly and a Bushnell scope base. The
	metal surfaces retain about 94% original blue and anodized finishes
	showing some light scratches and a few areas of minor oxidation staining along the frame, a few other scattered light scratches and
	handling marks. (139438-5) {FIREARM}
1266	6.5mm/.257 Cal. Barrel Blank
	Barrel blank measures 26 1/4" in length with a 1" muzzle diameter and 1
	1/4" breech diameter. Blank remains in very good condition with
	scattered small spots of light oxidation and a few fine scratches from storage. No further description is available. (239060-49A)
1267	Israeli FAL Parts Kit
	This lot consists of what appears to be a complete lower receiver, with
	3-position selector switch, polymer pistolgrip and hardwood buttstock
	with hinged steel buttplate, left and right side hardwood handguards with
	stamped metal heatshields, dustcover, bolt assembly, carry handle, 21
	1/2" barrel with a very good heavily frosted bore with evident rifling, a 3 1/4" affixed flash hider, and one piece front sight and 7-position gas port
	with gas tube. Also included is a bright about 12" piston with recoil
	spring, rear sight, charging handle, and assorted small parts. The metal
	surfaces generally retain about 85-90% arsenal Parkerization with light
	to moderate wear on the high edges and contact points and scattered
	light dings, scratches, and spots of light staining. The hardwood
	handguards are in very good plus condition with a few small slivers missing at the edges and a few light handling marks, and the hardwood
	stock is in very good condition with small chips at the buttplate,
	scattered light dings and scratches, and an added finish. Parts are
	marked with Hebrew letters. A great option for creating your display gun.
4000	(14A6493-7) {NON-GUN}
1268	U.S. M1903 Rifle Parts Assorted components for U.S. M1903 bolt action rifles, detailed as
	follows: (1) Remington-marked parkerized bolt assembly for an
	M1903A3 rifle; (1) cocking piece stored in a cosmoline-soaked wax
	paper wrap; (1) firing pin; (1) firing pin spring; (6) assorted action
	screws; (1) rear sling swivel. All items are in mint or near mint condition;
	the bolt is unfired and the other components also appear unused.
1269	(128956-29R) Colt New Service Cylinder
1203	This lot includes a single cylinder assembly designed for the Colt New
	Service / Shooting Master Revolver. In addition to the cylinder, the
	extractor-rod and ratchet are present but the extractor rod head is not.
	The cylinder shows only light prior use and retains about 99% original
	blue with a light turn ring and a few minor handling marks.
1270	(1X8A9312-20A) AR-7 Barrel and Shrouds
210	This lot consists of one 16" AR-7 barrel in 22 LR with a very good bore
	with areas of minor oxidation on the lands and grooves and two black
	barrel shrouds. The shroud attached to the barrel has 3/4" circular
	ventilation holes along its length and remains in very good plus condition
	with spots of silvering on the edges of the vent holes and a few other
	I manage a property of the pro
	minor signs of use while the other shroud is non-ventilated and remains
	in near excellent condition with a few slight marks in the finish.
1271	in near excellent condition with a few slight marks in the finish. (2X239292-64A)
1271	in near excellent condition with a few slight marks in the finish.
1271	in near excellent condition with a few slight marks in the finish. (2X239292-64A) Assorted Cylinders
1271	in near excellent condition with a few slight marks in the finish. (2X239292-64A) Assorted Cylinders This lot contains two 32 caliber cylinders. First is a nickel-plated cylinder
1271	in near excellent condition with a few slight marks in the finish. (2X239292-64A) Assorted Cylinders This lot contains two 32 caliber cylinders. First is a nickel-plated cylinder likely for a Smith & Wesson top break revolver in 32 Short. It is numbered 51481 and retains perhaps 15% of its nickel-plate with overall oxidation staining and dark. Second is a nickel plated 32 Long cylinder
1271	in near excellent condition with a few slight marks in the finish. (2X239292-64A) Assorted Cylinders This lot contains two 32 caliber cylinders. First is a nickel-plated cylinder likely for a Smith & Wesson top break revolver in 32 Short. It is numbered 51481 and retains perhaps 15% of its nickel-plate with overall

1272	Savage Model 101 Single Shot Pistol Frame Only
	serial #57501. The Zamac frame is stripped of all parts and the metal
	surfaces are an even gray. The smooth hardwood factory grips with
	impressed Savage Indian Head logo rate excellent. (1X88927-96)
4070	{TRANSFERS AS A FIREARM}
1273	1911 Mainspring Housings
	Two blued mainspring housings, one flat stipple-textured housing
	showing signs of being installed and one flat housing showing a type of
	skip-line checkering that looks to be somewhat amateurishly done, both
	show signs of operational use but are in about excellent condition.
4074	(2X229013-11J)
1274	Savage Stevens Model 620 Receiver and Barrel
	This lot contains a stripped Savage Stevens Model 620 slide action
	shotgun receiver and a 12 ga. 18 1/2" plain barrel choked cylinder with a
	mostly bright very good bore with oxidation at the muzzle. The metal
	surfaces have turned an oxidized brown patina with what appears to be
	areas of white paint on the right and bottom of the receiver and the
1275	barrel is sighted with a silver bead. (239438-235) {MODERN}
12/5	German P.08 Luger Holster by C. Otto Gehrckens
	This 1940-dated leather holster remains in very good condition, the
	black finish fading to a deep brown with moderate edge wear, scuffs and
	some crackling along the magazine pouch. The stitching is mostly tight
	showing one small area of separation along the lid. The maker stamp
	and "(Eagle) / WaA279" on the back are mostly clear. The interior of the
	lid has the name "MAGNANI" and "M-6979" written in large letters.
1276	(13A9506-23A) German P.08 Luger Holster by Karl Bucker
12/0	
	This 1939-dated holster remains in very good condition with strong original black finish showing some edge wear, scuffs and a few areas of
	minor crackling. The end of the pull tab has broken off but the remaining
	stitching is tight and the buckle is intact. The maker marking on the back
	is somewhat soft but legible and there is a clear "(Eagle) / WaA727".
	(13A9100-1271A) [Richard "Stretch" Kennedy Collection]
1277	German P.08 Luger Accessory Lot
1211	Included are one black leather holster, magazine and combination tool.
	The holster appears to be either an older excellent quality reproduction
	or perhaps a very late-war production piece. The only visible markings
	are some small stamped letters "FZH" on the back and the exterior
	shows some light scuffs and handling marks. The magazine is an
	original bright-bodied wood base example numbered "5704" with a "+",
	the number somewhat soft, the body shows some light verdigris staining
	and the spring seems serviceable. Finally included is an original Luger
	tool that has toned to a light gray patina showing some light wear and is
	stamped "1438." A nice lot to accompany your Luger pistol.
	(13A9484-1A)
1278	German P.08 Luger Holster by Ehrhardt & Kirsten
	This 1939-dated holster remains in very good condition showing some
	cloudy staining overall but otherwise retains most of its black finish along
	with some light scuffs and areas of mild crackling. All stitching remains
	tight and the buckle is intact. The maker markings on the back are rather
	soft but mostly legible and there is a visible "(Eagle) / WaA170"
	Waffenamt. (13A9484-2A)
1279	Rare German Model 1906 Navy Luger Holster With Tools by H. Clemen
	This desirable undated holster remains in very good condition showing
	slightly worn finish along the lid with the balance showing strong original
	black finish, some light scuffs and very minor crackling. All stitching is
	intact and tight, the belt loops have been lost long ago and a pair of 3
	1/4" thin slits have been cut into the back surface to accommodate a
	belt, this appears to have been done very long ago. The brass hardware
	shows some light verdigris staining and the interior body is marked with
	a somewhat soft but legible maker's mark "H. CLEMEN / ELBERFELD".
	Included is an unmarked Luger tool toned mostly to a dark gray patina
	and a near excellent condition original brass jag with walnut handle
	mostly toned to a pleasant dark ocher patina. A very hard-to-find rig to
	accompany your Navy Luger. (13A9312-68A) [Dr. Daniel L. Leary, Jr.
	Collection]
1280	German P.08 Luger Accessory Lot
	Included is a more modern right hand holster and magazine. The holster
	is a soft flap holster made of brown vinyl with a green baize lining and
	snap button strap closure. The holster remains in very good plus
	condition showing some light discoloration along the exterior and a few
	small moth bites scattered about the lining. The magazine is an
	Interarms Mauser magazine with blue body and black plastic base in
	near excellent condition showing a couple tiny specks of light oxidation
	staining, Mauser banner at the bottom of the spine and strong spring.
	(139312-67A) [Dr. Daniel L. Leary, Jr. Collection]

### Lot Title/Description

281	German LP.08 Luger Holster by Genschow & Co
	This 1939-dated brown holster remains in about very good condition
	showing some light scuffs along the edges, moderate creasing along the body and scratches. The buckle is intact and the stitching remains tight.
	The maker markings and "(Eagle) / WaA286" Waffenamt remains quite
	crisp and clear. Also included is a nice Luger tool with "(Eagle) / 63"
	Waffenamt. (13A9474-154A)
282	U.S. Model 1905 Holster With Unit Marking and Rare Dismounted
	Pattern Belt
	This lot includes a brown leather cross-draw flap holster, canvas belt
	with ammo pouches and first aid packet. The holster remains in very
	good condition showing some moderate flaking brown finish and some minor crackling. All stitching is intact and tight. The embossed "US" in
	the center of the body remains clearly visible and the Rock Island
	Arsenal markings along the flap are present but somewhat difficult to
	discern. The back side of the belt loop is crisply marked "1 CAV. N.Y. A
	15 / 6 55". The canvas belt appears to be unmarked but is quite nice
	featuring brass hardware throughout. The belt is equipped with eight
	ammo pouches with flaps secured by brass Federal Eagle buttons, the
	pouches appear to accommodate six rounds each of 38 Long Colt or single half moon clips of 45 ACP and the buttons have patent dates of
	July 28, 1908 and September 7, 1909. The T buckle shows remnants of
	black finish and the canvas shows just some minor discoloration and
	handling marks. The first aid pouch shows some illegible ink marking
	and holds an original Carlisle Model first aid packet by Bauer & Black
	that shows moderate denting and is empty. This is a very handsome rig
000	to accompany your U.S. 38 caliber revolver. (13B9406-2A) World War Two Era Shoulder Holster
83	This is an unmarked brown leather shoulder holster, possibly a
	custom-made piece for US military personnel just post-war for a small or
	medium size semi-auto pistol. The construction is quality throughout and
	it remains in very good plus condition showing some light scuffs, spots
	of minor discoloration and handling marks. All stitching remains intact
	and the securing strap snap buttons are marked "UNITED CARR".
84	(13A9524-1A) Smith & Wesson Model of 91 Target Barrel
	This is a 6" ribbed round barrel assembly for the Smith & Wesson Model
	1891 single shot target pistol serial #292007 chambered in 38 S&W with
	a bright excellent bore. The metal surfaces retain about 96-97% original
	nickel finish showing a few tiny scattered flakes toning to gray patina,
	some light scratches and handling marks. The screw heads show some
	light slot wear and the rib markings remain crisp and clear. The adjustable target rear sight is intact and the front is a replacement thin
	blade. (13A9474-148B) [Dr. John W. Hall Collection]
85	Smith & Wesson 38 Top Break Barrel
	This is a 10" ribbed round barrel assembly for the Smith & Wesson 38
	Single or Double action family of revolvers. The barrel appears to be
	marked only with an assembly number and the latch is serial #32764.
	The bore is bright and excellent and the metal surfaces retain about
	95% factory-quality nickel finish showing a 3/4" flaked area on the left side near the muzzle, a couple small areas of light bubbling and
	handling marks. There are no barrel markings and the sights are intact.
	(13A9474-148A) [Dr. John W. Hall Collection]
86	Vintage Ideal Manufacturing Co. 32-40 Marlin Reloading Tool
	The metal surfaces of this tool have been lightly cleaned and are a
	silvery gunmetal patina showing remnants of light pitting, light dings and
	some tape residue on the handle. There is one more moderate ding or
	void on one flat of the mould area. The markings remain legible with a little softening around the address. The de-capper pin is not present and
	the tool shows somewhat moderate use. (13A9234-5)
87	Vintage Ideal Reloading Tools
	Included are a 38-55 Marlin reloading tool (minus de-capper pin), two
	priming tools with de-capping pins present (one marked "38" and the
	other "32") and two bullet seat tools (one marked "32/40" and the other
	"38/55"). The 38-55 tool retains perhaps 95% original nickel finish
	showing some light dings, scratches and strong markings. The 32
	caliber priming and seat tools retain about 97-98% original nickel finish showing a few light flakes, handling marks and very little use overall.
	The 38 caliber priming and seat tools show remnants of nickel finish with
	flaking and light oxidation staining. A nice lot of vintage tools.
	(13A7966-42)

1288	Very Fine Antique Pope 32-40 Loading Tools Included are a Pope decapper / capper tool, Pope luber, gutta-percha handle breech seat and bullet starter. The decapper / capper is marked "3240" and retains perhaps 90% original nickel finish showing some light flakes, some minor dings and freckling. The lubing tool rates very good plus, the brass hardware toned to a lovely ocher patina and the steel parts showing some light freckling and the H.M. Pope address remains clear. The breech seat is similar, the gutta-percha showing a few light dings and the brass a nice ocher patina. The bullet starter is also a lovely dark ocher patina, the internal end circumference measuring about 1.048", the seating shaft measuring about 0.305" and is serial numbered "178". In volume one of Rowe's book on H. M. Pope Hartford guns, rifle serial #178 is described and pictured as a 32-40 rifle along with its case full of accessories, although it is interesting to note that the missing accessories in the picture are all of those included here. A very handsome and desirable lot of Pope tools for the discerning collector. (13A9060-76)
1289	Machine Gun Stripper Clips Included are nine assorted clips. There are four French Hotchkiss clips, two Japanese 7.7 Semi-rimmed, two 30-round clips likely for a 303 British Benet Mercie and an unknown heavy-gauge strip with 20 slots. One French clip is loaded full with 1938-dated 8mm Lebel and they show some minor warping and oxidation staining. One of the Japanese clips is brass and the other steel, these show some more moderate warping and oxidation. The 30-round clips rate very good plus showing some light oxidation. The heavy 20 slot clip shows some moderate oxidation staining with strong original blue and a small stamp that appears to be "OMG". (136519-257)
1290	30-06 Cases This lot includes 900 military surplus un-primed brass 30-06 national match cases. They are housed in 9 boxes of 100 marked "1395-01-050-5855 / CASE CARTRIDGE / QTY 100 EA." And "LOT LC-SP-2027". All boxes are sealed except for one which reveals cases headstamped "LC 78 / NM" and rate very good plus showing some mild tarnishing and just a few showing small spots of more moderate oxidation. (136519-127)
1291	Firearm Cleaning Supplies This lot includes a sealed gallon can of Sportsman's Products Universal Rust Inhibiting Grease (RIG), two sealed 32 fl. oz. brown glass bottles of Hoppe's No. 9 solvent in their cardboard boxes, one sealed 16 fl. oz brown glass bottle of Hoppe's No. 9 solvent in its cardboard box, and nine 2 oz. containers of J-B non-embedding bore cleaning compound. (136519-296)
1292	NATO M13 Disintegrating Links This lot contains approximately 39 pounds of M13 links, currently disintegrated, in very good condition showing some light tarnishing housed in a large green ammo can. (136519-133)
1293	NATO M13 Disintegrating Links This lot contains approximately 38 pounds of M13 links, currently disintegrated, in very good condition showing some light tarnishing housed in a large green ammo can. (136519-134)
1294	20 Gauge Brass Shotshells This lot includes 88 empty brass shotshells from a variety of manufacturers. The shells show light tarnishing and oxidation rating very good overall, all but two have been re-primed. (136519-75)
1295	U.S. Model 1928 Thompson Canvas Carry Case This lot includes what appears to be an original WWII era carry case for a Thompson submachine gun with side pouches for the buttstock and four stick magazines. It appears to be unmarked although there is one button grommet on the back that is marked "UNITED CARR". The case rates very good plus to near excellent with strong stitching throughout, strap, flaps and snaps intact and just some light discoloration and scuffs scattered about. (136519-272)
1296	Japanese Military Collectibles Included are two leather holsters and a wooden box. First is an original Type 94 pistol holster in brown kidskin rating very good showing some light staining, minor crackling and scuffs. There is a very small tear at the top corner of the flap but it is rather minor and all stitching, button snap and dual shoulder strap rings remain intact. There are no visible markings on the interior. Next is an original Japanese-made holster for an FN Model 1910 pistol. The holster shows significant wear and remains a fair example with moderate tears throughout, scuffs, the magazine pouch and belt loops have been lost along with areas of stitching but the holster is still holding together for the most part. There are a number of small kanji stamps on the interior of the flap. Finally there is a small wooden box for some kind of Japanese military equipment measuring 8 3/4" x 3 3/4" x 4". The lid is missing its carry handle but the catches for securing it closed are present. There is a series of painted kanji characters along the lid and a small information plate on the front that reads "NO. 322" with an inspector stamp and small kanji characters. The box rates very good showing some moderate scuffs, scratches and handling marks. (136519-281)

#### Lot Title/Description

Lot Title/Description

297	German Gewehr 88 Clips
	This lot includes 6 original 5-round enbloc clips for the German Gewehr
	88 rifle. All rate very good plus to near excellent, a couple showing a
	little minor oxidation and otherwise retaining strong original lacquer
	finish. Three are marked with small "D" stamps on the spine, one with an
	"L" and two are unmarked. (136519-257AR)
298	Assorted Buttplates & Grips
	Included are 10 vintage buttplates, an unmarked pistolgrip cap, six pairs
	of grips and one lone right grip panel. The buttplates include: one
	heavily worn black hard rubber Ithaca Gun Co. showing light chips,
	significant smoothing and scuffs with flying bird logo. Next is a grooved
	black plastic H&R Arms Co. showing just some light handling marks.
	Next is a black buffalo horn plate marked "FN" flanked by "BROWNING /
	AUTOMATIC" in very good plus condition showing a couple light chips
	around the edges and minor dings. Next is a black buffalo horn plate
	marked "BROWNING / R" with John Browning's profile over "DOUBLE /
	AUTOMATIC" in very good plus condition showing a couple light scuffs and handling marks. Next is a black plastic plate marked with "R / FN"
	flanked by "BROWNING / AUTOMATIC" in near excellent condition.
	Next is a buffalo horn plate with large figure eight with "BROWNING /
	SUPERPOSED" within the circles of the eight in very good condition
	showing some light chipping around the edges and overall dings. Next
	are two checkered black plastic plates with fancy monogram "M" logo in
	very good condition showing scattered light scuffs and one showing
	some chipping around the screw holes. Next is a checkered black plastic
	Remington 700 buttplate with screws showing some scattered light
	handling marks. Next is a black plastic plate marked only "BROWNING"
	with stippled background and showing just some light handling marks.
	The first pair of grips are an unmarked set of mother-of-pearl grips for a
	small pocket revolver in about good condition one panel showing a small
	chip at the heel and the other showing a large internal chip with overall
	discoloration. Next is a brown checkered Bakelite grip for a High
	Standard Sentinel revolver in very good plus condition showing some
	light dings and handling marks. Next is a set of original Colt Army
	Special, Officer's Model or similar medium frame revolver grips with
	screw; they are black hard rubber with "COLT" in an oval and stylized
	"C" in the center, the right panel is scratch-numbered "496635" and they
	remain in very good plus condition showing some light scuffs and dings.
	Next is a set of black hard rubber H&R small frame top break revolver
	grips in very good condition showing some overall smoothing and light
	dings. Next is a pair of checkered black plastic Ruger Standard Model
	22 Automatic pistol grips with black Ruger phoenix in the right panel
	showing just some light handling marks. Next is a set of checkered
	brown rubber grips with screw by Pachmayr with Bianchi Gunleather
	logo on the right panel for a S&W K Frame round butt revolver showing
	some light handling marks. Finally there is a single black hard rubber
	right panel extended target grip for an H&R top break revolver showing
200	a few light scuffs and minor smoothing. (137712-36EA)
299	Shoulder Holster Lot
	Three revolver shoulder holsters are included. The first is a right hand
	George Lawrence Co. Revolver holster for a 4" S&W Model 10 or similar sized medium frame revolver. The medium brown leather remains in
	very good to very good plus condition showing some scattered scuffs,
	scratches and handling marks. The leather ties and elastic strap are
	intact, the elastic strap showing some moderate staining and curling.
	Second is a George Lawrence Co. Revolver holster for a 6" medium
	frame revolver (coded 6 / 534) showing some light scuffs, scratches and
	handling marks. The leather ties and elastic strap are intact, the elastic
	showing some light staining. Third is a Hidden Thunder brand holster for
	a 2 1/2" medium frame Smith & Wesson Revolver. The leather has
	stiffened somewhat and shows some scattered light scuffs while the
	suede straps show some patches of light staining and overall creasing.
	(137088-1AA)
800	Shoulder Holster Lot
	Three semi-auto pistol shoulder holsters are included. The first is a
	Safariland 100 Large Auto holster in very good plus condition showing
	some light scuffs and handling marks. The white suede strap and elastic
	band are intact showing some light staining. Second is a Galco 150
	Large Frame Auto holster with dual magazine pouch that appears to be
	for a Commander-sized 1911. The leather remains in very good plus
	condition showing some scattered light scuffs, handling marks and the
	straps show overall creasing. Third is a Bianchi X15 Medium holster with
	single magazine pouch. The leather remains in very good condition
	showing some spots of light to perhaps moderate staining, scuffs and
	scratches. The elastic straps show a few lightly frayed areas but are
	otherwise intact. (137088-1AB)

301	1911 Double Magazine Pouch
	Included is one original canvas double magazine pouch for a 1911
	pistol. The interior flap is ink-stamped "OCT 1917 / MILLS (Bullet Logo)"
	along with a smaller illegible boxed stamp above that. The back is
	marked "47 / MG". The pouch remains in very good condition showing a
	spot of old staining on the flap, some oxidation leeching from magazines
	resting in the pouch and other light handling marks. All stitching is tight
	and the catches operate normally. (137814-3AA)
302	MGC Manufactory Single Action Army Blank-Firing Revolver
	44-40 Blanks, 5 1/2" faux barrel. The metal surfaces of this
	Japanese-made "revolver" show remnants of original black paint finish
	thinning to a dark gray throughout along with scattered light dings and
	handling marks. The base pin head and trigger show a rather nice straw
	color and the smooth hardwood grips rate very good plus showing some
	light scratches and handling marks. The action is functional although
	timing is rather off. (139438-57) {NON-GUN}
303	German C96 Shoulder Stock
	This is an original walnut shoulder stock / holster that remains in
	fair-good condition showing some rather extensive use. There are a
	number of large cracks along either side of the toe, a number of smaller
	thin cracks along the edge near the lid, a small chip near the attachment
	hardware and overall light dings. The attachment hardware appears to
	be an older replacement or arsenal repair, the lid closes securely and
	the lid hinge hardware is missing its loop and shows remnants of original
	bright blue. (13A9438-24A)
304	L.A.R Conversion Unit
004	One .45 ACP kit in excellent unused condition including a 5 3/8" barrel
	-
	with bushing, red-coded (.45 ACP) recoil spring, ejector and stainless steel magazine. The kit is housed in the original Styrofoam insert box.
205	(22A6519-334A) [Richard "Stretch" Kennedy Collection]
305	L.A.R Conversion Unit
	One 10mm kit in excellent unused condition including a 5 3/8" barrel with
	bushing, extractor, green-coded (10mm) recoil spring, ejector and
	stainless steel magazine. The kit is housed in the original Styrofoam
1200	insert box. (226519-334C) [Richard "Stretch" Kennedy Collection]
306	Colt Conversion Unit
	One .22 LR kit for use on a Government Model 1911 including a 5"
	barrel with an excellent bore, bushing, slide stop, guide rod, spring, plug
	and magazine. The slide is Colt roll-marked and retains about 95%
	original blue, there are light to moderate handling marks, silvered edges
	and operational wear. The rear sight is an adjustable Coltmaster, the
	and operational wear. The rear sight is an adjustable Coltmaster, the front is a partially-serrated ramp. The unit is housed in the original brown

Collection]

#### Title/Description Lot

Lot Title/Description

	Two barrels total, first is a LAR Grizzly 5 3/8" .458 Win Mag barrel with a near excellent bore showing some slight surface oxidation in an otherwise shiny bore. The second is a Colt Super .38 barrel with an		
	excellent likely unfired bore, this looks to be a Custom Shop barrel with		
	a Collet bushing, paperwork and original factory box. (226519-334J)		1320
1312	[Richard "Stretch" Kennedy Collection] Gun Accessories		
1312	Assorted items including: three sealed factory packages of Olin Red		
	Meteor flares three flares to each package, sealed factory package		
	Remington Model 597 magazine, as-new Lyman trigger pull gauge in		
	factory nylon zipper rug, two Orbex vintage hand warmers, two Hoppe's lead remover kits still in factory packaging, factory sealed Garrity LED		
	keychain light, two likely unused Z-Force III stun guns in factory		
	packaging, one Chapman Manufacturing Co. gun screwdriver set in		
	unused condition, three Pachmayr cleaning kits for likely .357, .30 and		
	12 ga, one Varco survival saw, one TacStar Laserlyte dual lens red dot sight in factory packaging and a Hoppe's cleaning kit in unused		
	condition housed in a wood case. (226519-338)		
1313	Remington Black Powder Cylinders		
	Three .44 caliber cylinders, two retain about 98-99% original blue with turn rings and some scattered light handling marks. The remaining		1321
	cylinder is mostly gunmetal gray with oxidation staining and freckling		
	throughout, there are no nipples present. The cylinders come in a small		
1011	pouch with belt loops. (226519-418)		
1314	Thompson Center Stocks One pistolgrip walnut buttstock for use with a Contender pistol in overall	ŀ	1322
	excellent condition showing a few small handling marks, a red recoil pad		
	with barrel length warning and hard rubber pistolgrip cap and one		
	smooth walnut Thompson Center forend still in factory package marked "FITS 12"+14" BARRELS". (226519-309F)		
1315	Gatling Gun Rear Sight Posts		
	Two different principal styles of rear sight posts for Dr. Gatling's Gun in		
	.45-70 caliber. These examples are engraved on their eyepiece "405 /		
	grs" for .405 grain projectiles, they are graduated from 200 – 1000 yards and one brass stop collar marked "L" is included with them (its stop	-	1323
	screw is not present). First is the simple deep "V" aperture and is		
	numbered "419" and "56". The second shows a shallow square with		
	shallow "U" notch and a drilled peep style aperture below it, between the engraved "405" and "grs", this post shows U.S. inspectors "D.F.C." mark		
	and is marked "10". Both have overall lengths of about 10 1/4", they		
	show some minor pitting, operational wear and light oxidation.	_	
1316	(226519-289A) Army Air Force Lot		1324
1310	One "ARMY AIR FORCE" marked survival vest in about excellent		
	condition, two military M2 artillery compasses in olive drab plastic belt		
	cases, both are in near excellent condition with one having a somewhat unobtrusive crack in the signal mirror and one with imperfections on the		
	mirror, one yellow Jordan Electronics dosimeter charger serial #11796		
	with some scattered handling marks, one US-marked Stocker & Yale		
	compass in about excellent condition, two military metascopes with one		
	infrared light source, all need batteries, and one military issue gun cleaning kit. (226519-408)		
1317	Shot Lot		1325
	Assortment of sealed bags of lead shot: two 25 lb. bags of #4 Starshot		
	magnum, two 25 lb. bags of #5 JSC standard shot, two 25 lb. bags of #6 Starshot magnum, two bags of #7 1/2 Starshot chilled, two bags of #9		
	Starshot chilled, two 5 lb. bags of #3 Hornady buckshot, one 5 lb. bag of		
	Hornady #4 buckshot, one 10 lb. bag of Lawrence Brand #3 Buckshot,		
	one 10 lb. bag of Lawrence Brand #0 buckshot, one 10 lb. bag of Lawrence Brand #00 Buckshot, one 5 lb. box of Hornady #000 buckshot		
	and one box of (10) Stoeger Brenneke 20 ga slugs. (226519-39) [Extra		
	shipping will apply]		
1318	Webley Mark I Third Series Single Shot Air Pistol		
	serial #20446, .177 cal., 7 1/8" barrel with a bright excellent bore. The metal surfaces retain about 97% original blue finish with scattered light		
	oxidation blemishes, freckling, scratches and other handling marks. The		1326
	smooth walnut factory grips with brass Webley "Flying Pellet" medallion		
	that has toned to ochre rate about excellent. This Mark I feature's a sliding barrel latch, large head filister trigger adjustment screw, U.S.		
	patents on the right side, and barrel screw with "Securing Screw". The		
	factory box is provided and is correctly labeled and numbered to the		
	gun. It rates about good with moderate to heavy scuffing on the corners,		
	some splitting on the edges and corners plus several corners and edges show repairs. A green labeled box of Webley ".177 Special Pellets. / No.		
	1 Bore" pellets are included. The box rates about good to very good with		
	light handling wear, labels peeling off the end flaps and a few scuffs.	l T	1327
	(8A9040-31) {NON-GUN}		
	Est. 200 - 300		

1319	Folding Forend Grip for Picatinny Rail This lot includes a single black synthetic folding forend grip by FGG-S designed to fit a lower forend Picatinny rail or similar. The grip folds and allows its use in the folded or extended position. The grip rates about
	excellent. (88926-105B)
1320	Holster and Shooting Accessories Lot This lot consists of a "Buddy Schoellkopf" "Black Sheep Brand" belt and holster set. The holster is a #D85-310 right hand brown leather belt holster in near excellent condition showing light storage wear. The 1 1/4" wide x 38" long (to center hole) brown leather belt with (30) 22 cal. cartridge loops rates about excellent. The holster has a bold number "310" stamped on the back and accommodates a Smith & Wesson Model 17 or similar firearms with 6" barrel. The holster and belt show light to moderate verdigris around the brass hardware. The lot includes the original two-piece factory woodgrain box from "Buddy Schoellkopf" that rates near excellent showing light storage and handling. Also included is an "Allison-Faulkner" Model 5000J two-piece cleaning rod with slotted end that measures 13 7/8" overall and a Smith & Wesson "Helpful Hints" pamphlet showing light staining from verdigris contact. (89510-10A)
1321	Sile Grips for High Standard Pistol
	This lot consists of a single set of right-hand skip-line checkered target grips by Sile for a High Standard Military Model semi-auto pistol. The grips feature skip-line checkering, thumb rest, finger rest and palm rest. The grips are made from hardwood, walnut stained and rate about excellent. (89400-123A)
1322	Crossman Model 2240 Single Shot CO2 Pellet Pistol serial #800B14311, .22 cal., 7 1/4" barrel with an excellent bore. The metal surfaces retain about 99% original paint and blue finishes and the plastic parts rate excellent. The checkered synthetic ambidextrous finger rest factory grips rate excellent. The pistol utilizes a front-loading CO2 cartridge, bolt action receiver for loading the pellets, post front sight and adjustable sights. It includes the original packaging that has yellowed and torn, factory trigger lock, manual and paperwork. The gun appears to have seen little use. (89312-97) (NON-GUN)
1323	Daisy Power Line Model 717 Single Shot Pellet Pistol .177 cal., 9 1/2" barrel with an excellent bore. The metal surfaces retain about 99% original enamel. The checkered synthetic factory thumb rest grips rate excellent. This spring air pistol features a side cocking lever, bolt action receiver for loading the pellets, Patridge front sight, adjustable rear sight and cross bolt safety. It includes the original box, manual and paperwork. (89312-96) {NON-GUN}
1324	Colt 22/45 Conversion Kit 22 LR, 5" barrel with Williams floating chamber and an excellent bore. The metal surfaces of the slide retain about 99% original blue finish, the color taking on a plum hue in addition to a few scattered light handling marks. The kit is complete and includes a complete slide featuring a Patridge front sight and Accro adjustable rear sight; barrel with floating chamber, ejector, recoil spring and slide stop. It also includes the original woodgrain box that is correctly end labeled to the kit, instruction sheet and paperwork. The kit has seen light but honest use and remains in excellent condition. (8A9312-4) {NON-GUN} Est. 300 - 500
1325	Holster and Shooters Lot This lot includes a two-piece Smith & Wesson box for a Model 60 2" barreled revolver in near excellent condition with light handling marks. An unused Smith & Wesson cleaning kit sealed in plastic consisting of a 4" cleaning rod, .38 cal. brush and bore mop; used Smith & Wesson cleaning kit with 6" cleaning rod, .38 cal. bore brush, bore mop and screwdriver. Bianchi #5B left hand thumb break brown holster for S&W Chief's Special 2", Bianchi #5B right hand thumb break brown holster for Colt Detective Special 2", Bianchi #5B right hand thumb break black holster for Colt Detective Special 2", all in very good to excellent condition. Lastly, a Browning marked black soft gun rug with red lining measuring 6" X 8" probably for a Model 10 or similar pistol. (89321-2; 9236-4; 9236-5)
1326	Revolver Speed Loader Lot This lot includes a single HKS Model 60K competition ammo box designed to hold 60 rounds of 38 Special, 9mm or 357 Magnum and remains in excellent condition. Also included are (6) HKS 10 speed loaders (S&W K-frame .38), (2) HKS 29 speed loaders (S&W N-frame 44), (1) HKS 586 (six-shot S&W L-frame 38) and (2) HKS 22 K (S&W K-Frame 22). Also included is a S&W box in very good condition with a small depression in the lid, a few small tears on the edges, and light warping of the lid. The box is end-marked for a Model 18-3. (88627-2, 3A)
1327	Lot of Military Utensil Sets This lot includes (2) packages of two sets each German surplus military four-piece knife, fork, spoon and bottle opener / holder still in original wrapping. A single three-piece commercial knife, fork, spoon set. The last package contains (3) sets of used Swedish military knife, fork spoon sets. All appear in near excellent condition. (8A7467-12A)

	1/2 Small Pistol Primers, (2) sleeves of approximately 100 each Remington #57 Shotshell primers, (1) brick of 1000 Winchester Staynless No. 1 1/2-108 Small Pistol primers (yellow box), (9) sleeves of approximately 100 each Winchester Staynless No. 1 1/2-108 Small Pistol primers (yellow box), (1) brick of 1000 Winchester No. 1 1/2 Small Pistol primers (white box), (6) sleeves of approximately 100 each Winchester Staynless No. 7-111 domed Large Pistol primers (yellow box, plastic tray), (1) sleeve of approximately 100 Winchester Staynless No. 111 domed Large Pistol primers (yellow box, wood tray), (3) sleeves of approximately 100 each Winchester Staynless No. 209 Shotshell
	primers, (1) brick of 1000 Herter's No. 400 Magnum Large Pistol primers, (1) sleeve of 100 Alcan Max-Fire Large Rifle primers, (1) brick of 1000 Norma "Super Flash" No. 990 Large Rifle primers, (10) sleeves of approximately 100 each Norma "Super Flash" No. 990 Large Rifle primers (some of the sleeves are missing primers), (1) tin of 250 RWS No. 1081 Musket caps, (1) sleeve of 1000 Alcan-Fiocchi-Lecco No.645 B Berdan primers and (5) tins of 100 each Alcan-Fiocchi-Lecco No.645 B Berdan primers (some of the tins are not full). Most of these primers rate about excellent but some of the CCI magnum large pistol and standard small pistol primers show mildew on the packaging, the Norma primers rate about fair to good. Counts are approximate and may vary slightly. (86519-232G)
1350	Lot of Gas Checks, Pistol Jackets and Half Jackets This lot includes: (1) tin of 1000 Hornady 22 cal. gas checks, (1) box of 1000 Ideal .25 cal. gas checks, (7) boxes or tins of 1000 each .30 cal. gas checks from Hornady, Lyman and Ideal; (1) partial box Herter's 30 cal. gas checks, (4) boxes or tins of 1000 each .35 cal. gas checks from Hornady and Ideal, (1) box of 250 Herter's 38 cal. gas checks, (1) box of 1000 Hornady .375 cal. gas checks, (1) tin of 1000 Hornady .44 cal. gas checks, (1) box of 1000 Hornady .45 cal. gas checks, (4) boxes of 250 each Herter's .38 cal. half-jackets (one box is a partial), (2) boxes of 250 each Speer .38 cal. half-jackets, (3) boxes of 500 each Hornady .38 cal. half-jackets, (3) boxes of 250 each Speer .44 cal. half-jackets, (2) boxes of 500 each Hornady .44 cal. half-jackets and (2) boxes of 500 each Hornady .45 cal. half-jackets. Overall, the jackets and gas checks rate near excellent with perhaps light tarnishing. Counts are approximate and may vary slightly. (86519-354A)
1351	Lot of Single and Gang Style Mould Blocks This lot consist of (10) assorted single and multicavity mould blocks (no handles). Included are: (1) unmarked single-cavity aluminum block #456 marked Maxi-Ball mould (.45 cal.), (1) Lyman single-cavity #311316, (1) RCBS double-cavity mould #32-84-WC (sprue plate modified with channel relieved between both pour holes for faster pour), (1) Lyman double-cavity #358627 and (1) Lyman single-cavity #457125, all of these rate about excellent. Also included are: (1) Lyman double-cavity mould #358156, (1) Lyman four-cavity mould #358425, (1) Lyman four-cavity mould #429215, (1) Lyman four-cavity mould #358063 and (1) Lyman four-cavity mould #452460. All these moulds show light to moderate use with oxidation blemishes. (86519-320A)

LO

1352	Lot of Multicavity Gang Moulds
	This lot includes a variety of mould blocks (no handles). Included are: (1)
	Hensley & Gibbs ten-cavity mould #39BB, (2) Lyman four-cavity mould
	#452424 (one mould is still factory sealed in the box, the other slightly
	used), (1) Lyman four-cavity mould #358063, (1) Lyman four-cavity
	mould #245496, (1) Lyman four-cavity mould #457125, (1) Lyman
	four-cavity mould #311291, (1) Lyman four-cavity mould #245497, (1) NEI double-cavity mould #250 338GC, (1) RCBS double-cavity mould
	#28-168-FN, (1) Hensley & Gibbs four-cavity #68 (this is their infamous
	.452 200gr SWC mould), NEI double-cavity mould #500-54S, and (1)
	Lyman four-cavity mould #225462. All the mould blocks rate about
	excellent showing very little to no use. (86519-320B)
1353	Lot of Single Cavity Specialty Moulds
	This lot includes a variety of hollowpoint, hollow base and composite
	bullets. Included are: (1) Lyman single cavity composite dual moulds
	#358624 with top punch (as-new-in-the-box), (1) Lyman single cavity composite dual moulds #452626 with top punch, (1) Lyman single cavity
	composite dual moulds #429625 with top punch, (1) Lyman single cavity composite dual moulds #429625 with top punch, (1) Lyman single-cavity
	hollow point mould with hollow point pin #225415, (1) Lyman
	single-cavity hollow base mould with hollow base pin #450229, (1)
	Lyman single-cavity hollow base mould with base pin #68569, (1) Ideal
	single cavity hollow base mould with base pin #299155, (1) Lyman
	single cavity mould #690 (.690 round ball), (1) Ideal single cavity hollow
	base mould with base pin #575213, (1) Ideal single cavity hollow base
	mould with base pin #386178 and a single spare hollow point pin with wood handle. All the moulds rate about excellent with the Ideal moulds
	wood handle. All the moulds rate about excellent with the Ideal moulds showing slightly more wear and the Ideal #386178 has a tiny ding on the
	edge of the mould half with the sprue plate on the side of the bullets
	nose. (86519-320C)
1354	Mec Shotshell Reloading Lot
	This lot includes a single MEC 600JR Mark V 10-gauge shotshell
	reloader with shot and powder bottles, six-star crimp starter, primer seat
	assembly, spent primer catcher and (1) #320/118 bar with #34 bushing
	(installed in press). Also included is a spare MEC #302/200 bar (no bushing provided), Allen wrench, manual and original box. All of these
	items rate excellent and appear to have seen little if any use. To round
	out this lot the lucky buyer will receive (4) bags of 250 each Remington
	SP-10 Power Piston wads. Counts may be off on the bags of wads.
	(86519-129A)
1355	Mec Shotshell Reloading Lot
	This lot includes a single MEC 600JR Mark V 12-gauge shotshell
	reloader with shot and powder bottles, six and eight-star crimp starters,
	primer seat assembly, wad guide, spent primer catcher, (3) each mounting bolts and wing nut and (1) #320/118 bar with no powder
	bushing (installed in press). Also included are one each Lee 12 and 20
	gauge six and eight-fold crimp starters, Lee wad guide, (1) box of
	approximately 250 Winchester #WAA12 wads, (8) generic white
	shotshell boxes and (2) bags of approximately 250 each 1/4" 20-gauge
	felt wads. Count on wads may be off. (86519-129B)
356	Hornady Projector Progressive Reloader
	This lot includes a Hornady Projector reloading press with handle,
	primer tube housing, large and small tubes, (2) powder measure adaptors, numerous assorted small parts for priming and powder
	dispensing and manual. Some small parts may be missing but it appears
	to be complete. Also included are the following shell plates: #s (2) 01,
	02, 05, (2) 30, 22, (2) 16, 08 and 06. The press show light to moderate
	use. (86519-128)
357	Reloading Lot
	This lot includes an RCBS Rock Chucker single stage reloading press
	with primer catch tray, priming arm with large primer seat, handle and a
	#13 shellholder (7.62x54mmR). Also included are: (1) RCBS auto prime
	feed combination with large and small primer tubes, (1) RCBS Uniflow powder measure with a chip missing off the cap but should not affect
	function, (1) Lee Precision Breech Lock hand press, (1) Lee Precision
	Ram Prime with large and small primer seat, (1) as-new-in-the-box
	Redding Model 2400 Case Trimming Lathe with accessories and (1)
	S.A.S. "Little Dripper" powder trickler. All remain in very good to
	excellent condition. (86519-43A,475)
1358	Reloading Lot
	This lot includes an RCBS RS2 reloading press showing light to
	moderate oxidation stains; (1) Lyman All American turret press with
	large and small primer seat assemblies, #1 shell holder, manual and other small parts. Both presses rate good to very good showing
	moderate use and soiling. Also included are: (2) Foster-Appelt lathe
	style case trimmers with the following pilots: 22, 24, 30, 35 and 432 plus
	a Foster Universal 1/16" hollow pointer (generally for rifle but smaller
	drill can be used with pistol) for use with lathe style case trimmer. Both

1359	Herter's Cannelure Tool
	This tool is referred to by Herter's as a "bullet groover" and appears to
	be set up to put a double grooved cannelure on a .30 caliber bullet. It
	includes the handle for turning the groover drum and a bottom handle
	for camming the groover in and out of position. This tool is in excellent
	condition. (86519-290B)
1360	Krieghoff 12 Gauge Sub-Caliber Insert
	serial #18242, 22 LR, 8 11/16" barrel with a bright excellent bore. The
	insert retains about 98% original blue finish with scattered light
	scratches. The bottom of the breech is marked "EXTRA" and the barrel
	is marked "H. KRIEGHOFF KG. ULM". It includes the cardboard
	packaging tube with adjustment tool. (8A6519-567A) {NON-GUN}
1361	Krieghoff 16 Gauge Sub-Caliber Insert
	serial #6197, 22 LR, 8 3/8" barrel with a bright excellent bore. The insert
	retains about 96% original blue finish with scattered freckling. The top of
	the breech is marked "MADE IN GERMANY" and the barrel is marked
	"SEMPERT & KRIEGHOFF GEWEHRFABRIK SUHL". (8A6519-567B)
1000	{NON-GUN}
1362	Krieghoff 16 Gauge Sub-Caliber Insert
	serial #171001, 22 Magnum RF, 8 11/16" barrel with a bright excellent
	bore. The insert retains about 99% original blue finish. The top of the
	breech is marked "H. KRIEGHOFF ULM GERM". It includes a vinyl case
1000	with adjustment tool. (8A6519-567C) {NON-GUN}
1363	Krieghoff 20 Gauge Sub-Caliber Insert
	serial #159225, 22 LR, 8 11/16" barrel with a bright excellent bore. The
	insert retains about 98% original blue finish with faint edge wear at the
	muzzle. The top of the breech is marked "H. KRIEGHOFF ULM GERM".
	It includes a vinyl case with adjustment tool. (8A6519-567D)
1264	{NON-GUN}
1364	Krieghoff 20 Gauge Sub-Caliber Insert serial #159259, 22 LR, 8 11/16" barrel with a bright excellent bore. The
	insert retains about 98% original blue finish with faint muzzle wear. The
	top of the breech is marked "H. KRIEGHOFF ULM GERM". It includes a
1365	vinyl case with adjustment tool. (8A6519-567E) {NON-GUN} Krieghoff 20 Gauge Sub-Caliber Insert
1000	serial #159228, 22 LR, 8 11/16" barrel with a bright excellent bore. The
	insert retains about 99% original blue finish. The top of the breech is
	marked "H. KRIEGHOFF ULM GERM". It includes a vinyl case with a
	pair of adjustment tools. (8A6519-567F) {NON-GUN}
	pair of adjustment tools. (of tools contr) (iter cont)

	#2220 45 gr. Hornet, two sealed and one opened (feels full) 100-count boxes (about 300) Sierra Varminter #1110 45 gr. SP Hornet, and 12
	100-count boxes (1200) Sierra Varminter #1100 40 gr. SP Hornet.
	(236519-66)
415	Hornady .22 Cal. 70 gr. Spire Point Bullets
	This lot consists of seven 100-count boxes (700) of Hornady #2280 70
1416	gr. spire point projectiles. (236519-66A) Speer and Barnes .22 Cal. Projectiles
410	This lot contains six 100-count boxes (600) of Speer #1024 46 gr.
	FN/Cannelure and four 100-count boxes (400) of Barnes Bullets 56 gr.
	FNSP. (6519-66B)
1417	.22 Cal. Sierra Bullets Lot
	This lot contains two 100-count boxes (200) of #1360 55 gr. spitzer, six
	sealed and two opened (one feels full, the other 75% full) 100-count boxes (about 775) of #1410 52 gr. HPBT Match, four sealed and four
	opened (two feel full, two feel 50% full) 100-count boxes (about 700) of
	#1400 53 gr. HP. (6519-66C)
1418	.22 Cal Speer Bullets Lot
	This lots consists of eight 100-count boxes (800) of #1053 70 gr.
	semi-spitzer, one 100-count box of #1047 55 gr. spitzer, one 100-count
	box of #1029 50 gr. spitzer, and one opened box of 15 #1023 45 gr. spitzer bullets. (236519-66D)
1419	.22 and .333 Cal. Projectiles
	This lot includes four 100-count boxes (400) of Speer #1057 .22 cal. 70
	gr. semi-spitzer, two sealed and one opened (appears full) 50-count
	boxes (about 150) of Speer .333 cal. 275 gr. semi-spitzer SP, one
	100-count box of Barnes .333 cal. 300 gr. SP, and one 100-count box of Savage .22 cal. 70 gr. Sick SP. (236510.66E)
1420	Savage .22 cal. 70 gr. Sisk SP. (236519-66E) Sierra .22 Cal. Projectiles Lot
	Contained within this lot are the following: one 100-count box of #1330
	50 gr. spitzer, two sealed and one opened (appears full) 100-count
	boxes (about 300) of #1370 63 gr. Semi-Point, 13 sealed and one
	opened (feels 50% full) 100-count boxes (about 1350) of #1340 medium
1421	velocity 50 gr. spitzer blitz. (236519-66F) Hornady Varmint .22 Cal. 40 gr. Jet
1421	This lot contains 20 sealed and five opened (appear full) 100-count
	boxes (about 2500 bullets) of #2210 40 gr. Jet. (236519-66G)
1422	Sierra MatchKing .22 Cal. Projectiles
	This lot contains three 100-count boxes (300 bullets) of #1380 69 gr.
1423	HPBT-Match. (236519-66H)
1423	Assorted .22 Cal. Bullets This lot consists of one 100-count box of Speer #1029 50 gr. spitzer, two
	100-count boxes (200) of Winchester Western #2246H 46 gr. HP, one
	100-count box of Hornady 55 gr. spire point, two 100-count boxes (200)
	of Hornady #2260 55 gr. SX, two 100-count boxes (200) of Hornady
	#2245 50 gr. spire point, five 100-count boxes (500) of Hornady #2240
	50 gr. SX, one 100-count box of Sierra Varminter #1310 45 gr. spitzer,
	one 100-count box of Sierra 40 gr. Hornet, three 100-count boxes of Sierra #1210 45 gr. SP Hornet, five sealed and three opened (feel full)
	100-count boxes (approximately 800) of Sierra #1300 45 gr.
	semi-pointed. (236519-66I)
1424	9.3mm Projectiles
	This lot is comprised of one 50-count box of Speer #2459 270 gr.
	semi-spitzer and two sealed 4 lbs. bags (8 lbs. total) of 9.3mm 286gr.
425	PPDC of unknown brand. (236519-124) Large Bore Projectiles Lot
-TLJ	Included in this lot are one 50-count box of Hornady #50100 500 S&W
	350 gr. XTP Mag, one opened (appears full) 50-count box of Speer
	#4495 .50 cal. 325 gr. HP, one 20-count box of Barnes #5011020
	50/110 Win. 450 gr. FN cannelure, one opened (appears 75% full)
	100-count box (about 75 projectiles) of Barnes .406 cal. 260 gr. FNSP,
	one opened (appears 90% full) 50-count box (about 45 bullets) of Patriot
1426	Custom .405 Win 300 gr. RNSP. (23519-124A) .375 Cal. Bullets
-720	This lot contains two sealed and six opened (five appear full, one
	contains 10 bullets) 50-count boxes (about 360 bullets) of Hornady
	#3727 300 gr. FMJ, one opened (feels full) 100-count box of Hornady
	#3705 220 gr. FP, two opened (feel full) 50-count boxes (about 100) of
	Sierra #3000 300 gr. spitzer boat tail, one sealed and three opened (feel full) 50 sound haven (about 200) of Space #2471 235 gr. somi spitzer
	full) 50-count boxes (about 200) of Speer #2471 235 gr. semi-spitzer.
	(23519-124B)

1430 Air Rifle/.22 RF Bullet Trap	
This bullet trap has a roughly 12"x12" opening and is well used but	
remains in good condition with patches of oxidation throughout and	
likely has much usable life left in it. (236519-46) 1431 Two Case Tumblers	
	hlar
This lot consists of two case tumblers including one Thumler's Tum	
Ultra-Vibe 10 Standard Model brass tumbler in excellent condition a	and
one non-functioning Frankford Arsenal tumbler that is otherwise in	
excellent condition complete with polishing media. (236519-287) 1432 Morse Code Lot	
This lot consists of a U.S. Signal Corp Keyer model TG-34-A. The u	init is
in excellent condition and includes the headphones, tape reel, catcl	
and power cord. There are also two spare fuses in the case (both h	
considerable oxidation on the terminals). These Keyer units were u	
to train military radio operators to read Morse Code by listening to a	
recorded message on the tape reel that has a series of waves print	
it, which the machine would convert to dots and dashes that are au	
when wearing the headphones. The unit appears to function correct	
the motor operates and lights work. An interesting piece of history f	
the radio and military enthusiast. (23A6519-269)	01

	the years and blooming on the leather. There are two Bianchi leather gun belts one being black and marked "48" in excellent condition and one brown belt marked "54" in excellent condition featuring 24 38 Special/357 Magnum sized cartridge loops. Finally, there is an unmarked brown leather accessory case with a belt loop and snap closure flap measuring 4"x13" with rawhide stitching. (236519-305B) Western Holsters Lot This lot contains three very well-made western-style holsters including an unmarked brown leather open top holster with a hand-carved floral motif sized for a Colt 1911 that remains in excellent condition. There is one brown leather "Texas Jockstrap" holster by S.D. Myers of El Paso, TX also with a hand-carved floral motif sized for a Colt Woodsman Sport remaining in very good plus condition with light blooming on the leather and a few spots of verdigris. Finally, there is one black leather Mexican double loop-style holster with rawhide stitching by H.H. Heiser sized for a large frame single action revolver with a 7 1/2" barrel in very good plus condition showing some minor edge wear. (236519-305E) Weaver Scope Rings and Mounts Lot This lot contains 38 boxed sets of Weaver scope rings which are mostly 1", three loose pairs of scope rings, 6 packages of mounts, one boxed pair of lens caps, and assorted unpackaged mounts and hardware. The packaged rings and mounts all appear to be new-in-box though a few of	1442	shows finish loss and includes only two screws, one brushed aluminum Weaver mount marked "802", a black aluminum Weaver mount marked "801", and two mounts for a Ruger Mini-14 one of which is a brushed aluminum B-Square with rings and the other is an unmarked black aluminum mount. (236519-101B) Weaver Scope Mount Base Lot This lot contains about 248 assorted Weaver scope mount bases that are new in their factory packaging. Styles of bases include pivot mount, top mount and side mount. The scope mount bases are arranged by product number in roughly numerical order from 1-168 in three yellow metal Weaver-marked display trays. No further description of this lot is available, photo requests cannot be entertained, please bid accordingly

	edge wear and fading blue, eight sets of Weaver pivot mount bases and
	rings, one of which is missing its upper rings, all in very good plus
	condition showing minor signs of use, and finally numerous loose bases,
	rings, fasteners etc. in very good to very good plus condition. No further
	description of this lot is available, photo requests cannot be entertained,
1444	please bid accordingly. (236519-101C) MTM Case-Gards, Loading Blocks and Case Lube Pads Lot
/ .	Included in this lot are 9 MTM Case-Gards listed by their item numbers
	as follows: one P-100-3, one P-100-44 containing 39 fired and one
	primed 219 Zipper brass cases, two RSLD-50, one RS-100, one RL-50,
	one RM-50, one RL-50, one H-50. The Case-Gards are in excellent to
	like-new condition many containing their original factory stickers/labels.
	Also included are four very good plus condition heavy-duty aluminum
	and four near excellent polymer 50-round ammunition boxes sized for 38
	Special/357 Magnum or similar pistol cartridges. There are three RCBS #09453 loading blocks two of which rate excellent and one is very good
	with a crack in one handle and the other handle has been removed.
	There are four wooden loading blocks as follows: one double sided
	50-round block sized for 38 Special/357 Magnum or similar and .44/.45
	caliber pistol cartridges, one 85-round block for 38 Special/357 Magnum
	or similar, one 50-round block for .44/.45 caliber pistol cartridges and
	one 50-round block for 38 Special/357 Magnum or similar cartridges.
	The wood loading blocks remain in very good to near excellent condition
	with one block showing slight wobble on flat surfaces. Finally, there are
	two RCBS #09307 case lube pads both in new condition with one still in its original protective packaging and one RCBS powder funnel in your
	its original protective packaging and one RCBS powder funnel in very good plus condition showing minor signs of use. (236519-131, 154)
1445	Remington Model 11-48 28 ga. Barrel
	This lot consists of one Remington Model 11-48 28 ga. shortened 25"
	ventilated rib barrel marked modified with a custom combination
	compensator/ choke tube gauging cylinder. The "Poly Choke" marked
	ventilated rib has been shortened and a 4" homemade compensator has
	been installed which is topped with a white bead sight. The bore
	remains bright and excellent while the barrel retains about 93% original
	blue with a few spots of light oxidation and silvering on the bearing
	surfaces. The ventilated rib retains its original mid-rib brass bead and the barrel is numbered "0122". (239060-49C)
1446	Remington 870 "Law Enforcement" Top-Folding Stock
	One excellent to like-new condition Remington factory "FOR LAW
	ENFORCEMENT ONLY" marked metal top-folding stock with checkered
	synthetic pistolgrip. The stock includes the necessary bolt and a stick-on
	rubber recoil pad and comes in the original Remington box.
	(236519-485F)
1447	Remington 870 "Law Enforcement" Top-Folding Stock and Magazine
	Extension Lot
	Included in this lot is one Remington factory metal top-folding stock marked "FOR LAW ENFORCEMENT ONLY" in very good plus condition
	showing scattered light scratches and signs of minor use on the
	checkered synthetic pistolgrip and the metal stock. What appears to be
	a QD cup has been added to the stock ahead of the folding buttplate.
	Also included is a near excellent condition blued Choate two-round

448	Ruger Mini-14 Side-Folding Stock by Falcon
	This lot contains one Falcon aftermarket AC-556 style Ruger Mini-14
	side-folding stock assembly complete with hardwood fore-stock in very
	good plus condition with a few light impact marks in the finish and an
	about excellent condition brushed aluminum side-folding buttstock that
	locks up securely in both the open and closed positions. The
	M16A1-style synthetic pistolgrip rates very good plus with very minor
	signs of use and the stock comes equipped with a quick-detachable
	stainless steel sling swivel. This is the perfect accessory to give your
	Ruger Mini-14 that "A-Team" look. (236519-485E)
449	Lot of Muzzleloading Projectiles

### Lot Title/Description

1454	NSDAP Flag Lot
	This lot consists of two Nazi swastika flags. The first flag measures approximately 42" x 55" with a red background, a large white circle set in
	the middle, with a large black swastika set at the center almost touching
	the edges of the white. In the upper left corner, a 17" x 4" area of yellow
	is embroidered in black script and the stylized nature of the script makes
	it difficult to decipher, but it appears to read "Schule Neu Wetzendorf".
	The flag is in overall very good plus condition with scattered stains and
	light catches in the fabric. The second flag measures 42" x 28" with a
	red background and a centered large white circle with black swastika contained within. The flag is in overall very good condition with two small
	worn holes and scattered black stains. (14B3398-6)
1455	Dummy 50 BMG Cartridges In Wooden Crate
	This lot is a 18" x 9" x 14 3/4" wooden crate marked "FOR TRAINING
	USE IN CONTINENTAL US", "M2 AP", "TICW", and "240 CATRIDGES /
	LINKED". Inside the crate is approximately 400 loose dummy cartridges and pieces of spent brass, all with punched primers and moderate to
	heavy tarnished surfaces; amounts calculated by weight. Also included
	in the crate is a shoe box containing disintegrating links and a separate
	cardboard box with approximately 40 pieces of spent 50 BMG brass.
	(146519-122)
1456	.38 Caliber Projectile Lot
	This lot contains fourteen unopened 100-count boxes of Speer .38 caliber 148 gr HBWC projectiles (#4617), one unopened 100-count box
	of Speer .38 caliber 158 gr HP projectiles (#4211), one 100-count box of
	Hornady .38 caliber 160 gr FMJ projectiles that appears unopened
	(#3579), two opened 100-count boxes (that appear to be full) of Sierra
	.38 caliber 110 gr JHP "Blitz" projectiles (#8300), and one opened
	100-count box (that appears to be full) of Sierra 9mm 115 gr JHP "Power Jacket" projectiles (#8110). Also included are three
	approximately 50-count bags of .38 caliber shot capsules with shot.
	(146519-118A)

(146519-465C)
1465	.375 Caliber Projectile Lot This lot contains ten 50-count boxes of Sierra GameKing .375 caliber 300 gr BTSP projectiles (#3000), ten 50-count boxes of Hornady .375 caliber 300 gr FMJ/RN projectiles (#1116175), one box of approximately 72 Winchester Western .375 caliber 300 gr FMJ/RN projectiles (#3730MC), and two 50-count boxes of Nosler .375 caliber 300 gr RNSP projectiles (#25199). (146519-465D)
1466	Large Caliber Projectile Lot This lot contains one carboard box containing approximately 1,000 .44 caliber 200 gr SJSP projectiles, one resealed approximately 100-count box of Speer .44 caliber 240 gr FMJ projectiles (#4459), one 100-count boxes of Speer .44 caliber 225 gr JHP projectiles (#4443), three 100-count boxes of Speer .44 caliber 240 gr SP projectiles (#4447), two 50-count boxes of Speer .45 caliber 400 gr FN projectiles (#2479), one approximately 100-count box of Speer .45 caliber 200 gr JHP projectiles (#4477), one 100-count box of Speer .45 caliber 200 gr JHP projectiles (#4471), one 50-count box of Hornady .45 caliber 200 gr HP projectiles (#4500), one 100-count box of Hornady .45 caliber 250 gr HP projectiles (#4520), one 100-count box of Remington .45 caliber 250 gr lead projectiles, two approximately 50-count boxes of Winchester Western .45 caliber 205 gr SP projectiles (#4479), two bags of approximately 100 .45 caliber 405 gr SP projectiles, and two 50-count boxes of Speer .50 caliber 325 gr HP projectiles (#4495). (146519-465E)
1467	Winchester Repeating Arms Co38-55 Brass Lot This lot includes three cardboard boxes containing 10, 17, and 19 spent pieces of .38-55 brass headstamped "W.R.A. Co. / 38-55". The brass varies from lightly to moderately tarnished and appears to be in very good condition. The cardboard boxes have a light blue label marked "CENTRAL FIRE CARTRIDGES. / MANUFACTURED AND GUARANTEED / BY THE / Winchester Repeating Arms Company, / New Haven, Conn., U.S.A." on top. The front side of the top is illustrated with a .38-55 cartridge and reads "255 Grs. / Grooved Bullet. / 55 Grs. / POWDER." and "Adapted to / WINCHESTER SINGLE SHOT BALLARD AND MARLIN RIFLES." The front of the box is marked with a warning label guiding reloaders to only use Winchester No. 2 1/2 primer with these cartridges. One of the boxes has "V Schmitt" handwritten in cursive on the back. The boxes are in overall good to very good condition with fraying corners, tearing on edges, and light staining. (148812-15A)

### Lot Title/Description

1479	Single Action Revolver Stock
	This lot consists of a one-piece metal shoulder stock for a single action
	style revolver, exact make and model unknown. The stock is one piece
	of shaped metal unconnected at the junction where it would attach to the
	grip of the revolver, having only a screw and a round nut to tighten the fit
	to the grip. The stock is left in-the-white, with only scattered light staining
	from use. The area in which the base of the revolver's grip would sit is
	marked "R", and the area where the stock meets the frame of the gun
	has been lightly ground by the previous owner. The inside of the
	buttplate is marked "MADE IN UK". (14A6519-309D)
1480	WWI & WWII Web Gear
	This lot consists of a M1923 cartridge belt in very good condition with
	light wear and occasional light staining and is lightly stamped "US" on
	the first pouch on the left, a L. C. C. & Company marked M1917 rifleman's belt marked "8-18" on the right side and "7-18" on the left side,
	with light wear and staining consistent with age. Also included are three
	additional two-pocket pouches, two dated "1945" and one marked
	"Redwine & Strain", which show scattered light staining.
	(14A6519-408B)
1481	U.S. Military Belt With Pouches
	This lot contains what appears to be a M1936 web pistol belt in about
	excellent condition, with four pouches dated to approximately 1918.
	Three of the pouches are loose while one is attached, with scattered
	light staining. The belt is marked "CAPT. C.F. BREWSTEK" and the
	three loose pouches are marked "P. B. & CO.". (146519-408C)
1482	Gun-Ho Shooter's Range Case
	This range case measures 11 1/2" x 14" x 18" with a black synthetic faux
	leather exterior with metal fittings on the corners and likely points of
	contact. The case is in about very good plus condition with a few
	scattered light abrasions along the edges and scattered light oxidation
	on a few of the metal fittings. The interior of the case is also lined with a
	synthetic material made to resemble leather, this time brown, and is
	divided in half horizontally by a removeable tray, which is marked
	"Gun-Ho / ST. PAUL. MN". The tray is set up to store up to five pistols,
	using rubberized dividers with a screw tensioner to keep the pistols
	separate. Along the left interior wall are metal brackets, possibly for
	magazine storage. Attached to the folding wall is a Tasco "World Class"
	10-25x50mm spotting scope mounted on to a hinged metal bar; the
	scope glass is clear. The interior wall of the case is decorated with
	multiple NRA and firearm manufacturer's stickers. The case is sealed
	using two latches positioned on each side of the swing-out wall, and a
	nylon carry strap is mounted to the case. Included is the original box for
1483	the Tasco spotting scope. (148627-6) Assorted Holster Lot
1400	Included with this lot are five nylon Uncle Mike's Sidekick holsters, one
	DeSantis leather revolver holster marked "001 / 34", one leather single
	action revolver holster with cartridge belt, two nylon DeSantis magazine
	carriers, and one Westley Richards cartridge holder marked "7mm
	REM". All appear to be in about very good plus to excellent condition,
	with only a few light handling marks. No further description of this lot is
	available, photo requests cannot be entertained, please bid accordingly.
	(148627-1)
1484	Montana Waterfowl Stamp Print
	This 1986 lithograph by Joe Thornbrugh was the first waterfowl stamp
	print issued for the state of Montana, numbered 1504 of 9212 and
	measures 12" x 14" with a 6 1/2" x 9" view of Canada Geese flying over
	snow covered mountain peaks. Suitable for framing, print is in excellent
	condition with only a small bend in the lower right corner, signed and
	numbered by the artist and includes an unsigned stamp and protective
	portfolio. (59239-3)
1485	West Virginia Duck Stamp Print
	This 1987 lithograph by Daniel Smith was First of State West Virginia
	Duck Stamp Print, numbered 398 of 10064, measures 12" x 14" with a 6
	1/2" x 9" view of a pair of Canada Geese winging through a stormy West
	Virginia sky. Suitable for framing, print is in excellent condition with only
	a slight bend in the lower right corner, signed and numbered by the artist
4.400	and includes an unsigned stamp and protective portfolio. (59239-4)
1486	Colorado Duck Stamp Print
	This 1990 lithograph First of State Colorado Duck Stamp Print &
	Governor's Wetland Relief Stamp by Robert Steiner is first in a series of
	a four print suite and is entitled "High Plains Honkers", numbered 9,591
	of 14,500 and measures 12" x 14" with a 6 1/2" x 9" view of Canada
	Geese landing in a wooded pond. Suitable for framing, print is in
	excellent condition with only a slight bend in the lower right corner,
	signed and numbered by the artist and includes two stamps one of which is signed by the artist and a protective portfolio. (59239-5)

1487	Canada Duck Print
	This 1985 First of Canada Wildlife Habitat lithograph of the original acrylic painting by Robert Bateman, numbered 348 of 41,740 and
	measures $12" \times 14"$ with a 6 $1/2" \times 9"$ view of a pair of standing Mallards
	in an early winter wetland setting. Suitable for framing, print is in
	excellent condition, signed and numbered by the artist and includes an
	unsigned and undetached stamp and protective portfolio. (59239-11)
1488	Canada Duck Print
	This Medallion Edition 1985 First of Canada Wildlife Habitat lithograph of
	the original acrylic painting by Robert Bateman, numbered 123 of 7691
	and measures 12" x 14" with a 6 1/2" x 9" view of a pair of standing Mallards in an early winter wetland setting. Suitable for framing, print is
	in excellent condition, signed and numbered by the artist and includes a
	gold plated duck stamp medallion, two undetached stamps one signed
	by the artist and protective portfolio and outer jackets. (59239-10)
1489	50th Anniversary Federal Migratory Waterfowl Stamp
	This Medallion Edition 1984-85 lithograph of the original painting by Bill
	Morris, numbered 10,854 of 11,500 and measures 12" x 14" with a 6
	1/2" x 9" view of a pair of Widgeons on the water. Suitable for framing,
	print is in near excellent condition with some very light staining along the right edge and a slight bend in the lower corner. The print is signed and
	numbered by the artist and includes a gold plated duck stamp medallion,
	unsigned stamp and protective portfolio. (59239-7)
1490	1986-97 Federal Duck Stamp Print
	This 1986 lithograph by Burton Moore Jr., numbered 7591 of 16,310 and
	measures 12" x 14" with a 6 1/2" x 9" view of a swimming Fulvous
	Whistling Duck which is also the first time the duck has appeared on a
	stamp image. Suitable for framing, print is in excellent condition with
	only light bends in the lower right corner, is signed and numbered by the
1491	artist and includes a protective portfolio. (59239-9) 1974-75 Federal Duck Stamp Prints
1431	These 1974 lithographs by David Maas measure 12" x 14" with 6 1/2" x
	9" views showing winging Wood Ducks. Suitable for framing both prints
	rate near excellent having been matted, one with vibrant colors and only
	remnants of paper tape along the rear top edge while the other appears
	to have been hung in direct light showing light fading of the view and
	rectangular shadowing along its periphery. Both prints are signed by the
	artist, the edition prints were not numbered. Included is a single unsigned stamp. (59239-6)
1492	1911 Carbine Kit
	Three piece carbine kit for the 1911 semi-automatic pistol consisting of
	shoulder stock, mainspring and 16" 45 ACP barrel. The barrel has a
	bright excellent bore and along with the mainspring housing and
	shoulder stock bracket retains about 95% original blue toning to gray
	brown with light high edge wear. The walnut stock remains near
	excellent with light handling marks. (56519-309) [Richard "Stretch" Kennedy Collection]
1493	1911 Carbine Stock
1.00	Walnut stock and hardware for a 1911 carbine kit. The walnut stock
	remains near excellent with light handling marks while the iron hardware
	retains about 95% evenly thinning original blue toning to a brownish
	gray. The mainspring housing is not present. (56519-309A) [Richard
	"Stretch" Kennedy Collection]
1494	Lot of Leather Holsters
	63 commercial holsters and accessories ranging in condition from about very good to near new. Assorted configurations for an assortment of
	frame sizes and barrel lengths. A few examples are: Hunter 1100B;
	Galco SOB230; Bianchi #3S; Lawrence 528; Hunter 1100A; Browning
	41151; Bianchi 44 S.A. #1; Galco Pistol Packer; Strong 930; Safari Land
	25 and Bianchi 6X. Most are used and will show light handling marks, a
	few are as-new, most are brown leather. No further description of this lot
	is available, photo requests cannot be entertained, please bid
4.405	accordingly. (56519-142) [Richard "Stretch" Kennedy Collection]
1495	Lot of Leather Holsters
	48 commercial holsters and accessories ranging in condition from about very good to near new. Assorted configurations for an assortment of
	frame sizes and barrel lengths. A few examples are: DeSantis 011;
	Strong H300; Bianchi #16; Lawrence 518; Safariland S&W Hunter 1100
	5; Lawrence 507; Safariland 530; Berns & Martin and Strong 931. Most
	are used and will show light handling marks and verdigris on the
	hardware, a few are as-new, most are brown leather. No further
	description of this lot is available, photo requests cannot be entertained,
	please bid accordingly. (56519-621) [Richard "Stretch" Kennedy
1409	Collection]
1496	U.S. Model 1916 Leather Holsters Two total: (1) brown holster with no maker mark, wire hook and leg
	thong intact; (1) black holster marked "BoyT / 50", small square hole cut
	in flap below stud hole, wire hook intact. Both show light scuffing,
	handling marks and verdigris on the hardware. (56519-621A) [Richard
1	"Stretch" Kennedy Collection]

### Lot Title/Description

1497	U.S. Model 1916 Leather Holsters
	Two brown holsters: (1) light brown holster by BOYT marked "A.C.T.T. "
	below; (1) dark brown leather holster by Warren Leather Goods. Both
	are used and show light handling marks, scuffs and verdigris on the hardware. (56519-621B) [Richard "Stretch" Kennedy Collection]
1498	U.S. Model 1916 Leather Holsters
	Two total: (1) brown holster marked "SEARS / 1917" with light "T.N.S."
	stamped below; (1) black holster stamped "BoyT / 50" marked "M.R.T. /
	10-50" in yellow stencil below. Both are used and show light handling
	marks, scuffs and verdigris on the hardware. (6519-621C) [Richard
1 400	"Stretch" Kennedy Collection]
1499	U.S. Military Leather Holsters Two total: (1) M1916 holster marked "PERKINS / CAMBELL / 1917 /
	R.J.M.", intact showing modest wear and verdigris on the hardware; (1)
	russet brown S&W Victory holster marked "MRT / 5-54 / R.I.A." in very
	good plus condition showing minor scuffs, stains and verdigris on the
	hardware. Wire belt hooks are present on both models. (56519-621D)
1500	[Richard "Stretch" Kennedy Collection]
1500	U.S. Model 1897 Leather Holsters Two total: (1) russet holster for a .38 caliber revolver marked "ROCK
	ISLAND / ARSENAL / 1907 / H.E.K." on the back of the belt loop, the tip
	of the flat is marked "B5 / 24". In very good plus condition with intact
	bronze ring showing minor scuffs and staining; (1) light brown holster
	marked "G.&K. / 1918 / W.J.D." in about very good condition showing
	light scuffing, fading, staining, seam separated at the tip, the bronze ring
1501	no longer present. (56519-621E) [Richard "Stretch" Kennedy Collection]
1501	Military & Commercial Model 1897 Leather Holsters Two total: (1) U.S. brown leather holster for a .38 caliber revolver
	marked "G.&K. / 1917 / A.G." on the back of the belt loop. The finish has
	faded to a "mottled" brown finish with light handling marks, separated
	seam at tip the bronze ring no longer present; (1) natural leather holster
	with oval on front which reads "PROPERTY OF / U.S. / P.O. DEPT." and
	"1957" along the top edge. Fully stitched seams with no tip ring, rear of
	holster does have drain hole; in very good plus condition with light
	staining and verdigris on hardware. (56519-621F) [Richard "Stretch" Kennedy Collection]
1502	U.S. Victory Model Leather Holsters
	Two brown holsters by Craighead of Denver marked "U.S. / (Craighead
	seal logo) /1943" between the belt slots. Both are in very good plus
	condition with tight intact seams and only light scuffing and staining and
	verdigris on the hardware, wire belt hooks present on both models.
1503	(56519-621G) [Richard "Stretch" Kennedy Collection] Lot of Leather Holsters
1303	Three total: (1) black leather M-13 holster for either a Colt or S&W
	Aircrewman, no maker mark "55D3513" stamped along front right edge,
	very good condition with letters written in black marker inside the flap;
	(1) brown M-3 holster rig, light but still visible "L.M.F." stamped along the
	upper left rear edge. In about very good condition with light stains,
	verdigris and separated snap on lower strap; (1) reproduction M-3
	holster rig with embossed "USMC" logo on front and "BOYT / U.S.M.C. / 1944" stamped in upper left rear corner, in excellent condition.
	(56519-621H) [Richard "Stretch" Kennedy Collection]
1504	Lot of Leather M-3 Holsters
	Two total: (1) brown holster marked "USMC / BOYT / 45" at the upper
	rear left corner, in about very good condition with light staining, verdigris
	and separated snap on the lower snap; (1) reproduction black holster
	stamped with uneven "CATHEY ENT INC / 7791527" in upper rear left
	corner, in excellent condition with clean verdigris free hardware. (56519-621I) [Richard "Stretch" Kennedy collection]
1505	Lot of Leather Holsters
	Two total: (1) 1889 pattern black leather holster with light "USN" in oval
	on front flap, the "N" all but faded, in very good plus to near excellent
	condition for its age remaining fully intact with light creasing, scuffing
	and verdigris on the snap; (1) reproduction M-1912 Cavalry holster
	marked "R.I.A. / 1913" on the back of the flap and "W.L.G." on the swivel
	flap, leg strap included. In near excellent condition with light staining and verdigris on the hardware. (56519-621J) [Richard "Stretch" Kennedy
	Collection]
1506	Lot of Leather Holsters
	Two total: (1) reproduction black holster marked "BOLEN LEATHER /
	PRODUCTS / INC / 7791527" along the upper left rear corner, in
	excellent condition with only minor storage marks and clean verdigris
	free hardware; (1) Bianchi M-12 green nylon holster rig with web belt
	and two nylon magazine pouches in excellent condition fits up to a size
1507	44 waist. (56519-621K) [Richard "Stretch" Kennedy Collection] Lot of Leather Cheek Rests
1001	Four natural color leather rifle cheek rests with leather thongs, three are
	marked "MRT / 652" while the other simply "MRT". In excellent condition
	still in plastic storage bags only one has been laced. (56519-621L)

1508	WWII U.S. M1 Carbine Leather Scabbard
	One dark russet brown leather scabbard for the U.S. M1 carbine. The body is stamped "U.S. / LO.M.D. / 1944 / E.N.S." just below the lin of the
	body is stamped "US / J.Q.M.D. / 1944 / E.N.S." just below the lip of the pocket. The leather is in very fine condition: while stiff, the body remains
	durable and only lightly scuffed in spots, exhibiting little to no loss or
	separation and retaining excellent stitching. The brass fittings are
	patinated to a dark greenish-gray tone with bright green verdigris at the
	rims where brass meets leather. Also included is one complete 50 rd.
	box of PPU 30 Carbine ammunition, 110 gr. FMJ round nose, all
	cartridges rating excellent. A quite desirable piece of World War Two
	equipment to accompany your M1 carbine. (12A8956-29Q) Est. 200 - 400
1509	U.S. M1A2 Rifle Grenade Adapter
	One M1A2 Rifle Grenade Adapter and one inert Mk. 2 fragmentation
	hand grenade. The stem of the adapter is marked "ADAPTER
	GRENADE / PROJECTION M1A2 / LOT UOD-500-12 / 1945 MOD
	3-69". The adapter is in excellent condition with few if any blemishes or
	handling marks and the grenade is in near excellent condition with a few hints of oxidation present on the fuze. (128956-29S)
	Est. 50 - 125
1510	U.S. WWI & WWII Accessories
	Assorted pieces of U.S. Military field equipment, detailed as follows: (1)
	1918-dated tan canvas Russel cartridge belt, rating very good plus to
	fine with few blemishes except occasional areas of age-staining and a
	bit of white and green verdigris on the darkly patinated brass fittings; (1) tan canvas Nobuckl sling, rating excellent; (1) 1942-dated Sears leather
	holster for a M1911 semi-automatic pistol, rating very good plus to
	excellent with instances of light surface scuffing and staining; (1) pair of
	checkered brown M1911 grips in near excellent to excellent condition,
	marked "92" in white paint on the right-side grip; (1) Auto-Ordnance
	Corp. 20 rd. Thompson sub-machinegun stick magazine rating very fine
	to near excellent with occasional specks of oxidation scattered across
	the parkerized finish. Also included is a WWII-era Italian aluminum canteen with an OD green felt cover; the canteen is in excellent
	condition, the cover very good to near excellent with a few instances of
	insect damage on one side creating perforations in the wool.
	(128956-29T)
1511	U.S. Military Belt Kit Accessories
	Two items: First, one 1919-dated tan canvas magazine pouch with two
	pockets for M1911 .45 cal. magazines, rating very fine to excellent with
	few blemishes. Second, one M1 Garand cleaning kit in a tan canvas pouch including two cleaning rod sections, two patch loops and a M10
	combination tool. The tools are in excellent condition and the pouch
	near excellent with few if any blemishes on the canvas except some
	bleeding of the ink-stamp which has rendered the inner label somewhat
	illegible. (128939-8B)
1512	U.S. Military Medals
	A small collection of U.S. Military medals, badges and pins. Notable examples include: an embroidered patch with an enameled U.S. 508th
	Infantry Regiment pin with motto "Fury From the Sky"; one black and
	yellow enameled U.S. 509th Infantry Regiment "Geronimo" medal pin;
	U.S. Marksmanship badges, one Sharpshooter with "Grenade" clasp
	and one Marksman with "Rifle" clasp; American Legion medal and pin
	for the Forty and Eight veteran's organization; commemorative coin for
	the U.S. 2nd Infantry Division with "Second to None" motto; two
	Pennsylvania Area Supply Corps Association 194th Anniversary brass coins; one U.S. WWII Victory Medal; one U.S. Navy Expedition medal;
	an assortment of cloth bar medal pins. All items are in fine to near
	excellent condition with very little storage wear and few if any blemishes.
	(12A8939-4A)
L	Est. 50 - 100
1513	Imperial German WWI Iron Cross
	One 1914-dated German Iron Cross medal finished in black lacquer with silvered brass trim. One face is embossed "(crown) / W / 1914", the
	other "(crown) / FW / (oak leaves) / 1813". The black and white striped
	ribbon is present and the suspension bar has been lost. The ribbon is
	age-stained such that the white stripes are now tinted tea-yellow and a
	frayed thread is present here or there at the fringes. Overall the medal is
	in very good condition, retaining traces of silver on the trim and
	exhibiting a few instances of verdigris; the medal is otherwise only lightly
1514	worn. (12B8939-4B) Colt Handgun Grips
1314	Three pairs of grips for Colt handguns. The first is a pair of Hogue grips
	for a Colt Government Model automatic pistol made of checkered
	cocobolo and inlaid with Rampant Colt medallions. The grips come in
	the original factory box (previously opened) and are in excellent
	condition. Next are two black rubber Pachmayr Presentation grips for
	Colt D Frame revolvers, one finger-grooved and one in classic
	unadorned style; each is checkered and inlaid with Rampant Colt medallions and both rate excellent with no discernible blemishes.
	(128939-6)

### Lot Title/Description

515	Unmarked Rifles Sights and Collectible Lyman Sight Box	1520	Patriotic Eagle Powder Flasks
	One set of rifle sights housed in a non-matching vintage box. The box is		Two small brass powder flasks embossed with U.S. eagle designs, bo
	labeled for a Lyman Improved Comb. Rear Sight No. 2A for a Stevens		closely matching Riling's No. 757 with a Federal Eagle framed by star
	"Favorite" rifle; the included sights are not the model listed on the label.		and "E Pluribus Unum" motto. The first measures 3 3/4" in length and
	The sights comprise an unmarked 2 3/4" U-notch ramp dovetail rear		features a fixed common top with an outside spring and a screw-off
	sight, complete with elevator, and a German silver 7/8" blade front sight		non-adjustable charger. The cut-off functions well mechanically. Both
	on a 3/4" by 1/2" dovetail base. The metal surfaces are in very fine good		body and top are toned to a light greenish-yellow with areas hinting to
	condition with little wear and the occasional spot of ochre oxidation here		ochre; the embossing has become somewhat worn at the edges and
	or there. The box is in near excellent to excellent condition with the		some of the finer details are partially smoothed; otherwise few if any
	barest hints of handling wear and age staining. (128939-7)		handling marks are present. Overall this flask is in very good condition
16	U.S. WWI Model 1917 Helmet		The second flask measures 3 3/4" in length and features a fixed
	One steel "doughboy" helmet in roughly textured dark olive green paint		common top with an outside spring and screw-off non-adjustable
	finish. The crown of the helmet exhibits tones of ochre staining and dark		charger. The cut-off functions well mechanically. The top exhibits a th

1550		4550	
1553	"Gull" Recurve Bow by Wing Archery Company One right-handed recurve bow made of laminated maple with	1558	Oe
	fiberglass-reinforced limbs and a set of (16) arrows in a black hard case.		On
	No string is included. The bow is 64" tall with a draw weight of 25 lbs.;		Inc
	the draw length is unspecified but may perhaps be estimated by the		app
	length of the included arrows which measure 28 1/2". The riser is		mir
	beautifully figured and the limb reinforcements have toned to a pleasing		Ker
	cream color. A few extremely light handling scuffs and discolorations are	1559	Ge
	visible on the limbs and the shelf exhibits a few handling scratches but		On
	the blemishing is minimal and the bow is in about excellent condition		The
	overall. The arrows have shafts of cedar and all feature high quality		and
	synthetic feather fletching; some are fitted with field points and some		for
	have no tip yet applied. Some of the shafts are slightly warped and will		sur
	need to be straightened before use but otherwise the shafts are unblemished. While most of the fletching is excellent there are a few		och
	instances here and there of loosening adhesive and crazing feathers		has pro
	which will need to be replaced, likely a simple project for a practiced		dis
	fletcher. All in all an attractive target bow set suitable for novice and		scu
	veteran archers alike. (128302-8)		pai
554	Custom Traditional Bows by Blue Ridge Archery		ass
	One set of two traditional right-handed bows complete with (12) arrows		who
	and a small assortment of string keepers and limb tip covers all stored in		tho
	a zip-up leather-bound felt-lined case. Each bow is labeled "Blue Ridge		its :
	Archery / Wind River Set #5", carefully hand-painted in white. The first is		vint
	a recurve measuring 58" tall with a draw weight of 57 lbs. at 27". The		[Rio
	riser is some type of tight-grained walnut or perhaps screwbean	1560	U.S
	mesquite centered by a strip of maple and the grip is wrapped in		On
	black-fading-to-gray genuine leather with rawhide stitching. The back is		me
	camouflaged by rattlesnake skin which has begun to separate on one side of the upper limb. The limbs themselves are a laminated hardwood,		1/2
	likely hickory, which appears be glass-impregnated. The string is twisted		hou gre
	red and brown cord fitted with fur string silencers; the string is in very		inst
	good plus to excellent condition, shows signs of light use and will need		fine
	to be re-waxed before shooting. The second bow is a reflex longbow		000
	measuring 62" tall with a draw weight of 57 lbs. at 27". The materials		con
	and construction are identical to the previous and this bow is in excellent		wo
	condition similar to, if not better than, the first. The string does exhibit		flak
	some instances of fraying and may need to be replaced, otherwise the		exc
	snakeskin shows no separation whatsoever and few if any blemishes		exc
	are discernible. The included arrows have aluminum shafts with yellow		app
	and black synthetic feathers; no tips are present. The arrows are in		(12
	excellent condition with no discernible blemishes. The string keepers	1561	RC
	and related accessories all rate excellent as does the case itself. A very		Tw
	fine cased ensemble for the serious archer, these bows are suitable for		Cei
1555	both hunting and advanced target shooting. (12A8301-28)		hea
222	Hoyt Legacy Compound Bow One left-handed compound bow with 18 1/2" limbs and a 24" riser,		mo
	measuring 50 1/2" overall. The adjustable draw weight ranges from		for
	65-80 lbs. at 32". The limbs are laminated hardwood reinforced by		nea
	fiberglass and the riser is solid fiberglass with varnished oak grip panels.		bat
	The riser and limbs are finished in factory oak leaf camouflage spray		ada
	paint. The bow appears to have been dry-fired at one point as the string		Ker
	has been lost and one of the cables has detached from the upper cam;	L	
	the loose cable appears unharmed but is perhaps in need of re-waxing.		
	No further signs of damage are visible and the bow exhibits only		
	superficial light handling and storage marks, rating very fine as a whole.		
	A quality piece of hardware that should serve as a fine hunting arm once		
	restrung. (128506-2A)		
1556	Pacer Compound Bow		
	One left-handed compound bow with 18" limbs and a 26" riser,		
	measuring 47 1/2" overall. The adjustable draw weight ranges from		
	45-55 lbs. at 28" and the brace height is 10". The limbs are laminated		
	hardwood in lacquer finish colored black on the face and back; the riser		
	is black fiberglass with a pebble-grain black plastic grip. The string and		
	cables are in excellent condition with few if any discernible blemishes		
	and the bow functions well mechanically. No arrow rest is included. Overall the bow is in very fine to near excellent condition, exhibiting only		
	very light handling marks, and is ready for use for target shooting or		
	close-range hunting. (128506-2)		
1557	RCBS 304 Scale		
	Two items: First, One reloading scale of RCBS manufacture. Measures		
	up to 1111 grains with a dial for increments of 1 and sliders for		
	increments of 10 and 100. A bright yellow brass measuring pan is		
	included and the scale is fully functional in very fine condition. Second,		
	One electronic scale of Lyman manufacture. Labeled for a capacity of		
	"1000 GN x 0.1 GN" or "65 GRAM x 0.01 GRAM" and features a digital		
	display and push-button controls. Includes a complete Lyman Scale		
	Check Weight Set and power cable. All items are in excellent to mint

German/British Pre-WWII Coincidence Rangefinder by Barr & S	Stroud
One 1936-dated coincidence rangefinder measuring 35 1/2" in	ength.
The labels of the adjustment dials are German language and th	
and maker's address plaques are British, indicating British man	
for German use. The tube is bound by russet leather and the m	
surfaces of the lens assembly are painted to match in a glossy	
ochre-brown lacquer. The right end features a rubber buffer page	which
has been lost from the left. The optics are somewhat cloudy but	
provide serviceable images and, when the sight pictures are ali	
displays a range measurement that appears accurate. Moderati	• ·
scuffing is present on the surface of the leather and instances of	
paint and patination of the exposed steel can be seen on the left	0
assemblies but the wear is external only and the leather binding	
whole with excellent stitching. Both leather lens covers are inclu	-
though one has separated from the retention loop due to partial	
its strap, as is the leather carrying sling. Overall a very good pie	
vintage rangefinding equipment that remains functional. (12A65	19-490)
[Richard "Stretch" Kennedy Collection]	
U.S. Model 1916 1M Base Rangefinder by Bausch & Lomb	dan

### Lot Title/Description

1572	Smith & Wesson K-Frame Grips
	Three pairs of grips for Smith & Wesson K-frame revolvers, detailed as
	follows: (1) pair walnut checkered target square butt grips with ejector
	cutout, in near excellent condition with very light handling marks on the
	right-side grip; (1) pair white polished staghorn smooth magna grips in
	excellent condition; (1) pair walnut diamond checkered target square
	butt grips, in near excellent condition save a few light handling marks
	and a small chip on the forestrap just beneath the triggerguard.
	(126519-401M) [Richard "Stretch" Kennedy Collection]
1573	Smith & Wesson K-Frame Grips
	Two pairs of grips for Smith & Wesson K-frame revolvers, detailed as
	follows: (1) pair rosewood smooth target square butt grips with ejector
	cutout, in near excellent condition with a few tiny handling marks; (1)
	pair goncalo alves checkered target square butt grips with speedloader cutout, in excellent condition with few if any discernible blemishes.
	(126519-401N) [Richard "Stretch" Kennedy Collection]
1574	Smith & Wesson J-Frame Grips
1014	Four pairs of grips for Smith & Wesson K-frame revolvers, detailed as
	follows: (1) pair goncalo alves checkered target square butt grips with
	ejector cutout, in excellent condition; (1) pair walnut checkered magna
	round butt grips in good condition with light to moderate handling wear;
	(1) pair rosewood smooth target round butt grips with ejector cutout, in
	excellent condition; (1) pair red and green hardwood laminate finger
	groove boot grips in near excellent condition, exhibiting few if any
	blemishes except for a 3/4" chip running up the forestrap from the toe of
	the right-side grip. (126519-401P) [Richard "Stretch" Kennedy
	Collection]
1575	Smith & Wesson J-Frame Grips
	Three pairs of grips for Smith & Wesson J-frame revolvers, detailed as
	follows: (1) pair rosewood checkered target square butt grips with
	ejector cutout; (1) pair goncalo alves smooth target round butt grips with
	ejector cutout; (1) pair goncalo alves checkered target grips with ejector
	cutout. All grips are in excellent condition. (126519-401Q) [Richard
1576	"Stretch" Kennedy Collection]
1576	Smith & Wesson J-Frame Grips Three pairs of grips for Smith & Wesson J-frame revolvers, detailed as
	follows: (2) pairs rosewood checkered target square butt grips with
	ejector cutouts; (1) pair goncalo alves finger-grooved target round butt
	grips with ejector cutout. All grips are in excellent condition.
	(126519-401R) [Richard "Stretch" Kennedy Collection]
1577	Colt Grips
	Two pairs of grips for Colt revolvers. The first is a pair of Lew Sanderson
	#15 wraparound checkered walnut grips for a Colt Woodsman Match
	Target 1st Model pistol with thumb rest, palm rest and finger groove, in
	excellent condition with very few if any handling marks. Second, a pair of
	Roper diamond-checkered walnut service-style grips for a Colt New
	Service revolver, featuring the distinctive Gagne jig holes and a partial
	open backstrap. A crack is present in the lower half of the backstrap on
	the right-side grip and another is beginning to form in the same spot on
	the left grip; as the cracks are quite thin and show little if any material
	loss, a skilled woodworker will likely be able to make a near-seamless
	repair. Otherwise the grips show few if any blemishes and are in near
	excellent condition as a whole. (126519-401S) [Richard "Stretch"
4570	Kennedy Collection]
1578	Walther Grips
	Assorted grips for Walther handguns, detailed as follows: (4) pairs black
	plastic checkered PPK/S grips; (1) pair black plastic checkered PPK grips; (1) pair rosewood foliate checkered PPK/S grips; (1) pair
	checkered walnut P38 grips; (1) pair checkered PPK/S grips; (1) pair
	P38 grips. All are in near excellent to excellent condition with little to no
	handling wear. Also included are (2) pairs of checkered walnut grips for
	an Erma .22 Baby Luger and (1) pair of unmarked checkered walnut
	grips for a full-size P.08 Luger pistol, both in near excellent condition.
	(126519-401T) [Richard "Stretch" Kennedy Collection]
1579	Colt Grips
	Assorted Colt pistol grips: (1) pair checkered walnut Woodsman First
	Model grips; (1) pair checkered Coltwood Woodsman grips with thumb
	rest; (1) pair double-diamond checkered walnut M1911 grips; (1) pair
	checkered black plastic Woodsman grips; (1) left-side checkered brown
	Coltwood Woodsman grip. All are in excellent condition save the M1911
	grips which rate very good plus to fine with light handling marks.

1580	Thompson/Center Contender Grips and Forends
	Assorted Thompson/Center Contender furniture: (1) smooth walnut grip
	with thumb rest; (1) smooth walnut grip with rubber backstrap; (1)
	smooth walnut grip with finger grooves, thumb rest and palm rest; (1)
	smooth walnut forend complete with screw and screwhole escutcheon;
	(1) checkered walnut forend sans screw and escutcheon; all are in very
	fine condition with some light handling marks. Also includes (1) smooth
	walnut forend with escutcheon and without screw, in good condition
	having been reshaped to a previous owner's preferences via sanding
	and not re-varnished. (126519-401V) [Richard "Stretch" Kennedy
	Collection]
1581	Thompson/Center Contender Barrel
	44 Magnum, 8" barrel with a bright excellent bore, factory sights, vented muzzle and a round-sided external choke. The metal surfaces of the
	barrel rate near excellent and retain about 90% original blue finish with a
	few light handling marks and finish wear at the contact points. The
	forend mounting screw is not present. Includes one internal choke
	wrench. (126519-549A) [Richard "Stretch" Kennedy Collection]
1582	Thompson/Center Contender Barrel
	45 Colt, 10" round barrel with a bright excellent bore, factory sights and
	Pachmayr rubber forend. The metal surfaces rate excellent, retaining
	about 98% plus original blue finish with very few if any handling marks.
	The forend also rates excellent with no discernible blemishes.
	(126519-549B) [Richard "Stretch" Kennedy Collection]
1583	Thompson/Center Contender Barrel
	256 Win Mag, 10" octagon barrel with a bright excellent bore, factory
	sights and Pachmayr rubber forend. The metal surfaces rate about
	excellent, retaining about 98%plus original blue finish with a very few minute instances of silvering at some of the contact points and a tiny
	instance of oxidation on the base of the rear sight. The forend rates
	excellent with no discernible blemishes. (126519-549C) [Richard
	"Stretch" Kennedy Collection]
1584	Thompson/Center Contender Barrel
	45 Win Mag, 10" round barrel with a bright excellent bore, factory sights
	and Pachmayr rubber forend. The metal surfaces rate excellent,
	retaining about 98%plus original blue finish with very few if any handling
	marks. The forend also rates excellent with no discernible blemishes.
	(126519-549D) [Richard "Stretch" Kennedy Collection]
1585	Thompson/Center Contender Barrel
	44 Magnum, 8" octagon barrel with a bright excellent bore, ported
	muzzle, flat-sided external choke and a brass bead front sight; no rear
	sight is present. The metal surfaces retain about 98% original blue finish
	with some silvering due to light handling wear at the sides and contact points. Includes an external choke spanner. (126519-549E) [Richard
	"Stretch" Kennedy Collection]
1586	Thompson/Center Contender Barrel
	30 Carbine, 10" octagon barrel with a bright excellent bore and factory
	sights. The metal surfaces rate excellent, retaining about 98% original
	blue with a scant few negligible handling marks. (126519-549F) [Richard
	"Stretch" Kennedy Collection]
1587	Thompson/Center Contender Barrel
	38 Spl, 10" octagon barrel with a bright excellent bore and factory sights.
	The metal surfaces rate excellent, retaining about 98% plus original blue
	finish with few if any discernible blemishes. (126519-549G) [Richard "Stretch" Kennedy Collection]
1588	"Stretch" Kennedy Collection] Thompson/Center Contender Barrel
1500	25-35 Win, 10" octagon barrel with a bright excellent bore and factory
	sights. The metal surfaces rate about excellent, retaining about 98%
	plus original blue finish with the tiniest of handling scratches here or
	there. (126519-549H) [Richard "Stretch" Kennedy Collection]
1589	Thompson/Center Contender "Super 14" Barrel
	7mm TCU, 14" round barrel with a bright excellent bore and factory
	sights. The metal surfaces retain about 98% original blue finish with
	occasional light handling marks worn to silver mostly at the contact
	points. The white paint of the lettering is partially faded, otherwise the
	barrel is largely unblemished and rates near excellent to excellent
1500	overall. (126519-549J) [Richard "Stretch" Kennedy Collection]
1590	Thompson/Center Contender "Super 14" Barrel 35 Rem, 14" round barrel with a bright excellent bore and factory sights.
	The metal surfaces retain about 98%plus original blue finish with a few
	hints of silvering at the contact points. (126519-549K) [Richard "Stretch"
	Kennedy Collection]
1591	Unmarked Thompson/Center Contender "Super 14" Barrel
	17 CF, 14" round barrel with a bright excellent bore, Leupold rings and
	scope mount and a Williams front sight ramp. The barrel appears in all
	respects to be of Thompson/Center manufacture but no markings to that
	effect are present. The metal surfaces retain about 98% original blue
	finish with a few light spots of wear at the receiver contact points and a
	light filing mark at the edge of the muzzle to the left of the front sight.
	(126519-549L) [Richard "Stretch" Kennedy Collection]

### Lot Title/Description

1592	Thompson/Center Contender Barrel
	35 Rem, 12" round barrel with a bright excellent bore and an integral muzzle brake. The barrel is equipped with a very fine walnut forend with
	a few light handling marks, a fiber-optic ramp front sight and a pair of
	scope rings mounted on a T/C one-piece base. The metal surfaces rate
	excellent, retaining about 98% plus original blue finish with very few if
	any handling marks. (126519-549M) [Richard "Stretch" Kennedy Collection]
1593	Thompson/Center Contender Barrel
	44 Magnum, 8" octagon barrel with a bright excellent bore, ported
	muzzle and flat-sided external choke. The barrel is equipped with factory
	front sights and a checkered walnut forend. The metal surfaces rate excellent, retaining about 98% plus original blue finish with the
	occasional tiny handling mark; the forend is in similarly excellent
	condition with only the barest hints of wear. (126519-549N) [Richard
1594	"Stretch" Kennedy Collection] Thompson/Center Contender Barrel
1334	45 Colt, 8" octagon barrel with a bright excellent bore, factory sights,
	ported muzzle and threaded for an external choke (not included). The
	metal surfaces retain about 95% original blue finish with scattered
	handling scratches and areas of dark gray-toned exposed steel on the left side of the barrels below the company address and on the right side
	of the muzzle. (126519-549P) [Richard "Stretch" Kennedy Collection]
1595	Thompson/Center Custom Contender Barrel
	32 H&R Mag, 18" round barrel with a bright excellent bore and a
	Weaver-style base. The base includes one of four screws; the remainder will need replacement. The metal surfaces of the barrel rate near
	excellent, retaining about 98% original blue finish with the occasional
	tiny handling mark or instance of slight thinning. (126519-549Q) [Richard
1596	"Stretch" Kennedy Collection] Unmarked Custom Smoothbore Thompson/Center Contender Barrel
1090	22 shot, 10" professionally sleeved custom round barrel with a bright
	excellent smooth bore and factory sights. The metal surfaces rate very
	fine to near excellent, retaining about 90% original blue with areas
	thinning to gray, occasional light handling marks and a bit of dusky ochre staining on the front sight ramp. Please note that BATFE approval
	must be obtained and the relevant tax stamp must be paid before
	installation or use on any firearm to avoid being in violation of the NFA.
	A great basis for a custom smoothbore Contender that would be well
	suited to varmint hunting. (126519-549R) [Richard "Stretch" Kennedy Collection]
1597	Thompson Center Contender Barrel
	32 H&R Mag, 10" round barrel with a bright excellent bore and equipped
	with a Weaver-style scope base. The metal surfaces retain about 95% original blue finish with some areas toning to plum on the lug. Overall
	the barrel is in excellent condition. (126519-549S) [Richard "Stretch"
	Kennedy Collection]
1598	Custom Thompson Center Contender Barrel 45 Colt/.410 bore., 6" professionally shortened octagon barrel. The
	barrel has been neatly threaded to accept an external "hotshot" choke
	and exhibits a small bulge in the last 1/8" from the threading process
	which is unobtrusive and does not affect function. The barrel is marked
	only for 45 Colt but appears to have been professionally rechambered to accept .410 shotshells as well. The metal surfaces retain about 98%
	plus original blue finish with the occasional tiny handling mark here or
	there and the barrel rates excellent overall. (126519-549T) [Richard
1500	"Stretch" Kennedy Collection]
1599	Colt Grips Assorted Colt handgun grips: (3) pairs for Detective Special revolvers
	comprising (2) pairs checkered walnut square butt grips, one pair
	missing the retention screw, and (1) pair checkered walnut square butt
	extension grips, all in very fine condition with light handling marks; (3)
	pairs for Police Positive revolvers comprising (1) pair of checkered

4000	Duran Orige
1600	Ruger Grips Assorted grips for Ruger handguns: (1) pair of smooth ebony Eagle Grips for a Ruger Blackhawk, in box; (1) pair unmarked smooth walnut grips for a Ruger Mk.I pistol; (1) pair checkered black plastic grips for a Ruger Mk.I pistol. If grips grips in gradulate apaditing. (102510 4041)
	Ruger Mk. I pistol. All grips are in excellent condition. (126519-401X) [Richard "Stretch" Kennedy Collection]
1601	Smith & Wesson Revolver Grips Assorted grips for S&W revolvers: (3) pairs checkered rosewood
	Magna-style (no medallion) J-frame square butt grips, in very fine condition with light handling marks and a tiny chip here or there; (2)
	pairs smooth walnut Magna J-frame round butt grips, in near excellent condition with only very light handling wear and no retention screw; (1)
	pair skipline-checkered rosewood N-frame target square butt grips with ambidextrous thumb/finger rests, in very fine to near excellent condition with a few very light handling marks; (1) pair checkered walnut N-frame
	finger-grooved combat grips in fine condition with some small handling marks; (1) pair hard rubber I-frame extension target hand ejector grips in very good plus to excellent condition with light handling wear
	throughout; (1) right-side diamond-checkered walnut N-frame hand ejector grip in good condition with light to moderate handling wear and a
1602	bit of chipping in spots at the edges of the butt. (126519-401Y) [Richard "Stretch" Kennedy Collection]
1602	Colt Grips Assorted grips for Colt revolvers: (1) checkered maple Herrett's Model R D-frame square butt grips; (1) pair smooth walnut D-frame round butt grips; (1) pair white faux mother-of-pearl D-frame square butt grips
	missing the screw; (1) pair black faux mother-of-pearl and hardwood laminate D-frame square butt grips; (1) pair smooth walnut New Service
	Revolver grips. All are in very fine condition with very light handling marks except the New Service grips which rate very good plus to excellent and exhibit a few small dings on the outer edges of the butt of
1603	the left-side grip. (126519-401Z) [Richard "Stretch" Kennedy Collection] Smith & Wesson K-Frame Grips
1000	Two pairs of grips for Smith & Wesson K-frame revolvers: (1) pair
	checkered rosewood Herrett's square butt grips with speedloader cutout, rating very good plus to excellent with few handling marks and some
	light to moderate discoloration along the backstrap of either grip; (1) pair walnut target grips with thumb and palm rests, rating very good plus to
	fine with several light handling marks. The target grips are also hand-carved with finger outlines, possibly in preparation for part of an
	unfinished customization project. (126519-401AA) [Richard "Stretch"
1604	Kennedy Collection] Target Pistol Grips
	Assorted pistol grips: (1) pair unmarked staghorn grips for a 2nd Series Colt Woodsman in excellent condition; (1) pair unmarked walnut target
	grips for a Smith & Wesson Model 41 with thumb rest and adjustable palm rest, rating very fine with some light handling marks on the
	right-side grip; (1) pair unmarked walnut target grips with thumb and
	finger rests and adjustable palm rest, in near excellent condition with only very light handling marks here or there. (126519-401AB) [Richard
	"Stretch" Kennedy Collection]
1605	Colt Single Action Army First Generation Hard Rubber Grips One pair of First Generation checkered hard rubber grips for the Colt
	Single Action Army revolver featuring a muzzle-facing Rampant Colt in oval and matching numbers "2190" on the inner faces. The grips are in
	excellent condition with very few handling marks except for a tiny
	scratch here or there and a small chip from just behind the toe of the right-side grip. The checkering and logo remain bold and crisp; an
	excellent example overall. (126519-401AC) [Richard "Stretch" Kennedy Collection]
1606	Harrington & Richardson Revolver Grips
	Three sets of unmarked checkered walnut grips, the first a pair of grips for a small-frame top-break or solid frame revolver, the second a
	one-piece grip for a large-frame top-break revolver, the third a pair for a small-frame revolver. All are in very fine condition with only light
	handling marks. (126519-401AD) [Richard "Stretch" Kennedy Collection]
1607	Colt Grips An assortment of grips for Colt revolvers: (1) pair checkered hard rubber
	grips for an Official Police revolver, exhibiting chips at the right-side
	heel, left-side toe and a crack running through the inside face of the left-side grip from the toe chip, the checkering remains crisp and the
	grips rate about good; (1) pair checkered maple D-frame grips with finger grooves, rating very good plus with some finish scuffing and
	handling marks; (1) pair of unmarked smooth walnut New Service
	revolver grips in good condition with light signs of wear and a
	concentration of small handling marks at the butt; (1) pair checkered
	hard rubber New Service revolver grips in good condition with crisp
	hard rubber New Service revolver grips in good condition with crisp checkering, a number of small handling marks on the right-side grip, a large chip at the right-side heel and a small chip at the left-side heel; (1)
	hard rubber New Service revolver grips in good condition with crisp checkering, a number of small handling marks on the right-side grip, a

1608	Smith & Wesson Revolver Grips	1614	Pistol Crossbow Ensemble
	Assorted grips for Smith & Wesson revolvers: (1) pair pau ferro N-frame		Three pistol crossbows of similar size and design along with collection of
	square butt boot grips in excellent condition; (1) pair unsanded walnut		bolts compatible with all three weapons. The first crossbow is a Barnett
	N-frame square butt boot grips which appear to be an incomplete		Trident with a 17" fiberglass prod, 12" pierced steel and fiberglass stock,
	woodworking project, exhibiting no finish and rating excellent with no		adjustable sights (elevation and windage), and checkered black
	discernible blemishes; (1) pair diamond-checkered walnut customized		synthetic pistol grips. The second, labeled only "Mini Cross Bow" on
	grips with thumb and finger rests which appears to have been modified		either limb of the prod, features a 17" fiberglass prod, 11" steel body,
	from an N-frame to fit an unidentified revolver, rating very good plus to		checkered black synthetic pistol grips, stainless steel stirrup and
	excellent with some light handling marks; (1) pair smooth rosewood		stainless steel cocking lever. The third is unmarked and features a 17"
	K-frame round butt boot grips with ambidextrous thumb rests, rating		spring steel prod, 11" black plastic stock, adjustable sights and
	excellent; (1) pair checkered walnut K-frame target square butt grips		checkered black synthetic pistol grips. The retention spacer between the
	with finger grooves, palm rest and thumb rest, rating very good plus to		prod and the stock has been replaced by a wooden wedge which acts in
	excellent with light handling marks at the edges; (1) pair sanded walnut		the same capacity. All crossbows are in very fine to excellent condition
	boot grips which appear unfinished with guideline markings which		with very few if any handling marks and perhaps a bit of light storage
	appear to correspond to a K-frame round butt fit, rating excellent with		wear. The Trident includes the original factory box complete with
	few if any discernible blemishes; (1) pair smooth maple large extension		paperwork, bow string wax and (12) 6" bolts with steel field points,
	target grips with thumb rest, rating about good with areas of light finish		gold-colored anodized aluminum shafts and black plastic fletching.
	wear across the surface. (126519-401AF) [Richard "Stretch" Kennedy		Another (26) bolts of identical description are also included both loose
	Collection]		and in unopened aftermarket packaging. A fine novelty for the arbalist
1609	Revolver Grips		with an eye for the stylish "tactical" aesthetic. (12E6519-476) [Richard

	Assorted handgun grips: (1) one-piece checkered walnut grip with finger grooves ambidextrous thumb/finger rests, possibly for a Dan Wesson revolver or similar, in excellent condition; (1) checkered walnut Harrington & Richardson one-piece grip for an unidentified handgun (likely a target pistol), rating very good with only light handling marks and moderate flaking of the lacquer finish; (1) unmarked smooth walnut one-piece grip with finger grooves for an unidentified handgun (likely a target pistol), rating excellent with few if any blemishes. (126519-401AK) [Richard "Stretch" Kennedy Collection] Colt M1911 Grips Assorted grips for M1911 pistols, some unpaired: (1) pair Herrett's checkered walnut target grips with thumb and palm rests, in excellent condition; (1) pair unmarked rosewood double-diamond checkered grips in excellent condition; (1) pair J. Adams engraved aluminum grips marked "Vermont / 1989" on the inner faces and in excellent condition; (1) faux mother-of-pearl right-side grip in near excellent condition with a few tiny scuffs; (2) brown checkered Coltwood left-side grips with raised Rampant Colt logo in circle, in fine condition with light handling marks; (1) unmarked checkered brown plastic left-side grip, in near excellent condition with a bit of light wear; (1) unmarked checkered walnut		Three Belding & Mull powder measures, detailed as follows: the first is in excellent condition, nearly new-in-box complete with manual, original handle and micrometer charge tube. The second is in fine to near excellent condition, exhibiting some light hints of tobacco-colored tarnish on the brass hopper and a crack across the glass viewing panel of the charging reservoir. The original handle is included as is the micrometer charge tube. The third is in very good plus to excellent condition, the brass hopper toned to a burnished tobacco and the steel surfaces exhibiting scattered areas of silvering at the edges and ochre oxidation on the faces. The plastic viewing panel of the charging reservoir is yellowed by use but otherwise unblemished. The hopper cap has been lost, the micrometer charge tube is present and the handle is a functional ad-hoc replacement. (126519-292A) [Richard "Stretch"

#### Lot Title/Description

	hints of what appears to be remnants of gray patination that has been mostly polished out. The markings remain crisp and the tool exhibits only light handling marks. (126519-457D) [Richard "Stretch" Kennedy Collection]		
1621	Winchester Model 1882 Reloading Tool One handheld Winchester reloading tool for .38 S&W Spl. cartridges. The tool is in very fine condition, polished to bright across most of the surface. Gray-blue hints of original bluing remain and the side faces exhibit a number of small impact divots scattered throughout as well as		
1624	original blue with silvering at the edges and in patches across the surface; some areas of thin ochre-brown staining are also present scattered across the metal. The markings remain crisp and the tool exhibits only very light handling marks. A desirable reloading tool, seldom found in such nice condition. (126519-457C) [Richard "Stretch" Kennedy Collection]		
1020	One handheld Winchester reloading tool for .32 W.C.F. cartridges. The tool is in very fine to near excellent condition, retaining estimated 80%		
1620	and a case transfer adjustment gauge. All items are in very fine to excellent condition; some are unused in original packing and several exhibit light instances of patina which should have negligible effect on functionality. (126519-457B) [Richard "Stretch" Kennedy Collection] Winchester Model 1882 Reloading Tool		
1619	RCBS Reloading Equipment An assortment of RCBS loading supplies including a variety of shell holders in different sizes, primer depth gauges, threaded decapping pins		(126519-42C) [Richard "Stretch" Kennedy Collection]
	mould handles measuring 8", 8 1/2" and 11" in length. The included items are in conditions varying from very good plus to excellent, some in original packaging, most only lightly used and several exhibiting some areas of oxidation or finish wear but few if any blemishes of note besides light storage wear. (126519-457A) [Richard "Stretch" Kennedy Collection]		in a wreath on one side and portraits of Horace Smith and David B. Wesson on the other. The key to the case is also included. The case also features an aperture in the lining of the lid to hold a commemoral edition copy of 125 Years of Smith & Wesson by Roy G. Jinks (not included). Overall an excellent array of commemorative display packaging waiting to be reunited with one of its companion firearms.
	Ideal seating die for .30-30; (2) Lyman ideal pistol dies in .45 Auto comprising one expanding die and one combination decapping and F.L. resizing die; a small assortment of unidentified dies; three pairs of bullet		outer surfaces; the blue velvet interior lining is unblemished. The box likewise in excellent condition with few if any discernible blemishes. T set includes a commemorative coin featuring the Smith & Wesson log
	Mauser, .303, .38-56, .32 S&W (1) Lyman Ideal set of dies for .219 Zipper including seating die, combination decapping, neck resizing and expanding due, priming punch die "T" and shell holder die "J"; (1) Lyman		"Smith & Wesson / 125th Anniversary Commemorative / 1852-1977" the lid of the box is marked "125th Anniversary". The case is in excell condition, exhibiting a scant few light storage and handling marks on
	including .32-40, .30-06, .45 ACP, 250 Savage, .222 Rem, 300 Savage, .220, .257 Rem and 8mm; (5) boxes of Lyman reloading die sets for the Lyman Ideal No. 310 Reloading Tool in calibers .44 Mag/.44 Spl, 11mm		mahogany display case and one un-numbered commemorative facto two-piece cardboard box each for the S&W Model 25 target revolver. The lid of the case is centered by an inlaid brass plaque which reads
	combination of a decapping chamber, bullet seating screw, decapping rod, muzzle resizer, priming chamber and shell expansion chamber. Next, (8) boxed Lyman Ideal shell resizers in a range of calibers	1625	Smith & Wesson Model 25 125th Anniversary Commemorative Displa Case and Box Firearm not included. One Smith & Wesson 125th Anniversary
	.218 Bee and assorted unidentified calibers with labels worn to illegibility. The contents of each box range from handles with no dies to a handle included with partial or complete set of dies in some		cartridges or similar. The boxes are in near excellent to excellent condition with only light handling and storage marks. (126519-131) [Richard "Stretch" Kennedy Collection]
	A collection of reloading hand tools and dies, detailed as follows: (11) boxed Lyman Ideal No. 310 reloading tools, many including die sets in a variety of calibers including .308 Win, .45 Colt, .44 Mag, 300 Savage,	1624	Kennedy Collection] Cartridge Boxes Includes (42) unmarked 50 rd. two-piece plastic cartridge boxes for .2
1618	(126519-292B) [Richard "Stretch" Kennedy Collection] Reloading Tools		on the handles; others retain up to 95% original blue finish with nearly immaculate cavities. All appear immediately serviceable as-is or requ little more than a routine cleaning. (126519-320D) [Richard "Stretch"

	a few light handling marks; a Saeco Tru Speed powder measure with bench stand. The brass hopper is lightly tarnished with a subtle	1623	Kennedy Collection] Assorted Bullet Moulds
	drop tubes and the factory manual; a Lyman orange-painted steel bench stand labeled "J3" and in excellent condition with few if any blemishes; another Lyman Ideal powder measure No. 55 in very fine condition with		the handle and die retain estimated 95% original blue with occasiona flecks of ochre oxidation and the body is toned a soft gray with occasional hints of brownish tone. (126519-457E) [Richard "Stretch"
	A variety of powder measures and related accessories, detailed as follows: a Lyman Ideal Powder Measure No. 55 in excellent condition with few if any blemishes, housed in the original box and including two		One handheld Winchester reloading tool fitted with a knurled blue ste die for .38-55 cartridges. The metal surfaces are in near excellent condition, exhibiting very few handling marks; the blued steel surface

1626	Antique Powder Flasks & Dippers
	Includes (2) brass powder flasks and (4) adjustable powder/shot dipper
	measures. The first flask is Hawksley-marked, measures 6 5/8" in length
	and with a plain body resembling Riling's No. 214. The fixed common
	top features an unlabeled three-step adjustable charger and an outside
	spring; the charger adjusts freely and the spring functions well
	mechanically. The second flask measures 6 1/2" in length with a plain
	body resembling Riling's No. 1330. The screw-off fireproof patent top
	features an unlabeled four-step adjustable charger and an inside spring;
	the charger adjusts freely and the spring functions well mechanically.
	The flasks are each in about very good plus condition; both exhibit light
	to moderate instances of tarnish and patination speckled across the
	surface and the second flask exhibits occasional streaks of dark green
	verdigris. The first flask has a few small handling dings and the second bears a few light handling scratches and a small indentation on one side
	at the neck. The first powder measure measures 5 3/4" in length and
	features a handle of dark hardwood, possibly ebony, and a tin alloy
	adjustable cylinder bowl labeled from 1 1/8 to 2 1/4 oz. of shot in
	increments of 1/8 and 2 1/2 to 5 drams of powder in increments of 1/4.
	The bowl is moderately patinated to a dark mottled gray throughout and
	has been solder repaired at the neck. The adjustment knob appears to
	be stuck in the uppermost (least volume) position and overall the dipper
	rates very good plus. The remaining 3 dippers are of identical design,
	featuring light-colored oak handles and aluminum adjustable bowls
	labeled from 2 1/2 to 4 3/4 drams of powder in increments of 1/4 and 1
	to 2 1/8 oz. of shot in increments of 1/8. The dippers are in very fine to
	near excellent condition with areas of light tarnish and patina and few if
	any other blemishes of note. (126519-466A) [Richard "Stretch" Kennedy
4007	Collection]
1627	Ponsness-Warren Model 800B Size-O-Matic 12 ga. Reloading Station
	One Ponsness-Warren Model 800B Size-O-Matic Reloading Station for
	12 ga. shotshells featuring an eight-station bottom-fed shell plate, powder and shot tubes and primer assembly. The powder tube is broken
	and will need to be replaced; additionally, the primer assembly appears
	to be missing some components and will also require repair or
	replacement. The blued and bright steel surfaces are scattered with
	occasional speckled ochre areas of mild oxidation and the textured
	matte black steel which comprises the structural components is largely
	unblemished. The device appears to function well mechanically and
	should, after a bit of restorative effort, prove an admirable addition to the
	workbench of serious shotshell reloader. (126519-44) [Richard "Stretch"
	Kennedy Collection]
1628	WWI & WWII M1911 Pistol Holsters
	Three Model 1916 holsters for the M1911 semi-automatic pistol: the first
	is marked "G. & K. / 1918 / A.G.", the second "BOYT / -44-" and the third
	"Milwaukee Saddlery Co. / 1942". All are in very fine to near excellent
	condition, exhibiting occasional instances of wrinkling and scuffing,
	some spots of minor fading and overall remaining supple and whole with
	excellent stitching. The brass fittings are patinated to a mostly
	yellow-tinged tobacco color and ringed by strong green verdigris which
1000	should clean easily. (129353-111)
1629	Canadian Hi-Power Holster Stock
	One walnut holster/stock for an Inglis or Browning Hi-Power semiautomatic pistol. The left side of the stock is stamped "S.A. LTD. /
	1945" (Small Arms Ltd.) and the tan canvas carrying strap is marked
	"ZL&T Ltd." (Zephyr Loom & Textile Ltd.). The stock is in excellent
	condition with a very few light handling marks. An excellent accessory in
	beautiful condition for one's Hi-Power pistol. (12B9353-105)

Japanese Type 26 Revolver Holster
One dark russet leather holster for a Japanese Type 26 revolver. The holster is in very fine to near excellent condition, remaining supple and whole with excellent stitching. The brass fittings are slightly tarnished and rings of bright green verdigris are visible where brass meets leather. Cosmetic scuffing is scattered across the leather surfaces and a bit of wear is evident at the hole of the closing flap for the interior cartridge pouch. The cartridge loops within are still in excellent condition and the interior of the holster is near excellent with signs of light use. Overall a very nice WWII-era revolver holster. (129353-102)
German P.08 Holster One 1942-dated black leather holster for a Luger P.08 pistol. The rear face is stamped with the date, manufacturer code "bmd", Waffenamt "WaA645" and "P.08" label. The holster is in near excellent condition with excellent stitching, light crazing on the closing strap and small handling marks here or there across the surface. (129353-106)
Primers & Percussion Caps (2) containers. The first is an unmarked zinc-bolstered wooden canister containing 135 +/- brass Berdan primers in very good plus to excellent condition. The second is a vintage tin of 250 +/- British or Canadian military surplus copper percussion caps in excellent condition, manufactured by (according to the label) Imperial Chemical Industries Limited in Birmingham and originally retailed by Canadian Industries Limited of Montreal. (1X128685-13D)
Saiga Factory Furniture Sets This lot consists of two sets of black injection-moulded Saiga factory stocks and forends. The pistolgrip stocks remain in very good plus condition with numerous light scuffs and other handling marks and their sling swivels are intact. One of the forends rates very good with a small chip in the base which will not be seen once installed in a receiver while the other forend rates near excellent and both have intact sling swivels. (2X237814-13)
Leather Boots One pair of pebble grain black leather boots with suede leather lining. The boots are sized "29,5" and measure 12 1/4" from toe to heel. The soles are black rubber with near excellent treads, only slightly worn. The leather rates very good plus to excellent, remaining supple and exhibiting moderate scuffing but no cracking, loss or separation. (1X127884-35J) [Craig Brown Collection]
Hand Tooled Leather Gun Scabbard One two-piece russet leather scabbard with elegant floral scroll. The two parts comprise a 35" main body and a 16" cover that fits over the butt of a stored gun and overlaps the body. The body hangs from an adjustable russet leather carrying strap with brass buckles and fittings. The cover is closed by a zipper. The leather is in about fine condition, exhibiting some stiffness, areas of crazing and scattered spots of light staining. The straps are moderately crazed with instances of fraying at the edges and white staining over the surface. The zipper of the cover shows gray oxidation over the silvery base metal and spots of reddish brown from contact with the leather. Overall the scabbard rates about very fine with some light storage and handling wear. (1X128937-436) [Cletus Klein Collection]
Tin Types This lot consists of two early tin type portraits. First is a small portrait of a young man in business attire that measures about 2 1/2" x 2" and exhibits cursive writing in pencil on the inside of the cover "John Cline / Amsterdam NY". There is also what appears to be a date of "1848" and "Born in" but the location is not legible. Research shows a Reverend John Cline who was born in 1832 and died in 1904 that was active in Monroe County, NY. This could possibly be an image of the Reverend in his younger years. The top cover of the case is missing as is the bottom portion of the remaining portion. The picture itself is in very good condition with light crackling and crazing throughout. The second picture is larger and measures about 4 3/4" x 3 3/4". The portrait is of a seated couple in their Sunday best with period-typical stern expressions on their faces. The top portion of the case is also missing but the remaining base is intact. The picture is in excellent condition but the couple is not identified. Also included is a spare brass foil border that measures about 3 1/4" x 2 3/4" and has some light tarnish and small specks of oxidation present. (3X48399-4I)

1010	
1640	Tin Type Cases Lot of several partial and complete 19th century tin type cases. The first
	measures 2 1/2" by 3" with brass hinges; the case retains its dark
	maroon satin lining and glass protective screen and rates about
	excellent, exhibiting a crack across the spine below the upper hinge.
	The second measures 3 1/8" by 3 5/8", has lost its binding and closing
	mechanism resulting in separation of the two covers and rates about
	very good, exhibiting flaking and handling wear of the finish; the case
	retains its inner red velvet lining (showing some separation toward the
	upper left corner) and its glass screen, sheet brass frame, and tin backing. The third measures 2 3/8" by 2 7/8" and features a swiveling
	hook latch and canvas spine binding, rating excellent with light scuffing
	at the edges; the interior retains its red velvet lining, glass screen and
	sheet brass frame; the frame is crimped along the bottom edge from
	being removed to extract the original tin type once previously housed in
	the case. Also included is a lone cover measuring 2 3/8" by 2 7/8" with
	yellow paper lining and a swiveling brass hook; apart from the loss of its
	matching half, the cover rates very good to near excellent with a bit of handling wear. These cases may prove useful for housing loose tin
	types or as spare parts for restoration. (3X128817-28H)
1641	Vintage Remington Rolling Block Pistol Holster
	This is a very nice unmarked period leather flap holster with shoulder
	strap for a Rolling Block-style pistol and remains in very good plus
	condition. The exterior shows a few small areas of minor staining, a few
	spots of light cracking and creases. The shoulder strap hardware is nickel-plated and the strap remains intact. The interior is lined with blue
	baize and shows a couple small tears and areas of lost stitching along
	the flap. There are two different studs for the flap depending on the
	length of the grip on the pistol and the holster measures about 14 1/4" in
	overall length. A nice period accessory to accompany your Rolling Block
10.15	pistol. (1X13A9362-48A) [Ed Marron, Jr. Collection]
1642	Lot of S&W Rubber Grips
	This lot contains 4 total: pair (2) of Hogue Monogrips for S&W N frames with square butts, and a Pachmayr Compac Grip for N frames with
	round butts and a Pachmayr Compact Gnp for N frames with square
	butts. All remain in about very good plus condition showing a few minor
	surfaces scuffs from light use. (2X237814-5)
1643	Modified S&W target grips
	These modified smooth walnut K frame square butt target grips feature
	an ejection clearance cut. The panels have been thinned slightly, the frontstrap slimmed with a clearance cut for the toe of the frame. The
	contour of the grips requires a frame with part of the toe removed or the
	frame protrudes out the front. The left panel's silver medallion was
	sanded lightly during refurbishment and shows the brass base metal.
	The factory medallion on the right panel was removed and replaced with
	a New York State Police medallion. They have a have a heavy coat of
	lacquer and show scattered scratches and handling marks. No screw is
1644	provided. (2X89275-7A)
1044	Super Blackhawk Grips This lot includes a pair of smooth walnut grips with silver phoenix
	medallions and stainless grip screw that remain in excellent condition.
	(1X107818-11)
1645	Leather Shot Pouches
	Two patent leather shot pouches. The first measures 5 1/2", holds 2 1/2
	lbs. of shot and features a two-step adjustable charger graduated from 1
	1/4 to 1 1/2 oz. The brown body exhibits light scuffing and crazing across the surface but no loss or flaking. The seams are delicate and
	show a few instances of separation. The D-shaped suspension ring has
	fully detached from the swell of the pouch but is still present and
	included. The charger exhibits a cloudy gray-brown patina over most of
	the surface of the brass and the spring is missing from the lever. Overall
	this pouch rates about good. The second pouch measures 6 1/4", holds
	2 1/2 lbs. of shot and features a steel bishop-marked adjustable
	two-step charger graduated from 1 1/4 to 1 3/8 oz. and a D-shaped
	suspension ring. The light brown body is complete and supple with tight
	suspension ring. The light brown body is complete and supple with tight seams, though it does exhibit moderate crazing over the surface and
	suspension ring. The light brown body is complete and supple with tight seams, though it does exhibit moderate crazing over the surface and light areas of handling wear. The charger is patinated with clouds of dark smoky gray and the pouch rates near excellent overall. (1X12A8937-421C) [Cletus Klein Collection]

1647	Unmarked Primer Extractor / Priming Tool
	This hand held loading tool is marked "44" in the shell holder with "Pat.
	Applied" along the left edge. The metal surfaces are a mix of brown and
	gray having areas of oxidation, and silvering along the high edges. The
	screws show minor slot wear and the tool appears complete in overall
	good condition. (2X108169-44A)
1648	AR-15 Accessories
	This lot includes five items. First is a Samco FAS-2 quick release
	flashlight holder that has a few light handling marks and scratches.
	Second is an adjustable New Frontier Armory butt that has light
	scratches and minor handling marks. Third are two unmarked seven
	hole handguards, one has a metal heat shield the other doesn't and both are in excellent condition. Fourth is a contoured finger rest
	pistolgrip with checkered backstrap that shows light handling marks and
	some ingrained dirt staining. A great spare parts group. (108444-4)
1649	AR Handguard Lot
	This lot consists of three (3) unmarked sets of round style black
	composite handguards for AR-15 style uppers. Two measure 12" long,
	one is equipped with a 5" picatinny rail adapter. The third measures
	about 9" long and has a 4" rail adapter installed. All three are in
1050	excellent overall condition. (2X49375-94D)
1650	AR Handguard Lot
	This lot consists of three (3) unmarked sets of round style black composite carbine length handguards for the AR-15 style uppers. All
	measure about 6 3/4" long and are in excellent overall condition.
	(2X49375-94C)
1651	Shotgun Forends
	(1) forend for a Remington Model 3200 12 ga. over-under shotgun. The
	forend rates about as-new with few if any discernible blemishes; (1)
	checkered walnut forend for a Browning Superposed 12 ga. over-under
	shotgun. The forend is drilled for a reinforcing crossbolt which is not
	present. The wood exhibits some light handling marks and storage wear,
	a 1 3/4" hairline crack extending from the right side of the front end and
	a patch of adhesive residue that should respond to a thorough cleaning. Overall this forend rates very good plus to fine. (128937-429D,E) [Cletus
	Klein Collection]
1652	Driving Gloves
	Assorted gloves, detailed as follows: one pair of black leather gloves
	with gray polyester lining, rating excellent; one pair of soft gray-tan
	calfskin leather gloves with Moka-Calf calf-hair lining, rating excellent;
	one pair of black steerhide leather gloves with black suede and red
	cotton lining, rating about good with some staining and handling wear on
	the fingers; three unmatched black gloves of black leather with knit wool
	lining, black leather with plaid cotton lining, and knitted polyester, each
	rating very good plus. Though only the first pair is labeled with a size (XL), all aforementioned gloves are of similar fit. Also included is one
	pair of vintage women's gloves of finely woven cream-colored cotton
	with mother-of-pearl snap-button clasps, sized about Small. The gloves
	exhibit some age yellowing but otherwise rate excellent.
	(1X127884-35B) [Craig Brown Collection]
1653	WWII German Field Cap
	One soft field cap of dark green wool felt with olive green cotton lining,
	pewter buttons and an embroidered patch depicting the Nazi party eagle
	above a circular emblem of the National Colors in black, white and red.
	The lining is ink-stamped with barely visible markings denoting size "58", date "1945" and manufacturing/issue code which appears to be "H 8A
	Mo". Except for the aforementioned fading and a bit of staining at the
	edges of the lining, the cap is largely unblemished and rates near
	excellent. (12B7884-27L) [Craig Brown Collection]
	Est. 100 - 200
1654	Colt Upper Receiver
	This flat top Colt marked upper with integrated Picatinny rail is in
	7.62x39mm with a 20" CMP barrel that has a 1/12 twist and bright
	excellent bore. The upper has a 15 hole handguard, complete bolt
	assembly, A2 style sight and is in excellent condition. (109473-13) [Col.
	L.H. Miller Collection]

655	Miscellaneous Assorted Grips	1660	WWII German Innsbruck Standschützen Bataillon Uniform
	A variety of handgun grips, most unpaired: (1) checkered walnut		One olive green wool felt uniform comprising a tunic and a pair of

659	(129353-109B) National Rifle Association Junior Division Target Shooting Medals Two NRA Junior Division shooting medals. The first is a brass award comprising a "Sharpshooter" suspension pin, nine bars with blue enamel escutcheons and a circular medal depicting crossed rifles and a target alongside the text "Junior Division / Nat'l Rifle / Association". The brass is bright yellow and rates very fine with occasional light handling marks and a few hints of patina mostly on the reverse. The second is another similar Junior Division medal pin, sans bars, for the "Pro-Marksman"		left-side patch is adorned with three aluminum stars. The left arm is decorated by an embroidered diamond patch depicting a red Nazi party eagle and the text "Standschützen / Bataillon / Schwaz". The lining is stitched with a manufacturer's label reading "Hofschneider / S. Gut / Wien, VI / Gumpendorfer Str. 10". No size label is present and the approximate measurements are as follows: backwaist 14", total back length 26", sleeves 24", neck 17", chest 43". The tunic is in near excellent condition, exhibiting excellent fabric throughout with few if any blemishes except a small hole at the edge of the skirt. The stitching of the liner at the base of the right arm has also separated but, aside from

Lot Title/Description

1665	WWII German Volkssturm Tunic
	One Feldgrau wool tunic with dark gray cotton lining, wool felt collar and
	dark gray cotton lining. The left sleeve is banded by a red and black
	Volkssturm armband. No size label is present and the approximate
	measurements are as follows: backwaist 14", total back length 25",
	sleeves 22", neck 17", chest 39". The tunic is in excellent condition,
	nearly unblemished except for some fading on the inside lining beneath
	the arms and the separation of some threading at the left cuff; as the
	cuff exhibits no damage aside from loss of thread, restoration should be a simple project for a skilled tailor. (12A7884-34Y) [Craig Brown
	Collection]
	Est. 200 - 400
1666	WWII German Volkssturm Tunic
	One green wool felt tunic with olive green satin lining and pewter
	buttons. The lapels are adorned by lozenge-shaped patches of black
	wool felt, each with two aluminum stars; the left sleeve is banded by a
	red and black Volkssturm armband. The ink-stamped size label reads
	"41 (far left), 88 (upper left), 39 (upper right), 76 (lower left), 62 (lower right)"; as many Volkssturm uniforms are converted from pre-existing
	garments, the label may no longer correspond to the current
	measurements. Approximate measurements are as follows: backwaist
	15 1/4", total back length 23 1/4", sleeves 23", neck 15", chest 38 1/2".
	The tunic is in very fine condition with a few spots of wear consisting
	primarily of scattered crazing of the inside lining and occasional small
	holes at the edges of the exterior. Includes a brass badge which pins to
	the front of the tunic. (127884-34Z) [Craig Brown Collection]
1667	Est. 200 - 400
1667	WWII German Bruneck Standschützen Bataillon Tunic One green wool felt tunic with japanned aluminum buttons. The shoulder
	straps are brown fabric bullion with silver-colored stripes. The lapels are
	stitched with dark green felt lozenge-shaped patches: the right-side
	patch is embroidered "II/4". The left sleeve is embroidered with a green
	felt diamond with a red Nazi party eagle and the text "Standschützen /
	Bataillon / Bruneck". The ink-stamped size label on the inside of the
	jacket reads "43 104 44 / 64" in two lines. Overall the coat is in near
	excellent to excellent condition, exhibiting little if any wear except the
	loss of some of the lacquer from the buttons. (12A7884-34AA) [Craig Brown Collection]
	Est. 200 - 400
1668	Post-WWI German Freikorps Uniform
	One uniform comprising a gray tunic with brown polished horn buttons
	and a set of trousers in a slightly lighter greenish-gray. The tunic
	features a single orange shoulder strap (only the right-side strap is
	present) and lozenge-shaped orange felt patches on the lapels; the lapel
	patches are each adorned with a copper bullion band centered by a star
	or flower and a cast aluminum pin in the shape of an edelweiss. The right sleeve is stitched with a green felt patch centered by a brass shield
	with the letters "H / W". A red and white satin bar medal is pinned above
	the left breast pocket; the medal is somewhat frayed and may be
	missing some pieces. No size label is present and approximate
	measurements are as follows: backwaist 14", total back length 24 1/2",
	sleeves 24", neck 16", chest 41". The tunic is in overall very fine
	condition with some small blemishes such as a few tiny holes scattered
	throughout and light staining mostly in the sleeve lining and at the upper
	edge of the collar. Otherwise the fabric is whole, well-kept and with
	excellent stitching. The trousers measure approximately 37" at the waist
	and 30" at the inseam and are in excellent condition with few if any blemishes. (12B7884-34AB) [Craig Brown Collection]
	Est. 150 - 250
1669	WWII German Volkssturm Tunic
	One feldgrau wool tunic with aluminum buttons, black felt lapel patches
	centered by aluminum star pins and an embroidered Nazi party eagle
	above the right breast pocket. Inside the rear of the skirt is a panel
	hand-stitched with the name "G. Schneider / 12". No size label is present
	and approximate measurements are: backwaist 12", total back length 24
	1/2", sleeves 23", neck 14", chest 36". Overall the tunic is in very good
	plus to excellent condition: the button holes are somewhat frayed, one of
	the buttons has been lost from the front and some staining is present at the back of the collar; otherwise the tunic is whole with excellent
	stitching and few other signs of wear. (12A7884-34AC)
	Est. 200 - 400
1670	Circassian Walnut Buttstock Blank
	One walnut stock blank measuring 14 1/2" long, 2 1/2" thick, 7" wide at
	the rear and 5" wide at the forward end. Both side faces are varnished
	and the wood exhibits a beautiful contrasting coffee, tobacco and toffee

1671	
	John Wayne 21" Porcelain Doll by Franklin Heirloom Dolls
	Measuring 21" tall, this porcelain and fabric scale model of renowned
	actor John Wayne dressed in classic Western garb comes complete with
	a display stand and a complete set of accessories including hat, lasso
	and revolver. Duke's head, shoulders, forearms and boots are fine
	porcelain, the remainder of his body composed of stuffed cotton. The
	doll is in excellent condition with little to no discernible wear. A fine
	addition to any collection of John Wayne Hollywood memorabilia.
1672	(12A6654-6) Shooter's Lot
1072	A variety of shooter's accessories including: a wide assortment of bore
	brushes in various sizes, materials and configurations; assorted revolver
	speedloaders and moon clips; various unmarked steel and aluminum
	scope mounts; other miscellaneous related accessories and
	components of the above. Most items are in original packaging, few
	appear more than lightly used. (126056-6A)
1673	Shooter's Safety Equipment
	Two Peltor Tactical 6-S ear protection headsets and four pairs of
	protective safety glasses in the following brands: (1) Uvex, (1)
	Remington, (1) Focus, (1) unmarked. The glasses are in excellent
	condition and appear to be unused or only lightly used. The headsets
	are in very good plus to excellent condition, showing some signs of light
	usage. The microphone padding is somewhat weathered with
	occasional small tears. The audio of one of the headsets is
	nonfunctional and the other functions only on the left side; as the
	headsets do not exhibit any major visible damage, they may simply be in
	need of fresh batteries. Also included are a few loose replacement pads
	for the headsets and an unopened Peltor hygiene kit of replacement
1674	padding. (126056-6B) Holsters & Belt Pouches
1074	Assorted leather goods: (1) Bianchi #129 "Cross Draw" 11" russet
	leather holster; (2) tan leather WorkForce clip-on belt pouches; (1) Allen
	green nylon clip-on shotshell belt pouch; (1) brown leather Bianchi 5"
	clip-on holster; (1) Hunter suede leather rifle cartridge pouch; (1)
	unmarked tan leather holster; (1) Tayra black leather and plastic
	retention holster for a short-barreled revolver. Items range from very fine
	to excellent condition and none exhibit more than a few light handling
	marks. (126056-6C)
1675	Assorted Sights & Scope Rings
	A small arrangement of miscellaneous iron sights and scope rings
	including: (1) Thompson/Center Insta-Sight No. 8500 reflex handgun
	sight; (1) Marble Arms #95 Folding Sporting rear sight; (2) unmarked
	elevation/windage-adjustable Patridge rear sights each on a 1 1/2" base;
	(1) elevation-adjustable Lyman flip-up U-notch rear sight; (2) dovetail
	blade front sights each on a 3 1/4" mount; (1) 4 3/4" Weaver-style scope
	mount; (1) pair Thompson/Center Maxima 1" quick release scope rings;
