

Lot	Title/Description
2000	Custom Danish Rolling Block Sporting Rifle by E. A. Lander 38-55, 28" Douglas round target barrel with a bright excellent bore. The barrel of this rifle retains about 98% polished blue showing some scattered light scratches and handling marks. The barrel is marked on the left side "38-55 Douglas Pr. Gd. Bbl. Fit By E. A. Lander Alexandria, N.H." and is fitted with target blocks. The frame has mostly toned to a mild gray patina and has been very nicely embellished with attractive wide foliate scroll featuring a heavily stippled background. There is a rather tall and rudimentary rear notch sight atop the frame and the breechblock and hammer show hints of fire blue. There are no longer any visible markings but the breechblock is equipped with the standard Danish firing pin actuator. The smooth straight grip walnut buttstock and custom target-style forend remain in very good condition as refinished showing a few scattered light dings, handling marks and a filled sling swivel inlet along the toe line. A nice custom rifle from this New Hampshire gunsmith that will probably be a fine shooter. (13B8927-250) (ANTIQUÉ) (500/700) Est. 500 - 700
2001	Remington Rolling Block New York State Contract Rifle serial #7087 50-70, 36" barrel with a mostly bright very good bore showing some scattered spots of light pitting and strong rifling throughout. The metal surfaces have mostly toned to a mottled gunmetal gray patina showing some scattered cleaned light pitting and some finish from the stocks encroaching on the barrel. The rear sight is a dark brown patina, its screws appear to be replacements and it has been slightly regulated. The smooth walnut buttstock and full-length forend remain in good condition with an added varnish and showing a few thin drying cracks scattered about, a smoothed-over old thin chip at the tip, light dings and handling marks. The New York rack numbers are still partially visible along the butt along with ghostly remnants of inspector cartouches. The patented sling swivels and cleaning rod are intact and the action seems to function well mechanically. (13A8927-237) (ANTIQUÉ) (500/700) Est. 500 - 700
2002	Winchester Model 94 Golden Spike Commemorative Lever Action Carbine serial #GS6738, 30-30, 20" barrel with an excellent bore that appears to be unfired. The barrel, magazine tube, bolt, lever, loading gate, saddle ring, hammer and trigger all retain about 99% plus original blue that has no visible signs of wear. The brass plated receiver, barrel bands and buttplate rate excellent, the receiver is factory engraved and the buttplate has some light tarnish around the edges. The smooth walnut stocks rate excellent, the buttstock has some very nice figure and the commemorative medallion on the right side. The original sights, including the front sight hood remain intact. Included are the original box with picture sleeve, the box is numbered to the carbine. A certificate of authenticity, hang tag, warranty card and related literature are present in the box. The picture sleeve remains in about good condition, the edges have been taped and there are small sections missing. An excellent example of these 1969-vintage commemorative carbines. (4A9484-12) (C&R) (500/700) Est. 500 - 700
2003	Winchester Model 94 Buffalo Bill Commemorative Lever Action Carbine serial #WC88389, 30-30 Win, 20" octagon barrel with a bright, excellent likely unfired bore. The metal surfaces retain 99% plus original blue finish with no visible signs of wear. The receiver features the factory commemorative design engraving. The trigger, loading gate, hammer, saddle ring, forend cap and buttplate retain nearly all of their original silver chrome, the loading gate has a small amount of light flaking that is developing. The smooth walnut stocks rate excellent and have a few very small marks. The straight grip buttstock features the inlaid pewter Buffalo Bill Medallion on the right side of the butt. The carbine is sighted with a raised silver bead front and adjustable sporting rear sight. Included with the carbine is an original rifle box with illustrated cover sleeve that is numbered to another gun. A certificate of authenticity, hang tag, warranty card and related literature are present in the box. The picture sleeve remains in about good condition with several small sections missing from the tattered edges. An excellent example of these 1968 edition commemorative carbines. (4A9484-11) (C&R) (500/700) Est. 500 - 700

Lot	Title/Description
2004	Smith & Wesson Model 1905 Military & Police Double Action Target Revolver serial #147826 38 Special, 6 1/2" barrel with a bright excellent bore. The metal surfaces of this revolver retain about 85% original bright blue showing light high edge and operational wear, gripstraps toning to gray and some mild overall flaking to a pleasant gray-brown patina. The finely-checked service trigger and hammer show lovely case-hardened colors with some very minor silvering and operational wear. The checkered walnut grips with gold S&W medallions are un-numbered and remain in very good plus condition showing some slightly worn points and scattered light dings. The revolver is equipped with a period hard rubber grip adapter that rates near excellent. The original target sights are intact, they could use a little professional attention as the rear blade has a small but moderate ding just to the right of the notch and the front sight is also very slightly bent to the right. The action seems to function well mechanically with solid timing and lock-up. (13A9438-32) (C&R) (500/700) Est. 500 - 700
2005	Remington New Model Navy Cartridge-Converted Revolver serial #41029 38 CF, 7 3/8" barrel with a bright excellent bore. The barrel of this interesting revolver retains perhaps 70% original bright blue showing high edge wear, scattered flaking to gray-brown patina and some light dings throughout. The balance of the metal parts has toned to a mottled gunmetal patina showing some small spots of light pitting, scratches and minor dings. The trigger still retains some lovely bright fire blue and the barrel markings remain crisp. The recoil shield has been milled off and a new one installed with a bushed firing pin in place and a hinged loading gate on its right side. Additionally an ejector rod and housing have been fitted to the right side of the frame in a manner similar to the factory conversions. The gun retains an original conical style dovetailed front sight but also shows an "improved" adjustable rear sight and a filled dovetail 1 1/2" ahead of it. The five-shot cylinder appears to be an entirely new period-made piece. The smooth walnut grips rate very good plus showing some minor edge wear and light dings. There is a slot milled in the bottom of the butt, likely for some manner of shoulder stock. The bolt does not drop properly therefore the cylinder does not rotate. An interesting example of some 19th-century gunsmith's take on the "new metallic cartridge craze" and his efforts to convert an old percussion revolver to take them. (13A9438-42) (ANTIQUÉ) (500/700) Est. 500 - 700
2006	Winchester Super-X Model 1 Trap Semi-Auto Shotgun serial #M86467, 12 ga, 30" ventilated rib barrel choked full with an excellent bore. The metal surfaces retain 99% original blue with factory-rolled engraving on both sides of the receiver and nice engine-turned patterns on the bolt and loading gate. The select walnut checkered pistolgrip Monte Carlo-style buttstock and wide finger-groove forend are near excellent and show very nice shellflame-like iridescent grain patterns with maybe just a touch of added finish. Included is a red, white and blue factory box with non-matching serial number. (22A9576-4) (MODERN) (500/700) Est. 500 - 700
2007	Ithaca Model 37 Featherlight Deluxe Slide Action Shotgun serial #371544333 12 ga, 28" barrel choked modified with an excellent likely unfired bore. The metal surfaces of this 1976-made shotgun retain about 99% original blue with rolled game scenes on the receiver flats. The deluxe-checkered pistolgrip walnut buttstock and forend are excellent, there are just a couple minor signs of handling. The shotgun has a red fiber optic front sight and comes with the original styrofoam insert factory box, it is slightly dilapidated with most of the end label visible. (22A9493-5) (MODERN) (500/700) Est. 500 - 700
2008	Smith & Wesson Governor Double Action Revolver serial #CRM2544, 45 Colt/45 ACP/410 bore, 2 3/4" barrel with an excellent bore. The metal surfaces retain 99% original matte blue with scattered handling marks. The pebble-grain black rubber combat-style factory grips are excellent. The rear sight is integral to the frame and the front sight is a small serrated ramp. (22A9522-69) (MODERN) (MODERN) (500/700) Est. 500 - 700
2009	Kimber Rimfire Target Semi-Auto Pistol serial #K151634, 22 LR, 5" barrel with an excellent bore. The metal surfaces retain 99% original matte black finish with an assembly mark and some scattered blemishes. The checkered black rubber double diamond grips are excellent. The rear sight is an adjustable serrated blade, the front is a Patridge-style blade. Included are three factory magazines and the original factory hard case. (22A9543-78) (MODERN) [Phil Buker Collection] (500/700) Est. 500 - 700

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2010	Smith & Wesson Model 21-4 Thunder Ranch Special Revolver serial #TRS1649, 44 Special, 4 1/8" barrel with an excellent bore. This revolver retains about 99% original blue finish showing a light turn ring on the cylinder. The smooth combat trigger and hammer retain strong but unremarkable case-hardened colors. The smooth rosewood round butt factory grips rate about excellent. The revolver features an internal lock (no key provided), fixed rear sight, half-moon pinned front sight, engraved gold filled "THUNDER RANCH" emblem on the sideplate and the action functions well mechanically. It includes a hardwood presentation case with glass cover that rates about excellent showing scattered scratches and handling marks. The glass on the cover is etched with the Thunder Ranch logo. A limited production of only 225 Thunder Ranch Specials were made. (8A9522-60) (MODERN) [Phil Buker Collection] (500/700) Est. 500 - 700
2011	Colt Pocket Positive Double Action Revolver serial #145129 32 Colt New Police (S&W Long), 2 1/2" barrel with an excellent bore. This 1929-manufactured revolver retains about 93% original blue the majority of loss due to cleaned oxidation on the backstrap, light cleaning on the triggerguard, minor freckling and a faint turn ring. The nitre blue on the trigger and hammer are strong and the sides of the hammer remain bright. The checkered hard rubber factory grips with "COLT" in an oval rate excellent. The grips are correctly numbered to the gun and the action still times and locks up correctly. The original hinged burgundy factory box that is correctly end labeled and numbered to the gun is included. The box rates fair to good with the top cover separated from the box, front lid tearing and wrinkling of the leatherette covering. Also included are a Colt "Special Instructions" pamphlet and the separated bottom of the box's interior label. (8A9560-10) (C&R) (500/700) Est. 500 - 700
2012	Smith & Wesson Model 28 Highway Patrolman Revolver serial #S202291, 357 Magnum, 6" pinned barrel with an excellent bore. An excellent 1959-1960 four-screw Highway Patrolman. The metal surfaces retain about 99% original blue finish with light high edge wear, a few handling marks and light turn ring on the recessed cylinder. The service trigger and .400" semi-target hammer retain bold case-hardened colors. The grips are replacement checkered rubber Pachmayr finger groove "Gripper" grips with open backstrap that rate excellent overall. This gun features a professionally installed later added red ramp front sight, black blade micro adjustable rear sight plus timing and lock-up remain excellent. An excellent example to start up your collection or for shooting. (8A9522-70) (MODERN) [Phil Buker Collection] (500/700) Est. 500 - 700
2013	Smith & Wesson Model 19-5 Combat Magnum Revolver serial #193K056, 357 Magnum, 6" heavy barrel with an excellent bore. The metal surfaces retain about 99% original blue finish with a few light handling marks and a turn ring on the cylinder. The .400" semi-target trigger and .500" target hammer retain vivid case-hardened colors with light operational wear. The stocks are incorrect (designed for Ruger Security Six) checkered rubber Pachmayr Presentation "Gripper" grips that rate about excellent. The revolver features a Patridge front sight, black blade adjustable rear sight and it functions mechanically, although timing is just a hair off on a few chambers. (8A9580-29) (MODERN) (500/700) Est. 500 - 700
2014	Ruger New Model Blackhawk SRM Single Action Revolver serial #600-06723, 357 Maximum, 7 1/2" barrel with an excellent bore. This 1983-manufactured revolver has seen honest use but remains in fine condition. The metal surfaces retain about 92-95% original blue and anodized finishes, the straps of the grip frame showing partial cleaning and applied cold blue plus high edge wear, handling marks and lightly cleaned pitting on the grip frame. The grips are modified smooth walnut Herrett Custom Shooting Master stocks showing a light repair to the toe of both panels, scattered tool marks as the grips have been thinned down and edges rounded. A little judicious sandpaper work will have them looking great. The revolver features a serrated ramp front sight, black blade adjustable rear sight and Super Blackhawk Dragoon style frame. This model was only built for three years before production ceased due to topstrap erosion. Many familiar with the cartridge feel the use of heavy bullets and slow burning propellants alleviate the flame cutting issue. Limited production has left this model in demand by collectors and for a variety of shooting task or conversions. (8A9543-198) (MODERN) [Phil Buker Collection] (500/700) Est. 500 - 700

Lot	Title/Description
2015	Colt Officers Model ACP Semi-Auto Pistol serial #SF10586, 45 ACP, 3 1/2" barrel with an excellent bore. The stainless steel surfaces of this Mark IV Series 80 pistol rate about excellent with scattered light handling marks and a few assembly marks on the frame by the slide stop. The checkered black factory hardwood grips with silver "Rampant Colt" medallions rate very good to excellent showing light diamond point wear. The pistol features three dot sights and includes a single stainless steel magazine. This pistol appears to have seen light use and should make a great carry gun. (8A9551-5) (MODERN) (500/700) Est. 500 - 700
2016	Colt Police Positive Double Action Revolver serial #217835 32 Colt New Police (S&W Long), 4" barrel with a near excellent bore showing a few small scattered areas of oxidized shallow pitting. This first-model revolver rolled off the assembly line in 1926 and remains in excellent condition. The metal surfaces retain about 98% original blue, the loss is mostly due to light scattered freckling with several small areas of pitting on the edge of the topstrap in addition to light handling marks. The smooth trigger and service hammer retain excellent blue with slight staining on the bright sides of the hammer. The unmarked checkered walnut factory grips with silver "Rampant Colt" medallions rate excellent showing minimal wear. The little gun still times and locks up correctly and should make a nice addition for the Colt collector. (8A9551-2) (C&R) (500/700) Est. 500 - 700
2017	Engraved Ruger New Model Super Single Six Revolver serial #62-23043, 22 LR, 5 1/2" barrel with an excellent bore. The metal surfaces of this 1974-manufactured revolver have custom cut-through-the-blue light scroll engraving with punch-dot shading done by an unknown artisan for about 50% coverage. The gun retains about 97% original blue and anodized finishes showing light muzzle wear, limited edge wear and handling marks. The smooth faux ivory factory grips with silver Ruger "feather" Phoenix rate excellent. The gun features a serrated ramp front sight, black blade adjustable rear sight and still functions mechanically. A nice little Single Six for the shooter that wants a little added panache. (8A9314-133) (MODERN) [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700
2018	Early Ruger Old Model .30 Carbine Blackhawk Revolver serial #523 30 Carbine, 7 1/2" barrel with an excellent bore. This first-year production (1968) revolver remains in excellent condition with about 98% original blue and anodized finishes showing edge wear and handling marks. The smooth walnut factory grips with black Ruger Phoenix medallions rate about very good to excellent with scattered handling marks. The revolver features a serrated ramp front sight, black blade adjustable rear sight, collared base pin and the action times and locks up correctly. The transfer bar safety update has not been installed on this gun. An excellent example of an early Blackhawk in 30 Carbine. (8A9314-249) (C&R) [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700
2019	Ruger Old Model Blackhawk Revolver serial #8064 30 Carbine, 7 1/2" barrel with an excellent bore. This 1968-produced revolver remains in excellent condition with about 97% original blue and anodized finishes showing limited edge wear, several light areas of oxidized pitting, a few oxidation blemishes and handling marks. The smooth walnut factory grips with black Ruger Phoenix medallions rate about very good to excellent with scattered handling marks. The revolver features a serrated ramp front sight, black blade adjustable rear sight, collared base pin and still functions mechanically. The transfer bar safety update has not been installed on this gun. An excellent example of a 30 Carbine Blackhawk revolver. (8A9314-248) (C&R) [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700
2020	Ruger Old Model Super Blackhawk Revolver serial #7817 44 Magnum, 7 1/2" barrel with an excellent bore. This third-year production (1961) revolver remains in wonderful condition with about 98% original blue, the frame and grip frame toning to plum with most of the loss due to high edge wear and handling marks. The smooth walnut factory grips with black Ruger Phoenix medallions rate about excellent showing light handling marks. The revolver still times and locks up correctly, the barrel address has the "Ruger Phoenix [in a circle]" and features a serrated ramp front sight and black blade adjustable rear. The transfer bar safety update has not been installed on this gun. A great early production Super Blackhawk. (8A9314-60) (C&R) [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2021	Ruger Old Model Super Blackhawk Revolver serial #25727 44 Magnum, 7 1/2" barrel with an excellent bore. This 1966-manufactured revolver remains in pleasing condition with about 97% original blue, the cylinder starting to tone to plum, small areas of oxidized pitting on the barrel at the muzzle, oxidation stains plus high edge wear and handling marks. The smooth walnut factory grips with black Ruger Phoenix medallions rate about very good to excellent showing a few handling marks. The revolver still times and locks up correctly and it features a serrated ramp front sight and black blade adjustable rear. Although the barrel address has the "Ruger Phoenix [in a circle]" it does not have "INC." after the company name. The transfer bar safety update has not been installed on this gun. An excellent example of an Old Model Super Blackhawk. (8A9314-66) {C&R} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700
2022	Ruger Old Model Blackhawk Revolver serial #45-19969, 45 Colt, 7 1/2" barrel with an excellent bore. This 1972-manufactured revolver has later added factory Dragoon style brass grip frame. The gun retains about 99% original blue with faint edge wear and handling marks. The brass grip frame rates about excellent, it has the correct "MR-3DB" marking cast into the frame and is slightly proud of the frame in areas. The Jay Scott #60 polymer impregnated wood grips rate about excellent showing a few handling marks. The revolver features a serrated ramp front sight, black blade adjustable rear sight, Super Blackhawk wide trigger was added and it still functions mechanically. The transfer bar safety update has not been installed on this gun. A nicely upgraded Old Model Blackhawk. (8A9314-162) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700
2023	Ruger New Model Super Blackhawk Revolver serial #86-32587, 44 Magnum, 4 5/8" barrel with an excellent bore. This revolver features an XR-3 grip frame and retains about 99% original blue and anodized finishes showing a light turn ring on the unfluted cylinder and a few handling marks. The smooth walnut factory grips with silver Ruger Phoenix medallions rate excellent with a few handling marks. The gun has the usual Super Blackhawk features but lacks the square-back Dragoon frame. The gun appears to have seen only light use and should make a great all-around revolver. (8A9314-289) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700
2024	Ruger New Model Super Blackhawk Revolver serial #86-49337, 44 Magnum, 5 1/2" barrel with an excellent bore. This revolver features an XR-3 grip frame and the stainless steel surfaces rate excellent with scattered light handling marks. The grips are unmarked aftermarket checkered rosewood stocks that rate about excellent. The gun has all the standard Super Blackhawk features but lacks the square-back Dragoon frame. The gun has seen only light use and should make a great all-around field and range gun. (8A9314-292) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700
2025	Ruger Old Model Blackhawk Convertible Revolver serial #31-42146, 357 Magnum/9mm, 6 1/2" barrel with an excellent bore. This last year production (1973) Old Model revolver remains in excellent condition but does need mechanical attention. The metal surfaces of the gun and spare cylinder retain about 99% original blue and anodized finishes with light turn rings and scattered handling marks. The replacement Ajax #31 smooth faux ivory grips rate excellent. The gun features a serrated ramp front sight, black blade adjustable rear sight, type IV aluminum ejector rod housing with straight slot, ejector with flat faced round thumb piece and both cylinders are numbered to the gun. The gun functions but timing and lock up are in need of attention as the cylinder often fails to index and lock properly. The gun includes a hinged yellow and black factory box with later added labels and a manual. The transfer bar safety update has not been installed on this gun. (8A9314-237) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700

Lot	Title/Description
2026	Ruger New Model Super Single Six Convertible Hunter Revolver serial #264-56709, 22 LR/22 Magnum RF, 7 1/2" solid full-length rib barrel with an excellent bore. This revolver has many factory-features the handgun hunter or shooter will appreciate. The stainless steel surfaces of the firearm and spare cylinder rate excellent with light handling marks. The smooth factory laminated wood grips with silver Ruger Phoenix medallions rate excellent. The revolver features a heavy solid rib on the barrel cut for Ruger scope rings, interchangeable brass bead front sight, "V" notch black blade adjustable rear sight and it functions mechanically. It includes a factory hard case correctly end labeled and numbered to the gun, spare unfluted 22 Magnum RF cylinder, a pair of 1" Ruger scope rings, fired case, manual and paperwork. All you need to do is add a long eye relief scope and you will soon be dropping "bushy tails" out of the treetops. (8A9314-319) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700
2027	Colt Second Generation Model 1862 Pocket Navy Percussion Revolver serial #48796 .36 cal., 5 1/2" octagon barrel with an excellent bore. This revolver remains in excellent condition nicely presented in a wooden display case with accessories. The metal surfaces of the barrel and cylinder retain about 99% original blue, the barrel showing a tiny spot of pinprick pitting, a light turn ring and crisp cylinder scene. The frame, hammer and loading lever retain beautiful case-hardened colors with a few minor oxidation stains. The triggerguard strap and backstrap retain 99% original silver plate. The smooth one-piece walnut factory grip rates excellent. All the appropriate parts are correctly numbered to the gun and it still times and locks up correctly. The French fit gold velvet lined display case has a brass medallion with bust of Sam Colt on the cover, flush mounted brass lock and rates about very good to excellent showing scattered handling marks. Included in the case is a powder measure, blue finished iron conical/round ball mould, combination tool and metal percussion cap tin but no key is provided for the lock. An elegantly displayed Pocket Navy. (8A9622-19) {ANTIQUÉ} (500/700) Est. 500 - 700
2028	Colt Second Generation Model 1862 Pocket Navy Percussion Revolver serial #50716 .36 cal., 5 1/2" octagon barrel with an excellent bore. This revolver remains in excellent condition nicely presented in a wooden display case with accessories. The metal surfaces of the barrel and cylinder retain about 99% original blue with the only loss due to a light turn ring. The frame, hammer and loading lever retain all of their beautiful case-hardened colors. The triggerguard strap and backstrap retain 99% original silver plate. The smooth one-piece walnut factory grip rates excellent. All the appropriate parts and the grips are correctly numbered to the gun, the cylinder scene remains crisp and it still times and locks up correctly. The French fit gold velvet lined display case has a brass medallion with bust of Sam Colt on the cover, flush mounted brass lock and rates about very good showing scattered handling marks. Included in the case is a powder measure, blue finished iron conical/round ball mould, combination tool and metal percussion cap tin and a skeleton key is provided for the functioning lock. A stylishly exhibited Pocket Navy. (8A9623-1) {ANTIQUÉ} (500/700) Est. 500 - 700
2029	Ruger New Model Blackhawk Convertible Revolver serial #51-37685, 30 Carbine/32-20 W.C.F., 7 1/2" barrel with and excellent bore. The spare cylinder is an aftermarket non-factory addition that should add considerable versatility to the gun. The metal surfaces retain about 99% original blue and anodized finishes with a few minor handling marks. The aftermarket cylinder has toned to plum but is numbered to the gun and is marked with a "B [in a shield]". The smooth factory hardwood grips with silver Ruger Phoenix medallions rate excellent. The revolver includes a yellow hinged factory box end labeled to the gun but not numbered. It should be a handy field and range gun. (8A9314-246) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700
2030	Browning B-78 Falling Block Rifle serial #4504W37, 25-06, 26" octagon barrel with an excellent bore. The metal surfaces retain about 97-98% original blue showing some light wear around the muzzle, handling marks and very light silvering along some of the high edges. The checkered walnut stocks rate about very good and have a few light dings and other light handling marks including some light flattening to some of the checkered points. The buttstock has a small crack forming on the left side of the wrist and has some areas of minor discoloration to the factory lacquer around the checkering. The stocks feature a schnabel tipped forearm and Monte Carlo style buttstock with silver grip cap and a solid recoil pad, both have factory quick-detach swivels and some very nice figure. There are no provisions for sights, a set of factory bases have been mounted and include a set of 1" rings. A very nice example of these classic sporting High-Wall rifles that is in a terrific long-range medium game cartridge. (4A9560-27) {MODERN} (500/700) Est. 500 - 700

Lot	Title/Description
2031	Custom Remington Model 1903A4 Bolt Action Rifle serial #3415815 30-06, 23" modified military barrel that has an excellent bore. The metal surfaces retain about 90% of a commercially applied blue finish that is evenly thinning and flaking to a mottled brown and has other light handling marks and some specks of fine surface oxidation throughout. The bolt features a nicely shaped handle and is mostly mottled gray, the underside is electric pencil numbered to the receiver. The custom walnut checkered Monte Carlo style sporting stock rates near excellent and has some light dings and a few small depressions in the checkering. The stock features a black polymer forend tip, a steel gripcap and has a Niedner style checkered steel buttplate. The forearm has a diamond shaped checkering pattern, and a set of deluxe style swivel bases are set into the wood. There are no sights and a Redfield one-piece base is mounted to the receiver. The front of the mount has been shimmed and it holds a Redfield Widefield 4X rifle scope. The scope features the wide "TV view" reticle and has excellent optics. A commercial safety has been installed. Overall this is a very nice custom sporting rifle that was built on a very desirable Remington "A4" action. This rifle could either be restored to its former military configuration or simply enjoyed as it sits. (4A9511-16) (MODERN) (500/700) Est. 500 - 700
2032	Smith & Wesson M&P15 Semi-Auto Carbine serial #93190 300 Whisper, 16" barrel with flash hider and a 1:7.5" rate of twist that is marked "300 WHISPER/300 AAC BLACK OUT" and has an excellent bore. This "optics-ready" carbine features the Real Tree APG factory camo finish on the upper and lower receiver and the round carbine length handguards and pistolgrip. The camo has a few small wear marks, the remaining metal surfaces retain about 99% of their original matte blue. The buttstock is a fixed ACE skeletonized buttstock and sling swivels are attached at the butt and at the bottom of the gas block. Both the gas block and the flattop upper receiver feature picatinny mounts, there are no sights present. There is no magazine present either, but replacements are plentiful and affordable. An excellent example awaiting your choice of tactical or sporting optics. (4A9543-3) (MODERN) [Phil Buker Collection] (450/650) Est. 450 - 650
2033	Thompson/Center TCR '87 Hunter Single Shot Rifle serial #14705 223 Rem, 23" barrel with a bright, excellent bore. The metal surfaces retain about 99% original polished and matte blue finishes that has a few light handling marks throughout. The frame is magnum marked and has the T/C logo on its belly. The checkered walnut stocks rate excellent and have a few light dings and other light handling marks. The buttstock is fitted with a black Uncle Mike's recoil pad. The barrel is equipped with a set of factory sights and it tapped for mounts. An excellent example overall that features the more rugged magnum frame. (4A9543-170) (MODERN) [Phil Buker Collection] (500/700) Est. 500 - 700
2034	Custom Winchester Model 1885 Low Wall Falling Block Rifle 22 Hornet, 26 3/8" unmarked barrel with a bright, excellent bore. The metal surfaces retain about 95-97% of a maker applied blue finish that shows some loss near the muzzle and has some light handling and edge wear throughout. The frame features some basic foliate pattern engraving with line borders, likely done at the factory, and has a loop style lever. A few of the screws have some minor slot damage and there are a few small pits under the restored finish. The custom "deluxe" style checkered walnut stocks rate near excellent and feature a beavertail forearm and pistolgrip buttstock which has a woodgrain hard rubber buttplate and contrasting wood gripcap. The wood has some light dings and other light handling marks, there is a small crack along the upper tang on the right side, otherwise the stocks appear to be sound. The barrel is tapped for a front sight and has a rear dovetail that has been filled with a blank. The barrel has also been tapped for target blocks and has a one-piece Leupold base installed. The base holds a matte finished Nikon Prostaff 3-9X40 rifle scope that has been mounted via a set of engraved Millett rings. The scope features a duplex reticle and has bright excellent optics. Overall this is a very nice smallbore, single-shot sporting rifle that is chambered in a terrific caliber and should prove to be lots of fun either target shooting or pursuing varmints. (4A9522-34) (MODERN) [Phil Buker Collection] (500/700) Est. 500 - 700

Lot	Title/Description
2035	American Percussion Combination Gun by Bradford .40 cal rifled x 20 ga smoothbore, 30" barrels with oxidized bores and the shotgun barrel is choked full. The barrels are a dark brown patina with scattered spots of oxidation and light pitting, a few light scratches, and areas of thinning around the breech. The lockplates, hammers, and upper tang are a gray patina with light oxidation staining, specks of old oxidation, light impact marks on the left side lock plate, and small chips to the edge of the nipple cap splash guard on the left side. The triggerguard and buttplate appear to be brass, and are lightly tarnished with a few light dings and scratches the majority of which are concentrated on the buttplate. The walnut stock is in very good condition with two repaired 8" cracks through the forend, a few small repaired cracks at the rear of the upper tang and lockplates, the wood around the lockplates somewhat shy, scattered handling marks, and a finish has been added. The stock features a raised cheekpiece on the left side which features an inlaid silhouette of what appears to be a wild boar. The lockplates are lightly engraved with nature scenes featuring two game birds, and the hammers are lightly foliate scroll engraved; the left side lock is also marked "Golcher". The gun is sighted with a blade front sight and a semi-buckhorn rear sight that is missing the elevator. The right-side hammer is slightly loose and fires on half-cock, and therefore requires mechanically attention, and the left hammer skirt is chipped. A wooden ramrod is included with the gun. A solid gun that is a good candidate for a restoration project. (14A9510-17) (ANTIQUÉ) (400/600) Est. 400 - 600
2036	Custom Peabody Falling Block Rifle 43 Spanish, 24" shortened barrel with a bright excellent bore. The barrel retains about 75% reapplied blue with streaking and thinning along its length, scattered light scratches, and spots of old oxidation concentrated toward the muzzle. The frame has largely toned to gray with very faded case color present on the sides and scattered specks of oxidation staining. The plain straight grip walnut stock is in very good plus condition as cleaned with a few light chips near the rear sling swivel, large rough patches near the hard rubber buttplate, and scattered light dings; the forend has been shortened to 13" overall and the buttstock has been cut to a length of pull of 12 1/2". The remains of cartouche is stamped on the left side of the wrist. The left side of the receiver is crisply marked "PEABODY'S PAT. / JULY 22, 1862 / MAN'F'D BY / PROVIDENCE TOOL CO. / PROV. R. I.", the top of the receiver and barrel are stamped with "(crown) / V" proofs, and multiple small parts are marked with assorted crisp letters; a few of the screws show light slot damage. The top of the hammer spur has been bobbed, the barrel has been dovetail cut and a globe front sight with no insert added, but the original leaf rear sight is intact. The lock remains strong and the rifle appears to function well mechanically. (14A8927-129) (ANTIQUÉ) (400/600) Est. 400 - 600
2037	Unmarked Early Remington No. 1 Military Rolling Block Rifle serial #3751 58 CF, 39" barrel with a good lightly oxidized bore with light pitting and evident rifling. The metal surfaces of the rifle have been cleaned to a pewter patina with light pitting throughout, scattered specks of oxidation, and light oxidation staining on the barrel bands and barrel above the upper band. The plain walnut stock is in very good condition as cleaned with a repaired 5" crack in the forend where it meets the frame, a cleaned chip along the ramrod channel below the upper barrel band, scattered light dings and scratches, and an added finish. The buttstock is marked with very light US cartouches on the left and right sides of the wrist where it meets the frame, which are unfortunately illegible, the left side of the buttstock has "C. / A." hand carved in large letters near the buttplate, and the right side has "A. C." similarly hand carved in large letters. The only markings present on the metal surfaces of the rifle are a "C" on the upper barrel band, a "U" on the lower barrel band, and a faint "AT" on the upper tang which is likely the remains of the patent information. The rifle appears to be a "Transformed" model, meaning that it was converted from an earlier muzzleloading rifle to Rolling Block configuration; the breechblock appears to be the standard flat-base breechblock. The action appears to function well mechanically. The rifle is sighted with a u-notch rear sight with a flip-up aperture sight positioned just ahead of the frame, and a military barleycorn front sight that has worn and rounded down to the base. The rifle retains sling swivels at the triggerguard and middle barrel band, and a slotted-head ramrod is included. An interesting rifle that will make a good addition to an antique arms collection. (14A8927-269) (ANTIQUÉ) (500/700) Est. 500 - 700

Lot	Title/Description
2038	Winchester Model 1894 Semi-Deluxe Saddle Ring Carbine serial #319445 32-40, 20" barrel with a very good plus bore with areas of frosting. The metal surfaces of the carbine retain about 70% original blue with the receiver having been lightly cleaned to gray along the underside and the raised flats and spots of original blue remaining on the left and right sides and in the protected areas; light oxidation staining is present on both sides of the receiver. The barrel has even thinning of the blue along its length, scattered specks of oxidation and handling marks. The upper barrel band has light wear and oxidation, the lower barrel band has been cleaned to bright, and the lever has faded to gray with light oxidation staining and a few traces of case color. The pistolgrip walnut stock and forend are in about excellent condition as cleaned with a small crack at the corner of the tang, a few light handling marks, and an added high gloss finish; the pistolgrip features a "WINCHESTER REPEATING ARMS CO." marked gripcap and the buttstock is fitted with a curved steel buttplate with specks of oxidation. The markings on the carbine remain mostly crisp with the barrel address having softened slightly. The carbine is sighted with a blade front sight and the rear sight has been removed, with the dovetail in the barrel remaining empty. A few of the screws show light slot damage. The saddle ring and stud remain intact. A nice 1906-made Winchester with an uncommon pistolgrip stock. (14A8958-123) (C&R) (500/700) Est. 500 - 700
2039	U.S. Model 1903 Bolt Action Rifle by Springfield Armory serial #567222 30-06, 24" 9-42 dated Sedgley barrel with a bright very good plus bore with scattered light frosting but strong rifling. The rifle retains about 80% arsenal blue with flaking of the blue on the receiver, wear on the rear sight base, and the noscap has toned to a dark gray; the bolt with traces of blue. The scant walnut stock is in very good plus condition with a light abrasion on the forend between the lower barrel band and noscap and scattered handling marks consistent with the age. The stock is crisply marked with a "AAT" inspector's cartouche on the left side above the trigger, "W W / (upside down) A" just behind the receiver, a crisp "S" in the area beneath the magazine cutoff, and "P" proof on the pistolgrip. Small five-pointed stars are stamped at the toe and in front of the triggerguard, and "MN02706EM08818" is lightly hand scratched into the left side of the stock butt. The barrel is marked "U.S.M.C." above the barrel date and Sedgley's proof, and the receiver and barrel markings are highlighted in white ink. The rifle retains the original blade front sight and Model 1905 Type 2 rear sight, and the front sight features a detachable hood. Low numbered 1903s are sold as collectibles only not to be loaded or fired, and this one is an interesting example used in WWII. (14A9544-28) (C&R) (500/700) Est. 500 - 700
2040	U.S. Model 1903-A3 Bolt Action Rifle by Remington serial #3823686 30-06, 24" 5-43 dated Remington barrel with a dark oxidized bore showing evident rifling. The rifle retains about 97% arsenal reapplied parkerized finish with light wear on the high edges and contact points, scattered handling marks, and pinprick pitting beneath the finish. The straight grip walnut stock is in very good plus condition as lightly cleaned with scattered handling marks and imperfections in the added finish. The stock shows the barest hint of a circled "P" proof behind the triggerguard, with a slightly more visible "H" stamped above it and Remington stock proofs in front of the magazine. The bolt and noscap are properly "R" marked, the front sight protector is in place on the rifle and marked "C64157-4", and the barrel is import marked by CAI between the noscap and front sight. The rear sight adjustments are still functional. The barrel has been counterbored about 1 1/2" back from the muzzle. A nice rifle for the beginning collector. (14A9544-211) (C&R) (400/600) Est. 400 - 600
2041	U.S. Model 1903-A3 Bolt Action Rifle by Smith Corona serial #3667593 30-06, 24" 4-43 dated 6-groove Smith Corona barrel with a bright excellent bore. The rifle retains about 99% arsenal applied parkerized finish with slight wear on the contact points and scattered previous light pitting beneath the finish on the triggerguard and floorplate. The scant walnut stock is in excellent condition as lightly cleaned with a few scattered handling marks and an added finish; the stock is fitted with a checkered steel buttplate retaining about 95% reapplied blue. With the exception of a partially faded "V" marked below the magazine cutoff, the stock is otherwise unmarked. The bolt is "R" marked, excepted for the extractor which is marked "S", and the bolt body has been hand scratched with what appears to be a "7". The magazine cutoff and noscap are also "R" marked, and the receiver and barrel markings remain crisp; the front sight protector is marked with the Sedgley logo. Included with the rifle is an oiler. An attractive arsenal reconditioned 1903A3 that should shoot well. (14A9544-12) (C&R) (500/700) Est. 500 - 700

Lot	Title/Description
2042	U.S. Model 1917 Enfield Bolt Action Rifle by Eddystone serial #1217091 30-06, 26" 4-18 dated Eddystone barrel with a very good plus bore with frosting in the grooves but strong rifling. The rifle retains about 98% arsenal parkerized finish with light wear on the contact points and high edges and a few light handling marks. The beech stock is in excellent condition as cleaned and with an added finish, with a few light handling marks. The stock is unmarked with the exception of a cursive "M" lightly marked on the stock tip. The rear sight, safety, front sight, stack swivel, and upper sling swivel are correctly marked "E" for Eddystone manufacture, and the bolt is marked "W" for Winchester manufacture. A lightly faded flaming ordnance bomb proof is on the left side of the receiver, and a still crisp "(eagle head) / 262" proof is stamped on the bolt release. A few of the screws show light slot damage. An attractive M1917 Enfield reworked for WWII with a curious stock. (14A9544-268) (C&R) (500/700) Est. 500 - 700
2043	U.S. Model 1917 Enfield Bolt Action Rifle by Winchester serial #136541 30-06, 26" 1-18 dated Winchester barrel with a very good plus bore with light frosting throughout but strong rifling. The rifle retains about 95% arsenal parkerized finish with scattered specks of new and old oxidation, light wear on the high edges and contact points, and a few light handling marks. The walnut stock is in very good condition as lightly cleaned with two small cracks in the handguard at the rivets, scattered handling marks consistent with age, and an added finish. The left side of the stock is marked with a boxed "3GM-K" cartouche above the trigger, a high illegible U.S. "(eagle head)" proof behind the triggerguard, and a faded U.S. "(eagle head)" proof forward of the magazine floorplate; the tip of the stock is correctly "W" marked. The left side of the receiver is marked with crisp "(flaming bomb)" ordnance proof and a circled five-point star, and the marked parts are of mixed Remington, Eddystone, and Winchester origin. The rifle has previously been stored in cosmoline, and would be well served with a thorough cleaning. An altogether solid M1917 Enfield that should shoot well. (14A9544-280) (C&R) (500/700) Est. 500 - 700
2044	U.S. Model 1903 Bolt Action Rifle by Rock Island Arsenal serial #251074 30-06, 24" 10-44 dated High Standard barrel with a bright very good plus bore with scattered spots of light pitting but strong rifling. The receiver of the rifle is a mottled dark gray-brown patina, the bolt sleeve has a casehardened patina with the remainder of the bolt being parkerized, and the barrel shows a gray parkerized finish with light surface oxidation near the muzzle. The walnut stock is in very good condition as lightly cleaned with an old small chip and dings on the left side of the rear sight base, scattered handling marks consistent with age and use, and an added finish. The stock is marked with a faded circled "P" proof behind the triggerguard, as well as a still fairly crisp "J" stamped into the recess beneath the magazine cutoff. The markings on the receiver and barrel remain crisp, the bolt handle is lightly marked "BF", the rear sight assembly is "R" marked, and a faded "P" proof and ordnance proof are present on the underside of the barrel between the noscap and front sight. The windage and elevation adjustments on the rear sight function mechanically, and the front sight is fitted with a detachable hood which shows light high edge wear. Low numbered Model 1903 rifles are sold as collectibles only, and no thought should be giving to loading or firing this arm. A solid example of the low numbered 1903 rifles pressed back into service during the trying days of WWII. (14A9544-212) (C&R) (500/700) Est. 500 - 700
2045	U.S. Model 1903 Mark I Bolt Action Rifle by Springfield Armory serial #1114359 30-06, 24" 11-44 dated High Standard barrel with a bright very good plus bore with light frosting throughout but strong rifling. The receiver of the rifle has toned to dark gray patina with light wear on the high edges, and the barrel, bolt assembly, triggerguard and floorplate retain about 98% arsenal parkerized green-gray finish with a few light wear marks and a 1/2" area at the top of the bolt handle that has been cleaned bright. The Type C walnut stock is in very good plus condition as lightly cleaned with light chipping around the heel of the buttplate, and scattered light handling marks consistent with age and use. The stock is deeply stamped with a "G" ahead of the floorplate, "T" between the pistolgrip and the rear sling swivel, and "8335" on the right side of the stock butt, parallel to the buttplate. The receiver and barrel markings remain crisp, "4262" has been etched on the cleaned area of the bolt handle, and a few of the small parts including the magazine cutoff, sling swivels and noscap are "R" marked. The rear sight adjustments function, and the receiver is correctly modified on the left side for use with the Pedersen device. Included with the rifle is a certificate of authenticity from the CMP, and a metal oiler stored in the stock butt. A solid arsenal reworked Model 1903 Mark I. (14A9574-97) (C&R) [James Traynor Collection] (500/700) Est. 500 - 700

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2046	U.S. Model 1903-A3 Bolt Action Rifle by Remington serial #3482172 30-06, 24" 2-43 dated Remington barrel with a very good bore with scattered light pitting throughout but with strong rifling. The rifle retains about 98% arsenal gray-green parkerized finish with a few spots of light wear on the high edges, a few light handling marks, and scattered light pitting beneath the finish. The bolt, follower, barrel bands, and sling swivels are blued showing light to moderate wear on the bolt and follower, the lower barrel band has been cleaned bright with traces of blue remaining, and a few scattered light handling marks on the upper band and sling swivels. The walnut straight grip stock is in excellent condition as lightly cleaned with scattered light handling marks and an added finish. A faded ordnance wheel and lightly faded boxed "FJA" inspector's cartouche are marked on the left side of the stock above the trigger, and a partially faded circled "P" proof is marked behind the triggerguard; lightly faded factory marks are found just ahead of the magazine floorplate. The front sight, rear sight, noscap, magazine cutoff, bolt assembly, and sling swivels are all "R" marked for Remington manufacture. The front sight blade is "C" marked, and the rear sight adjustments function easily. An attractive 1903-A3 that will likely shoot well. (14A9544-10) {C&R} (500/700) Est. 500 - 700
2047	U.S. Model 1903-A3 Bolt Action Rifle by Remington serial #3754144 30-06, 24" 4-43 dated Remington Arms barrel with a bright very good plus bore with light frosting a few spots of light pitting and strong rifling throughout. The receiver and barrel of the rifle retain about 98% arsenal applied parkerized finish with light wear on the front sight base and at the muzzle. The remaining metal surfaces and bolt retain about 80% arsenal applied blue with light wear on the high edges and contact points, specks of oxidation on the noscap, and scattered light oxidation staining; the checkered steel buttplate shows light oxidation staining with remains of blue finish on the heel. The straight grip walnut stock is in very good plus condition as lightly cleaned with light abrasions on the left side of the stock butt, a 3/8" crack at the heel of the stock, and scattered light handling marks. The stock is marked with faded but still decipherable "RA (ordnance wheel) FJA" on the left side of the stock above the trigger and a partially faded circled "P" proof behind the triggerguard. The magazine cutoff, sling swivels, noscap, and front sight base are properly marked "R", and the front sight blade is marked "C". The rear sight adjustments function well mechanically. An attractive mid-war produced Model 1903-A3 rifle that should shoot well. (14A9544-14) {C&R} (500/700) Est. 500 - 700
2048	Winchester Model 94 XTR Big Bore Lever Action Carbine serial #BB003125, 375 Win, 20" barrel with an excellent bore. The metal surfaces retain about 98-99% original blue with some scratches and small blemishes. The checkered straight-grip walnut buttstock and forend are excellent. The rear sight is an open top sporting, the front sight is a hooded bead. Included is the original factory box. (22A9432-4) {MODERN} (500/700) Est. 500 - 700
2049	Ruger New Model Blackhawk Arizona Rangers Commemorative Revolver serial #46-44409, 45 Colt, 4 5/8" barrel with an excellent bore. Ruger produced 304 of these fine revolvers for the Arizona Rangers in 1979 and it is purported that all but 50 guns went to individual Rangers, the rest sold only to gun shops in Arizona. This one remains in first-rate condition with about 99% original blue and anodized finishes with a very light turn ring on the cylinder and the stainless steel grip frame rates excellent. The replacement laminated walnut factory grips with silver Ruger Phoenix medallions rate near excellent with a few scratches. The top of the barrel has "ARIZONA RANGERS" in gold-filled letters with a gold-filled Arizona Ranger logo showing a Ranger on horseback with mountains in background, enclosed in the outline of the state on the topstrap plus the number "140" on the butt. It has the standard Blackhawk features of a serrated front sight, black blade adjustable rear sight and still functions mechanically. The gun appears to have seen little if any use and will make a great limited-edition hard-to-find collectible. (8A9314-142) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700

Lot	Title/Description
2050	Ruger New Model Super Blackhawk Limited Edition IHMS Silhouette Revolver for The Ruger Collectors Association serial #83-80497, RCA #497, 44 Magnum, 10 1/2" barrel with an excellent bore. This limited-edition gun was restricted to 500 units and remains in wonderful condition. The metal surfaces retain about 99% original blue and anodized finishes with a faint turn ring and the frame starting to tone to plum. The smooth walnut factory grips with silver Ruger Phoenix medallions rate about excellent. The topstrap is engraved with a 200-meter silhouette ram and "IHMS / SILHOUETTE / 500" and the butt has another ram with "497". It features a serrated ramp front sight and black blade adjustable rear sight. It includes a French fit mahogany case modeled after the original Super Blackhawk mahogany presentation cases featuring a red velvet lined cover and a yellow enameled brass IHMS medallion. The case and medallion rate excellent. Also included are the original factory hinged box and shipping sleeve that is correctly end labeled and numbered to the gun, Ruger Collectors Association Certificate of authenticity, manual and paperwork. This gun appears to have seen little if any use. A lovely gun for the collector, IHMS shooter or hunter. (8A9314-294) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700
2051	Custom Ruger New Model Super Blackhawk Revolver serial #84-43550, 44 Magnum, 7 1/2" barrel with an excellent bore. This lovely 1981-made "Super" has been professionally refinished with the metal surfaces retaining about 99% polished deep blue, almost black finish, the grip frame and ejector rod housing gold plated to accent the blue. The trigger and hammer are in-the-white and have been engine turned with minor operational wear. The later added Eagle stag grips rate excellent. The gun retains all of its usual features including serrated ramp front sight, adjustable rear sight and functions mechanically. The custom finishes have turned this powerhouse into a real "eye-catcher" for a shooter or collector. (8A9314-129) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700
2052	Reising Arms Target Automatic Semi-Auto Pistol serial #2762 22 LR, 6 3/4" barrel with an excellent bore. The metal surfaces retain about 97% original blue with scattered scratches, high edge wear, an assortment of light dings on the frontstrap and freckling on the backstrap. The case-hardened colors on the take down lever are bold. The impressed checkered wood grips with the trade mark bear head surrounded by "It's a Bear" rate near excellent with scattered light dings to the checkering, mostly on the left panel. The pistol features an elevation adjustable bead front sight with missing brass bead insert, windage adjustable black blade "U" notch rear sight, tilt barrel take-down system and the slide and barrel are numbered to the gun. The pistol includes a two-tone factory magazine. An excellent example of a Hartford, Connecticut-made gun. (8A9312-90) {C&R} [Dr. Daniel L. Leary Jr. Collection] (500/700) Est. 500 - 700
2053	Ruger New Model Blackhawk Flat Top 50th Year Commemorative Revolver serial #520-11940, 357 Magnum, 4 5/8" barrel with an excellent bore. This lovely gun commemorates 50 years of producing Blackhawks, it appears to be unfired and in excellent condition. The metal surfaces retain about 99% original blue with a light turn ring on the cylinder and a few handling marks. The grips are very attractive and consist of coarse diamond pattern with small raised diamonds on each with a fleur-de-lis border top and bottom. They each have black Ruger Phoenix medallions and remain in excellent condition. This New Model features the smaller Flat Top frame, unobtrusive internal lock, serrated ramp front sight and black blade adjustable rear sight. The barrel is marked "50TH YEAR BLACKHAWK - 1955 TO 2005 -". The gun includes the original red factory hard case that is correctly end labeled and numbered to the gun, Ruger padlock with a pair of keys, internal lock key, fired case, manual and paperwork. A nice commemorative for the collector and it should also be a fine shooter. (8A9314-151) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2054	Ruger New Model Blackhawk B.A.S.S. Limited Edition Revolver serial #35-86113, 357 Magnum, 6 1/2" barrel with an excellent bore. This 1981 Bass Anglers Sportsman Society Limited Edition revolver is number 785 and displayed in a lovely cherry presentation case. The stainless steel surfaces rate excellent showing scattered light handling and storage marks. The smooth walnut factory grips with silver Ruger Phoenix medallions rate excellent. This revolver features the standard black blade adjustable rear sight but the front is a red ramp and the backstrap is engraved "0785" "BASS LIMITED EDITION 1981" in large block letters. The left side of the frame has the B.A.S.S. emblem with a jumping Large Mouth Bass inside a shield. The gun still functions but the red insert in the front sight is loose and needs attention. It includes a cherry wood presentation case with a B.A.S.S. emblem and inscription, key for the working lock, manual and paperwork. The cover of the case shows a few checks from drying but rates excellent overall. Also included is a yellow hinged factory box with shipping sleeve that is correctly end labeled and production numbered to the gun. An attractive find for the Ruger collector or serious B.A.S.S. member. (8A9314-134) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700
2055	Ruger Old Model Single Six Convertible Revolver serial #20-85650, 22 LR/22 Magnum RF, 4 5/8" barrel with an excellent bore. This 1971-manufactured revolver with the short barrel length is the least often seen and most desirable of the Single Six Convertible. It retains about 98-99% original blue and anodized finishes with limited high edge wear and a few handling marks. The spare 22 Magnum RF cylinder has about 97% blue with scattered scratches and oxidation blemishes. The grips are replacement smooth Ajax pearlite stocks that rate excellent. It includes a factory hard case end labeled to another gun, aforementioned spare cylinder and felt bag. The transfer bar safety update has not been installed on this gun. A scarce variant of the Single Six revolver. (8A9314-208) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700
2056	Ruger New Model Super Single Six Bisley Revolver serial #263-43022, 22 LR, 6 1/2" barrel with an excellent bore. This discontinued model was manufactured in 1997 and remains in grand condition. The metal surfaces retain about 99% original blue and anodized finishes with a few minor handling marks and a turn ring on the unfluted roll marked cylinder; the blue on the frame and grip frame have toned to plum. The smooth walnut factory grips with silver Ruger Phoenix medallions rate excellent. The revolver features a serrated ramp front sight, black blade adjustable rear sight, steel Bisley style grip frame and it still functions mechanically. If you prefer the big bore Bisley models this one will make a great companion piece and will also be attractive to the collector. (8A9314-307) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700
2057	Ruger New Model Blackhawk Bisley Revolver serial #47-15996, 45 Colt, 7 1/2" barrel with an excellent bore. This second-year production gun (1987) retains about 99% original blue with limited edge wear, a few handling marks and a turn ring on the unfluted roll marked cylinder. The smooth rosewood factory grips with silver Ruger Phoenix medallions rate excellent showing light handling marks. It has a serrated ramp front sight, black blade adjustable rear sight plus the all steel Bisley grip frame and hammer. The Ruger Bisley frame allows the shooter to handle heavy recoil better than the tradition style, it is a favorite of big bore aficionados and is used by such notables as John Linebaugh in building his custom big bore handguns. (8A9314-244) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700
2058	Ruger Old Model Blackhawk Revolver serial #40-04768, 41 Magnum, 4 5/8" barrel with an excellent bore. This gun is fitted with a later added non-factory installation of a Ruger made brass Dragoon style grip frame. The metal surfaces retain about 98-99% original blue and anodized finishes with light edge wear, handling marks, a few casting defects and a faint turn ring on the cylinder. The brass Super Blackhawk Dragoon grip frame rates excellent and has the correct "MR-3DB" factory markings cast into the frame. The smooth walnut factory grips with silver Ruger Phoenix rate excellent. The gun features a serrated ramp front sight, black blade adjustable rear sight and still functions mechanically. The transfer bar safety update has not been installed on this gun. This gun will make a fine shooter, good field gun or just something different for your collection. (8A9314-155) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700

Lot	Title/Description
2059	Ruger Old Model Blackhawk Revolver serial #30-17839, 357 Magnum, 6 1/2" barrel with an excellent bore. This gun is fitted with a later added aftermarket brass round triggerguard grip frame. The metal surfaces retain about 97-98% original blue and anodized finishes with scattered edge wear and handling marks. The unmarked brass grip frame rates excellent. The unmarked checkered hardwood grips with scalloped borders and window with an eagle in flight rate excellent. The grip frame is slightly proud of the grips with a gap at the frame/grip juncture. It features a serrated ramp front sight, black blade adjustable rear sight and still times and locks up correctly. The transfer bar safety update has not been installed on this gun. An interesting variation for your collection. (8A9314-154) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700
2060	Excellent Early Remington Model 6 Falling Block Rifle serial #S359410, 22 S,L,LR, 20" barrel with a bright excellent bore showing a few specks of very fine oxidation toward the muzzle. This is a fabulous little boys rifle. The barrel retains 97-98% original blue, loss due to light muzzle and breech wear, light toning behind the front sight and some scattered minute nicks and marks. The case-hardened frame retains 95% original brilliant colors only muting to bright silver along the bottom of the frame. Left side of the frame is marked "MODEL 6" above company name and address. The smooth walnut buttstock remains in about near excellent condition with overall minor dings and handling marks. The buttstock is a little loose with tiny 1/2" cracks at the rear tang, the barrel and stock are numbered alike. Rifle is sighted with a standard dovetail front and v-notch rear sight and the flip-up tang sight remains present. A fine early Remington Model 6 seldom seen in such wonderful condition as they encountered such heavy use. (5A9459-21) {C&R} (400/600) Est. 400 - 600
2061	U.S. Model 1903-A3 Bolt Action Rifle by Smith Corona serial #4782232 30-06, 24" 9-43 dated Smith Corona barrel with a bright about excellent bore with traces of pinprick pitting. The rifle retains about 97% arsenal applied parkerized finish with light wear on high edges and contact points, light oxidation staining on the magazine floorplate and triggerguard, and a few light handling marks around the noscap and front sight base; the bolt body and barrel bands retain about 80% blue finish with light to moderate wear and oxidation staining. The straight grip walnut stock is in excellent condition as lightly cleaned with only a few scattered light handling marks and an added finish; the checkered steel buttplate has light oxidation staining over a previously lightly cleaned surface. The remains of an inspector's cartouche and Ordnance Wheel are visible on the left side of the stock above the trigger, possibly reading "FJA", and a faded circled "P" proof is stamped behind the triggerguard; small manufacturer proofs are stamped ahead of the magazine floorplate. The receiver markings remain crisp, the barrel markings have faded but are still legible, the bolt is marked "X" on top of the handle and "G" on the shroud, the front sight based is marked "G", and the front sight blade is marked "A". The range adjustment on the aperture rear sight appears to be properly tensioned, and the windage knob moves with little effort. Altogether an attractive Smith Corona M1903-A3 rifle. (1A9544-208) {C&R} (600/800) Est. 600 - 800
2062	Custom Siamese Mauser Bolt Action Rifle 45-70, 22" barrel with an excellent bore. The metal surfaces retain about 99% maker blue with original markings being somewhat soft. The bolt body and handle are bright. The checkered walnut capped pistolgrip stock with semi-rollover left-side cheekpiece is very good plus, there are some signs of handling with nice, sharp checkering. The front sight is a hooded brass blade and a Lyman 57 SME peep sight is mounted to the right-side of the receiver. An interesting Siamese Mauser for the big bore enthusiast. (22A9543-173) {MODERN} [Phil Buker Collection] (500/700) Est. 500 - 700

Lot	Title/Description
2063	<p>Marlin Model 93 Lever Action Carbine serial #849 30-30 W.C.F., 20" barrel with an excellent bore. The metal surfaces of the receiver are toning to pewter showing signs of limited light cleaning but there are some faded case-hardened colors visible on the left side of the frame and bolt and the lever has robust colors on the protected upper areas. The barrel has about 95% finish that has toned to smoky gray with handling marks and minor stains from oxidation. The smooth straight grip buttstock has been cleaned and lightly refurbished with an oil finish showing surviving dents and dings but still retains the Marlin "Bullseye" in addition to a small check on the left side of the wrist at the receiver and a second inch long hairline crack at the end of the upper tang. The smooth walnut forend has also been refurbished showing a few handling marks. The serrated hard rubber buttplate rates good to very good, there are moderate to light dents and dings on the edges. The rifle has a Rocky Mountain step adjustable rear sight and a Lyman brass bead front sight. The top of the receiver has been drilled and tapped with four holes and is marked "MARLIN SAFETY". The barrel address has "The Marlin Firearms Corporation" legend and the Marlin inspection "Star" is present on the upper tang. (8A9607-2) (C&R) (500/700) Est. 500 - 700</p>
2064	<p>Didier-Drevet sliding breech shotgun serial #408 12 ga., 26" barrels with bright very fine bores which have been jug choked right and been fitted with Briley thin wall choke tubes in the left. The barrels show perhaps 95% later buffed blue and exhibit August 1944 German proofs on their underside, perhaps something sent home from the (temporarily) victorious conqueror while in France. The barrels show some scattered light oxidation, the expected handling marks and some more prominent scratches in the breech area. The frame and sliding breech show a similar amount of lightly buffed hot immersion blue, the sliding breech showing softened overall light tight scroll engraving with the remnants of floral bouquets, the fences with nice foliate chiseling and very light gold line inlay. This Dame-like example has a sliding safety on the breech to the rear of the opening lever with "Sur" inlaid in gold. The checkered one piece walnut buttstock rates about very good as refinished many years ago with a repaired chip to the rear of the frame's tang. The checkering was chased but has a few more dings and handling marks now and there is a silver oval monogram plate along the toeline which is rather large and un-engraved. The length of pull to the checkered horn buttplate is 14 1/4", the plate itself showing some light insect damage. The gun seems to function mechanically however seems a little rudimentary in the operation and the breeches exhibit a slight whisker of light. An interesting seldom-encountered French sliding breech shotgun. (3A9438-417) (C&R) (500/700) Est. 500 - 700</p>
2065	<p>Marlin Model 94 Lever Action Carbine serial #1806 44-40 W.C.F., 20" octagon barrel with a bright excellent bore. This post World War I gun shows honest use over the years and remains in fine condition. The metal surfaces are predominately gray with perhaps 30-35% original blue. The receiver has been lightly cleaned, the surfaces pewter with scattered oxidation blemishes. The barrel has been lightly cleaned in areas with oxidized pitting, stains from oxidation and handling marks but strong blue remains on the first half of the barrel plus several strong streaks on the last half and the exposed magazine tube. The straight grip walnut factory buttstock has been refurbished with later added varnish displaying several handling marks that were not removed when cleaned, several tiny gaps around the tang and a 1/2" crack on the right side of the wrist by the receiver. The steel carbine style buttplate has about 60-70% original blue with oxidation stains, handling marks and overrun varnish from the stock refinish. The smooth walnut forend rates about the same as the buttstock with light handling marks. The rifle features Rocky Mountain rear and front sights, the magazine plug screw is missing and a portion of the screws have slot damage. The buttplate, buttstock and tang are all numbered to the gun. The top of the receiver has a pair of drilled and tapped holes with plugs. The barrel address has the "Marlin Fire-Arms Co." legend and the 1893 patent date, the tang has the Marlin inspection star and the action remains crisp. A salty Model '94 Carbine still with a nice bore. (8A9522-45) (C&R) (500/700) Est. 500 - 700</p>

Lot	Title/Description
2066	<p>U.S. Model 1808 Flintlock Contract Musket By Pomeroy Shortened to Artillery Length .69 cal., 36" shortened barrel with an oxidized bore. The barrel is marked "P M / S. J. 1810" along the top while the lockplate is simply marked "L. POMEROY" ahead of cock. The metal surfaces have been cleaned some time ago and are now an overall gray and brown with scattered fine oxidation with spots of light pitting and impact marks. The stock rates good with overall handling marks, dried fading finish and has been shortened to 2 5/8" from the muzzle. There are light cracks at the front and rear of the lockplate along with minor gaps along the edges, a large chip missing at the toe and modest chipping and worn edges along the ramrod channel. The center barrel band is loose fitting and the front spring clip is broken, no longer engaging the band. The lock remains strong but does not function at half-cock. An iron trumpet shaped ramrod is present. A good altered 1808 contract musket. (5A9631-1) (ANTIQUÉ) (500/700) Est. 500 - 700</p>
2067	<p>Parker VH Grade Boxlock Double Shotgun serial #172922 16 ga., 27" Vulcan steel barrels choked improved cylinder and modified with near excellent bores that are mostly bright but have some areas of light freckling. The barrels retain about 80% original blue that is toning to brown and mixing with some areas of light oxidation. There is some added solder at the muzzles and light handling marks throughout with a larger area of loss along the left tube. The frame and remaining metal surfaces are mostly a mottled gray, there is a small amount of factory case color still visible along the sides of the frame and on the protected surfaces. The checkered walnut stocks rate near excellent and have some light dings and scattered handling marks throughout, there is a larger chip on the left side of the wrist near the base that affects the checkered area. The buttstock features a hard rubber gripcap and a #1 style buttplate with spur, and has a 14 1/8" length of pull to the forward trigger and drops at 1 1/2" and 2 3/4". The rib is equipped with silver blade style bead front sight and an ivory bead rear sight. The action locks up tight with no lateral play and the lever comes to rest just right of center. Overall this is a nice petite VH grade that was built on an O-frame and would make a terrific field gun. (4A9543-138) (C&R) [Phil Buker Collection] (500/700) Est. 500 - 700</p>
2068	<p>German Gewehr 98 Bolt Action Rifle by Spandau serial #6619 8mm Mauser, 29" barrel with a dark lightly oxidized bore showing scattered pitting and still strong rifling. The metal surfaces of the rifle have an overall mottled gray patina with scattered spots of remaining original blue on the receiver and magazine floorplate, scattered light pitting throughout, and scattered light oxidation staining. The noscap and barrel band retain about 85% original blue with light high edge wear, scattered light handling marks, and light oxidation staining; the steel buttplate has been cleaned bright with scattered light oxidation staining. The European hardwood stock is in very good condition as lightly cleaned with two 1" and 1 1/2" cracks on the right side at the buttplate, a small chip at the rear sling swivel, and scattered handling marks consistent with age and use. The stock is marked below the stock disc with three faded German proofs in vertical order reading "(crown) / W" and "(crown) / M" with the final proof being too faded to read, the toeline of the stock is lightly numbered "765" and is marked "(crown) / B", and the remains of two proofs can be seen behind the triggerguard on the inside of the pistolgrip. The receiver ring is marked "(crown) / SPANDAU / 1901" an Imperial Eagle firing proof is on the left side, the right side of the receiver is marked with crown proofs, and the barrel is serialized to the rifle. The rear sight has been updated during the interwar period to the K98 style tangent rear sight graduated from 100 to 2000 meters, and the rear sight base and rear sight are crisply marked "S/42G" and serialized to the rifle; the barrel band has also been updated to the wider variety. The triggerguard and floorplate are numbered "765" and "65" respectively, and both are marked with small crown proofs. The bolt is serialized to a different rifle. A salty old Gewehr 98 updated between the wars. (14A9617-5) (C&R) (500/700) Est. 500 - 700</p>

Lot	Title/Description	Lot	Title/Description
2069	J. Stevens & Company Three Trigger Double Hammergun serial #920 12 ga, 32" barrels choked full and modified with good to very good bores with light to moderate pitting in the right barrel and moderate pitting in the left barrel. The metal surfaces of the shotgun have been cleaned to bright gunmetal with oxidation staining on the hammers, light pitting on the triggerguard, and the barrels show traces of a damascus pattern; the left barrel has a slight surface ding about 7" from the muzzle. The straight grip walnut stock is in excellent condition as lightly cleaned with the tang and buttplate being slightly proud of the wood. The stock is nicely figured, particularly on the left side. The barrel rib is crisply marked "J. STEVENS & CO. CHICOPEE. FALLS. MASS.", with the "J" being slightly obscured. The barrels, frame, forend, and triggerguard are all serialized and matching. The rebounding hammers are not in time, the left hammer fitting loosely with noticeable lateral play. The right barrel is slightly off face, showing a sliver of light between the barrel and the breech. The shotgun features 2 1/2" chambers, double triggers, is sighted with a lone brass bead, and is opened by depressing the forward single trigger. A rather scarce American double hammergun. (14A9472-4) (ANTIQUÉ) (300/500) Est. 300 - 500	2073	Ruger No. 3 Falling Block Carbine serial #130-71119, 22 Hornet, 22" barrel with a bright excellent bore. The metal surfaces retain 99% original blue with a few small spots of light oxidation on the front sight blade and a few scattered minor handling marks. The smooth walnut straight grip stock and forend rate very good plus with a few scattered light handling marks. The sling swivel has been removed from the front band, the rear sling stud and original sights remain intact and mounted to the drilled and tapped barrel is a set of aluminum bases and 1" scope rings ready for your choice of optic. A very nice Ruger No. 3 in excellent condition. (23A9543-184) (MODERN) [Phil Buker Collection] (500/700) Est. 500 - 700
2070	Rare U.S. Model 1816 Flintlock Contract Musket by E. Buell .69 cal., 42" barrel with an oxidized bore. The metal surfaces of this reconverted Type I musket are toning to a brown patina with scattered spots of moderate oxidation and a couple vise bite marks on the breech of the barrel which is proofed with a "P / (eagle head) / V" and a deeply struck arrow-shaped mark. The lockplate bears the earliest style of Buell markings including "E. BUELL" behind the cock and a softened "(spread eagle) / MARLBOROUGH" ahead of the cock and all the components of the lock appear to be correct for this model. The smooth black walnut straight grip stock rates about good with a few cracks around the lock and lockplate, a narrow chip missing from the right wood line and the scattered dings and handling marks typical of a military shoulder arm that is likely around two centuries old. The sling swivels remain intact though each is loose with the forward swivel broken on its left side, a steel button-headed ramrod is included and the lock functions albeit roughly. According to p. 100 of Robert M. Reilly's United States Martial Flintlocks, Elisha Buell and his son Enos of Marlborough, CT were active from the Revolutionary War into the 1830s and "very few Buell marked muskets of any period have survived." (23A9631-13) (ANTIQUÉ) (500/700) Est. 500 - 700	2074	Thompson/Center Custom Shop Contender Single Shot Rifle serial #394526 5.7x28mm, 24" Custom Shop barrel with a bright excellent bore. The metal surfaces retain 98% original blue with the lever and frame showing light high edge and operational wear, a few light handling marks and small areas of dried oil, while each side of the frame is embellished with an engraved mountain lion ready to pounce along with loose foliate scroll engraving. The handsomely figured checkered walnut capped pistolgrip stock rates very good plus to near excellent with a few light handling marks and silvering to the edges of the gripcap which features an embossed bust of a mountain lion and the smooth walnut forend rates excellent. The rifle features the ability to switch between centerfire and rimfire cartridges as the barrels are interchangeable. Mounted to the barrel in a pair of Weaver 1" rings is a Truglo Trubrite 3-9x44 scope with red/green illuminated duplex-style reticle and bright very good optics retaining 97% original matte black anodized finish with some scattered scuffs and minor handling marks from light use. An attractively-stocked rifle in a desirable Custom Shop chambering. (23A9543-190) (MODERN) [Phil Buker Collection] (500/700) Est. 500 - 700
2071	U.S. Model 1884 Trapdoor Cadet Rifle by Springfield Armory serial #307494 45-70 Govt., 29 1/2" barrel with a bright very good plus bore showing a few small spots of light pitting in the otherwise strong rifling. The metal surfaces are toning to a pewtery-gray patina with the barrel displaying remnants of fine pinprick pitting on the barrel and spots of light oxidation staining and pinprick pitting scattered overall. The 1873-dated breechblock, receiver, and hammer have aged to a smoky case-hardened patina with modest amounts of oil-quenched blackened finish in the protected areas. The barrel is proofed with the familiar "V / P / (eagle head) / P" while the lockplate is marked "U.S. / SPRINGFIELD" under the thumbpiece and with a Federal Eagle ahead of the hammer. The correct "short-comb" smooth black walnut straight grip stock rates near very good with a crack above the upper lockplate screw, a few scattered 1/2" dings and various other light signs of service. The stock features the remnants of Master Armorer Samuel W. Porter's "SWP / 1890" cartouche, a strong "A" is behind the triggerguard and a crisp "H" on the left side of the buttstock. The rifle is sighted with the correct "R" marked Buffington rear and blade/bayonet stud front, the sling swivels remain intact and the correct slotted head swelled shank ramrod is included. The action remains strong and crisp on this handsome, early Model 1884 Cadet rifle. (23A9544-309) (ANTIQUÉ) (500/700) Est. 500 - 700	2075	Egyptian Hakim Semi-Auto Rifle by Maadi serial #41820 8mm Mauser, 24" barrel with a bright excellent bore. The metal surfaces of this 1960-dated rifle retain about 97% original thinning Parkerized finish with light silvering at the muzzle, high edges and wear points and a few small spots of light oxidation. The military-style hardwood pistolgrip stock and forend rate very good with the expected scattered handling marks of a military shoulder arm, the remnants of the original military finish, "172" written in Arabic on the left side of the butt and an inlaid brass disk on the right side which appears to say "11" in Arabic. The rifle is discreetly import-marked by Century Arms on the right side of the barrel and the rifle is equipped with the original muzzle compensator, sling swivels, military sights and one steel 10-round detachable box magazine. (239617-7) (C&R) (500/700) Est. 500 - 700
2072	U.S. Model 1903 Mark I Bolt Action Rifle by Springfield Armory serial #1127977 30-06, 24" 5-38 dated Springfield Armory barrel with a bright excellent bore. The metal surfaces retain about 93% reapplied blue with light loss toning to gunmetal gray on the bottom metal, top of the receiver ring and scattered areas of light oxidation, particularly on the custom low-scope bolt handle and buttplate. There are a few scattered small areas of pinprick pitting beneath the finish but they are unobtrusive. The replacement two-bolt smooth walnut straight grip stock and handguard rate very good plus as lightly cleaned with a nicely repaired hairline crack below the left side ejection port, the right side bolt holes have been filled, and a light handling mark or two and the stock features the remnants of two circled "P" firing proofs. The receiver has three added drilled and tapped holes on the top for a one-piece scope base and receiver is correctly milled for a Pedersen Device, the bayonet lug is marked "H", the swivels and original sights remain intact and the action appears to function well mechanically. An excellent range candidate with its nice bore and scope-ready receiver. (23A9650-21) (MODERN) (500/700) Est. 500 - 700	2076	Ruger M77 Mark II NHWF Commemorative Bolt Action Rifle serial #785-11727, 280 Rem., 22" barrel with a bright excellent bore. The metal surfaces of this New Hampshire Wildlife Foundation commemorative rifle retain 99% original blue and black anodized finishes with a couple specks of fine oxidation and a few very light handling marks overall while the in-the-white bolt rates excellent. The barrel of this handsome rifle bears the laser-engraved symbol of the NHWF along with their initials and "1998". The checkered walnut pistolgrip stock with Ruger logo gripcap rates excellent with a faint handling mark or two while the rubber rifle pad also rates excellent. The rifle features a three-position safety, Mauser-style action and hinged floorplate and comes with a pair of blued steel scope rings that attach to the integral mounts on the receiver. This attractive rifle is chambered for a very versatile cartridge and remains in wonderful condition. (23B9532-10) (MODERN) (500/700) Est. 500 - 700

Lot	Title/Description
2077	U.S. Model 1884 Trapdoor Rifle by Springfield Armory serial #383942 45-70 Govt., 32 5/8" barrel with a mostly bright very good bore showing a few small areas of light pitting in the strong rifling. The barrel, bands and buttplate are toning to a plum-brown patina with a few scattered spots of oxidation and minor handling marks and two faded spots of what appears to be green paint behind the "U.S." stamping on the buttplate. The two-piece triggerguard displays a mottled gunmetal-gray patina while the hammer, breechblock, receiver and breech tang have aged to a freckled smoky case-hardened patina. This early model 1884 retains the 1873-dated breechblock, the barrel is proofed "V / P / (eagle head)" and the lockplate is properly stamped with a Federal Eagle ahead of the hammer and "U.S. / SPRINGFIELD" below the thumbpiece. The smooth black walnut straight grip stock rates near very good with numerous dents, dings and handling marks from military service and features a circled "P" firing proof behind the triggerguard a "21" on the toe line and "A / 42 / 14" is painted in red block letters on the right side of the butt. The swivels and original sights remain intact including the correct "R" marked Buffington rear, a slotted-head ramrod is included and the three-position lock and tumbler remain very strong and crisp. (23A9544-312) (ANTIQUÉ) (500/700) Est. 500 - 700
2078	Winchester Model 63 Semi-Auto Rifle serial #48195A, 22 LR, 23" barrel with a bright excellent bore. The metal surfaces retain about 98% original blue with light flaking on the forend cap and a few scattered light handling marks. The smooth walnut forend rates good with perhaps a touch of added finish, multiple flexing cracks in the right side and some minor handling marks while the pistolgrip stock rates very good plus to near excellent with a few scattered handling marks. There is an added drilled and tapped hole in the top of the frame, the original open sights remain intact and the action appears to function well mechanically. (23A9574-26) (C&R) [James Traynor Collection] (500/700) Est. 500 - 700
2079	Colt Police Positive Double Action Revolver serial #127790 38 Colt New Police (S&W), 4" barrel with an excellent bore. The metal surfaces of this 1916-made first issue gun retain about 95-96% original blue, the grip frame thinning to a mix of blue and gray in addition to high edge wear and handling marks. The blue on the trigger is starting to thin with light wear on the hammer spur. The checkered hard rubber factory grips with fleur-de-lis borders and stylized "C" around the escutcheon are numbered to the gun and rate excellent. The gun still functions and the markings remain crisp. A very nice example that has seen some honest but light use over the years. (8A9551-3) (C&R) (500/700) Est. 500 - 700
2080	Marlin Model 332 Varmint King Bolt Action Rifle serial #17740 222 Rem, 24" stainless steel micro-groove barrel with an excellent bore. The metal surfaces retain about 95-97% parkerized and blued finishes that have some very light edge wear and handling marks. The bottom metal is toning to brown with areas of gray blending through, bolt body is mostly bright with a few areas of light gray patina. The checkered walnut stocks rate near excellent and have a few light dings and scratches, there are a few small chips along the left side due to a knot in the grain. The stock features a capped pistolgrip, factory hard rubber buttplate, swivels and has the Marlin "bullseye" along the toeline. Built on a Sako Riihimaki action by Marlin, the barrel is tapped for a front sight and a set of Redfield mounts with 1" rings are mounted to the grooved receiver. A single detachable magazine is also included. A very fine example of these mid to late 1950's "triple-deuce" sporting rifles that were built using the classic Sako action. (4A9574-47) (C&R) [James Traynor Collection] (500/700) Est. 500 - 700
2081	Navy Arms Harpers Ferry 1803 Flintlock Rifle By Zoli serial #3676 .58 Caliber, 35 1/2" part round, part octagon barrel that has an excellent bore. The barrel retains about 99% of the original factory brown finish that has some light handling marks throughout. The lock and hammer retain nearly all of their original factory case color and have some light graying around the edges and some light handling marks. The lock bears the correct period markings with the Federal Eagle in center and "Harper's / Ferry / 1803" at the tail end. The brass furniture rates excellent and has some mild ochre patina. The hardwood stock rates excellent and has some light handling marks and small dings. The original brass front blade sight and rear notch sight remain intact, the original brass tipped steel ramrod is included. The lock appears to function correctly and overall this Italian-made quality rifle is in excellent condition. (4A9574-83) (ANTIQUÉ) [James Traynor Collection] (500/700) Est. 500 - 700

Lot	Title/Description
2082	Lefever Arms G Grade Sidelock Double Shotgun serial #20330 12 ga., 24" barrels choked modified and full with near excellent bores that are mostly bright but are scored and grooved and have a few minor tool marks likely from aggressive cleaning. The metal surfaces have an older applied blue finish with about 90% remaining that is lightly fading to gray along the bearing surfaces of the frame and its associated parts. There are a few light impact and handling marks throughout. The checkered splinter forearm rates excellent and has a few light handling marks and some added finish. The pistolgrip buttstock rates near excellent as-repaired and is comprised of three sections that have been nicely married together. The center portion, which appears to be the original part of the stock has a few small dings and some fine hairline cracks around the edges of the locks. The wood has light added finish and some light dings and other handling marks throughout. The comb section has filled plugs where the sections were joined together and has a black triangle and ball shaped inlay at the heel. The buttstock has the correct gripcap and an original 3/4" hard rubber buttplate with "LHC" monogram in center and the stock has a 14 3/4" length of pull to the front trigger and drops at 1 3/8" and 2 1/8". The rib is equipped with a silver bead front sight. The action's lock-up is tight and the top lever comes to rest at center. Overall this is a nicely restored G Grade double that would make a terrific field gun and with its shorter barrels would be a terrific upland shotgun. (4A9607-22) (C&R) (500/700) Est. 500 - 700
2083	Winchester First Model 1885 High Wall Winder Musket serial #111732 22 Short, 28" barrel with a lightly pitted very good bore with evident rifling. The metal surfaces of the rifle have a brown patina with speckled light oxidation scattered along the barrel, light wear on the high edges, and a few light handling marks; the two barrel bands have light wear on the sides with remains of original blue beneath the brown patina. The straight grip walnut stock and forend are in very good plus condition with light chipping around the ramrod channel, light oil staining around the rear of the receiver, and scattered light handling marks. The toe of the stock is crisply stamped "15", but the stock is otherwise unmarked. The Winchester trade marks and serial number on the upper and lower tangs remain crisp, as do the 2-line barrel address and caliber designation on the barrel; the Winchester proofs on the frame and are light but visible. The rifle is sighted with a blade front sight and a military "windgauge" rear sight, with flip up ladder sight. A solid 1911-made High Wall Winder Musket. (14A6520-3704) (C&R) (500/700) Est. 500 - 700
2084	J. Stevens No. 414 Armory Falling Block Rifle serial #74255 22 Short, 26" barrel with a lightly pitted very good bore. The frame of the rifle shows muted case color with the tangs having toned to gunmetal gray and light oxidation along the sides and on the lever. The barrel retains about 90% original blue with moderate wear at the muzzle traveling approximately 5" back, light thinning with oxidation staining and light handling marks; the barrel band shows moderate wear with light oxidation staining and the breech block shows 97% blue finish with light operational wear and hardened grease. The straight grip walnut stock and semi-beavertail forend are in very good condition as lightly cleaned with a 4 1/2" crack down the middle of the forend starting at the tip, scattered light handling marks, and an added finish; the hard rubber buttplate has a small chip in the toe. The stock has two holes drilled in the forend and the toeline for mounting sling swivel, but they remain empty. A few of the screws show light slot damage. The right side of the frame is crisply marked with the Stevens trademark, and the 2-line barrel address and caliber designation remain crisp as well; the barrel has three drilled and tapped holes within 4" of the frame. The rifle is sighted with a rocky mountain front sight and frame mounted aperture sight; the tang is factory drilled and tapped for a tang sight. (14A9544-230) (C&R) (400/600) Est. 400 - 600
2085	Smith & Wesson Model K-22 Masterpiece Hand Ejector Revolver serial #K227207, 22 LR, 6" barrel with an excellent bore. The metal surfaces of this 1954-made revolver retain about 90-92% original blue, the backstrap and triggerguard are toning, with high edge and contact point wear consistent with holster carry. The service trigger and hammer retain bold case-hardened colors with operational wear. The diamond checkered walnut factory Magna grips with silver S&W medallions are numbered to another gun and rate and fit about excellent. The gun features a Patridge front sight, black blade micro adjustable rear sight, all remaining parts are correctly numbered to the gun and it still functions mechanically. (8A9510-10) (C&R) (500/700) Est. 500 - 700

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2086	Browning BPS High Capacity "Riot" Slide Action Shotgun serial #04398MR121, 12 ga., 20" plain barrel choked cylinder with an excellent bore. The metal surfaces retain about 99% original matte and polished blue finish that has a few light handling marks. The gold trigger retains all of its gold plating. The checkered black synthetic stocks rate excellent and sling swivels are included. This is a somewhat rare model from Browning that saw very limited production and features a near full length 7+1 capacity magazine. Browning does not often lend its name to tactical or police model themed arms and this is one of those few exceptions. An excellent example of these seldom seen high capacity field grade shotguns. (4A9626-7) (MODERN) (350/550) Est. 350 - 550
2087	Richardson Industries Model R-5 Shotgun 12 ga., 24" barrel choked cylinder with a good bore that has areas of light pitting and oxidation throughout, the chamber has a single small detent in the walls to hold the shotshell in place when the barrel is removed. The metal surfaces of this oddly unique shotgun retain about 90% original blue showing scattered light freckling, some light oxidation, and other assorted handling marks. The manufacturer name and New Haven address is stamped on the receiver tube. The one-piece smooth pistolgrip hardwood stock rates near excellent with some scattered light dings and other handling marks and some light scuffing near the toe. The pistolgrip style finger groove barrel grip rates excellent with a few small handling marks and is loosely based on the forend grip of the Thompson. Liff David Richardson started manufacture of this simple arm in 1946 basing it on the Philippine "Palintod", a single barrel shotgun used to overcome an enemy soldier to capture his weapon, "a gun to get a gun". In practice a shell is placed in the barrel and carefully slid into the receiver tube, the release lever (looking like a trigger) is pulled to allow the barrel to move, the barrel is slid slightly forward and then smartly slammed to the rear where the shell hits a fixed firing pin discharging it. "Rich" as he was known served with both the U.S. Navy and Army during WWII and fought for three years with Philippine guerilla fighters. An interesting example inspired from a heroic time. (4A9626-9) (C&R) (400/600) Est. 400 - 600
2088	Marlin Golden 39A Takedown Lever Action Rifle serial #6918171 22 LR, 24" micro-groove "JM" marked barrel with an excellent bore. The metal surfaces of this 1969-vintage lever rifle retain about 98-99% original blue that has some light handling marks, some wear along the working parts and a few specks of light surface oxidation scattered throughout. The smooth walnut stocks rate excellent and have a few small dings and other light handling marks. The pistolgrip buttstock features the black pistolgrip cap and factory buttplate. The original sights, including the front sight hood, and the factory swivels remain intact. A simple 7/8" grooved rail scope base has been mounted to the receiver. Overall this is an excellent example of these classic rimfire lever rifles. (4A9626-34) (C&R) (400/600) Est. 400 - 600
2089	Marlin Model 39A Lever Action Rifle serial #H21530, 22 LR, 24" "JM" marked Ballard-rifled barrel with an excellent bore. Built in 1951, this third model second variation rifle retains some original blue with the majority of the metal showing mottled browns and grays and is blending with some areas of light pitting and light surface oxidation. The smooth walnut stocks rate excellent and have a few small dings and some darker oil staining to the finish. The forearm is the wider beavertail style while the pistolgrip buttstock has the flute at the leading edge of the comb and features a hard rubber gripcap with brass insert and hard rubber buttplate, both with white spacers. The Marlin bullseye remains intact on the toe line. The original front sight with hood remains intact, the rear sight has been removed and a blank fills its dovetail. Mounted to the left side of the receiver is a Lyman 66MC adjustable rear sight with aperture. Despite the issues with its outward appearance the rifle's action appears to function correctly and it will likely make a terrific shooter. (4A9626-17) (C&R) (250/450) Est. 250 - 450
2090	Marlin Model 336RC Lever Action Carbine serial #6886351 35 Rem, 20" micro-groove barrel marked "JM" with a bright, excellent bore. This carbine was manufactured at the end of 1968, the final year of production for the R.C. model. The metal surfaces retain about 98-99% original blue that has some light handling and edge wear. The trigger retains nearly all of its original gold plating. The smooth walnut stocks rate excellent and have a few light dings and other light handling marks. The pistolgrip buttstock features a gripcap and hard rubber buttplate. Swivel studs have been installed, displacing the bullseye along the toe line. The original sights, including the front sight hood remain intact and a hammer spur extension has been installed. A terrific example overall that would make a great companion in the fall woods. (4A9626-18) (C&R) (400/600) Est. 400 - 600

Lot	Title/Description
2091	Custom Winchester Model 75 Target Bolt Action Rifle serial #86993 22 LR, 28" tapered heavy barrel with a bright, excellent bore. The metal surfaces of this 1956-made target rifle retain about 95% original blue that is flaking to a mottled brown and has some light edge wear and some handling marks throughout. The barrel and receiver markings remain crisp, the bolt is not marked and the barrel band is no longer present. The factory walnut stock is custom checkered and rates excellent with a satin oil finish, some light handling marks and a few small dings. The stock features a target rail in the forearm, and inletted rear swivel base and has the checkered steel buttplate. The barrel is tapped for sights and target blocks, though none are present. The receiver is grooved for mounts. Included is a single "W" marked detachable magazine. This is a near-excellent example of these popular target model rifles that would likely have lots of potential when paired with either the correct sights or a set of quality optics. (4A9626-20) (MODERN) (400/600) Est. 400 - 600
2092	Remington Model 788 Left-hand Bolt Action Rifle serial #A6156468, 308 Win, 22" barrel with a bright, excellent bore. The metal surfaces of this September 1977-vintage rifle retain about 97-98% original blue that has some light edge wear, handling marks and is lightly flaking to brown throughout. The hardwood stock rates very good and has some light dings and other handling marks and some minor flaking around the butt. There appears to be some areas of minor staining and finish loss where the stock finish has come in contact with a solvent or other agent and the area around the pistolgrip shows evidence of some light sanding. An original Remington hard rubber buttplate remains intact, the sling swivels have been removed and their holes remain vacant. The original sights have been removed but mounted to the receiver is a Weaver style one-piece base with a set of 1" rings. Also included is a single detachable factory magazine. A very good to near excellent example of these not often seen "southpaw" sporting rifles. (4A9626-19) (MODERN) (400/600) Est. 400 - 600
2093	Remington Model 581 Left-Hand Bolt Action Rifle serial #1023364 22 LR, 24" barrel with a bright, excellent bore. This June 1970-vintage sporting rifle is in very good overall condition. The metal surfaces retain about 95% original blue that has areas of light wear and some light handling marks throughout. The walnut stock rates about very good and has added finish over light to minor dings and other light handling marks along with a few larger impact marks and some minor crazing. There is a 2" crack emanating forward from the bolt handle notch and a vertical repair running from the receiver to the bottom metal on the right side just ahead of the triggerguard. The original sights remain intact and the receiver is grooved for mounts. A single magazine and leather sporting sling are included. A great opportunity to own one of these less commonly offered left-hand sporting 22's. (4A9626-8) (MODERN) (100/200) Est. 100 - 200
2094	NS Firearms Corp. Model 522 Bolt Action Rifle serial #0700396 22 LR, 21" hammer forged target barrel with a bright, excellent bore. The metal surfaces retain about 99% original blue that has some light handling and edge wear throughout. The checkered European walnut stock rates near excellent with some light dings and scattered handling marks. The bolt is numbered to the receiver, and the receiver is grooved for mounts. A single magazine and a dossier of articles and information are included. Made on machinery that was purchased from Steyr in Austria with components milled of steel, with no aluminum or stampings used in their construction, these economical target rifles are known for their accuracy and consistency. An overall excellent example of these Anschutz inspired target 22 rifles that was imported by Keng's Firearms Sales in Atlanta, GA circa 1994. [see scarce spare magazines available in this auction] (4A9626-23) (MODERN) (200/400) Est. 200 - 400
2095	NS Firearms Corp. Model 522 Bolt Action Rifle serial #0702388 22 LR, 21" hammer forged target barrel with a bright, excellent bore. The metal surfaces retain about 99% original blue that has a few light handling marks scattered throughout. The checkered European walnut stock rates excellent and has a few small handling marks as well. There are some larger impressions that appear to be under the original finish and were likely present when the rifle left the factory. There are no provisions for sights, the receiver is grooved for mounts and the bolt is numbered to the receiver. The original box is included and contains the magazine and original manual and info sheet. An overall excellent to near-new-in-box example of these Anschutz inspired target 22 rifles with components milled of steel, with no aluminum or stampings used in their construction, all made on machinery purchased by Steyr in Austria and was imported by Keng's Firearm Sales in Atlanta, GA in the mid 1990's. [see scarce spare magazines available in this auction] (4A9626-29) (MODERN) (250/450) Est. 250 - 450

Lot	Title/Description
2096	NS Firearms Corp. Model 522 Bolt Action Rifle serial #0702392 22 LR, 21" hammer forged target barrel with a bright, excellent bore. The metal surfaces retain about 99% original blue that has a few light handling marks scattered throughout. The checkered European walnut stock rates excellent and has a few, very light handling marks. There are no provisions for sights, the receiver is grooved for mounts and the bolt is numbered to the receiver. The original box is included and contains the magazine and an original manual. These quality Anschutz inspired target 22 rifles are made on machinery purchased from Steyr in Austria with components milled of steel, with no stampings and no aluminum used in their construction. This is an overall excellent to near-new-in-box example of that was imported by Keng's Firearms Sales in Atlanta, GA in the mid 1990's. [see scarce spare magazines available in this auction] (4A9626-28) {MODERN} (250/450) Est. 250 - 450
2097	CZ Model 452-2E ZKM Special Bolt Action Rifle serial #861508 22 LR, 24 3/4" barrel with a bright, excellent bore. This "Lux" style military training rifle is in as-new-in-the-box condition. The metal surfaces show only a few very light handling marks with no appreciable finish loss. The checkered beechwood stock shows no signs of wear and features a schnabel forend, a European style butt and sling swivels. The original sights, including the front sight hood, remain intact and the receiver is grooved for mounts. The original box with manual, test targets, a magazine and a set of 1" high Millett rings are included. Additionally there is packaging for a replacement sear and lighter weight trigger spring from Automation Solutions in Bessemer, AL. The packages have what appear to be the original CZ parts with the replacement performance parts having been installed producing a much lighter and crisper pull compared to other examples. A really terrific rifle that was designed for military training use and would make a super sporting 22. (4A9626-47) {MODERN} (200/300) Est. 200 - 300
2098	French "Unique" Semi-Auto Pistol by MA Pyrenees serial #107227 32 ACP, 3 1/4" barrel with a bright excellent bore. The metal surfaces of this Moroccan contract pistol retain about 90-92% original blue showing light high edge wear, thinning along the gripstraps and some scattered light handling marks. The hammer shows good straw colors, all markings remain clear and there is a Moroccan property stamp at the rear right side frame. The grooved black Bakelite grips remain in very good plus condition showing a few tiny chips and minor dings. There are no visible import marks, the action seems to function well mechanically and one original nine-round magazine is included. (13A9629-2) {C&R} (250/450) Est. 250 - 450
2099	Stevens Visible Loader Slide Action Rifle serial #N603, 22 S,L,LR, 22" round barrel with a bright near excellent bore. The barrel and magazine tube retain about 90% original blue with most of the loss along the magazine tube and action arm showing light operational wear and toning to silvery gray patina along with some light handling marks along the barrel. The action has mostly flaked to a pleasant deep gray-brown patina showing some flakes of original blue scattered about while the breechblock, hammer and trigger retain about 90% original blue showing some operational wear along the hammer. The smooth straight grip walnut buttstock and grooved forend remain in very fine condition retaining 92% original varnish showing a few scattered light flakes, a small scuff at the point of comb and scattered minor dings. Occasionally the ejector / lifter does not retract in time when the action is closed and gets hung up slightly; the action otherwise seems to function well mechanically. (13A8958-31) {C&R} (200/400) Est. 200 - 400
2100	Winchester Model 1906 Slide Action Rifle serial #424116 22 S,L,LR, 20" round barrel with a fair bore showing scattered light pitting, oxidation and some good rifling throughout. The barrel and magazine tube retain about 20% original blue mostly present in the protected areas with the balance toned to a mild pewter gunmetal patina along with some scattered light dings and handling marks. The action retains perhaps 70% original bright blue flaking to pewter gunmetal patina showing some scattered very light pitting along the right side. The smooth gumwood buttstock and grooved forend remain in very good plus condition as lightly cleaned showing a few light dings and handling marks. The original black hard rubber buttplate is intact showing some wear around the edges. The original sporting sights are present and the action seems to function well mechanically. A very respectable Model 1906. (13A8958-34) {C&R} (400/600) Est. 400 - 600

Lot	Title/Description
2101	Erma ET-22 Navy Model Semi-Auto Pistol serial #62005 22 LR, 11 3/4" barrel with a bright excellent bore. The metal surfaces of this 1968 proof-dated pistol retain about 98-99% black enamel finish showing a small line of discoloration along the left side barrel and a few other scattered light handling marks. The checkered walnut forend and grips with left-side thumb rest remain in excellent condition perhaps showing a light handling mark or two. The pistol includes one original magazine, original red factory box end-labeled and numbered to the gun, manual and test target. An excellent example of these interesting Luger-style pistols. (13A9355-31) {C&R} (500/700) Est. 500 - 700
2102	German Gewehr 88/05 Bolt Action Rifle by Steyr serial #8472x, 8mm Mauser, 29" barrel with a bright very good plus bore showing some very light oxidation in the grooves and strong rifling throughout. The metal surfaces of this 1890-dated Turkish-marked rifle have toned to a dark plum-brown patina showing some old pitting along the wood line, a few light dings, minor oxidation staining and some remnants of arsenal blue along the receiver. All markings remain intact and legible, the bolt parts and inside edge of the receiver marked with Turkish crescents and the mismatched front band with an original German unit marking that reads "83. R. 8. 203." The smooth walnut stock remains in about very good condition showing an older added dark brown finish over light dings, a few smoothed-over slivers along the edges of the forend and an area of worn finish on the right side butt. The stock shows remnants of Imperial German cartouches on the right side and behind the triggerguard. The barrel jacket is matching the receiver and the remaining numbered parts are a mismatched assortment. The rear detachable sling swivel and a cleaning rod are present, all of the usual 1905 updates have been performed and the action seems to function well mechanically. A very good example of these long-serving military rifles. (13A9565-2) {ANTIQUÉ} (300/400) Est. 300 - 400
2103	German P.08 Luger pistol by DWM serial #625f, 9mm, 4" barrel with a bright near excellent bore showing some frosting in the grooves and strong rifling throughout. The metal surfaces of this 1911-dated Weimar era police rework retain about 95% older reapplied rust blue finish showing some thinning along the gripstraps, some scattered light tool marks and remnants of old pitting beneath the blue. The small parts are a silvery pewter patina showing some remnants of straw color. The sear safety and magazine safety are no longer present, a unit marking along the frontstrap has been so vigorously removed that there is a 1 1/8" area broken through the frontstrap into the interior frame area and the remaining markings are otherwise intact with "1920" Weimar date stamp above the original production date. The more modern replacement checkered walnut grips remain in very good condition showing scattered light dings, the left panel is rather loose and ill-fitting. The grooved firing pin is un-numbered and the remaining serialized parts are matching, many of them likely re-numbered during arsenal rebuild. One bright-bodied wood base magazine re-numbered to the gun is included and the action seems to function well mechanically. (13A9547-1) {C&R} (600/800) Est. 600 - 800
2104	Unmarked Pair of European Percussion Pocket Pistols .45 cal, 3 7/8" octagon barrels with very good bores showing some scattered light pitting. The barrels show remnants of an etched damascus pattern having mostly toned to a pewter-gunmetal patina showing some remnants of old light pitting and one small area of slightly heavier pitting on the right side barrel of one pistol ahead of the nipple bolster. The remaining metal surfaces are similar, the back action lockplates, hammer and triggerguards embellished with some tasteful foliate scrollwork. The pistols are equipped with German silver wedge escutcheons and brass-tipped ramrods. The checkered ebony stocks remain in good condition showing some scattered age and grain cracks, one pistol showing a number of more moderate drying splits on either side and the checkering is somewhat worn. The undersides of the barrels are stamped with unidentified crown proofs with dual foliate branches, very French-looking in nature and both locks function crisply. Still a rather attractive little pair of percussion pocket pistols. (13B9563-5) {ANTIQUÉ} (500/700) Est. 500 - 700

Lot	Title/Description
2105	<p>Belgian Double Action Pinfire Pocket Revolver 7.65mm Pinfire, 3 1/2" barrel with a fair bore showing scattered pitting and areas of strong rifling. The barrel of this handsome little pistol retains perhaps 25% original bright blue mostly flaked to a pleasant deep plum-brown patina showing a few small spots of old oxidation staining. The cylinder retains about 90% original bright blue showing some more mild flaking and light oxidation staining. The frame has mostly toned to a mottled gray-brown and silvery case-hardened patina still showing some generous bold colors in the protected areas and scattered mild brown freckling. The folding trigger, hammer and ejector rod are partially bright showing scattered brown freckling and the arm is embellished with some light, tasteful foliate scrollwork. There are a few light dings at the muzzle and the screw heads show some slot wear but this is rather unobtrusive. The checkered ebony grips remain in very fine condition showing a few lightly chipped points and minor dings. The trigger requires a little manual assistance to reset and the action otherwise seems to function well mechanically with solid timing and lock-up. A very respectable pinfire pocket revolver. (13A9566-13) {ANTIQUE} (300/500) Est. 300 - 500</p>
2106	<p>Remington New Model Pocket Cartridge-Converted Revolver serial #23877 32 RF, 3 1/2" octagon barrel with a fair bore showing a few spots of moderate oxidation, light pitting and good rifling throughout. The barrel and cylinder retain perhaps 40% original bright blue showing flaking and overall toning to gray-brown patina, some scattered fine pinprick pitting and a few light dings. The loading lever retains about 80% original bright blue while the trigger and base pin retain some faint hints of fire blue. The frame is a pewter-gunmetal patina showing some scattered minor light pitting and freckling. The hammer shows good remnants of case-hardened colors and all markings remain crisp and clear. The smooth rosewood grips are pencil-numbered to the gun and remain in very fine condition retaining about 85% original varnish with some scattered light flaking and minor dings. All of the serialized parts are matching, the cylinder back plate and the barrel are matching by conversion number and the back plate is also matching the cylinder by assembly number. The action seems to function well mechanically with solid timing and lock-up. A solid example for the Remington collector, these popular little pocket revolvers were generally well-carried. (13B9566-14) {ANTIQUE} (500/700) Est. 500 - 700</p>
2107	<p>Belgian Single Shot Rocket Ball Parlor Pistol Converted to Flobert by Antoine Loron serial #155 .25 cal, 8" octagon smoothbore barrel with a good bore showing scattered light oxidation. The barrel of this interesting arm has mostly toned to a pewter-gunmetal patina showing some scattered remnants of old light pitting and some strong original bright blue around the breech area. The pivoting breechblock retains about 70% original bright blue and its retainer spring, the rear sight and the front sight retain a few flakes of fire blue. The hammer shows a period brazed repair and has been modified to fire rimfire flobert cartridges. The frame is a mix of pewter-gunmetal and silvery case-hardened patina showing some light freckling and minor pinprick pitting, the sides of the frame, tangs and triggerguard show some very nice tasteful foliate scrollwork. Both the barrel and frame are stamped in small font with maker's markings "LORON & G." The fluted walnut grip remains in very fine condition retaining about 30% original varnish with the balance flaked and otherwise the grip just shows a few light handling marks and some light foliate carving on the sides. The original small fixed target sights are intact and the action seems to function well mechanically. A very interesting example for the antique arms collector. (13B9566-12) {ANTIQUE} (300/500) Est. 300 - 500</p>

Lot	Title/Description
2108	<p>Custom DWM P.08 Luger Pistol serial #24650, 30 Luger, 7 1/2" custom replacement barrel with a bright excellent bore. The barrel retains about 95% original maker blue showing some wear at the muzzle and scattered light handling marks. The toggle retains about 90% arsenal rust blue showing some overall thinning and light operational wear. The remaining metal surfaces are a mottled blue-gray and pewter gunmetal patina showing some areas of minor pinprick pitting and freckling. The DWM monogram on the toggle remains intact and clear and the left side frame rail is period import-marked "GERMANY". The front edges of the receiver show a few deep vise marks and what appear to be a number of small circular weld repairs on the right side near the breech nicely finished over. The checkered walnut grips remain in about very good condition having darkened from the years also showing a small chip behind the safety lever and scattered light dings. The grips and un-grooved firing pin are un-numbered and most of the numbered parts appear to be matching. The pistol includes one bright-bodied Bakelite base Swiss magazine, some of the small parts are rather loosely fitted and the action otherwise seems to function well mechanically. (13A9543-123) {MODERN} [Phil Buker Collection] (600/800) Est. 600 - 800</p>
2109	<p>German Single Shot Parlor Pistol 22 RF, 2 1/8" part round part octagon smoothbore barrel with a partially bright bore showing some minor oxidation. The metal surfaces of this pistol retain perhaps 60% original nickel finish blending in nicely with silvery gunmetal throughout along with some small fine pinprick pits and mild freckling. The small parts show strong remnants of bright fire blue toning to a mild gunmetal patina and the breech is stamped with the "(Crown) / V" German 1893 voluntary inventory proof. The smooth walnut grips remain in very good plus condition retaining about 75% original varnish showing some light flaking and scattered minor dings. The pistol is equipped with sights, manual extractor and the hammer seems to function well mechanically. (13A9566-4) {ANTIQUE} (200/400) Est. 200 - 400</p>
2110	<p>Mauser Model 1914 Semi-Auto Pistol with German Army Markings serial #125950 32 ACP, 3 1/2" barrel with a very good bore showing some fine oxidation and strong rifling throughout. The metal surfaces of this pistol retain about 80-85% original blue showing some high edge wear, a few scattered pinprick pits, light freckling and the sideplate has toned to a mottled gray-brown patina. The trigger and barrel pin show generous amounts of bright fire blue with mild overall silvering, the right side grip screw head is broken and all markings remain crisp and clear, the slide is stamped ahead of the rear sight with small Imperial German military acceptance stamp. The checkered walnut grip remains in about good condition showing worn checkering, a couple tiny chips, dings and areas a little shy of the frame at the top edge. All of the serialized parts are matching, one original magazine with blank floorplate is included and there are no visible import marks. A very respectable example of a desirable military-accepted 1914. (13A9617-10) {C&R} (350/500) Est. 350 - 500</p>
2111	<p>Smith & Wesson 32 Safety Third Model Double Action Revolver serial #232619 32 S&W, 3" ribbed round barrel with a bright excellent bore showing just one tiny speck of light oxidation and strong rifling throughout. The metal surfaces of this late-production revolver retain about 90% original blue showing some scattered high edge wear, a few areas of light oxidation staining mostly along the right side frame and backstrap as well as some other light handling marks. The trigger shows good case-hardened colors with mild overall silvering. The black checkered hard rubber grips remain in near excellent condition showing some light scuffs and handling marks; the right panel is appropriately scratch-numbered to the gun. All other serialized parts are matching, barrel-to-frame fit is solid and the action seems to function well mechanically with solid timing and lock-up. (13A9617-11) {C&R} (200/300) Est. 200 - 300</p>

Lot	Title/Description
2112	Japanese Type 26 Double Action Revolver by Tokyo Arsenal serial #50698 9mm Japanese Ordnance, 4 3/4" barrel with a bright very good plus bore showing some fine oxidation nearer the muzzle and strong rifling throughout. The metal surfaces of this revolver retain about 85% plus Japanese arsenal-reapplied rust blue with most of the loss due to some scattered spots of light to perhaps moderate oxidation staining, some high edge wear and freckling. The original arsenal markings remain entirely intact and crisp as do many of the small inspection stamps. The checkered Asian hardwood grips remain in very fine condition showing a few lightly chipped points and some other minor handling marks. The cylinder is matching the barrel by assembly number, the barrel and other remaining parts are then all matching the frame by a different assembly number. The lanyard ring is present, barrel-to-frame fit is solid and the action generally seems to function well mechanically, lock-up and timing get off every now and then but are usually solid. A very good example arsenal-refurbished in the inter-war period, it will likely clean up rather nicely. (13A9567-27) {C&R} (350/500) Est. 350 - 500
2113	Winchester Model 12 Slide Action Shotgun serial #1336652 12 ga., 30" plain barrel choked full with a bright excellent bore. The barrel and magazine tube of this 1950-manufactured shotgun retain about 70% original faded blue with operational wear and the breech toning to a pewtery-gray patina with scattered small spots of light oxidation and minor handling marks overall. The receiver, receiver extension and triggerguard are toning to a gray patina with areas of minor staining, a few patches of fine pinprick pitting and remnants of original blue in the protected areas. The left side of the barrel is marked beneath the make and model with "FOR SUPER SPEED & SUPER-X 3 IN." The smooth walnut pistolgrip stock rates very good plus with a tiny hairline crack in the left side of the grip with flaking original finish and a few expected handling marks. The Winchester-branded red soft rubber recoil pad also remains in very good plus condition with minor edge wear providing a 13 5/8" length of pull and the checkered walnut forend rates near excellent with a worn original finish and a few light impact marks. The shotgun is equipped with a silver bead front sight, crossbolt safety and the smooth action appears to function well mechanically. (23A9314-330) {C&R} [Robert C. Greenberg Sr. Collection] (150/250) Est. 150 - 250
2114	Mossberg Model 340BB Bolt Action Rifle 22 S, L, LR, 24" barrel with a bright near excellent bore. The metal surfaces retain about 97% original blue which is fading ahead of the stock with spots of light oxidation and minor handling marks throughout with the bolt knob toning to a dark gray patina. The smooth hardwood pistolgrip stock with Monte Carlo cheekpiece rates near excellent with a tiny dent in the cheekpiece and minor toe wear while the Mossberg-marked checkered hard rubber buttplate remains in very good plus condition with light wear to the heel and toe. The rifle is equipped with sling swivels, hooded blade front sight which is canted to the right, "U" notch rear sight, Mossberg S330 receiver-mounted aperture sight and one original seven-round detachable box magazine marked "LR-ONLY". (23A9314-39) {C&R} [Robert C. Greenberg Sr. Collection] (75/150) Est. 75 - 150
2115	Custom Savage Model 340B Bolt Action Rifle 222 Rem, 24" barrel with a bright very good plus bore showing a few small spots of light pitting in the strong rifling. The barrel retains about 85% evenly-faded blue toning to a dark gray patina under bright light with a few small areas of loss on the top of the barrel toning to a gunmetal-gray patina, scattered small spots of light oxidation and a few minor handling marks. The action and bottom metal retain about 97% original blue with a few small spots of minor oxidation, light high edge wear and the bolt knob toning to a blue-brown patina. The custom Fajen smooth walnut pistolgrip stock with Monte Carlo comb and contrasting black noseclip and grip cap rates excellent displaying some attractive figure in the grain. The stock is equipped with swivel studs and the rear sight has been removed leaving an empty dovetail but the front sight blade with brass bead remains intact. Mounted to the receiver in a pair of Telstar 1" rings is a Bushnell Command Post Copechief II 2.5-8X32 scope with selectable crosshair or post and crosshair reticle and very good optics which remains in excellent condition. The rifle includes one original four-round detachable box magazine. (23A9314-35) {MODERN} [Robert C. Greenberg Sr. Collection] (100/200) Est. 100 - 200

Lot	Title/Description
2116	Custom Winchester Model 12 Slide Action Shotgun serial #782127 12 ga., 30" ventilated rib barrel choked full with a bright excellent bore. The barrel, receiver and receiver extension retain about 95% professionally reapplied blue with the top of the receiver matted, some light fading and high edge wear on the bottom of the receiver and receiver extension, a few spots of light oxidation and pinprick pitting at the rear of the receiver and in areas beneath the finish. The magazine tube is toning to a matted gray patina with the expected operational wear. The ventilated rib is marked "SIMMONS GUN SPECIALTIES". The smooth walnut pistolgrip stock with inlaid bust of a goddess and the ribbed walnut forend rate excellent with an added finish and a few light handling marks. The shotgun is missing the trigger group, stock bolt and buttplate, but all are readily available and the barrel is sighted with a pink fiber optic front bead and a white bead mid rib. (23A9313-18) {MODERN} [Robert C. Greenberg Sr. Collection] (50/150) Est. 50 - 150
2117	Mossberg Model 151M-B Semi-Auto Rifle 22 LR, 20" barrel with a mostly bright near excellent bore. The metal surfaces retain about 98% original blue with a few scattered spots of light oxidation. The two-piece Mannlicher-style smooth walnut pistolgrip stock with cheekpiece rates excellent with a few minor handling marks. The rifle is equipped with quick-detach sling swivels, 15-round tubular magazine stored inside the stock, a hooded globe-style front sight, "V" notch sporting rear sight and a Mossberg S-130 micro-click adjustable swing-away aperture sight is installed on the receiver. Mounted atop the grooved receiver in a Weaver .22 Tip-Off mount is a Weaver B4 4X12 scope with crosshair reticle and serviceable optics which remains in near excellent condition with minor signs of use. (23A9314-38) {C&R} [Robert C. Greenberg Sr. Collection] (100/200) Est. 100 - 200
2118	Mossberg Model 144-LS Bolt Action Rifle 22 LR, 26" barrel with a bright excellent bore. The metal surfaces retain about 98% original blue with one small area of loss on the top of the barrel toning to a brown patina and a few scattered light scratches and small spots of oxidation while the bolt knob is toning to a gray patina. The smooth walnut pistolgrip stock with slight palm swell, cheekpiece and beavertail forend rates excellent with a few very light handling marks. There is a very small hole in the stock where the safety's "S" symbol used to be and the stock is equipped with an adjustable hand stop rail, hand stop, front sling swivel and a sling swivel bracket (no swivel) in the toe line. The rifle is equipped with one original seven-round detachable magazine, and a hooded globe-style front sight and mounted to the grooved receiver in a pair of matte stainless rings is a Tasco 3-12X40 scope with duplex reticle and bright very good optics which remains in near excellent condition with a couple small scuffs on the left side of the body. (23A9314-37) {C&R} [Robert C. Greenberg Sr. Collection] (200/300) Est. 200 - 300
2119	Marlin Model 1895G Guide Gun Lever Action Rifle serial #00039796 45-70 Govt., 18 1/2" ported "JM" marked barrel with a bright excellent bore. The metal surfaces retain 99% original blue with a few scattered light handling marks. The checkered American black walnut straight grip stock and forend rate very good plus with a few light handling marks from honest use while the Marlin-logoed ventilated recoil pad remains in excellent condition. This wonderful brush gun is equipped with the original sights, a hammer extension and optics rail and a pair aluminum scope rings is included. (23A9543-150) {MODERN} [Phil Buker Collection] (350/550) Est. 350 - 550
2120	Marlin Model 1895M Lever Action Rifle serial #00078695 450 Marlin, 18 1/2" ported "JM" marked barrel with a bright excellent bore. The metal surfaces retain about 99% original blue with a few scattered handling marks. The checkered walnut straight grip stock and forend rate very good with a very tiny chip in the left wood line by the lower tang and a few light handling marks overall while the Decelerator recoil pad remains in excellent condition providing a 13 1/2" length of pull. The rear sight has been replaced by a slot blank and the rifle has been nicely upgraded with a XS ghost ring aperture sight mounted to the receiver and a high visibility white-lined blade front sight. A great brush gun in a potent modern chambering. (23A9522-13) {MODERN} [Phil Buker Collection] (400/600) Est. 400 - 600

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2121	Browning BLR 81L Lever Action Rifle serial #21932NX327, 30-06, 22" barrel with a bright excellent bore. The metal surfaces of this Japanese-manufactured Browning retain about 97% original blue with a few scattered small spots of light oxidation and light handling marks. The high gloss checkered walnut straight grip stock rates very good with a 4" light scratch on the right side of the butt and a few scattered scuffs and handling marks while the checkered forend rates very good plus with some fine handling marks. This handsome rifle is equipped with a gold-colored trigger and matching brass apertured Skinner "Express" sight mounted to the drilled and tapped receiver, the original rear sight remains intact and the front ramp is topped by a red fiber optic bead. One original 3-round detachable box magazine is included and the action appears to function well mechanically. (23A9651-6) {MODERN} (450/650) Est. 450 - 650
2122	Remington Model 740 Woodsmaster Semi-Auto Rifle serial #131909 30-06, 22" barrel with a bright excellent bore. The metal surfaces retain about 93% original blue which is thinning on the receiver with light high edge and muzzle wear, a few scattered handling marks and tiny spots of minor oxidation. The smooth walnut pistolgrip stock and fluted forend rate very good with some scattered dings and handling marks in the gloss finish. The rifle includes one original 4-round detachable box magazine, the original sporting sights remain intact and mounted to the receiver is an excellent condition Tasco 3-9x32 scope with duplex reticle and bright very good optics. (23A9466-4) {C&R} (150/250) Est. 150 - 250
2123	U.S. Model 1861 Percussion Rifle-Musket by Springfield Armory .58 cal, 40" barrel with a bright excellent bore. The metal surfaces display a speckled gray and brown patina with smoothed oxidized pitting throughout. The metal markings remain mostly visible with the lockplate dated "1862" to the rear of the hammer and Federal Eagle ahead and "U.S. / SPRINGFIELD" below the bolster, and while the date on the barrel is illegible, the "V / P" proof mark remains on the left flat. The smooth black walnut straight grip stock rates very good with a few scattered areas of darker discoloration and numerous light handling marks from the past 150 plus years and the left stock flat retains the remnants of two cartouches. The rifle-musket has been updated with a replacement nipple, modified square-bladed front sight and a square notched folding leaf insert for the Model 1861 rear sight base, the sling swivels remain intact and a correct swelled-shank cupped tulip-head ramrod with threaded base is included. The action remains crisp and appears to function well mechanically making this Model 1861 a good candidate for actual use. (23A9606-24) {ANTIQUÉ} (300/500) Est. 300 - 500
2124	SIG Arms Model SHR 970 Bolt Action Rifle serial #R08767, 30-06, 22" hammer-forged barrel with a bright excellent bore. The metal surfaces of this Swiss-manufactured rifle retain 99% black corrosion resistant finish with a couple tiny spots of wear on the triggerguard and a few light handling marks overall. The checkered walnut pistolgrip stock rates excellent save for a small bruise to the left of the triggerguard and a faint handling mark or two. The rifle is equipped with an interchangeable barrel system, 65 degree bolt throw, two optics mounts are installed on the drilled and tapped receiver and one factory 4-round detachable box magazine that will work with other calibers is included. (23A9628-2) {MODERN} (300/500) Est. 300 - 500
2125	Winchester Model 1885 Low Wall Winder Musket serial #122107 22 Short, 28" barrel with a bright excellent bore. The barrel of this Third Model musket retains about 90% original thinning blue which is toning to mottled dark gray patina in a few areas forward of the band with a few scattered tiny spots of light oxidation and handling marks. The thinside frame retains 98% original blue with a few handling marks, while the remaining metal surfaces retain about 70% original blue with the lever displaying a pewtery gray patina from use, the breech block retains almost all of its original case-hardened colors and all metal markings remain crisp. The smooth walnut straight grip stock rates very good plus as lightly cleaned with a period added finish, a tiny hairline crack behind the upper tang and a few scattered handling marks and has been altered to accept a flat trap buttplate which provides a 13" length of pull. The full-length musket forend rates very good plus with perhaps a touch of period added finish with a few light handling marks and appears to be from a Second Model as the slot for the band spring has been professionally filled. The sling swivels and original sights including the Lyman receiver sight remain intact and the action appears to function well mechanically. (23A9544-218) {C&R} (400/600) Est. 400 - 600

Lot	Title/Description
2126	Interarms Mark X Whitworth Bolt Action Rifle serial #B280364, 7mm Mauser, 24" barrel with a bright excellent bore. The metal surfaces of this svelte English rifle retain 99% original blue with a few scattered light handling marks. The checkered deluxe walnut pistolgrip stock with rounded shadow line cheekpiece, ebony forend tip and color case-hardened steel gripcap rates excellent plus with perhaps a light handling mark or two while the Whitworth-marked rubber rifle pad remains in excellent condition. This attractive rifle is nicely equipped with an adjustable trigger, hinged floorplate, swivel studs, a reliable Mauser action and is sighted with brass beaded blade front and adjustable "U" notch leaf rear. Mounted to the drilled and tapped receiver is a set of Burris bases and steel 1" rings ready for your choice of quality optic. A fine bolt action sporting rifle out of Manchester, England in wonderful condition. (23A9543-142) {MODERN} [Phil Buker Collection] (400/600) Est. 400 - 600
2127	Marlin Model 336CS Lever Action Carbine serial #26007616 30-30, 20" JM-marked Micro-Groove barrel with a bright excellent bore. The metal surfaces of this 1974-vintage carbine retain 99% original blue with very light oxidation around the rear sight dovetail and a few scattered handling marks from use. The smooth walnut capped pistolgrip stock and forend rate very good plus to near excellent with a slight handling mark or two. The carbine is equipped with a gold-colored trigger, hammer extension and intact sights including the "wide-scan" hood and the action appears to function well mechanically. (23A9580-21) {MODERN} (300/500) Est. 300 - 500
2128	Ruger Model 10/22 Semi-Auto Carbine serial #110-53297, 22 LR, 18 1/2" barrel with a bright excellent bore. The metal surfaces of this 1970-manufactured carbine retain 97% original blue and black anodized finishes with small white rectangles around the drilled and tapped holes from previous sight mounts, minor wear to the heel of the buttplate and a few scattered handling marks from light use. The smooth birch pistolgrip stock rates very good with scattered minor handling marks. The original sights remain intact and one factory 10-round rotary detachable box magazine is included. (23A9606-51) {MODERN} (100/200) Est. 100 - 200
2129	Winchester Model 59 Semi-Auto Shotgun serial #51370 12 ga., 26" plain Versalite-choked barrel with a bright excellent bore. The steel and fiberglass Win-Lite barrel and other metal surfaces retain 98% original blue and black anodized finishes with a few scattered handling marks. The brass-colored bolt release shows minor silvering from use while the solid brass triggerguard remains bright. Each side of the aluminum receiver is embellished with machine engraved splashes of loose foliate scroll and game scenes. The checkered walnut pistolgrip stock and forend rate very good with a 4" hairline crack in the underside of the forend where it meets the receiver and a few scattered handling marks and small spots of finish loss. The barrel is sighted with a brass bead and features a screw-in Versalite muzzle brake/modified choke and the action appears to function well mechanically. (23A9560-19) {C&R} (300/500) Est. 300 - 500
2130	Remington Model 740 ADL Woodsmaster Semi-Auto Rifle serial #173865 308 Win, 22" barrel with a bright excellent bore. The metal surfaces retain 97% original blue with a few scattered areas of light oxidation and a few scattered scratches and handling marks from honest use. The checkered walnut capped pistolgrip stock rates good with a small repaired chip in the right side of the grip behind the safety button, some minor dings on the comb, a few scattered spots of finish wear and a functioning compass is inlaid in the heel while the forend rates very good plus with a few light handling marks. No magazine is included (readily available online) but the original sling swivels and sights remain intact and mounted to the drilled and tapped receiver is a set of Weaver pivot mount 1" rings. (23A9560-15) {C&R} (100/200) Est. 100 - 200
2131	Ithaca Model 37R Featherlight Slide Action Shotgun serial #460218 12 ga., 28" plain barrel choked modified with a bright near excellent bore. The metal surfaces of this 1952-vintage shotgun retain about 92% original blue with a small streak of loss toning to gunmetal gray on the top of the barrel, light operational wear, a few handling marks and scattered spots of oxidation overall. All markings remain crisp and the sides of the receiver display machine engraved game scenes. The checkered walnut capped pistolgrip stock and grooved forend rate very good plus with some light crazing at the toe and a few minor handling marks. The barrel is sighted with a brass bead and the action appears to function well mechanically. (23A9560-30) {C&R} (200/400) Est. 200 - 400

Lot	Title/Description
2132	Remington Model 1100 LT-20 Ducks Unlimited Special Semi-Auto Shotgun serial #1734DU81, 20 ga., 25 1/2" ventilated rib barrel choked improved cylinder with a bright excellent bore. The metal surfaces of this Ducks Unlimited Special Edition shotgun from 1981 retain 99% original blue which is toning to plum under bright light along the barrel with just a couple light handling marks near the muzzle. Each side of the receiver is embellished with gold filled machine-engraved light scroll with a golden script "Ducks Unlimited Special" on the left side and a gold duck head logo on the right. The high gloss fleur-de-lis checkered walnut capped pistolgrip stock and fluted forend rate excellent save for a few tiny dings in the toe. The right side of the buttstock bears an attractive debossed Ducks Unlimited shield containing the flags of Canada, the United States and Mexico in the chief of the shield and a duck taking flight in the center. The shotgun is equipped with a gold-colored trigger and a white bead sight and the action appears to function well mechanically. (23B9580-3) (MODERN) (450/650) Est. 450 - 650
2133	Ithaca Model 37R Featherlight Slide Action Shotgun serial #464087 16 ga., 28" plain barrel with a bright excellent bore marked full but gauging modified. The metal surfaces of this 1952-manufactured shotgun are toning to an even plum-brown patina with good original blue in the protected areas, light operational and muzzle wear and a few scattered handling marks from the years. The left side of the receiver features a machine-rolled wetlands scene and the right an upland scene. The checkered walnut capped pistolgrip stock rates very good with a small repaired chip on the left behind the triggerguard and scattered light dings and handling marks from the field along with a small moderate bruise to the toe of the hard rubber buttplate while the grooved walnut forend rates very good plus with a minor scratch along the right side. The shotgun is sighted with a brass bead and the action appears to function well mechanically. (23A9560-20) (C&R) (200/400) Est. 200 - 400
2134	Winchester Model 12 Slide Action Shotgun serial #286128 16 ga., 26" plain barrel choked full with a bright excellent bore. The barrel of this 1921-manufactured shotgun retains 96% original thinning blue with scattered light handling marks, light muzzle wear and some thin streaks of loss from contact with the magazine plug stop. The magazine tube retains 50% original blue from operational wear while the remaining metal surfaces retain about 85% original blue displaying scattered areas of flaking toning to brown, light silvering on the high edges, a few small spots of light oxidation staining and numerous fine scratches on the left side of the receiver. The smooth walnut pistolgrip stock rates good with a couple short hairline cracks in the wrist, a small bruise in the toe line and areas of finish loss particularly along the comb and toe line while the grooved walnut forend rates very good plus with a few small spots of finish wear. The barrel is equipped with a silver bead and the action is very smooth and appears to function well mechanically. (23A9606-45) (C&R) (250/450) Est. 250 - 450
2135	Winchester Model 62A Slide Action Rifle serial #150382 22 S, L, LR, 23" barrel with a bright excellent bore. The barrel, action bar, bolt and triggerguard are toning to a dark gray patina with light muzzle, high edge and bearing surface wear and a few scattered handling marks with remnants of original blue in the protected areas. The frame and magazine tube retain about 70% original thinning blue with streaks of loss on the magazine toning to a brown patina and areas on the frame toning to a dull gray patina with a few scattered light handling marks. The smooth walnut straight grip stock and grooved forend rate near very good plus with a few minor dents in the wrist and scattered light handling marks typical of a rifle of this nature. All markings remain clear, the original sights are intact and the action appears to function well mechanically. (23A9560-38) (C&R) (300/500) Est. 300 - 500
2136	Boito Model A680 Boxlock Double Shotgun serial #12362 20 ga., 28" barrels with bright excellent bores choked modified and full. The metal surfaces of this Brazilian-manufactured shotgun retain about 97% original blue with a few scattered spots of light oxidation, a tiny patch of yellow discoloration at the breech of the left barrel and a few fine handling marks. Imported by SPESCO, the breech of the right barrel bears the import mark and each side of the frame is embellished with an engraved bust of an eagle along with the importer's name and loose foliate scroll on either side. The checkered Brazilian hardwood capped pistolgrip stock and forend rate very good with scattered light scratches and handling marks. The shotgun is equipped with gold-colored double triggers, an automatic tang-mounted safety and the action locks up securely. (23A9580-7) (MODERN) (150/350) Est. 150 - 350

Lot	Title/Description
2137	Western Field New Model Boxlock Double Shotgun serial #H59133, 12 ga., 28" barrels with bright excellent bores choked improved modified and full. The barrels are toning to a streaky blue-gray patina with a few scattered spots of light oxidation, minor silvering of the muzzle and scattered handling marks toning to brown. The forend iron and triggerguard are toning to a gray-brown patina with light oxidation while the frame has aged to a smoky case-hardened patina with scattered small spots of oxidation staining with the right side displaying a dog on point. The checkered walnut capped pistolgrip stock and forend rate very good with an added finish, a short hairline crack in the left side of the wrist and a few scattered dings and handling marks from honest use. The upper tang screw, buttplate and front bead are missing but the ivory bead at mid rib remains intact and the shotgun is equipped with an automatic safety and double triggers and the action locks up tightly. (23A9580-6) (C&R) (75/150) Est. 75 - 150
2138	Harrington & Richardson Bay State Single Barrel Shotgun serial #A647681, 16 ga., 28" plain barrel choked modified with a bright excellent bore. The barrel and top lever retain about 97% original blue with a few scattered light handling marks and tiny spots of light oxidation while the remaining metal surfaces are display a smoky case-hardened patina with a few small areas of oxidation staining and what appears to be splashes of dried oil or added protective finish. The smooth American hardwood pistolgrip stock rates good as lightly cleaned with a period added finish, a couple hairline cracks in the wrist and a few minor handling marks typical of these utilitarian shotguns while the forend rates very good with a few light handling marks. The shotgun is sighted with a brass bead and the lockup is tight. (23A9606-35) (C&R) (50/100) Est. 50 - 100
2139	Stevens Springfield Model 87M Semi-Auto Rifle 22 S, L, LR, 24" barrel with a bright excellent bore. The metal surfaces retain about 85% original thinning blue with the barrel forward of the magazine tube toning to an oxidized brown patina with light flaking on the magazine tube, a few scattered small spots of light oxidation and handling marks overall. The smooth walnut pistolgrip stock rates good as modified in the forend from its original configuration with some fine scratches where it has been shortened, scattered light handling marks and some small specks of what appears to be white paint on the toe. The original rear sight, upper hand guard and lower buttplate screw are missing, the rear sight appears to be a later replacement but the front sight and brass inner magazine tube remain intact and the action appears to function well mechanically. (23A9580-22) (MODERN) (25/50) Est. 25 - 50
2140	Winchester Model 60 Single Shot Bolt Action Rifle 22 S, L, LR, 23" barrel with a bright excellent bore. The metal surfaces are toning to a mottled gray-brown patina with pinprick pitting on the triggerguard and bolt handle and smooth speckles of oxidation staining overall. The smooth walnut straight grip stock rates very good with an added finish, a 1" hairline crack to the left of the upper tang and scattered dings and handling marks from use. The original sights remain intact and the action appears to function well mechanically. (23A9606-52) (C&R) (100/200) Est. 100 - 200
2141	Winchester Model 68 Single Shot Bolt Action Rifle 22 S, L, LR, 27" barrel with a bright near excellent bore with a couple light pits about 1" from the muzzle. The metal surfaces are toning to a brown patina with minor oxidation throughout and some white paint around the front sight. The smooth walnut pistolgrip stock rates very good with little original finish remaining, speckles of white paint on the butt and scattered light handling marks from the years. The original sights remain intact though the rear adjustable aperture sight is slightly bent and the action appears to function well mechanically. (23A9580-27) (C&R) (75/150) Est. 75 - 150
2142	Geco Model 1919 Single Shot Bolt Action Carbine serial #428 22 LR, 19" barrel with a bright good bore showing areas of light pitting in the strong rifling. The metal surfaces of this German-manufactured carbine are toning to a brown patina with light oxidation overall, light silvering at the muzzle and a few scattered handling marks. The serial-matched in-the-white bolt also displays light oxidation. The smooth European hardwood pistolgrip stock rates good with a heavily crazed finish and scattered handling marks from use. The original sights remain intact and the action will need mechanical attention as the firing pin will drop when the bolt is opened swiftly and the included bolt has been disassembled. (23A9580-19) (C&R) (25/50) Est. 25 - 50

Lot	Title/Description
2143	Custom Interarms Mark X Bolt Action Rifle serial #A309035, 6.5-06 Ack., 27" unmarked custom barrel with a bright excellent bore. The metal surfaces retain 99% maker matte blue with a few faint handling marks and very light operational wear on the bolt. The checkered and textured brick red synthetic Ram-Line pistolgrip stock rates excellent plus and features sling studs and a recoil pad. This Zastava-manufactured rifle is equipped with a hinged floorplate, right side tang safety and mounted to the drilled and tapped receiver on a Redfield one-piece mount is a pair of steel 30mm rings ready for your choice of quality optic to wring-out the performance of this flat-shooting cartridge. An excellent condition custom Mark X ready for your next hunt. (23A9543-175) {MODERN} [Phil Buker Collection] (400/600) Est. 400 - 600
2144	Crescent Firearms Co. Single Barrel Shotgun serial #113733 12 ga., 30" plain barrel with a bright excellent bore choked modified. The metal surfaces are toning to a brown patina with light pitting and oxidation overall and a few scattered light handling marks and small streaks of what appears to be white paint. The smooth walnut pistolgrip stock rates fair with multiple cracks in the wrist which is wrapped in black hockey tape and various minor dents and handling marks from use while the forend rates good with a couple hairline cracks in the wood line, a tiny streak of white paint and minor signs of use. The action of this Norwich, CT-manufactured shotgun appears to function well mechanically. (23A9580-15) {C&R} (25/50) Est. 25 - 50
2145	Remington No. 3 Rider Single Barrel Shotgun serial #14791 12 ga., 32" plain barrel with a very good bore showing areas of light pitting. The metal surfaces are toning to a mottled gray-brown patina with scattered spots of light oxidation and pinprick pitting, and some fine scratches near the forend button and right side of the frame. The smooth walnut rounded pistolgrip stock rates good with a couple tiny hairline cracks behind the upper tang, a small chip at the toe and scattered handling marks and faint streaks of what appears to be white paint, while the Remington-logged hard rubber widow's peak buttplate remains in good condition with a small chip at the toe. The forend rates fair with a few cracks and a chip to the left wood line. The top lever is a little loose but the action locks up and appears to function properly and the barrel is sighted with a brass bead. (23A9580-16) {C&R} (75/150) Est. 75 - 150
2146	U.S. Model 1842 Percussion Musket by Springfield Armory .69 cal., 42" barrel with an oxidized bore. The metal surfaces are toning to a brown-gray patina with light oxidation throughout, minor pitting on the hammer and bolster and scattered small areas of pinprick pitting and specks of what appears to be white paint. The lockplate is properly marked with a faint "(spread eagle) / U.S." ahead of the hammer and a crisp "SPRING / FIELD / 1848" to the rear while the barrel bears a "V / P / (eagle head)" proof mark. The smooth black walnut straight grip stock rates good with a few scattered cracks, a moderate chip and nail in the left side of the buttstock and a few scattered bruises and other signs of military service. The bayonet is no longer present but the sling swivels are intact and the action remains functional. The Model 1842 holds the distinction of being the first regulation percussion arm produced at both Federal armories using all interchangeable parts. (23A9612-2) {ANTIQUE} (500/700) Est. 500 - 700
2147	Scarce British Pattern 1853 Type II Percussion Rifle-Musket by Robbins & Lawrence .577 cal., 39" barrel with an oxidized bore. The barrel, solid bands and hammer are toning to a brown patina with scattered areas of light pitting and light oxidation throughout while the brass surfaces have aged to an ochre patina and the lockplate displays a pewtery patina with some patches of pinprick pitting and is properly marked with the Royal Cipher of Queen Victoria behind the hammer and "1858 / WINDSOR" and "(crown / broad arrow)" proof mark ahead of the hammer. The smooth American walnut straight grip stock rates fair with an 8" missing chip and 2 1/2" flexing crack in the left wood line at the breech, and a few scattered cracks and handling marks to be expected from a shoulder arm that may have served in the Civil War. The nipple, breech tang, rear sight, upper swivel, upper band spring and ramrod are no longer present but the lock remains strong and crisp. "Long Enfield" rifle-muskets manufactured by Robbins & Lawrence of Windsor, VT are known to have served with both Federal and Confederate troops and may have been used by Mexican nationalists against the French Foreign Legion during the Second Franco-Mexican War. (23A9542-1) {ANTIQUE} (500/700) Est. 500 - 700

Lot	Title/Description
2148	Percussion Conversion Musketoon with B. Evans Lock .69 cal., 31 3/4" barrel with an oxidized bore. The metal surfaces are toning to a gray-brown patina with light oxidation and scattered minor pitting throughout. The lockplate is marked "B. EVANS / PHILA" while the breech of the barrel has the remnants of a "P" proof mark that has been filled with brass brazing along with two other letters that are illegible. The smooth walnut straight grip stock rates near fair with a crack running from the rear of the lockplate around to the top of the sideplate which has been reinforced with a brass screw behind the upper tang, a 6" missing chip above the lockplate and scattered cracks and handling marks from the years. This musketoon appears to have originally been a U.S. Model 1816 Type I musket based upon the triggerguard, upper tang and buttplate. The middle band is mostly secure but does not fit behind the band spring, the sling swivels are intact, a brass bead has been added to shortened barrel and the lock remains strong and functional. (23A9580-23) {ANTIQUE} (75/150) Est. 75 - 150
2149	Russian SKS Semi-Auto Carbine by Izhevsk serial #AM342/CCCP57365, 7.62x39mm, 20 1/2" chrome lined barrel with a bright excellent bore. The metal surfaces of this 1953-manufactured Simonov carbine retain 98% arsenal blue with a few scattered light handling or storage marks and some small splashes of arsenal shellac on the trap buttplate and the bayonet remains bright. The smooth laminated hardwood pistolgrip stock and handguard rate excellent with a few scattered handling marks and abounds with various arsenal markings. The right side of the receiver is import-marked "C.D.I. SWAN VT", "MADE IN RUSSIA" and "CCCP57365" and all the correct parts are matching. The carbine is equipped with the original military sights, cleaning rod, cleaning kit and the bayonet locks up tightly while stowed and deployed. A beautiful and classic SKS carbine. (23A9574-95) {C&R} [James Traynor Collection] (400/600) Est. 400 - 600
2150	Lane & Read Percussion Halfstock Fowler about 8 ga., 32" barrel with an oxidized bore. The metal surfaces are toning to a brown patina with minor oxidation overall and a couple tiny spots of white paint while the brass mountings which includes a handsome engraved and finialed triggerguard have aged to a mustard patina. The lockplate is marked "LANE & READ / BOSTON" and is embellished with splashes of light foliate scroll engraving. The smooth walnut straight grip stock rates good with a crack ahead of the lock screw escutcheon and down the center of the ramrod channel, a small chip at the toe and ahead of the bolster, a few added nails and scattered light handling marks. The lock will need mechanical attention as the hammer will not stay cocked, the barrel is sighted with a brass bead and a steel ramrod is included. (23A9612-3) {ANTIQUE} (100/300) Est. 100 - 300
2151	Belgian Percussion Halfstock Fowler with Portusach Lock about 16 ga., 31 1/4" ribbed barrel with an oxidized bore. The metal surfaces are toning to a brown patina with small spots of light oxidation overall while the brass escutcheons display a warm mustard patina. The finialed triggerguard, lockplate, hammer, bolster, breech and buttplate tang are embellished with splashes of loose foliate scroll engraving with the lockplate marked in script "Portusach". The svelte checkered walnut straight grip stock rates good with a short flexing crack ahead of the lock screw escutcheon, a couple repaired tiny chips in the left side of the grip and scattered handling marks from the years and features a serpentine shaped butt which is cast-off putting the right-handed shooter's eye perfectly in-line with the barrel. The fowler is equipped with a German silver blade sight, the sling swivels remain intact, a wooden ramrod is included and the lock remains strong and crisp. (23A9648-3) {ANTIQUE} (100/300) Est. 100 - 300
2152	Ruger Mini 14 Ranch Semi-Auto Rifle serial #187-13139, 223 Rem, 18 1/2" barrel with a bright near excellent bore showing a few small spots of very light pitting in the strong rifling. The metal surfaces of this 1983-vintage rifle retain 99% original blue with very light bearing surface wear. The smooth American hardwood pistolgrip stock rates excellent with a few scattered light handling marks. The right action screw is a later replacement, the slings swivels and original sights remain intact and the rifle includes: two factory scope rings for the integral mounts on the receiver, the original manual, one factory 5-round magazine and one unmarked 20-round magazine. An excellent condition Ruger Ranch Rifle. (23A9574-37) {MODERN} [James Traynor Collection] (400/600) Est. 400 - 600

Lot	Title/Description
2153	German Underlever Single Shot Stalking Rifle by F. Dula serial #856 9.3x72R, 25 1/2" octagon barrel with a bright very good bore showing light frosting in the strong rifling. The matted-top barrel is toning to a dark gray patina with minor silvering on the high edges and scattered small spots of light oxidation with the right quarter-flat marked "MARBURG", the left quarter-flat "F. DULA" and the underside of the barrel is stamped with various German proofs. The frame, triggerguard and underlever display a pewtery patina with scattered light oxidation staining with the upper tang bearing the "D.G.R.M." copyright mark and splashes of loose scroll engraving adorn various areas of the aforementioned parts. The attractive checkered walnut round knob pistolgrip stock with cheekpiece rates near excellent as lightly cleaned with an old added finish, a very tiny repair and hairline crack to the right of the upper tang, and a few light handling marks while the schnabel-tipped forend rates excellent retaining much original finish. The rifle is equipped with a tang-mounted safety, cocking indicator, properly-functioning double set triggers and sling swivels and is sighted with a brass-beaded blade front and a one standing, one folding leaf rear sight. A lightweight and handsome German stalking rifle in nice condition. (23A9591-3) {C&R} (600/800) Est. 600 - 800
2154	Ruger Model 77/22 Bolt Action Rifle serial #700-07521, 22 LR, 20" cold hammer-forged barrel with a bright excellent bore. The metal surfaces of this 1984-manufactured first-year-production rifle retain 99% original blue with a couple fine specks of oxidation on the barrel and a few handling marks on the bolt knob. The checkered walnut capped pistolgrip stock rates excellent plus. The rifle includes one factory 10-round rotary box magazine and mounted to the receiver in a pair of Ruger rings is a Simmons Model 1010 3-9x32 with duplex reticle and bright very good optics in excellent condition retaining 99% original black anodized finish. (23A9574-55) {MODERN} [James Traynor Collection] (450/650) Est. 450 - 650
2155	Universal M1 Semi-Auto Carbine serial #116733 30 Carbine, 18" barrel with a bright excellent bore. The metal surfaces retain 96% original blue with light high edge and bearing surface wear, and a few scattered light handling marks and small spots of light oxidation. The smooth birch military-style pistolgrip stock rates excellent with perhaps a faint handling mark or two. The original sights and front sling swivel remain intact, the action appears to function well mechanically and the rifle includes the following: one original G.I. National Postal Meter "MN"-marked 15-round magazine, one "JAPAN" marked 15-round magazine and two unmarked 30-round magazines. (23A9543-6) {MODERN} [Phil Buker Collection] (300/500) Est. 300 - 500
2156	Parker PH Grade Boxlock Double Shotgun serial #67119 12 ga. on a No. 1 frame, 26" twist steel barrels with bright good bores choked cylinder showing areas of minor pitting. The barrels are toning to a plum brown patina with scattered small spots of light oxidation, staining and a few minor handling marks. The frame is engraved with the standard "P" style pattern of simple scroll and borders and is toning to a dark gray-brown patina with a few scattered spots of light oxidation while the triggerguard displays light flaking toning to brown with remnants of original bright blue. The checkered walnut capped pistolgrip stock rates very good plus with an older added finish, a couple tiny hairline cracks and some scattered light handling marks and features an unmarked shield-shaped monogram plate in the toe line. The dog's head hard rubber buttplate and Parker Bros.-marked gripcap remain in excellent condition with the buttplate providing a 14" length of pull. The splinter-style forend rates near excellent with a few light handling marks and retains good original case-hardened colors on the interior metal surfaces. The top lever has been customized with the tip bent to the right, the barrels are slightly off-face and the action will need mechanical attention as it does not cock. (23A9580-11) {ANTIQUE} (200/400) Est. 200 - 400

Lot	Title/Description
2157	Parker VH Grade Boxlock Double Shotgun serial #136866 12 ga. on a No. 1 1/2 frame, 26" shortened Vulcan steel barrels with bright excellent bores choked cylinder. The barrels have been cut on a slight angle and retain about 85% thinning reapplied blue with scattered small areas of light pitting and oxidation, a small dent midway along the left barrel which is faintly visible in the bore, a short streak of loss toning to gunmetal gray on the left breech and some scattered handling marks from honest use. The remaining metal surfaces displays simple zig-zag bordering and show a dull gray case-hardened patina with scattered spots of light oxidation. The checkered walnut capped pistolgrip stock and splinter forend rate good with scattered scratches and handling marks from the years, what appears to be a small circular repair in the left stock flat and there is a triangular gap in the heel where a rubber recoil pad has taken the place of the original widow's peak buttplate. The recoil pad has hardened and cracked from age and provides a 14 3/4" length of pull and the toe line features a script "H" engraved shield-shaped monogram plate. The shotgun is equipped with a brass bead sight, double triggers and an automatic safety, the barrels are slightly off-face and the action appears to function well mechanically. (239580-12) {C&R} (300/500) Est. 300 - 500
2158	Unmarked Percussion Double Shotgun about 10 gauge, 26" barrels with about very good bores showing some light oxidation. The barrels have toned to a pale gray and brown patina with remnants of original damascus and some scattered oxidation and pinprick pitting with an area of more moderate pitting about 5" from the breech. The top of the barrel is marked only "P.S. Newton". The rear tang, lock and triggerguard have a pleasing brown patina and loose foliate scroll engraving. The checkered walnut stock rates fair with handling marks, worn checkering and fading finish. The stock has been fitted with a period installed spring loaded wooden plunger buttplate and an added rather peculiar bulbous pistolgrip. The leather covered buttplate shows moderate cracking and crazing and the pistolgrip has a couple chips. Included is a period wooden ramrod with brass tip on one end and a threaded ball puller on the other. The rod has a 3" chip about 7" from the brass end. A rather interesting and creative percussion double. (23A9648-2) {ANTIQUE} (100/200) Est. 100 - 200
2159	Ruger 10/22 Semi-Auto Carbine serial #11686989 22 LR, 18 1/2" barrel with a bright excellent bore. The metal surfaces of this 1977-vintage carbine retain 99% original blue with very slight silvering on the edges of the triggerguard. The smooth American hardwood pistolgrip stock rates very good plus to near excellent with a few scattered minor handling marks. The carbine has added sling studs and includes one factory 10-round rotary box magazine and manual. Mounted to the top of the receiver in a pair of 1" Weaver rings is a Tasco SG2.5X32-1 2.5x32 scope with duplex reticle and bright very good optics retaining 98% original blue with a few light handling marks. (23A9574-19) {MODERN} [James Traynor Collection] (100/200) Est. 100 - 200
2160	Savage Model 93R17 BVSS Bolt Action Rifle serial #0238584 17 HMR, 21" stainless steel heavy barrel with a bright excellent bore. The stainless steel surfaces rate excellent plus. The brown checkered laminate hardwood Monte Carlo pistolgrip stock rates excellent with a faint handling mark or two. The rifle includes one factory 5-round detachable magazine, manual and paperwork and mounted to the drilled and tapped receiver in a pair of stainless steel 1" Weaver rings is a Tasco World Class 3-9x40 rifle scope with duplex reticle and bright very good optics in excellent condition retaining 99% silver anodized finish. (23A9574-27) {MODERN} [James Traynor Collection] (200/400) Est. 200 - 400
2161	Mossberg Model 500C Slide Action Shotgun serial #J895409, 20 ga., 18 1/2" plain barrel with a bright excellent bore choked cylinder. The metal surfaces retain 98% original blue and black anodized finishes with slight operational wear and a few light handling marks and a couple scattered tiny spots of light oxidation. The black checkered synthetic pistolgrip and grooved forend rate very good plus to near excellent with a few light handling marks. The shotgun is equipped with sling swivels, a 5-round magazine tube, tang mounted safety and a brass bead sight and the action appears to function well mechanically. (23A9574-1) {MODERN} [James Traynor Collection] (200/300) Est. 200 - 300

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2162	Remington Model 48 Sportsman Semi-Auto Shotgun serial #3804965 20 ga., 28" plain barrel with a bright near excellent bore marked as choked full but gauging cylinder showing a few tiny ripples in the barrel near the muzzle. The metal surfaces of this 1949-manufactured shotgun retain about 98% original blue with a few scattered handling marks and specks of light oxidation while the in-the-white bolt shows some very light oxidation staining. The checkered walnut capped pistolgrip stock and fluted forend rate very good with some scattered light handling marks and some excess finish on the duck embossed gripcap. The barrel is sighted with a silver bead and the action appears to function well mechanically. (23A9574-5) {C&R} [James Traynor Collection] (150/250) Est. 150 - 250
2163	Remington Model 870 Express Magnum Slide Action Shotgun serial #A801019M, 12 ga., 28" ventilated rib Rem Choke barrel with a bright excellent bore. The metal surfaces retain 99% original matte blue with a few light handling marks and some light verdigris on the barrel guide ring. The checkered American hardwood pistolgrip stock and forend rate excellent with perhaps a faint handling mark or two while the Uncle Mike's rubber non-slip pad remains in excellent condition providing a 13 1/4" length of pull. The barrel is sighted with a silver bead and comes with the following Rem Chokes: turkey super full for lead shot only, full, modified, improved cylinder. The shotgun includes a Tree Bark camouflage pattern padded cotton carrying case with belt loop containing the choke tubes, choke wrench and tool. A versatile shotgun in excellent condition. (23A9574-29) {MODERN} [James Traynor Collection] (200/300) Est. 200 - 300
2164	Ruger Mini-14 Stainless Ranch Semi-Auto Rifle serial #581-07297, 6.8 SPC, 18 1/2" stainless steel barrel with a bright excellent bore. The matte stainless steel surfaces rate excellent with perhaps a slight handling mark or two. The black checkered synthetic pistolgrip stock and ventilated forend rate excellent with a few light handling marks. The rifle is sighted with an aperture rear and protected post front, one factory 5-round detachable magazine is included and attached to the integral scope mounts is a pair of matte stainless steel Ruger rings containing a Maine Vue 2-7x32 scope with adjustable objective and bar and crosshair reticle with bright excellent optics retaining 99% original matte anodized finish with a few light handling marks. A desirable variation of the Mini-14 in a great caliber. (23A9543-180) {MODERN} [Phil Buker Collection] (600/800) Est. 600 - 800
2165	Ruger Mini-30 Semi-Auto Rifle serial #189-09365, 7.62x39mm, 18 1/2" barrel with a bright excellent bore. The metal surfaces of this 1988-manufactured rifle retain 99% original blue with some light bearing surface and high edge wear. The smooth walnut pistolgrip stock rates very good plus with a few scattered handling marks and a tiny chip in the finish on the right side of the buttstock. The synthetic buttplate shows minor toe and heel wear while the ventilated handguard remains in excellent condition. The original sights remain intact, no magazine is included but remain readily available, and a pair of steel Ruger rings, one of which is missing a mounting screw, are included. A handsome Mini-30 in excellent condition. (23A9543-185) {MODERN} [Phil Buker Collection] (300/400) Est. 300 - 400
2166	Remington Model 11-87 SP Semi-Auto Shotgun serial #PC342656, 12 ga., 25 1/2" ventilated rib Rem Choke barrel with a bright excellent bore. The barrel and "SPECIAL PURPOSE" marked receiver retain 99% Parkerized finish with perhaps a faint handling mark or two. The checkered walnut satin-finished pistolgrip stock and forend rate excellent plus while the Remington-marked ventilated rubber recoil pad also rates excellent plus. The barrel is sighted with a white bead, one Rem Choke modified choke tube is included and the action of this excellent condition shotgun appears to function well mechanically. (23A9531-9) {MODERN} (200/300) Est. 200 - 300
2167	Remington Model 1100 Left Hand Magnum Duck Semi-Auto Shotgun serial #N296972M, 12 ga., 30" ventilated rib barrel with a bright excellent bore choked full. The metal surfaces of this left hand shotgun retain 99% original blue with a few scattered light handling marks and slight high edge and muzzle wear while the engraved in-the-white bolt remains bright. The receiver features a left side ejection port and is embellished with loose foliate scroll engraving on both sides. The fleur-de-lis checkered walnut capped pistolgrip stock and forend rate very good with a few scattered light handling marks and a couple small hairline cracks at the heel while the Remington-marked ventilated rubber recoil pad remains in excellent condition. The shotgun features a lefty-friendly safety and is sighted with a silver bead and the action appears to function well mechanically. (23A9555-1) {MODERN} (300/400) Est. 300 - 400

Lot	Title/Description
2168	Remington Model 1100 Field Semi-Auto Shotgun serial #M550979V, 12 ga., 28" ventilated rib barrel with a bright excellent bore choked full. The metal surfaces retain about 97% original blue with some scattered light handling marks mostly near the loading port, a few tiny spots of light oxidation and light silvering of the high edges while the engraved in-the-white bolt remains bright. Each side of the receiver displays light foliate scroll engraving. The fleur-de-lis checkered walnut capped pistolgrip stock and fluted forend rate very good with a few scattered handling marks, some light toe wear and the diamond inlay is missing from the gripcap. The shotgun is sighted with a silver bead and the action appears to function well mechanically. (23A9555-2) {MODERN} (250/350) Est. 250 - 350
2169	Hi-Point Model 995 TS Semi-Auto Carbine serial #F136214, 9mm, 16 1/2" barrel with a bright excellent bore. The metal surfaces retain 97% black enamel finish with a few light handling marks mostly around the ejection port. The black synthetic pistolgrip stock rates very good plus with a faint handling mark or two and features a recoil-reduction system and Weaver-style rails under the barrel and forend and on top of the receiver. The charging handle appears to be a bolt-like replacement, the globe-style protector is missing from the front sight though the blade remains intact and the rear aperture sight is fully adjustable. The carbine includes one original 10-round detachable magazine and the action appears to function well mechanically. (23A9598-11) {MODERN} (75/150) Est. 75 - 150
2170	Chinese Type 56 SKS Semi-Auto Carbine serial #24003391 7.62x39mm, 20 1/2" chrome-lined barrel with a bright excellent bore. The metal surfaces of this "triangle code" 16-marked carbine manufactured in 1980 retain 99% arsenal blue with a few light handling marks while the smooth catalpa wood pistolgrip stock and handguard rates about very good plus with a few scattered light handling and rack marks. All the correct parts of the carbine are serial-matched to the receiver, the underside of the barrel is discreetly import-marked by Century Arms, a cleaning kit is stored within the buttstock, the cleaning rod and military-style sights remain intact and the bayonet locks up tightly while deployed and stowed. The action appears to function well mechanically and this excellent condition Type 56 appears to have seen little if any use. (23A9617-8) {MODERN} (300/500) Est. 300 - 500
2171	French Model 1866-74 Gras Single Shot Rifle by St. Etienne serial #N83101, 11mm Gras, 32 1/2" barrel with a bright excellent bore. Originally a Chassepot manufactured in 1872 at St. Etienne, this rifle was converted to 11mm Gras by the same arsenal in 1880. The barreled action retains 95% arsenal blue with some light muzzle and high edge wear and scattered spots of light oxidation and a few handling marks toning to brown under bright light while the bands display flaking and a few handling marks toning to brown. The triggerguard has been cleaned and is toning to a pewtery patina with a few small spots of pinprick pitting while the in-the-white bolt and buttplate show some light staining with the bolt handle toning to dark gray and all metal markings remain crisp. The smooth French walnut straight grip stock rates very good for its age with the scattered dings and handling marks expected of a military service rifle while the cartouches and other various markings remain crisp. All the serialized parts including the slotted ramrod match the receiver, the sling swivels and original sights remain intact and the action appears to function well mechanically. (23A9511-17) {ANTIQUÉ} (300/500) Est. 300 - 500
2172	Yugoslavian Model 59/66A1 SKS Semi-Auto Carbine by Kragujevac Arsenal serial #F-159648, 7.62x39mm, 24" barrel with a bright excellent bore. The metal surfaces of this 1969-manufactured carbine retain 98% arsenal blue with a small spot of loss toning to gunmetal gray on the top of the dust cover and gas tube and a few scattered light handling marks while many of parts remain coated in protective cosmoline. The smooth birch pistolgrip stock and handguard rate excellent with perhaps a light rack mark or two and all stampings remain crisp. The importer's mark is on the right side of the barrel and the following parts are serial-matched to the receiver: stock, triggerguard, dust cover, bolt, bolt carrier. The carbine is equipped with flip-up phosphorus night sights that have long since dimmed, a grenade launcher with folding sight, cleaning rod and a folding blade bayonet that locks up tightly in both positions. Included with this excellent condition SKS is a leather sling, bore-cleaning pull, cleaning kit, oiler, leather pouch and manual. (23A9608-13) {C&R} (300/500) Est. 300 - 500

Lot	Title/Description
2173	Remington Model 11-87 Premier Semi-Auto Shotgun serial #PC523211, 12 ga., 28" ventilated rib light contour Rem Choke barrel with a bright excellent bore. The metal surfaces retain 97% original blue with a few scattered light handling marks and minor high edge wear, a couple tiny specks of light oxidation on the rib, a few small spots on the top of the receiver that are lightly faded and the bolt handle is toning to a plum patina. The receiver is nicely embellished on both sides with splashes of foliate scroll engraving with "Remington 11-87" in a ribbon on the left and "PREMIER" on the right. The satin-finished checkered walnut capped pistolgrip stock rates very good with a few scattered light handling marks and a small triangular chip in the toe line where a sling stud was added while the forend rates excellent with perhaps a light handling mark or two. The shotgun features a gold-colored trigger and is sighted with a white bead and a silver bead mid-rib and includes one improved cylinder Rem choke tube. (23B9466-11) {MODERN} (250/450) Est. 250 - 450
2174	Marlin Model 99C Semi-Auto Rifle serial #27233430 22 LR, 22" Micro-Groove barrel with an excellent bore. The metal surfaces retain 95% original blue and black enamel finishes with minor high edge wear, a few scattered tiny spots of light oxidation and a small spot of loss inside the triggerguard toning to gunmetal gray. The checkered walnut pistolgrip stock rates very good with a few scattered handling marks and what appears to be spots of white paint and the Marlin "bullseye" is missing from the toe line. The original sights and brass inner magazine tube remain intact and the action appears to function well mechanically. (23A9466-13) {C&R} (50/100) Est. 50 - 100
2175	Browning Auto-5 Light Twelve Semi-Auto Shotgun serial #298243 12 ga., 24" plain barrel with a bright excellent bore choked improved cylinder. The metal surfaces of this Belgian-manufactured shotgun retain 96% professionally reapplied blue with a few scattered small spots of light oxidation and fine pitting, light silvering of the high edges and some minor fading around the loading port. The receiver is embellished with splashes of loose foliate scroll engraving while the left side is marked in script "Light Twelve" along with a bust of J.M. Browning. The checkered French walnut rounded pistolgrip stock and fluted forend rate very good with a nicely-done light added finish, a tiny hairline crack behind the upper tang, a few light handling marks and the stock is slightly loose while the Pachmayr rubber non-slip pad provides a 13 3/4" length of pull. The shotgun is sighted with a silver bead and the action appears to function well mechanically. (23A9466-9) {C&R} (300/500) Est. 300 - 500
2176	Remington Model 11-48 Semi-Auto Shotgun serial #5564860 16 ga., 28" plain barrel with a bright excellent bore marked modified but gauging improved cylinder. The metal surfaces retain 95% original blue toning to dark gray around the loading port with some scattered scratches and handling marks overall and a few small spots of light oxidation. The checkered walnut pistolgrip stock rates very good plus to near excellent with a few light handling marks while the forend rates very good with a hairline crack in the right and left side at the receiver. The shotgun is sighted with a silver bead and the action appears to function well mechanically. (23A9544-46) {C&R} (100/200) Est. 100 - 200
2177	Savage Axis Bolt Action Rifle serial #H434156, 243 Win, 20" barrel with a bright excellent bore. The metal surfaces retain 99% plus original Parkerized finish, the in-the-white bolt remains bright and the black synthetic textured pistolgrip stock rates excellent plus. The rifle is equipped with a tang mounted safety, sling studs and one factory 4-round detachable magazine and mounted to the drilled and tapped receiver is a Bushnell 3-9x40 scope with duplex reticle and bright very good optics retaining 99% black anodized finish. (23A9575-4) {MODERN} (200/300) Est. 200 - 300

Lot	Title/Description
2178	Swiss K31 Bolt Action Short Rifle serial #715209 7.5 Swiss, 25 1/2" barrel with a bright excellent bore. The metal surfaces of this 1942-manufactured rifle retain 90% arsenal blue toning to dark gray on the barrel with minor high edge and muzzle wear, a few light handling marks and a few scattered specks of light oxidation. The smooth beech pistolgrip stock and handguard rate very good with light finish wear around the buttplate and scattered dents and dings, particularly on the comb and toe line from military service. The Swiss cross cartouche on the left side of the buttstock remains crisp as do all the metal markings, and the barrel, bolt and 6-round magazine are serial-matched to the receiver and the underside of the barrel is discreetly import-marked by Samco. The stacking rod, sights and sling swivels remain intact and the rifle includes a correct muzzle protector, correct leather sling, and one stripper clip, there is a troop tag beneath the buttplate and the action of this high-quality rifle remains characteristically smooth. A fine example of these superbly accurate and desirable rifles. (23A9574-94) {C&R} [James Traynor Collection] (500/700) Est. 500 - 700
2179	Remington Model 1100 Field Semi-Auto Shotgun serial #440427V, 12 ga., 28" ventilated rib barrel with a bright excellent bore choked modified. The metal surfaces retain 99% original blue with a few small areas of light oxidation on the barrel, light high edge wear and a few scattered handling marks while the in-the-white bolt remains bright and both the bolt and sides of the receiver are embellished with loose scroll engraving. The fleur-de-lis checkered walnut capped pistolgrip stock and handguard rate very good with a couple tiny abrasions on the left side of the buttstock and a few scattered light handling marks while the contrasting black gripcap features a white diamond inlay. The barrel is sighted with a silver bead and the action appears to function well mechanically. (23A9466-10) {MODERN} (250/350) Est. 250 - 350
2180	Remington 1100 LT-20 Synthetic Semi-Auto Shotgun serial #R184630K, 20 ga., 26" ventilated rib Rem Choke barrel with a bright excellent bore. The metal surfaces retain 99% original matte blue with a few scattered spots of light oxidation and each side of the receiver displays a splash of loose scroll engraving. The checkered synthetic pistolgrip stock and forend rate excellent with perhaps a faint handling mark or two. The barrel is sighted with a silver bead front and brass bead mid-rib and one Rem Choke skeet choke tube is included. The action of this excellent condition shotgun appears to function properly. (23A9544-55) {MODERN} (200/400) Est. 200 - 400
2181	Remington Nylon 66 Semi-Auto Rifle serial #A2307685, 22 LR, 19 5/8" barrel with a bright near excellent bore. The metal surfaces retain 99% original blue with the front sight blade toning to plum and a few scattered specks of light oxidation. The Black Diamond checkered Zytel pistolgrip stock rates very good plus with a few light handling marks on the buttstock. The original sights remain intact and the action appears to function well mechanically. (23A9601-2) {MODERN} (300/400) Est. 300 - 400
2182	Marlin Golden 39A Lever Action Rifle serial #AB13993, 22 S, L, LR, 24" JM-marked Micro-Groove barrel with a bright excellent bore. The metal surfaces of this 1966-vintage rifle retain 99% original blue with a few scattered handling marks while the trigger retains 99% gold plating. The smooth walnut pistolgrip stock rates excellent as lightly cleaned with an added finish while the forend also rates excellent. The sling swivels and original sights including the sight hood remain intact, a JM-marked hammer extension is installed and mounted to the receiver in a Weaver Tip-Off mount is a Weaver C6 6x scope with crosshair reticle and bright very good optics retaining 99% original blue and black enamel finishes with a few light handling marks. The action of this classic rifle appears to function well mechanically. (23A9563-23) {C&R} (350/550) Est. 350 - 550
2183	Remington Model 1100 LW Semi Auto Shotgun serial #M217798H, .410 bore, 25" ventilated rib barrel with a bright excellent bore choked skeet. The metal surfaces retain 99% original blue with the magazine cap toning to plum and a few faint handling marks while the in-the-white bolt remains bright. The scaled-down receiver is embellished with a splash of loose scroll engraving on each side and the barrel is marked "PLASTIC SHELLS ONLY". The fleur-de-lis checkered capped pistolgrip stock rates excellent save for a tiny chip in the toe of the hard rubber buttplate and perhaps a faint handling mark or two while the forend rates excellent. The barrel is sighted with a white front bead and a silver bead mid-rib and the action appears to function well mechanically. A handsome skeet-choked small bore 1100 in excellent condition. (23A9544-122) {MODERN} (500/700) Est. 500 - 700

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2184	Mossberg 590 Special Purpose Slide-Action Shotgun serial #R716884, 12 ga., 20" barrel with an excellent bore. The metal surfaces retain 98% original blue with a few tiny scratches on the receiver, scattered light handling marks and very light operational wear. The black synthetic pistolgrip stock, triggerguard and grooved forend rate excellent while the added rubber recoil pad remains in excellent condition providing a 14 1/2" length of pull. The shotgun is equipped with a ventilated heat shield, bayonet lug (compatible bayonets are also available in the online auction), 9-round magazine, tang mounted safety and the barrel is sighted with a brass bead. The action of this heavy-duty shotgun appears to function well mechanically. (23A9544-132) {MODERN} (250/350) Est. 250 - 350
2185	Mossberg Model 800 BV Bolt Action Rifle serial #00127B, 243 Win, 24" heavy-profile barrel with a bright excellent bore. The metal surfaces retain 98% plus original blue with a few scattered small areas of light oxidation and a couple light handling marks. The checkered walnut Monte Carlo pistolgrip stock with gripcap and right-handed cheekpiece rates very good with some scattered small dents and minor handling marks overall from honest use. The rifle is equipped with a tang mounted safety, hinged floorplate, sling swivels, a barrel drilled and tapped for sights and attached to the receiver in a pair of Weaver 1" rings is a Herter's 4-12x40 Japanese-manufactured scope with crosshair reticle and stadia marks out to 500 yards with very good optics. The scope remains in excellent condition retaining 99% black anodized finish with a few light handling marks and includes a pair of screw-on lens covers. (23A9544-59) {C&R} (200/300) Est. 200 - 300
2186	ITM Arms Co. Model 99 Semi-Auto Rifle serial #BR15614/0003660, 7.62x39mm, 16" chrome-lined barrel with a bright excellent bore. This Hungarian AMD-65 clone was built on a USA-manufactured receiver using all matching parts (trunnion, bolt, bolt carrier, recoil spring assembly, gas tube, dust cover) while the barrel is numbered to another gun and the piston was manufactured by Tapco. The metal surfaces retain about 90% maker black enamel finish with some scattered spots of light oxidation, minor bearing surface and high edge wear, and various light scratches and handling marks from the years. The gray-polymer pistolgrip rates very good with numerous light scratches and signs of use while the wire folding stock remains in excellent condition and locks up securely in both positions. No magazine is included but are available in the online auction and the rifle is equipped with intact military-style sights, cleaning rod, sling swivels and a permanently affixed muzzle brake. (23A9545-1) {MODERN} (250/450) Est. 250 - 450
2187	Nodak Spud Model NDS-1P AKMS Semi-Auto Rifle serial #G004797, 7.62x39mm, 16" chrome-lined barrel with a bright excellent bore. This Polish AKMS clone was built using an American-manufactured receiver with correct "C" and "P" Polish military selector markings and a Polish Radom "Circle 11" all-matching parts kit including 1988-dated trunnion, bolt, bolt carrier, recoil spring assembly, gas tube and dust cover. The receiver and barrel retain 99% maker blue while the remaining military-surplus parts retain about 85-90% original black enamel finish with high edge and bearing surface wear, the toe of the underfolding stock toning to gunmetal gray, and scattered minor scratches and handling marks giving the rifle that desirable "battlefield pickup" look. The checkered Bakelite pistolgrip rates near excellent with a few light handling marks while the smooth laminated hardwood forend and handguard remain in very good plus condition with a few handling marks to be expected from military use. The stock locks up well in both positions and the rifle is equipped with the original military sights and slant muzzle device, a Tapco G2 fire control group, cleaning rod, one original steel 30-round magazine and the action appears to function well mechanically. A very nicely-executed Polish AKMS-style rifle. (23A9574-8) {MODERN} [James Traynor Collection] (400/600) Est. 400 - 600
2188	Ruger Mini-30 Semi-Auto Rifle serial #189-07796, 7.62x39mm, 18 1/2" barrel with a bright excellent bore. The metal surfaces of this 1987-manufactured rifle retain 99% original blue with light bearing surface wear and a few scattered specks of light oxidation. The smooth walnut pistolgrip stock rates near excellent with a few very light handling marks while the black synthetic handguard rates excellent. The original sights and sling swivels remain intact and the rifle includes two factory 5-round magazines, a pair of Ruger scope rings, the original box properly numbered to the gun and factory paperwork. The action of this attractive rifle appears to function well mechanically. (23A9650-27) {MODERN} (400/500) Est. 400 - 500

Lot	Title/Description
2189	Romanian AES-10 Semi-Auto Rifle by Cugir Arsenal serial #AS1-01290-06, 7.62x39mm, 23" chrome-lined barrel with a bright excellent bore. The metal surfaces of this RPK-style rifle retain 95% original blue and Parkerized finishes with minor high edge and bearing surface wear, a few scattered spots of light oxidation and various light handling marks typical of these Romanian firearms. The smooth European beech clubfoot stock, forend and handguard rate excellent save for a tiny unobtrusive chip in the right side of the comb while the Magpul MOE textured polymer pistolgrip appears as-new. The rifle is equipped with a correct folding steel bipod, folding carry handle, Tapco G2 trigger group and 30-round detachable magazine, ambidextrous rear sling attachment points and the original sling swivels and military-style sights remain intact. The following parts are all correctly numbered to the gun: bolt, bolt carrier, dust cover, and gas tube and the action appears to function well mechanically. A very nice example of these desirable rifles imported by Century Arms. (23A9570-6) {MODERN} (500/700) Est. 500 - 700
2190	Remington 870 Express Synthetic Tactical Slide Action Shotgun serial #AB029782M, 12 ga., 18 1/2" barrel with a bright excellent bore choked cylinder. The metal surfaces retain 98% plus original black oxide finish with scattered unobtrusive freckles of oxidation and a couple minor handling marks. The checkered synthetic pistolgrip rates excellent while the forend rates very good plus with a few faint handling marks. The shotgun features a 3" chamber, full-length magazine tube, a matte silver bead sight and a high-visibility follower and the action appears to function well mechanically. (23A9544-134) {MODERN} (150/250) Est. 150 - 250
2191	Mossberg Model 800A Bolt Action Rifle serial #961921 308 Win, 22" barrel with a bright excellent bore. The metal surfaces retain 97% original blue with scattered tiny spots of light oxidation and a few minor handling marks on the barrel. The checkered walnut Monte Carlo pistolgrip stock with right hand cheekpiece rates very good plus with an added finish and a few scattered light handling marks and some light residue on the gripcap while the Western Field-marked ventilated rubber recoil pad remains in similar condition and provides a 14 1/4" length of pull. The original sights and sling swivels remain intact and the rifle is equipped with a hinged floorplate, tang mounted safety and mounted to the receiver is a Sears Ted Williams 4x scope with crosshair reticle and very good optics retaining 97% original blue with a few fine oxidation freckles and light handling marks. (23A9544-26) {C&R} (150/250) Est. 150 - 250
2192	Marlin Model 336 RC Lever Action Carbine serial #J40213, 30-30, 20" JM-marked barrel with a bright excellent bore. The metal surfaces of this 1952-manufactured first model carbine are toning to a gray patina with scattered tiny spots of oxidation staining, light high edge and muzzle wear and remnants of original blue in the protected areas. The smooth walnut straight grip stock and forend rate good with a period added finish, a few hairline cracks and scattered tiny chips and handling marks from the years and the buttplate spacers are poorly fit. The original sights remain intact and the action appears to function well mechanically. (23A9571-19) {C&R} (200/300) Est. 200 - 300
2193	Marocchi Iver Johnson Silver Shadow Boxlock Over Under Shotgun serial #046098 12 ga., 27 3/4" ventilated rib barrels with bright excellent bores choked full. The metal surfaces of this Italian-manufactured shotgun retain 97% original blue which is slightly thinning on the barrels with the breeches and top lever toning to plum and a few scattered small areas of light oxidation on the barrels and rib. This attractive shotgun is embellished with engraved game scenes on each side of the frame with splashes of loose foliate scroll bordering. The beautiful checkered European walnut capped pistolgrip stock and forend rate excellent with a few scattered light handling marks in the gloss finish. The shotgun is equipped with a single inertial trigger, tang mounted safety and brass bead sight and the action appears to function well mechanically. (23A9600-2) {MODERN} (400/600) Est. 400 - 600
2194	Remington Model 870 Express Slide Action Shotgun serial #B905705H, .410 bore, 25" ventilated rib barrel with a bright excellent bore choked full. The metal surfaces retain 98% plus original Parkerized finish with the barrel guide ring toning to plum and scattered unobtrusive small areas of light oxidation on the barrel and rib. The checkered American hardwood pistolgrip stock rates very good with a few tiny chips in the stained finish while the forend rates very good plus with a few light handling marks. The barrel features a 3" chamber and silver bead sight and the action appears to function well mechanically. (23A9544-120) {MODERN} (150/250) Est. 150 - 250

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2195	Savage Model 24C Combination Gun serial #B494188, 22 LR / 20 ga., 20" barrels with bright excellent bores with the shotgun barrel choked cylinder. The barrels of this Series-P "Camper's Companion" retain 99% original blue with a few scattered light handling marks while the frame retains 99% original case-hardened colors. The smooth hardwood straight grip stock rates very good with a few light handling marks while the forend rates excellent with a faint handling mark or two. The buttstock features a compartment that will hold one 20 ga. shotshell and 10 rounds of 22 LR ammunition, the barrels are sighted with a red fiber optic bead front and green fiber optic two dot rear notch and the action of this excellent condition Model 24 C appears to function well mechanically. (23A9574-21) (MODERN) [James Traynor Collection] (400/600) Est. 400 - 600
2196	Remington Nylon 66 Semi-Auto Rifle 22 LR, 19 5/8" barrel with a bright excellent bore. The metal surfaces retain 95% original blue with tiny specks of light oxidation, a small spot of loss toning to a brown patina ahead of the tang safety and a few scattered handling marks and minor high edge wear on the front sight. The Mohawk Brown checkered Zytel pistolgrip stock rates very good with scattered light handling marks and fine soiling in the checkering from honest use. The original sights remain intact and the action appears to function well mechanically. (23A9544-52) (C&R) (200/300) Est. 200 - 300
2197	Ithaca Model 49 Saddlegun Single Shot Rifle serial #160175 22 S, L, LR, 18" barrel with a bright excellent bore. The barrel and faux magazine tube retain 97% original blue with specks of light oxidation throughout while the remaining metal surfaces retain a similar amount of black enamel finish with light high edge wear, tiny specks of silvering and some light loss on the bottom of the front sight base. The smooth walnut straight grip stock rates excellent while the forend rates very good plus with a few light handling marks. The original sights remain intact and the Martini-style falling block action appears to function well mechanically. (23A9544-88) (MODERN) (50/100) Est. 50 - 100
2198	Ruger 10/22 50th Anniversary Semi-Auto Carbine serial #RCS1-10557, 22 LR, 18 1/2" barrel with a bright excellent bore. The metal surfaces of this 50th Anniversary commemorative carbine retain 98% original blue and black enamel finishes with a few scattered spots of light oxidation on the barrel, and some very tiny dings in the upper left edge of the receiver. The right side of the receiver is marked "FIFTY YEARS 1964-2014" and the bolt displays "50". The checkered black synthetic pistolgrip stock rates very good plus with a few light handling marks and light wear at the heel. The front fiber optic bead sight is missing but the rear green fiber optic two dot notch sight remains intact, a pair of Uncle Mike's quick-detach sling swivels and one factory 10-round rotary box magazine are included and the original promotional stickers loosely remain on each side of the stock and on the forend. (23A9544-254) (MODERN) (75/150) Est. 75 - 150
2199	Mossberg/New Haven 600 AST Slide Action Shotgun serial #G978816, 12 ga., 28" ventilated rib C-Lect choke barrel with a bright excellent bore. The metal surfaces display a green and yellow spray painted camouflage pattern that is lightly worn in scattered areas revealing generous amounts of original blue. The checkered American hardwood pistolgrip stock and forend rate very good with a few scattered light handling marks and also display the same lightly worn camouflage pattern. The shotgun is equipped with a tang mounted safety and C-Lect adjustable choke system, the barrel is sighted with a silver bead and the action appears to function well mechanically. (23A9601-6) (MODERN) (75/150) Est. 75 - 150
2200	Marlin 20th Anniversary Model 75-20 Semi-Auto Rifle serial #WL001737, 22 LR, 18" Micro-Groove JM-marked barrel with a bright excellent bore. The metal surfaces retain 99% original blue and black enamel finishes with a few scattered minor handling marks while the in-the-white bolt remains mostly bright with a couple tiny spots of light oxidation and the barrel is marked "LIMITED EDITION". The smooth walnut Monte Carlo pistolgrip stock rates excellent plus with the right side of the buttstock featuring an inlaid brass medallion depicting a youth holding a Model 75 with his father/grandfather with a script "Limited Edition" at the top and "1962-1982 / 20th Anniversary Special" at the bottom along with the original factory ammunition advisory sticker. The rifle features a gold-plated trigger, the original sights remain intact and the action appears to function well mechanically. (23A9544-168) (MODERN) (100/200) Est. 100 - 200

Lot	Title/Description
2201	Winchester Super-X Model 1 Semi-Auto Shotgun serial #M30306, 12 ga., 28" ventilated rib barrel with a bright excellent bore choked modified. The metal surfaces retain 98% original blue with the breech toning to plum and a few scattered spots of light oxidation, particularly on the magazine cap, while the engine-turned bolt and lifter remain mostly bright with tiny specks of oxidation staining on the lifter. The sharply-checkered walnut capped pistolgrip stock and forend rate about excellent with a few very light handling marks while the Winchester Repeating Arms-marked ventilated rubber recoil pad rates excellent. The shotgun is sighted with a silver bead at the muzzle and mid-rib and the action appears to function well mechanically. An excellent condition Super-X Model 1 that appears to have seen little if any use. (23A6520-2722) (MODERN) [Richard "Stretch" Kennedy Collection] (300/500) Est. 300 - 500
2202	Custom U.S. Springfield Armory Trapdoor Carbine serial #516607 44 Magnum, 18 1/2" barrel with a bright excellent bore. The barrel is toning to a slate gray patina with a few scattered small spots of oxidation staining and a few light handling marks while the 1884-dated breechblock, receiver, thumbpiece and barrel tang display a lightly stained smoky gray case-hardened patina. The remaining metal surfaces have aged to a brown patina with light pinprick pitting and light oxidation and the lockplate shows a Federal Eagle ahead of the hammer and a softened "US / SPRINGFIELD" below the thumbpiece and the barrel is marked "44 REM MAG". The shortened smooth black walnut straight grip stock rates very good as refinished with scattered light dings and handling marks overall and the ramrod channel is nicely filled at the forend tip while the grooved hard rubber buttplate remains in excellent condition. The firing pin is missing but replacements remain readily available, the carbine is sighted with a Marble's 26N brass beaded-blade front and a folding leaf rear and the three-position tumbler and lock are strong and crisp. Published data suggests that Springfield Trapdoor actions are not designed to handle 44 Magnum pressures, therefore it is imperative that this firearm is inspected by a competent gunsmith before any thought is giving to firing. A uniquely-chambered custom Trapdoor carbine sure to get attention at the range. (23B9544-307) (ANTIQUÉ) (200/400) Est. 200 - 400
2203	Smith & Wesson Model 17 K-22 Masterpiece Double Action Revolver serial #K409839, 22 LR, 6" pinned barrel with an excellent bore. The metal surfaces of this 1960-made gun retain roughly 96-97% original blue, the service hammer and trigger show vibrant color. The checkered diamond factory grips with silver S&W medallions are near very good, there are scattered blemishes and maybe a touch of added finish. The rear sight is a micro-adjustable square-notch blade, the front sight is a Patridge blade. (22A9468-24) (C&R) (400/600) Est. 400 - 600
2204	AMT Automag II Semi-Auto Pistol serial #Z64017, 22 Rimfire Magnum, 4 1/2" barrel with an excellent bore. The matte stainless steel surfaces are near excellent with some scattered blemishes. The horizontally-serrated Lexan factory grips are excellent. The pistol is equipped with Millett sights, a white outline adjustable rear and a white insert front. This somewhat rare 4 1/2" barrel Irwindale pistol comes with a single factory magazine. (22A9543-223) (MODERN) [Phil Buker Collection] (500/700) Est. 500 - 700
2205	Ruger Old Army US Cavalry Commemorative Percussion Revolver serial #145-95827, 44 cal, 7 1/2" barrel with an excellent unfired bore. The metal surfaces retain 99% plus original deep blue with "DUTY HONOR COUNTRY" and two crossed sabres in gold on the sides of the cylinder and gold "U.S." on the knuckle. The smooth walnut grips with silver Phoenix medallion and etched "U.S." are excellent. The revolver is sighted with an adjustable blade rear sight and a Patridge-style front sight. Included is the original factory hard case with manual and lock. (22A9543-160) (ANTIQUÉ) [Phil Buker Collection] (500/700) Est. 500 - 700
2206	Sig Sauer P365 Semi-Auto Pistol serial #66A256323, 9mm, 3" barrel with an excellent bore. The slide retains 99% plus original matte black Nitron and the polymer frame with textured grip and accessory rail is excellent. The SigLite night sights glow bright green. Included are three factory magazines, manual and the original hard case. (22A9543-79) (MODERN) [Phil Buker Collection] (350/550) Est. 350 - 550
2207	Sigarms Trailside Semi-Auto Pistol serial #E0016560, 22 LR, 4 1/2" barrel with an excellent bore. The stainless steel slide with left-side safety is excellent, the barrel and frame retain about 99% original matte blue with some blemishes near the front sight. The contoured smooth blue laminate grips are excellent. The rear sight is an adjustable serrated blade, the front sight is a small fixed blade. (22A9543-113) (MODERN) [Phil Buker Collection] (300/400) Est. 300 - 400

Lot	Title/Description
2208	Smith & Wesson Model K-38 Combat Masterpiece Hand Ejector Revolver serial #K120257 38 Special, 4" barrel with an excellent bore. The metal surfaces of this "Pre Model 15" retain perhaps 97-98% original blue with thinning, blemishes and some mild freckling, the .500" target hammer and service trigger show vivid color case-hardening. The checkered walnut diamond grips with silver S&W medallions are near excellent with the interior of the right panel stamped with matching "120257". The rear sight is a micro-adjustable blade, the front is a serrated Baughman ramp. (22A9468-22) {C&R} (600/800) Est. 600 - 800
2209	Cimarron Lightning Single Action Revolver serial #161340 32 WCF, 7 1/2" barrel with an excellent bore. The satin-finished stainless steel surfaces are near excellent and the screws and trigger retain nearly all their original charcoal blue. The checkered walnut bird's head-style grips are very good plus with what looks like a 3/4" factory imperfection on the left-side. Mechanics are tight and the revolver appears to have seen little use. (22A9543-117) {MODERN} [Phil Buker Collection] (300/500) Est. 300 - 500
2210	Ruger Blackhawk Single Action Revolver serial #31-43656, 357 Magnum, 6 1/2" barrel with an excellent bore. The metal surfaces retain 98-99% original blue with some wear at the muzzle and a couple small blemishes. The smooth faux ivory grips with silver Phoenix medallions are excellent. Front sight is a serrated ramp, rear sight is an adjustable blade with a couple tiny solvent stains just above the hammer. The transfer bar safety update has been installed on this revolver. (22A9522-76) {MODERN} [Phil Buker Collection] (350/550) Est. 350 - 550
2211	Sig Sauer Mosquito Semi-Auto Pistol serial #F013302, 22 LR, 4" barrel with an excellent bore. The slide retains about 99% original matte black finish with a few light scratches and handling marks and the black polymer frame with accessory rail is excellent. The textured black composite grips are also excellent. The gun is equipped with a slide-mounted safety and a decocker. Included is a single factory magazine. (22A9543-221) {MODERN} [Phil Buker Collection] (150/250) Est. 150 - 250
2212	Ruger Mark I Target Semi-Auto Pistol serial #70912 22 LR, 6 7/8" heavy tapered barrel with factory muzzle brake and an excellent bore. The metal surfaces retain about 99% original blue with slight muzzle wear and some other scattered blemishes and the silver trigger shows some marks from a previously-mounted shoe. The underside of the brake and frame have matching two-line Southport address. The fully-checkered synthetic grips with left-side black Phoenix medallion are near excellent. The front sight is an undercut Patridge blade with green fiber optic, the rear sight is an adjustable blade. A single factory magazine is included. (22A9522-75) {C&R} [Phil Buker Collection] (350/550) Est. 350 - 550
2213	Thompson Center Contender 20th Anniversary Collectors Association Single Shot Pistol serial #TCA20-039, 5mm Rem Mag, 14" barrel with an excellent bore. The metal surfaces retain 99% original blue with a "1986-2005" emblem and "20TH ANNIVERSARY" in gold on each side of the frame. The smooth walnut finger-groove grip and forend are excellent. The pistol is equipped with a small blade front sight and a mount with 1" rings is attached to the barrel. (22A9543-157) {MODERN} [Phil Buker Collection] (200/400) Est. 200 - 400
2214	Thompson Center Contender Single Shot Pistol serial #222302 45-70, 12" ported barrel with an excellent bore. The stainless steel barrel is very good plus with scattered handling marks, the frame retains 99% original blue toning to dark plum with a couple small blemishes on the triggerguard. The checkered hard rubber Pachmayr grip and forend are about excellent. The pistol is sighted with a Thompson Center 3x20 scope with clear optics and a duplex reticle attached to 1" Weaver rings. (22A9543-122) {MODERN} [Phil Buker Collection] (200/400) Est. 200 - 400
2215	Thompson Center Custom Shop Encore Single Shot Pistol serial #137085 25-06 Rem, 13 1/2" barrel with muzzle brake and an excellent bore. The metal surfaces retain 99% original matte and polished blue with "T/C Custom Shop" marked on the left-side of the barrel. The checkered Pachmayr grip and smooth walnut forend with ebony tip are about excellent. The pistol features a 4" Leupold mount with 1" quick release Leupold rings. (22A9543-124) {MODERN} [Phil Buker Collection] (400/600) Est. 400 - 600

Lot	Title/Description
2216	Smith & Wesson Model 60 Double Action Revolver serial #AEP5891, 38 Special, 1 7/8" barrel with an excellent bore. The stainless steel surfaces are near excellent with some blemishes and handling marks, the hard chrome trigger and hammer retain all original finish. The checkered hard rubber finger-groove grips are excellent. (22A9543-220) {MODERN} [Phil Buker Collection] (350/550) Est. 350 - 550
2217	Uberti 1875 Schofield Single Action Revolver serial #F00469, 45 Colt, 5" barrel with an excellent bore. The metal surfaces retain 99% original blue with somewhat muted color case-hardening on the latch mechanism and triggerguard with more vibrant color on the hammer. The smooth walnut grips are excellent with strong facsimile cartouches on either side and the butt of the grip frame is marked with a "U.S." behind the serial number. The front sight is a serrated German Silver-style blade with the rear sight being part of the latch as were the original Schofields. (22A9543-119) {MODERN} [Phil Buker Collection] (400/600) Est. 400 - 600
2218	Beretta Model 70S Semi-Auto Pistol serial #B21085U, 22 LR, 3 1/2" barrel with an excellent bore. The metal surfaces retain near 99% original blue. The black checkered synthetic grips with left-side thumb rest are very good with handling marks throughout. The rear sight is adjustable and there is a frame-mounted safety. Included is a single factory magazine with finger extension. (22A9522-62) {MODERN} (150/250) Est. 150 - 250
2219	CZ 75 Compact Semi-Auto Pistol serial #A458168, 9mm, 3 3/4" barrel with an excellent bore. The metal surfaces retain 99% original satin nickel with just a couple superficial handling marks and the frame marked "MADE IN / CZECH REPUBLIC". The fully-checkered composite factory grips are excellent. The three-dot sights are fixed and there is a left-side frame-mounted safety. Pistol comes with a single 14-round factory magazine, factory paperwork and original hard case. This gun has been upgraded with a stainless steel guide and is in a scarce finish, CZ discontinued nickel finishes in 2012. (22A9663-1) {MODERN} [Phil Buker Collection] (500/700) Est. 500 - 700
2220	Ruger New Model Blackhawk Single Action Revolver serial #51-24301, 30 Carbine, 7 1/2" barrel with an excellent bore. The metal surfaces retain about 98% original blue with some loss along the barrel and ejector rod housing and some fine freckling on the hammer flats. The black checkered synthetic grips with silver medallions are excellent. The rear sight is an adjustable blade, the front sight is a serrated blade. (22A9543-112) {MODERN} [Phil Buker Collection] (300/500) Est. 300 - 500
2221	Uberti 1875 Outlaw Single Action Revolver serial #UA2430, 45 Colt, 7 1/2" barrel with an excellent likely unfired bore. The barrel, triggerguard and ejector rod housing retain 99% original blue with the triggerguard toning to dark plum. The cylinder retains about 96-97% original blue with operational wear and the frame and hammer retain 99% original color case-hardening. The smooth walnut grips are excellent. An as-new Remington clone. (22A9543-81) {MODERN} [Phil Buker Collection] (250/350) Est. 250 - 350
2222	Colt Metropolitan MK III Double Action Revolver serial #8950J, 38 Special, 4" barrel with an excellent bore. The metal surfaces retain near 99% original blue with a freckle here-or-there, the hammer exhibits very nice case-hardened color. The checkered walnut factory grips with silver Rampant Colt medallions are near excellent with a few light handling marks. There are two drilled and tapped holes in the topstrap, the rear sight is integral to the frame and the front sight is a serrated ramp. (22A9543-219) {MODERN} [Phil Buker Collection] (275/375) Est. 275 - 375
2223	Ruger 10/22 Takedown Semi-Auto Carbine serial #822-52510, 22 LR, 18 1/2" barrel with an excellent bore. The stainless steel and aluminum surfaces are excellent with a couple light handling marks. The checkered synthetic stocks are excellent with some slight signs of handling. A stainless mount with 1" Weaver rings is attached to the receiver, the rear barrel sight is a flip-up white diamond and the front sight is a brass bead. Included is a single clear factory magazine. (22A9522-19) {MODERN} [Phil Buker Collection] (200/400) Est. 200 - 400

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2224	Schultz & Larsen Model 68DL Bolt Action Rifle serial #12635 7x61 S&H, 25" barrel with an excellent bore. The metal surfaces retain 99% original blue with the bolt and bolt handle being bright with some scattered very light freckles. The skip-line checkered Monte Carlo-style walnut stock with schnabel tip, left-side cheekpiece and capped pig's foot pistolgrip is near excellent with some scattered light handling marks and some hints of very nice figure radiating down from the comb. Rifle features Redfield mounts and 1" rings and a light, crisp trigger. (22A9522-30) {MODERN} [Phil Buker Collection] (550/750) Est. 550 - 750
2225	Smith & Wesson M&P9 Pro Series C.O.R.E. Semi-Auto Pistol serial #HSL2402, 9mm, 5" barrel with an excellent bore. The slide retains 99% original matte black finish. The polymer frame with accessory rail and size medium backstrap and aftermarket Apex trigger is excellent. The slide is equipped with a Leupold Delta Point red triangle sight that works as it should and the three-dot sights are slightly raised to remain part of the sight picture. One 17-round factory magazine is included. (22A9543-126) {MODERN} [Phil Buker Collection] (400/600) Est. 400 - 600
2226	Beretta Model 92FS Semi-Auto Pistol serial #K873222, 9mm, 4 7/8" barrel with a bright excellent bore. The metal surfaces retain 99% original matte black Bruniton and anodized finish with some scattered light handling marks. The checkered black synthetic grips with Beretta logo are excellent. The pistol features three-dot sights and an ambidextrous slide-mounted safety/decocker. Included is a single factory magazine. (22A9543-131) {MODERN} [Phil Buker Collection] (350/550) Est. 350 - 550
2227	Walther PPK/S Semi-Auto Pistol serial #033465 380 ACP, 3 1/4" barrel with an excellent bore. The metal surfaces retain 99% original blue with some superficial handling marks with the triggerguard toning to plum. The black synthetic checkered grips with Walther banner are excellent. Pistol is equipped with Von Stavenhagen-style sights and a slide-mounted safety/decocker. Included is the original hard case with two magazines, cleaning tools and manual. (22A9543-222) {MODERN} [Phil Buker Collection] (300/500) Est. 300 - 500
2228	Cimarron 1877 Lightning Single Action Revolver serial #UB6400, 22 LR, 3 1/2" barrel with an excellent bore. The barrel, cylinder and screws retain 99% original blue, the brass grip frame is bright with some scattered tiny blemishes and the frame and hammer retain 99% original color case-hardening. The smooth walnut grips with gold medallions are excellent. (22A9543-137) {MODERN} [Phil Buker Collection] (250/450) Est. 250 - 450
2229	Beretta Model 20 Semi-Auto Pistol serial #BE31773V, 25 ACP, 2 3/8" barrel with an excellent bore. The metal surfaces retain 99% original blue. The checkered synthetic grips with Beretta logo are excellent. The pistol is sighted with a small front sight and a trench-style rear sight and there is a left-side frame-mounted safety. A single factory magazine is present. (22A9543-135) {MODERN} [Phil Buker Collection] (75/150) Est. 75 - 150
2230	Beretta Model 950BS Jetfire Semi-Auto Pistol serial #BR08721T, 22 Short, 2 3/8" barrel with an excellent bore. The metal surfaces retain near 99% original blue with a bit of edge wear and small blemishes. The checkered synthetic grips with Beretta logo are marked "22 SHORT" and rate excellent. Pistol features trench-style sights and a frame-mounted safety. A single factory magazine is included. (22A9543-224) {MODERN} [Phil Buker Collection] (150/250) Est. 150 - 250
2231	Custom Ruger New Model Single Six Revolver serial #650-07971, 32 H&R Magnum, 4 5/8" barrel with an excellent bore. The metal surfaces retain 99% expertly applied maker blue with nice case color on the hammer and trigger. The faux ivory grips are near excellent. The revolver has been customized with a round-butt frame and features a serrated blade front sight and an adjustable square-notch rear. (22A9543-214) {MODERN} [Phil Buker Collection] (350/550) Est. 350 - 550

Lot	Title/Description
2232	Heckler & Koch P9S Semi-Auto Pistol serial #104 979, 9mm, 4" barrel with a bright excellent bore. The slide of this pistol retains about 92% original blue showing some areas of mild thinning along the sides, light handling marks and high edge wear. The polymer grips and triggerguard assembly remain in very good plus condition showing some scattered light dings, scuffs and handling marks one would expect from a service pistol. The right side of the frame is dated "74", the pistol is stamped with German military proof marks and the left side slide has a cancelled "S" Saarland police property stamp. The slide and barrel are matching the frame, there is a small PW Arms import mark on the left side slide above the H&K address and all markings remain crisp and clear. One original magazine is included and the action seems to function well mechanically. A solid example of these interesting roller-locked pistols that saw police service. (13A9679-1) {MODERN} (500/700) Est. 500 - 700
2233	D.D. Cone 32 Model Spur Trigger Revolver by Uhlinger serial #1436 32 Rimfire, 5" barrel with a lightly-frosted bore. The metal surfaces have toned to a mostly pewter patina with silvering of the edges and tiny pinprick pits and small blemishes throughout. The smooth walnut grips are overall very good with some handling marks and some added finish, the right panel has had some material removed to give a bit of contour for a right-hand shooter. The revolver is equipped with a small brass blade front sight and appears to lock-up and time quite well. To avoid Smith & Wesson copyright infringement William Uhlinger manufactured these pistols under several different pseudonyms. (22A9543-196) {ANTIQUUE} [Phil Buker Collection] (300/500) Est. 300 - 500
2234	Beretta Model 92FS Semi-Auto Pistol serial #K48834Z, 9mm, 4 7/8" barrel with a bright excellent bore. The metal surfaces retain 99% original matte black Bruniton and anodized finish with some handling marks and slight operational wear. The checkered black synthetic grips with Beretta logo are excellent. The pistol features three-dot sights and an ambidextrous slide-mounted safety/decocker. Included are a single MEC-GAR M9 magazine and original manual. (22A9584-1) {MODERN} (350/550) Est. 350 - 550
2235	Early Colt officer's Model Double Action Revolver serial #235939 38 Special, 6" barrel with a lightly-frosted strongly-rifled bore. The barrel retains traces of original blue around the front sight and near the frame. The frame and cylinder retain perhaps 70% nice original blue with the grip frame toned to pewter and scattered areas of freckling and thinning with "680" rework marks on the cylinder and extractor. The checkered walnut diamond factory grips are near very good with compressed points and some evidence of handling, they are quite nice considering their age. The sights are adjustable and the action times and locks-up well. This is an early 1904 First Issue revolver near the beginning of the Officer's Model range. (22A9468-43) {C&R} (450/650) Est. 450 - 650
2236	Smith & Wesson Model 13-2 Double Action Revolver serial #9D03466, 357 Magnum, 4" heavy barrel with an excellent bore. The metal surfaces retain near 99% original blue with some scattered very light blemishes with the service hammer and trigger showing nice dark color case-hardening. The checkered walnut Magna grips are excellent and the revolver features trench-style sights. (22A9645-44) {MODERN} [Larry J. Cummings Collection] (400/600) Est. 400 - 600
2237	Smith & Wesson Model 31-1 Regulation Police Revolver serial #H42393, 32 S&W Long, 3" pinned barrel with an excellent bore. The metal surfaces retain 99% plus original blue with dusky case-hardened color on the service hammer and trigger. The checkered walnut Magna grips are excellent and are numbered to the gun, this revolver appears to have seen very little time outside the safe. Included is a blue two-piece Model 30-1 factory box with cleaning tools and manual. (22A9645-24) {MODERN} [Larry J. Cummings Collection] (400/600) Est. 400 - 600
2238	Rock Island Model 1911-A2 TCM Semi-Auto Pistol serial #TCM003781, 22 TCM, 5" barrel with an excellent bore. The metal surfaces retain about 98-99% original matte blue with some light scratches and handling marks. The black checkered synthetic factory grips are excellent. The rear sight is an adjustable LPA and the front is a dovetailed red fiber optic. This pistol can be converted to 9mm, it comes with a 9mm barrel, spring and extractor. Also included are two "22 TCM" marked magazines and the original factory hard case. (22A9543-76) {MODERN} [Phil Buker Collection] (500/700) Est. 500 - 700

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2239	Ruger Mark IV 22/45 Lite Semi-Auto Pistol serial #500164379 22 LR, 4 1/2" threaded barrel with an excellent bore. The barrel retains about 99% red anodized finish and the polymer frame with black rubber double-diamond 1911-style grips is about excellent. The pistol features an ambidextrous frame-mounted safety, adjustable serrated blade rear sight, a serrated blade front sight and a 4 1/2" Picatinny rail. Included are two factory magazines, manual and original hard case. (22A9543-130) {MODERN} [Phil Buker Collection] (250/450) Est. 250 - 450
2240	North American Arms Model 1860-4C Convertible Revolver serial #TE0372, 22 Magnum, 4" octagon barrel with an excellent bore. The stainless steel surfaces are excellent, the included .22 LR is also excellent. The smooth rosewood laminate grips are excellent. The revolver has trench-style sights, a serrated spur trigger and a faux loading lever. Included is the original factory hard case. (22A9522-65) {MODERN} [Phil Buker Collection] (100/200) Est. 100 - 200
2241	Uberti 1847 Walker Single Action Revolver serial #D01762, 44 Cal, 9" barrel with an excellent likely unfired bore. The barrel cylinder and grip frame retain 99% original blue with some small scattered blemishes, the brass triggerguard is bright with a couple small freckles and the frame, hammer and loading lever retain 99% original dark color case-hardening. The smooth walnut grips are excellent. Included is the original slightly-dilapidated factory box. (22A9522-64) {ANTIQUE} [Phil Buker Collection] (300/500) Est. 300 - 500
2242	Smith & Wesson Model 351C AirLite Double Action Revolver serial #CTU3944, 22 MRF, 2" barrel with an excellent bore. The metal surfaces retain 99% original matte blue and anodized finish and the trigger shows dark remnants of case color. The textured rubber factory grips are excellent. The front sight is a white bead, rear sight is integral to the frame. Included is the original factory box and a black leather DeSantis right-hand holster. (22A9574-118) {MODERN} [James Traynor Collection] (350/550) Est. 350 - 550
2243	Charles Daly Field II Hunter Boxlock Double Shotgun serial #60-03-001203, 12 ga, 27 5/8" screw-choke barrels with excellent bores. The barrels, lever and triggerguard retain near 99% original blue. The frame retains 99% lovely color case-hardening and has been engraved with tight scroll and game birds on the belly and both sides. The gold trigger retains all original gold plate. The checkered walnut pistolgrip buttstock and beavertail forend are very good plus with signs of handling and what looks like a later-added hard rubber pad. Shotgun features 3" chambers, a single selective trigger, ejectors and an automatic safety. The included choke tubes are modified and improved modified and the original box with shipping sleeve is present. (22A9466-12) {MODERN} (500/700) Est. 500 - 700
2244	Thompson Center Fox Ridge Special Percussion Muzzleloading Rifle serial #2335 50 Cal, 22" octagon barrel with an excellent bore. The lock and hammer show nice case-hardened color with a couple spots of fine freckling. With the remaining metal surfaces retaining 99% high polish blue, the barrel is marked "FOX RIDGE OUTFITTERS". The smooth walnut stock is excellent. The rear sight is an adjustable green fiber optic, the front sight is a red fiber optic. (22A9543-186) {ANTIQUE} [Phil Buker Collection] (150/250) Est. 150 - 250
2245	Savage Model 24C Combination Gun 22 Win Mag over 20 ga, 24" barrels with the shotgun choked full and excellent bores. The barrels retain 98-99% original blue with some slight thinning to dark brown near the muzzle and breech. The trigger retains all original gold and the receiver retains 99% hard chrome with an engraved turkey and "SAVAGE 24C" on the right and a fox on the left. The smooth Monte Carlo pistolgrip buttstock and checkered forend are very good plus, there are superficial handling marks and a barely noticeable hairline crack on the left rear of the forend. The gun is sighted with a sporting rear sight and a small blade front sight. (22A9522-12) {MODERN} [Phil Buker Collection] (400/600) Est. 400 - 600
2246	Remington Model Seven Bolt Action Rifle serial #7718646 7mm-08 Rem, 18 1/2" barrel with an excellent bore. The metal surfaces retain 99% original blue, the bolt shows a nice engine-turned pattern with some operational wear and "8646" on the underside. The checkered walnut capped pistolgrip stock is very good with light-to-moderate handling marks. The front sight is a small bead, the rear sight holes are filled with screws and a one-piece base with 1" rings is attached to the receiver. (22A9522-48) {MODERN} [Phil Buker Collection] (450/650) Est. 450 - 650

Lot	Title/Description
2247	Iver Johnson Hercules Grade Boxlock Double Shotgun serial #9964 12 ga, 30" barrels choked improved modified and full with near excellent bores. The barrels retain 98% original blue with scattered freckling and some light dings here-and-there, the bores have been cleaned leaving some barely noticeable ripples toward the muzzles. The frame is a mostly silver patina with some freckling and handling marks, "IVER JOHNSON / ARMS & CYCLE WORKS / FITCHBURG MASS USA" marked on the left-side and nice remnants of case color particularly around the lever. The checkered walnut capped pistolgrip buttstock and forend are very good plus with some scattered blemishes and a light coat of added varnish. Shotgun features crisp double triggers, a Red Head pad, automatic safety and tight lock-up. (22A9522-8) {C&R} [Phil Buker Collection] (300/500) Est. 300 - 500
2248	Thompson Center Seneca Percussion Muzzleloading Rifle serial #17499 45 Cal, 27" octagon barrel with an excellent bore. The barrel retains 97% original blue, the lock shows vivid case color. The brass furniture is mostly bright with scattered freckling. The smooth walnut stock with left-side cheekpiece is very good with a tiny hairline crack near the toe. The double set triggers work as they should and a brass-tipped ramrod is included. (22A9522-25) {ANTIQUE} [Phil Buker Collection] (100/200) Est. 100 - 200
2249	Marlin Model 27 Slide Action Rifle 25-20, 23 1/2" octagon barrel with a lightly-frosted strongly-rifled bore. The metal surfaces retain 98% professionally re-applied blue with the barrel possibly shortened, some older blemishes visible and the barrel address remaining crisp. The smooth walnut buttstock and grooved forend are very good as lightly cleaned and refinished, there is a hairline crack in the left rear of the forend, some filled blemishes and a couple spots where the added varnish is slightly-crazed. Rifle is sighted with a small bead front and sporting rear. (22A9522-31) {C&R} [Phil Buker Collection] (300/500) Est. 300 - 500
2250	Remington Model 550-1 Semi-Auto Rifle 22 S,L,LR, 24" barrel with an excellent bore. The metal surfaces retain about 90% original blue with handling marks and freckling, there are five drilled and tapped holes on the left-side of the receiver. The smooth walnut stock is good plus with a small semi-circular crack to the rear near the receiver, handling marks throughout and maybe a layer of added finish. Rifle is sighted with a sporting rear, bead front and a Tasco 4x32 scope with duplex reticle and clear optics is attached to the receiver. The "WW" on the barrel indicates this is a 1950-manufactured gun. (22A9522-38) {C&R} [Phil Buker Collection] (100/200) Est. 100 - 200
2251	Thompson Center Hawken Percussion Muzzleloading Rifle serial #24213 50 Cal, 28" octagon barrel with an excellent bore. The barrel retains 99% original blue with some freckling near the breech, the lock and hammer show vivid case color with some concentrated freckling. The brass furniture is mostly bright with scattered freckling. The smooth walnut stock with left-side cheekpiece is very good with typical handling marks found on a hunting arm. Rifle is sighted with an adjustable rear and a bead front. The double set triggers work as they should and a brass-tipped ramrod is included. (22A9522-39) {ANTIQUE} [Phil Buker Collection] (100/200) Est. 100 - 200
2252	Walther Model PP Super Ultra Semi-Auto Pistol serial #10129 9x18mm Ultra, 3 1/2" barrel with an excellent bore. The metal surfaces retain 96-97% original blue with edge wear and blemishes, the slide is marked "MADE IN GERMANY". The black checkered synthetic grips are near very good with scuffs and handling marks. The sights are fixed and there is a slide-mounted decocker. Two magazines, manual and original hard case are included. (22A9522-63) {MODERN} [Phil Buker Collection] (300/500) Est. 300 - 500
2253	Remington Model 600 Bolt Action Rifle serial #5873 35 Rem, 18 1/2" barrel with an excellent bore. The metal surfaces retain 99% later-added blue, the ventilated rib has been removed and the holes have been neatly-filled. The dog-leg bolt handle and bolt body are bright. The checkered walnut pistolgrip stock is good to very good, it has been re-checkered with the old checkering being partially-visible at the tips, there are handling marks and a bit of added finish. A Bushnell Scope Chief 2.75x scope with clear optics and crosshair reticle is mounted to the receiver. (22A9543-188) {MODERN} [Phil Buker Collection] (300/500) Est. 300 - 500

Lot	Title/Description
2254	Ruger American Bolt Action Rifle serial #649-67080, 300 Blackout, 16 1/4" threaded barrel with a Troy Medieval flash suppressor and an excellent bore. The metal surfaces retain 99% matte blue with some small scattered blemishes. The flat dark earth composite pistolgrip stock is excellent. Rifle features a Ruger mount with 1" rings, an adjustable trigger and a tang safety. Included is one flush-fit factory magazine, more magazines are available in the appropriate section of this auction. (22A9543-63) {MODERN} [Phil Buker Collection] (350/450) Est. 350 - 450
2255	Thompson Center R-55 Sporter Bolt Action Rifle serial #3482 17 Mach 2, 21" barrel with an excellent bore. The metal surfaces retain 99% original polish and matte blue. The brown laminate Monte Carlo stock with pistolgrip and left-side cheekpiece is excellent. The front sight is a red fiber optic, the rear is a green fiber optic and a Bushnell Sportview 2-10x40 scope with clear optics is mounted to the receiver. (22A9543-35) {MODERN} [Phil Buker Collection] (250/450) Est. 250 - 450
2256	Custom Greek Mannlicher Schoenauer Model 1903 Bolt Action Rifle serial #3831F, 300 Savage, 18 1/4" barrel with an excellent bore. The metal surfaces retain 99% expertly re-applied blue with some scattered light freckles and a Greek military proof visible on the rear triggerguard screwhead. The checkered walnut round-knob pistolgrip stock is very good condition as modified, a 1" section has been added to the butt and there are diamond-shaped inlays on each side of the butt and some filled blemishes. The rear sight is a Lyman flip-up white triangle, the front sight is a white bead and the rifle is equipped with a single trigger. The barrel was professionally re-bored to accept .300 Savage cartridges, as with any customized firearm a competent gunsmith should be consulted before firing. (22A9543-44) {MODERN} [Phil Buker Collection] (350/550) Est. 350 - 550
2257	SKB/Ithaca Century Trap Single Barrel Shotgun serial #S8801855, 12 ga, 34" ventilated rib barrel choked full with an excellent bore. The barrel retains about 99% original blue with some freckling and signs of handling. The frame retains about 85-90% original silver nitride finish with areas flaking and nice tight foliate scroll throughout. The trigger retains all original gold finish. The checkered walnut pistolgrip buttstock and beavertail forend are very good plus. The front is an orange fiber optic bead with a small silver bead mid-rib. (22A9543-51) {MODERN} [Phil Buker Collection] (400/600) Est. 400 - 600
2258	Ruger 10/22 Deluxe Sporter Semi-Auto Carbine serial #239-17958, 22 LR, 18 1/2" barrel with an excellent bore. The metal surfaces retain 99% original blue with a couple minor handling marks. The checkered walnut stock is excellent with a couple blemishes. The rear sight is a flip-up white diamond, the front sight is a small bead and a one-piece mount with high-rise 1" rings is attached to the receiver. (22A9543-210) {MODERN} [Phil Buker Collection] (200/400) Est. 200 - 400
2259	Remington 870 Wingmaster Magnum Slide Action Shotgun serial #A241099U, 20 ga, 25 1/2" ventilated rib Rem-Choke barrel with an excellent bore. The metal surfaces retain about 98% original blue with some freckling and very slight thinning along the barrel. The checkered walnut capped pistolgrip buttstock and forend are very good plus to near excellent with handling marks mostly around the butt. Shotgun features 3" chambers, a white bead front sight, a mid-rib silver bead and the included Rem-Choke non-flush tube is super full lead shot only. (22A9543-174) {MODERN} [Phil Buker Collection] (400/600) Est. 400 - 600
2260	Ruger Model 77/17 All Weather Bolt Action Rifle serial #703-42998, 17 HMR, 24" barrel with an excellent bore. The metal surfaces retain 99% original target gray all-weather coating with some very minor operational wear on the bolt. The Green Mountain laminate pistolgrip stock is excellent. There are no provisions for iron sights, included are Ruger all-weather 1" rings and a single factory magazine. (22A9543-171) {MODERN} [Phil Buker Collection] (500/700) Est. 500 - 700
2261	Remington Model 14C Slide Action Rifle serial #58962 25 Rem, 22" barrel with a near excellent bore. The metal surfaces retain perhaps 65-70% original blue with areas wearing to pewter, freckling and handling marks. The smooth pistolgrip buttstock and grooved forend are good. The checkered buttplate has toned to silver and there is a 7" crack through the stock running parallel along the toeline and a smaller crack along the comb, a pin has been sent through the stock to keep these pieces attached. There are smaller cracks in the buttstock and a longer crack starting at the tip of the forend with scattered light-to-moderate handling marks. There is a receiver-mounted aperture sight, the rear barrel sight is not present and the front sight is a brass bead. (22A9543-192) {C&R} [Phil Buker Collection] (350/550) Est. 350 - 550

Lot	Title/Description
2262	Savage Fox Model B Boxlock Double Shotgun 20 ga, 28" barrels choked improved cylinder and improved modified with excellent bores. The barrels retain about 98-99% original blue with some freckling and wear at the muzzle. The frame retains about 90% original case-hardened color with the belly thinning to silver and nice color visible on the sides and top. The checkered walnut capped pistolgrip buttstock and forend are near very good with some added finish and handling marks throughout. Shotgun features tight lock-up, a single trigger, extractor and an automatic safety. (22A9543-178) {C&R} [Phil Buker Collection] (300/500) Est. 300 - 500
2263	A.H. Fox Sterlingworth Boxlock Double Shotgun serial #125848 12 ga, 22 1/4" shortened barrels both choked cylinder with near excellent bores, the right shows a light ring of oxidation mid-length. The barrels retain perhaps 50% later-added blue with the balance thinning to dark gray, there are a couple small dings in the left barrel toward the muzzle with the barrel addresses being crisp. The frame is mostly silver with "STERLINGWORTH" on both sides with some nice case-hardened color around the lever and on the left-side. The checkered walnut buttstock and forend are near very good, there is a small filled area on the left-side near the buttpad with impact marks and handling marks, the wood fit to the metal is slightly off at the rear of the frame. Shotgun features double triggers, automatic safety and tight lock-up. (22A9543-211) {MODERN} [Phil Buker Collection] (250/450) Est. 250 - 450
2264	Colt Model 1903 Pocket Hammerless Semi-Auto Pistol serial #63836 32 ACP, 4" barrel with a frosted bore. The metal surfaces have been mostly cleaned to silver with cleaned oxidation blemishes and freckles. There are scattered remnants of original blue and faint hints of fire blue on the trigger and magazine release, the slide and frame markings are somewhat soft but legible. The checkered hard rubber factory grips are very good. A 1907-manufactured Type I project pistol. (22A9576-6) {C&R} (100/200) Est. 100 - 200
2265	Custom Thompson Center Contender Single Shot Pistol serial #FRO1150, 17 HMR, 14" barrel with an excellent bore. The metal surfaces retain 99% original blue with small blemishes. In lieu of a forend the pistol is equipped with a custom bench rest frame, it retains 99% black anodized finish and features an adjustable square-shaped stop, it measures 4 9/16" on the interior and rides in a full-length rail. The checkered hard rubber Pachmayr grip is excellent. A 4 5/8" rail is mounted to the rear of the barrel and the front sight is a small blade. (22A9576-7) {MODERN} (200/400) Est. 200 - 400
2266	Smith & Wesson Model SD9VE Semi-Auto Pistol serial #FX9238, 9mm, 4" barrel with an excellent bore. The stainless steel slide is near excellent and the polymer frame with accessory rail and textured grip are excellent. The sights are drift adjustable and an aftermarket Apex trigger has been installed. Included are two 10-round factory magazines and the original factory box. (22A9598-14) {MODERN} (200/300) Est. 200 - 300
2267	Smith & Wesson M&P9 Semi-Auto Pistol serial #DWB8858, 9mm, 4 1/4" barrel with an excellent bore. The slide retains 99% plus original matte black and the polymer frame with accessory rail is excellent. The pistol is equipped with Novak-style three-dot sights and an ambidextrous slide release. There is no magazine present, included are two interchangeable backstraps, a Bladetech right-hand holster, Bladetech double mag pouch and the original factory hard case. (22A9598-3) {MODERN} (200/400) Est. 200 - 400
2268	Ruger New Model Single Six Convertible Revolver serial #263-79009, 22 LR/22 MRF, 6 1/2" barrel with an excellent bore. The stainless steel surfaces including the extra 22 Magnum cylinder are near excellent with a few scattered small blemishes. The smooth walnut grips with silver Phoenix medallions are excellent. The front sight is a serrated blade, the rear sight is an adjustable square-notch blade. Included is the original gray hard case with aforementioned cylinder and a padlock. (22A9466-15) {MODERN} (300/500) Est. 300 - 500
2269	Ruger SR22 Semi-Auto Pistol serial #367-01403, 22 LR, 3 1/2" barrel with an excellent bore. The stainless steel slide and polymer frame with accessory rail is excellent. The frame-mounted safety is ambidextrous and the rear sight is adjustable. This pistol comes with a single factory magazine and a Case-Gard hard case. (22A9598-16) {MODERN} (175/275) Est. 175 - 275

Lot	Title/Description
2270	Ruger New Model Blackhawk 50TH Anniversary Revolver serial #520-01179, 357 Magnum, 4 1/2" barrel with an excellent bore. The metal surfaces retain perhaps 98-99% original blue with some wear at the muzzle, the top of the barrel is marked "50TH YEAR BLACKHAWK / --1955 TO 2005--" in gold. The checkered hard rubber grips are very good with a couple small chips at the butt and a few tiny blemishes. The flat-top frame sports an adjustable black blade rear sight, the front sight is a serrated ramp. Included is a red factory hard case with factory paperwork (22A9466-14) (MODERN) (400/600) Est. 400 - 600
2271	Ruger Single Six Revolver serial #190564 22 LR, 5 1/2" barrel with an excellent bore. The metal surfaces retain 98% original blue with scattered freckling and slight thinning. The smooth walnut grips with silver Phoenix medallions are excellent. The sights are fixed, the transfer bar safety has been installed and the original slightly worn factory box with original pre-transfer bar parts and very good condition grips are included. (22A9596-2) (C&R) (250/450) Est. 250 - 450
2272	Smith & Wesson M&P9 Shield Semi-Auto Pistol serial #HYF8004, 9mm, 3" barrel with an excellent bore. The slide retains about 98% original matte black with some thinning and oxidation staining. The flat dark earth polymer frame is about excellent. Pistol is equipped with a frame-mounted safety, Novak's-style sights and comes with two factory magazines and a Pelican 1170 hard case. (22A9598-2) (MODERN) (200/400) Est. 200 - 400
2273	Smith & Wesson Bodyguard Semi-Auto Pistol serial #EAT7099, 380 ACP, 2 3/4" barrel with an excellent bore. The slide retains 99% original blue and the polymer frame is excellent. The pistol is equipped with Novak's-style low-mount sights, and an integral red dot sight that works as it should. Included is the original factory box with two factory magazines, paperwork, black leather holster and lock. (22A9574-115) (MODERN) [James Traynor Collection] (150/250) Est. 150 - 250
2274	Jennings Model J-22 Semi-Auto Pistol serial #372119 22 LR, 2 1/2" barrel with an excellent bore. The metal surfaces retain about 98-99% original black finish. The checkered black synthetic grips are excellent. A single magazine is included. (22A9556-12) (MODERN) (30/60) Est. 30 - 60
2275	Uberti Model 1861 Navy Percussion Revolver serial #A82434, 36 Cal, 7 1/2" barrel with an excellent likely unfired bore. The barrel, cylinder and grip frame retain 99% original blue and the frame, loading lever and hammer exhibit very nice case-hardened color. The smooth European walnut grip panels are excellent and show very fine figure. The action is smooth and the frame is cut for a shoulder stock. Included is the original factory box with paperwork. (22A9574-143) (ANTIQUE) [James Traynor Collection] (150/300) Est. 150 - 300
2276	Beretta Model 84FS Cheetah Semi-Auto Pistol serial #H64304Y, 380 ACP, 3 3/4" barrel with an excellent bore. The metal surfaces retain 99% plus original matte Brunton with some wear on the barrel and other small blemishes. The checkered black synthetic grips are excellent. The sights are fixed and the frame-mounted safety/decocker is ambidextrous. Included are a single factory magazine and manual. (22A9551-4) (MODERN) (300/500) Est. 300 - 500
2277	Sig Sauer Model 232SL Semi-Auto Pistol serial #S244855, 380 ACP, 3 5/8" barrel with an excellent bore. The matte and polished stainless steel surfaces are excellent with some superficial handling marks and "MADE IN GERMANY" marked on the slide. The stippled black synthetic grips are excellent. Pistol is equipped with fixed sights and a decocker. The original blue hard case is included and there is no magazine present. (22A9608-7) (MODERN) (450/650) Est. 450 - 650
2278	Hopkins & Allen Safety Police Double Action Revolver serial #D8676, 22 LR, 6" barrel with a near excellent bore. The metal surfaces are a mix of silver and light pewter with dark staining along the rib and scattered freckles. The barrel address and "SAFETY POLICE" markings are legible if somewhat obscured. The smooth walnut grip panels are excellent with some portions darkened from oil contact. The interior of each grip panel, cylinder, extractor, barrel and frontstrap are all marked "8676". (22A9400-93) (C&R) (75/150) Est. 75 - 150
2279	Glock Model 26 Semi-Auto Pistol serial #GUR178, 9mm, 3 3/8" barrel with an excellent bore. The slide retains 99% original matte black finish and the Gen 3 polymer frame is excellent. The pistol is equipped with standard Glock sights and comes with a single factory magazine. (22A9608-10) (MODERN) (300/400) Est. 300 - 400

Lot	Title/Description
2280	Smith & Wesson Model 317 AirLite Double Action Revolver serial #LGT0253, 22 LR, 2" barrel with an excellent bore. The alloy surfaces retain 98% original clear coat finish with blemishes, wear on the contact points and some loss on the cylinder, the hammer and trigger display dark case-hardened color and the latch appears to be a replacement. The checkered hard rubber Uncle Mike's factory combat-style grips are excellent. (22A9566-2) (MODERN) (350/550) Est. 350 - 550
2281	Ruger LCP Coyote Special Semi-Auto Pistol serial #377-84176, 380 ACP, 2 3/4" barrel with an excellent bore. The slide retains 99% original matte blue with some edge wear, the left is marked "A TRUE TEXAN" the right "COYOTE SPECIAL" and a coyote howling at the moon is in front of the ejection port on the top with a star to the rear. The pebble grain black rubber Hogue grip is excellent. Pistol comes with two factory magazines, factory box, zipper rug, lock and manual. (22A9574-121) (MODERN) [James Traynor Collection] (125/250) Est. 125 - 250
2282	Walther PP Semi-Auto Pistol serial #50074LR, 22 LR, 3 3/4" barrel with an excellent bore. The metal surfaces retain 99% original blue with just a few very small blemishes. The black synthetic checkered factory grips with Walther banners are excellent. The sights are fixed and there is a slide-mounted decocker. The frame is marked with an "IC" (1982) date code and two magazines are included, one with flat base and one with finger rest base. (22A9348-27) (MODERN) (550/750) Est. 550 - 750
2283	Smith & Wesson M&P40 Shield Semi-Auto Pistol serial #HAP0379, 40 S&W, 3" barrel with an excellent bore. The slide retains 99% original matte black and the polymer frame is excellent. Pistol is equipped with a frame-mounted safety, Novak's-style sights and comes with three factory magazines. (22A9574-105) (MODERN) [James Traynor Collection] (200/400) Est. 200 - 400
2284	Browning Buck Mark Semi-Auto Pistol serial #655PP06974, 22 LR, 5 1/2" slab-side barrel with an excellent bore. The metal surfaces retain 98-99% original high polish, anodized and matte blue with some thinning at the muzzle and handling marks. The smooth rosewood grips with gold medallions are excellent. The rear sight is adjustable and the front sight is a Patridge blade. Included are two factory magazines. (22A9574-107) (MODERN) [James Traynor Collection] (150/300) Est. 150 - 300
2285	Smith & Wesson Model 31 Regulation Police Revolver serial #700965 32 S&W Long, 4" pinned barrel with an excellent bore. The metal surfaces retain 99% later-added blue with some covered blemishes and the barrel and cylinder toning to deep plum. The hammer and trigger show slightly dull case-hardened color. The checkered walnut factory grips are excellent, they are numbered to a different gun. This is an early flat-latch model with perfect timing and lock-up. (22A9574-108) (C&R) (200/400) Est. 200 - 400
2286	Llama XIA Semi-Auto Pistol serial #965113 9mm, 5" barrel with an excellent bore. The metal surfaces retain 97-98% original blue with some freckling, small blemishes and areas toning to brown. The smooth walnut grips with "LLAMA" medallions are very good. The sights are fixed, there is a ventilated rib to the front of the ejection port and a single "MADE IN SPAIN" marked magazine is included. (22A9598-1) (MODERN) (200/400) Est. 200 - 400
2287	Remington Model 597 Magnum Semi-Auto Rifle serial #2963923M, 22 WMR, 20" heavy barrel with an excellent bore. The metal surfaces retain 99% original matte blue and anodized finish. The smooth brown laminate pistolgrip stock is excellent. A 5" four-slot rail is mounted to the receiver, there are no other provisions for sights. This rifle appears to have seen little if any use, included are a single factory magazine and the original box with manual. (22A9574-36) (MODERN) [James Traynor Collection] (350/450) Est. 350 - 450
2288	Smith & Wesson Model 10-5 Double Action Revolver serial #D242290, 38 Special, 4" pinned tapered barrel with an excellent bore. The metal surfaces retain 85-90% original blue with freckling and areas thinned to gunmetal gray. The service hammer and trigger exhibit a couple areas of nice case-hardened color. The checkered black rubber Pachmayr combat grips are excellent. (22A9588-1) (MODERN) (250/450) Est. 250 - 450

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2289	Jennings Model J-22 Semi-Auto Pistol serial #455419 22 LR, 2 1/2" barrel with a near excellent bore. The metal surfaces are near very good retaining nearly all chrome finish with handling marks and small blemishes throughout. The smooth walnut grips are near very good with small chips and handling marks. There is no magazine present. (22A9598-21) {MODERN} (30/60) Est. 30 - 60
2290	Smith & Wesson Model 31-1 Double Action Revolver serial #H145233, 32 S&W Long, 3" pinned barrel with an excellent bore. The metal surfaces retain 99% original blue with just a couple unobtrusive small blemishes, the hammer and trigger show a couple streaks of nice case color with a few small freckles. The checkered walnut factory grips with silver S&W medallions are excellent and are numbered to a slightly earlier gun. (22A9574-109) {MODERN} [James Traynor Collection] (400/600) Est. 400 - 600
2291	Colt Model 1903 Pocket Hammerless Semi-Auto Pistol serial #252005 32 ACP, 3 3/4" barrel with an excellent bore. The metal surfaces retain 99% later-added blue with some covered blemishes, the interior of the slide is marked "005". The checkered black hard rubber grips are near very good with the right panel showing a 1" crack just above "COLT" and the left panel being quite nice. The pistol functions well mechanically and comes with a single factory magazine retaining 99% of what appears to be the same later-added blue. (22A9574-104) {C&R} (300/500) Est. 300 - 500
2292	Smith & Wesson Model 36 Double Action Revolver serial #97J361, 38 Special, 1 7/8" barrel with an excellent bore. The metal surfaces retain perhaps 95-96% original blue with a small stain near the knuckle from some type of solvent, some freckling and some slight thinning. The service hammer and trigger show dark case color and a few small freckles. The checkered walnut round butt target grips are near very good with areas of lost finish and handling marks. (22A9598-17) {MODERN} (250/450) Est. 250 - 450
2293	Hi Point Model CF Semi-Auto Pistol serial #P700822, 380 ACP, 3 1/2" barrel with a near excellent bore, there appear to be some small tool marks from where the rifling was cut. The slide retains about 98% black enamel finish with some freckling on the unfinished portion of the slide. The gray polymer frame and contoured black synthetic grips are excellent. A single magazine is present. (22A9574-145) {MODERN} [James Traynor Collection] (100/200) Est. 100 - 200
2294	Glock Model 34 Semi-Auto Pistol serial #HBP008, 9mm, 5 1/4" barrel with an excellent bore. The slide retains 99% plus original matte gas nitride finish and the Gen 3 frame with accessory rail is excellent. The rear sight is adjustable with a small white dot front. Included is a single 10-round factory magazine. (22A9608-2) {MODERN} (400/600) Est. 400 - 600
2295	Springfield Armory XD-45 Semi-Auto Pistol serial #GM482721, 45 ACP, 3 3/8" barrel with an excellent bore. The slide retains 99% original black finish and the polymer frame with accessory rail and textured grip is excellent. The front sight is a red fiber optic and the rear is a two-dot serrated blade. Included is a 10-round factory magazine with extension and a black JM Tactical IWB holster with magnet closure. (22A9598-7) {MODERN} (300/500) Est. 300 - 500
2296	Ruger Standard Model Semi-Auto Pistol serial #16-38610, 22 LR, 6" barrel with an excellent bore. The metal surfaces retain 98% original blue with small blemishes and some scattered freckling. The fully-checkered synthetic factory grips with silver phoenix medallions are excellent. The rear sight is a square-notch blade and the front is a Patridge blade. Included are two factory magazines and manual. (22A9574-120) {MODERN} [James Traynor Collection] (250/350) Est. 250 - 350
2297	Pietta Lemat "Grapeshot" Percussion Revolver serial #10575 .44 cal./20 ga, 6 3/4" rifled octagon barrel and smooth bore barrel, both with excellent bores. The metal surfaces retain about 99% original blue with a few light handling marks and the lever and frame toning to dark plum. The case-hardened trigger shows nice case color, the hammer shows some remnants of color with the majority of the surface being silver and faint ochre. The checkered walnut grips are excellent and exhibit a couple swirls of nice figure, this quality reproduction appears to have remained unfired. The mechanics are tight and there are bands of nice foliate scroll wrapping around the cylinder. (22A9574-128) {ANTIQUE} [James Traynor Collection] (600/800) Est. 600 - 800

Lot	Title/Description
2298	Smith & Wesson M&P40 Shield Semi-Auto Pistol serial #HLB1744, 40 S&W, 3" barrel with an excellent bore. The slide retains 99% original matte black with some slight wear on some of the contact points and the polymer frame is excellent. Pistol is equipped with Novak's-style sights and comes with a single factory magazine. (22A9598-15) {MODERN} (200/400) Est. 200 - 400
2299	Custom Winchester Model 1885 High Wall Rifle 30 Army, 24" barrel with an excellent bore. The metal surfaces retain perhaps 98-99% later-added blue with blemishes and handling marks. The matting on top of the faceted action is crisp with legible "WINCHESTER REPEATING ARMS" barrel address and a later-stamped "30 ARMY" caliber marking. The checkered walnut pistolgrip buttstock and forend are very good as lightly cleaned and refinished, the checkering is still nice with some areas of fine figure. The serial number is no longer visible on the frame and the inside forend is stamped "1751". A Lyman peep sits at the tang and the front sight is a small ivory bead. (22A9522-55) {ANTIQUE} (350/550) Est. 350 - 550
2300	Smith & Wesson M&P40 Shield Semi-Auto Pistol serial #HVA2641, 40 S&W, 3" barrel with an excellent bore. The slide retains 99% original matte black and the polymer frame is excellent. Pistol is equipped with Novak's-style sights and there is no magazine present. (22A9598-9) {MODERN} (175/275) Est. 175 - 275
2301	Ruger SR9C Semi-Auto Pistol serial #333-81384, 9mm, 3 1/2" barrel with an excellent bore. The slide retains 99% original matte black and the polymer frame with accessory rail and ambidextrous safety is excellent. The rear sight is adjustable, the front sight is a small serrated blade with white dot and there is no magazine present. (22A9598-8) {MODERN} (200/400) Est. 200 - 400
2302	Smith & Wesson M&P9 Shield Semi-Auto Pistol serial #HSE5837, 9mm, 3 1/8" barrel with an excellent bore. The slide retains about 99% factory finish and the polymer frame with textured grip is excellent. The Novak's style sights are fixed, included are a single factory magazine and an Uncle Mike's nylon sidekick ambidextrous holster. (22A9598-20) {MODERN} (200/400) Est. 200 - 400
2303	Smith & Wesson M&P9 Shield Semi-Auto Pistol serial #HKZ5365, 9mm, 3 1/8" barrel with an excellent bore. The slide retains about 99% factory finish and the polymer frame with textured grip and left-side safety is excellent. The Novak's style sights are fixed and there is no magazine included. (22A9598-4) {MODERN} (175/275) Est. 175 - 275
2304	Ruger New Model Super Single Six Hunter Revolver serial #264-56199, 17 HMR, 7 1/2" solid rib barrel with an excellent bore. The stainless steel surfaces of this limited production Hunters Model rate about excellent with a few scattered scratches and a faint turn ring on the unfluted cylinder. The smooth dark gray factory laminate grips with silver Ruger Phoenix medallions rate about excellent. The gun has a number of features including special factory crown, heavy solid rib machined to accept Ruger scope mount rings, interchangeable black bead front sight and white line "V" notch adjustable rear sight. It includes the original factory hard case that is correctly end labeled and numbered to the gun, Ruger scope rings, fired case, cable lock with a pair of keys, manual and paperwork. A great find for the Ruger collector or, add an extended eye relief scope and it should be a tack-driving small game and varmint gun. This gun appears to have seen little if any use. (8A9314-321) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700
2305	Scarce Ruger New Model Super Single Six Revolver serial #265-17198, 17 HMR, 5 1/2" barrel with an excellent bore. The stainless steel surfaces of this limited production revolver rate about excellent with a few scattered scratches and a faint turn ring on the unfluted cylinder. The smooth factory wood laminate grips with silver Ruger Phoenix medallions rate about excellent. The gun has a number of features including special factory crown, serrated ramp front sight and black blade adjustable rear sight. It includes the original factory hard case that is correctly end labeled and numbered to the gun, padlock with a pair of keys, manual and paperwork. It is estimated that only 200-300 guns of this model were made. This gun appears to have seen little if any use. (8A9314-277) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700

Lot	Title/Description
2306	Ruger New Model Super Single Six Revolver serial #264-45206, 17 HMR, 6 1/2" barrel with an excellent bore. The metal surfaces of this limited production revolver retain about 99% original blue and anodized finishes with no visible turn ring on the unfluted cylinder. The smooth factory rosewood grips with silver Ruger Phoenix medallions rate about excellent. The gun has a number of features including special factory crown, serrated ramp front sight and black blade adjustable rear sight. It includes the original factory hard case that is correctly end labeled and numbered to the gun, cable lock with a pair of keys, fired case (package has been opened), manual and paperwork. This gun appears as new in the box. (8A9314-276) {MODERN} [Robert C. Greenberg Sr. Collection] (500/700) Est. 500 - 700
2307	Ruger New Model Blackhawk Revolver serial #47-98646, 41 Magnum, 6 1/2" barrel with an excellent bore. The metal surfaces retain about 99% original blue and anodized finishes with a few handling marks, limited edge wear and a turn ring on the cylinder. The smooth rosewood grips with silver Ruger Phoenix medallions rate about excellent on the exterior but the escutcheon is starting to pull through on one of the panels. It functions mechanically, features a serrated ramp front sight and black blade adjustable rear sight. It includes the original factory hardcase that is correctly end labeled and numbered to the gun, Ruger padlock with a pair of keys, manual and paperwork. This gun appears to have seen little if any use. (8A9314-301) {MODERN} [Robert C. Greenberg Sr. Collection] (300/500) Est. 300 - 500
2308	Ruger New Model Blackhawk Revolver serial #37-60118, 357 Magnum, 6 1/2" barrel with an excellent bore. The stainless steel surfaces rate about excellent with a few handling marks and only a faint turn ring on the cylinder. The smooth rosewood grips with silver Ruger Phoenix medallions rate about excellent. It features a serrated ramp front sight, black blade adjustable rear sight and still times and locks up correctly. It includes the original factory hardcase that is correctly end labeled and numbered to the gun, Ruger padlock with a pair of keys, manual and paperwork. This gun appears to have seen little if any use. (8A9314-253) {MODERN} [Robert C. Greenberg Sr. Collection] (300/500) Est. 300 - 500
2309	Ruger New Vaquero Single Action Revolver serial #510-35349, 357 Magnum, 4 5/8" barrel with an excellent bore. The metal surfaces retain about 99% original blue, anodized and case-hardened colors with a light turn ring. The faux stag replacement grips rate about excellent and the rear of one panel is marked "2005 / VA - W/LOCK". The gun still functions mechanically, features a slightly smaller frame than the original Vaqueros and appears to have seen little if any use. It includes the original factory hard case that is correctly end labeled and numbered to the gun, manual and paperwork. (8A9314-12) {MODERN} [Robert C. Greenberg Sr. Collection] (300/500) Est. 300 - 500
2310	Ruger New Model Single Six Convertible 50th Anniversary Revolver serial #268-36559, 22 LR / 22 Magnum RF, 4 5/8" barrel with an excellent bore. The metal surfaces retain about 99% original blue and anodized finishes showing a tiny ding on the topstrap and light turn rings on both cylinders. The smooth factory cocobolo grips with silver Ruger Phoenix on a red background medallions rate excellent. The revolver features a fluted long rifle cylinder, unfluted magnum cylinder, fixed sights and is marked "50 YEARS OF SINGLE SIX / -1953 TO 2003-" on the top of the barrel. It includes the original factory hard case correctly end labeled and numbered to the gun, cable lock with a single key, spare 22 Magnum RF cylinder and fired case (envelope opened, magnum case not present). The gun appears to have seen only light use. (8A9314-147) {MODERN} [Robert C. Greenberg Sr. Collection] (250/450) Est. 250 - 450
2311	Ruger Old Model Flat Gate Single Six Revolver serial #6527 22 LR, 5 1/2" barrel with an excellent bore. This 1954 made revolver remains in excellent condition. The metal surfaces retain about 98-99% non-factory reapplied blue and anodized finishes with a few minor handling marks and old pits under the new finish. The checkered hard rubber factory grips with black Ruger Phoenix medallions rate excellent. The revolver features a serrated round front sight, drift adjustable rear sight, type one ejector rod housing with offset slot, type one square head ejector rod and it functions mechanically. The transfer bar safety update has not been installed on this gun. (8A9314-93) (C&R) [Robert C. Greenberg Sr. Collection] (250/450) Est. 250 - 450

Lot	Title/Description
2312	Ruger Old Model Single Six Flat Gate Revolver serial #34687 22 LR, 5 1/2" barrel with an excellent bore. The metal surfaces of this 1956 made revolver retain about 99% non-factory reapplied blue and anodized finishes showing no perceptible turn ring, old pits under the new finish and a few scattered handling marks. The checkered hard rubber factory grips with black Ruger Phoenix medallions rate excellent but the paint in the Phoenix is starting to flake. This revolver features a serrated round front sight, drift adjustable rear sight, type one ejector rod housing with offset slot, type one square head ejector rod and it still times and locks up beautifully. The transfer bar safety update has not been installed on this gun. (8A9314-94) (C&R) [Robert C. Greenberg Sr. Collection] (250/450) Est. 250 - 450
2313	Ruger Old Model Blackhawk Flat Top Revolver serial #16210 357 Magnum, 4 5/8" barrel with an excellent bore. This 1958 made revolver retains about 98-99% reapplied blue and anodized finishes with scattered light high edge wear, faint turn ring, a few old pits under the new finish and the frame toning to a bronze color. The checkered hard rubber factory grips with black Ruger Phoenix medallions rate excellent. It has the serrated ramp front sight, steel Micro black blade adjustable rear sight, type two ejector rod housing with offset slot, type two round ejector rod with concave face and it still times and locks up correctly. The transfer bar safety update has not been installed on this gun. (8A9314-78) (C&R) [Robert C. Greenberg Sr. Collection] (400/600) Est. 400 - 600
2314	Ruger LCR Double Action Only Revolver serial #1542-45290, 38 Special +P, 1 7/8" barrel with an excellent bore. The metal surfaces retain 99% plus original factory PVD and anodized finishes and the polymer fire control frame rates excellent. The one-piece pebble grain factory Hogue Monogrips rate excellent. The revolver includes the original factory box that is correctly end labeled and numbered to the gun, cable lock with a pair of keys, manual and paperwork. This arm is as-new-in-box, dealer stock, factory fired-only, and may have very small rack or handling marks only. (8A9319-393) {MODERN} (350/550) Est. 350 - 500
2315	Colt Officers Model Special Revolver serial #788029 38 Special, 6" heavy barrel with an excellent bore. The "Specials" were only produced for four years with 6,210 made in 38 Special. The metal surfaces retain about 95% non-factory reapplied blue showing edge wear, fading finish, handling marks and pitting. The revolver features a service trigger and hammer, the trigger face and spur are toned to gray. The revolver features replacement unmarked checkered finger groove combat style grips that rate excellent. The revolver still times and locks up correctly, features a Patridge front sight on a long-serrated ramp that was distinctive to the later variations of the Officers Model guns and black blade "Coltmaster" rear sight. (8A9468-46) {MODERN} [Tom Bubolz Collection] (300/500) Est. 300 - 500
2316	Browning Auto-5 Light 12 Semi-Auto Shotgun serial #01180PN211, 12 ga., 22" ventilated rib barrel with an excellent bore equipped with Invector choke system. This 1989 dated Miroku-made Auto-5 remains in excellent condition showing light use and later added recoil pad. The metal surfaces retain about 99% original blue showing light operational wear, a few handling marks and light edge wear. The receiver has wedges of roll engraving and is marked "Light Twelve". The checkered round knob pistolgrip walnut buttstock rates about excellent as shortened showing a few handling marks. A Pachmayr Decelerator recoil pad with hard spacer has been added, the fit is proud of the wood in some areas and shows light tool marks, the length of pull now 14 1/8". The checkered walnut factory forend rates about excellent with light handling marks. The shotgun has the usual Auto-5 features and is equipped with a Bradley ivory bead. This gun includes a single unmarked extended and ported extra full choke. It should make a great turkey or predator gun. (8A9319-50) {MODERN} (400/600) Est. 400 - 600

Lot	Title/Description
2317	Winchester Model 94 Flat Band Lever Action Carbine serial #1530576 30 W.C.F., 20" barrel with an excellent bore. The metal surfaces of this post-war carbine retain about 80% original blue, the greatest loss is due to a patch of oxidized pitting on the right side of the receiver in addition to scattered oxidation on the magazine tube, handling marks and thinning finish. The smooth straight grip walnut buttstock rates about excellent with light handling marks and an inch-long drying check on the butt near the right side of the toe. The checkered flat steel buttplate rates very good with about 90% original blue and handling marks. The long-wood walnut forend also rates excellent. The gun features the original bead front sight on a stippled ramp, the rear sight has been removed and the slot filled with a blank and a Redfield No. 100 receiver sight fitted to the rear. The gun still functions and should make a fine shooter, deer rifle or project gun. (8A9607-14) {C&R} (400/600) Est. 400 - 600
2318	James Warner Pocket Cartridge Revolver serial #2522 30 RF, 3" barrel with a very good bore showing several areas of moderate pitting. The metal surfaces are smooth and toned to smoky gray with areas of pitting. The smooth walnut factory grips are numbered to the gun and rate about excellent as cleaned and re-varnished showing light handling marks. The only markings on the gun are found on the cylinder "WARNERS PATENT 1857" and it still functions mechanically. This model of the Warner was originally made as a cartridge gun and is not a conversion. Only about 1,000 of these revolvers were manufactured. (8A9654-38) {ANTIQUÉ} (300/500) Est. 300 - 500
2319	Ruger New Model Flat Top Blackhawk Revolver serial #520-18934, 44 Special, 4 5/8" barrel with an excellent bore. The metal surfaces retain about 99% original blue and anodized finishes showing a few light handling marks. The fully checkered black synthetic factory grips with black Ruger Phoenix medallions rate excellent. The gun features the original Flat Top sized frame, internal lock, cylinder indexing aligns chambers with loading gate, serrated ramp front sight and black blade adjustable rear sight. It includes a factory hard case that is correctly end labeled and numbered to the gun, fired case, Ruger padlock with a pair of keys, pair of Ruger internal lock keys, manual and paperwork. (8A9645-51) {MODERN} [Larry J. Cummings Collection] (300/500) Est. 300 - 500
2320	Ruger New Model Blackhawk Convertible Revolver serial #47-91900, 45 Colt / 45 ACP, 5 1/2" barrel with an excellent bore. The metal surfaces and the spare cylinder retain about 98-99% original blue and anodized finishes with limited edge wear and handling marks. The smooth factory hardwood grips with silver Ruger Phoenix medallions rate excellent. The revolver features a serrated ramp front sight and black blade adjustable rear sight. The mainspring, trigger return spring and base pin latch spring have been replaced with Wolff springs but the originals are enclosed. The gun includes the factory hard case correctly end labeled and numbered to the gun, spare 45 ACP cylinder, Ruger padlock with a pair of keys, manual and aforementioned springs. (8A9645-15) {MODERN} [Larry J. Cummings Collection] (400/600) Est. 400 - 600
2321	Ruger Old Model Single Six Flat Gate Revolver serial #28235 22 LR, 5 1/2" barrel with an excellent bore. The metal surfaces retain about 95% original blue and anodized finishes, the surfaces are thinning with the barrel more of a mix of thinning blue and brown in addition to high edge wear and handling marks. The fully checkered black hard rubber factory grips with black Ruger Phoenix medallions rate excellent. This gun features the serrated half-moon front sight, drift adjustable rear sight, Type One ejector rod housing with offset slot, square ejector rod head and flat loading gate. This 1955 made gun has seen some honest use. (8A9645-14) {C&R} [Larry J. Cummings Collection] (400/600) Est. 400 - 600
2322	U.S. Model 1917 Revolver by Colt serial #193892 (Army #42247), 45 ACP/AR, 5 1/2" barrel with slight scattered frosting and two faint rings in the barrel, one by the muzzle and the other about mid-bore. The metal surfaces have reapplied blue that has faded to smoky gray with scattered moderate pitting under the new finish and handling marks. The condition of the cylinder indicates a non-factory replacement with pale blue finish. The smooth un-numbered walnut factory grips rate about good as lightly cleaned with moderate handling marks, chips missing off the toes of both panels, a one-inch long check on the left panel and a smaller crack on the right. The gun has later added ramp front sight, S&W micro adjustable rear sight, still functions mechanically and the lanyard loop is present. (8A9543-118) {MODERN} [Phil Buker Collection] (200/400) Est. 200 - 400

Lot	Title/Description
2323	Traditions Colt Model 1860 Richards Conversion Single Action Revolver by Armi San Marco serial #1488 38 Special, 8" barrel with an excellent bore. The metal surfaces retain about 98% original blue with light high edge wear and handling marks. The frame and hammer have bold case-hardened colors and the brass triggerguard strap rates excellent. The one-piece factory walnut grips rate excellent with a tiny knot imperfection on the left panel. This gun features a fixed sight on the breech plate, brass blade front sight, ejector rod housing, it still functions mechanically and barrel to frame fit is slightly loose. (8A9543-2) {MODERN} [Phil Buker Collection] (300/500) Est. 300 - 500
2324	Stevens Diamond No. 43 Single Shot Pistol serial #62727 22 LR, 6" period replacement barrel (probably from a 6" pocket rifle) with an oxidized and pitted bore. The metal surfaces of the frame of this Second Issue pistol retain about 99% original nickel plate with a few handling marks. The barrel is numbered to another gun (82932), the surfaces are smoky gray with wisps of original blue in addition to handling marks and pitting. The smooth walnut factory grips are numbered to another gun but rate very good to excellent with light scattered handling marks. The barrel latch button is a brass ad hoc replacement, barrel to frame fit is loose and it features a bead front sight with globe and target leaf with peep. (8A9543-213) {C&R} [Phil Buker Collection] (75/150) Est. 75 - 150
2325	Stevens-Conlin No. 38 Single Shot Pistol serial #13944 22 LR, 6 1/4" shortened relined barrel with an excellent bright bore. The metal surfaces are cleaned to gunmetal gray with scattered light stains from oxidation, pitting and light to moderate handling marks. The smooth walnut grips rate about good to very good with light to moderate handling marks. The grips and barrel are numbered to the gun, barrel to frame fit is tight, action is crisp, there are a pair of holes drilled and tapped on the butt and three more along the backstrap. The front sight is a Marble's No. 37 M bead and the rear is an unmarked sporting leaf with no step slide adjustment wedge. The barrel has been relined with recessed chamber and visible epoxy filler around the chamber end. The barrel has the "J. STEVENS A & T Co." barrel address. (8A9543-159) {C&R} [Phil Buker Collection] (75/150) Est. 75 - 150
2326	Colt Model 1903 Pocket Hammer Semi-Auto Pistol serial #28386 38 ACP, 4 1/2" barrel with a lightly frosted bore. The metal surfaces have toned to an even smoky gray with scattered light pitting throughout. The trigger has vivid fire blue with scattered light freckling and pitting. The spur hammer is a combination of straw and fire blue with pitting and the screws on the frame are vivid nitre blue. The grips are nicely executed reproductions featuring smooth walnut, the rear of one panel simply signed "By RC" and the grip screws show slot damage, the finish varying from moderate to vivid fire blue. The bronze firing pin has a pair of opposing cracks visible at the rear. A factory letter is provided and indicates this gun was shipped as a blue finished pistol to Norvell Shapleigh Hardware Company, St. Louis, Missouri, on December 6, 1910, in a ten-gun shipment. It includes a single blue finished unmarked magazine. (8A9645-52) {C&R} [Larry J. Cummings Collection] (500/700) Est. 500 - 700
2327	Custom Smith & Wesson Second Model Schofield Single Shot Pistol serial #4046 22 LR, 7" barrel with 22 caliber liner that rates excellent. The barrel has several circular tool marks, one near the muzzle the other closer to the breech plus the chamber still shows heavy traces of the rifling. The metal surfaces have been given an electro pencil loose foliate engraving covering perhaps 50%. The metal surfaces have about 97% fading reapplied blue finish with high edge wear, handling marks, old pitting and light cleaning around the barrel latch. The unmarked replacement fully checkered walnut grips rate excellent with light handling marks. The gun has been extensively modified, the most obvious is the cylinder was removed and replaced with a fixed fluted breechblock somewhat reminiscent of the Colt Camp Perry with ejector assembly, the middle pin that retains the original cylinder stop has been removed as it is not needed, the front sight is modified for elevation adjustments with a Patridge blade pinned to it, the rear is a higher square notch blade set into the barrel latch with a screw, there is a trigger overtravel screw set into the triggerguard and the hammer has a series of four progressively increasing diameter lightning holes drilled into the body. The rear triggerguard screw is missing, the is frame cracked at the top of the frontstrap and on the butt at the frontstrap/butt juncture, both have been professionally repaired. The gun appears to function mechanically and there is only a hint of play between the barrel and frame. (8A9522-83) {ANTIQUÉ} [Phil Buker Collection] (400/600) Est. 400 - 600

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2328	Colt Model 1903 Pocket Hammerless Semi-Auto Pistol serial #223823 32 ACP, 3 3/4" barrel with a near excellent bore showing limited pinprick pitting. The metal surfaces of this 1916-manufactured pistol retain about 96% original blue, the grip frame starting to thin, high edge wear and handling marks. The checkered hard rubber factory grips with "COLT" in a straight banner and the Rampant Colt rate about excellent. This type III pistol includes a period open top, closed bottom, right-hand leather holster with the serial number stamped into the front, caliber stamped below it and a single two-tone factory marked magazine. The holster rates about excellent with strong stitching and rivets showing scattered light handling marks and is leather lined. The lining shows signs of light drying but remains sound. There are no other markings on the holster to indicate if it served law enforcement, military or a legal gun owner but leaves much room for speculation. (8A9576-5) {C&R} (600/800) Est. 600 - 800
2329	Smith & Wesson 357 Magnum Hand Ejector Revolver serial #S104965, 357 Magnum, 3 1/2" barrel with an excellent bore. This early 1950's five-screw pre-model 27 has been non-factory refinished. The metal surfaces retain about 99% reapplied blue finish with old pitting visible under the new finish along with light handling marks and edge wear. The service trigger and hammer were blued during the refinish and rate excellent. The revolver features a set of Herrett's Shooting Star checkered walnut grips in excellent condition. The revolver features a Baughman ramp front sight, black blade micro adjustable rear sight, all appropriate parts are correctly numbered to the gun and it still times and locks up correctly. It should be a good shooter. (8A9543-212) {MODERN} [Phil Buker Collection] (600/800) Est. 600 - 800
2330	Glock Model 31 Semi-Auto Pistol serial #BAXZ670, 357 Sig, 4 1/2" barrel with an excellent bore. The metal surfaces of this Gen 4 pistol retain about 99% original black finish and the polymer frame rates excellent. The pistol features a white dot front sight, white outline rear sight, modular backstrap system, reversible magazine-catch and rough textured finish on the finger groove frame. The pistol includes the factory hard case that is correctly end labeled and numbered to the gun, (3) factory magazines, magazine loader and cleaning rod. The pistol appears to have seen little use. (8A9543-90) {MODERN} [Phil Buker Collection] (400/600) Est. 400 - 600
2331	High Standard Supermatic Tournament Semi-Auto Pistol serial #938878 22 LR, 6 3/4" heavy barrel with an excellent bore. The metal surfaces of this Model 102 pistol retain about 99% original blue with light high edge wear and a few handling marks. The trigger, magazine catch and anti-backlash screw retain bold case-hardened colors. The checkered synthetic factory grips with gold High Standard medallions rate excellent. The gun features a Patridge front sight and slide mounted adjustable rear sight. The gun includes an un-numbered factory box correctly end labeled to the gun, one unmarked blue finish factory magazine and one spare cadmium plated factory magazine. The gun appears to have seen only light use. (8A9645-21) {C&R} [Larry J. Cummings Collection] (500/700) Est. 500 - 700
2332	Ruger Old Army Percussion Revolver serial #145-15310, .45 cal, 7 1/2" barrel with an excellent bore. The stainless steel surfaces rate about excellent with a few light handling marks. The smooth walnut factory grips with silver Ruger Phoenix medallions rate excellent. This gun is equipped with serrated ramp front sight and black blade adjustable rear sight. It includes the factory hinged box that is correctly end labeled and numbered to the gun, nipple wrench, Dixie Gun Works straight line capper, unmarked brass powder flask, manual and paperwork. (8A9654-52) {ANTIQUUE} (400/600) Est. 400 - 600
2333	British Center Hammer Flintlock Screw Barrel Pocket Pistol by Thomas 40 cal., 2 1/4" smooth bore screw barrel with an oxidized and pitted bore. The metal surfaces of the frame and barrel are gunmetal gray with brown overtones showing scattered pinprick pitting, stains from oxidation and light to moderate handling marks. The smooth flat sided bag shaped rosewood grips rate about very good with light to sometimes moderate handling marks. There are proof marks on the bottom of the frame, "Thomas" in script on the left side and "LONDON" on the right side in a banner. The gun remains mechanically functional with a crisp lock and folding trigger. (8A9654-39) {ANTIQUUE} (500/700) Est. 500 - 700

Lot	Title/Description
2334	Ruger New Model Super Single Six Revolver serial #263-61622, 22 LR / 22 Magnum RF, 6 1/2" barrel with an excellent bore. The metal surfaces of the revolver and spare cylinder retain about 99% original blue and anodized finishes with light handling marks. The smooth hardwood factory grips with silver Ruger Phoenix medallions rate excellent. This handy little revolver features a serrated ramp front sight, black blade adjustable rear sight and it still functions mechanically. It includes an unfluted 22 Magnum RF cylinder and manual. (8A9610-2) {MODERN} (300/500) Est. 300 - 500
2335	Smith & Wesson Model 10 Military & Police Revolver serial #C464506, 38 Special, 4" pinned barrel with an excellent bore. This 1960-manufactured revolver retains about 97-98% original blue with slight thinning on the grip frame, a few oxidation blemishes and handling marks. The service trigger and hammer retain robust case-hardened colors with light operational wear and freckling. The diamond checkered walnut factory grips with silver S&W medallions are numbered to the gun and rate excellent with a few handling marks. This four-screw revolver features a fixed rear sight, serrated ramp front sight and still times and locks up correctly. (8A9560-9) {C&R} (300/500) Est. 300 - 500
2336	Iver Johnson Third Model Safety Automatic Hammerless Revolver serial #F5214, 22 RF, 3" ribbed round barrel with a bright near excellent bore. The metal surfaces of this revolver retain about 90% original blue showing some high edge wear, handling marks and a few small but moderate spots of oxidation staining scattered about. The cylinder shows some light assembly scratches and a couple small heavier spots of oxidation and pitting. The latch and trigger show remnants of case-hardened colors taking on a silvery patina. The black checkered hard rubber grips remain in excellent condition showing a light handling mark or two. Barrel-to-frame fit is solid and the action seems to function well mechanically with good timing and lock-up. The revolver includes its original tan factory box, pencil-numbered to the gun and missing its labeled end flap. There are some further light scuffs, minor flaking and the interior labels are intact. (13A9476-16) {C&R} (150/250) Est. 150 - 250
2337	Colt Model 1903 Pocket Hammerless Semi-Auto Pistol serial #115344 32 ACP, 3 3/4" barrel with a lightly frosted bore. The metal surfaces of this 1911-manufactured pistol retain about 80% original blue finish, the grip frame worn to brown plus moderate edge wear, oxidation blemishes, pitting and handling marks. The manual safety tab and trigger retain vivid nitre blue, showing light wear to the safety and the face of the trigger is worn to pewter. The checkered hard rubber factory grips rate excellent and feature a scallop edged banner with "COLT" and Rampant Colt below it. The pistol includes a single two-tone factory marked magazine. (8A9650-16) {C&R} (300/500) Est. 300 - 500
2338	Colt Police Positive Double Action Revolver serial #170574 32 Colt New Police, 4" barrel with an excellent bore. The metal surfaces of this 1921-manufactured revolver retain about 85% original blue finish, the grip frame worn to brown in addition to moderate edge wear, thinning finish on the cylinder and handling marks. The blue on the trigger is wearing on the face but the hammer retains full color. The checkered hard rubber factory grips with fleur-de-lis borders and stylized "C" around the escutcheon rate near excellent with light handling marks and are numbered to the gun. The gun still times and locks up correctly. (8A9560-47) {C&R} (250/450) Est. 250 - 450
2339	Colt Police Positive Target Revolver serial #33260 22 LR, 6" barrel with an excellent bore. The metal surfaces of this 1927-manufactured revolver retain about 88-90% original blue with high edge wear, handling marks and a few spots of cleaned oxidized pitting on the sideplate but most of the loss is on the barrel which is a mottled mix of brown and blue. The hammer and trigger retain nearly full blue with light handling wear. The un-numbered checkered walnut grips with silver Rampant Colt medallions rate excellent. This gun features an elevation adjustable Patridge front sight, black blade windage adjustable rear sight and it still functions mechanically but one chamber hangs up occasionally when cocking it single action and will need attention. (8A9650-6) {C&R} (350/550) Est. 350 - 550

Lot	Title/Description	Lot	Title/Description
2340	U.S. Model 1901 Revolver by Colt serial #102577 38 Colt, 6" barrel with an excellent bore. This 1898-manufactured revolver retains perhaps 15-20% original blue with the surfaces toned to an even brown color showing strong patches of blue in the protected areas, cylinder flutes and rear set of cylinder-stop leads in addition to handling marks. The hammer, trigger and lanyard are mostly gray with a few hidden patches of fire blue. The smooth walnut factory grips rate about good with light to moderate handling marks but the left panel has one large and one small heavy scuff and minor checking. The inspector marks of Rinaldo A. Carr are still visible on the butt of each grip panel and remain strong on the bottom of the barrel and rear of the cylinder. There are matching factory rework numbers on the cylinder and ejector and a different number on the grip frame. The last patent date on the barrel is "March 95" and the butt is stamped "U.S. / ARMY / MODEL / 1901". The model number certainly does not match date of manufacture and it is possible this was a left-over frame that was used by Colt to fill a military contract with the Model 1901 features. (8A9645-9) (ANTIQUÉ) [Larry J. Cummings Collection] (100/200) Est. 100 - 200	2345	Allen & Thurber Center Hammer Percussion Boot Pistol serial #658 .32 cal., 4" part round part octagon barrel separated by a knurled wedding band showing an oxidized and pitted bore. The metal surfaces are grayish pewter with scattered stains from oxidation, pitting and handling marks. The smooth bag shaped walnut grips are numbered to the gun and rate about excellent with light handling marks. The left side flats of the barrel are marked "ALLEN & THURBER / WORCESTER / CAST-STEEL" with the serial number on the bottom of the barrel. The lock remains functional. (8A9654-18) (ANTIQUÉ) (125/225) Est. 125 - 225
2341	Belgian Double Action Folding Trigger Pocket Revolver by Gautte serial #1878 320 CF, 2" octagon barrel with an excellent bore. This little revolver remains in fine condition with about 90% original blue on the five-shot cylinder and barrel with most of the loss due to lightly cleaned pitting over one of the chambers plus handling marks. The case-hardened colors on the one-piece frame have faded but strong swirls are still present in several areas. The sides of the hammer have engine turning with handling marks and the small parts of the trigger and ejector assembly have faded straw colors. The holes around each frame screw has been adorned with rosettes and the cylinder has Belgian black powder proofs. The diamond checkered factory grips have full coverage, are assembly numbered to the frame and rate about excellent. This revolver features traditional double / single action mechanism, side loading gate and swing out ejector of the Nagant persuasion. The revolver is in need of mechanical attention, the upper mainspring arm hooks are off the hammer stirrup. (8A9563-1) (ANTIQUÉ) (200/400) Est. 200 - 400	2346	Remington Vest Pocket Single Shot Pistol serial #3264 22 RF, 3 1/4" barrel with an oxidized and pitted bore. The metal surfaces have been cleaned to pewter showing moderate marks from the cleaning, pitting, stains from oxidation and light to moderate handling marks. The smooth sawhandle walnut grips are non-factory replacements showing good workmanship but utilizes a simple flathead wood screw. The maker address on the barrel is still visible showing heavy wear and the mechanism still functions. The heel of the frame broke off in the past and was brazed together. (89654-23) (ANTIQUÉ) (50/100) Est. 50 - 100
2342	Colt Police Positive Special Double Action Revolver serial #867728 38 Special, 4" barrel with an excellent bore. This 1965-manufactured revolver retains about 97% original blue with edge wear, butt toned to gray and scattered handling marks. The face of the trigger is thinning to light gray but the rest of the appropriate surfaces of the trigger and hammer have full blue. The fully checkered walnut factory grips with silver Rampant Colt medallions are numbered to the gun and rate about excellent. The gun still times and locks up correctly. It includes the original two-piece woodgrain box that is correctly end labeled and numbered to the gun. The box rates very good with edge wear and scattered storage marks. (8A9650-12) (C&R) (400/600) Est. 400 - 600	2347	Smith & Wesson Model 4006 Semi-Auto Pistol serial #TFF6592, 40 S&W, 4" barrel with an excellent bore. The matte stainless steel surfaces rate excellent with a few light handling marks. The one-piece checkered synthetic wraparound grip with S&W logos rates excellent. The gun features traditional single / double action mechanism, ambidextrous slide mounted decocker / safety, Novak's style three dot sights and checkering on the frontstrap and front of the triggerguard. The pistol includes the factory box that is correctly end labeled and numbered to the gun, a pair of eleven-round factory magazines, cleaning kit, chamber flag, manual and paperwork. (8A9553-1) (MODERN) (400/600) Est. 400 - 600
2343	Unmarked Bar Hammer Single Shot Percussion Muff Pistol serial #144 .28 cal., 1 3/4" part octagon part round smooth bore barrel with an oxidized and pitted bore. The sides of the frame have a sprig of loose scroll engraving and there is a knurled wedding ring where the barrel transitions from round to octagon. The metal surfaces are cleaned to pewter with stains from oxidation, scattered pitting and handling marks. The bag grips are smooth walnut that are numbered to the gun and rate about very good with light handling marks and the left panel has a moderate scuff. The side of the hammer is marked "ALLEN'S PATENT / 1845" with the serial number stamped on the side of the grip frame and under the barrel. The little pistol still functions mechanically and remains in very good condition. (8A9654-37) (ANTIQUÉ) (100/200) Est. 100 - 200	2348	Llama Model XV "Especial" Semi-Auto Pistol serial #190755 22 LR, 3 3/4" barrel with an excellent bore. This 1956-manufactured pistol retains about 95% original blue showing high edge wear, thinning finish on the grip frame and handling marks. The fully checkered walnut factory grips with silver Llama medallions rate about excellent. This gun is a miniature clone of the famed Model 1911 featuring reduced size, semi-ramp front sight, drift adjustable rear sight, controls similar to the full-size Government model and external extractor. The pistol includes a single factory magazine. It should make a fun shooter. (8A9650-20) (C&R) (125/225) Est. 125 - 225
2344	Union Arms Co. Bar Hammer Single Shot Percussion Muff Pistol serial #10 .28 cal., 1 3/4" part octagon part round smooth bore barrel with an oxidized and pitted bore. The sides of the frame have a wedge of loose scroll engraving and there is a knurled wedding ring where the barrel transitions from round to octagon. The metal surfaces are brown with a few traces of original blue in the protected areas of the barrel below the triggerguard along with scattered pitting and handling marks. The bag grips are smooth walnut that are not numbered and rate about good with handling marks on both panels and the right panel has a crack that runs from the escutcheon to the butt of the grip. The top of the barrel is marked "THE UNION / ARMS CO." with the serial number stamped on the side of the grip frame. The little pistol still functions mechanically, the triggerguard is loose but it remains in very good condition overall. (8A9654-41) (ANTIQUÉ) (100/200) Est. 100 - 200	2349	Rohm Model R10 Double Action Revolver serial #793502 22 Short, 2 1/2" barrel with an excellent bore. This 1964 proof dated revolver retains about 95% original blue and enamel finishes with light high edge wear, thinning finish on the cylinder and handling marks. The checkered white synthetic factory grips with Rohm medallions rate near excellent showing a few handling marks and soiling. The gun still functions mechanically and the screw-out manual ejector rod is present. (89627-2) (C&R) (20/40) Est. 20 - 40
		2350	Heritage Manufacturing Single Action Revolver serial #HR62917, 22 LR, 3" barrel with an excellent bore. This Sheriff's style revolver retains about 99% original nickel plate with a few handling marks. The smooth birds head walnut grips rate about excellent. The revolver features a manual safety on the left side recoil shield and the ejector rod head is cut away to allow removal of the base pin without removing the ejector rod housing. The gun appears to have seen little use. (8A9627-1) (MODERN) (125/225) Est. 125 - 225
		2351	Heritage Manufacturing Rough Rider Single Action Revolver serial #HR63496, 22 LR, 8 7/8" barrel with an excellent bore. This Buntline style revolver retains about 98-99% original nickel plate with a few handling marks and oxidation stains. The smooth birds head walnut grips rate about excellent. The revolver features a manual safety on the left side recoil shield. The gun appears to have seen little use. (8A9627-7) (MODERN) (125/225) Est. 125 - 225

Lot	Title/Description	Lot	Title/Description
2352	<p>Unmarked European Flintlock Coat Pistol 60 cal., 14" smooth bore barrel with an oxidized and pitted bore. An interesting relic with a Mediterranean style. The barrel has relief engraved foliate motifs with light scroll below configured into a bearded head, the lock and hammer are incised engraved with flowing foliate design, the triggerguard has a relief engraved floral design and finial and the ramrod stock ferrule has a small face cut into it. The metal is worn to brown with oxidation stains, pitting and handling marks. The decorative bulbous brass buttcap rates good with moderate handling marks, but the point is a separate cap that is loose. There is a floral shaped brass plate on the backstrap that is later added and is smaller than the relief cuts in the stock for it. The sideplate for the lock on the left is also a replacement and does not quite fit the inletting. The nose cap is a thin piece of sheet metal showing edge damage and tearing at the bottom. The one-piece walnut stock rates about fair showing moderate to heavy wear and handling marks and a split under the sideplate, several missing chips and an unexplained roughly 1/4" diameter hole bored into the bottom of the forend just forward of the ramrod thimble. The lock is held in place by a single later added hardware screw, the sideplate by a standard flathead wood screw and the lock works but the sear is in need of attention and functioning is sporadic due to the loose lock assembly. There is a ramrod present but it is broken off just below the ramrod stock thimble. (8A9528-16) {ANTIQUE} (100/200) Est. 100 - 200</p>	2357	<p>Stevens No.34 Hunter's Pet Pocket Rifle serial #1757 30 CF, 18" octagon barrel with a lightly oxidized and pitted bore. The barrel has toned to brown showing scattered occasional light oxidation, pitting and handling marks. The iron frame retains about 50% original nickel plate with the remainder oxidized. The smooth walnut grips rate very good to excellent as lightly refinished. The grips and barrel are correctly numbered to the gun, barrel-to-frame fit has just a hint of play and the action remains crisp. This gun features a globe front sight with pinhead post plus a small half-moon shaped blade mounted on the top of the globe and a folding ladder rear sight featuring a small peep in the blade with a "V" notch on top. (8A9625-2) {ANTIQUE} (200/300) Est. 200 - 300</p>
2353	<p>Hood Victoria Pocket Rifle Revolver serial #3471 32 RF Long, 10" barrel with a lightly oxidized and pitted bore. The metal surfaces retain about 70-75% original nickel plate with most of the loss on the barrel attributed to oxidation blemishes in addition to limited pitting, bubbling and handling marks. The hard rubber factory grips rate about excellent and each panel has a relief moulded figure of a woman in flowing robes holding an anchor and shield with "UNION" across the top of the shield. The gun still functions mechanically, it features a blade front sight and sporting leaf rear with combination peep and "V" notch. The barrel is marked "VICTORIA / PAT APRIL 6, 1876". The butt is drilled and tapped for the addition of a shoulder stock (not included) with a mounting screw on the left side of the frame. (8A9625-3) {ANTIQUE} (100/200) Est. 100 - 200</p>	2358	<p>Gabilondo y Urresti Bufalo Semi-Auto Pistol serial #1734 32 ACP, 3 1/2" barrel with an excellent bore. The metal surfaces of this "Bufalo" (Gabilondo spelling) model pistol retain about 92-94% original blue that is starting to thin with high edge wear, operational wear and handling marks. The checkered hard rubber grips have a buffalo head on each panel with an intertwined CB in an oval at the top. The gun appears functional and it includes a single six-shot magazine. (8A9560-45) {C&R} (100/200) Est. 100 - 200</p>
2354	<p>Quackenbush Safety Cartridge Rifle 22 RF, 17 7/8" barrel with a moderately oxidized and pitted bore. The metal surfaces retain about 90% original nickel plate with the lower tang and triggerguard worn to pewter, scattered freckling, oxidation blemishes, minor bubbling and handling marks. The breechblock is toned to gray with a few splashes of nickel plate present. The straight grip buttstock rates about very good with light to moderate handling marks. The crescent steel buttplate rates very good with about 90% nickel plate showing light oxidation stains and wear at the toe and heel. The swinging breach block fits tight and the mechanism still functions. The side of the receiver has the H.M. Quackenbush New York address with patent dates below it. (8A9565-5) {C&R} (400/600) Est. 400 - 600</p>	2359	<p>High Standard Model B Semi-Auto Pistol serial #69778 22 LR, 6 3/4" barrel with an excellent bore. The metal surfaces retain about 96% original blue with the grip frame starting to thin, high edge wear, oxidation blemishes and handling marks. The checkered hard rubber factory grips with High Standard logo rate about excellent with light handling marks. The pistol features a serrated Patridge front sight, drift adjustable rear sight and type II take down. It includes a single two-tone magazine. (8A9560-7) {C&R} (250/450) Est. 250 - 450</p>
2355	<p>Ruger Old Model Blackhawk Flat Top Revolver serial #4459 44 Magnum, 6 1/2" barrel with an excellent bore. This 1957-manufactured revolver has seen honest use but remains in fine condition. The metal surfaces retain about 85% original blue and anodized finishes with most of the loss due to wear on the cylinder in addition to high edge wear and handling marks. The smooth walnut factory grips with black Ruger Phoenix medallions rate very good plus displaying handling marks and two small notches cut into the toe of the right panel, perhaps for game brought to bag. It features a serrated ramp front sight, Micro black blade adjustable rear sight, steel Type II ejector rod housing with offset slot, concave round ejector rod head, six-groove rifling and a crisp action that still times and locks up correctly. A great upstart gun for the collector, shooter or it would make for a classic field gun. (8A9601-5) {C&R} (400/600) Est. 400 - 600</p>	2360	<p>High Standard Model B Semi-Auto Pistol serial #63133 22 LR, 4 1/2" barrel with an excellent bore. The metal surfaces retain about 98% original blue with the grip frame showing slight thinning, limited edge wear, a few tiny oxidation blemishes and handling marks. The checkered hard rubber factory grips with High Standard logo rate excellent with minor handling marks. The pistol features a serrated ramp front sight, drift adjustable rear sight and type II take down. No magazine is included. (8A9560-3) {C&R} (350/550) Est. 350 - 550</p>
2356	<p>Smith & Wesson Model 28-2 Highway Patrolman Revolver serial #N953810, 357 Magnum, 4" barrel with an excellent bore. This late 1980's-manufactured revolver retains about 90% original blue, the backstrap has toned to brown and to a lesser extent the frontstrap in addition to high edge wear and handling marks. The service trigger and hammer retain bold case-hardened colors with light operational wear. The checkered walnut factory target grips with silver S&W medallions rate about good to very good with light to moderate edge wear and handling marks. The big N-frame still times and locks up correctly and features a red ramp front sight and white outline micro adjustable rear sight. (8A9532-2) {MODERN} (250/450) Est. 250 - 450</p>	2361	<p>High Standard Model B Semi-Auto Pistol serial #19408 22 LR, 4 1/2" barrel with an excellent bore. The metal surfaces retain about 90% original blue, the backstrap toned to brown and pewter, the frontstrap starting to thin, light to moderate edge wear, a few oxidation blemishes and handling marks. The fully checkered hard rubber factory grips rate about excellent. The pistol features a serrated ramp front sight, drift adjustable rear sight and type IA take down but the round retracting rod is missing from the rear of the slide. It includes a single unmarked aftermarket magazine. (8A9560-36) {C&R} (200/400) Est. 200 - 400</p>
		2362	<p>High Standard Field-King Semi-Auto Pistol serial #378734 22 LR, 4 1/2" heavy barrel with an excellent bore. The metal surfaces of this First Model retain about 40% original blue with most of the slide and frame toning to brown in addition to edge wear, handling marks, scattered oxidation and pitting. The checkered synthetic thumb rest factory grips with High Standard logo rate about excellent with a few minor handling marks. This lever series pistol features a serrated Patridge front sight, adjustable rear sight and no magazine is provided. (8A9560-8) {C&R} (100/200) Est. 100 - 200</p>
		2363	<p>High Standard M-101 Dura-Matic Semi-Auto Pistol serial #2119162 22 LR, 4 1/2" barrel with an excellent bore. The metal surfaces retain about 98% original blue with slight edge wear, operational wear and handling marks. The diamond checkered one-piece wraparound synthetic factory grip rates about excellent. This economy model features a serrated ramp front sight, drift adjustable rear sight, cross bolt frame mounted safety and frame mounted push button magazine catch. It includes a single magazine. (8A9560-49) {C&R} (150/250) Est. 150 - 250</p>
		2364	<p>Iver Johnson First Model Safety Automatic Hammerless Revolver serial #28225 32 S&W, 3" barrel with an oxidized and pitted bore. The metal surfaces have been cleaned to pewter with a few traces of original nickel plate in the protected areas plus oxidation stains, pitting and handling marks. The triggerguard has toned to brown with oxidation stains. The un-numbered checkered "Owl Head" hard rubber grips rate about excellent. The gun still functions mechanically, barrel to frame fit has slight play and features a single top-post barrel latch mounted on the left side and double cross pins. (8A9627-8) {ANTIQUE} (50/150) Est. 50 - 150</p>

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2365	Garate, Anita y Cia Triomphe Model Semi-Auto Pistol serial #9413 25 ACP, 2 1/8" barrel with a lightly frosted bore. The metal surfaces retain about 96% non-factory reapplied blue with several areas of lightly cleaned pitting in addition to old pitting under the new finish. The smooth replacement aftermarket acrylic grips rate about excellent. The firing pin is broken or missing. The pistol includes a single magazine. (8A9583-1) {MODERN} (20/40) Est. 20 - 40
2366	F.I.E. D38 Double Derringer serial #F85392, 38 Special, 3" barrels with excellent bores showing light tool marks. The metal surfaces retain about 99% original chrome plate with a few minor handling marks. The checkered faux ivory grips rate excellent. The pistol features a manual extractor and appears to function mechanically. (8A9627-3) {MODERN} (40/80) Est. 40 - 80
2367	Wesson & Harrington No. 3 Single Action Revolver serial #1269 32 RF Short, 2 5/8" octagon barrel with three-groove rifling showing an oxidized and pitted bore. The metal surfaces of this First Type revolver retain about 97% original nickel plate with most of the loss due to oxidation stains on the cylinder in addition to limited bubbling and handling marks. The smooth rosewood factory grips are numbered to the gun and rate about excellent showing slight shrinkage. The ejector still works, it times and locks up correctly but the base pin release does not function and the cylinder cannot currently be removed. The barrel and cylinder are correctly numbered to the gun. (8A9632-6) {ANTIQUÉ} (250/450) Est. 250 - 450
2368	Iver Johnson Model TP22 Semi-Auto Pistol serial #AE06274, 22 LR, 2 7/8" barrel with an excellent bore. The metal surfaces retain about 96% original black and bronze colored enamel finishes with most of the loss due to handling wear on the front strap and knuckle areas in addition to limited high edge wear and handling marks. The checkered wraparound two-piece factory grips with "Owl Head" logo rate excellent. The pistol is fashioned after the Walther TPH and features a slide mounted hammer block, double / single action mechanism and fixed sights. It includes a Gunskins inside the waist band holster and single magazine with finger rest baseplate. (8A9601-3) {MODERN} (125/225) Est. 125 - 225
2369	Smith & Wesson Model 17-2 K-22 Masterpiece Revolver serial #K494324, 22 LR, 6" pinned barrel with an excellent bore. This 1962-manufactured revolver retains about 95% original blue with moderate wear at the muzzle showing additional light cleaning, high edge wear, a few oxidation blemishes and handling marks. The service trigger and hammer retain vivid case-hardened colors with light operational wear. The diamond checkered walnut factory Magna grips with silver S&W medallions are numbered to the gun and rate about very good to excellent with scattered dents and handling marks, mostly around the butt. It features a Patridge front sight, black blade micro adjustable rear sight and still times and locks up correctly. (8A9563-19) {C&R} (350/550) Est. 350 - 550
2370	Harrington & Richardson Second Model Hammerless Revolver serial #59046 38 S&W, 3 1/4" barrel with an excellent bore. This Second Variation (1906-1908) shows light honest use and retains about 97% original blue with light high edge wear, triggerguard toning to gray, a lone lightly cleaned very small patch of pitting on the frame, tool marks around the hammer screw and a few other light handling marks. The smooth trigger has toned mostly to pewter with strong blue on the back, the barrel latch is faded case-hardened colors. The checkered hard rubber factory grips are numbered to the gun and rate excellent. The little pocket pistol still times and locks up correctly, barrel to frame fit is as tight as the day it left Massachusetts and it has correct caliber and patent date markings. (8A9355-21) {C&R} (200/400) Est. 200 - 400
2371	Browning Nomad Semi-Auto Pistol serial #64058P6, 22 LR, 6 3/4" barrel with an excellent bore. This 1966-manufactured pistol was the first year Browning produced them with all steel frames. The metal surfaces retain about 98% original blue with some light high edge wear and a few handling marks. The checkered synthetic one-piece wraparound factory grips with Browning logo rate very good to excellent show light handling marks. The pistol features a slightly undercut Patridge front sight, adjustable rear sight and manual safety. It includes a single magazine. (8A9601-4) {C&R} (350/550) Est. 350 - 550

Lot	Title/Description
2372	Ruger New Model Super Single Six Convertible Revolver serial #66-76880, 22 LR/22 Magnum RF, 5 1/2" barrel with an excellent bore. The metal surfaces retain about 97% original blue and anodized finishes showing light high edge wear, handling marks and freckling on the Long Rifle cylinder. The Magnum cylinder has scattered light to moderate oxidation and pitting showing moderate cleaning attempts with about 80-85% remaining. The smooth walnut factory grips with silver Ruger Phoenix medallions rate about excellent showing a few handling marks. It features a serrated ramp front sight, adjustable black blade rear sight and still functions mechanically. It includes a factory hinged box that is correctly end labeled and numbered to the gun and the aforementioned unfluted 22 Magnum RF cylinder with red felt pouch. (8A9562-2) {MODERN} (200/400) Est. 200 - 400
2373	Unmarked Spur Trigger Single Shot Pistol serial #2839 28 RF, 3 11/16" octagon barrel with a moderately oxidized and pitted bore. This pistol is reminiscent of the Bacon single shot flush fit recoil shield pistol but there are other brands that closely resemble it. The barrel of this side swing pistol is a blend of pewter and brown with oxidation stains, it shows several moderate impact marks and handling marks. The brass frame is worn to ochre with light handling marks. The smooth rosewood factory grips rate about very good with handling marks. The mechanism is in need of attention as the trigger return spring does not function, the hammer will not release at full cock and the barrel to frame fit loose. (8A9574-132) {ANTIQUÉ} [James Traynor Collection] (20/40) Est. 20 - 40
2374	Harrington & Richardson Young America Double Action Revolver serial #4701 22 RF, 2" octagon barrel with an oxidized and pitted bore. The metal surfaces of this second variation retain about 92% original nickel plate, including the triggerguard, in addition to oxidation blemishes, bubbling finish and handling marks. The trigger has most of its nickel plate with oxidation stains and the hammer is gray. The checkered hard rubber factory grips with geometric designs at the top and bottom are numbered to the gun and rate about excellent showing light handling marks. The gun partially functions, the trigger fails to reset but timing and lock up are good. (8A9574-146) {ANTIQUÉ} [James Traynor Collection] (50/150) Est. 50 - 150
2375	Harrington & Richardson Young America Double Action Revolver serial #9177 22 RF, 2" octagon barrel with a lightly oxidized and pitted bore. The metal surfaces of this third variation retain about 97% original nickel plate and blue (triggerguard) finishes with scattered light oxidation blemishes, a few minor bubbles and handling marks. The trigger and hammer are toned to gray with oxidation stains. The checkered hard rubber factory grips with geometric designs at the top and bottom have remnants of the scratch numbers and rate about excellent showing light handling marks. The gun functions mechanically but timing and lock up need attention. It includes a single left-hand belt holster with light scroll trim, tight stitching, moderate handling-wear and scuffing. The front of the holster is stamped "4760 / 22". (8A9574-148) {C&R} [James Traynor Collection] (75/125) Est. 75 - 125
2376	Harrington & Richardson Second Model Hammerless Bicycle Revolver serial #222416 32 S&W, 2" barrel with a near excellent bore showing a few oxidation stains and pits. The metal surfaces retain about 90% original blue, the grip frame and barrel toning to brown with scattered oxidation blemishes and handling marks. The checkered hard rubber factory grips are numbered to the gun and rate about very good to excellent showing minimal wear but there is a crack in the lower left panel that will chip off if the panel is removed. The gun still times and locks up but the trigger will not reset without assistance. (8A9574-147) {C&R} [James Traynor Collection] (100/200) Est. 100 - 200
2377	Savage Model 1907 Semi-Auto Pistol serial #202158 32 ACP, 3 3/4" barrel with an excellent bore. The metal surfaces are brown with scattered fairly even pitting, oxidation stains and handling marks. The checkered hard rubber factory grips with Indian Head logo rate excellent. The pistol includes a reproduction unmarked magazine. (8A9574-106) {C&R} [James Traynor Collection] (100/200) Est. 100 - 200

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2378	Replica Colt Model 1860 Army Percussion Revolver by Uberti serial #47930 .44 cal., 8" barrel with a near excellent bore showing several oxidation blemishes. The metal surfaces of the barrel and backstrap retain about 95% original blue with edge wear, lightly cleaned oxidized pitting at the muzzle and handling wear. The cylinder has a strong scene but is toned to smoky gray with traces of original blue around the nipples. The case-hardened colors of the frame, hammer and loading lever are generally robust, the lever fading to gray and oxidation stains on the hammer. The triggerguard strap rates about excellent. The smooth one-piece factory walnut grips rate excellent. The gun is cut for a shoulder stock, it functions mechanically and should make a good shooter. (8A9574-129) {ANTIQUE} [James Traynor Collection] (75/150) Est. 75 - 150
2379	Gerstenberger & Eberwein Valor Model GR2 Double Action Revolver by Rohm serial #163437 22 Short, 1 7/8" barrel with an excellent bore. The metal surfaces retain about 99% original blue and enamel finishes with light edge wear, scratches and handling marks. The checkered synthetic grips with "Valor" medallions rate excellent. The revolver features a pinned base pin with removable ejector, side loading gate, free-wheeling cylinder and it still functions. It includes a factory box that is correctly end labeled and numbered to the gun, instruction sheet and bore brush. (8A9574-144) {C&R} [James Traynor Collection] (25/75) Est. 25 - 75
2380	Ruger Mark II Government Model Target Semi-Auto Pistol serial #216-74818, 22 LR, 6 7/8" heavy barrel with an excellent bore. The metal surfaces of this 1991-manufactured pistol retain about 96% original blue, the backstrap and high edges showing wear in addition to light handling marks. The checkered Volquartsen Volthane replacement thumb rest target grips with single Volquartsen medallion rate excellent. The pistol still has the original factory adjustable sights, has been drilled and tapped for optics and features a Weaver style scope base and Volquartsen trigger assembly with overtravel stop. It includes the original un-numbered yellow and black hinged factory box that is correctly end labeled to the gun, (3) factory magazines, Tasco Accu Dot red dot sight, original factory test target numbered to the gun and manual. This model was originally made for a government contract but was sold by Ruger on the commercial market after the contract was fulfilled, they featured swaged chambers and were noted for their accuracy. (8A9574-99) {MODERN} [James Traynor Collection] (200/400) Est. 200 - 400
2381	High Standard Model SK-100 Sport King Semi-Auto Pistol serial #522929 22 LR, 6 3/4" barrel with an excellent bore. The metal surfaces retain about 97% original blue finish, the bluing starting to fade in addition to high edge wear and handling marks. The checkered synthetic thumb rest factory grips with High Standard logo rates about excellent. The pistol features a Partridge front sight, slide mounted drift adjustable rear sight, slide stop and push button barrel takedown. The pistol includes a single cadmium plated factory magazine. (8A9574-151) {C&R} [James Traynor Collection] (250/450) Est. 250 - 450
2382	High Standard Sport King Semi-Auto Pistol serial #413428 22 LR, 4 1/2" barrel with an excellent bore. The metal surfaces of this first model retain about 99% original blue finish with minor handling marks. The checkered synthetic thumb rest factory grips with High Standard logo rates excellent. The pistol features a serrated ramp front sight, slide mounted drift adjustable rear sight, slide stop and lever style barrel takedown. The pistol includes a single factory magazine. A great shooter or addition for the collection. (8A9574-103) {C&R} [James Traynor Collection] (300/500) Est. 300 - 500
2383	High Standard Model B Semi-Auto Pistol serial #6409 22 LR, 4 1/2" barrel with an excellent bore. The metal surfaces retain about 97% non-factory reapplied blue finish, the heel of the grip frame is toning to pewter along with high edge wear, a few oxidation stains and handling marks. The checkered hard rubber factory grips rate about very good with light to moderate diamond point wear and handling marks. The pistol features a serrated ramp front sight, drift adjustable rear sight and type IA take down. It includes a single refinished factory magazine and should make a good shooter. (8A9574-150) {C&R} [James Traynor Collection] (100/200) Est. 100 - 200

Lot	Title/Description
2384	High Standard M-101 Dura-Matic Semi-Auto Pistol serial #1370455 22 LR, 4 1/2" barrel with an excellent bore. The metal surfaces retain about 98% original blue with slight edge wear, freckling on the barrel, a very small patch of tiny impact marks on the right side of the slide and handling marks. The diamond checkered one-piece wraparound synthetic factory grip rates excellent. This pistol features a serrated ramp front sight, drift adjustable rear sight, cross bolt frame mounted safety and frame mounted push button magazine catch. It includes a single magazine. (8A9574-152) {C&R} [James Traynor Collection] (150/250) Est. 150 - 250
2385	Smith & Wesson Model 36 Chiefs Special Revolver serial #J656494, 38 Special, 2" pinned barrel with an excellent bore. The metal surfaces of this mid 1970s-manufactured gun retain about 98% original blue with the greatest loss due to a very small area of oxidized pitting on the heel of the butt in addition to limited edge wear and handling marks. The service trigger and hammer retain bold case-hardened colors with light operational wear. The checkered walnut factory square butt Magna grips with silver S&W medallions are hand numbered to the gun and rate about very good to excellent with light handling wear. This little hideout revolver still times and locks up correctly. (8A9574-113) {MODERN} [James Traynor Collection] (300/500) Est. 300 - 500
2386	Smith & Wesson Model 36 Chiefs Special Revolver serial #748086 38 Special, 3" pinned barrel with an excellent bore. The metal surfaces of this late 1960s-manufactured gun retain about 92% original blue, grip frame toning to brown, light edge wear and handling marks. The service trigger and hammer retain bold case-hardened colors with light operational wear. The checkered walnut factory square butt Magna grips with silver S&W medallions are numbered to the gun and rate about very good to excellent with light handling wear. This revolver still times and locks up correctly. (8A9574-116) {C&R} [James Traynor Collection] (250/450) Est. 250 - 450
2387	Smith & Wesson Model 10 Military & Police Revolver serial #C464285, 38 Special, 6" pinned barrel with an excellent bore. This 1960-manufactured four-screw revolver remains in excellent condition with about 98% original blue showing scattered lightly cleaned oxidation blemishes, limited edge wear and a few handling marks. The service trigger and hammer retain vivid case-hardened colors with minor operational wear. The diamond checkered walnut factory square butt Magna grips with silver S&W medallions are numbered to the gun and rate excellent. The gun still times and locks up correctly and the last digit in the serial number on the butt is very lightly struck. (8A9574-100) {C&R} [James Traynor Collection] (400/600) Est. 400 - 600
2388	Walther P22 Semi-Auto Pistol serial #T003684, 22 LR, 3 3/8" barrel with an excellent bore. The metal surfaces of the slide have faded to gray with high edge wear and handling marks. The polymer frame rates excellent with minor handling marks. The front sight is missing but easily replaced on the P22, the rear sight is a windage adjustable with a pair of dots, ambidextrous magazine release and ambidextrous slide mounted safety. No magazine is provided. (8A9598-22) {MODERN} (75/150) Est. 75 - 150
2389	Colt Woodsman Sport Semi-Auto Pistol serial #49015-S, 22 LR, 4 1/2" barrel with an excellent bore. This 1949-manufactured second series pistol retains about 97% original blue finish with high edge wear, grip frame thinning to bluish gray patina and handling marks. The checkered synthetic factory grips with Rampant Colt logo on the right panel rate very good to excellent showing little wear but there are several scuffs on the edge of the left butt. The pistol features a semi-ramp front sight, drift adjustable rear sight and frame mounted magazine release. The pistol includes a single factory marked magazine. (8A9574-117) {C&R} [James Traynor Collection] (600/800) Est. 600 - 800
2390	Colt Model 1908 Hammerless Vest Pocket Semi-Auto Pistol serial #41855 25 ACP, 2 1/8" barrel with a lightly frosted bore. The metal surfaces of this 1911-manufactured pistol have been cleaned to an even gunmetal gray showing even pitting and handling marks. The checkered hard rubber grips with "COLT" in a straight banner and Rampant Colt in a stylized "C" rate about excellent with minor handling marks. Overall, the markings are strong to crisp with some softening. The pistol includes a single unmarked magazine. If you want a shooter or project gun, this pistol is a good candidate. (8A9574-119) {C&R} [James Traynor Collection] (75/150) Est. 75 - 150

Lot	Title/Description
2391	Colt Model 1908 Hammerless Vest Pocket Semi-Auto Pistol serial #351762 25 ACP, 2 1/8" barrel with a lightly frosted bore. The metal surfaces of this 1925-manufactured pistol have been non-factory refinished and retain about 99% reapplied blue showing old pitting under the new finish. The checkered walnut factory grips with silver Rampant Colt medallions rate very good with light diamond point wear and handling marks. The pistol includes a single Colt marked two-tone magazine and a single unmarked blue finished magazine. (8A9574-110) {C&R} [James Traynor Collection] (200/400) Est. 200 - 400
2392	Colt Police Positive Special Revolver serial #B42582, 38 Special, 4" barrel with an excellent bore. This 1971-manufactured revolver remains in excellent condition with about 99% original blue finish showing limited edge wear and a tiny oxidation stain at the muzzle. The top of the hammer and trigger retain full blue finish. The checkered walnut factory extension grips with silver Rampant Colt medallions rate excellent and are numbered to the gun. The gun still functions mechanically and shows very little use over the years. (8A9574-101) {MODERN} [James Traynor Collection] (400/600) Est. 400 - 600
2393	Colt Peacemaker 22 Scout Convertible Single Action Revolver serial #G128764, 22 LR/22 Magnum RF, 4 3/8" barrel with an excellent bore. This lovely 1975-manufactured revolver retains about 99% original blue and anodized finishes, to include the unfluted Magnum Rimfire cylinder, the receiver has rich case-hardened colors and both cylinders have no discernible turn ring. The checkered synthetic eagle grips rate excellent. This gun appears to have seen very little use and is a great find for the collector. (8A9574-125) {MODERN} [James Traynor Collection] (600/800) Est. 600 - 800
2394	High Standard Model H-D Military Semi-Auto Pistol serial #191360 22 LR, 4 1/2" heavy barrel with an excellent bore. This lovely pistol remains in excellent condition with the original box. The metal surfaces retain about 99% original blue with some areas toning to a brown hue on the grip frame and frame visible under strong light plus light high edge wear and a few handling marks. The fully checkered walnut factory grips rate excellent. The gun features a serrated Patridge front sight, adjustable rear sight and manual safety. The pistol includes an un-numbered hinged black leatherette covered factory box that is correctly end labeled to the gun, two tone factory magazine, original manual, safety warning for half cock notch and instructions on rear sight. The box rates about good with light edge wear, the cover is separating in three corners and one corner is separated on the box. (8A9560-13) {C&R} (400/600) Est. 400 - 600
2395	Colt New Service Double Action Revolver serial #311768 45 Colt, 7 1/2" barrel with an excellent bore. This 1920-manufactured revolver has seen some honest use over the years but remains in solid condition. The metal surfaces retain about 40% original blue finish, the grip frame worn to pewter, moderate to heavy wear on the barrel and cylinder and high edge wear in addition to a series of tiny impact marks on the sideplate, handling marks and limited pitting. The service trigger and hammer retain strong blue with limited thinning from handling, the bright sides of the hammer have stains from oxidation and operational wear. The checkered hard rubber factory grips with "COLT" in an oval rate about very good with light handling marks. The grips are un-numbered or at least none are visible but the fit to the frame is excellent and the scratch numbers probably worn off over the years. The lanyard loop is present and as expected worn to gray, there is a factory rework number on the side of the grip frame and the gun still functions mechanically. A good project gun or shooter with its nice bore. (8A9595-2) {C&R} (400/600) Est. 400 - 600
2396	Belgian Copy of a William Ketland Flintlock Horse Pistol .54 cal., 7" smooth bore brass barrel with a lightly oxidized bore. The brass barrel, ramrod ferrules, triggerguard, buttcap and sideplate are a pleasing ochre with light handling marks. The lock is brown with oxidation blemishes and pitting. The one-piece walnut stock rates good to very good as lightly refinished showing handling marks and what appears to be a pair of small neatly executed repairs to fill irregular holes on the grip. The top of the barrel is marked "LONDON" with a Belgian proof mark and the lock is marked "W / KETLAND / & Co.". The lock is in need of mechanical attention, the frontstrap has "HWV" scratched into the brass and it includes a brass ramrod. (8A9589-1) {ANTIQUE} (100/200) Est. 100 - 200

Lot	Title/Description
2397	German P.08 Luger byf-Coded Semi-Auto Pistol by Mauser serial #2291, 9mm, 4" barrel with a very good bore showing scattered light shallow pitting. The metal surfaces have professionally reapplied high polish blue finish with about 99% remaining. The occasional old pit is seen under the new finish along with a few handling marks. The fully checkered walnut grips rate about very good with the left panel showing light diamond point wear and the right light to moderate handling wear. All appropriate parts are numbered to the gun, the chamber is dated "42" with "byf" code on the middle toggle and the shoulder stock lug is present. The right side of the receiver is marked with "[eagle] / 135" Waffenam marks and a proof mark. It includes a single magazine with Bakelite baseplate marked with "FXO / [eagle] / 35" manufacturer code and Waffenam markings showing a small scuff on the side of the baseplate plus a second unmarked reproduction replacement magazine with synthetic baseplate. (8A9595-1) {C&R} (600/800) Est. 600 - 800
2398	Czechoslovakian Model 52 Semi-Auto Pistol by Ceska Zbrojovka serial #D09425, 7.62x25mm Tokarev, 4 3/4" barrel with an excellent bore showing slight oxidation in the corners of some of the grooves. This 1954-dated pistol retains about 99% arsenal grade Parkerized finish with a few handling marks. The grooved synthetic factory grips rate excellent with a few handling marks. The pistol has importer markings on the bottom of the dust cover. The pistol includes a single magazine and an importer added caution tag numbered to the gun. (8A9608-5) {C&R} (150/250) Est. 150 - 250
2399	Czechoslovakian Model 52 Semi-Auto Pistol by Ceska Zbrojovka serial #F16345, 7.62x25mm Tokarev, 4 3/4" barrel with an excellent bore showing a few slight streaks of oxidation in the corners of some of the grooves. This 1953-dated pistol retains about 99% arsenal grade Parkerized finish. The grooved synthetic factory grips rate excellent with a few handling marks. The pistol has a refurbish date of 1979, it is marked on the frame as "VOZ 79" and is importer marked on the bottom of the dust cover. The pistol includes a single magazine and an importer added caution tag numbered to the gun. (8A9608-4) {C&R} (150/250) Est. 150 - 250
2400	Colt Third Model Thuer Deringer serial #42596 41 RF Short, 2 1/2" barrel showing scattered light pitting. The metal surfaces of this "standard model" pistol retain about 97% original nickel plate with flaking finish at the breech end and muzzle of the barrel, light oxidation and handling marks. There is strong fading nitre blue on the screw heads and sides of the trigger, the trigger face and entire hammer are toned to gray. The smooth walnut factory grips are numbered to the gun and rate about very good with later added varnish that is crazing and showing a few tiny chips plus handling marks. Overall, barrel to frame fit is tight with slight side play, the barrel is numbered to the gun, the mechanism still functions and the left side of the frame is marked "41 CAL.". (8A9556-13) {C&R} (500/700) Est. 500 - 700
2401	Colt Model 1877 Lightning Double Action Revolver serial #21494 38 Colt, 3 1/2" barrel with an oxidized and pitted bore. This 1880-manufactured revolver does not have a barrel mounted ejector and remains in good condition with about 50% original nickel plate, the loss due to moderate to heavy oxidation, flaking finish and handling marks. The trigger and hammer have some vivid nitre blue on the rear protected areas but the rest has scattered oxidation and the trigger face is worn to pewter. The checkered hard rubber factory grips have a Rampant Colt in an oval, the right panel has light wear and the left has moderate wear with the lower 3/8" missing. The mechanism partially works but the trigger will not reset and must be assisted forward. (8A9556-14) {ANTIQUE} (300/500) Est. 300 - 500
2402	R.G. Industries Model RG 23 Double Action Revolver serial #271059 22 LR, 1 3/4" barrel with an excellent bore. The metal surfaces retain about 98% original blue and enamel finishes showing high edge wear and handling marks. The checkered thumb rest synthetic grips with "RG23" medallions rate about excellent. The gun still functions and features an ejector without a return spring similar to some early high standard revolvers and a rebounding hammer. (8A9556-11) {MODERN} (50/100) Est. 50 - 100

Lot	Title/Description
2403	High Standard Olympic Model Semi-Auto Pistol serial #620235 22 Short, 6 3/4" ported barrel with an excellent bore. The metal surfaces of this Model 0-101 Olympic retain about 96% original blue and anodized finishes with scattered oxidation blemishes, high edge wear and handling marks. The checkered synthetic thumb rest factory grips with High Standard logo rate excellent. The pistol features a Patridge front sight, adjustable black blade rear sight, push button barrel take-down and serrated grip frame. This Third Model Olympic pistol includes a single factory magazine and a single 3-ounce barrel weight. (8A9574-149) (C&R) [James Traynor Collection] (500/700) Est. 500 - 700
2404	Thompson Center Contender Single Shot Pistol serial #397650 357 Remington Maximum, 10" bull barrel with an excellent bore. This fine Contender remains in excellent condition. The metal surfaces retain about 98-99% original blue finish with several small patches of oxidation staining on the right side of the receiver and minor operational wear. The one-piece walnut pistolgrip with black synthetic backstrap rates excellent as does the walnut forend. The gun features a Patridge front sight, adjustable rear sight and features the later hammer mounted selector lever / safety. The gun includes the original factory box with Styrofoam insert that is correctly end labeled and numbered to the gun (caliber not given), manual and paperwork. This gun appears to have seen little if any use. (8A9574-126) (MODERN) [James Traynor Collection] (300/500) Est. 300 - 500
2405	Smith & Wesson No. 1 Second Issue Revolver serial #89414 22 Short, 3 3/16" octagon barrel with an oxidized and pitted bore. The barrel and unfurled cylinder have been cleaned to pewter with lightly scattered stains from oxidation, scratches, pitting and handling marks. The frame retains about 97% original silver plate that has tarnished to a pleasing smoky gray with light high edge wear and handling marks. The smooth rosewood factory grips are numbered to the gun and rate about very good to excellent with light handling wear and limited flaking finish. The revolver still functions mechanically but the cylinder stop spring retention screw is missing and barrel to frame fit is tight with a hint of movement. The barrel and cylinder are correctly assembly numbered to the gun. The gun includes a leather flap holster from a later period that rates good. (8A9558-5) (ANTIQUÉ) [Senator Frederic C. Walcott Collection] (300/500) Est. 300 - 500
2406	Colt Official Police Double Action Revolver serial #833705 38 Special, 6" barrel with an excellent bore. This sixty-five-year-old gun (1954) retains about 96% original blue with the grip frame starting to thin to a gray-pewter mix, moderate muzzle wear, very light scuffing on the sideplate, handling marks and the sideplate toning to purple. The un-numbered fully checkered walnut factory replacement grips with silver Rampant Colt medallions rate about excellent showing slight handling wear and although the fit is very good overall, they show slightly proud metal or wood along the straps depending on the areas examined. The markings remain crisp with excellent timing and lock up and it features a serrated ramp front sight and matted topstrap. (8A9485-4) (C&R) (400/600) Est. 400 - 600
2407	U.S. Model 1894 New Navy Revolver by Colt serial #13986 38 Colt, 6" replacement Official Police barrel with an excellent bore. The metal surfaces of this 1894-manufactured revolver have non-factory reapplied blue finish, the barrel is original finish, with about 98% remaining showing light freckling on the grip frame and a lightly cleaned small area of oxidized pitting on the left side of the frame. The grips are unmarked replacement stag with pronounced bark in excellent condition. There are factory five-pointed star rework marks on the thumb latch, cylinder and front left bow of the triggerguard plus matching factory rework numbers (54) on the cylinder and ejector rod. The butt has a later added rack number "191248" and the mainspring has been removed but is provided. The gun still times and locks up correctly but is in need of professional attention as the hammer pushes off, the ejector rod spring is weak and the ejector binds at the end of its ejection stroke. (8A9567-16) (ANTIQUÉ) (100/200) Est. 100 - 200

Lot	Title/Description
2408	Colt Model 1849 Pocket Percussion Revolver serial #96177 .31 cal., 4" octagon barrel with a lightly oxidized bore showing strong rifling. The barrel on this 1854-manufactured revolver retains perhaps 50% original blue, the remaining surfaces toning to brown with moderate handling marks, pitting and oxidation blemishes. The five-shot cylinder has a strong scene with a few traces of original blue but mostly brown with oxidation. The frame, hammer and loading lever assembly are mostly gray and brown with oxidation and pitting, the frame showing light cleaning. The grip frame has surprisingly strong original silver plate, perhaps about 70% with handling marks and tarnish. The smooth walnut factory grips are numbered to the gun and rate about excellent with light handling marks. There are several mechanical issues: the hammer binds and will not come to full cock and it no longer times or locks up. The cylinder has lead rings left when loaded charges were drilled out, the barrel has finials with the New York address and all parts are correctly numbered to the gun. (8A9567-22) (ANTIQUÉ) (400/600) Est. 400 - 600
2409	Smith & Wesson Fourth Model Double Action Revolver serial #102910 32 S&W, 3" barrel with a bright excellent bore. The metal surfaces retain about 92% original nickel plate showing scattered light oxidation blemishes, flaking and handling marks. The trigger and hammer have bold case-hardened colors with the trigger face worn to pewter. The diamond checkered hard rubber grips with S&W logo rate about excellent. The grips and all appropriate parts are correctly numbered to the gun, barrel to frame fit is as tight as the day it left Springfield and it still functions mechanically. (8A9567-15) (ANTIQUÉ) (200/400) Est. 200 - 400
2410	Smith & Wesson No. 1 1/2 Single Action Revolver serial #89277 32 S&W, 3" barrel with an excellent bore. The metal surfaces of this later production revolver retain about 85-90% original nickel plate with scattered light to moderate oxidation stains, clouding on the backstrap, bubbling, flaking finish and handling marks. The hammer has bold case-hardened colors and the face of the spur trigger has worn to pewter. The diamond checkered hard rubber grips with S&W logo rate about excellent. The grips and all appropriate parts are correctly numbered to the gun, barrel to frame fit is tight and it still functions mechanically. (8A9567-8) (ANTIQUÉ) (200/400) Est. 200 - 400
2411	Smith & Wesson No. 1 1/2 Second Issue Revolver serial #64795 32 S&W, 3 1/2" barrel with a near excellent bore showing scattered light pitting. The metal surfaces retain about 99% quality reapplied nickel plate showing some old pinprick pitting under the new finish and handling marks. The smooth rosewood factory grips rate very good to excellent with light handling marks. The hammer and trigger are smoky gray with a few case-hardened colors peeking out on the hammer. Barrel to frame fit has slight play but the gun still functions mechanically, the grips are serial numbered to the gun and barrel and cylinder are assembly numbered to the frame. (8A9567-17) (ANTIQUÉ) (100/200) Est. 100 - 200
2412	Colt New Line 30 Caliber Revolver serial #8793 30 RF, 2 1/4" barrel with a pitted and oxidized bore. The metal surfaces of this 1875-manufactured revolver retain about 90-92% original nickel plate with oxidation blemishes, pitting, light cleaning on the barrel, high edge wear and handling marks. The blue finish on the hammer is worn to gray with scattered stains from oxidation on the bright sides. The smooth rosewood factory grips are numbered to the gun and rate about excellent with light handling wear. The gun still functions mechanically, the barrel and cylinder are numbered to the gun and the etched "COLT NEW LINE 30" on the barrel remains strong. (8A9567-13) (ANTIQUÉ) (500/700) Est. 500 - 700
2413	Colt New Pocket Double Action Revolver serial #19082 32 Long Colt, 3 1/2" barrel with an oxidized and pitted bore. The metal surfaces of this 1903-made revolver retain about 60% original blue finish with most of the loss along the grip frame, cylinder and parts of the barrel in addition to moderate high edge wear, scratches, oxidation blemishes and pitting. The back of the hammer has beautiful nitre blue with the spur faded, the sides of the trigger showing splotches of color, the rest toned to purple. The checkered hard rubber factory grips with "COLT" in an oval are numbered to the gun and rate about excellent showing light handling marks. The sideplate has a Rampant Colt surrounded by "NEW POCKET", the gun still functions mechanically but timing and lock up need attention. (8A8937-96) (C&R) [Cletus Klein Collection] (100/300) Est. 100 - 300

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2414	American Standard Tool Co. Single Action Pocket Revolver serial #7349 22 RF, 3" octagon barrel with an about very good bore with scattered oxidation and pitting still showing some good rifling. The barrel and cylinder retain about 80% original nickel with some sparse fine oxidation staining, loss due to flaking primarily along the edges and left barrel flat, the exposed surfaces a pale pewter patina. The brass frame retains about 95% original nickel lightly flaking to ocher along the edges and very lightly along the gripstrap. The barrel, cylinder and frame are numbered alike, the first number on the barrel is all but lost to oxidation. The smooth walnut grips are un-numbered but remain in very good condition with only minor handling marks, still retaining a healthy amount of flaking original varnish. Barrel-to-frame fit is somewhat loose but the cylinder seems to advance properly. (58864-25) {ANTIQUÉ} (300/500) Est. 300 - 500
2415	Sharps Model 1C Pepperbox Pistol serial #2746 22 RF, 2 1/2" four-barrel cluster with moderately oxidized bores. The barrels and the hammer have toned to silvery brown patina with scattered spots of light oxidation and fine pitting still showing traces of original blue in protected areas. The brass frame is a bright ocher patina with scattered very fine oxidation and faint traces of original blue along the fluted edges, the frame markings remain visible. The smooth walnut grips remain very good plus with only minor light handling marks from the years. The barrel is matching the frame and the action will need mechanical attention as the barrel release button does not return after being pressed enabling the barrels to slide free. The hammer does rotate properly. (58864-24) {ANTIQUÉ} (200/400) Est. 200 - 400
2416	Unmarked Single Shot Deringer serial #771 30 RF, 3 1/2" octagon barrel with an oxidized moderately pitted bore. The barrel and hammer have toned to a brown patina overall with scattered fine oxidation and light wear along the edges. The brass frame is a lightly tarnished dark ocher patina with tiny impact marks on the butt. The barrel is numbered to the frame. The smooth rosewood grips are pencil numbered to the gun and remain fair with light handling marks and a flexing vertical crack the length of the right panel. The barrel pivots in either direction, similar in appearance to the Morgan & Clapp deringer. (58864-26) {ANTIQUÉ} (175/275) Est. 175 - 275
2417	Winchester Stainless Marine Slide Action Shotgun serial #L1490957, 12 ga., 18 1/2" barrel choked cylinder with a bright excellent bore. The stainless steel metal surfaces as well as the aluminum action retains 99% original gloss nickel-coated finish. The smooth pistolgrip hardwood buttstock and grooved forend remain excellent. Equipped with a silver bead front sight and folding adjustable rear sight. An excellent Stainless Marine shotgun. (59580-5) {MODERN} (300/500) Est. 300 - 500
2418	Mossberg Maverick Model 88 Slide Action Shotgun serial #MV0155894, 12 ga., 20" plain barrel choked improved cylinder with a bright excellent bore and full-length 8 rd. magazine. The steel surfaces retain 99% original blue while the alloy receiver retains 99% original black anodized finish. The checkered pistolgrip black synthetic buttstock and grooved forend remain in excellent condition. (59580-17) {MODERN} (100/200) Est. 100 - 200
2419	Mossberg Model 500A Slide Action Shotgun serial #J731694, 12 ga., 20 3/4" ported barrel choked cylinder with a bright near excellent bore showing minor fouling. The steel surfaces retain 95-97% original blue with a couple tiny carry marks and minor slide wear on the magazine tube while the alloy receiver retains 99% original black anodized finish with some tiny minute marks along the edges. The smooth pistolgrip hardwood buttstock and grooved forearm remain in excellent condition with perhaps one or two light blemishes. (59580-4) {MODERN} (100/200) Est. 100 - 200
2420	Thompson Center Contender Single Shot Pistol serial #339000 22 LR Match, 10" barrel with a bright excellent bore. The metal surfaces retain 99% original blue with a minor carry mark here or there. The smooth walnut thumb rest finger groove grip and forearm remain in very good condition with a few thin light marks on the forearm. The black plastic grip cap shows a thin crack between the grip screws and chips along the edges. Pistol is sighted with a blade on ramp front sight and adjustable rear sight. (59543-197) {MODERN} [Phil Buker Collection] (200/400) Est. 200 - 400

Lot	Title/Description
2421	Thompson Center Contender Super 14 Single Shot Pistol serial #220875 219 Donaldson Wasp, 14" barrel with a bright excellent bore. The metal surfaces retain about 95% original blue, the triggerguard toning to plum with light wear along the face and edges. The smooth walnut grip with soft rubber backstrap and walnut forend remain in excellent condition with a few minor handling marks. The original sights have been removed and mounted atop the barrel is a Thompson Center 2.5 -7 scope equipped with an illuminated duplex reticle and clear optics on a solid ring-less base. (59543-83) {MODERN} [Phil Buker Collection] (200/400) Est. 200 - 400
2422	Thompson Center Custom Shop Contender Single Shot Pistol serial #401865 22 Rem., 10" plain barrel with a bright excellent bore. The metal surfaces retain 99% original blue, the right side of the barrel is marked "T/C Custom Shop". The smooth select walnut thumb rest fingergroove grip and forearm remain excellent with lovely figured grain, the gripcap is engraved "Steve / Herrett" and remains near excellent with a few tiny handling marks. Installed atop the barrel is a Leupold solid base and rings. Steve Herrett was a well-known stock maker and cartridge designer, an excellent condition custom shop pistol. (59543-125) {MODERN} [Phil Buker Collection] (300/500) Est. 300 - 500
2423	Thompson Center Custom Shop Contender Single Shot Pistol serial #438000 45 ACP, 12" barrel with a bright excellent bore. The metal surfaces retain 99% original blue, the left side of the barrel is marked "T/C Custom Shop". The smooth select walnut thumb rest fingergroove grip and forearm remain in excellent condition the pistolgrip showing some lovely figured grain. The pistol is sighted with a blade on ramp front sight and adjustable rear sight. (59543-136) {MODERN} [Phil Buker Collection] (300/500) Est. 300 - 500
2424	Thompson Center Contender Single Shot Pistol serial #A8400, 32-20 Win., 10" barrel with a bright excellent bore. The barrel retains about 98% original blue with light holster wear along the left side of the muzzle. The Super Armour Alloy II frame retains all its satin finish. The smooth walnut grip with soft rubber backstrap and walnut forend remain in very good condition with some light flaking along the edges. Pistol is sighted with a blade on ramp front sight and adjustable rear sight. (59543-194) {MODERN} [Phil Buker Collection] (200/400) Est. 200 - 400
2425	Thompson Center Patriot Percussion Pistol serial #38663 .45 cal., 10" octagon barrel with a bright excellent bore. The barrel retains 99% original blue with 99% original brilliant case-hardened colors on the lock. The smooth saw handle walnut stock rates excellent and the brass hardware is a slightly mellowed goldenrod. Equipped with a split-barrel protected post front sight and adjustable rear sight, a brass tipped wooden ramrod is included. (59522-73) {ANTIQUÉ} [Phil Buker Collection] (200/400) Est. 200 - 400
2426	CVA Colonial Percussion Pistol .44 cal., 6 3/4" octagon barrel with a bright excellent bore. The barrel retains about 90% original blue toning to a brown-gray patina with some fine oxidation in the bolster area. The case-hardened lock retains 90% original brilliant colors lightly muting to gray along the hammer spur. The walnut stock remains excellent with a couple minor blemishes. The brass triggerguard has a mellowed ocher patina while the sideplate has toned to a pale reddish patina. (59543-114) {ANTIQUÉ} [Phil Buker Collection] (75/150) Est. 75 - 150
2427	Czech CZ52 Semi-Auto Pistol serial #S13066, 7.62x25mm Tokarev, 4 3/4" barrel with a very good bore showing scattered light frosting. The metal surfaces on this 1953-dated pistol retain 98% arsenal-reapplied blue showing some minor silvering along the rear of the slide. The markings remain crisp and clean, there is a Century import mark on the right side and the pistol is marked as having been arsenal refurbished in 1998. The grooved brown Bakelite grips remain in excellent condition, the left panel having a mottled string-like pattern. A single magazine is included. (59543-133) {C&R} [Phil Buker Collection] (250/450) Est. 250 - 450
2428	Ruger Old Army Percussion Revolver serial #145-08538, .44 cal., 7 1/2" barrel with a bright excellent bore. The stainless steel surfaces remain in near excellent condition with scattered tiny fine scratches and a light turn ring on the cylinder. The smooth faux ivory grips with black phoenix medallions remain excellent. (59537-1) {ANTIQUÉ} (400/600) Est. 400 - 600

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2429	Beretta Model 84F Semi-Auto Pistol serial #E50283Y, 380 ACP, 3 5/8" barrel with a very good bright bore that may clean to excellent. The metal surfaces retain 98% original black Bruniton finish with only some minor edge wear. The checkered black plastic grips remain excellent, the Trijicon night sights no longer glow. A single factory magazine is included. (59560-43) {MODERN} (200/400) Est. 200 - 400
2430	Beretta Model 92FS Semi-Auto Pistol serial #BER235115Z, 9mm, 4 7/8" barrel with a bright excellent bore. The metal surfaces retain 99% plus original black Bruniton finish. The checkered black plastic grips remain in excellent condition. Included with the pistol is an unmarked blue plastic box and two factory magazines. (59560-50) {MODERN} (400/600) Est. 400 - 600
2431	Kahr K9 Semi-Auto Pistol serial #AG0377, 9mm, 3 1/2" barrel with a bright excellent bore. The metal surfaces retain 98% original electroless nickel with some scattered light storage marks. The factory pebbled soft rubber wraparound grips remain excellent. Equipped with standard two-dot white sights. Included is a black plastic box and three factory seven-round magazines. (59580-38) {MODERN} (300/500) Est. 300 - 500
2432	Browning BDM Semi-Auto Pistol serial #945NX02488, 9mm Luger, 4 5/8" barrel with a bright excellent bore. The metal surfaces retain 99% plus original matte blue finish. The checkered black plastic grips remain in excellent condition. Included is an original factory box, manual and two factory magazines. (59580-28) {MODERN} (400/600) Est. 400 - 600
2433	PAF Junior Semi-Auto Pistol serial #A3989, 25 ACP, 2" barrel with a very good bright bore. The metal surfaces retain 98% original blue with some minor edge wear. The checkered cream colored plastic grips remain in very good condition with minor wear to the points. Included is an original factory cardboard box and a single magazine. (59629-1) {MODERN} (175/275) Est. 175 - 275
2434	Llama Government Model Semi-Auto Pistol serial #452219 45 ACP, 5 1/8" barrel with a bright excellent bore. The metal surfaces retain 99% original blue finish. The checkered walnut grips remain excellent. Includes a factory box and a single factory magazine. (59629-3) {MODERN} (200/300) Est. 200 - 300
2435	Ruger Old Model Bearcat Single Action Revolver serial #82888 22 LR, 4" barrel with a bright excellent bore. The metal surfaces on this 1967 manufactured revolver retain 98% original blue and anodized finish with some very fine staining and very light turn ring on the cylinder, the brass anodized triggerguard has muted to goldenrod. The smooth walnut grips remain excellent. The transfer bar safety update has not been performed on this revolver. (59560-5) {C&R} (400/600) Est. 400 - 600
2436	Smith & Wesson Model 5943 Semi-Auto Pistol serial #VAM8988, 9mm, 4" barrel with a bright excellent bore. The stainless steel slide remains in near excellent condition with a couple light rub marks on the top of the slide and the alloy frame remains very good with a couple light scratches and wear along the edges. The checkered black plastic grips remain very good showing minimal wear. The night sights no longer glow, a single factory magazine is included. (59560-48) {MODERN} (300/500) Est. 300 - 500
2437	Sig Sauer Model P226 Semi-Auto Pistol serial #U474647, 9mm, 4 5/8" barrel with a bright excellent bore. The metal surfaces retain about 95% original factory finish, loss due to edge and operational wear. The smooth walnut grips remain excellent showing a couple minor handling marks. Sights are drift adjustable and a single magazine is included. (59560-41) {MODERN} (400/600) Est. 400 - 600
2438	Walther PPK/S Semi-Auto Pistol By Interarms serial #021840 380 ACP, 3 1/4" barrel with an excellent bore. The metal surfaces retain about 95% original blue with patches of pitting and oxidation on the front and rear of the slide mainly on the left side along with some light edge wear; the barrel shows a patch of light pitting along the exposed breech area. The checkered black plastic grips remain very good plus with light handling marks. A single finger rest magazine is included. (59560-46) {MODERN} (300/500) Est. 300 - 500
2439	F.I.E. Arminius HW7 Double Action Revolver serial #753259 22 LR, 6" barrel with an excellent bore. The metal surfaces retain 95% original factory finish, loss due to light flaking on the alloy frame. The checkered brown plastic grips remain very good showing light wear along the edges. (59580-33) {MODERN} (75/150) Est. 75 - 150

Lot	Title/Description
2440	Iver Johnson Defender 89 Pocket Revolver serial #1703 32 S&W, 2 1/2" octagon barrel with a lightly oxidized bore. The metal surfaces retain about 90% flaking original nickel with light oxidation along the edges and lightly hammered dents on the cylinder. The pebbled Federal Eagle grips remain very good showing light wear and a tiny pin hole at the heel of both panels. (59580-30) {ANTIQU} (50/100) Est. 50 - 100
2441	Hopkins & Allen Range Model Double Action Revolver serial #A132, 22 RF, 4 1/2" octagon barrel with an oxidized bore. The metal surfaces retain 80% original nickel with scattered light flaking and oxidation. The smooth walnut grips remain fair with thin vertical cracks at the tops of each panel. The revolver is slightly loose and the action no longer functions. (59580-36) {C&R} (10/20) Est. 10 - 20
2442	Hopkins & Allen X.L. 8 Double Action Revolver serial #3445 32 S&W, 2 5/8" octagon barrel with an oxidized bore. The metal surfaces retain 70% dull original nickel with scattered light flaking and oxidation. The checkered hard rubber grips rate poor with handling marks and large chips missing at the butt. The folding spur is no longer present and the action does not function. (59580-34) {ANTIQU} (5/15) Est. 5 - 15
2443	Hopkins & Allen Safety Police Double Action Revolver serial #3514 22 RF, 3" barrel with an oxidized bore. The metal surfaces retain about 60% original flaking dull nickel toning to gray and brown patina with scattered light oxidation. The checkered hard rubber grips remain about very good showing light wear. The action does not function properly. (59580-31) {C&R} (15/30) Est. 15 - 30
2444	Hood Firearms Centennial 1878 Pocket Revolver serial #1699 41 RF, 2 1/8" round barrel with an oxidized bore. The metal surfaces retain about 40% original nickel with scattered fine oxidation and flaking. The smooth rosewood birdshead grips remain in very good condition with light handling marks and wear along the edges. (59580-35) {ANTIQU} (25/75) Est. 25 - 75
2445	American Standard Tool Co. Single Action Pocket Revolver serial #32585 22 RF, 3" octagon barrel with an oxidized bore. The barrel and cylinder retain about 80% original nickel flaking to gunmetal with scattered light oxidation and pitting. The brass frame retains about 90% flaking nickel with scattered tarnish, oxidation and moderate verdigris on the inside of the topstrap. The cylinder is numbered to the frame, the numbers on the barrel are lost to the oxidation. The mother-of-pearl grips remain very good with light handling marks and a couple tiny chips along the edges. The cylinder does not function properly. (59580-32) {ANTIQU} (150/250) Est. 150 - 250
2446	Intratec Tec-38 Over Under Derringer serial #A2015, 38 Special, 3" barrels with excellent bores. The barrels retain 98% plus original blue with some very minor edge wear. The black synthetic frame remains excellent with a couple minute handling marks. (59627-5) {MODERN} (50/100) Est. 50 - 100
2447	Sundance Industries Point Blank Over Under Derringer serial #D000396, 22 LR, 3" barrels with bright excellent bores. The metal surfaces retain 99% original black finish with light impact marks. The black synthetic frame and grip panels remain excellent. (59627-9) {MODERN} (75/150) Est. 75 - 150
2448	FIE D38 Over Under Derringer serial #F18309, 38 Spl., 3" barrels with excellent bores. The metal surfaces retain 98% original chrome finish with light nicks and staining along the edges. The checkered white plastic grips remain very good plus with light staining. (59627-4) {MODERN} (50/100) Est. 50 - 100
2449	EIG Four Barrel Derringer serial #16775 22 Short, 2 1/2" four barrel cluster with very good bores having specks of light oxidation. The metal surfaces retain 98% plus original chrome finish with some light carry marks. The checkered white plastic grips remain good with light handling marks, staining and thin cracks at the bottom of the mounting screws. (59627-6) {MODERN} (50/100) Est. 50 - 100

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2450	Greener's Light Harpoon Gun serial #352 38 Spl. Blank, 20" barrel with a very good bore showing some light frosting and oxidation. The metal surfaces retain about 95% satin hard chrome specifically for maritime use, with some light staining and oxidation slightly more modest along the turned muzzle, the frame and breech having patches of dried hardened grease. The markings remain crisp and clean. The straight grip walnut buttstock and forearm remain in very good condition with light handling marks and spots of flaking still retaining a good amount of original finish. The grooved horn buttplate remains in about very good condition showing light wear, chipped edges and ingrained dirt. A very good, interesting harpoon gun just like the one used by Quint in the movie JAWS. (59580-18) {MODERN} (700/900) Est. 700 - 900
2451	Ruger Standard Model Semi-Auto Pistol serial #12-19209, 22 LR, 4 5/8" tapered barrel with an excellent bore. The metal surfaces retain about 75% original blue toning to a gray and brown patina with some sparse specks of light oxidation and impact marks. The checkered walnut grips remain in very good condition with lightly worn edges and points. Included is a single bright aluminum base magazine. (59563-18) {MODERN} (150/250) Est. 150 - 250
2452	Colt Official Police Double Action Revolver serial #905567 38 Spl., 4" barrel with a bright excellent bore. The metal surfaces retain about 85% original blue, loss due to holster, gripstrap and edge wear along with a light turn ring and sparsely scattered light oxidation. The hammer sides are toning to gray with some specks of freckling and staining. The checkered walnut grips remain in very good condition showing light wear. (59562-1) {C&R} (250/450) Est. 250 - 450
2453	Colt Army Special Double Action Revolver serial #309931 38 Spl., 6" barrel with a very good bore showing some scattered light oxidation and pitting mainly the first 1 1/2" from muzzle. The metal surfaces retain about 85% thinning original blue toning to brown with light muzzle and edge wear, the ejector pin has toned to gray from normal operational wear. The hammer sides remain bright overall with some marks and staining. The checkered hard rubber grips remain very good with light handling marks mainly along the butt. (59563-20) {C&R} (400/600) Est. 400 - 600
2454	Iver Johnson Third Model Safety Hammer Revolver serial #G73922, 32 S&W, 3" barrel with a very good bore showing some light oxidation. The metal surfaces retain 95% original nickel with light handling marks and scattered light fading oxidation staining along the backstrap. The checkered hard rubber owl head grips remain very good showing light wear. The action is in need of mechanical attention as it does not advance properly all the time. (59563-11) {C&R} (25/75) Est. 25 - 75
2455	Remington Model 95 Double Deringer serial #99868 41 RF, 3" barrels with excellent bright bores. The metal surfaces on this Type III late production pistol have toned to a gray brown patina with scattered fine oxidation staining and sparse pinprick pitting still showing generous traces of original blue along the protected edges. The brown checkered hard rubber grips remain in fair condition with worn checkering and cracks through the bottom of the right panel secured only by the friction of the grip screw. The hinge is intact, the firing pin does not pivot and the hammer is otherwise functional. (59563-13) {C&R} (300/500) Est. 300 - 500
2456	H.C. Lombard Single Shot Deringer serial #244 22 RF, 3 1/2" octagon barrel with a good bore showing scattered light pitting and oxidation. The barrel has toned to brown and gray patina with scattered light oxidation and some fine pinprick pitting. The brass frame has toned to a nicely mellowed ocher patina with a couple light impact marks and spots of staining. The smooth walnut grips remain in good condition with light handling marks, the left panel with a long flexing vertical crack along the interior. The barrel and grips are all numbered to the frame. The barrel is slightly loose and the hammer no longer locks rearward. (59563-10) {ANTIQUÉ} (175/275) Est. 175 - 275
2457	Forehand & Wadsworth Terror Single Action Revolver serial #1015 32 RF, 2 1/2" round barrel with a fair bore showing overall oxidation and spots of pitting with traces of visible rifling. The metal surfaces of this revolver retain about 90% original nickel showing light flaking and oxidation primarily on the cylinder along with scattered light impact and handling marks. All markings remain clear and the hammer has toned to a dark brown patina with light silvering at the contact points. The smooth rosewood grips are stamp numbered to the gun and remain in very good plus condition with light handling marks. All of the serialized parts are matching and the action seems to function well mechanically. (59410-6) {ANTIQUÉ} (150/250) Est. 150 - 250

Lot	Title/Description
2458	Hopkins & Allen Ranger No. 2 Single Action Revolver serial #282 32 RF, 2 5/8" octagon barrel with an about very good bore with overall light oxidation and some pitting still with good rifling throughout. The metal surfaces of this revolver retain about 85% original nickel finish with scattered light flaking to gray patina and areas of fine bubbling scattered about. All markings remain clear and the case-hardened hammer has muted to a soft gray-brown patina with scattered fine oxidation. The smooth rosewood grips remain about very good with light handling marks, the left grip has a professional glue-repaired vertical crack along the interior and the right panel is pencil numbered to the gun. All of the serialized parts are matching and the action seems to function well mechanically. (59410-8) {ANTIQUÉ} (200/300) Est. 200 - 300
2459	Wesson & Harrington No. 3 Single Action Revolver serial #1336 32 RF, 2 5/8" octagon barrel with an about very good bore showing evident rifling with scattered light oxidation and light pitting throughout. The metal surfaces retain about 90% original nickel with scattered fine oxidation and flaking. The hammer is toning to a dark case-hardened gray patina with scattered fine oxidation. The rosewood birdshead grips are stamp numbered to the gun and remain in very good condition with light handling marks and flaking added varnish. All of the serialized parts are matching, the original removable ejector rod is still housed in the base pin and the action seems to function well mechanically with excellent timing and lock-up. (59410-1) {ANTIQUÉ} (275/375) Est. 275 - 375
2460	Hopkins & Allen Captain Jack Pocket Revolver serial #R1384, 22 RF, 2 1/8" round barrel with an about good bore showing scattered pitting and oxidation. The barrel and frame retain about 80% original nickel flaking to gray metal with scattered light oxidation and spots of fine pitting. The cylinder retains about 90% original blue with some scattered fine pitting and oxidation, more prevalent on the front and rear faces. The birdshead walnut grips remain in good condition with a small crack along the rear right edge along with light handling marks and patches of crazed added finish. The grips are un-numbered but the barrels cylinder and frame are numbered alike. The action seems to function mechanically. (59410-7) {ANTIQUÉ} (75/150) Est. 75 - 150
2461	Lee Arms Co. Red Jacket No. 1 Revolver serial #667 22 RF, 2 3/4" octagon barrel with an about very good bore with light oxidation and good rifling throughout. The metal surfaces of this revolver retain about 85% original nickel with light flaking, oxidation and handling marks, majority of loss on and around the cylinder. The smooth rosewood grips remain in about very good condition with handling marks and a thin vertical crack through the interior center of the right panel, the left panel still shows the last two numbers of the gun written in pencil. The serialized parts are matching, the action is in need of mechanical attention as the hammer does not stay cocked all the time. (59410-4) {ANTIQUÉ} (75/150) Est. 75 - 150
2462	Ethan Allen Sidehammer Revolver serial #6513 22 RF, 2 3/8" octagon barrel with a very good bore having good rifling with light oxidation and a few spots of pitting the entire length. The metal surfaces on this eighth issue revolver are toning to an overall brown patina with gray undertones and some sparse very fine oxidation still retaining generous amounts of original blue. The case-hardened hammer is only lightly muting to brown, the colors quite brilliant in areas. The smooth walnut birdshead grips remain in very good plus condition with light handling marks and are stamped numbered to the gun on both panels. All serialized parts are matching including the cylinder pin and the action seems to function mechanically. (59410-5) {ANTIQUÉ} (100/200) Est. 100 - 200
2463	Bacon Mfg. Co. Pocket Revolver serial #8 32 S&W, 4" octagon barrel with an about very good bore showing strong rifling with scattered light oxidation and pitting. The metal surfaces are an overall mottled gray and brown patina with some sparse very fine oxidation, the cylinder and frame lightly engraved. The un-numbered smooth walnut grips remain very good showing light handling marks. All serialized parts are matching, the action is in need of mechanical attention. (59410-2) {ANTIQUÉ} (100/200) Est. 100 - 200

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2464	Unmarked Center Hammer Single Shot Percussion Pistol serial #258 about 32 cal., 4" round barrel with an oxidized bore. The metal surfaces are an overall dark brown patina with gray undertones and scattered fine oxidation and pitting, more modest in the flash areas of the nipple bolster. The plain bag-shaped walnut grips remain very good with light handling marks, the number markings no longer legible. The serialized parts are matching, the sideplate edges and screw heads show light wear. (59410-3) {ANTIQUÉ} (25/75) Est. 25 - 75
2465	Rollin White Arms Company Pocket Revolver serial #6864 22 RF, 3" octagon barrel with a very good bore showing good rifling with scattered oxidation and pitting throughout. This revolver bears the "Made for Smith & Wesson" barrel address. The barrel and cylinder have flaked to a brown and gray patina with some fine oxidation still showing traces of original blue. The brass frame retains about 80% original darkened silver plate flaking to bright ocher. The plain rosewood grips remain very good with scattered flaking and handling marks, the interior of both panels are stamped "404". There are no serialized parts other than the frame, the center of the cylinder is marked "N4". The cylinder no longer advances properly. (59410-9) {ANTIQUÉ} (100/200) Est. 100 - 200
2466	Colt New Line 22 Pocket Revolver serial #11890 22 RF, 2 1/4" octagon barrel with a good bore showing scattered light frosting and oxidation. The barrel and cylinder have been cleaned bright with scattered brush marks and fine oxidation along the edges. The brass frame is a bright ocher patina with some very fine oxidation and handling marks still retaining about 20% original nickel. The smooth rosewood grips remain very good with light handling marks, the right panel is pencil numbered to the gun. The cylinder pin is frozen in place and the cylinder no longer advances. (59410-10) {ANTIQUÉ} (50/100) Est. 50 - 100
2467	Custom Remington No. 1 1/2 Rolling Block Sporting Rifle serial #2758 32-20, 26 3/4" octagon barrel with a bright excellent bore. The barrel retains 99% reapplied pale gray finish, the only marking on the barrel is "32-20" written in electric pencil under the forend. The action has toned to a smoky case-hardened gray patina with scattered light oxidation and pitting. There are no Remington markings on the tang, the patent dates remain clean and legible. The smooth straight grip walnut buttstock and forend remain in about very good condition with overall dents and handling marks in an added varnish. The wood is a bit shy of the buttplate and the left rear side of the forend has an inlaid 32-20 headstamp. Rifle is sighted with a standard blade dovetail front sight and Marbles adjustable sporting rear sight. (59543-207) {ANTIQUÉ} [Phil Buker Collection] (400/600) Est. 400 - 600
2468	Mossberg Model 535 Slide Action Shotgun serial #AT153044, 12 ga., 28" ventilated rib Accu-Choke barrel with a bright excellent bore. The metal surfaces retain 98% original Mossy Oak coated finish with one spot of flaking along the left side of the rib. The checkered pistolgrip synthetic buttstock and forearm remain in excellent condition retaining 99% matching camo finish. Included is a modified choke tube. (59319-279) {MODERN} (100/200) Est. 100 - 200
2469	Marlin Model 25N Bolt Action Rifle serial #02285918 22 LR, 22" barrel with an excellent bore. The metal surfaces retain 98% original blue with a some scattered very fine oxidation and minor operational wear on the bolt. The press checkered pistolgrip hardwood stock remains excellent. Included is one blued and one bright bodied factory magazine. (59575-1) {MODERN} (75/150) Est. 75 - 150
2470	Savage Model 93 Bolt Action Rifle serial #193151 17 HMR, 22" fluted barrel with a bright excellent bore. The metal surfaces retain 99% original matte black finish. The plain pistolgrip hardwood tactical stock remains in excellent condition with some light rubs and a couple tiny flakes in the factory matte black finish. Equipped with an Accutrigger, included with the rifle is a single magazine and two piece rings and bases. (59544-253) {MODERN} (300/500) Est. 300 - 500
2471	Harrington & Richardson Model 1871 Buffalo Classic Single Shot Rifle serial #HU306188, 45-70 Govt., 32" barrel with a bright excellent bore. The barrel, hammer and trigger retain 99% original blue with a speck or two of very light oxidation toward the breech. The case-hardened frame and buttplate retain 99% original smoky finish, the colors quite brilliant in areas. The checkered straight grip walnut buttstock and schnabel style forend remain in near excellent condition with two small knot chips in the right front side of the forend. Rifle is sighted with a Lyman target front sight with yellow aperture insert and a Smith Enterprises adjustable buckhorn rear sight. (59581-2) {MODERN} (400/600) Est. 400 - 600

Lot	Title/Description
2472	Winchester Model 94 AE Trapper Saddle Ring Carbine serial #5352416 45 Colt, 16" barrel with a bright excellent bore. This is a rare configuration trapper with pre crossbolt safety and angled ejection allowing traditional top mounted scope installation. The metal surfaces retain 99% original blue the only noticeable loss being some very fine silvering along the edges of the lever. The case-hardened receiver retains 99% original vibrant colors with no evidence of saddle ring wear. The smooth straight grip walnut buttstock and forearm remain very good plus with a small circular indentation in the right side of the buttstock along other light dents and handling marks throughout. The standard sights are in place and installed atop the receiver are two-piece scope bases. A near excellent early pre crossbolt safety Trapper manufactured the first year offered in this caliber. (59595-4) {MODERN} (500/700) Est. 500 - 700
2473	Winchester Model 670 Bolt Action Rifle serial #G1273452, 30-06, 22" barrel with a bright excellent bore. The metal surfaces retain 98% plus original blue with some very fine silvering along the edges and operational wear at the rear of the action. The bolt body remains overall bright and is numbered to the rifle. The checkered pistolgrip American hardwood Monte Carlo stock remains excellent with only a few minor blemishes. The original sights are in place and included is a set of two piece Weaver rings and bases. A nice economy version of the popular Model 70 rifle. (59594-4) {MODERN} (200/300) Est. 200 - 300
2474	Winchester Model 94 Lever Action Carbine serial #3694736 30-30 Win., 20" barrel with a bright excellent bore. The metal surfaces retain 98% original blue with a tiny very thin scratch on the left side of the receiver and some minor operational wear at the hinge area of the lever. The plain walnut buttstock and forend remain in very good plus condition with scattered minor handling marks and light flaking along the edges of the hard rubber buttplate. The front sight hood is in place and the action seems to function well mechanically. (59594-3) {MODERN} (400/600) Est. 400 - 600
2475	Sears Ted Williams Model 200 Slide Action Shotgun serial #P235816, 12 ga., 27" adjustable choke barrel with a bright excellent bore. The barrel retains about 80% original blue with scattered light oxidation, loss due to muzzle and edge wear with the majority of loss along the right side above the forearm. The alloy receiver retains about 97-98% original black finish with scattered tiny scratches and wear along the edges. The checkered pistolgrip walnut buttstock and forearm remain in about very good condition with scattered handling marks and spots of flaking. (59594-6) {MODERN} (50/100) Est. 50 - 100
2476	Smith & Wesson Model 15-22 Semi-Auto Rifle serial #HCM0833, 22 LR, 16 1/2" threaded barrel with a bright excellent bore. The metal surfaces retain 98% plus original blue, loss being a couple bright bite marks on the edges of the muzzle protector. The polymer surfaces remain in excellent condition with perhaps a minor blemish from box storage. Rifle features a collapsible buttstock, A2 style front sight, an adjustable dual aperture rear sight and includes an original factory box, single 25 rd. magazine, BSA red-dot sight and manual. (59574-40) {MODERN} [James Traynor Collection] (200/400) Est. 200 - 400
2477	Marlin Original Golden 39M Lever Action Carbine serial #18280810 22 LR, 20" barrel with a bright excellent bore. The metal surfaces on this JM marked rifle retain 99% original blue while the smooth straight grip walnut buttstock and forend remain excellent with no visible blemishes. The target in the bottom of the stock was re-glued and currently rests well above the surface of the wood. The original sights are in place and installed atop the receiver is a Tasco 4x32 scope with duplex reticle and clear optics in a Weaver cantilever style base and rings. (59574-35) {MODERN} [James Traynor Collection] (400/600) Est. 400 - 600
2478	Mossberg Model 500 Bantam Youth Crown Grade Slide Action Shotgun serial #U125570, 12 ga., 24" ventilated rib, ported Accu-Choke barrel with a bright excellent bore. The steel and alloy surfaces retain 99% original factory finishes. The checkered Crown Grade pistolgrip buttstock and forend remain excellent, length of pull to the rear of the ventilated rubber recoil pad is 13". Included is the original factory cardboard box, modified, full and improved cylinder choke tubes, spanner wrench, manual and cable lock. (59588-2) {MODERN} (150/250) Est. 150 - 250

Lot	Title/Description
2479	Thompson Center Fire Hawk Deluxe In-Line Percussion Rifle serial #13396 .54 cal., 24" round barrel with a bright excellent bore. The metal surfaces retain 99% original blue, the bolt remains bright. The checkered pistolgrip deluxe walnut stock remains excellent with a couple tiny dents in the right side of the stock along the ignition cutout. Equipped with standard fiber-optic sights and a No. 11 cap ignition, mounted is a T/C Hawken Hunter 1.5-5x32 mm scope with duplex reticle and clear optics in Weaver two piece rings and bases. Included is a carbon ramrod, original factory box, nipple wrench with handle and manual. (59574-80) {ANTIQUE} [James Traynor Collection] (200/400) Est. 200 - 400
2480	Taurus Circuit Judge Revolving Rifle serial #DT8101, 45 LC/410 ga., 18 1/2" barrel with a bright excellent rifled bore. The metal surfaces retain 99% plus original blue. The smooth pistolgrip Brazilian hardwood Monte Carlo stock remains excellent. The original fiber optic sights are in place and mounted atop the frame is a BSA Panoramic multi-reticle sight. Included with the gun is the original factory cardboard box, rifled and thread protector choke tubes, spanner wrench, (2) internal lock keys, allen wrenches and manual. (59574-34) {MODERN} [James Traynor Collection] (300/500) Est. 300 - 500
2481	Lyman Percussion Plains Pistol serial #A586644, .50 cal., 9" octagon barrel with a bright excellent bore. The barrel, rear tang and trigger retain 99% original blue while the lock retains 99% lovely mottled case-hardened finish. The walnut stock remains excellent with sharp edges and perhaps a tiny blemish or two. The brass hardware remains bright and the brass tipped wooden ramrod is in place. The original sights are in place and the lock remains crisp. Included with the pistol is the original factory box, cleaning mop, ramrod tip attachments and users guide. (59574-102) {ANTIQUE} [James Traynor Collection] (75/150) Est. 75 - 150
2482	CVA Left Hand Bolt Action Inline Percussion Rifle serial #61-13-036957-98, .50 cal., 24" round barrel with a bright excellent bore. The metal surfaces retain 95-97% original matte blue with some very thin scratches and scattered spots of light oxidation, more modest under the installed scope bases atop the frame. The plain pistolgrip hardwood stock remains excellent with a couple minor blemishes. The original sights have been replaced with Williams fiber-optic adjustable sights, there is a thumb safety located behind the trigger and what appears to be a proper composite ramrod is in place. (59570-2) {ANTIQUE} (75/150) Est. 75 - 150
2483	Thompson/Center Hawken Percussion Rifle serial #K326556, .50 cal., 28" octagon barrel with a good bore showing good rifling with modest oxidation which may clean to very good. The metal surfaces of this kit gun retain about 80% of a fading blue finish with scattered light oxidation, more moderate in the flash area of the nipple bolster also showing light pitting. The lock and hammer retain nearly all of its brilliant case colors with scattered fine oxidation. The brass furniture has toned to a tarnished dark ocher patina. The walnut stock remains in good condition with wavy surfaces from not being properly sanded and other light handling marks. The finish shows spots of flaking and crazing. Factory sights are in place and included is a composite ramrod missing the brass tip. (59570-7) {ANTIQUE} (75/150) Est. 75 - 150
2484	CVA Firebolt Ultramag Bolt Action Muzzleloading Rifle serial #61-13-143127-06, 209 ignition, .45 cal., 26" fluted barrel with a bright excellent bore. The metal surfaces retain 99% original matte blue finish. The checkered pistolgrip green synthetic Monte Carlo stock remains excellent with some minor handling marks. The original sights are in place and a brass tip composite ramrod is in place. (59570-5) {ANTIQUE} (100/200) Est. 100 - 200
2485	Remington Model 24 Semi-Auto Rifle serial #108686 22 LR, 21 1/2" barrel with a very good bright bore. The metal surfaces retain about 80% evenly thinning original blue toning to brown with scattered fine oxidation, the barrel showing sparse spots of more modest oxidation. The plain pistolgrip walnut buttstock and forend remain very good with light handling marks in an added light finish. The original sights remain in place, the barrel and bottom metal fit is somewhat loose. (59574-23) {C&R} [James Traynor Collection] (300/500) Est. 300 - 500

Lot	Title/Description
2486	Pedersen Custom Model 2500 Boxlock Double Shotgun serial #159967 20 ga., 26" solid rib barrels choked modified and improved cylinder with bright excellent bores. The metal surfaces retain about 95% lightly thinning original blue toning to brown along with some sparse very fine oxidation. The checkered pistolgrip walnut buttstock and beavertail forearm remain fair with handling marks, flaking along the edges and a large flexing crack in the left side of the wrist causing the buttstock to be loose fitting to the frame. (59574-7) {MODERN} [James Traynor Collection] (200/400) Est. 200 - 400
2487	Winchester Model 68 Bolt Action Single Shot Rifle 22 S,L,LR, 27" barrel with a bright excellent bore. The metal surfaces retain about 80% evenly thinning original blue toning to brown with sparse patches of light oxidation. The bolt body remains overall bright. The plain pistolgrip walnut stock remains very good with overall light handling marks and spots of flaking. Rifle is sighted with an original hooded silver bead front sight and adjustable barrel mounted peep sight. (59574-6) {C&R} [James Traynor Collection] (150/250) Est. 150 - 250
2488	Thompson/Center Seneca Percussion Rifle serial #8517 .36 cal., 27" octagon barrel with a very good bore which could clean to excellent. The barrel, rear tang and triggers retain 99% original blue with a few minute specks of silvering along the edges. The case-hardened lock retains 95% original brilliant colors with light oxidation along the top of the hammer and the brass furniture is a bright goldenrod. The smooth walnut stock is equipped with a raised cheekpiece and remains near excellent with a few light dents and handling marks. Rifle is equipped with a standard front sight, the rear sight has been removed and a factory peep sight has been installed on the rear tang. The action remains strong, a brass tipped wooden ramrod and manual is included. (59574-71) {ANTIQUE} [James Traynor Collection] (175/275) Est. 175 - 275
2489	Winchester Model 69A Target Bolt Action Rifle 22 S,L,LR, 25" barrel with a bright excellent bore. The metal surfaces retain 85% evenly thinning original blue toning to brown with a few specks of light oxidation, the bolt body remains overall bright. The pistolgrip walnut stock rates very good with overall expected light dents and handling marks. The checkered hard rubber logo buttplate remains very good showing minimal wear. Rifle is sighted with standard silver bead ramped front sight with hood in place and receiver mounted aperture peep sight. A single factory magazine is included. (59574-30) {C&R} [James Traynor Collection] (300/500) Est. 300 - 500
2490	Mossberg Model 350KA Semi-Auto Rifle 22 SHV,L,LR, 23 1/2" barrel with a bright excellent bore. The metal surfaces retain 98% original blue with light edges and muzzle wear, light oxidation on and around the front sight and light pitting on the rear sight. The plain pistolgrip Monte Carlo walnut stock remains very good plus with light handling marks and perhaps a little added finish. The original sights are in place and a Tasco Bantam scope with circle crosshair reticle and clear optics is mounted atop the grooved receiver in two piece Weaver rings. A single factory magazine is included. (59574-4) {C&R} [James Traynor Collection] (150/250) Est. 150 - 250
2491	Winchester Model 74 Semi-Auto Rifle serial #76839 22 Short, 24" barrel with an excellent bore. The metal surfaces retain about 95% evenly thinning original blue with some very light rub marks, nicks and very fine oxidation along with minor muzzle and edge wear. There is "NOTENGLISHMAKE" along with circled "BN, BP and NP" under crown British proofs on the right side of frame and barrel at the breech along with ".22". The plain pistolgrip walnut stock remains in excellent condition with minor handling marks. Rifle is sighted with standard open sights, the rear sight is toning to brown and missing its elevator and a Sears 4x15 scope with crosshair reticle is mounted in wraparound rings on a solid base. The optics are slightly cloudy and could benefit from a good cleaning. (59574-155) {C&R} [James Traynor Collection] (200/400) Est. 200 - 400

Lot	Title/Description
2492	J. Stevens Favorite Model 1915 Falling Block Rifle serial #Y321, 22 LR, 23 3/4" octagon barrel with a very good bore showing scattered light oxidation and good rifling throughout. The barrel retains about 80% thinning original blue toning to brown with scattered fine oxidation, loss due to edge and muzzle wear and impact marks and patches of finish wear from original sight removal. The action is an overall pale brown patina with gray undertones, traces of original blue along with scattered fine oxidation, light edge wear and very thin scratches. The top rear tang is marked "MODEL 1915" and the top left side of the frame is marked "SECOND". The plain straight grip walnut buttstock remains fair at best with handling marks, thin flexing cracks on either side of the toe and moderate chips at the heel also present on the checkered hard rubber buttplate. The walnut forend remains in very good plus condition with the expected light handling marks. The original sights have been replaced with a Lyman dovetail front sight and a rather long oversized sporting rear sight with light dings along the edges. (59574-32) (C&R) [James Traynor Collection] (100/200) Est. 100 - 200
2493	Savage-Stevens Model 311A Double Barrel Shotgun 410 bore, 26" ribbed barrels choked full with bright excellent bores. The barrels retain about 98% original blue with some minor nicks and wear at the muzzle and perhaps a speck or two of light faint oxidation. The frame retains 95-98% bright original case-hardened colors muting only slightly along the bottom gripping areas. The barrels are numbered, most likely later replacements. The smooth walnut pistolgrip buttstock and forend remain excellent with only a couple minor blemishes. Barrel lock-up is solid, the lever is right of center. (59574-22) (C&R) [James Traynor Collection] (400/600) Est. 400 - 600
2494	Beretta Model FS-1 Break Action Folding Single Barrel Shotgun serial #C102469, .410 bore, 27 1/2" barrel choked modified with a bright excellent bore. The barrel retains 98% original blue with some very thin muzzle and edge wear and a few specks of very fine oxidation. The satin coin finished frame remains excellent with a tiny blemish here and there. The checkered round knob pistolgrip buttstock and forend remain very good plus with light handling marks and darkening along the edges of the buttplate. A solid example of these unique folding shotguns. (59574-56) (MODERN) [James Traynor Collection] (175/275) Est. 175 - 275
2495	Remington Nylon 66 Semi-Auto Rifle serial #A2173199, 22 LR, 19 1/2" barrel with a bright excellent bore. The metal surfaces retain 98% original blue with a few minute rubs and storage marks. The checkered pistolgrip Mohawk brown Zytel stock remains in very good plus condition with scattered light scuffs and handling marks. The original sights remain intact. (59574-57) (MODERN) [James Traynor Collection] (300/500) Est. 300 - 500
2496	Chippa Double Badger Folding Combination Gun serial #DB13H044, 22 LR/.410 bore, 19" barrels with bright excellent bores. The metal surfaces retain 98% original blue toning to plum along the top rifle barrel. The triggerguard opening lever retains nearly all its brilliant case-hardened colors muting only slightly along the sides. The checkered round knob pistolgrip stained beechwood buttstock and forend remain in excellent condition retaining nearly all their original semi-gloss finish. The original fiber-optic sights are in place. (59574-49) (MODERN) [James Traynor Collection] (275/375) Est. 275 - 375
2497	Stevens No. 17 Favorite Single Shot Rifle serial #12542 22 RF, 22" part octagon part round barrel with a very good bore showing evident rifling with scattered fine frosting and oxidation. The barrel is primarily a brown patina with gray undertones, scattered fine oxidation and tiny fine scratches still showing generous traces of original blue. The action retains about 85% original case-hardened finish muting to a soft brown patina with scattered fine oxidation, the colors still quite bright in areas. The barrel is numbered to the frame. The smooth walnut buttstock and forend remain in very good condition with light dents and handling marks still retaining much original finish. The ring has been removed on the folding bead front sight, the rear sight has been replaced with a slot blank and a Lyman folding aperture peep sight has been installed on the rear tang. (59574-28) (C&R) [James Traynor Collection] (100/200) Est. 100 - 200

Lot	Title/Description
2498	Stevens Crack Shot No. 16 Single Shot Rifle serial #P646, 22 RF, 20" stepped round barrel with an oxidized pitted bore. The barrel has toned to dark brown with scattered fine oxidation, dings and impact marks. The case-hardened action has muted to a slightly brighter brown patina with scattered fine oxidation still showing light remnants of original colors. The edges show tiny dents and wear and part of the right side lever is missing. The plain walnut stock and forend remain in good condition with overall dents, handling marks and a 2 1/2" crack behind the right rear tang. The barrel is un-numbered and the original sights remain intact. (59574-154) (C&R) [James Traynor Collection] (75/150) Est. 75 - 150
2499	Stevens No. 44 Falling Block Rifle serial #7840 25-20 Single Shot, 26" part octagon part round No. 2 barrel with an about very good bore showing evident rifling with scattered fine oxidation and frosting throughout. The barrel retains about 80% original blue toning to brown patina with sparsely scattered fine oxidation and light wear along the muzzle and edges. The action has been cleaned to a pale case-hardened gray and brown patina with remnants of fine staining. The smooth straight grip walnut buttstock and schnabel forend remain in very good condition with light handling marks and the crescent steel buttplate is a smoky gray patina with tiny specks of light oxidation. Rifle is sighted with a Rocky Mountain front sight, the rear sight replaced with a slot blank and a Lyman folding aperture rear sight has been mounted on the rear tang. (59574-53) (C&R) [James Traynor Collection] (300/500) Est. 300 - 500
2500	Savage Stevens No. 70 Visible Loading Slide Action Rifle serial #0822 22 S,L,LR, 22" barrel with a very good plus bore showing strong evident rifling with some fine frosting and very light oxidation. The barrel and magazine retain about 80% original blue toning to brown with scattered fine oxidation, light wear at the muzzle with the majority of loss due to operational slide wear on the barrel and magazine tube. The action has toned to gray brown patina with scattered fine oxidation and traces of original blue along the protected edges. The top of the barrel is marked "REGULAR CARTRIDGES" in front of the barrel address and there is a "SVG" in circle on the left side of the frame. The smooth walnut buttstock remains in about very good condition with light handling marks in an added gloss varnish. The is a light "5" stamp in the bottom of the stock and steel buttplate has a soft gray and brown patina with light handling marks. The grooved forearm remains in about very good condition as well with light handling marks and tiny cracks at the rear edge in a similar added gloss finish, the grooves highlighted in light pale green. Rifle is sighted with a Lyman ivory bead front sight and standard adjustable sporting rear sight. (59574-156) (C&R) [James Traynor Collection] (200/400) Est. 200 - 400
2501	Stevens No. 70 Visible Loading Slide Action Rifle serial #C110, 22 S,L,LR, 22" barrel with a dark oxidized bore. The barrel and magazine retain 98-99% quality applied blue with faint remnants of fine oxidation along the junction area and minor pitting on the face of the muzzle. The frame shows evidence of being cleaned and retains about 98% of an applied finish which has toned to pale plum with remnants of original blue. The plain walnut buttstock and grooved forend remain about very good having been lightly cleaned with remnants of handling marks under an added light finish. The checkered hard rubber buttplate remains in good condition with light wear, chipped edges and is somewhat proud to the stock. Rifle is sighted with a Rocky Mountain front sight and adjustable sporting rear sight. (59574-51) (C&R) [James Traynor Collection] (75/150) Est. 75 - 150
2502	Remington Model 25 Slide Action Rifle serial #21097 25-20, 24" barrel with an about excellent bore showing a few tiny specks of fine oxidation. The metal surfaces are a mixture of fading original blue and mottled brown and gray patina with scattered light oxidation and fine pitting, loss due primarily to operational and edge wear. The bolt has toned to bright silver and the extractor retains much pale fire blue. The plain pistolgrip walnut buttstock and grooved forearm remain about very good with light dents, handling marks and spots of flaking finish. The rifle is sighted with a Marble's tang peep sight, loose but present folding rear sight and a No. 4 front sight. (59574-58) (C&R) [James Traynor Collection] (300/500) Est. 300 - 500

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2503	Winchester Model 90 Slide Action Rifle serial #704390 22 Short, 24" octagon barrel with a fair bore showing moderate pitting and oxidation with faint traces of rifling. The metal surfaces have toned to brown overall with scattered fine oxidation, spots of faint pitting and tiny impact marks. The loss is due to edge wear and operational contact wear along the magazine tube, slide arm and top edges of the frame. The smooth walnut buttstock and grooved forearm remain in good to about very good condition having been cleaned still with scattered dents and handling marks and a little added finish. The rifle is equipped with original open sights and seems to function well mechanically. (59574-42) (C&R) [James Traynor Collection] (400/600) Est. 400 - 600
2504	Winchester Model 63 Semi-Auto Rifle serial #66850A, 22 LR, 23" barrel with a bright excellent bore. The metal surfaces retain about 90% original blue with a few tiny thin scratches and impact marks, loss due to light muzzle wear and gray toning along the gripping areas of the receiver. The plain pistolgrip buttstock and forearm remain in very good plus condition with light handling marks. Rifle is sighted with a Lyman ivory bead front sight, adjustable sporting rear sight and a Weaver B4 scope equipped with a crosshair reticle and clear optics has been installed on the left side of the receiver. (59574-41) (C&R) [James Traynor Collection] (500/700) Est. 500 - 700
2505	Winchester Model 1903 Semi-Auto Rifle serial #52871 22 Winchester Auto, 20" barrel with a poor bore showing scattered light oxidation, pitting and two rings about 8" from the muzzle. The barrel retains about 90% thinning original blue toning to brown with scattered spots of light oxidation, tiny impact marks and light muzzle wear. The action, noscap and buttplate retain about 60% original blue toning to brown and gray with scattered light oxidation. The plain straight grip walnut stock and forend remain in good to very good condition with a lengthy shallow indentation along the right side of the buttstock and overall minor dents and marks. The original sights remain intact and there are two pairs of drilled and tapped holes in the top of the barrel, the front set intruding on the barrel address. (59574-20) (C&R) [James Traynor Collection] (200/400) Est. 200 - 400
2506	Lyman Percussion Trade Rifle serial #123643 .54 cal., 29" octagon barrel with an excellent bore. The barrel retains about 98% original blue with some sparse fine oxidation along the muzzle, edges; the breech and rear tang have toned to a mottled plum with modest light oxidation in the flash areas of the nipple bolster. The lock retains strong original case-hardened colors with some very fine oxidation around the hammer shroud. The walnut stock with raised cheek piece remains excellent with perhaps a couple minor blemishes in a nice oil finish. The brass hardware has a pleasing mellow goldenrod patina. Rifle is sighted with a Rocky Mountain front and semi-buckhorn rear sight and the original ramrod has been replaced with a short stained wooden dowel. (59594-1) (ANTIQUÉ) (100/200) Est. 100 - 200
2507	Remington Model 4 Rolling Block Rifle serial #331548 22 S,L,LR, 22 3/8" round barrel with a bright near excellent bore with a couple light pits about 7" from the muzzle. The barrel has toned to brown with some faint traces of original blue, scattered light oxidation and tiny impact marks. The frame retains a gray-brown case-hardened patina with generous amounts of bright colors along the protected edges of the triggerguard. The markings remain quite clear, the barrel and frame are numbered alike. The straight grip walnut buttstock and forearm remain in very good condition with overall light dents and handling marks in an added light finish. Rifle is equipped with a standard dovetail front sight, No. 48-51 rear sight and the hammer drops on half cock. (59574-25) (C&R) [James Traynor Collection] (300/500) Est. 300 - 500
2508	Polish P-64 Semi-Auto Pistol by Radom serial #RK06346, 9mm Makarov, 3 1/4" barrel with a bright excellent bore. The metal surfaces of this 1977-dated pistol retain about 98% original blue showing some minor high edge wear and a few light scratches. The checkered black plastic grips remain in very good plus condition showing some scattered light scuffs and handling marks. There is an IO, Inc importer marking on the left side slide and the action seems to function well mechanically. Included is an original Polish brown leather holster in near excellent condition, cleaning rod and one matching magazine with finger extension. (59673-1) (C&R) (200/300) Est. 200 - 300

Lot	Title/Description
2509	Thompson Center Hawken Percussion Rifle serial #109142 .50 cal., 28" octagon barrel with an about very good bore with evident rifling and scattered oxidation throughout. The barrel, rear tang and triggers retain 97-98% original blue lightly thinning to brown with sparsely scattered light oxidation, more moderate on the nipple bolster. The case-hardened lock retains nearly all its bright colors with some light oxidation inside the hammer shroud. The walnut stock remains in very good with light handling marks. The brass hardware has a tarnished patina with some very light verdigris along the edges. The original sights remain in place, the bolster screw shows moderate slot damage and a replacement aluminum ramrod is in place. (59532-11) (ANTIQUÉ) (100/200) Est. 100 - 200
2510	Lyman Great Plains Hunter Percussion Rifle serial #278248 .50 cal., 32" octagon barrel with a very good bore with strong rifling and scattered light oxidation which may clean to excellent. The metal surfaces retain 98% original blue with some very light oxidation along the edges, the breech, rear tang and buttplate have toned plum. The color case-hardened lock retains 98% original deep blue gray finish muting to brown along the edges. The European walnut stock with raised cheekpiece remains excellent with only a couple minor blemishes and a lovely oil finish. The original sights are in place along with a brass tipped composite ramrod. (59532-4) (ANTIQUÉ) (300/500) Est. 300 - 500
2511	Winchester Model 37 Single Barrel Shotgun 16 ga., 28" plain barrel choked a loose full with an excellent bright bore. The barrel retains about 85% original blue with scattered light oxidation, the loss due to a large area of gray metal along the right side of the barrel where it came in contact with some type of contaminant and light frame contact wear on the left side of the barrel. The frame retains 90-92% evenly thinning original blue toning to brown with scattered light oxidation and light wear along the edges. The plain straight grip walnut buttstock and forend remain in very good condition with scattered light handling marks and some thin spots of dark staining along the comb. Shotgun is equipped with a silver bead front sight and lockup remains tight. (59601-8) (C&R) (200/400) Est. 200 - 400
2512	Browning Auto-5 Light Twelve Semi-Auto Shotgun serial #5G22024, 12 ga., 29 1/2" ventilated rib barrel with a very good bore. The metal surfaces retain 75% original blue toning to a gray and brown patina with scattered fine oxidation, light carry marks and wear along the edges. The checkered round knob walnut buttstock and forend remain in good to very good condition with scattered handling marks and spots of flaking. There are thin glue repaired cracks on both sides of the forearm at the frame and the buttstock has been fitted with a slightly oversized Pachmayr White Line ventilated rubber recoil pad and spacer providing a 14 1/2" length of pull. (59400-10) (C&R) (200/400) Est. 200 - 400
2513	Yamamoto Firearms Auto-Pointer Semi-Auto Shotgun serial #Y41812, 12 ga, 30" ventilated rib barrel choked improved modified with a bright excellent bore. The metal surfaces on this SSG imported firearm retain about 85% original blue toning to brown and gray with some scattered light oxidation with light carry marks, loss due to muzzle and edge wear primarily at the gripping points. The checkered pistolgrip walnut buttstock and forearm remain in good to about very good condition with scattered light handling marks, flaking original finish and a thin 2" crack in the rear right side of the forearm. The buttstock has been fitted with an oversized Pachmayr White Line ventilated rubber recoil pad providing a 14 3/4" length of pull. (59400-75) (MODERN) (150/250) Est. 150 - 250
2514	Mossberg Model 377 Plinkster Semi-Auto Rifle serial #M43935, 22 LR, 20" barrel with a bright excellent bore. The metal surfaces retain about 98% original blue with scattered fine oxidation. The wood grain synthetic thumbhole stock with roll over cheekpiece and checkered forend remain with some scattered light marks and wear along the edges. Mounted atop the grooved receiver is a Tasco 4x20 wide angle scope with duplex reticle and clear optics on a solid platform base. (59544-61) (MODERN) (100/200) Est. 100 - 200
2515	Browning BL-22 Lever Action Rifle serial #72B77999, 22 LR, 20" barrel with a bright excellent bore. The metal surfaces retain about 95% original blue with scattered light oxidation, light flaking on the barrel bands and a patch of light scuffing and pitting atop the barrel behind the front band. The plain straight grip walnut buttstock and forend rates very good plus in very good condition with a few modest shallow dents and streaks of flaking primarily along the left heel. (59544-87) (MODERN) (150/250) Est. 150 - 250

Lot	Title/Description
2516	Stevens Model 58B Bolt Action Shotgun .410 bore, 24" barrel with an excellent bore. The metal surfaces retain about 80% evenly thinning original blue toning to brown with scattered light oxidation and a few modest spots here and there. The plain pistolgrip walnut stock remains very good plus showing evidence of being cleaned with a light oil finish leaving the wood a bit shy of the grooved hard rubber buttplate. Included is a detachable box magazine showing scattered moderate oxidation. (59562-4) {C&R} (50/100) Est. 50 - 100
2517	J.C. Higgins Model 103.229 Bolt Action Rifle 22 S,L,LR, 24" barrel with an excellent bore. The barrel and magazine tube are a mottled gray and brown patina with strong amounts of original blue along the protected interior edges while the frame is an even balance of brown and original blue with scattered light oxidation. The plain pistolgrip walnut stock remains about very good having been cleaned with dried runs of applied finish at the wrist and the wood quite shy of the grooved hard rubber buttplate. (59595-5) {C&R} (25/75) Est. 25 - 75
2518	Mossberg Model 151 M-B Semi-Auto Rifle 22 LR, 20" barrel with a very good bright bore showing a few spots of light oxidation. The metal surfaces are an overall brown patina with scattered light oxidation and perhaps 30% original blue remaining. There is a rectangular area of gray wear on the left rear side of the frame where an aperture sight was once present. The plain pistolgrip walnut stock remains in very good condition with a small 3/8" triangular dent in the left side of the wrist along with other scattered light handling marks. The front and rear sights have been removed and there is an additional drilled and tapped hole in the underside of the barrel about 2 1/2" from the muzzle. Mounted atop the grooved receiver is a Weaver J4 scope equipped with a crosshair reticle and good optics in need of a cleaning. (59595-6) {C&R} (25/75) Est. 25 - 75
2519	Rare Roper Cylindrical Cloverleaf Shotgun 12 ga., 28 1/2" barrel choked modified with an about good bore with areas of minor pitting and oxidation throughout. The metal surfaces on this solid frame example are overall a mottled brown with areas of gray and some minor to more moderate spots of oxidation with pitting showing. The top tang plate has the "S.H. ROPER" name still mostly visible and the frame is factory engraved with loose foliate patterns and some geometric border designs. The lower tang is missing its tail portion which corresponds with the break at the wrist of the buttstock which has a some small cracks and a brass screw repair near the frame. Only a small portion of the wrist remains, the remainder of the buttstock is sadly missing. The forearm remains intact with its horn tip and is comprised of dark stained walnut that has lots of heavy burl and some light dings and handling marks and has a small gap where it meets the frame. The cocking mechanism appears to function correctly allowing the cloverleaf cylinder to be turned manually. It is released by the rear trigger which also appears to function correctly. Flayderman reports that only about 25 of these unique shotguns were ever produced, most were never marked or numbered. Despite its state of condition, this is a rare opportunity to own such a rare and unique, early American shotgun. (4B9438-463) {ANTIQUE} (2000/4000) Est. 2,000 - 4,000
2520	British Underlever Double Hammer Gun By Joseph Tonks serial #H0436, 10 ga., 28" laminated steel barrels with about very good bores that have some scattered light to minor pits throughout, the right tube has a very slight pinpoint bulge about 5" from the muzzle. The concave rib is equipped with dual ivory beads and is neatly engraved "J. Tonks, Maker. Boston.". Overall the metal surfaces are mostly mottled brown with areas of gray, light surface oxidation and some light pitting scattered throughout, there is some damascus pattern still visible along the barrels. The lockplates are nicely engraved "J. Tonks. Boston," and have foliate and geometric patterns along the borders, the water table and undersides of the barrels are marked with British proofs. Likely this was brought here in-the-white and finished by Tonks. The robust walnut buttstock features a checkered straight grip with a steel buttplate and a 14" length of pull to the forward trigger. The splinter style forend is mostly checkered and has a repair at the tip with a replacement contrasting wood inlay installed, there is a 2" sliver missing from the upper right rear edge. The wood otherwise rates very good and has some light to minor dings and some fantastic figure to the grain. The locks appear to function correctly, the barrels are slightly off-face and have a small amount of lateral play. This is a very well-made Boston-retailed antique underlever shotgun that would be a fine addition over the mantel. (4A9438-425) {ANTIQUE} (500/700) Est. 500 - 700

Lot	Title/Description
2521	Lyman Great Plains Hunter Flintlock Rifle serial #A537215, .50 Caliber, 33" octagon barrel with an excellent bore. The metal surfaces retain about 99% original blue that has just a few light handling marks. The lock and hammer retain nearly all of their original smoky gray case color. The Hawken style satin walnut stock rates excellent and has a few very light handling marks as well. The original blade front sight and buckhorn rear sight remain intact, and included is the original brass tipped wood ramrod. The lock appears to function correctly and this robust primitive style rifle remains in excellent condition. (4A9574-79) {ANTIQUE} [James Traynor Collection] (450/650) Est. 450 - 650
2522	Lyman Great Plains Percussion Rifle serial #271877 .54 Caliber, 33" barrel with an excellent bore. The metal surfaces retain about 95% original brown that is mixing with areas of light surface oxidation and light pitting. The oil finished walnut stock rates excellent and features a German silver forend cap and escutcheons. The wood has a few light handling marks and some areas of light oil staining. The original silver blade front sight and buckhorn rear sight remain intact, a brass tipped wood ramrod in included. The lock appears to function correctly and overall this is a near excellent example of these classic percussion rifles. (4A9574-74) {ANTIQUE} [James Traynor Collection] (350/550) Est. 350 - 550
2523	Stag Arms Model 1 Stag-15 Semi-Auto Carbine serial #150329 5.56 NATO, 16" M4 style stepped barrel with a 1:9" rate of twist, compensator, and an excellent bore. The metal surfaces retain about 99% original parkerized finish that has some light handling marks throughout. Carbine is equipped with a round carbine style black Zytel handguard, a standard pistolgrip and has a fixed "collapsible" buttstock, all of which rate excellent. Features include an A2 style front sight, A3 flattop upper receiver with carry handle and adjustable rear sight, a brass deflector and forward assist and an accessory swivel mounted at a 90 degree angle under the front sight. There is no bayonet lug but a single 30 round magazine is included. An overall excellent example of these quality AR-15 platform carbines. (4A9598-6) {MODERN} (400/600) Est. 400 - 600
2524	Franchi Falconet Field Over-Under Shotgun serial #4037534 12 ga., 24 1/2" barrels choked improved cylinder and modified with bright, excellent bores. The metal surfaces retain about 99% of Franchi's blue and black enamel finishes that have some light handling marks throughout. The lower sides of the barrels, the frame cavity and some of the smaller parts are hand marked with a number, apparently a previous owner's social security number, but are not visible when the gun is assembled. The receiver is factory engraved with upland bird game scenes and foliate patterns. The checkered walnut stocks rate near excellent and have light to minor handling marks and small impact marks throughout. The buttstock features a 14 1/4" length of pull. Features include a single trigger, ejectors, an automatic safety with barrel selector and a single silver bead front sight. This upland field gun was imported by Stoeger and is in near excellent condition. (4A9601-1) {MODERN} (350/550) Est. 350 - 550
2525	Lyman London Armoury Enfield Percussion Artillery Carbine serial #2684 .58 Caliber, 24" barrel with an excellent bore. The barrel and bands retain about 98-99% original blue and enamel finish and have some light handling marks and edge wear. The hammer retains most of its vibrant blue case color, the lock is marked "LONDON ARMOURY Co." and retains about 75-80% of the original case colors, the balance is a mottled gray. The brass furniture rates excellent and has a medium ochre patina. The carbine length walnut stock rates excellent and has a few light handling marks and some small areas of finish loss. The carbine is equipped with a recently soldered blade front sight, and has a carbine Enfield style rear sight. The original blued steel ramrod is included. An overall terrific example of these Italian made reproduction Enfield Artillery carbines that is "DGG" marked and date coded "AC" for 1977. (4A9651-4) {ANTIQUE} (400/600) Est. 400 - 600

Lot	Title/Description
2526	Winchester Model 12 Trap Slide Action Shotgun serial #1452017 12 ga., 30" ventilated rib barrel that is choked full and has a very good bore that is mostly bright but has a ring and slight bulge about 9" from the chamber end. The metal surfaces on this 1952-vintage sporting shotgun retain about 90% original blue that is flaking and toning to brown and has areas of light handling and edge wear throughout. There are larger areas of loss visible on the lower left edge of the receiver and on some of the working surfaces. The deluxe grade checkered walnut stocks rate near excellent and have a few light handling marks and small dings and a small amount of finish loss to both the forearm and buttstock. The pistolgrip buttstock has a custom diamond-shaped gripcap and has a Winchester ventilated pad. The pad is not properly fit and is currently sitting loose, the length of pull is about 13 1/2". The rib is equipped with dual bead sights. (4A9645-54) {C&R} (400/600) Est. 400 - 600
2527	Custom British Boxlock Double Shotgun serial #12951 12 ga., 26 1/2" modern barrels installed by Ed Lander that are choked improved cylinder and improved modified and have excellent bores. The rib is marked "Barrels Fitted By John Dickson & Son, Edinburgh." and shows a solder repair where it was re-attached to the monobloc post tube replacement. The barrels retain about 95% of the post-customization blue that is evenly flaking to brown and has a few small handling marks and some light surface oxidation and staining scattered throughout. The remaining metal surfaces are overall a mottled gray with light oxidation staining blending throughout. The frame, triggerguard, top lever and forearm iron have all been neatly engraved with tight foliate patterns, the screws have some light slot damage. The checkered walnut stocks rate good and have some very nice figure to both the splinter forearm and the straight grip buttstock. The wood shows evidence of being cleaned leaving most of the checkering faint and the metal edges proud of the wood. The buttstock features a very narrow wrist and has some minor to moderate impact and handling marks, most of which have been smoothed over. The butt is fitted with what appears to be the original horn buttplate which measures about 1/2" thick providing a 14 3/4" length of pull to the forward trigger and drops at 1 3/8" and 1 3/4". The water table and underside of the monobloc have "(crown)/V", "(crown)/BV" proofs, the monobloc additionally has "(crown)/BP" and nitro proofs. The underside of the monobloc is also marked "Sleeved Barrels By E. A. Lander Arms & Co. Alexandria, NH / 12 Ga. 2 3/4" Nitro Proof Tested". Originally a 2 1/2" chamber, the new barrel tubes were installed onto the original bloc and the chambers were lengthened to accommodate modern shells. The action lock-up is tight, the top lever comes to rest left of center. This is a very nice early 1900's vintage arm that has had practical modern updates and could possibly make a decent field gun with lighter field loads. (4A9438-390) {C&R} (400/600) Est. 400 - 600
2528	Unmarked Belgian Boxlock Double Ejectorgun serial #2182 16 ga., 26 3/4" barrels that are choked improved modified and have near excellent bores that are mostly bright but have some areas of light staining and possible light oxidation at the muzzles. The barrels retain about 90% of their original blue that is mixing with areas of light surface oxidation and some light pitting along with some handling wear and light handling marks throughout. There are some minor tool marks and abrasions on the right side which run along the right barrel tube and corresponding corners of the frame and forearm iron. The frame is mostly a mottled gray with areas of light brown patina and oxidation staining but does retain some small areas of original case color. The remaining metal parts retain some of their original blue which is fading to gray, the long tang triggerguard has had several small non-uniform holes tapped along its bow. The checkered walnut stocks rate very good. The splinter forearm has some small ding and minor flattening to some of the checkered points. The straightgrip buttstock has some more moderate dings and abrasions along with some light flattening to some of its checkered points as well. The stock has an about 14 1/8" length of pull from the nicely fitted Pachmayr White Line vented recoil pad to the forward trigger and has drops of 1 1/4" and 1 1/2". The action appears to function correctly, the ejectors are robust and lock-up is tight. Features include European style sling swivels and a single brass bead sight. A really nice smaller framed sporting double that would make a great upland bird gun. (4A9438-392) {MODERN} (400/600) Est. 400 - 600

Lot	Title/Description
2529	A.H. Fox Sterlingworth Boxlock Double Shotgun serial #62304 12 ga., 28" barrels choked improved cylinder and modified with very good bores. The left tube has some light freckling and pitting throughout and a very small dent 5 1/2" from the muzzle, the right tube is brighter and has several small dings and dents throughout. The barrels retain about 97-98% original blue that is flaking to brown and has light handling marks throughout. The frame and its parts are mostly a mottled gray, there is a small amount of case color visible in the protected areas and on the water table. The checkered walnut stocks rate very good and have light finish added over light dings and other handling marks. The pistolgrip buttstock has a few tiny hairline cracks and a large chip at the toe that has been cleaned up and finished over. The hard rubber buttplate has been formed to match. The action locks up tight and the lever comes to rest at center. An overall very good example that could still make a decent field gun after its barrel issues have been attended to. (4A9607-21) {C&R} (400/600) Est. 400 - 600
2530	A.H. Fox Sterlingworth Boxlock Double Shotgun serial #73371 12 ga., 26" barrels that are choked modified and improved modified and appear to be later Savage replacements with excellent bores. The barrels have what appears to be their original blue which has toned to a rich plum hue and have some light handling marks and specks of light oxidation scattered throughout. The barrels are factory stamped with the Philadelphia address in a modern block font and are numbered to the frame. The action and remaining metal parts have been blued, with much of the later applied finish remaining and the balance being a mottled brown. The checkered walnut stocks have been sanded and poorly refinished and have several light dings and other more minor handling marks. The pistolgrip buttstock has several cracks and some repairs through the wrist area, including a pin through flats below the top lever. The stock has a 14 1/8" length of pull from the hard rubber buttplate to the forward trigger. Despite its cosmetic appearance the action's lock-up is tight and the lever comes to rest to the right of center. The rib is equipped with a set of dual ivory bead sights and this would still likely make a decent rainy day double. (4A9438-312) {MODERN} (200/400) Est. 200 - 400
2531	J.C. Higgins Model 100 Boxlock Double Ejectorgun By AYA serial #77883 16 ga., 28" barrels with beveled muzzles that are marked "Full" and "Mod" but are choked a tight full and have excellent bores. The metal surfaces retain about 95% original blue that is flaking to brown and has areas of scattered light oxidation and some light handling and tool or impact marks throughout. A few of the screws have minor slot damage. The barrels are marked with AYA address, and both the J.C. Higgins and Sears model "590.02" markings. The belly of the frame bears the "(lion)/AYA" factory logo. The checkered hardwood stocks have some light dings and other handling marks along with some areas of light flaking to the original finish. The wide beavertail forearm rates about very good and has 1 1/2" silver missing from its upper left rear edge and some light flattening to the checkered points. The pistolgrip buttstock rates very good and features a hard rubber AYA gripcap and a Pachmayr vented recoil pad that sits proud to the edges of the wood. The stock features a 12 7/8" length of pull to the single trigger and a single silver bead front sight. A very nice Spanish-made sporting double that has lots of potential. (4A9438-291) {C&R} (200/400) Est. 200 - 400
2532	P. Faverzani Sidelock Double Ejectorgun serial #1014 12 ga., 26 7/8" Siemens Martin steel barrels that are choked full and have good bores that are mostly bright but have a small amount of light pitting at the muzzles and a set of bilateral rings with bulges that are about 1 1/2" from the muzzles. The barrels, top lever, triggerguard and forearm iron all retain about 90% original blue that has light handling marks and wear, with areas which are fading to gray and mixing with specks of light surface oxidation and light pitting. The frame and adjoining metal parts are factory engraved with foliate and ribbon designs and have nearly full coverage. The checkered walnut stocks rate about very good and have some light dings and handling marks and a few small cracks. The splinter forearm has a nicely fitted engraved steel inlay at the tip, the straightgrip buttstock has small bilateral cracks forming at the rear of the lock plates and is some moderate dings and impressions that are more visible on the right side. The stock has a 14 1/8" length of pull from the vented recoil pad. The locks appear to function correctly, the right side ejector appears weaker than the left. The action is tight and there is no lateral play. This is a seemingly high grade Italian double that with the correct restoration from a qualified gunsmith could make a decent field gun. (4A9438-349) {MODERN} (400/600) Est. 400 - 600

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2533	Charles Boswell Boxlock Double Shotgun serial #16854 12 ga., 30" barrels with bright bores that have been cut and crimped about 9" from the breech. The barrels retain about 90% original blue that is toning to brown and has areas of light handling marks and light oxidation throughout. The rib is marked "Charles Boswell Maker 126 Strand London, W.C." and the barrels are numbered to the frame and have British proofs. The bead sight is no longer present. The frame, triggerguard, top lever and forearm iron are nicely engraved with light foliate patterns and are overall a mottled gray and brown, there are some trace case colors still visible in the protected areas. The checkered English walnut stocks rate very good and have several light dings and handling marks and a few larger impact marks. The splinter forearm is stamped with a series of small numbers at its base. The straight grip buttstock has a blank silver oval along the toe line and a period horn buttplate which has some light chipping and flaking around its edges. The action locks up tight, the lever does not return on its own and will likely need some mechanical attention. This was once a very fine English made double that would have been a pleasure to carry afield. Perhaps in the hands of a master gunsmith it could be made usable once again. (4A9438-314) {C&R} (400/600) Est. 400 - 600
2534	Winchester Model 94 Centennial '66 Lever Action Rifle serial #3558 30-30, 26" octagon barrel with a bright, excellent likely unfired bore. The barrel, magazine tube, bolt, lever, loading gate, saddle ring, hammer and trigger all retain about 99% plus original blue that has no visible signs of wear. The brass plated receiver, forend cap and buttplate rate excellent, the buttplate has some light tarnish around the edges. The smooth walnut stocks rate excellent. The rifle is sighted with a steel blade front sight and adjustable sporting rear. The original box with picture sleeve is included. The box is numbered to the rifle, the sleeve has tattered edges and is missing small portions on the ends. In the box are the original papers and documents. An excellent example of these 1966 commemorative rifles. (4A9493-4) {C&R} (400/600) Est. 400 - 600
2535	Winchester Model 1912 "Trap" Takedown Slide Action Shotgun serial #177835 12 ga., 27 3/4" solid rib barrel choked full and has an excellent bore. The metal surfaces retain about 80-85% original blue that is fading and spotting to gray and mixing with areas of light surface oxidation and staining. Additionally there are some light handling and tool marks present, the markings are mostly crisp and the barrel collar is numbered to the receiver. The grooved walnut, semi-beavertail forearm rates excellent. The buttstock has been replaced with a later, probably 1950's vintage, factory checkered walnut pistolgrip stock that features a steel grip cap, a raised comb and a factory vented recoil pad, and has a length of pull of about 14 3/8". The buttstock features some very nice figure and has a few small handling marks and some light to minor flaking to the original finish around most of the edges and some crazing around the wrist. The rib is equipped with a hi-viz front bead and has an ivory mid-rib bead installed. The action appears to function correctly and overall this is a very good condition field shotgun that has some period target upgrades. (4A9383-26) {C&R} (400/600) Est. 400 - 600
2536	Winchester Model 12 Takedown Slide Action Shotgun serial #794162 12 ga., 28 3/4" plain barrel with adjustable Poly Choke and a very good bore that has some light freckling and possible light oxidation toward the chamber area. The metal surfaces retain about 90% original blue that is flaking to brown and lightly fading to gray that shows the most loss along the bearing and working surfaces. There are areas of light surface oxidation with fine pitting scattered throughout. The walnut stocks rate about very good and have some light dings and other handling marks along with some scratches and light abrasions and some light flaking to the varnish. The buttstock has a very small crack forming at the lover tang and the butt is fitted with a correct checkered hard rubber buttplate. The action appears to function correctly and the barrel collar is numbered to the receiver. A very good and versatile field gun. (4A9383-9) {C&R} (250/450) Est. 250 - 450

Lot	Title/Description
2537	Ithaca Model 37S Skeet Slide Action Shotgun serial #12518 16 ga., 23 1/2" ventilated rib barrel with a Lyman Cutts compensator with choke installed and having an overall length of 29" and a bright excellent bore. The metal surfaces retain about 80% original blue that is lightly flaking to brown with the receiver, magazine tube and related parts all having a factory high polish. There is minor handling wear along the bearing surfaces with areas of light surface oxidation scattered throughout. The deluxe grade checkered walnut stocks rate near excellent and have some light handling marks and small dings. This example has the correct oversized forearm and pistolgrip buttstock with a factory vented recoil pad. Shotgun is equipped with a set of dual ivory bead sights and included is an extended full choke. A near excellent example overall that was made in 1939 and would make a great sporting or field shotgun. (4A9383-14) {C&R} (400/600) Est. 400 - 600
2538	Remington Model 11-48 Semi-Auto Shotgun serial #4004841 28 ga., 25" plain barrel that is choked full and has an excellent bore. The metal surfaces of this 1952-vintage sporting arm retain about 95-97% original blue that is evenly toning to brown and has light edge wear and areas of light surface oxidation with some fine pitting scattered throughout. The checkered walnut stocks rate near excellent and have some light dings and other handling marks including some minor scratches and flaking to the original finish. The butt has the correct hard rubber buttplate and flying duck gripcap. The barrel is equipped with a single silver bead sight, there is a Williams rear adjustable sight mounted to the left side of the receiver. The action appears to function correctly and overall this is a very nice example of these small bore field guns. (4A9433-4) {C&R} (400/600) Est. 400 - 600
2539	Parker VH Grade Boxlock Double Shotgun serial #173372 12 ga., 30" Vulcan steel barrels that are choked modified and full and have near excellent bores which are mostly bright with a few specks of light oxidation scattered throughout. The barrels retain about 95% original blue that is flaking to brown and blending with areas of scattered light oxidation throughout. The No. 2 size frame and its associated parts are a mottled gray and brown and have some scattered light oxidation as well. There is a very small amount of factory case color still visible in the protected areas. The checkered walnut stocks rate near excellent and have light dings and handling marks throughout. Much of the original varnish has faded and the pistolgrip buttstock has evidence of drying along the toe line. The original hard rubber gripcap and buttplate remain intact, the buttplate is cracked with a 2 1/2" portion missing along its right side. The stock has a 14 1/4" length of pull to the forward trigger and with drops of 1 3/8" and 2 1/2". The actions locks up tight and the lever comes to rest just right of center. A pretty solid Parker shotgun that could still be a handy field gun. (4A9630-1) {C&R} (400/600) Est. 400 - 600
2540	Ithaca Flues Field Grade Boxlock Double Shotgun serial #234983 16 ga., 26" barrels choked cylinder and a light modified and have very good bores that are mostly bright with a few areas of light oxidation present. The left tube has three minor dings which could possibly be an easy fix for a competent gunsmith. The barrels and smaller parts including the top lever and triggerguard retain about 80% original blue that is flaking to brown and are mixing with areas of light oxidation and light pitting. The frame retains some of the original factory case color which is mostly visible along the sides, the balance is a mottled gray with some light staining and has small specks of light oxidation scattered throughout as well. The checkered walnut splinter forearm and pistolgrip buttstock rate very good and have the usual assortment of small dings and other light handling marks. The butt has a correct hard rubber buttplate that is a little faded and has some small chips around the edges. The action locks up tight and the lever comes to rest to the right of center. Overall this is an about very good 1912-vintage Flues double that points nicely and with a small amount of TLC would make a terrific field gun. (4A9383-19) {C&R} (300/500) Est. 300 - 500

Lot	Title/Description
2541	Alpine M1 Semi-Auto Carbine serial #8768 30 Carbine, 18" unmarked barrel with an excellent bore. The metal surfaces retain about 95% of a commercial blue finish that has light edge and handling wear along the bearing surfaces and some areas of light surface oxidation and fine pitting scattered throughout. The military style walnut stock rates about very good and has some light dings and handling marks and areas of moderate flaking to the varnish throughout, a few small cracks are located on the right side by the rear of the receiver. The stock has been modified for use on the left side for a possible mount and a rear aperture sight and features a plain steel buttplate. The handguard is blued steel and rates excellent. The original front sight remains intact, the military style rear sight has been removed and a Williams rear aperture sight has been installed on the left side of the receiver. Additionally the left front side of the receiver has been tapped with a single screw hole. The carbine is equipped with a type III style barrel band with bayonet lug that is marked "EM-Q" and the trigger group is GI Rock-Ola production. The bolt hold-open pin is not functioning and may need attention. Alpine was known for using many GI parts when building these post-war commercial carbines, this example is no exception. A single "M2" marked 30-round magazine in included and carbine is in about very good condition overall. (4A9497-4) {C&R} (300/500) Est. 300 - 500
2542	U.S. Springfield Model 1888 Trapdoor Rifle serial #514589 45-70, 32" barrel that has been plugged. The metal surfaces are mostly mottled brown and have some minor tool marks and oxidation throughout. The military walnut stock rates about good and has a few small cracks and several light to moderate dings, chips and other handling marks throughout. The right side of the butt has what appears to be a faint rack marking "1 / 5 / 47" and the inspector's cartouche on the left is still mostly visible. The rifle's standard front and Buffington rear sight remain intact. There are screws missing from the upper tang and the lock, the ramrod bayonet style cleaning rod is also missing. The action appears to function and this antique would make a decent display item or drill rifle for marching. (4A9383-13) {ANTIQUE} (200/400) Est. 200 - 400
2543	Custom Thompson/Center Encore Pro Hunter Break Action Rifle serial #582647 6.5x57R, 24" ported SSK barrel with an excellent bore. The satin stainless steel metal surfaces rate excellent and have a few light handling marks. The black composite stocks feature the gray Flextech rubber inserts and rate excellent. The butt is fitted with a LimbSaver recoil pad. There are no sights but an SSK picatinny style base is mounted to the rear of the barrel. Included are three alloy 1" scope rings. An excellent example with a top of the line custom barrel. (4A9543-55) {MODERN} [Phil Buker Collection] (500/700) Est. 500 - 700
2544	Thompson/Center Custom Shop Encore Single Shot Rifle serial #54375 .50 caliber, 26" QLA barrel with an excellent bore. The metal surfaces retain about 99% of a matte blue finish that has just a few light handling marks scattered throughout. The top of the barrel is marked with the T/C Custom Shop logo. The checkered black composite stocks rate excellent. The rifle is equipped with the factory red and green fiber optic sights and mounted to the rear of the barrel is a Weaver scope base. The original ramrod is included. An excellent example overall of these 209x50 Magnum muzzleloading rifles, that can easily accommodate a variety of other centerfire barrels and accessories. (4A9532-1) {MODERN} (400/600) Est. 400 - 600
2545	Thompson/Center Encore Pro Hunter Break Action Rifle serial #MAD3247, Frame Only. This stainless steel Pro Hunter frame rates excellent and is eagerly awaiting your selection of available barrels in the caliber of your choosing. The frame is equipped with the black composite Flextech stock and forearm which rate excellent and feature the gray rubber inserts and recoil reducing LimbSaver recoil pad. The original box, manual and lock are included. This arm is as-new-in-box, dealer stock, factory fired-only, and may have a very small rack or handling mark only. (4A9319-921) {MODERN} (300/500) Est. 300 - 500
2546	Thompson/Center Encore Pro Hunter Break Action Rifle serial #MAD8511, Frame Only. This stainless steel Pro Hunter series frame rates excellent and can be used with your choice of barrels and caliber options. The frame is equipped with the composite Flextech stock and forearm that have the Realtree Hardwood camo pattern finish. The stocks rate excellent as well and feature the black rubber factory inserts. Also included are the original box, lock and manual. This arm is as-new-in-box, dealer stock, factory fired-only, and may have a very small rack or handling mark only. (4A9319-924) {MODERN} (300/500) Est. 300 - 500

Lot	Title/Description
2547	Smith & Wesson M&P-15 Semi-Auto Carbine serial #SP18634, 22 LR, 16" CMMG WASP barrel with a 1:16" rate of twist and an excellent bore. The metal surfaces retain about 95% original anodized finish that has some light handling wear and minor dings. The flattop 22 LR conversion upper features a round black plastic handguard, A2 front sight, flash hider and bayonet lug. The lower is equipped with a standard pistolgrip and has a black MagPul CTR 5-position collapsible buttstock. There is no magazine but the carbine does include a loose fitting detachable carry handle. This could be a fun and economical plinker as-is or could be converted back to 5.56/223 or other compatible caliber with a new upper receiver assembly. (4A9319-740) {MODERN} (300/500) Est. 300 - 500
2548	Henry Octagon Frontier Model Lever Action Rifle serial #T77703H, 22 LR, 20" octagon barrel with an excellent bore. This arm is as-new-in-box, dealer stock, factory fired-only, and may have a very small rack or handling mark only. The rifle features a blued finish and has smooth walnut stocks with a hard rubber buttplate. The original brass bead front sight and Marbles buckhorn rear sight remain intact and the receiver is grooved for mounts. The original box with manual, paper wrap and hangtags are included. (4A9319-171) {MODERN} (300/400) Est. 300 - 400
2549	Remington Model 7400 175th Anniversary Semi-Auto Rifle serial #B8091802, 30-06, 23" barrel with a bright, excellent bore. The metal surfaces retain about 98-99% original blue that has some light edge wear along the bearing surfaces and a few light tool marks near the muzzle. The left side of the receiver bears the factory 175th anniversary logo featuring foliate banner patterns and a federal eagle in center. The checkered walnut stocks feature a high-gloss finish and have some light dings and other light handling marks. The forearm rates good and has a large 6" crack running up its middle from the base, the pistolgrip buttstock rates near excellent has some minor flaking to the finish around the gripcap. The original sights remain intact and mounted to the receiver via a set of Kwik-Site see-thru mounts is a Bushnell Sportview 3-9X riflescope. The scope features a duplex reticle and has excellent optics. The original box, missing the Styrofoam insert, is included along with the manual, two magazines and a set of lens covers. Only 5000 of this special anniversary model were produced in 1991. (4A9506-4) {MODERN} (250/450) Est. 250 - 450
2550	Kel-Tec Sub-2000 Semi-Auto Carbine serial #FS183, 9mm, 16 1/4" treaded barrel with an excellent bore. The metal surfaces retain about 99% of their original blue and have just a few light handling marks. The black composite frame, grip and stock components rate excellent. This model accepts the Glock series 19 and similar magazines and a single MagPul PMAG 15 GL9 magazine is included. An excellent to as-new example of these adaptable, folding carbines. (4A9543-1) {MODERN} [Phil Buker Collection] (250/350) Est. 250 - 350
2551	Charles Daly "Auto-Pointer" Semi-Auto Shotgun serial #Y37313, 12 ga., 28" ventilated rib barrel that is choked a tight modified and has a bright excellent bore. The metal surfaces rate like-new and have no visible signs of wear. The receiver features the factory foliate pattern engraving that appears on either side. The checkered walnut stocks rate excellent to as-new as well. The rib is equipped with a single brass bead front sight. The original box is included. An as-new-in-box example of these Browning-style Japanese-made shotguns. (4A9400-130) {MODERN} (250/350) Est. 250 - 350
2552	Winchester Model 1897 Takedown Slide Action Shotgun serial #858180 12 ga., 30" plain barrel that is choked full and has an excellent bore. The metal surfaces retain about 60-70% original blue that is evenly fading to gray and has silvering along the edges and bearing surfaces and some light tool and handling marks throughout. The lettering and markings remain mostly crisp and the barrel collar is matching to the receiver. The grooved walnut forearm and the pistolgrip buttstock rate near excellent and has some light handling marks and some minor to more moderate flaking to the original varnish. The buttstock has a vented recoil pad which is not marked and is not properly fitted to the wood. There is a single bead sight at the muzzle and the action appears to function correctly. A very good 1930 example overall that would function just as well in the field as at the cowboy action range. (4A9383-34) {C&R} (250/450) Est. 250 - 450

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2553	Winchester Model 1897 Takedown Slide Action Shotgun serial #790650 12 ga., 30" plain barrel that is choked full and has an excellent bore. The metal surfaces are overall mostly a mottled gray, there are small areas of original blue which is mostly flaking to brown. Additionally there are some light handling and impact marks scattered throughout as well. The markings remain crisp and both the barrel collar and receiver are numbered alike. The walnut stocks rate very good. The grooved forearm has moderate flaking to the original varnish and some light dings. The pistolgrip buttstock has been checkered on the wrist and has added finish. The buttstock also has a repaired chip at the top of the wrist and has several light dings and other minor handling marks. A red Horseshoe Brand vented recoil pad with leather spacer has been added to the butt, but sits loose. There is a single brass bead sight mounted at the muzzle and the action appears to function correctly. A good candidate for use in the field or at the cowboy action range. (4A9383-33) {C&R} (200/300) Est. 200 - 300
2554	Winchester Model 1897 Takedown Slide Action Shotgun serial #754720 12 ga., 32" plain barrel choked modified with an excellent bore. The barrel and collar retain about 90% original blue that is flaking to brown, the collar is numbered to the receiver. The remainder of the metal surfaces are overall a mottled gray and brown. There are areas of light surface oxidation along with some light pitting, tool marks and handling marks throughout. There are two small holes tapped on the left side of the receiver, near the hammer, possibly for a sight or other accessory. The walnut stocks rate good to about very good and have the usual dings and other small handling marks. The grooved forearm has moderate to heavy flaking to the original varnish, the buttstock has some light flaking and a few small cracks that run through the wrist area. The buttstock is fitted with the original hard rubber checkered buttplate. A single silver bead sight is mounted at the muzzle and the action appears to function correctly. A very good example overall that would make a fine upland or cowboy action shotgun. (4A9383-6) {C&R} (250/350) Est. 250 - 350
2555	Winchester Model 1897 Slide Action Shotgun serial #481232 12 ga., 30" plain barrel that is marked "Full" but is choked cylinder and has a fair, pitted bore. The metal surfaces of this solid-frame 12 bore are overall a mottled brown with areas of gray and have light oxidation and pitting throughout. The markings on the barrel and receiver are all mostly crisp and very legible. The walnut stocks rate about very good and have several light dings and scratches throughout. The butt is fitted with what appears to be an original hard rubber checkered buttplate. There is a single bead sight at the muzzle. The action appears to function correctly and overall this 1910-made shotgun would likely make a decent cowboy action shotgun. (4A9383-4) {C&R} (150/250) Est. 150 - 250
2556	Winchester Model 1897 Takedown Slide Action Shotgun serial #414676 12 ga., 20" shortened barrel that is marked full but choked cylinder with a bright, excellent bore. The metal surfaces retain about 85% original blue that has areas of minor wear, some light to perhaps moderate scattered oxidation throughout along with some minor flaking on the receiver. The grooved walnut forend and pistolgrip buttstock rate near excellent and have some light dings and other handling marks. The buttstock has an original hard rubber buttplate and a small chip at the toe. There is no front sight bead installed but the barrel collar is numbered to the receiver and the action appears to function correctly. Overall this would make a great candidate for the cowboy action range. (4A9383-15) {C&R} (200/300) Est. 200 - 300
2557	Winchester Model 1897 Takedown Slide Action Shotgun serial #984801 12 ga., 30" plain barrel that is choked full and has a very good bore that is mostly bright with some light frosting toward the chamber. The metal surfaces retain about 60-70% original blue, the majority of the loss due to areas of moderate to heavy pitting with oxidation scattered throughout. The grooved semi-beavertail forearm rates excellent. The pistolgrip buttstock rates very good and has finish added, the wrist has been amateurishly hand checkered and shows many blemishes. The walnut stocks have some light dings and other handling marks, the butt has the correct hard rubber checkered buttplate. There is a single bead sight at the muzzle, the barrel collar is numbered to the receiver and the action appears to function correctly. Despite its cosmetic appearance this could still be a decent field gun or addition to the cowboy action range. (4A9383-7) {C&R} (150/250) Est. 150 - 250

Lot	Title/Description
2558	Winchester Model 1897 Takedown Slide Action Shotgun serial #965771 12 ga., 30" plain barrel that is marked modified but choked cylinder and has a bright, excellent bore. The metal surfaces retain about 70-80% fading original blue which is flaking to brown and mixing with areas of gray and some light handling marks. The balance is a mottled gray with brown patina. The walnut stocks rate near excellent and have some light dings and other light handling marks throughout. The forearm is grooved and the pistolgrip buttstock has a correct hard rubber buttplate. The barrel is equipped with a single bead sight, the barrel collar is numbered to the receiver and the action appears to function correctly. Overall this 1940's vintage sporting shotgun is in very good overall condition and would make either a fine field gun or cowboy action long arm. (4A9383-24) {C&R} (300/500) Est. 300 - 500
2559	Winchester Model 1897 Takedown Slide Action Shotgun serial #631222 12 ga., 30" plain barrel that is choked full and has an excellent bore. The metal surfaces retain about 75-80% original blue that is fading to gray and has wear along the high edges and other bearing surfaces. Additionally there are some light handling and tool marks and some light surface oxidation scattered throughout. The walnut stocks rate about very good, the buttstock appears to have a dark oil added finish. There are some light dings and other handling marks to the buttstock and grooved forearm, the butt has a correct hard rubber buttplate. The barrel is equipped with a single bead front sight and the action appears to function correctly. The barrel collar is numbered to the receiver but the take-down will need some mechanical attention to operate correctly and smoothly. Overall this is a very good condition example and would make a decent field gun or addition to your cowboy action ensemble. (4A9383-23) {C&R} (200/400) Est. 200 - 400
2560	Marlin Model 120 Magnum Slide Action Shotgun serial #A11516, 12 ga., 28" ventilated rib barrel that is choked modified and has an excellent bore. The metal surfaces retain about 97-98% original blue that has some light handling marks and a few specks of light surface oxidation and some light staining scattered throughout. The checkered walnut stocks rate near excellent and have a few light dings and handling marks. The pistolgrip buttstock has a capped grip and solid factory recoil pad, the Marlin "bullseye" is missing from the toe-line. The rib is equipped with a set of brass dual bead sights and the action appears to function correctly. Capable of handling the more robust 3" loads this magnum series shotgun would make an excellent choice for upland or waterfowl birds. (4A9433-2) {MODERN} (200/300) Est. 200 - 300
2561	Ithaca Model 37 Featherlight Slide Action Shotgun serial #632350 12 ga., 28" plain barrel choked modified with an excellent bore. The metal surfaces retain about 97-98% original blue that has some light handling marks and some light wear along the bearing and operating surfaces. The walnut finger groove forearm and checkered pistolgrip buttstock rate near excellent and have some light dings, the buttstock has some minor chipping, flaking and crackling to the varnish. The barrel is equipped with a single hi-viz bead sight and the action appears to function correctly. A near excellent 1956-vintage lightweight field gun that is ready for use. (4A9433-1) {C&R} (250/450) Est. 250 - 450
2562	Ithaca Model 37 Deerslayer Slide Action Shotgun serial #371514927 12 ga., 20" cylinder bore barrel with an excellent bore. The metal surfaces retain about 98-99% original blue that has a few light handling and light wear marks scattered throughout. The checkered walnut stocks rate excellent and the butt is fitted with a factory vented recoil pad. The barrel is equipped with the factory iron sights and oddly the "DEERSLAYER" model name has been factory double stamped on the left side. An excellent example overall with possible collector interest due to the double stamping. (4A9433-10) {MODERN} (200/300) Est. 200 - 300
2563	Stevens Model 311 Boxlock Double Shotgun 410 ga., 26" barrels that are choked full and have excellent bores. The barrels, top lever, triggerguard and triggers retain about 98-99% original blue that is toning to brown and have some light handling wear throughout. The frame retains about 50% of the factory case color, the belly and sides are mostly a mottled gray. The smooth walnut stocks rate near excellent and have some light dings and other light handling marks. The action's lock-up is tight and the lever comes to rest to the right of center. A near excellent example of these pre-68 sporting shotguns that would make a great field gun. (4A9433-9) {C&R} (200/400) Est. 200 - 400

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2564	Remington Model 11-48 Semi-Auto Shotgun serial #5841794 20 ga., 28" plain barrel that is choked modified and has an excellent bore. The metal surfaces retain about 98-99% original blue that has some light scratches, light edge wear and other light handling marks throughout. The checkered walnut stocks rate near excellent and have some light dings and other light handling marks, there is a more moderate impact mark on the right side of the wrist. The butt has the original hard rubber buttplate. The barrel is equipped with a silver bead front sight and the action appears to function well. A near excellent example overall that should make a terrific field gun. (4A9433-3) {C&R} (200/400) Est. 200 - 400
2565	Marlin Glenfield Model 60 Semi-Auto Rifle serial #26387372 22 LR, 22" "JM" marked barrel with an excellent bore. The metal surfaces retain about 99% original blue and have some light handling and small impact or tool marks throughout. The checkered hardwood stock rates near excellent and has some light handling marks as well. The original sights remain intact and mounted to the grooved receiver is a factory 4X15 rimfire rifle scope. The scope features a crosshair reticle and has very good optics. Also included are the original boxes for both the rifle and scope. The plain rifle box features a yellow end label that is numbered to the receiver. Overall this is an excellent 1974-vintage example of these classic rimfire sporting rifles. (4A9319-255) {MODERN} (100/200) Est. 100 - 200
2566	Thompson/Center Impact Inline Percussion Rifle serial #VDY3705, .50 Cal, 26" barrel with an about very good bore that has strong rifling with areas of minor to moderate pitting and oxidation. The metal surfaces retain about 98% original blue that has a few areas of light handling wear. The black synthetic stocks rate excellent and feature sling swivel studs and a solid factory recoil pad. The original fiber optic sights remain intact and included is the alloy ramrod. The original box and a black nylon sling are also included but the manual and breech plug wrench are not present. A very good example that may still be a decent shooter. (4A9506-12) {ANTIQU} (50/100) Est. 50 - 100
2567	Custom Savage 110 Bolt Action Rifle serial #43087 7mm Rem Mag, 24" barrel with an excellent bore. The metal surfaces retain most of the original blue that has several areas of touched up blue and some areas of light wear and gray along with a few small specks of light surface oxidation. Rifle is fitted to a custom hardwood Fajen Monte Carlo stock that rates excellent and has a light finish. The front sight is a custom sporting ramp, the rear sight is missing its elevator. The bottom metal and the internal magazine spring and floorplate are also missing, as is the rear triggerguard screw. Overall this is a good start to what can be a great project rifle. (4A9359-6) {MODERN} (75/125) Est. 75 - 125
2568	Winchester Model 1897 Takedown Slide Action Shotgun serial #959636 16 ga., 28" plain barrel marked full but choked modified with a near excellent bore that has some areas of light freckling. The metal surfaces are overall a mottled gray with areas of added finish and brown patina mixing throughout. There are light handling and tool marks as well along with some areas of light oxidation and pitting. The grooved walnut forearm rates near excellent and has a few light dings and handling marks. The pistolgrip buttstock rates fair to about good and has several dings, some small cracks and a larger 3" chip missing at the toe. The hard rubber buttplate has a corresponding chip at the toe as well and has a repair at the heel. The barrel collar is numbered to the receiver. The action appears to function correctly and overall this early 1940's example may make a decent cowboy action shotgun or possible candidate for some restoration. (4A9383-8) {C&R} (75/150) Est. 75 - 150
2569	State Arms Co. Double Hammer Shotgun serial #240768 16 ga., 30" Armory Steel barrels choked full with very good bores that have areas of light pitting and freckling throughout. The metal surfaces are overall a rich mottled brown that is fading to gray, with areas of light surface oxidation, some light pitting and a few small handling marks. The frame has some remnants of the original case color visible around the fences. The checkered hardwood splinter style forearm and pistolgrip buttstock rate good and have light dings and other small handling marks and scratches throughout. The butt has what appears to be the original checkered hard rubber buttplate. There is a small amount of lateral and vertical play in the action, but the hammers appear to function correctly. With some TLC this could be a good working side hammer shotgun or would make a fine display above the mantel. (4A9383-12) {C&R} (150/250) Est. 150 - 250

Lot	Title/Description
2570	Spikes Tactical ST15 Complete Rifle Lower Receiver serial #SBR-77800, Frame Only. This complete, factory assembled lower receiver rates excellent with 99% of the original anodized finish. The frame features the Spike's spider logo on the left side and has the two-color safe/fire indicators. The lower is equipped with a standard pistolgrip and a non-collapsible Stag Arms buttstock with Spike's T2 buffer. An excellent example of these quality AR-15 platform lower receiver assemblies. (4A8926-99) {MODERN} (150/250) Est. 150 - 250
2571	U.S. Autoweapons USM4 Complete Rifle Lower Receiver serial #USA56-01116, Frame Only. This complete AR-15 design lower receiver assembly rates excellent with 99% of the original anodized finish. The left side bears the tactical logo and the receiver is equipped with a black MagPul pistolgrip with finger groove and a black Rock River six position collapsible buttstock. The buttstock features a U.S. black rubber slip on buttplate cover. An overall excellent example of these high quality AR-15 platform lower receiver assemblies. (4A8926-109) {MODERN} (150/250) Est. 150 - 250
2572	Eagle Arms M15A2 Complete Rifle Lower Receiver serial #USA150829, Frame Only. This complete AR-15 style lower receiver assembly rates near excellent with about 95% original parkerized finish that has some light edge and handling wear. The receiver features a standard pistolgrip and has a Command Arms Accessories (CAA) six position collapsible buttstock. The stock features a compartment for battery storage on the left side and a small picatinny mount on the right. An excellent example overall of these quality AR-15 platform lower receiver assemblies. (4A8926-86) {MODERN} (150/250) Est. 150 - 250
2573	LWRC Intl M6 Complete Rifle Lower Receiver serial #03-09897, Frame Only. This quality AR-15 platform forged receiver rates excellent and appears to be of complete LWRC assembly. The metal surfaces of this earlier designed receiver retain about 99% original parkerized type finish and have a few light handling marks. The receiver is equipped with a set of OD green MagPul stocks including the pistolgrip and a six position collapsible buttstock. An excellent example of these high end AR-15 platform receivers. (4A8926-53) {MODERN} (400/600) Est. 400 - 600
2574	Bushmaster XM15-E2S Complete Rifle Lower Receiver serial #BF1451244, Frame Only. This Windham, ME production receiver rates near excellent and retains about 95-97% original parkerized finish that has light wear on the high edges. The internal parts appear to all be of Bushmaster manufacture. The receiver is equipped with a standard black pistolgrip and a black MagPul UBR six position collapsible buttstock. The buttstock features a small compartment on the right side. An excellent example of these quality AR-15 platform lower receivers. (4A8926-100) {MODERN} (200/300) Est. 200 - 300
2575	Bushmaster XM15-E2S Complete Rifle Lower Receiver serial #L062334, Frame Only. The metal surfaces on the Windham, ME manufactured frame retain about 97-98% original parkerized finish that has a few light handling marks throughout. The receiver is equipped with a standard black pistolgrip and a fixed A2 style buttstock. An excellent example of these AR-15 platform complete lowers. (4A8926-101) {MODERN} (150/250) Est. 150 - 250
2576	CMMG Model 4 SA Complete Rifle Lower Receiver serial #SA13590, Frame Only. The metal surfaces retain about 99% original hardcoat anodized finish that has a few very light handling marks. The receiver appears to be comprised of all CMMG parts and is equipped with a standard pistolgrip and a short fixed buttstock that measures about 7 1/4". An excellent example of these AR-15 platform lower receiver assemblies. (4A8926-104) {MODERN} (150/250) Est. 150 - 250
2577	PlumCrazy C15 Complete Lower Receiver serial #RM07805, Frame Only. This all composite AR-15 style lower rates excellent and appears to be assembled with factory internal parts. A pistolgrip and buffer tube are assembled, but no stock assembly is included. An excellent example of these AR-15 platform lower receivers. (4A8926-90) {MODERN} (50/75) Est. 50 - 75
2578	Ardel Industries Model 900115 Complete Lower Receiver serial #A11822, Frame Only. The metal surfaces retain about 97-98% original anodized finish that has light edge and handling wear. The receiver is equipped with an assembled parts kit, a pistolgrip and aluminum buffer tube, no stock or other parts are included. An excellent condition example of these AR-15 platform lower receiver assemblies. (4A8926-85) {MODERN} (50/75) Est. 50 - 75

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2579	Ardel Industries Model 900115 Complete Lower Receiver serial #A11202, Frame Only. The metal surfaces retain about 97-98% original anodized finish that has light edge and handling wear. The receiver is equipped with an assembled parts kit, a pistolgrip and aluminum buffer tube, no stock or other parts are included. An excellent condition example of these AR-15 platform lower receiver assemblies. (4A8926-87) {MODERN} (50/75) Est. 50 - 75
2580	Ardel Industries Model 900115 Complete Lower Receiver serial #A11229, Frame Only. The metal surfaces retain about 97-98% original anodized finish that has light edge and handling wear. The receiver is equipped with an assembled parts kit, a pistolgrip and aluminum buffer tube, no stock or other parts are included. An excellent condition example of these AR-15 platform lower receiver assemblies. (4A8926-88) {MODERN} (50/75) Est. 50 - 75
2581	Ardel Industries Model 900115 Complete Lower Receiver serial #A11243, Frame Only. The metal surfaces retain about 97-98% original anodized finish that has light edge and handling wear. The receiver is equipped with an assembled parts kit, a pistolgrip and aluminum buffer tube, no stock or other parts are included. An excellent condition example of these AR-15 platform lower receiver assemblies. (4A8926-89) {MODERN} (50/75) Est. 50 - 75
2582	Bushmaster XM15-E2S Complete Rifle Lower Receiver serial #ARA008473, Frame Only. The metal surfaces on the Ilion, NY manufactured frame retain about 95-97% original parkerized finish that has some light edge wear and a few light handling marks throughout. The receiver is equipped with a standard black pistolgrip and a four position collapsible CAR-15 style buttstock with slip on recoil pad. There is no buffer or recoil spring included. An excellent example of these AR-15 platform complete lowers. (4A8926-91) {MODERN} (50/100) Est. 50 - 100
2583	Rock River Arms LAR-15 Complete Rifle Lower Receiver serial #KT1054439, Frame Only. The metal surfaces retain about 80% original anodized finish, there are light handling marks throughout and the top rear portion of the frame has been polished bright. The receiver is equipped with a standard pistolgrip and has a ACE folding collapsible buttstock. There is no provision for a buffer assembly and likely this receiver was designed to be used with a piston driven operating or other non-buffer assembly. A very good example of these AR-15 platform receivers. (4A8926-102) {MODERN} (100/200) Est. 100 - 200
2584	Essential Arms J-15 Pre-Ban Complete Rifle Lower Receiver serial #EA45060, Frame Only. The metal surfaces on this cast pre-ban lower retain about 70% original parkerized finish, there are light handling marks throughout and the top portion of the frame has been polished bright. The receiver is equipped with a standard pistolgrip and has an ACE folding collapsible buttstock with extended recoil pad. There is no provision for a buffer assembly and likely this receiver was designed to be used with a piston driven operating or other non-buffer assembly. A very good example of these earlier AR-15 platform receivers. (4A8926-103) {MODERN} (150/250) Est. 150 - 250
2585	Stevens Model 59 Bolt Action Shotgun 410 Bore, 24" barrel choked full that has an excellent bore. The metal surfaces retain about 95-97% original blue that is mixing with areas of brown patina and light surface oxidation. There are a few light handling marks and some wear along the high edges, the bolt has a gray patina. The hardwood stock rates about very good and has evidence of being lightly sanded with finish added. The forend has been stained darker and has an elongated point which extends to the knurled stock screw. The wood has several light dings and other handling marks and the buttplate is missing. The brass magazine tube assembly is intact and the action appears to function correctly. A very nice example of these World War II era sporting shotguns. (4A9433-11) {C&R} (50/75) Est. 50 - 75
2586	Stevens Model 94C Single Barrel Shotgun 20 ga., 25 1/2" shortened barrel choked cylinder with an excellent bore. The barrel is mostly a mottled brown with traces of original blue that are blending throughout and mixing with areas of very light surface oxidation and fine pitting. The blue is strongest in the protected areas, the muzzle has been neatly trimmed and there is no front bead sight. The frame is a mottled gray and brown, the triggerguard is flaking and has only a small amount of original black enamel finish. The blond colored hardwood stocks rate very good to near excellent and show evidence of having been sanded with finish added. The pistolgrip buttstock has a vented Pachmayr recoil pad installed. The action appears to function correctly and overall this single shot scattergun may still make a decent shooter. (4A9433-8) {MODERN} (25/50) Est. 25 - 50

Lot	Title/Description
2587	E. James & Co. Percussion Double Shotgun 10 Bore, 31" twist steel barrels with oxidized bores that have a few small dents on the undersides toward the muzzles. The metal surfaces are mostly a mottled brown with areas of light surface oxidation, pitting and some tool marks throughout. There is some of the original damascus patterns still visible along the barrels and the rear of the barrels are adorned with two gold bands. The checkered walnut stock rates about very good and has some light dings and other small handling marks along with some light chipping along some of the edges. The right hammer and the ramrod are missing, the left hammer appears to function correctly and the nipples are intact. This is an about good example that could be used for either its parts or as a display above the mantel. (4A9383-11) {ANTIQUÉ} (50/100) Est. 50 - 100
2588	Unmarked Percussion Double Shotgun 10 Bore, 31" barrels with heavily oxidized bores. The metal surfaces have been coated with a black enamel type finish with about 95% remaining that is mixing with some areas of light oxidation. There is some light foliate engraving visible on the locks and hammers, the metal composition of the barrels is undetermined but could be damascus. The satin oil finished hardwood stock rates about very good and has some light handling marks throughout and some deep drying cracks on the left side of the butt which has a simple flat steel buttplate. The locks appear to function correctly and the nipples are unmarked. There is no ramrod present. This is a hefty 10 bore double that would look good over a mantel. (4A9630-2) {ANTIQUÉ} (100/200) Est. 100 - 200
2589	U.S. Model 1903-A3 Bolt Action Rifle by Remington serial #3921081 30-06, 24" 3-44 dated 2-groove Remington barrel with a bright excellent bore. The receiver and barrel retain about 97% arsenal applied parkerized finish with very light wear on the contact points and high edges, a spot of light wear on the left side below the rear sight, and a few light handling marks. The triggerguard, floorplate, barrel bands, and bolt retain about 95% arsenal applied blue with light wear on the contact points and high edges, light oxidation on the front of the triggerguard, and some light handling marks. The straight grip walnut stock is in about good condition as lightly cleaned with an about 1" long triangular chip on the right side of the stock at the beginning of the handguard and shallow chipping for 1" behind that the edges of both having been rounded off, a small 3/4" chip at the left front edge of the handguard, a repaired 10 1/2" hairline crack traveling from the magazine floorplate to the lower barrel band, a small repair to the toe, and scattered light handling marks. The stock is stamped with a faded "(Ordnance Wheel) FJA" inspector's mark above the trigger on the left side, and a faded circled "P" proof behind the triggerguard. The bolt, rear sight, and front sight are all "R" marked, and the front sight blade is marked "A". Included with the rifle is a military style leather sling. A solid rifle that would make a good shooter. (14A9647-12) {C&R} (400/600) Est. 400 - 600
2590	U.S. Marked Remington Model 10-R Riot Shotgun serial #159978 12 ga, 20" plain barrel choked cylinder with a bright near excellent bore with light frosting. The shotgun retains about 90% original blue finish with light wear on the high edges and contact points, the first 5" of barrel from the receiver is toning lightly to brown, scattered light handling marks and light flaking of finish. The hardwood pistolgrip stock and grooved forend are in very fine condition with light oil staining at the receiver, flaking finish, and scattered light handling marks; the stock is fitted with the correct "REMINGTON / UMC" marked hard rubber buttplate in near excellent condition with a few light handling marks. The stock is marked with a crisp circled "P" proof on the inside of the triggerguard, and "U S" stamped just behind the pistolgrip. The three-line barrel address, model and choke design remain crisp, as does the "U" prefixed serial number which falls within the correct serial number range; the lower tang is marked with a crisp "REMINGTON / UMC" trademark. The left side of the receiver is crisply stamped "US" above the trigger, but no ordnance bomb is marked, and the barrel is serialized to the shotgun along the lower right side of the barrel. The action seems to function well mechanically, and the shotgun is sighted with a silver bead. While these markings are not entirely consistent with other known examples, this is still a very interesting riot gun in solid condition. (14A9565-10) {C&R} (400/600) Est. 400 - 600

Lot	Title/Description
2591	Remington-Rider Pocket Model Percussion Revolver serial #3093 .31 cal, 3" octagon barrel with a lightly oxidized bore. The metal surfaces of the revolver have a brown patina with the lower part of the frame having been previously lightly cleaned to pewter patina, remnant of original blue on the barrel, and small tool marks on the underside of the barrel. The revolver retains the original checkered hard rubber grips, which are numbered to the revolver, and the left side panel has a 3/8" chip on the underside and a 3/16" chip where it meets the frame. The action requires mechanical attention, as the hammer pushes off from full cock. A solid example of these early double action Remington revolvers. (14A8864-17) {ANTIQUE} (400/600) Est. 400 - 600
2592	Mauser Model ES 340B Bolt Action Single Shot Rifle serial #185359 22 LR, 26 3/4" barrel with a bright excellent bore. The rifle retains about 95% original blue with scattered specks of oxidation and previously cleaned oxidation, light wear at the muzzle, and a few light handling marks. The checkered pistolgrip walnut stock is in very good plus condition with a small chip in the toe of the buttplate, a light abrasion on the top of the pistolgrip partially marring the checkering, and scattered light handling marks. The stock is crisply stamped with the Mauser logo, and the hard rubber buttplate is marked with the Mauser banner. The barrel, receiver, and bolt are all "(crown) / BUG" marked, all three are serialized and matching, the caliber designation along the left side of the barrel is partially faded, and a Mauser banner is stamped on top of the receiver. The right side of the barrel is properly marked "DRP DRGM", and the "Ch51" steel lot code is marked on the underside of the barrel. The top of the receiver is dovetail cut for optics mounting, and the rifle retains the original open sights, the rear sight being adjustable from 30 meters to 200 meters. A solid rifle that should still be fun on the range. (14A6520-3739) [Richard "Stretch" Kennedy Collection] {C&R} (300/500) Est. 300 - 500
2593	U.S. Model 1896 Krag Bolt Action Rifle by Springfield Armory serial #35329 30-40 Krag, 30" barrel with a very good bore with scattered light pitting and strong rifling. The receiver of the rifle retains about 97% reapplied blue with freckling over the surface, beginnings of toning to brown by the loading gate, and a few light pits beneath the blue. The side plate of the receiver has been cleaned with an outer perimeter of a brown patina with scattered pinprick pitting from cleaned oxidation. The loading gate shows a flaking reapplied blue finish with oxidation staining along the edges and scattered through the middle, and the barrel band, noscap, and triggerguard retain about 98% reapplied blue with light handling marks and scattered light pitting beneath the finish. The barrel retains about 95% reapplied blue with light pitting for the last 8" to the muzzle. The walnut stock is in very good condition as lightly cleaned with a 4" crack in the right side of the butt, a 3/4" crack on the left side, and the scattered remnants of previous handling marks. The stock has the remains of an inspector's cartouche on the left side above the trigger, which has faded to be illegible, and the remains of a circled "P" proof behind the triggerguard, which is in similar condition. The rifle is correctly sighted with a blade front sight and Model 1896 rear sight. An interesting piece of American history that should still shoot well on the range. (14A9606-39) {ANTIQUE} (400/600) Est. 400 - 600
2594	Universal M1 Semi-Auto Carbine serial #47784 30 Carbine, 18" barrel with a bright excellent bore. The carbine retains about 96% original blue with light wear on the contact points and bolt, light oxidation on the barrel band, and scattered light handling marks. The walnut stock is in excellent condition with a few light handling marks and a small mark of transferred white paint residue on the left side of the 4-rivet handguard. The receiver markings remain crisp. The carbine features the adjustable rear sight, later round bolt, Type 3 barrel band, rotary safety, and the stock has the oval sling cut. The barrel band is marked with a faint "C", and the rear sight is marked with a "H" within a shield. No magazine is included with the carbine. A nice commercially produced M1 Carbine. (14A9653-3) {MODERN} (350/550) Est. 350 - 550

Lot	Title/Description
2595	Spanish Model 1893 Bolt Action Rifle by Oviedo Arsenal serial #9488 7mm Mauser, 29" barrel with a very good oxidized bore with strong rifling. The rifle retains about 90% reapplied blue with the barrel and noscap toning to brown, freckling and light wear on the receiver, and light oxidation on the triggerguard; a few scattered light handling marks and spots of light pitting are visible beneath the finish. The in-the-white bolt shows light oxidation and grease staining on the body, and the bolt handle has a light layer of oxidation. The hardwood straight grip stock is in very good plus condition as lightly cleaned with an about 1" crack behind the receiver, scattered light handling marks, and a lightly added finish. The left side of the stock, just below the receiver, is serialized and matching to the rifle and the right side of the butt is marked with what appears to be a squat "A". The receiver ring is marked "(crown) / FABRICA DE ARMAS / OVIEDO / 1923", which is partially faded in spots, and the left side of the receiver is marked with the serial number, the first two numbers of which are poorly struck. The bolt body and the bolt shroud are both serialized to different rifles. The rifle is sighted with the original open sights, an inverted-V front sight and leaf rear sight graduated from 400 to 2000 meters. An altogether nice example of these Spanish made Mauser rifles. (14A9580-24) {C&R} (200/300) Est. 200 - 300
2596	German Karabiner 88 Bolt Action Carbine by C. G. Haenel serial #2659c, 8mm Mauser, 17 1/8" barrel with a very good frosted bore. The rifle retains about 93% professionally reapplied polished blue with scattered specks of oxidation along the barrel jacket, light wear on the high edges and contact points with light oxidation staining, and the triggerguard has toned to a brown patina. The barrel jacket has two light dings behind the barrel band, and the bolt body remains in-the-white with the cocking piece being blued and some light oxidation on the bolt handle. The walnut straight grip stock is in excellent condition as lightly cleaned with a few light handling marks, the steel buttplate slightly proud at the toe, and an added finish. The stock is marked with faded German crown proofs in the sling cut on the right side and behind the triggerguard. The receiver ring is crisply marked "C. G. HAENEL / SUHL / 1890", with only slight softening of a few individual letters, an "S" denoting updating to the spitzer cartridge, and three crown proofs on the right side. The barrel band has lined-out unit markings, and the noscap has different unit markings reading "B.3.T.B.73.". The bolt is mismatched to the rifle, however the triggerguard is serialized and matching. The carbine is sighted with the original open sights, with two flip-up battle zero notches and a leaf sight graduated to an ambitious 1200 meters. An attractively refurbished Karabiner 88. (14A9654-50) {ANTIQUE} (400/600) Est. 400 - 600
2597	Mauser Model Es 340B Bolt Action Rifle serial #171556 22 LR, 26 3/4" barrel with a bright excellent bore. The rifle retains about 65-70% original blue with a light layer of oxidation along the barrel, triggerguard, and receiver causing the barrel to tone slightly brown, parts of the rear of the receiver toning lightly to plum, and a few spots of wear around the bolt. The pistolgrip hardwood stock is in very good condition as lightly cleaned with moderate abrasions near the rear sling swivel, a narrow divot on the pistolgrip behind the receiver, scattered handling marks, and an added finish; the steel buttplate has a light gray-brown patina and is marked with the Mauser banner. The stock is marked with a softened Mauser logo on the right side of the butt. The receiver is marked with the Mauser banner, and the receiver, barrel, and bolt are all marked with "(crown) / BUG" proofs, serialized and matching. The rifle retains the original open sights, the adjustable rear sight appearing to be frozen just above the 50-meter marking, and the receiver is dovetail cut for optics mounting. A well-used rifle that should still shoot well. (14A9653-2) {C&R} (400/600) Est. 400 - 600
2598	Winchester Model 94 Lever Action Trapper Carbine serial #5068437 30-30 Win, 16" barrel with a bright excellent bore. The carbine retains about 98% original matte and polished blue with a few scattered light spots of oxidation on the receiver and tang. The walnut straight grip stock and forend are in excellent condition with one or two light handling marks, and the stock is fitted with a checkered hard rubber "Winchester" marked buttplate. The barrel address and Winchester proof on the barrel remain crisp, with the Winchester proof having been partially struck. The rifle is sighted with the original blade front sight and sporting-style rear sight, and the saddle ring and stud are intact. A nice 1980's produced trapper carbine. (14A9543-36) [Phil Buker Collection] {MODERN} (500/700) Est. 500 - 700

Lot	Title/Description
2599	Marlin Model 336 RC Lever Action Carbine serial #AC6601, 35 Rem, 20" micro-groove barrel with a bright excellent barrel. The metal surfaces retain about 80% original blue with light wear along the edges of the receiver flats and at the muzzle, the bottom and raised border of the receiver having been lightly cleaned to a pewter patina, and scattered light handling marks. The pistolgrip walnut stock is in excellent condition as lightly cleaned with an added finish, and features a black pistolgrip cap and the Marlin bullseye. The barrel address remains crisp, and the barrel is "JM" marked. The rifle retains the original sporting open sights, and a Weaver scope base has been mounted to the top of the receiver. The rifle is sighted with a Stoeger 2.5x32 scope with clear glass and a crosshair reticle on 1" Weaver rings; the scope body shows a few light handling marks. A right side "JM" marked extension has been attached to the hammer, so as to clear the scope. A nice 1967-made rifle that should serve well in the field. (14A9522-16) [Phil Buker Collection] {C&R} (300/500) Est. 300 - 500
2600	Custom BSA Majestic Featherweight Deluxe Bolt Action Rifle serial #11B582, 270 Win, 16 1/2" professionally shortened barrel with a very good plus bore with scattered light pitting but strong rifling. The rifle retains about 99% professionally reapplied blue with a few light handling marks and previous pinprick pitting visible beneath the finish on the left side of the receiver; the aluminum triggerguard has scattered light handling marks and light wear on the edges. The checkered pistolgrip walnut stock is in excellent condition with a few scattered light handling marks, and features a black grip cap, schnabel forend tip, and a flared left side cheekpiece. The top of the barrel is marked with BSA's barrel address, and the left side of the barrel is marked with the British cartridge proofs. The receiver is marked with the BSA trademark, "MADE IN ENGLAND", and "(crown) / BNP" proof. Markings are all generally crisp with some characters showing softening. The barrel retains the dovetail cut for the rear sight, which is filled with a slot blank, however there is no provision for a front sight. The receiver is dovetail cut for optics mounting, and the rifle is sighted with a Bushnell 2.5-10x44mm scope with a duplex reticle. An attractive custom rifle in a handy size. (14A9522-18) [Phil Buker Collection] {MODERN} (300/500) Est. 300 - 500
2601	Belgian "W.W. Greener" Boxlock Double Shotgun serial #78660 16 ga, 30" barrels choked improved modified and full with bright excellent bores. The shotgun retains about 75% reapplied blue with the barrels having been lightly cleaned and toned to gray with remaining blue being near the checkered rib, light wear on the lower edge of the frame and triggerguard, and scattered light handling marks and previous light pitting beneath the finish. The checkered pistolgrip walnut stock and forend are in very good plus condition as lightly cleaned with a small old abrasion by the toe, two light dings to the checkering on the forend, scattered light handling marks, and an added finish; the horn buttplate is in very good condition with light dings and the beginnings of delamination at the toe. The stock features a scant left side cheekpiece. The side of each barrel is marked "AMTLICH RAUCHLOS ERPROBT", the rib is marked "COMPOUND STEEL", and the barrel flats show crisp Belgian proofs. The frame screws and the metal around them show light floral engraving, the right side of the frame reads "W.W. GREENER", and the barrels and forend are serialized and matching to the shotgun. The shotgun locks up tightly and features double triggers, Greener crossbolt, an automatic safety, extractors, and sling swivels attached at the toe line and underside of the rib 6" from the forend. (14A9398-16) {C&R} (300/500) Est. 300 - 500
2602	Remington Model 81 Woodsmaster Semi-Auto Rifle serial #37443 300 Sav, 22" barrel with a bright about excellent bore with a few scattered specks of oxidation. The rifle retains about 90% original blue with light wear on grasping area and magazine, thinning along the top of the receiver with light oxidation staining, and light abrasions near the front sight and scattered light handling marks. The pistolgrip walnut stock and forend are in excellent condition as lightly cleaned with scattered light handling marks and an added finish. A "Read Head Brand" marked ventilated recoil pad has been added to the stock, and the stock has a 14 1/2" length of pull. The left side of the receiver has 11 additional drilled and tapped holes, five are situated around the "THE / WOODSMASTER / TRADE MARK / MODEL 81", and six are positioned in two lines of three on the top left side. All markings remain intact and mostly crisp. The barrel jacket mounted rear sight has been removed, and a Redfield aperture sight has been added at the rear of the receiver; the silver bead front sight remains intact. Sling swivels are mounted on the toeline and about 4" ahead of the forend on the barrel jacket. This December 1947 coded rifle should still shoot well. (14A9560-37) {C&R} (300/500) Est. 300 - 500

Lot	Title/Description
2603	Francotte Boxlock Double Ejectorgun serial #62346 12 ga, 26" barrels choked modified and improved modified with bright excellent bores. The frame of the shotgun has toned to overall gray with traces of case color in the protected areas on the side of the frame and behind the fences. The professionally reapplied blue on the barrels is toned lightly to plum with scattered oxidation, lightly cleaned areas on both side of the barrels about 4" from the breech, and scattered light handling marks. The checkered straight grip walnut stock and forend are in good to very good condition as lightly cleaned with a break through the wrist repaired with two neatly inlaid brass bands pinned through the wrist, a small chip to the left side of the splinter forend, scattered light handling marks, and an added finish; the butt has no attached buttplate, but is instead is checkered on the end. The barrels are marked "VON LINGERKE & DETMOLD" and "U.S. AGENTS NEW YORK". The frame is marked on both sides "A. FRANCOTTE MAKER & PATENTEE / LIEGE BELGIUM", with the frame being neatly foliate scroll engraved over the majority of the surface and the fences are engraved with leaf motifs. The frame, barrels, and forend are serialized and matching, and the barrel flats are marked with Belgian proofs. The shotgun locks up tightly and features double triggers, nonautomatic safety, ejectors, is sighted with a small silver bead, and the lever comes to rest in the middle. A good candidate for a restoration project. (14A9580-13) {C&R} (400/600) Est. 400 - 600
2604	Wards Western Field Model EJM-753 Bolt Action Rifle serial #2436 30-06, 22" barrel with a bright excellent bore. The rifle retains about 98% original blue with light wear marks on the bearing surfaces and the finish toning slightly to plum; the bolt remains in-the-white and the body has been jeweled. The walnut Monte Carlo stock is in excellent condition with a few light handling marks and a high gloss finish, and the forend and capped pistolgrip are relief engraved with oak leaf motifs with stippled background; the stock features a ventilated Pachmayr recoil pad. The left side of the FN made receiver ring is marked with crisp Belgian proofs, and the left side wall is crisply marked "MADE IN BELGIUM". The barrel is marked with the Wards Western Field model and caliber designation. The rifle is sighted with sporting-style open sights in hard polymer bases, and an unmarked scope that appears to be a Weaver K4 with crosshair reticle has been mounted atop the receiver on Buehler scope mounts. An attractive rifle that should still serve well come hunting season. (14A9314-335) [Robert C. Greenberg Sr. Collection] {MODERN} (300/500) Est. 300 - 500
2605	Custom Winchester U.S. Model 1917 Enfield Bolt Action Rifle serial #111000 30-06, 24 1/2" 1-18 dated professionally shortened Winchester barrel with a dark very good bore with light pitting but strong rifling. The rifle retains about 98% reapplied blue with light wear on the contact points and high edges, scattered light handling marks, and scattered pinprick pitting beneath the finish. The checkered Monte Carlo walnut stock is in excellent condition with a few light handling marks and the 3/4" "Limb Saver" recoil pad is slightly degrading; the left side of the stock next to the receiver has been inletted for placement of a side mount. The receiver has been drilled and tapped on the ring and along the left side wall. Faded Ordnance Bomb and Eagle Head proofs are visible on the barrel, a crisp Ordnance Bomb proof is visible on the left side wall, and a few softened proofs are stamped midway down the underside of the barrel. The bolt release lever and safety are "E" marked, and the bolt is "W" marked; the serial number has been hand scratched into the underside of the bolt handle. The rifle has no provisions for open sights. A nice custom Model 1917 that only needs a new optic. (14A9314-336) [Robert C. Greenberg Sr. Collection] {MODERN} (200/400) Est. 200 - 400

Lot	Title/Description
2606	Savage No. 4 Mk. I" Bolt Action Rifle serial #98C0410, 303 British, 25" barrel with a bright excellent bore. The rifle retains about 98% arsenal reapplied black parkerized finish with light wear on high edges and contact points, a few light handling marks, and scattered specks of oxidation. The hardwood stock is in very good plus condition as lightly cleaned with two 1/4" parallel cracks behind the receiver, scattered light handling marks, and an added finish. The stock is marked "B / 55" behind the triggerguard, along with two illegible small proofs, and the underside of the forend is marked "K / 63L / 9920 / H" behind the noseclip. The left side of the receiver is properly "U.S. PROPERTY" marked, with a small Ordnance Bomb proof and a large square "S" followed by the model designation below it; all of which are softened but legible. The buttstock socket is marked "B" below the serial number, and the forward barrel band is crisply stamped "N79". The front sight, bolt head, noseclip, and bolt are all "S" marked, the bolt is serialized and matching to the rifle, and the barrel is import marked just behind the muzzle. The rifle is sighted with the original blade front sight and adjustable "Singer" rear sight. Included with the rifle is a light green fabric sling. An attractive piece of WWII history. (14A9574-2) [James Traynor Collection] {C&R} (400/600) Est. 400 - 600
2607	German Gewehr 98 Bolt Action Rifle by Spandau serial #281e, 8mm Mauser, 29" barrel with a bright very good plus barrel with scattered light pitting. The receiver had been cleaned bright and now has scattered light oxidation and oxidation staining, with the concentration on the receiver ring. The barrel has toned to brown with traces of blue in the protected areas and scattered spots of oxidation. The barrel band, noseclip, floorplate, and triggerguard have a brown patina with light oxidation. The walnut stock is in very good condition as lightly cleaned with an about 2" chip alongside the receiver at the bolt handle, a crack bisecting the handguard approximately in the middle, and scattered light handling marks. Three softened crown proofs are stamped on the left side of the stock, below the stock disc, and an additional four crown proofs are stamped behind the triggerguard and on the toe line. The stock is serialized and matching to the rifle just behind the rear sling swivel. The receiver ring is crisply stamped "(crown) / SPANDAU / 1916" on top, with three proofs on the right and the Imperial Eagle firing proof on the left. The barrel band, noseclip, triggerguard, bolt release lever, rear sight, and buttplate are all serialized and matching, with the floorplate and bolt being mismatched. The remains of the mounting half of an original mud cover are attached to the rifle, between the receiver ring and the rear sight, and has a brown patina with moderate oxidation. The rifle is sighted with the original inverted-V front sight and Langevisier rear sight. (14A9580-25) {C&R} (500/700) Est. 500 - 700
2608	Italian Model 91/38 Carcano Bolt Action Carbine serial #ST4146, 6.5 Carcano, 17" barrel with a bright excellent bore. The carbine retains about 98% professionally reapplied blue finish with specks of oxidation on the rear sight, triggerguard, and barrel, and with a few light handling marks; the folding bayonet has toned to plum. The walnut stock is in excellent condition as lightly cleaned with scattered light handling marks; the steel buttplate is slightly proud of the toe and shows light pitting. The stock is serialized and matching to the carbine on the left side, parallel to the buttplate, is stamped with a crisp circled "12" on the left side of the butt, and a "3" inside the sling cut. The receiver of the carbine has been scrubbed, leaving only the serial number and a small proof on the left side of the barrel, and the caliber designation on the top of the fixed rear sight. The bolt knob is marked with a small crown, the base of the bolt handle is marked "PL", and the bolt is marked with a boxed "ROCCA". A solid Carcano carbine that should make a decent shooter. (14A9574-61) [James Traynor Collection] {C&R} (200/300) Est. 200 - 300

Lot	Title/Description
2609	Remington Model 11-87 Super Magnum Semi-Auto Shotgun serial #SM042397, 12 ga, 23" Rem-Choked barrel with very good plus bore with scattered areas of light frosting. The shotgun retains about 95% Mossy Oak-style camouflage finish with light wear on the high edges, light thinning on the underside of the barrel and grasping area of the receiver and a few light handling marks. The checkered Monte Carlo synthetic stock is in very good condition with a vacant hole in the toe line from a removed sling swivel, scattered spots of flaking finish, and the "R" marked 7/8" recoil pad is slightly degraded and becoming adhesive; the camouflage finish of the stock is slightly darker than that of the rest of the shotgun. The barrel of the shotgun is marked as able to accept up to 3 1/2" shells, as well as being marked "NOT INTENDED FOR LIGHT LOADS". The shotgun is sighted with TruGlo fiber optic rifle sights, the front sight of which is missing the fiber optic insert. The shotgun will require mechanical attention as the bolt does not reliable lock back, or stay locked back, but otherwise functions as it should. Included with the shotgun is one Rem-Choke marked improved cylinder. A solid shotgun that should be a reliable hunting arm once repaired. (14A9401-1) {MODERN} (400/600) Est. 400 - 600
2610	Marlin Model 336 SC Lever Action Carbine serial #J36652, 30-30 Win, 20" "JM" marked barrel with a bright excellent bore with two specks of oxidation about midway down the barrel. The metal surfaces retain about 90% original blue with light wear on the high edges, the grasping areas on the receiver and lever have worn to a pewter patina, and scattered specks of oxidation and light handling marks. The pistolgrip walnut stock and forend are in about excellent condition with a small mark of white paint near the heel, scattered light handling marks, and a lightly added finish. The stock features the Marlin "bullseye". The barrel address is mostly crisp with some light fading on some of the characters, the "JM" mark is partially struck, and the top of the receiver is matted down the middle. A few of the screws show light slot damage, and a screw is missing from the right side of the forend cap. The barrel mounted rear sight has been removed and replaced with a dovetail blank, and the rifle is sighted with a Lyman white bead front sight and a Lyman receiver mounted aperture sight; no screw in aperture is included. A nice handy rifle that will still serve well in the deer woods. (14A9574-48) [James Traynor Collection] {C&R} (200/400) Est. 200 - 400
2611	British No. 1 Mk III* Bolt Action Rifle by Ishapore serial #22627K, 303 British, 25" barrel with a bright very good plus bore with some light frosting throughout but strong rifling. The rifle retains about 70% black enamel finish with light to moderate wear on the high edges and contact points, flaking of the finish on the receiver and triggerguard, and a few scattered specks of oxidation and light handling marks; flecks of red paint are present in a scattered pattern on the receiver. The hardwood stock is in very good condition with two about 1" square repairs at the toe and heel, two 2" cracks in front of the triggerguard and at the tip of the handguard, and scattered light handling marks consistent with age and use in the field. The forend is wire wrapped just behind the rear sight protector, and again between forward sling swivel and bayonet lug, with the ends soldered together; immediately behind the rear wire wrap is a reinforcing bolt for use as a grenade launching rifle. The stock is lightly serialized to the rifle just below the bayonet lug, a faint circled "8 (arrow) A" is stamped on the right side, and "16" is marked on the left side of the stock butt in white ink. The "(crown) / G.R.I / 1949 / No.1.Mk3" markings on the socket are softened slightly but remain easily legible, as does the serial number and GRI proof on the left and right sides of the receiver ring; the top of the receiver ring is unmarked. The rear sight, the bolt, and the noseclip are serialized and matching to the rifle; the magazine is numbered to a different rifle. The rifle requires mechanical attention, as the striker occasionally falls to half-cock when the safety is taken off, if the trigger has been pulled. (14A9565-7) {C&R} (300/500) Est. 300 - 500

Lot	Title/Description
2612	<p>Moroccan Kabyle Snaphaunce Musket about 64 cal, 50" part octagon part round barrel with an oxidized bore and a flared muzzle. The barrel has a gunmetal gray patina with light handling marks, scattered spots of oxidation staining, and an area of light oxidation near the lock. The barrel is retained with eight hammered brass capucines which are lightly engraved and tarnished to a green-brown patina. The long snaphaunce style lockplate has been lightly cleaned showing light oxidation staining and a few light handling marks, and the hammer, frizzen, and pan show a brown patina with light pitting. The triggerguard and stock metal have a gunmetal gray patina with light oxidation staining, light pitting, and holes due to oxidation at the heel, and the upper tang is loose. The hardwood stock is in very good condition with light chipping at the edges along the barrel, a 5" crack in the forward most part of the forend, traces of an old black finish, and scattered handling marks; the metal fittings are coming loose from the toe. Bone inlays are present behind the upper tang and on both sides of the butt, and are lightly engraved with dot and line patterns. A rudimentary buckhorn-style rear sight is present at the rear of the barrel, and an engraved brass piece is present at the front of the barrel, which could act as a front sight. The lock does not function properly, as the hammer doesn't lock back. An iron ramrod is included. A good example of an interesting antique Moroccan arm. (14A9311-3) (ANTIQUE) (500/700) Est. 500 - 700</p>
2613	<p>South African No. 4 Mk 1 Bolt Action Rifle by Fazakerley serial #PF34180, 303 British, 25" barrel with a very good to very good plus bore with light pitting but strong rifling. The rifle retains about 95% mixed arsenal applied parkerized and blue finish with light wear on the high edges and contact points, scattered specks of oxidation, and scattered light handling marks; excess grease and oil is present around most metal parts. The hardwood stock is very good as lightly cleaned with an old abrasion just behind the noseclip on the left side, a 1" impact mark on the left side of the forend, and scattered handling marks throughout. The stock is very lightly marked "BENECKHE" along the edge of buttplate on the right side, faded proofs behind the triggerguard including a Broad Arrow, and the stock is serialized to the rifle on the forend, the characters of which are stamped at a slight angle. The receiver ring is stamped with an "arrow inside U" South African proof, the left side of the receiver is lightly electropenciled with the model, date, and serial number, as well as import marked, the bolt is serialized and matching, the magazine is "S" marked, the socket is marked "(crossed flags)" below the bolt handle, the noseclip is marked "MB13", and the receiver and socket are Broad Arrow marked; the heel of the brass buttplate is stamped "40". The rifle rear sight is the upgraded "Singer" adjustable rear sight. A nice No. 4 Mk 1 rifle that has traveled the world. (14A9541-2) (C&R) (300/500) Est. 300 - 500</p>
2614	<p>Kingston Armory M1 Semi-Auto Rifle serial #0660 22 LR, 24" barrel with a bright excellent bore. The rifle retains about 98% original parkerized and anodized finish with a few spots of oxidation on the buttplate and a few light handling marks; the bolt shows an area of light pitting around the charging handle. The walnut M1 Garand-style stock is nicely figured on the right side of the butt and in excellent condition with only one or two light handling marks. The left side of the receiver is marked with the manufacturer information, caliber, and serial number. The rifle is sighted with M1 Garand-style open sights, and the top of the receiver has two drilled and tapped holes. An excellent example of these discontinued M1 Garand-style 22 LR rifles. (14A9544-199) (MODERN) (600/800) Est. 600 - 800</p>

Lot	Title/Description
2615	<p>Custom Springfield Armory U.S. Model 1898 Krag Bolt Action Rifle serial #189086 30-40 Krag, 24" barrel with a very good bore with scattered frosting and light pitting, but strong rifling. The receiver of the rifle has a gray patina with light freckling, and the sideplate and loading gate show faded mottled oil quenched case hardening with specks of previously cleaned oxidation, the concentration of which is on the side plate. The barrel has toned to dark gray with remnants of blue in the protected areas along the stock, light handling marks around the front sight, and light oxidation staining. The buttplate has been cleaned bright. The walnut stock is in very good condition as lightly cleaned with a 1/2" hairline crack behind the receiver, an about 1" tight crack behind the triggerguard, a few light handling marks, and an added finish. The remains of an inspector's cartouche and a circled "P" proof can be seen above the triggerguard on the left side and behind the triggerguard. The receiver markings remain largely crisp with a few of the letters in "SPRINGFIELD" having softened lightly. A Lyman ramped front sight base and silver bead front sight has been mounted to the barrel and the Model 1901 rear sight, graduated from 100 to 2000 yards and windage adjustable, is intact. A receiver sight base is mounted to the left side of the receiver however the arm and aperture are absent, and four drilled and tapped holes are added to the receiver below the markings. An attractive custom Krag that should still shoot well. (14A9627-13) (MODERN) (300/500) Est. 300 - 500</p>
2616	<p>ERMA-Werke Model E M1 22 Semi-Auto Carbine serial #37895 22 LR, 17 3/4" barrel with a bright excellent bore. The metal surfaces of the carbine retain about 85-90% original blue with the barrel having a brown patina and scattered light spots of oxidation, light wear on the contact points and high edges, and light pitting on the top of the receiver; the steel buttplate shows light wear around the edges with light oxidation. The walnut stock is in very good condition with flaking of the finish around the oval sling cut, and numerous light handling marks scattered around the stock. The bolt and top of the receiver ring are marked with small German proofs, and the left side of the receiver bears the serial number, model information, and "MADE IN GERMANY". The carbine is sighted with M1 Carbine-style open sights and the receiver is dovetail cut, allowing the rear sight to be removed and optics to be mounted. Included with the rifle is a green canvas sling, oiler, and single detachable magazine made to resemble a M1 magazine. Altogether a solid 22 LR facsimile of the M1 Carbine. (14A9544-110) (C&R) (150/250) Est. 150 - 250</p>
2617	<p>Custom Tula M91/30 Mosin Nagant Bolt Action Rifle serial #230048 7.62x54r, 22" shortened barrel with a dark oxidized good bore with evident rifling. With the exception of the bolt and rear sight leaf, the metal surfaces of the rifle retain about 97% rudimentarily applied tan and brown camouflage painted finish with a 5" scratch in the paint on the right side of the barrel, a few spots of light flaking, and light pitting visible beneath the finish. The bolt remains in-the-white with light oxidation staining around the bolt handle and safety knob, and the rear sight leaf shows a gray patina with traces of previous black finish. The hardwood stock has been shortened at the forend to a total overall length of 29", and has received the same camouflage painted finish as the metal surfaces, and is in very good condition with flaking of the finish around the wrist, a run on the right side of the stock, and scattered rough patches of finish. The receiver is faintly marked with the Tula "(arrow within star)" and is serialized and 1936 dated. The magazine floorplate and bolt, the handle of which has been bent down, are faintly serialized and matching. A new ramped blade front sight has been installed, and the original tangent rear sight remains intact. (14A9570-4) (MODERN) (75/150) Est. 75 - 150</p>

Lot	Title/Description
2618	<p>Mauser Model Es 340 Bolt Action Rifle serial #73303 22 LR, 25 1/2" barrel with a bright excellent bore with a speck of oxidation near the muzzle. The metal surfaces of the rifle retain about 80% original blue with the triggerguard, receiver, and rear sight toning to a brown patina, thinning along the underside and in scattered spots of the top of the barrel, and specks of oxidation throughout; the steel buttplate is lightly oxidized. The pistolgrip walnut stock is in very good condition as lightly cleaned with light abrasions at the comb on the left side, two small holes 4 1/2" apart on the left side of the butt, and scattered handling marks consistent with age; the steel buttplate is proud of the stock at the toe and on the left side. The stock is marked "M" in the bolt channel, a lightly faded Mauser logo is stamped on the right side, and "KKSH" is crisply stamped next to the logo. The barrel is marked with a "Ch.11" steel code, a "459" proof, and both barrel and receiver bear "(crown) / BUG" proofs. The barrel, bolt, and triggerguard are serialized and matching to the rifle, and the buttplate and top of the receiver are marked with the Mauser banner. The rear screw is absent from the triggerguard. The ramped inverted-v front sight is intact; however, the rear sight is the non-typical "schraubvisier" 50-meter rear sight with a fine-tuning screw adjustment, which is serialized to the rifle. A solid example of these early Mauser target rifles. (14A9544-158) {C&R} (200/400) Est. 200 - 400</p>
2619	<p>Custom Springfield Armory Model 1868 Trapdoor Rifle serial #9375 50-70, 19" shortened barrel with a very good bore with scattered light to moderate pitting throughout. The metal surfaces of the rifle have been lightly cleaned to a pewter patina with light pitting, spots of oxidation staining, and light handling marks throughout. The walnut stock is in very good condition as lightly cleaned and has been shortened with a 1" chip on the left side of the upper tang, a ding in the comb, and scattered handling marks throughout; 7/16" diameter circular impact marks with a dot in the center are scattered around the stock. A copper forend tip has been added to the stock, showing light tarnishing and verdigris. The barrel and receiver are serialized and matching on the left side, the Civil War era lockplate has the faint remains of a Federal Eagle and "US / SPRINGFIELD", and the breechblock is crisply marked "1869 / (eagle head) / U.S.". An inverted-V front sight has been soldered to the barrel about 1" from the muzzle, and the original rear sight is retained. Both screws are missing from the triggerguard, the lower screw is missing from the buttplate, and a few of the screws show light slot damage. The two-position lock and tumbler appear to function well mechanically. (14A9544-305) {ANTIQUÉ} (300/500) Est. 300 - 500</p>
2620	<p>Marlin Model 62 Lever Action Rifle serial #6843353 30 Carbine, 20" "JM" marked micro-grooved barrel with a bright excellent bore. The rifle retains about 98% original blue with scattered specks of oxidation along the barrel and on the lever, and a few light handling marks. The bolt has been jeweled. The capped pistolgrip walnut stock is in excellent condition with a few light handling marks, and the stock features the Marlin "bullseye"; the hard rubber buttplate is checkered and "MARLIN" marked. The two-line barrel address is crisp, and the serial number stamped on the left side of the receiver is partially faded. The rifle is sighted with sporting-style open sights, and the receiver is drilled and tapped for optics mounting. Included with the rifle is a single detachable 4-round magazine. A fine example of these short-throw lever rifles. (14A9544-149) {C&R} (400/600) Est. 400 - 600</p>
2621	<p>Mossberg Model 472PCA Lever Action Carbine serial #789441 30-30 Win, 20" barrel with a bright excellent bore. The carbine retains about 96% original blue with scattered specks of oxidation on the barrel and full-length magazine tube, a few light handling marks, and the receiver is toning lightly to brown. The capped pistolgrip stock and forend are in very good condition with a ding in the left side of the forend, and scattered light handling marks; the black pistolgrip cap is checkered, and the rubber recoil pad is "MOSSBERG" marked. The barrel address and serial number remain crisp, and the barrel is marked with a small circled "P" proof near the receiver. The carbine is sighted with a ramped gold bead front sight and a sporting rear sight, the elevator of which is absent. The top of the receiver is drilled and tapped for optics mounting. (14A9544-35) {MODERN} (200/300) Est. 200 - 300</p>

Lot	Title/Description
2622	<p>Savage Model 23B Sporter Bolt Action Rifle serial #69054 25-20 Win, 24 3/4" barrel with a bright excellent bore. The rifle retains about 97% original blue with slight thinning of the finish on the underside of the barrel, scattered specks of oxidation, and a few light handling marks. The triggerguard shows light wear on the edges. The pistolgrip walnut stock is in very good condition with two 1/2" cracks at the toe, scattered crazing of the added finish, and a few light handling marks. The stock features a schnabel forend tip and a steel buttplate bearing the Savage logo. The barrel address, caliber designation, and serial number remain crisply stamped. The rifle is sighted with a blade front sight and sporting-style rear, and the rear of the receiver has two drilled and tapped holes. Included with the rifle is a single "SAVAGE SPORTER" marked magazine, designated for both 32-20 Win and 25-20 Win; the magazine retains about 90% blue with light wear on the high edges and contact points. (14A9544-80) {C&R} (200/300) Est. 200 - 300</p>
2623	<p>Custom Enfield SMLE Mk III" Bolt Action Rifle serial #M25252, 303 British, 25" barrel with a fair oxidized bore. The metal surfaces retain about 85% reapplied blue finish with moderate wear on the contact points and high edges, two fingernail size spots of wear on the underside of the barrel, pinprick pitting beneath the finish, and scattered light handling marks. The European walnut stock has been shortened to an overall length of 26", with the forend and handguard ending at the rear sight, and is in very good condition as lightly cleaned with an 1 1/2" crack on the left side of the stock butt, square repairs at the toe and heel, and a few light handling marks; the brass buttplate has developed an ochre patina and shows scattered light handling marks. The receiver and socket markings are softened but still largely legible, the original serial number has been lined out and replaced, and the rifle is 1917-dated. The bolt is serialized and matching to the rifle. The rifle retains the original open sights, which adjust for distance with little effort. The magazine is absent from the rifle, but a replacement should be easy to acquire. (14A9627-14) {MODERN} (50/100) Est. 50 - 100</p>
2624	<p>Custom Springfield Armory Model 1896 Krag Bolt Action Carbine serial #84248 30-40 Krag, 22" barrel with a bright excellent bore with traces of light frosting. The carbine retains about 80% reapplied blue with thinning of the finish on the barrel and receiver, general light oxidation staining, and scattered specks of oxidation and light handling marks; the steel buttplate has been cleaned bright with light pitting and oxidation, and the barrel band and noscap show a light brown patina. The full-length walnut stock is in very good condition as lightly cleaned with a 2 1/2" crack in the handguard near the receiver, a neatly repaired break through the wrist, and a few light handling marks. The stock is unmarked. The receiver markings are lightly softened on the lower edges of the characters, but are still easily legible. The carbine is sighted with a Lyman silver bead front sight on a Lyman ramped front sight base, and a Model 1901 rifle rear sight, the forward mounting screw of which is missing and the rear one has been replaced. An altogether attractive Krag carbine configured in the Philippine Constabulary style. (14A9544-259) {ANTIQUÉ} (300/500) Est. 300 - 500</p>
2625	<p>U.S. Model 1917 Bolt Action Rifle by Eddystone serial #33595 30-06, 26" 9-17 dated Eddystone barrel with a very good plus bore with light frosting and strong rifling. The rifle retains about 98% arsenal applied parkerized finish with light wear on the contact points and high edges, and the buttplate shows light wear on the edges with light oxidation. The walnut stock is in good condition as lightly cleaned with two about 5" hairline cracks traveling rearward from behind the triggerguard, a 2" crack at the bolt cutout, and scattered light handling marks consistent with age. The stock is marked with boxed "3GM-K" and "RA-P" cartouches, both of which are lightly faded but still easily legible, and the nose of the stock is lightly marked "W" for Winchester manufacture. The receiver markings remain crisp, with an Ordnance Bomb proof on the left side wall, and the rear sight, bolt, noscap, stacking and sling swivels are all "E" marked. The rifle retains the original open sights. (14A9544-274) {C&R} (400/600) Est. 400 - 600</p>
2626	<p>Harrington & Richardson Model 565 "PAL" Single Shot Bolt Action Rifle serial #6764 22 S, L, LR, 22" barrel with a bright excellent bore. The rifle retains about 96% original blue with light wear on the contact points and high edges, scattered light oxidation staining on the receiver and barrel, and a few light handling marks; the bolt handle shows lightly muted case color. The pistolgrip walnut stock is in near excellent condition with a few light handling marks scattered about, and the stock is fitted with the original "H&R / ARMS CO." marked hard rubber buttplate. The rifle is sighted with a Lyman blade front sight and a sporting-style rear sight. Included with the rifle is a leather military sling. (14A9544-181) {C&R} (75/150) Est. 75 - 150</p>

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2627	Iver Johnson M1 Semi-Auto Carbine serial #AA34082, 30 Carbine, 18" barrel with a bright excellent bore. The metal surfaces of the carbine retain about 90% reapplied blue with light wear on the contact points, light oxidation on the barrel, operating rod, and barrel band, and previous light pitting beneath the finish on the operating rod and bolt head; the triggerguard is aluminum and shows a few light dings in the black anodized finish. The walnut stock is in very good condition with a circular crack behind the tang, light chipping around the buttplate, and a few light handling marks. The stock has an oval sling cut, is subtly cut for the M2 selector switch, and the handguard is ventilated blued steel. The receiver markings remain mostly crisp, with some softening due to reapplication of the blue finish. The carbine features a Type 2 barrel band, a round bolt, and the stamped adjustable rear sight. Included with the carbine is a single 15-round magazine marked "IS". A commercial carbine that should be fun at the range. (14A9544-106) {MODERN} (300/500) Est. 300 - 500
2628	Savage Model 23D Bolt Action Rifle serial #217980 22 Hornet, 24 3/4" barrel with a bright excellent bore with a few pinprick pits near the muzzle, but strong rifling. The metal surfaces of the rifle retain about 95% reapplied blue with scattered specks of oxidation along the barrel with concentrations on the triggerguard, light thinning near the muzzle, and a few light handling marks. The checkered pistolgrip walnut stock is in very good plus condition with a ding at the forend tip, a few spots of damage to the checkering on the forend, and a few light handling marks. The stock has two empty holes where the sling swivels have been removed, and the stock is fitted with a grooved steel buttplate marked "SVG". The two-line barrel address and model designation are softened but legible, and the serial number on the right side of the receiver remains crisp. The original rear sight has been removed, with a dovetail blank inserted in place, and a Redfield aperture sight has been mounted to the rear of the receiver at the safety; the aperture sight has one screw-in aperture and is paired with a bead-on-blade front sight. The receiver has two drilled and tapped holes on the side, and three on the top. A nice rifle that should shoot well. (14A9544-89) {C&R} (200/400) Est. 200 - 400
2629	Savage Model 23C Bolt Action Rifle serial #42338 32-20 Win, 24 3/4" barrel with a bright very good plus bore with scattered pinprick pitting throughout but strong rifling. The rifle retains about 97% reapplied blue finish with light edge wear at the muzzle, scattered spots of light wear along the barrel, and scattered spots of oxidation along the barrel and the triggerguard. The pistolgrip walnut stock is in very good plus condition with scattered light handling marks, and features a schnabel forend tip and steel buttplate marked with the Savage logo and displaying a brown patina with generous traces of original blue. The barrel markings remain crisp, and the Savage markings on the rear sight are partially faded. The rifle is sighted with a silver blade front sight and sporting-style rear, and the receiver is drilled and tapped twice on top. Included with the rifle is a single factory 4-round magazine. A nice small game rifle from the first half of the 20th century. (14A9544-86) {C&R} (200/300) Est. 200 - 300
2630	Harrington & Richardson Model 365 "Reg'Lar" Single Shot Bolt Action Rifle serial #3366 22 LR, 22" barrel with a bright excellent bore. The rifle retains about 95% original blue with light surface oxidation and light wear on the bolt. The pistolgrip walnut stock is in very good plus condition with a tiny chip at the toe, scattered light handling marks, and is fitted with an "H&R" marked hard rubber buttplate. The barrel address, serial number, and "REG'LAR" model marking remain crisp along the left side of the barrel and receiver. The rifle is sighted with the original ramped blade front sight and Lyman 55-H aperture rear sight. (14A9544-180) {C&R} (75/150) Est. 75 - 150

Lot	Title/Description
2631	Custom Springfield Armory Model 1899 Krag Bolt Action Carbine serial #229352 30-40 Krag, 22" barrel with a bright very good plus bore with light frosting in the grooves. The receiver of the carbine shows mottled oil quenched case hardening with the top having been lightly cleaned and showing a gray patina, specks of oxidation on the side wall and loading gate, and a few light handling marks. The triggerguard has been previously lightly cleaned and has spots of light oxidation, as does the bolt handle, and the barrel retains about 65% thinning original blue with scattered light wear marks, scattered light oxidation, and the forward half of the barrel is toning to brown. The straight grip walnut stock is in very good plus condition as lightly cleaned with thinning of the added high gloss finish at the butt, light flaking on the wrist, and scattered light handling marks; a Pachmayr ventilated recoil pad has been added to the stock, giving it a 12 3/4" length of pull. The stock bears a softened boxed "J.F.C." cartouche on the left side of the wrist, and the barest trace of a circled "P" proof behind the triggerguard. The receiver markings are softened in spots, with the rest remaining deeply struck and crisp, but all are easily legible. The carbine retains the original blade front sight and the original rear sight has been removed, a Redfield aperture sight being mounted to the left side of the receiver at the rear; one screw-in aperture is included. A custom rifle that should still shoot well. (14A9544-69) {MODERN} (200/400) Est. 200 - 400
2632	ATI/GSG Model 1911CA Semi-Auto Pistol serial #A415622, 22 LR, 5" barrel with a bright excellent bore with a few pinprick pits near the muzzle. The frame and slide retain about 98% black anodized finish with light silvering on the high edges and light wear at the ejection port and on the lower left side of the slide covering the recoil spring. The barrel retains about 98% original blue finish with light operational wear, and the hammer remains in-the-white. The checkered walnut grip panels are in excellent condition. The green three-dot sights are drift adjustable, and the manual thumb safety is ambidextrous. Included with the pistol are three magazines and the factory manual. (14A9584-2) {MODERN} (150/250) Est. 150 - 250
2633	Custom Remington Model 722 Bolt Action Rifle serial #210270 22 CF, 25" barrel with a bright very good plus bore with light frosting near the muzzle but strong rifling. The receiver of the rifle retains about 98% reapplied blue with light wear on the contact points and a few light handling marks. The barrel has been cleaned to bright with a few scattered light handling marks. The hardwood Monte Carlo stock is in very good condition with light handling marks scattered throughout and crazing of the Pachmayr rubber buttplate, and the stock features a shadow-line cheekpiece and a beavertail forend. The receiver and barrel have been glass bedded to the stock. The receiver markings are softened but legible. The barrel is unmarked with exception of "223" hand-stamped on the left side near the receiver; despite this marking, the rifle will not chamber a 223 Remington cartridge though a 222 Remington cartridge appears to fit. The barrel is drilled and tapped twice, possibly for a rear sight, but no provisions for a front sight are evident. The receiver is fitted with two Weaver scope bases, and two 1" Weaver rings are included. As with all arms of indeterminate chambering, the chambering and headspace must be determined and checked by a competent gunsmith prior to use. (14A9544-152) {MODERN} (200/400) Est. 200 - 400
2634	Marlin Model 45 Semi-Auto Carbine serial #13826901 45 ACP, 16 1/2" micro-grooved barrel with a bright excellent bore. The carbine retains about 95% original blue with scattered spots of light oxidation along the receiver, barrel, and at the bolt head. The polymer triggerguard and magazine well are in excellent condition with only a few light handling marks. The pistolgrip walnut stock is in very good plus condition with light edge wear at the ejection port, a small mark of white paint transfer near the toeline, and scattered light handling marks; the stock features a 1/2" rubber buttplate, marked with the Marlin logo, which appears to have hardened with age. The underside of the forend bears a faded Marlin sticker reading "TARGETED / BY / JIM D". The two-line barrel address and two-line safety warning on the barrel remains crisp, as does the serial number stamped on the left side of the receiver. The rifle is sighted with the original sporting-style open sights, and the receiver is factory drilled and tapped. Included with the carbine is a single magazine marked "MARLIN / CAL. 45 AUTO". A fine carbine that should be great fun. (14A9544-157) {MODERN} (500/700) Est. 500 - 700

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2635	Remington Model 721 Bolt Action Rifle serial #331458 30-06, 24" barrel with a bright very good plus bore with scattered pinprick pitting but strong rifling. The rifle retains about 97% original blue with light edge wear at the muzzle and triggerguard, light oxidation on the triggerguard, and a few light handling marks. The pistolgrip walnut stock is in very good condition with scattered flaking of the finish, a small ding at the toe, and scattered light handling marks; the stock is fitted with the original "Remington" marked aluminum buttplate. The barrel address and receiver markings remain crisp, and the barrel is marked with Remington proofs near the receiver on both left and right. The rifle is sighted with the original sporting-style open sights, and a Tasco one-piece scope base is mounted to the top of the receiver. Included with the rifle is a set of 1" Weaver rings, and a set of quick detach sling swivels. A solid rifle that has years in the field ahead of it. (14A9544-249) {C&R} (200/300) Est. 200 - 300
2636	Custom Springfield Armory Model 1903 Bolt Action Rifle serial #1214037 30-06, 24" 1-21 dated Springfield Armory barrel with an oxidized bore. The rifle retains about 90% arsenal applied parkerized finish with a 3" long section devoid of parkerized finish at the receiver previously covered by the rear sight base, thinning of the finish on the barrel, and light wear on the high edges and contact points; the 3" section is speckled with light oxidation. The pistolgrip walnut stock is in very good condition with an about 1/2" crack behind the receiver, a small chip in the schnabel forend tip, and scattered light handling marks; the stock is fitted with a ventilated recoil pad marked "STOEGER ARMS / CORPORATON / NEW YORK". Two sling swivels are mounted to the stock, about 3" from the forend tip and from the toe. The receiver and barrel markings remain crisp. The follower has been modified so as to prevent the bolt locking open on an empty magazine, and the original rear sight has been removed. The front sight blade has been replaced with a Lyman silver bead, and a Redfield aperture sight has been mounted to the rear of the receiver, on the right side; one screw-in aperture is included. The rifle appears to function well mechanically. (14A9544-72) {MODERN} (200/300) Est. 200 - 300
2637	Polish WZ48 Bolt Action Training Rifle by Radom serial #AB04918, 22 LR, 24 3/4" barrel with a 1/2" counter bore and a bright very good plus bore with a light scratch in the groove near the muzzle, and a single moderate pit about 8" back from the muzzle. The rifle retains about 90% arsenal blue with light wear on the high edges and contact points, the barrel bands have been cleaned to gunmetal gray, and speckled light oxidation along the barrel; the steel buttplate shows light wear at the heel with light oxidation. The hardwood stock is in very good condition as lightly cleaned with two shallow divots on the wrist, a lightly abraded area on the underside of the forend, and scattered light handling marks. The receiver is marked with a circled "11", dated 1954, and a faded "PW / 3" within a diamond. The bolt handle is lightly marked with the serial number of the rifle. The rifle retains the original post front sight and tangent leaf rear sight graduated from 25 meters to 100 meters. A nice training rifle for the Mosin Nagant enthusiast. (14A9544-165) {C&R} (200/400) Est. 200 - 400
2638	Military Contract No. 1 Rolling Block Rifle by Remington 44 CF, 33 3/4" barrel with a lightly oxidized bore with scattered light pitting, specks of oxidation throughout, and evident rifling. The metal surfaces of the rifle have been previously cleaned to bright and now show scattered light pitting, light oxidation staining, and scattered spots of light oxidation along the barrel; the curved steel buttplate has an even covering of light oxidation. The walnut stock is in very good condition with a few small cracks at the upper tang and left side of the stock at the buttplate, an old chip next to the barrel and the left side of the forend, and scattered light handling marks consistent with age and use; the ramrod channel remains empty with some light chipping along the edges. All three barrel bands remain intact. The left side frame is marked with a solitary "H" the top of which is lightly faded, the "E. Remington & Sons" three line patent information on the tang is faded with areas rendered illegible, and the left side of the barrel just forward of the frame appears to be marked "B" or "R" with oxidation obscuring the letter partially. Some of the screws show light slot damage, and the tang screw shows moderate slot damage. The rifle is sighted with a barleycorn front sight and tangent leaf rear sight, both appearing original to the rifle, and the rifle features the least commonly seen combination socket bayonet/saber bayonet mount. The rifle appears to function well mechanically. (14A9567-34) {ANTIQUE} (300/500) Est. 300 - 500

Lot	Title/Description
2639	U.S. Norwich Cadet or Training "Quaker Rifle" This is a cadet or training "Quaker rifle" assembly from contract musket parts, similar to that offered by Bannerman & Sons. Included is approximately the front 6" of the musket barrel and 4" of the breech section with an 1863-dated U.S. Norwich lock. The center section is 24" of black painted wooden dowel, giving the "barrel" an overall length of about 34"; a single iron band fixes the barrel to the stock. The metal surfaces of the rifle have a brown patina with a light layer of oxidation, with exception of the lockplate which shows about 97% reapplied blue with speckled light oxidation. The walnut stock is in very good condition with a repair to the forend and scattered light handling marks, and likely was a full-length musket stock shortened to the current length. An iron ramrod is present in the ramrod channel, and it appears permanently fixed in position. The lock does not function, though the hammer moves freely. (14A9567-35) {ANTIQUE} (100/200) Est. 100 - 200
2640	Harrington & Richardson Model 250 Sportster Bolt Action Rifle serial #3987 22 LR, 22" barrel with a bright very good plus bore with a few spots of oxidation but strong rifling. The metal surfaces of the rifle retain about 80% original blue with moderate thinning along the barrel, scattered spots of oxidation and oxidation staining, and light high edge wear. The pistolgrip walnut stock is in excellent condition with a few light handling marks, and is fitted with a hard rubber buttplate marked with the H&R logo. The "SPORTSTER" model information stamped on the barrel remains crisp, as do the serial number and H&R address on the receiver. The rifle is sighted with a white bead front sight and a Marble's sporting-style rear sight. Included with the rifle is a single detachable magazine. (14A9544-261) {C&R} (100/200) Est. 100 - 200
2641	Savage Model 45 Super Sporter Bolt Action Rifle serial #12266 30-06, 24" barrel with a near excellent bore with scattered light frosting. The metal surfaces of the rifle retain about 95% reapplied blue with light wear on the high edges and contact points, a few spots of finish loss and light pitting, and some scattered light handling marks. The checkered pistolgrip walnut stock is in very good plus condition with a few light dings to the checkering, a few spots of flaking finish, and scattered light handling marks; the stock has been fitted with an unmarked ventilated recoil that has hardened with age and shows chipping at the heel. The barrel and receiver markings remain easily legible, with a few characters being partially obscured due to polishing. The rifle is sighted with the original brass bead front sight, flip-up sporting rear, and receiver mounted Lyman aperture sight with screw-in aperture. The rifle appears to function well mechanically. Included with the rifle is a single detachable magazine. (14A9544-172) {C&R} (200/400) Est. 200 - 400
2642	Mossberg Model 340M Bolt Action Rifle serial #221843 22 S, L, LR, 18 1/4" "AC-KRO-GRUV" barrel with an excellent bore. The metal surfaces of the rifle retain about 97% original blue with speckled light oxidation along the barrel, and light oxidation staining on the receiver. The checkered capped pistolgrip Mannlicher hardwood stock is in very good plus condition with scattered light handling marks, a few specks of white residue in the pressed checkering, and the gripcap is loose. The stock features a subtle left side cheekpiece, sling swivels, and is fitted with a checkered hard rubber "MOSSBERG" marked buttplate with light wear at the heel. The barrel markings remain crisp detailing the Mossberg address, the "AC-KRO-GRUV" rifling, and the chambering. The rifle is sighted with the original sporting-style open sights, and the receiver has two drilled and tapped holes on the rear of the left side, as well as being dovetail cut for optics mounting. Included with the rifle is a single detachable magazine. (14A9544-100) {MODERN} (200/300) Est. 200 - 300
2643	Custom British BSA No 1 Mk III Bolt Action Rifle serial #K42442, 303 British, 25" barrel with a dark pitted bore and strong rifling. The metal surfaces of this sporterized non import marked rifle have faded to brown with patches of oxidation and areas of original blackened finish. The barrel has green enamel paint applied to the rear portion and is hidden by the rear handguard with no front handguard present. The rifle retains its original sights, has a mismatched bolt, displays broad arrow in D markings on the barrel shank and receiver ring, indicating Australian use and includes a brass oiler and pull through in the buttstock storage compartment. The stock has scattered bruises and dents, original oil finish, two small cracks in the handguard, the rear sight protector and stock disc are missing and the forearm has been shortened. One magazine is provided. (25A9511-14) {MODERN} (100/200) Est. 100 - 200

Lot	Title/Description
2644	British No 1 Mk III Bolt Action Rifle by BSA serial #A18303, 303 British, 25" barrel with dark grooves and strong rifling. The metal surfaces of this 1916 dated SMLE rifle retains arsenal blackened finish with oxidation staining and freckling throughout. The bolt serial number has been arsenal renumbered to match the receiver and the remaining visible parts are mismatched with a blank brass stock disc and no import marking. The stock has a combat experience look to it with numerous impact marks and dents and two well executed arsenal repairs on each side of the forearm and a small crack on top of the front handguard by the sight base. The buttstock is slightly loose, contains a steel oiler in the buttrap and one magazine is provided. A rather salty example of the venerable British warhorse. (25A9511-20) {C&R} (150/250) Est. 150 - 250
2645	Scarce Stevens Ideal "Removable Sideplate" Single Shot Rifle serial #1163 22 RF, 24" barrel with a dark pitted bore and strong rifling. The part octagon/part round barrel retains about 95% non-original blue with some high edge wear and scattered oxidation staining and freckling. The receiver and lever have been refinished and toned to a nice even brownish plum color with small areas of pinprick pitting. The rifle has matching serial numbers on the barrel, lever and on the bottom of the nickel Swiss buttplate. The perch belly oil finished replacement walnut stock features a cupped cheekpiece and smooth diamond point pistolgrip checkering, the lower tang screw shows moderate slot damage and the frame to stock fit has about a 1/16" gap from wood shrinkage. The refinished forearm rates excellent and the rifle features a replacement blade front sight, V type sporting rear sight and the tang is drilled and tapped for a Vernier sight with filled holes. This scarce rifle is one of the approximately 2,000 "Removable Sideplate" models manufactured from 1893 to mid-1894 and are not often encountered. (25A9348-10) {ANTIQUÉ} (400/600) Est. 400 - 600
2646	Remington Model 510 Single Shot Bolt Action Rifle serial #26772 22 S, L, LR, 24" barrel with a bright near excellent bore. The metal surfaces retain about 20% original finish that has toned to brown with some shallow pitting on top of the barrel. The bee hive bolt has faded to a mottled gray with remnants of case-hardening in the protected areas with no red enamel remaining on the cocking indicator. The plain stock rates very good with scattered handling marks, a tight drying crack on the left side of the buttstock, small chip in the buttplate and spots of paint transfer. The rifle functions well mechanically. (25A8840-30) {C&R} (100/200) Est. 100 - 200
2647	Winchester Model 370 Single Barrel Shotgun serial #C412309, 12 ga, 30" plain barrel choked full with an excellent bore. The 3" chambered barreled action retains about 90% original finish that is toning to brown with scattered oxidation staining, more pronounced on the receiver. The smooth pistolgrip hardwood stock and forearm rate very good with a 1/2" tight crack at the top tang, handling marks and areas of missing or flaking lacquer. (25A9400-34) {MODERN} (75/150) Est. 75 - 150
2648	Long Branch No 4 Mk I* Bolt Action Rifle serial # 67L6329, 303 British, 25" barrel with a bright excellent bore. The metal surfaces of this 1944 dated rifle retain about 70% armory black finish with an "England" import mark on the receiver ring and typical British export marks near the muzzle of the barrel. The bolt, forearm and magazine have matching serial numbers. The hardwood furniture rates about very good with scattered small chips and impact marks. The right side of the buttstock is marked "FTR 10/50" stenciled in yellow paint with "ZF" stamped in the wood. The left side of the stock is stamped "BW/ S" below and "1/50". A very nice Factory Through Repair rifle from this respected Canadian armory. (25A9493-3) {C&R} (300/400) Est. 300 - 400
2649	Winchester Model 60 Single Shot Bolt Action Rifle 22 S, L, LR 23" barrel with a bright excellent bore. The metal surfaces retain about 95% original blued finish with small areas of loss around the muzzle and triggerguard. The gumwood stock and Winchester marked plastic buttplate rate very good with a few scratches and scattered spots of finish loss. The rifle has been customized with a faux mother-of-pearl gripcap, a homemade leather shell holder screwed to the right side of the butt and the initials "NRC" neatly incised at an angle with nail holes that possibly held matching mother-of-pearl inserts at one time. (25A9400-14) {C&R} (100/200) Est. 100 - 200

Lot	Title/Description
2650	Early U.S. Model 1917 Enfield Bolt Action Rifle by Eddystone serial #25467 30-06, 26" barrel with a very good bore with slightly frosted grooves. This early production rifle retains its original "E" marked 9-17 dated barrel with the remaining visible parts also "E" marked including the stock tip, front sight base, upper band, bolt root, bolt release, rear sight and cocking piece. The arsenal blued metal surfaces retain about 85% finish with most of the loss on the buttplate with areas toning to brown, most noticeable on the floorplate and rear band. The oil finished walnut stock rates very good as lightly cleaned with scattered minor impact marks and no cracks with a "RA" (Raritan Arsenal) rebuild stamp on the left side of the buttstock. Additional stock markings include a faint eagle's head cartouche with "36" behind the lower tang and "77" stamped in front of the floorplate. A nice example of a first month production Eddystone M1917 that escaped parkerization during the rebuild process. (25A9672-1) {C&R} (600/800) Est. 600 - 800
2651	Middle Eastern Jezail Flintlock Musket .43 cal., 36" octagon barrel with an oxidized bore. The metal surfaces have toned to a dark brown patina showing scattered old pitting and oxidation. The arm is very rudimentary in construction with two hammered brass capucines near the breech and four silver capucines nearer the stock tip. The external lock mechanism is quite simple with large curving mainspring and straight ball-tip trigger. The trigger spring has broken and the mechanism is seized. The short walnut stock remains in about very good condition showing a 3" drying crack behind the breech, a thin sliver missing along the left edge tip, some smaller drying cracks and dings. There are remnants of a black lacquer finish scattered about and the "pistolgrip" area actually shows some hints of nice grain figure. A good example for the collector of primitive arms. (2X139371-13) {ANTIQUÉ} (100/200) Est. 100 - 200
2652	U.S. Model 1795 Percussion-Converted Musket .69 cal., 42" barrel with an oxidized and pitted bore. The metal surfaces are gray and brown with evenly scattered oxidation stains, light pitting around the nipple area, the lock plate is smoky gray with remnants of a Federal Eagle but the other markings are no longer visible. The one-piece factory walnut stock rates very good plus as arsenal-grade refurbished with the re-applied varnish worn around the lock areas from handling, scattered light-to-moderate handling marks, 5" thin crack extending from the butt on the left side with a few chips, a 1 1/2" crack on the right side extending from the butt along with several smaller ones. The buttplate rates fair showing heavy corrosion. The mainspring is broken and in need of attention. The rear lock screw is broken off from corrosion and the lock is loose in its seat. This version has the bayonet stud on the bottom of the muzzle and the barrel is stamped "P/RC". (2X8A9407-8) {ANTIQUÉ} (400/600) Est. 400 - 600
2653	Mauser Geha Bolt Action Shotgun 12 ga., 27" barrel choked full with a slightly frosted bore showing some light pits toward the breech. The barrel retains about 85% original finish with scattered freckling, handling marks and oxidation staining throughout. The receiver and bolt have flaked to a dark gray patina showing a few areas of original finish with freckling and pinprick oxidation. The smooth walnut stock with smooth buttplate is about good plus as refinished with Geha emblems on both sides of the butt and signs of handling throughout. These shotguns were converted from Gew. 98 Mauser rifles sometime in the 1920s/30s. (2X228840-37) {C&R} [Roy Jinks Collection] (150/250) Est. 150 - 250
2654	Custom Steyr M95 Bolt Action Rifle serial #1024S, 8x50 Mannlicher, 19 1/2" barrel with a very good bore showing darkness in the grooves and strong rifling. This lot includes only a barreled action and sporterized stock; the rear sight ladder, action screws, magazine / triggerguard assembly and bolt are not present. The rifle retains about 50% arsenal blue with wear on the contact points and high edges, thinning on the barrel, and spots of oxidation staining along the barrel. The checkered pistolgrip walnut half-stock rates fair-good as-cleaned with two hairline cracks at the rear of the receiver, a plug through the checkering of the wrist, three drilled holes in the pistolgrip, scattered light scratches, and an added finish. The stock features a raised left side cheekpiece, a blank brass medallion tacked to the top of the wrist, and a steel military buttplate which is poorly fitted with "203GA" unit marking at the heel. The receiver ring is crisply marked "STEYR / M.95", and the barrel is marked with only the beginning "WN" being legible, there are four added drilled and tapped holes along the left side of the receiver. (1X139569-1) {MODERN} (30/60) Est. 30 - 60

Lot	Title/Description	Lot	Title/Description
2655	<p>W. & C. Scott & Son Double Hammergun serial #1108 12 ga, 25 3/4" possibly shortened Damascus barrels choked cylinder with very good bore with light pitting and a few light dings. The barrels show a nice Damascus pattern beneath a light brown patina, and the frame has a pewter patina with spots of light oxidation on the triggerguard and right-side hammer. The checkered pistolgrip walnut stock and forend are in very good condition as lightly cleaned with moderate softening of the checkering, a light crack through the wrist, and a professionally added recoil pad marked "NOSHOC". The frame is neatly foliate scroll engraved on all sides, and the left and right sides of the frame are marked "W. & C. SCOTT & SON". The watertable is marked "SCOTT'S PATENT ACTION" and a faint "(crown) / (crossed swords)" proof on both left and right sides, and the barrels are serialized and matching with slightly faded British proofs and crisp "13" on both barrels. The rib is faintly marked "W. & C. SCOTT & SON. PATENTEES. DORSET PLACE PALL MALL. LONDON. LAMINATED STEEL." The right barrel is just slightly off-face and the shotgun features double triggers, double hammers, extractors, a 14 3/4" length of pull, the lever comes to rest just left of center, the chamber measures approximately 2 5/8", and the shotgun is sighted with dual beads. (1X14A9438-395) {ANTIQUE} (400/600) Est. 400 - 600</p>	2658	<p>British Underlever Double Hammer Shotgun by Robert Jones 12 ga., 30" barrels with bright very good bores choked improved cylinder and cylinder showing a few small spots of pinprick pitting. The twist steel barrels with 2 5/8" chambers are toning to a handsome dark grayish-plum patina with a few scattered small spots of light oxidation and pitting, along with a few minor scratches and impact marks. The barrels display most of their original damascus pattern with the rib maker marked "Robert Jones (Inventor and Patentee) 60 Dale St. Liverpool". The locks and hammers are no longer present and the remaining metal surfaces show a dull, mottled pewter-gray patina with a few small areas of minor oxidation, some tiny dings in the edges of the raised tear drop fences, and attractive foliate scroll engraving throughout. The checkered walnut straight grip stock displays some cast to the right and rates good as cleaned with an added finish, a few wood-filled repairs, numerous minor dents, dings and scratches and the stock has been roughly shaped to fit a well-worn WesternField-marked ventilated rubber recoil pad providing a 15" length of pull. The checkered walnut splinter style forend rates about very good with a small chip to the left of the decorative forend tip and a few tiny dings and scuffs in the checkering from use and features a wedge and escutcheons flanked by engraved rosettes. The lockup is a little loose with the barrels off-face, the shotgun features an unmarked shield-shaped monogram plate in the toe line as well as a functioning extractor and the barrels are sighted with a brass bead. A beautiful firearm that would be an excellent candidate for restoration or an eye-catching wall hanger. (1X23A9438-429) {ANTIQUE} (100/200) Est. 100 - 200</p>
2656	<p>Ruger Crimson Trace LCR-22 Double Action Revolver serial #548-72830, 22 LR, 1 7/8" barrel with an excellent bore. The gray stainless steel cylinder and the anodized frame retain 99% original finishes and the polymer fire control system frame rates excellent. The checkered synthetic factory installed Crimson Trace grips with functioning laser rate excellent. The gun features a serrated ramp front sight, fixed rear sight and eight-shot deeply fluted cylinder. The gun includes a factory box that is correctly end labeled and numbered to the gun, factory soft nylon case, Ruger padlock with a pair of keys, fired case, a pair of Ruger internal lock keys, manual and paperwork. This arm is as-new-in-box, dealer stock, factory fired-only, and may have very small rack or handling marks only. (8A9319-392) {MODERN} (600/800) Est. 600 - 800</p>	2659	<p>L. C. Smith Sidelock Double Shotgun serial #22384 12 ga, 26" damascus barrels both choked cylinder with shiny bores and scattered small patches of oxidation. The barrels show nice damascus pattern and are a mixture of dark and light gray with freckling and light oxidation staining throughout and may have been neatly shortened. The locks and frames are a gunmetal gray and silver patina with light-to-moderate freckling and "L.C Smith" marked on each lock. The checkered pistolgrip walnut buttstock is good plus and shows nice darkened figure and evidence of a light cleaning, the checkering is worn on the pistolgrip and hard rubber "TRAP GUN" marked buttplate and there are light-to-moderate handling marks. The forend is also worn almost flat with a 1" piece and several smaller chips missing, the inlaid forend tip is not present. The barrels lock up tight with the lever just left-of-center and the double triggers seem mechanically-sound. (1X22A9438-334) {C&R} (300/500) Est. 300 - 500</p>
2657	<p>W. Moore & Co. Side Lever Double Hammergun serial #23434 12 ga., 31" laminated steel barrels with oxidized and pitted bores choked cylinder. The metal surfaces have toned to a pleasing brown patina showing scattered light oxidation blemishes and pitting. The checkered walnut English style factory buttstock rates about excellent as lightly cleaned and refurbished with scattered light-to-moderate dents, dings, scratches and flattened diamond points in addition to a few hairline checks on the left side. The steel buttplate has toned to brown with oxidation blemishes. The metal is proud of the wood in areas due to the refurbishing. The checkered walnut splinter forend rates very good as refurbished showing moderately flattened diamond points and handling marks. The wedge stud on the barrel has been re-soldered, the barrels have slight frame-to-barrel play and the barrels are slightly off face at the bottom with light also showing along the water table next to the standing breech. The locks still function but the safety notch on the left hammer needs attention. The barrels are marked as 13-bore on the bottom and the barrels appear to have been professionally period shortened. "W. Moore & Co." are marked on the sideplates and "Laminated Steel" on the barrel rib. (1X8A9339-13) {C&R} (200/400) Est. 200 - 400</p>	2660	<p>U.S. Model 1836 Percussion-Converted Pistol by Johnson .54 cal, 8 1/2" barrel with an oxidized bore. The metal surfaces of this pistol have mostly toned to a gunmetal gray patina showing some scattered light oxidation staining along the breech and wood line along with some light to perhaps moderate old pitting scattered about. The breech proofs have softened from percussion cap erosion but the lockplate markings are still quite clear with "U.S. / R. JOHNSON / MIDDN CONN / 1840". The smooth walnut stock remains in good condition showing mostly worn finish, a thin 1" crack below the lockplate, a small crack and light chip near the lock screw, scattered dings and handling marks. The stock still shows two good inspector cartouches on the left flat. The swiveling ramrod assembly is intact, the hammer screw is missing but the lock still seems to function well mechanically. (1X13A9518-3) {ANTIQUE} (300/500) Est. 300 - 500</p>
		2661	<p>Springfield Armory Inc. XDS-45 3.3 Mod 2 Sub-Compact Semi-Auto Pistol serial #HG141928, 45 ACP, 3 3/8" barrel with an excellent bore. The metal surfaces of the slide retain about 99% original black finish and the polymer frame rates excellent. The pistol features single-stack magazine for a thinner profile, three dot sights with fiber optic front, "Grip Zone" texturing on the grip frame, grip safety, loaded chamber indicator, ambidextrous magazine release and an accessory rail on the dust cover to name a few. This pistol includes a factory box that is correctly end labeled and numbered to the gun, a five-round factory magazine with flat floorplate, (3) extended six-round factory magazines with extension sleeve, bore brush, cable lock with a pair of keys, factory nylon carry rug, factory inside-the-waist nylon holster, lubricant sample, spare fiber optic rods, manual and paperwork. This arm is as-new-in-box, dealer stock, factory fired-only, and may have very small rack or handling marks only. (8A9319-859) {MODERN} (400/600) Est. 400 - 600</p>

Lot	Title/Description
2662	Ruger SR40 Semi-Auto Pistol serial #342-91108, 40 S&W, 4" barrel with an excellent bore. The metal surfaces retain about 99% plus original black finish and the polymer frame rates excellent with factory tool mark to remove a sprue gate on the triggerguard. The pistol features adjustable three dot sights, ambidextrous magazine release and ambidextrous frame mounted safeties. The pistol includes a factory hard case that is correctly end labeled and numbered to the gun, a pair of ten-round factory magazines with flat baseplate, magazine loader, fired case, cable lock with a pair of keys, manual and paperwork. This arm is as-new-in-box, dealer stock, factory fired-only, and may have very small rack or handling marks only. (8A9319-500) {MODERN} (400/600) Est. 400 - 600
2663	Ruger SR40C Semi-Auto Pistol serial #345-15576, 40 S&W, 3 1/2" barrel with an excellent bore. The metal surfaces retain about 99% plus original black finish and the polymer frame rates excellent with tool mark to remove a sprue gate on the triggerguard. The pistol features adjustable three dot sights, ambidextrous magazine release and ambidextrous frame mounted safeties. The pistol includes a factory hard case that is correctly end labeled and numbered to the gun, a pair of nine-round factory magazines with finger rest baseplate, a pair of spare flat magazine baseplates, magazine loader, fired case, cable lock with a pair of keys, manual and paperwork. This arm is as-new-in-box, dealer stock, factory fired-only, and may have very small rack or handling marks only. (8A9319-468) {MODERN} (400/600) Est. 400 - 600
2664	Ruger SR9 Semi-Auto Pistol serial #335-95025, 9mm, 4" barrel with an excellent bore. The metal surfaces retain about 99% plus original black finish and the polymer frame rates excellent with factory tool mark to remove a sprue gate on the triggerguard. The pistol features adjustable three dot sights, ambidextrous magazine release and ambidextrous frame mounted safeties. The pistol includes a factory hard case that is correctly end labeled and numbered to the gun, a pair of ten-round factory magazines with flat baseplate, magazine loader, fired case, manual, cable lock with a pair of keys and paperwork. This arm is as-new-in-box, dealer stock, factory fired-only, and may have very small rack or handling marks only. (8A9319-472) {MODERN} (400/600) Est. 400 - 600
2665	Colt New Line 30 Pocket Revolver serial #3239 30 RF, 2 1/4" barrel with a fair-good bore showing small patches of light pitting and good rifling throughout. The metal surfaces of this revolver retain about 90% original nickel finish showing some scattered light flaking to gray-brown patina, light scratches and a few small dings here and there. The etched "COLT NEW 30" panel on the left side is rather soft but intact, the two-line barrel address is crisp and clear and the right side frame is marked "30 CAL" above the loading cutout. The hammer shows strong reapplied fire blue and there is a crack forming at the spur. The smooth rosewood grips are pencil-numbered to the gun and remain in near excellent condition retaining a healthy amount of original varnish showing some scattered light dings and handling marks. All remaining serialized parts are matching and the action seems to function well mechanically with solid timing and lock-up. A nice example of these little Colt revolvers. (1X13A9275-33) {ANTIQUÉ} (200/400) Est. 200 - 400
2666	Colt New Line 22 Pocket Revolver serial #16644 22 RF, 2 1/4" barrel with an about very good bore showing a few small patches of light pitting, bright areas and strong rifling throughout. The metal surfaces of this revolver retain perhaps 90% original nickel finish with most of the loss along the cylinder and barrel flaking to a mild gray-brown patina, some high edge wear along the frame, a couple light dings and scratches. The barrel address and caliber designation on the frame remain quite crisp and clear and the etched "COLT NEW 22" panel on the left side barrel is very nice and clear. The hammer has mostly toned to a silvery gray patina and the sides of the trigger and base pin still retain some faint hints of fire blue. The smooth rosewood grips remain in very good condition showing an area of small dings below the escutcheon on the left panel and along the base of the right but they otherwise retain about 90% original varnish. The right panel is pencil-numbered to another gun and its fit is a little proud of the frame and the left is un-numbered with excellent fit. The barrel and cylinder are matching the frame and the action seems to function well mechanically with solid timing and lock-up. A very good example with a nice bore and strong markings. (1X13A9275-35) {ANTIQUÉ} (200/400) Est. 200 - 400

Lot	Title/Description
2667	BSA Ralock Semi-Auto Rifle serial #S10634, 22 RF Short, 22" barrel with a bright near excellent bore showing a hint of minor frosting and strong rifling throughout. The metal surfaces of this rifle retain perhaps 75% original blue with areas toning to plum-brown patina and most of the loss due to scattered moderate oxidation staining and freckling. This appears to be an early example given its 22 Short chambering and curiously, the factory markings on either side of the frame appear to be hand-engraved and are somewhat light. The plain hardwood stocks remain in good condition showing a thin 1" crack on the underside where the buttstock meets the frame, moderate flaking finish, dings and scuffs. The original sights are intact and the action seems to function well mechanically. A very good example of these mechanically interesting British commercial rifles not often seen in this country, they proved to be very expensive to manufacture and only a few thousand were made. (13A9438-228) {C&R} (300/500) Est. 300 - 500
2668	J. Stevens Model 200 Slide Action Shotgun serial #4682 20 ga, 28" plain barrel choked modified with a bright near excellent bore. The metal surfaces are toning to a blue-gray patina with areas thinning to pewter-gunmetal patina still showing generous amounts of original blue scattered about and some spots of moderate oxidation staining mostly along the left side frame and barrel. There are some scattered light dings here and there and all markings remain crisp. The smooth pistolgrip walnut buttstock and grooved forend remain in about very good condition showing mostly worn finish, a couple small drying cracks at the rear of the forend, scattered light dings and handling marks. The action may require some mechanical attention as one must press the release button on the left side of the frame to open the action even after the trigger is pulled; it otherwise seems to function well mechanically. (13A9438-217) {C&R} (150/250) Est. 150 - 250
2669	Colt Open Top Pocket Revolver serial #16736 22 RF, 2 3/8" barrel with a good bore showing some moderate pitting for the first 1" at the breech and is otherwise bright with strong rifling. The barrel of this revolver is toning to a dark pewter-gunmetal patina showing some scattered remnants of pinprick pitting mostly at the breech, a few tiny dings and generous flakes of original bright blue in the more protected areas. The cylinder has been lightly cleaned to a silvery pewter patina showing some remnants of pinprick pitting and a few minor dings. The high spur hammer, trigger and a couple of the screw heads retain strong bright fire blue and the markings remain crisp and clear. The frame has toned to a lovely ocher patina showing some light handling marks. The smooth walnut grips appear to be un-numbered and remain in very fine condition showing some scattered light dings and good original varnish. The barrel is matching the frame, barrel-to-frame fit shows a hint of minor play and the action seems to function well mechanically with solid timing and lock-up. A solid example of these popular early Colt cartridge revolvers. (13B9566-7) {ANTIQUÉ} (350/550) Est. 350 - 550
2670	American "Chieftain" Single Action Pocket Revolver serial #410 32 RF, 2 1/2" octagon barrel with an oxidized bore showing evident rifling. The metal surfaces of this revolver retain about 85% plus original nickel finish showing some light flaking to silvery gunmetal patina blending in with the nickel, a few spots of light pinprick pitting and handling marks. There are some tool marks along the bottom of the barrel from base pin removal, more moderate along the head of the base pin itself. All markings are clear with "CHIEFTAIN" on the top barrel flat and April 23, 1878 patent date on the left flat. The black checkered hard rubber grips remain in about very good condition, the left panel showing a small crack at the back edge along with some more minor scattered handling marks. The action remains functional with timing and lock-up a little bit loose. A very good example, not often seen with this "CHIEFTAIN" trade name. (13A9566-8) {ANTIQUÉ} (125/200) Est. 125 - 200

Lot	Title/Description
2671	European Copy of a Thuer Deringer serial #10 41 RF, 2 5/8" barrel with an oxidized bore. The metal surfaces have toned to a pewter-gunmetal patina showing some remnants of light pinprick pitting, minor old oxidation staining and a few flakes of original blue in the protected areas. There are a few unobtrusive light dings at the edges of the breech. The pistol also shows some remnants of light foliate embellishments, a soft proof mark and the serial number on the left side frame and some illegible letters along the top of the barrel. The hammer is a quite a bit longer and the frame contours slightly different than the original Colt product the arm is imitating, otherwise similar in operation and features. The smooth rosewood grips remain in very good condition having darkened from the years and showing a couple tiny chips and minor dings. Barrel-to-frame fit is still quite solid and the hammer functions crisply. An interesting example for the antique arms collector. (13A9566-6) {ANTIQUÉ} (250/450) Est. 250 - 450
2672	Smith & Wesson No. 1 Second Issue Revolver serial #68720 22 RF, 3 3/16" ribbed octagon barrel with an oxidized bore showing evident rifling throughout. The barrel, cylinder and ejector spud retain about 90% older reapplied dull blue showing some light pinprick pits beneath the blue scattered about and some spots of minor oxidation staining. The barrel address and cylinder patent date remain partially legible. The frame retains about 95% original silver finish showing some minor thinning to ocher patina along the high edges, a few light dings and areas taking on a pleasant dark tarnish and the hammer has toned to a smoky gray patina. The smooth rosewood grips remain in very fine condition retaining about 85% original varnish with some light flaking and scattered handling marks. The right panel is stamp-numbered to the gun and the remaining parts are matching by assembly number. Barrel-to-frame fit is very good showing a little bit of play, the action will require mechanical attention as the cylinder stop spring and hand spring are either missing or broken, the hammer otherwise functions crisply. (13A9563-4) {ANTIQUÉ} (300/500) Est. 300 - 500
2673	Manhattan 22 Caliber Pocket Revolver serial #381 22 RF, 3 1/8" ribbed octagon barrel with an oxidized bore showing evident rifling throughout. This variation is unmarked beyond the serial number, likely in an effort to avoid detection by Smith & Wesson's lawyers. The metal surfaces have mostly toned to a mottled gray-brown patina showing some scattered pinprick pitting, light dings and freckling. The circular brass sideplate is a nice ocher patina, there are some strong flakes of original bright blue in the protected areas on the underside of the barrel and sides of the barrel are engraved with lovely factory foliate scrollwork with punch-dot shading that remains mostly intact. The smooth walnut grips remain in about very good condition as lightly cleaned long ago showing scattered light dings and handling marks. The barrel and cylinder are matching the frame, barrel-to-frame fit shows some moderate play and the action is generally functional with loose timing and lock-up. A very good example for the antique arms collector. (13A9566-15) {ANTIQUÉ} (250/400) Est. 250 - 400
2674	Marlin O.K. Single Shot Deringer Pistol serial #17059 22 RF, 2 3/4" part round part octagon barrel with an oxidized bore showing faint rifling. The metal surfaces are mostly a pewter-gunmetal patina showing remnants of old pitting scattered throughout. The trigger shows some light tool marks and may be an older replacement. Only a few faint letters of the Marlin address are visible along the right side of the barrel and the "O.K." on the top flat remains intact and legible. The brass frame shows evidence of an old cleaning and is a mottled ocher patina with some scattered light dings and tool marks. The smooth rosewood grips remain in good condition showing worn finish, scattered light dings and handling marks. Barrel lock-up shows some moderate play and the hammer functions crisply. A good example of these early Marlin pistols. (13A9566-19) {ANTIQUÉ} (200/300) Est. 200 - 300
2675	Marlin Vest Pocket Deringer Pistol serial #4976 22 RF, 2 1/16" part round part octagon barrel with an oxidized bore. The barrel shows evidence of an older cleaning and has toned to a silvery gunmetal patina with remnants of fine pinprick pitting and no visible markings. The trigger and hammer are a darker gray patina with light oxidation staining and the frame has mostly toned to a mild ocher patina showing some scattered light dings and generous amounts of silver finish, perhaps 20% remaining. The smooth rosewood grips remain in good condition showing a couple tiny dings and flaking varnish. Barrel lock-up shows some moderate play, the half cock notch is worn and the full cock is functional. A very good example of Marlin's first pistol. (13A9566-20) {ANTIQUÉ} (300/400) Est. 300 - 400

Lot	Title/Description
2676	Stevens Gem Single Shot Pocket Pistol serial #504 22 RF, 3 1/8" part round part octagon barrel with a fair bore showing a few spots of moderate pitting and otherwise good rifling. The barrel, hammer and trigger have toned to a gunmetal gray patina showing scattered smoothed-over light pitting, handling marks and the "GEM" on the top barrel flat remains intact. The frame retains about 92% original nickel finish showing light flaking to ocher patina around the edges, a few light scratches and scattered dings. The smooth rosewood grips remain in about very good condition showing mostly worn finish, a few tiny chips around the edges and other light handling marks. Barrel-to-frame fit shows just a little bit of play and the hammer functions crisply. A very good example of Stevens' only pistol made without a tip-up barrel. (13A9566-17) {ANTIQUÉ} (300/400) Est. 300 - 400
2677	Ethan Allen XL Vest Pocket Pistol serial #1081 22 RF, 2 1/8" barrel with an oxidized bore. The metal surfaces of this pistol have been lightly cleaned to a silvery pewter patina showing some faint remnants of fine pinprick pitting and light handling marks. The "XL VEST POCKET" barrel markings were left unmolested and are quite crisp. The smooth hardwood grips may be older replacements and remain in good condition showing a heavy added brown finish, a few minor thin drying cracks and handling marks. The barrel is matching the frame, barrel-to-frame fit shows a little minor play, half cock notch is somewhat worn and the hammer otherwise functional. (13A9566-24) {ANTIQUÉ} (100/200) Est. 100 - 200
2678	American "Pointer" Single Shot Deringer Pistol 22 RF, 2 3/4" barrel with an oxidized bore. The metal surfaces of this little pistol retain about 95% older reapplied polished nickel finish showing a few errant flakes, scattered fine scratches and handling marks. The "POINTER" marking on the barrel remains mostly legible. The smooth walnut grips remain in very good condition showing some scattered light dings and handling marks. The barrel is matching the frame by assembly code, barrel-to-frame fit shows a little bit of play and the half cock notch is worn although full cock seems to function well. (13A9566-23) {ANTIQUÉ} (100/200) Est. 100 - 200
2679	C. S. Shattuck "Unique" Single Action Pocket Revolver serial #385 32 RF, 2 3/4" octagon barrel with a fair bore showing some moderate oxidation and good rifling throughout. The metal surfaces of this desirable revolver retain about 80% original nickel finish with most of the loss due to flaked areas and spots of moderate pitting mostly along the right side, some scattered smaller flakes, light dings and handling marks. The hammer spur shows a nicely-done period brazed repair, the cylinder arbor shows good remnants of case-hardened colors and all markings remain mostly crisp. The black checkered hard rubber grips with bust of Lincoln on the right panel and Garfield on the left remain in very fine condition showing a few light handling marks, slight warping at the base of the right panel and excellent detail. Barrel lock-up shows just a hint of minor play and the action seems to function well mechanically with solid timing and lock-up. A very good example of these interesting revolvers, sought-after for both their macabre grips and innovative swing-out cylinder assembly. (13B9611-4) {ANTIQUÉ} (350/550) Est. 350 - 550
2680	Custom Ruger Model 44 Semi-Auto Carbine serial #84754 44 Mag, 18 1/2" barrel with a bright excellent bore. The barrel retains 99% original blue with a few light handling marks while the receiver has been heat treated to display a rainbow-like appearance with perhaps a faint handling mark or two. The carbine buttplate and barrel band have been anodized a matte peachy-gold color while the triggerguard retains 98% original black anodization with a few light handling marks throughout. The smooth walnut pistolgrip stock features a custom-shaped grip and rates excellent; The barrel retains the original blade front sight, the rear sight has been removed and sight blocks and 1" steel scope rings have been added behind the rear dovetail and to the top of the drilled and tapped receiver. The carbine is equipped with quick-detach sling swivels and the action appears to function well mechanically. (23A9531-6) {MODERN} (400/600) Est. 400 - 600

Lot	Title/Description
2681	Mossberg Model 44 US Bolt Action Rifle with US Property Markings serial #163159 22 LR, 26" heavy barrel with a bright excellent bore. The barreled action retains 99% original blue with a few light handling marks and a couple specks of light oxidation, the in-the-white bolt remains mostly bright with some very light oxidation staining on the handle and knob and both the barrel and receiver are marked "U.S. PROPERTY". The smooth hardwood pistolgrip stock rates excellent while the grooved steel buttplate remains in very good plus condition with very light edge wear and some small spots of light oxidation. The original sights and sling swivels remain intact and one original 7-round magazine is included. Used for target training by all branches of the U.S. military during WWII, this rifle remains in excellent condition. (23B9544-74) {C&R} (250/350) Est. 250 - 350
2682	Mossberg Model 144 LSB Bolt Action Rifle serial #1305229 22 LR, 25 3/4" heavy barrel with a bright excellent bore. The barreled action retains 97% original blue with a few light handling marks and scattered small spots of light oxidation while the barrel band and floorplate are toning to a blue-brown patina and the barrel is marked "AC-KRO-GRUV". The smooth walnut pistolgrip stock with right-handed cheekpiece rates very good plus to near excellent with a few light handling marks and the green plastic "Safe" knob is missing from behind the receiver. The bolt and rear sight are no longer present but the globe front sight, slings swivels and hand stop remain intact and one original 5-round magazine is included. (23A9544-21) {MODERN} (75/150) Est. 75 - 150
2683	Mossberg Model 44 US(a) Bolt Action Rifle 22 LR, 26" heavy barrel with a bright excellent bore. The barrel action retains 90% added streaky black enamel finish with scattered small spots of light oxidation beneath the finish and numerous scattered light scratches and handling marks overall. The body of the in-the-white bolt remains mostly bright while the handle and knob show some light oxidation staining. The smooth hardwood pistolgrip stock rates excellent as perhaps lightly cleaned with a few scattered light handling marks while the ribbed steel buttplate is proud of the wood at the heel and displays some light spots of oxidation. The original sights remain intact with some light oxidation on the Microclick rear sight and added blue paint to the rear of the aperture disk, the sling swivels remain intact, one 5-round magazine is included and the action appears to function well mechanically. (23A9544-60) {C&R} (75/150) Est. 75 - 150
2684	Remington Model 513-T Matchmaster Bolt Action Rifle serial #142322 22 LR, 27" barrel with a bright excellent bore. The metal surfaces retain 95% original blue with scattered specks of light oxidation throughout and a few light handling marks while the bolt is toning to a gray patina with some light oxidation staining on the knob. The smooth walnut pistolgrip target-style stock rates very good with a hairline crack behind the action and a few scattered minor handling marks. The rifle is equipped with a Lyman 77R front globe sight and Lyman 60 aperture rear sight, the sling swivels remain intact, one Remington-marked 6-round magazine is included and the action appears to function well mechanically. (23A9544-223) {C&R} (250/350) Est. 250 - 350
2685	Chiappa Model 1861 Springfield Percussion Rifle-Musket .58 cal., 40" barrel with a bright excellent bore and strong rifling. The in-the-white metal surfaces are toning to a pewtery-gray patina with a few minor handling marks and scattered small areas of light oxidation and minor staining overall. Many nice historical details are included such as a lockplate dated "1861" to the rear of the hammer and a Federal Eagle ahead along with "U.S. / SPRINGFIELD" below the bolster, "1861" on the breech of the barrel, "U.S." on the buttplate and "U" on the bands. The smooth walnut straight grip stock rates very good with a tiny crack at the heel by the buttplate and various minor scratches and handling marks overall. The sights and sling swivels remain intact, one steel tulip-head ramrod with swelled shank is included and the action appears to function well mechanically. A very nice Italian-made reproduction Model 1861 that will be perfect for reenacting. (23A9544-311) {ANTIQUE} (400/600) Est. 400 - 600
2686	Pedersoli Reproduction Rolling Block Single Shot Rifle serial #R02986, .45-70, 30" part octagon part round barrel with a bright excellent bore. The barrel of this handsome Italian-manufactured rifle retains 99% original blue with a few scattered small areas of light oxidation while the frame retains 99% original vibrant case-hardened colors and the brass surfaces remain bright with a few small spots of tarnishing on the triggerguard. The smooth walnut straight grip stock and forend rate excellent with perhaps a faint handling mark or two, the original sights remain intact and the upper tang is drilled and tapped for receiver sights. A very attractive modern-production Rolling Block-style rifle in excellent condition. (23A9544-118) {MODERN} (500/700) Est. 500 - 700

Lot	Title/Description
2687	U.S. Model 1879 Trapdoor Carbine by Springfield Armory serial #143858 .45-70, shortened 21" barrel with a mostly bright, very good bore showing areas of minor pitting in the rifling. The metal surfaces are toning to a brown patina with scattered small spots of light oxidation and fine pinprick pitting. The lockplate is properly marked with a Federal Eagle ahead of the hammer and "U.S. / SPRINGFIELD" below the thumbpiece and the barrel is correctly proofed with a "V / P / (eagle head) / P". The smooth black walnut straight grip stock with correct long comb and trap buttplate rates very good as lightly cleaned with a few short hairline cracks around the lockplate and various minor scratches, dents and dings from the years. There is a small sanded area behind the intact sling bar and ring where the inspector's cartouche used to be and the remnants of the circled "P" firing proof are visible behind the triggerguard. The 1873-dated low-arch breech block is slightly loose when closed, the correct "C"-marked Model 1879 rear sight remains intact, the front sight blade is made from a U.S. nickel and the three-position lock and tumbler remain strong and crisp. (23A9534-4) {ANTIQUE} (350/550) Est. 350 - 550
2688	Yugoslavian Model 59/66A1 SKS Semi-Auto Carbine by Kragujevac Arsenal serial #T-673859, 7.62x39mm, 24" barrel with a bright excellent bore. The metal surfaces of this 1983-manufactured carbine retain 97% arsenal blue with some scattered small spots of loss, scattered spots of light oxidation and light handling marks while many of the parts remain coated in protective cosmoline. The smooth birch pistolgrip stock and handguard rate very good plus with some small areas of darker discoloration and perhaps a light rack mark or two and all stampings remain crisp. The importer's mark is on the right side of the barrel and the following parts are serial-matched to the receiver: stock, triggerguard, dust cover, bolt, bolt carrier, gas tube, magazine. The carbine is equipped with flip-up phosphorus night sights that have long since dimmed, a grenade launcher with folding sight, cleaning rod and a folding blade bayonet that locks up tightly in both positions. Included with this excellent condition SKS is a green canvas sling, bore-cleaning rope, cleaning kit, oiler, leather pouch and manual. (23A9608-14) {MODERN} (300/500) Est. 300 - 500
2689	Yugoslavian Model 59/66A1 SKS Semi-Auto Carbine by Kragujevac Arsenal serial #F-134529, 7.62x39mm, 24" barrel with a bright excellent bore. The metal surfaces of this 1969-manufactured carbine retain 99% arsenal blue with some scattered light handling marks while many of the parts remain coated in protective cosmoline. The smooth birch pistolgrip stock and handguard rate very good plus with some light scattered handling marks, the rubber recoil pad is worn around the edges and all stampings remain crisp. The importer's mark is on the right side of the barrel and the following parts are serial-matched to the receiver: stock, triggerguard, dust cover, bolt, bolt carrier, gas tube, magazine. The carbine is equipped with flip-up phosphorus night sights that have long since dimmed, a grenade launcher with folding sight, cleaning rod and a folding blade bayonet that locks up tightly in both positions. Included with this excellent condition SKS is a green canvas sling, bore-cleaning rope, cleaning kit, oiler, leather pouch and manual. (23A9608-12) {C&R} (300/500) Est. 300 - 500
2690	Winchester Model 1897 Slide Action Shotgun serial #348610 16 ga., 28" plain barrel choked modified with a bright excellent bore. The barrel retains 98% original blue with a few faint handling marks and tiny spots of light oxidation on the muzzle while the magazine and action bar show the typical silvering on the wear points and a few areas toning to a blue-brown patina. The frame has also aged to a blue-brown patina with silvering on the high edges, scattered light handling marks toning to brown and a few small spots of oxidation staining. The smooth walnut rounded pistolgrip stock rates very good as cleaned with a period added finish, a short hairline crack behind the triggerguard and a few scattered light handling marks from the years while the Winchester-logoed hard rubber buttplate remains in very good condition with a hairline crack and small chip in the edge of the toe. The grooved forend rates very good plus with a few light handling marks. This takedown Model 1897 is sighted with a brass bead and the action appears to function well mechanically. (23A9618-4) {C&R} (500/700) Est. 500 - 700

Lot	Title/Description	Lot	Title/Description
2691	Winchester Model 1894 Special Order Eastern Carbine serial #247106 30 WCF, 20" barrel with full magazine and a bright excellent bore. The barrel and magazine retain about 90% of what appears to be original thinning blue with perhaps a few small areas of later applied finish, a few scattered areas of light pinprick pitting and oxidation, scattered minor handling marks and a small area on the barrel which is toning to dark gray under direct light. The barrel is stamped "MODEL 94" and all markings remain crisp. The 1904-manufactured frame and lever display a mottled pewtery-brown patina with scattered areas of light oxidation and the expected silvering of the high edges with remnants of original blue in the protected areas. The smooth walnut shotgun style buttstock and forend rate very good plus with a light coat of added finish, some light wear at the heel and a few scattered minor handling marks while the serrated steel buttplate remains in near excellent condition with very light edge wear. The left side of the frame has two added drilled and tapped holes for a receiver sight, a sling swivel has been installed at the toe and on the magazine and the original sights including the front sight hood remain intact. The action of this Special Order Eastern Carbine is smooth and appears to function well mechanically. (23A9607-15) (C&R) (400/600) Est. 400 - 600	2695	Hamilton No. 27 Break Action Boy's Rifle .22 RF, 15" shrouded barrel with a fair moderately oxidized bore. The metal surfaces retain 85% original thinning blue which is lightly flaking on the frame, the triggerguard is toning to a brown patina, and there are light handling marks and scattered small spots of oxidation staining toning to brown overall. The smooth hardwood board-style buttstock and forend rate very good with the scattered light handling marks and signs of honest use to be expected of a boy's rifle. Clearly once the prized possession of Leo Burgess, this name is carved into the end of the buttstock and "LEO / B" appears on the left side of the forend. While the barrel and breech lock up somewhat loosely, the action appears to function well mechanically and the original sights remain intact. A nice example of these hard-used rifles from a bygone era. (23A9565-6) (C&R) (50/100) Est. 50 - 100
2692	Baker Gun Co. Model 1897 Double Hammergun serial #35980 10 ga., 32" laminated steel barrels choked cylinder with good bores showing patches of light pitting throughout. The barrels are toning to a dull gray patina with a few small scattered spots of oxidation staining with the light remnants of the original damascus pattern still visible throughout. The sidelocks and remaining metal surfaces display a silvery case-hardened patina with a few small spots of very fine pinprick pitting and oxidation staining with the triggerguard marked "MODEL 1897" and each side of the frame marked "Baker Gun Co." and light border engraving overall. The checkered walnut rounded pistolgrip stock and serial-matched splinter-style forend with ebony tip rate very good plus with a few scattered light handling marks while the superimposed "BGC" monogrammed hard rubber buttplate rates excellent. The shotgun is equipped with double triggers, the top lever features an ergonomic sweep to the right, the barrels are sighted with a German silver bead, the barrels are on-face and lock up tightly and the action appears to function well mechanically. A handsome example of these American-manufactured shotguns. (23A9618-9) (C&R) (250/450) Est. 250 - 450	2696	Husqvarna Single Shot Rifle serial #35805 22 LR, 24 1/4" octagon barrel with a bright near excellent bore. The metal surfaces retain about 95% original blue with light silvering on the high edges, a few light handling marks and scattered small spots of light oxidation overall. The stainless steel bolt remains mostly bright with some light oxidation staining and is serial-matched to the receiver. The top flat of the barrel is marked "HUSQVARNA VAPENFABRIKS A.B." ahead of the rear sight and distance markings for the elevator are behind. The left flat of the barrel is stamped "AVSETT FOR 22 LONG RIFLE below the rear sight, the left side of the receiver reads "SAKRAT" near the safety lever meaning "safe" and the bottom flat of the barrel is discretely import-marked ahead of the forend. The smooth European hardwood straight grip stock rates very good with a 1 3/4" flexing crack in the left wood line below the receiver and a few scattered minor handling marks from use. This high-quality rifle is equipped with a safety and can be cocked and decocked independently from the bolt. The sling swivels remain intact though the forward swivel has been amateurishly reattached with solder, the original sights remain intact and the action appears to function well mechanically. (23A9534-8) (C&R) (50/150) Est. 50 - 150
2693	Handsome Joseph Lang & Sons Double Hammergun serial #7277 12 ga., 30" laminate steel barrels choked modified and full with bright very good bores showing a few small areas of light pitting in the barrels. The barrels have been cleaned to a shiny brown patina retaining the remnants of the original damascus pattern with a few small areas of light pitting, particularly underneath the forend where they display British view marks and are stamped "NOT FOR BALL" while the rib bears the maker's mark and London address. The frame has aged to a smoky-brown case-hardened patina and features tight foliate scroll engraving overall and traces of original case-hardened colors below the fences. The beautiful checkered walnut straight grip stock rates near excellent as expertly refinished and the checkering professionally restored with a couple very tiny filled repairs at the toe and a few faint handling marks from the years and features an unmarked oval monogram plate and an added Pachmayr Decelerator recoil pad providing a 15 1/4" length of pull. The checkered walnut splinter forend rates very good plus with an unobtrusive thin sliver missing from the right wood line and is serial-matched to the gun. The shotgun is sighted with a brass bead and features lightening cuts on the water tables, the right barrel shows the slightest whisker of light at the breech when closed, lock-up however seems tight. (23A9639-7) (ANTIQUÉ) (500/700) Est. 500 - 700	2697	Marlin Glenfield Model 60 Semi-Auto Rifle serial #26416807 22 LR, 22" Micro-Groove "JM"-marked barrel with an excellent bore. The metal surfaces retain about 97% original blue and black enamel finishes with scattered spots of light oxidation on the right side of the barrel and around the rear sight and a few light handling marks overall. The grooved American hardwood Monte Carlo pistolgrip stock rates very good plus with a few scattered light handling marks and features embossed squirrels on each side of the grip and oak leaves on the forend. Mounted to the grooved receiver in a pair of aluminum rings is a Tasco 4x32 scope with crosshair reticle and bright very good optics in very good condition showing a few light handling marks from use. The action of this classic 22 rifle appears to function well mechanically. (23A9290-28) (MODERN) (75/150) Est. 75 - 150
2694	Unmarked Flintlock Long Fowler .58 cal., 50 1/2" part round part octagon barrel with an oxidized bore. The barrel, side plate and buttplate are toning to a lightly pitted brown patina while the remaining metal surfaces have aged to a pewter hue with light pitting throughout. The brass ferrules, tail pipe and ramrod head display a warm mustard patina. The left quarter flat of the barrel is marked with two British proofs along with "30" and the lockplate is stamped "WARRANTED" behind the cock and "& S / (Indian elephant)" ahead. The elegant and svelte smooth hardwood stock rates good with a filled repair and multiple cracks overall and the stock remains structurally sound. This flintlock is likely a contemporary creation and not meant to be fired as the fit of the pan to the touchhole is imperfect, the half cock notch is worn but the action otherwise functions properly and a wood and metal ramrod is included. This attractive long fowler will make an excellent conversation piece and wall-hanger. (23A9451-34) (ANTIQUÉ) (200/400) Est. 200 - 400	2698	Stoeger Uplander Field Boxlock Double Shotgun serial #360682 20 ga., 26" barrels choked improved cylinder and modified with bright excellent bores. The metal surfaces of this Brazilian-manufactured shotgun retain 99% original blue with a few scattered tiny spots of light oxidation and a faint handling mark or two. The checkered walnut pistolgrip stock and semi-beavertail forend rate very good with few scattered light handling marks. The shotgun features a tang mounted automatic safety, double triggers, barrels with 3" chambers which are sighted with a brass bead and the action appears to function well mechanically. (23A9506-8) (MODERN) (200/300) Est. 200 - 300
		2699	British Percussion Double Shotgun by Cartmell with Purdey Barrels 12 ga., 29 1/2" laminate steel barrels choked modified and improved modified with bright very good plus bores. The barrels display a mottled dull gray patina with scattered spots of light oxidation staining and a few small areas of fining pitting overall and James Purdey's London address is marked on the rib. The remaining metal surfaces have aged to a lightly oxidation-stained pewtery patina with a few small areas of light pitting on the locks with attractive loose foliate scroll engraving overall and are maker-marked "Cartmell"; there is an attractive pineapple finial ahead of the triggerguard. The handsome checkered walnut straight grip stock rates good as lightly cleaned with a touch of period added finish, the checkering has softened, a few short flexing cracks below the locks, a couple small chips around the triggerguard and buttplate and the top of the wrist features an unmarked monogram plate. The shotgun includes a wooden ramrod with brass head, the barrels are sighted with a silver bead and feature platinum blow-out plugs and the action remains strong and crisp. Thomas Cartmell of Doncaster, England was active between 1799-1827. (23A9639-1) (ANTIQUÉ) (500/700) Est. 500 - 700

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2700	Custom Swiss Model 1878/81 Vetterli Bolt Action Rifle serial #164998 41 Swiss RF, shortened 22" barrel with a bright very good bore with scattered areas of light pitting in the strong rifling. The blued surfaces retain about 80% original thinning finish with the bolt sleeve, band and bottom of the receiver toning to blue-brown patina. There is moderate oxidation on the toe and heel of the buttplate and scattered small spots of light oxidation and a few light handling marks overall while the triggerguard has aged to a smoky case-hardened patina and the in-the-white bolt remains mostly bright. The barrel and forend have been shortened leaving the brass magazine tube exposed ahead of the barrel band which is not secured to the stock. The barrel, cartridge lifter, bolt sleeve and buttplate are numbered to the gun while the bolt is numbered to another gun and the other parts feature various Swiss proof marks. The smooth walnut straight grip stock rates near excellent with a few minor signs of service and the shortened forend rates very good with a crack beneath the band in the ramrod channel and some scattered light handling marks. The sling swivels and original Model 1881 rear sight remain intact, the bolt face has not been converted to centerfire, a Lyman blade sight is installed at the muzzle and the action appears to function well mechanically. (23A9627-12) {ANTIQUE} (150/250) Est. 150 - 250
2701	Winchester pre '64 Model 70 Bolt Action Rifle serial #26599 30-06, 24" barrel with a near excellent bore showing a few moderate pits roughly 8" from the breech. The metal surfaces retain perhaps 96-97% original blue with freckling and handling marks. The bolt shows operational wear with the knob toning to pewter and "26599" marked on the underside. The checkered pistolgrip stock is very good with handling marks and a small compass imbedded in the comb. The front sight is a brass bead sans hood, the rear barrel sight is a two-leaf sporting sight. There are four drilled and tapped holes in the receiver with the rear hole looking to be later-added. (22A9560-32) {MODERN} (600/800) Est. 600 - 800
2702	JC Higgins Model 28 Semi-Auto Rifle 22 LR, 24" barrel with an excellent bore. The metal surfaces retain 98% original anodized and blue finish with freckling and handling marks. The smooth walnut buttstock and forend are near very good with handling marks throughout. The front sight is not present, there is a rear sporting sight and a JC Higgins Rifleman 4X scope with crosshair reticle and clear optics is mounted to the receiver. (22A9598-13) {MODERN} (75/150) Est. 75 - 150
2703	Henry Model H001Y Youth Model Lever Action Carbine serial #Y059259H, 22 S,L,LR, 16 1/4" barrel with an excellent bore. The metal surfaces retain about 98% original blue and anodized finishes with scratches on the receiver and some other light handling marks. The smooth walnut buttstock and forend are excellent with a few small blemishes. The rear sight is a flat-top sporting sight, the front is a hooded blade. (22A9598-10) {MODERN} (200/400) Est. 200 - 400
2704	Winchester Model 250 Lever Action Rifle serial #B1212342, 22 S,L,LR, 21 3/4" barrel with a lightly frosted bore. The metal surfaces retain about 95% original anodized and blue finishes with freckling and blemishes throughout. The checkered walnut buttstock and forend are very good with some staining and small blemishes. The front sight is a small bead and the rear sight is a flat top sporting with elevator. (22A9598-18) {MODERN} (50/100) Est. 50 - 100
2705	Mossberg Model 390K Bolt Action Shotgun Shotgun 16 ga, 26" C-Lect choke barrel with an excellent bore. The metal surfaces retain perhaps 98-99% original blue with some scattered freckling and light handling marks. The smooth walnut Monte Carlo-style stock is good to very good, there are remnants of tape and handling marks throughout. The rear sight is part of the receiver and a silver bead sits behind the "CYL / MOD/ FULL" markings on the C-Lect choke. A single magazine is present. (22A9598-12) {MODERN} (50/100) Est. 50 - 100
2706	Savage Model 152 Semi-Auto Rifle 22 LR, 18" barrel with an excellent bore. The metal surfaces are mostly brown and silver with light-to-moderate freckling. The smooth walnut Monte-Carlo-style round-knob pistolgrip stock with folding forend tip and left-side-mounted sling swivels rates good with handling marks and small chips and areas of lost finish. The receiver is grooved for mounts, there is an aperture sight attached to the side of the receiver and the front sight is a pin with protective ears. A single factory magazine is included. (22A9544-276) {C&R} (100/200) Est. 100 - 200

Lot	Title/Description
2707	Savage Arms Model 24 Combination Gun 22LR/410 Bore 24" barrels with excellent bores. The barrels retain perhaps 85-90% original blue with some freckling, thinning and signs of handling. The frame shows perhaps 65-70% original case-hardened color with the balance being lightly-freckled and pewter gray and the triggerguard missing much of its black enamel. The smooth walnut buttstock and forend with Schnabel-style tip are very good, there are filled holes where swivels were previously-mounted and blemishes and handling marks throughout. Gun is sighted with an aperture rear and a small blade front, the rear barrel dovetail is empty. (22A9598-19) {C&R} (100/200) Est. 100 - 200
2708	Geco Carabiner Model 1919 Bolt Action Rifle serial #988C, 22 LR, 19" barrel with a lightly-frosted bore. The metal surfaces retain 97-98% original with crisp markings, the bolt body is bright with moderate freckling on the handle. The smooth round knob pistolgrip beech stock is very good with some staining and handling marks and a mostly sharp cartouche on the right-side. The sights are fixed and the action is a bit stiff on closing, likely just needs a cleaning. (22A9431-1) {C&R} (50/100) Est. 50 - 100
2709	Geco Carabiner Model 1919 Bolt Action Rifle serial #999C, 22 LR, 19" barrel with an oxidized bore. The metal surfaces including the bolt are mostly tones of gunmetal gray with freckling, some oxidation staining and crisp markings. The smooth round knob pistolgrip beech stock is good, there is a section missing at the toe, the coloring is quite dark and there are handling and impact marks throughout, the right-side cartouche is mostly crisp. The sights are fixed and mechanicals seem sound. (22A9431-4) {C&R} (25/50) Est. 25 - 50
2710	Stevens Crackshot No 26 Single Shot Rifle 22 LR, 18" barrel with a lightly frosted bore. The barrel retains perhaps 85-90% original blue with crisp markings while the remaining metal surfaces are a mixture of brown and pewter patinas with freckling throughout. The smooth straight-grip walnut buttstock and forend are very good with the buttstock fit slightly loose and handling marks, stained areas and small chips. The sights are fixed and the action appears to work as it should. (22A9431-3) {C&R} (50/100) Est. 50 - 100
2711	Browning Citori Over Under Shotgun serial #10295PN1B3, 12 ga, 28" ventilated rib invector choked barrels with the bottom bore showing a couple pits mid-length and the top bore showing moderate-to-heavy pits the entire length, more concentrated toward the breech. The metal surfaces retain about 97% original blue with freckling, the frame toning to plum and some splashes of engraving and the trigger retains perhaps 95% gold plate. The checkered walnut pistolgrip buttstock and trap-style forend are very good with some slight impact and handling marks with an area of nice figure around the toe. The mid-rib bead is not present, there are ejectors and the safety is non-automatic. The included Browning choke tubes are skeet and cylinder. (22A9571-22) {MODERN} (600/800) Est. 600 - 800
2712	Ithaca Flues Model Field Grade Boxlock Double Shotgun serial #375833 12 ga, 28" barrels choked modified and improved cylinder. The barrels and lever retain perhaps 92-95% original blue with some thinning around the breeches, freckling, blemishes and some small impact marks in the right barrel. The frame exhibits some nice remnants of color case-hardening with silvering and some light freckling and a hunting dog on point engraved on each side. The checkered walnut capped pistolgrip buttstock and splinter-style forend are near very good with evidence of a light cleaning and small impact and handling marks. The safety is automatic, lock-up is tight and the double triggers work as they should. (22A9515-1) {C&R} (350/550) Est. 350 - 550
2713	Moore's Patent Firearms Co. No. 1 Deringer Pistol serial #3480 41 RF, 2 1/2" barrel with an oxidized bore. The barrel is gunmetal gray with some concentrated freckling, the address and patent markings remain clear and there is an arrow with starburst motif and light scroll on either side of the barrel. The brass frame is an ochre patina and is engraved with checkered panels, floral scroll with punch-dot shading and a knight's helmet just in front of the hammer, the work was well-done and is mostly crisp. There is a bit of play in the barrel with the mechanism still strong. (22A9566-22) {ANTIQUE} (150/250) Est. 150 - 250

Lot	Title/Description
2714	Sharps & Hankins Model 3C Pepperbox Pistol serial #12303 32 RF, 3 1/2" four-barrel cluster with mostly shiny strongly-rifled bores with some spots of moderate oxidation more concentrated in the top barrels. The barrels show streaks of blue in the more protected areas with the outer points toned to pewter with a mostly crisp address. The frame is gunmetal gray with scattered pinpricks, some freckling and a crisp patent marking. The smooth walnut grip panels are very good as lightly refinished with scattered blemishes. The mechanics are strong with only the slightest play in the barrels and the barrel and frame numbers are matching. (22A9566-11) {ANTIQUE} (250/450) Est. 250 - 450
2715	Sharps & Hankins Model 3C Pepperbox Pistol serial #8391 32 RF, 3 1/2" four-barrel cluster with oxidized bores and evident rifling. The metal surfaces retain perhaps 80-85% period-applied nickel with freckling and tarnish more concentrated near the muzzle and on the left-side. The barrel address is legible with faint remnants of the frame patent marking, both barrel and frame are marked "8931". The smooth walnut grip panels are very good. The mechanism is crisp with just a sliver of light visible between the frame and barrels. (22A9566-10) {ANTIQUE} (250/450) Est. 250 - 450
2716	Stevens Gem Pocket Pistol serial #3926 30 RF, 3" half octagon half round barrel with a near excellent bore showing just a couple minor blemishes. The barrel has been cleaned to a gunmetal gray with "GEM" marking still mostly crisp. The brass frame shows remnants of original silver, perhaps 35-40% coverage, there are some tarnished areas and light freckles. The barrel and frame show matching "3926". The smooth rosewood grips are near very good with light handling marks and a coat of added varnish, the interiors are marked "926" in pencil. The mechanical parts function well, these pistols have the interesting distinction of being the only Stevens pistol to not utilize a tip-up barrel. (22A9566-18) {ANTIQUE} (200/400) Est. 200 - 400
2717	Colt Third Model Thuer Deringer serial #10597 41 RF, 2 1/2" barrel with the bore showing small pits and strong rifling throughout. This is an early standard model with high first-type hammer. The metal surfaces retain about 85% original nickel with blemishes and wear around the muzzle and other high points, the "COLT-" barrel address is mostly crisp. The smooth walnut grip panels are very good with fine figure and "10597" on the interior of each panel. The hammer and trigger work as they should with the barrel being somewhat loose and the barrel catch is worn. (22A9566-21) {ANTIQUE} (125/250) Est. 125 - 250
2718	Hopkins & Allen Blue Jacket 1 1/2 Spur Trigger Revolver serial #3103 22 RF, 2 1/2" barrel with a lightly oxidized bore. The metal surfaces retain perhaps 50-60% original nickel, there are areas appearing to have been cleaned to dull silver and handling marks with scattered freckling and tarnish. The multi-color hard rubber grips are very good, they appear to have shrunk slightly over the years and have wonderful brown swirls running through the overall goldenrod color. The cylinder catch is quite worn but the mechanicals are sound and all numbered parts are matching. (22A9566-16) {ANTIQUE} (150/250) Est. 150 - 250
2719	Unmarked European Single Shot Deringer 22 RF, 2 3/4" barrel with an oxidized bore. The metal surfaces are a mixture of pewter and gunmetal gray with pinpricks, light freckling and some flakes of original blue, there is an almost discernable proof mark on the left of the frame. The smooth walnut grips are good with a repair on the left panel and small gaps at the butt. The hammer and trigger are crisp with barrel showing some slight play. (22A9566-5) {ANTIQUE} (125/225) Est. 125 - 225
2720	"You Bet" Spur trigger Revolver serial #33640 22 RF, 2 1/4" barrel with an oxidized bore. The metal surfaces retain about 65-70% original nickel with tarnished areas and scattered freckling, the words "YOU BET" are marked on top of the barrel and "3641" under the cylinder pin. The smooth walnut grip panels are very good with some scattered light handling marks. The hammer-cock is strong with the timing in need of some attention. (22A9566-9) {ANTIQUE} (50/100) Est. 50 - 100

Lot	Title/Description
2721	British Percussion-Converted Musketoon by Tower .76 cal., 32" barrel with an oxidized bore. The metal surfaces have toned to a dark plum-brown patina showing some moderate old pitting around the nipple bolster, scattered lighter pitting and oxidation staining. The left side breech is stamped with visible British proofs, the lockplate is un-dated but clearly marked with a large crown in the center and "TOWER" at the rear. The gun is equipped with brass hardware including noscap, two thimbles and a tailpipe, triggerguard, buttcap and a simple sideplate all toned to a pleasant ocher patina. The smooth straight grip walnut stock remains in about very good condition as perhaps lightly cleaned showing some scattered crazing old varnish, a few small drying cracks, scattered dings and handling marks. The sling swivels are no longer present, a trumpet-shaped ramrod is included and the lock is not functional. (1X139218-190) {ANTIQUE} (300/500) Est. 300 - 500
2722	R.S. Clark Single Shot Percussion Pocket Pistol .42 cal., 4" hook breech octagon Damascus barrel with an oxidized bore. There is light foliate engraving adorning the lock, triggerguard and hammer with sprigs on the pineapple triggerguard finial, barrel and buttcap. The barrel is brown showing light oxidation, handling marks and features a pair of wedding bands on five flats at the breech end and single band on two flats near the nipple on the barrel plug. The breech still retains strong case-hardened colors toning to smoky gray on the top. The hammer, lock plate, tang and triggerguard exhibit strong to robust case-hardened colors with a few oxidation stains, the iron frontstrap is brown as is the ramrod ferrule. The forend escutcheons and noscap have heavily tarnished silver plate but the brass buttcap is mostly goldenrod with the central iron trapdoor toned to pewter. The one-piece checkered walnut stock rates very good to excellent as lightly varnished with handling marks. The hammer spur is broken off, the hammer will not remain at full cock and the barrel ramrod ferrule is missing as is the ramrod. The makers name is engraved on the lock plate and "London" on the top barrel flat. (8A9558-7) {ANTIQUE} [Senator Frederic C. Walcott Collection] (400/600) Est. 400 - 600
2723	Colt Model 1849 Pocket Percussion Revolver serial #200552 .31 cal., 6" octagon barrel with an oxidized and pitted bore. The metal surfaces of this 1862-manufactured revolver have a non-factory blue finish that has worn to a smoky gray patina with the barrel more of a brown and gray mix. There is light high edge wear with old pitting visible under the fading reapplied blue in addition to light handling marks. The brass grip frame assembly has a silver finish that appears to be thin nickel plate with old handling marks visible under the new finish. The smooth one-piece walnut factory grips are numbered to the gun and rate about very good to excellent as lightly refurbished, the grip frame is proud of the wood in most areas in addition to scattered handling marks. All appropriate parts and the grips are numbered to the gun, the base pin is not numbered and appears to be a replacement, one nipple is missing, it still functions mechanically and the barrel features the two-line Hartford, Connecticut, address. (8A9567-4) {ANTIQUE} (300/500) Est. 300 - 500
2724	I.A.G. Model 5 Semi-Auto Pistol serial #145051 32 ACP, 3 3/8" barrel with a slightly frosted bore. This pistol has some mechanical issues but the metal surfaces retain about 95% original blue finish showing light high edge wear, oxidation blemishes and handling marks. The textured synthetic factory grips with IAG logo rate about excellent. The firing pin assembly has been removed but is provided and the manual safety is in need of professional attention. Oddly, there are no Italian proof marks on the pistol. The pistol includes a single magazine. (8A9567-5) {C&R} (25/75) Est. 25 - 75
2725	Remington Model 51 Semi-Auto Pistol serial #PA50385, 380 ACP, 3 1/2" barrel with a lightly oxidized bore. The metal surfaces retain about 97% original fading blue with scattered freckling with handling marks. The magazine release, safety and takedown pin have strong Nitro blue. The checkered hard rubber factory grips with "REMINGTON UMC" logo rate good, showing little wear on the right panel but has an approximately 5/8" chip missing on the bottom rear heel. The top of the slide is stamped with the Remington barrel address. There is no magazine included. (8A9567-6) {C&R} (500/700) Est. 500 - 700

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2726	Smith No. 22 Pocket Revolver serial #4081 22 RF, 2 3/8" barrel with a lightly oxidized and pitted bore. The metal surfaces of this single action spur trigger revolver retain about 95% original nickel plate, most of the plating is clouding in addition to moderate oxidation stains and pitting found mostly on the seven-shot cylinder and handling marks. The hammer has strong case-hardened colors blending to gray on the spur, the base pin and trigger worn to a gray-pewter blend. The smooth walnut factory grips rate about excellent with light handling marks. The revolver still functions mechanically, the topstrap is marked "SMITH'S PATENT / APR 15, 1873, No. 22". (8A9567-11) {ANTIQUÉ} (100/200) Est. 100 - 200
2727	Whitney Arms Monitor Revolver serial #19002 22 RF, 2 1/4" smooth bore round barrel with an excellent bore. The metal surfaces retain about 96% original nickel plate showing scattered light oxidation blemishes, several small moderate scuffs, handling marks and limited pitting. The hammer has strong case-hardened colors with the spur toned to smoky gray. The floral decorated stippled hard rubber factory grips rate fair to good with a few light dings, several chips along the edges of the backstrap and the upper right panel. The grips, barrel and cylinder are numbered to the gun and it still locks up but timing is in need of attention. (8A9567-10) {ANTIQUÉ} (75/175) Est. 75 - 175
2728	Allen & Thurber Bar Hammer Pepperbox Percussion Pistol serial #57 .31 cal., 3 3/4" six-barrel cluster with oxidized and pitted bores. The receiver and nipple shield have factory loose scroll engraving. The metal surfaces have toned to brown with limited pitting and handling marks. The bag shaped smooth walnut grips are numbered to the gun and rate about very good with light to moderate handling marks. The double action only mechanism still works, the screws show slot damage; the ribbed barrels have the Worcester, Massachusetts, barrel address and the left side of the hammer is marked "Allen's Patent". (8A9567-3) {ANTIQUÉ} (300/500) Est. 300 - 500
2729	John Krider Single Shot Pocket Percussion Pistol .46 cal., 2 1/4" part octagon, part round barrel with an oxidized and pitted bore. There is light loose scroll engraving on the lock, tang and barrel plug and triggerguard. The metal surfaces are cleaned to pewter with scattered light stains from oxidation and pitting. The brass triggerguard, sideplate and noseclip have been lightly cleaned to a goldenrod color. The one-piece checkered walnut stock rates about good to very good as lightly refurbished and repaired. The checkering is coarse with broken diamond points, scattered handling marks, clamshell forend tip, several repaired cracks totaling 2" in length on the left side of the forend and a 1 1/2" long one on the right side. There is an expertly replaced chip of wood on the right side of the tang running nearly its length. The little gun functions mechanically but the hammer appears to be a later rudimentary replacement. The right wedge plate is broken on one side, the left wedge plate is proud of the wood, the lock is marked "KRIDER" and the barrel is stamped, but the strike is off-center and wear makes it indistinguishable, but is probably the remnants of "Philadelphia". (8A9567-28) {ANTIQUÉ} (500/700) Est. 500 - 700
2730	Belgian Baby Folding Trigger Double Action Revolver serial #2612 22 RF, 1 1/2" barrel with a lightly oxidized and pitted bore. The metal surfaces retain about 97% original nickel plate showing high edge wear, oxidation blemishes and handling marks. The smooth rosewood factory grips rate excellent. The diminutive six-shooter still functions mechanically although, the trigger sometimes needs assistance resetting. The revolver has an exposed hammer, folding trigger, loading gate and Nagant style swing out ejector. (8A9567-14) {MODERN} (50/100) Est. 50 - 100
2731	Belgian Double Barrel Center Hammer Pistol .36 cal., 2 1/2" barrels with oxidized and pitted bores. The surfaces show evidence of light cleaning, the metal a mix of pewter and brown in addition to oxidation blemishes, pitting and handling marks. The smooth one-piece bag shaped walnut grip rates about very good with handling marks, shrinkage at the juncture of the frame and a small chip on each side and rear of the tang. The pistol features double hammers, double triggers, a sprig of foliate engraving on each side of the frame and Belgian proofs. The left hammer pushes off and is in need of professional attention. (8A9567-9) {ANTIQUÉ} (50/150) Est. 50 - 150

Lot	Title/Description
2732	Whitney Second Model Navy Percussion Revolver serial #15456 .36 cal., 7 3/4" octagon barrel with an oxidized and pitted bore. The metal surfaces of this fourth type revolver are a mix of brown and smoky gray with oxidation blemishes, limited pitting and handling marks. The brass triggerguard is ochre with light scratches. The smooth walnut factory grips rate fair with light handling marks and a series of seven notches cut into the butt of the left panel. Unfortunately, the right panel has a check that runs the length of the panel, the half above the escutcheon has penetrated the depth of the wood but the lower section shows separation on the inside only. The cylinder scene is light but still visible, barrel and loading lever assembly are numbered to the gun and the hand spring is missing or broken. The gun will function mechanically if facing down so the hand will engage the ratchet but fails when pointing up. (8A9567-25) {ANTIQUÉ} (400/600) Est. 400 - 600
2733	Stevens Model 22-410 Combination Gun 22 LR / 410 Bore, 24" over under barrels with bright excellent bores, the shotgun barrel is choked full. The metal surfaces of the barrels have toned to brown with strong blue found in ribs between the barrels. The receiver has strong case-hardened colors visible along the sides but the rest is brown and the enamel on the triggerguard shows moderate edge wear and flaking. The surfaces also have scattered light stains from oxidation and light to moderate handling marks. The smooth walnut pistolgrip buttstock rates about very good as cleaned and re-varnished, the surfaces have scattered scuffs and dents with a small round repair at the bottom of the pistolgrip. The unmarked serrated hard rubber buttplate is slightly proud of the wood and rates about very good. The smooth walnut forend rates very good as lightly cleaned and re-varnished with a 3" long check running through the visible forend screw. The gun has a simple bead on a post for the front sight, "V" notch drift adjustable rear sight, round selector switch on the right side of the receiver and tight barrel-to-frame fit. The gun is well used but appears to have plenty of life left in it. (8A8958-56) {C&R} (75/150) Est. 75 - 150
2734	Winchester Model 37 Single Shot Shotgun 12 ga., 30" barrel with a bright excellent bore choked full. This lovely gun remains in excellent condition with about 99% original blue finish showing a few handling marks. The smooth pistolgrip walnut buttstock rates about excellent with light handling marks. The checkered hard rubber buttplate features a small round Winchester logo and rates about excellent. The smooth round walnut forend rates about very good to excellent with scattered light handling marks. The barrel has crisp markings, the bottom of the receiver is unmarked, it is chambered for 2 3/4" shells, has tight lock up, the lever is right of center and the action crisp. It appears this gun has seen very little use. (8A8958-11) {C&R} (350/550) Est. 350 - 550
2735	Remington Model 521-T "Junior Special" Bolt Action Target Rifle 22 LR, 24 5/8" barrel with an excellent bore. The metal surfaces have toned to a brown patina with handling marks. The smooth one-piece lightly refurbished walnut pistolgrip stock with added light varnish rates about excellent showing light handling wear. The unmarked serrated hard rubber buttplate rates excellent and is slightly proud of the wood in the toe. The rifle features a post front sight with slight impact damage, Lyman #57RS receiver sight with target aperture, rear sporting sight has been removed and filler blank added and sling swivel on the butt. There is a handstop rail on the forend with a sling swivel and rifle includes a single factory ten-round magazine. (8A8958-89) {C&R} (75/150) Est. 75 - 150
2736	Winchester Model 72A Bolt Action Rifle 22 S,L,LR, 25" barrel with an excellent bore. This fine Model 72A features a grooved receiver, chrome plated triggerguard and bolt. The metal surfaces retain about 90% original blue, the barrel is thinning to brown with stains from oxidation, handling marks and edge wear. The chrome plated triggerguard has one very small stained spot from oxidation. The smooth one-piece factory walnut stock rates excellent with very light handling marks overall. The checkered hard rubber factory buttplate features a small round Winchester logo and rates excellent. The rifle features a silver bead front sight, #80 receiver sight with target aperture, and the action is crisp. (8A8958-72) {C&R} (250/450) Est. 250 - 450

Lot	Title/Description
2737	Winchester Model 72 Bolt Action Rifle 22 S,L,LR, 25" barrel with an excellent bore showing a bulge about 12" from the muzzle. The metal surfaces have mostly toned to brown, the forward magazine tube and receiver showing strong original blue with scattered light handling marks. The smooth one-piece factory walnut stock rates very good with scattered light handling marks, a few are moderate. The checkered hard rubber factory buttplate features a small round Winchester logo and rates excellent. The rifle features a silver bead front sight, step adjustable leaf rear sight, and the action is crisp. (8A8958-63) {C&R} (75/150) Est. 75 - 150
2738	Winchester Model 56 Bolt Action Sporter Rifle serial #1248 22 Long R, 22" barrel with an excellent bore showing a pair of bulges, one about 16" from the muzzle, the other about 2". The metal surfaces of this first year production gun (1926) have toned to smoky gray with handling marks. The smooth one-piece factory walnut stock with Schnabel style forend rates very good as sanded with oil finish showing scattered light-to-moderate, old handling marks. The checkered steel factory buttplate is worn to gray with light handling marks. The rifle features a bead front sight and sporting leaf rear. It includes a single five-round unmarked magazine. (8A8958-70) {C&R} (150/350) Est. 150 - 350
2739	Winchester Model 75 Bolt Action Target Rifle serial #41505, 22 Long Rifle, 28" barrel with an excellent bore. The metal surfaces retain about 97% non-factory reapplied blue and original blue (triggerguard) showing edge wear on the triggerguard, handling wear on the bolt knob and other assorted handling marks. The smooth one-piece factory walnut target stock rates excellent as sanded with oil finish applied. The checkered steel factory buttplate is toning to smoky gray with light edge wear. The stock features an equipment rail with sling swivel plus a sling swivel on the butt. The rifle features a set of scope blocks on the barrel, unmarked oval shaped globe sight with single round insert. The barrel address is very strong but the proof marks are soft. It includes a single magazine. (8A8958-92) {C&R} (200/400) Est. 200 - 400
2740	Winchester Model 74 Semi-Auto Rifle serial #399521A, 22 L. Rifle, 22" barrel with an excellent bore. This fine gun retains about 99% factory quality reapplied blue finish with few minor handling marks and scattered remnants of pitting under the finish. The smooth one-piece walnut factory stock rates excellent as lightly sanded and refinished. The checkered steel buttplate rates excellent and is proud of the wood around the comb and toe. The rifle features a bead front sight and step adjustable sporting leaf rear. A great gun for the upstart collector to kick start a Winchester 22 rimfire collection or a great shooter. (8A8958-77) {C&R} (100/200) Est. 100 - 200
2741	Savage Model 23A Sporter Bolt Action Rifle serial #125548 22 LR, 23" barrel with an excellent bore. The metal surfaces have toned to smoky gray with scattered handling marks and a few oxidation blemishes. The smooth one-piece pistolgrip factory replacement stock rates about excellent showing a few handling marks but there are a few drying checks on the right side of the stock below the bolt. The smooth steel buttplate with Savage logo rates about excellent with light wear. The stock and buttplate are numbered alike but not to the gun. The rifle features a brass bead front sight, unmarked receiver sight with small aperture and barrel dovetail for the missing rear sight has a dovetail filler. It includes a single factory marked magazine. (8A8958-79) {C&R} (100/200) Est. 100 - 200
2742	Remington Model 514 Single Shot Bolt Action Rifle 22 LR, 24 3/4" barrel with an excellent bore. The metal surfaces of this 1953-dated rifle retain about 98% original blue with light high edge wear, scratches and oxidation blemishes. The smooth one-piece pistolgrip factory walnut stock rates about excellent showing a few handling marks but there are a few marks in the varnish on the pistolgrip from contact with a chemical. The serrated synthetic buttplate with Remington logo rates excellent. The rifle features a bead front sight and sporting leaf rear sight. (8A9528-5) {C&R} (125/275) Est. 125 - 275

Lot	Title/Description
2743	Remington Nylon 66 Semi-Auto Rifle serial #403219 22 LR, 19 1/2" barrel with an excellent bore. The metal surfaces of this 1967 rifle retain about 98% original blue with limited high edge wear, a few oxidation blemishes and handling marks. The checkered one-piece pistolgrip nylon stock with white diamond inlay on the forend rates excellent with minor handling marks. The gun features the "shark fin" front sight, screw adjustable blade rear sight and thumb tang safety. There is a tool mark on the rear of the trigger and adjoining triggerguard from a drill bit. There is a Weaver V-22A 3-6X16mm scope with duplex reticle, slightly cloudy optics in dovetail mounts. (8A9531-7) {C&R} (250/350) Est. 250 - 350
2744	Ruger .44 Standard Model Semi-Auto Carbine serial #102-78759, 44 Magnum, 18 1/2" barrel with an excellent bore. This 1980-manufactured carbine remains in wonderful condition showing only light use. The metal surfaces retain about 99% original blue and anodized finishes showing a few minor handling marks and operational wear around the carrier release button. The smooth one-piece walnut pistolgrip factory stock rates very good to excellent with scattered light scratches and scuffs. The smooth synthetic buttplate rates excellent. The carbine features brass bead front sight, fold down adjustable rear sight, sling swivel studs on the butt and barrel band and has a scope mounted. The scope is mounted in Kwik-Site see through mounts, the anodizing on the rings toning to plum. The scope is a Weaver K3-E with clear optics and standard crosshairs. (8A9601-7) {MODERN} (500/700) Est. 500 - 700
2745	Essex Gun Works Single Shot Shotgun serial #179593 12 ga., 32" plain barrel choked full with an excellent bore. The Essex name was a trade name for shotguns manufactured for the Belknap Hardware Co. of Louisville, Kentucky, by a variety of makers, this is believed to be H&R. The metal surfaces retain about 90% original blue and nickel plate, the nickel plate receiver has light to moderate freckling along with clouding and handling marks. The barrel has a few oxidation stains, handling marks and a tiny impact mark on the top, forward of the chamber area. The smooth walnut pistolgrip buttstock rates excellent as lightly cleaned and re-varnished, the serrated hard rubber buttplate rates very good with light handling marks. The smooth walnut forend rates very good as lightly refurbished with later added varnish and a small chip missing along the left top edge. The barrel and forend are numbered to the gun, the barrel is on-face, barrel-to-frame lock up is tight and the rebounding hammer still functions. The forend stud is loose on the barrel but still seems to hold the forend tight, the front bead is present and the top lever is centered. The left side of the frame is marked "ESSEX / GUN WORKS" with a large "SX" superimposed over the first markings. (8A9528-7) {C&R} (50/100) Est. 50 - 100
2746	Harrington & Richardson Model 1908 Single Barrel Shotgun serial #A145745, 12 ga., 30" barrel with an oxidized and pitted bore choked improved modified. The metal surfaces have toned to brown with oxidation blemishes and scattered handling marks. The smooth pistolgrip walnut buttstock rates fair to good showing moderate handling wear and flaking finish but there is an approximately 2" long crack on the top of the pistolgrip and second similar sized one on the bottom, both extending from the tangs. The stock is loose due to the cracks. The checkered hard rubber buttplate with H&R logo rates very good to excellent with light wear. The smooth walnut forend rates good to very good with light to moderate handling marks. The barrel and forend are numbered to the gun, the barrel is on-face with tight frame lock-up, this later version has a 2 3/4" chamber, the rebounding hammer still functions, the front bead is present but worn down to a nub and the top lever is centered. (8A9558-26) {C&R} [Senator Frederic C. Walcott Collection] (20/60) Est. 20 - 60
2747	Remington Sportsman Model 48B Semi-Auto Shotgun serial #3829789 20 ga., 25 1/2" ventilated rib barrel with an excellent bore choked cylinder (barrel marked improved cylinder). The metal surfaces retain about 97% original blue, the left front of the receiver thinning to brown with scattered light freckling and handling marks. The checkered walnut factory pistolgrip buttstock rates near excellent with a few handling marks and several areas of flaking finish. The serrated synthetic buttplate with Remington logo banner rates excellent. The diamond checkered pattern forend rates good showing little wear showing an approximately 1 3/4" long repaired crack / chip at the left front with some of the epoxy repair visible but it appears stable. This 1953 date stamped shotgun features a Bradley white front bead and white mid-bead. (8A9468-2) {C&R} [Tom Bubolz Collection] (250/450) Est. 250 - 450

Lot	Title/Description
2748	Ithaca Model 37 Featherlight Defense Slide Action Shotgun serial #371571170 12 ga., 20" plain barrel with an excellent bore choked cylinder. The metal surfaces of this police-style riot shotgun retain about 97-98% original Parkerized finish with scattered light handling and operational marks. The smooth oil finished pistolgrip walnut buttstock rates very good to excellent with a few light handling marks, the checkered synthetic buttplate with Ithaca logo rates excellent. The grooved "corncob" walnut forend rates excellent with a few handling marks. This shotgun features a full-length eight-shot magazine, bead front sight and has no disconnect. A classic police and military shotgun. (8A9528-4) (MODERN) (250/450) Est. 250 - 450
2749	Charles Harvan Castilian Grade Boxlock Double Shotgun serial #1765 12 ga., 28" barrels with excellent bores choked modified and full. The receiver of this Spanish 1968-proof dated shotgun retains about 99% original nickel plate and blue finish (triggerguard and controls), showing scattered light handling marks. The barrels also retain about 99% original blue finish with light handling marks. The checkered walnut buttstock features a rounded semi-pistolgrip and rates about very good to excellent with scattered handling marks, scattered spots of clouding and flaking finish. The wide diamond checkered beavertail walnut forend rates about the same as the buttstock without any visible clouding. Both have light later added varnish. The synthetic basketweave buttplate rates excellent but appears to be a later replacement proud of the wood. The gun features double triggers, extractors, automatic safety, barrels are on-face with tight lock up, top lever is slightly right of center, it features a brass front bead and smaller mid-bead. The barrel and forend are correctly numbered to the gun. (8A9493-7) (C&R) (500/700) Est. 500 - 700
2750	F.I.C. Matador Boxlock Double Ejectorgun by Aguirre Y Aranzabal serial #95393 12 ga., 28" solid rib barrels with excellent bores choked modified and full. The metal surfaces of this Spanish 1957-proof dated shotgun retains about 98% original blue finish with handling marks and light oxidation stains. The checkered walnut pistolgrip buttstock rates near excellent with scattered light handling marks. The wide checkered beavertail walnut forend rates about the same as the buttstock and the synthetic checkered buttplate with AYA logo rates very good with handling wear and a small chip at the toe. The gun features a single selective trigger, ejectors, automatic safety, barrels are on-face with tight lock up, top lever is slight left of center and features a brass front bead. The barrel and forend are correctly numbered to the gun. (8A9617-1) (C&R) (400/600) Est. 400 - 600
2751	Remington Model 742 Woodsmaster Semi-Auto Carbine serial #54532 30-06 Springfield, 18 1/2" barrel with an excellent bore. The metal surfaces of this 1961 date stamped carbine retains about 99% non-factory reapplied blue finish that has lightly toned to plum with a few scattered handling marks. The smooth stock rates excellent as lightly cleaned and refinished with added sling swivel stud. The later added Pachmayr White Line recoil pad rates excellent but is proud of the wood. The serrated walnut factory forend rates excellent as lightly cleaned and refinished. The front and rear factory sights have been removed (not included), the rear sight holes are plugged with filler screws, the front sight hole was also plugged but buffed over to blend with the metal and there is a sling swivel stud mounted on the forend screw. The carbine includes a Redfield Widefield Lo-Pro with clear optics and duplex reticles. The magnification is not marked but appears to be about 4X. It also includes a pair of factory four-round magazines with bolt release. (8A9531-1) (C&R) (150/250) Est. 150 - 250
2752	Remington Model 721 Bolt Action Rifle serial #173184 270 Winchester, 24" barrel with an excellent bore. This 1951 date stamped rifle retains about 99% non-factory reapplied blue finish that is toning to plum on the receiver and shows a few scattered handling marks. The smooth one-piece walnut factory stock rates excellent as lightly cleaned with an added oil finish and features a small brass button compass set into the comb and a sling swivel stud on the toe. The checkered aluminum Remington marked buttplate rates very good with light diamond point wear but is slightly proud of the wood, mostly at the toe and heel. The front sight ramp and bead are present, the rear sight has been removed (not included), the dovetail left unfilled and there are two drilled and tapped holes on the left side of the receiver for a receiver sight. The rifle includes a Redfield Revolution 2-7X33mm with clear optics and duplex reticle. The power adjustment on the scope no longer functions. (8A9531-5) (C&R) (150/250) Est. 150 - 250

Lot	Title/Description
2753	Winchester Model 70 Bolt Action Carbine serial #G1677533, 308 Winchester, 20" barrel with an excellent bore. The metal surfaces of this short action carbine retain about 99% original blue finish with a few minor handling marks. The checkered one-piece factory walnut stock rates excellent and features sling swivel studs. The hard rubber buttpad with Winchester logo rates excellent. The rifle includes a set of Weaver style split scope mounts and 1" rings. (8A9531-3) (MODERN) (450/650) Est. 450 - 650
2754	Winchester Model 94 Flat Band Lever Action Carbine serial #1421312 30 W.C.F., 20" barrel with an excellent bore. The metal surfaces of this 1947-manufactured carbine retain about 65-70% original blue finish, the receiver has moderate to heavy edge wear with the remaining color fading to brownish gray, the barrel and magazine tube show light edge wear with handling marks and otherwise strong original blue. The wood has been lightly sanded and re-varnished, the smooth straight grip buttstock rates good to very good with light to moderate handling marks. The smooth forend rates about very good plus as lightly refurbished with light handling marks. The checkered steel buttplate rates very good with light wear to the diamond points and edge wear. The carbine features a bead front sight with hood, sporting step adjustable rear sight and the action functions mechanically. (8A9528-6) (C&R) (300/500) Est. 300 - 500
2755	Winchester Model 94 Lever Action Carbine serial #1234348 30 W.C.F., 20" barrel with an excellent bore. The metal surfaces of this 1939-manufactured carbine retain about 75-80% original blue showing moderate high edge wear, overall thinning finish, light to moderate handling marks and heavy slot damage to the right-side carrier screw. The wood has been lightly sanded and re-varnished, the smooth straight grip buttstock rates about excellent with old and new light handling marks visible. The smooth forend was refurbished like the buttstock and rates excellent showing old and new light handling marks. The serrated steel buttplate rates very good, the serrations show light wear with all finish gone except in the grooves. The carbine features a bead front sight with no hood, sporting step adjustable rear sight and the action functions mechanically. The hammer spur has been rounded and two crude serrations cut into the tooled area. (8A9607-10) (C&R) (300/500) Est. 300 - 500
2756	Winchester Model 94 Lever Action Rifle serial #944634 30 W.C.F., 26" barrel showing slight frosting but two bulges, one near the muzzle and the other near center. The barrel and magazine of this 1924-manufactured rifle show strong original blue with light edge wear and handling marks and the receiver assembly is mostly pewter with brown overtones and handling marks for an overall rating of about 65-70%. The smooth straight grip factory walnut buttstock rates about excellent as lightly sanded and varnished showing remnants of old handling marks. The forend received the same refurbishing and rates the same. The crescent shaped steel buttplate is pewter with light freckling and shows light handling marks. The rifle features a post front sight, sporting step adjustable rear sight and the action functions mechanically. (8A9607-11) (C&R) (600/800) Est. 600 - 800
2757	George Hutchison Halfstock Percussion Sporting Rifle .32 cal., 36" octagon barrel with an oxidized and pitted bore. The metal surfaces of the lock and barrel have been cleaned to pewter, the edges of the flats slightly rounded, with scattered staining from oxidation, light to moderate pitting and handling marks. The brass triggerguard with finger hook is ochre with handling marks, the front bow fractured and shows a light soldered repair that has failed. The one-piece straight grip walnut stock with cheek rest shows light cleaning with added varnish and has light to moderate handling marks, a later added pin through the stock into the barrel lug with chipping around the holes from inserting the new pin. The brass crescent shaped buttplate rates very good with light tarnish and handling marks. The half-cock notch no longer functions but the single acting set triggers function. "GEO HUTCHISON" is marked on the lock, barrel and the muzzle, although the "GEO" on the muzzle is not legible. The rifle features double ramrod thimbles, pewter noscap on the forend that shows casting flaws and tool marks, brass front sight and full buckhorn rear sight. It includes a single ramrod with brass tip on one end the wood showing varying wear along its length. (8A9540-11) (ANTIQU) (400/600) Est. 400 - 600

Lot	Title/Description
2758	Stevens Model 53-B Bolt Action Single Shot Rifle 22 S,L,LR, 24" barrel with an overall bright bore with exception of a ring about 10" from the muzzle. The metal surfaces have toned to brown and gray with scattered light oxidation and some tiny carry marks. The markings remain clear and the underside of the barrel is marked "STEVENS Buckhorn Rifle". The plain pistolgrip blond hardwood stock remains in about very good condition with light dents and handling marks under an added gloss finish. The standard open sights remain in place, the buttplate is no longer present. (59562-5) {C&R} (25/75) Est. 25 - 75
2759	Mossberg New Haven Model 600AT Slide Action Shotgun serial #H185556, 12 ga., 28" ventilated rib C-Lect Choke barrel with a bright excellent bore. The metal surfaces retain 97-98% original blue and anodized finishes with a few specks of very light oxidation and tiny impact marks, loss due to light operational and edge wear. The checkered pistolgrip hardwood buttstock and forearm remain about very good with light handling marks and a thin 3" hairline crack in the front left side of the forearm. The buttstock is equipped with a partially fitted Kassnar ventilated rubber recoil pad and spacer providing a 14 7/8" length of pull. (59594-7) {MODERN} (100/200) Est. 100 - 200
2760	Cooney Model 60 Bolt Action Rifle 22 S,L,LR, 24" barrel with an excellent bore. The metal surfaces retain 98-99% applied matte blue finish over scattered remnants of fine oxidation; the left side of the action has four drilled and tapped holes from prior scope installation. The plain pistolgrip walnut stock remains very good with light handling marks in an applied high gloss finish and is a bit shy of the steel shotgun style buttplate. The original sights remain intact. (59594-5) {C&R} (50/100) Est. 50 - 100
2761	Sears Model No. 101.510670 Single Barrel Shotgun serial #D543038, 20 ga, 28" plain barrel choked modified with an excellent bore. The metal surfaces retain 98% plus original blue with a couple tiny impact marks and some very thin edge wear. The press checkered pistolgrip hardwood buttstock and finger groove forend remain excellent with a few light handling marks. The buttstock has been fitted with an oversized Gun Pads ventilated rubber recoil pad with black spacer and white liner providing a 15" length of pull. The barrel release lever thumb piece is missing. (59594-8) {C&R} (50/100) Est. 50 - 100
2762	Savage Springfield Model 187S Semi-Auto Rifle serial #A578431, 22 LR, 20" barrel with a bright excellent bore. The metal surfaces retain about 95% thinning original blue with a few spots of light oxidation. The plain pistolgrip blonde hardwood stock remains in good to very good condition with a large spot of flaking on the right side of the buttstock along with other light handling marks and spots of flaking. The original sights are present and mounted atop the grooved receiver is a Springfield 4X scope with crosshair reticle in a wraparound mount. (59594-9) {MODERN} (50/100) Est. 50 - 100
2763	Winchester Model 12 Slide Action Shotgun serial #108 20 ga., 26" plain barrel choked a loose full with a bright excellent bore. The barrel and magazine retain about 85% original blue, majority of loss due to operational wear on the magazine tube and takedown marks on the barrel in front of the magazine cap; the receiver extension is toning to a pale brown patina with light wear along the edges still retaining about 40% original blue. The receiver retains about 80% original blue flaking to brown with light wear along the edges and a small area of takedown wear along the left front edge. The shallow pistolgrip walnut buttstock remains in very good condition with scattered light handling marks and a 3/4" shallow dent in the left side of the wrist while the grooved foreman remains near excellent with only a few minor handling marks. The original checkered hard rubber buttplate remains excellent showing minimal wear. A solid first year of production Model 12 shotgun. (59563-21) {C&R} (500/700) Est. 500 - 700
2764	Harrington & Richardson Model 1908 Single Barrel Shotgun serial #95981 16 ga., 28" plain barrel choked modified with a good bore showing scattered light oxidation and a few spots of pitting primarily toward the breech. The metal surfaces are a mottled brown and gray patina with scattered light oxidation, more modest the first 10" from the muzzle. The pistolgrip buttstock remains in poor condition becoming loose with cracks through the wrist secured by old cloth tape while the forend remains fair with a large chip in the front right edge and thin cracks at the left rear edge. (59562-3) {C&R} (25/50) Est. 25 - 50

Lot	Title/Description
2765	Ithaca Model 37 Featherlight D.S. Police Special Slide Action Shotgun serial #915347 12 ga., 20" smoothbore Deerslayer barrel now measuring modified with a bright excellent bore. The metal surfaces retain about 98% original blue with a couple tiny nicks on the barrel, a few spots of oxidation on the magazine tube and minor operational wear on the slide arm. The right side of the barrel is marked "D.S. POLICE SPECIAL". The smooth pistolgrip walnut buttstock and grooved forearm remain in excellent condition with a couple minor marks and blemishes. The original sights are in place, a nice 1965-manufactured Ithaca D.S. Police Special. (59594-2) {C&R} (175/275) Est. 175 - 275
2766	LeFever Arms DS Grade Sidelock Double Shotgun serial #60960 12 ga., 28" barrels choked tight and loose improved modified, with bright very good plus bores showing remnants of light frosting and perhaps some very light oxidation. The barrels are an overall dark brown with scattered fine oxidation and a few spots of pinprick pitting. The frame and lockplates are a dull case-hardened brown and gray patina also with fine oxidation congregating more along the edges. The checkered round pistolgrip walnut buttstock and splinter forend remain in about very good condition with worn checkering and handling marks one would expect from a field-used arm, but has no cracks and appears sound. The length of pull to the hard rubber buttplate is 13 7/8" with drops of 1 7/8" and 3 1/4". The gun locks up tightly, is on face and the top lever is right of center, the extractor is loose and no longer functions but is included. (59562-6) {C&R} (350/550) Est. 350 - 550
2767	Kel-Tech Sub 2000 Semi-Auto Carbine serial #13241 40 S&W, 16" barrel with a bright excellent bore. The metal surfaces retain 99% original blue and the black polymer frame and stocks remain in excellent condition. Included with carbine is an original factory cardboard box, (1) 10 rd. Glock magazine and manual. (59574-137) {MODERN} [James Traynor Collection] (200/400) Est. 200 - 400
2768	Lyman Model 1868 New Model Army Percussion Revolver serial #38715 .44 cal., 7 3/4" octagon barrel with a bright excellent bore. The metal surfaces retain 98% original blue with a light turn ring on the cylinder. The hammer retains 99% original case colors and the brass triggerguard has an other patina. The smooth hardwood grips remain in excellent condition retaining all their original finish. Included is an original factory cardboard box, combination tool and instruction sheet. (59574-127) {ANTIQUE} (175/275) Est. 175 - 275
2769	Bacon Manufacturing Co. Pocket Model Percussion Revolver serial #583 31 cal., 4" round barrel with a good bore showing some scattered oxidation and pitting with good rifling throughout. The metal surfaces of this revolver are a medium brown-gray patina showing some scattered fine oxidation and tiny impact marks primarily in the hinge pin area. The smooth walnut grips are unnumbered and remain very good with light handling marks and spots of flaking original finish. All numbers are matching including the wedge. The cylinder does not advance properly, the grip screw is stripped but present and the wedge screw is no longer present. (59563-3) {ANTIQUE} (300/500) Est. 300 - 500
2770	Unmarked Percussion Screw Barrel Muff pistol serial #476 30 cal., 3" barrel with an oxidized bore. The metal surfaces of this pistol have toned to a medium brown patina with gray undertones and some scattered light impact marks. The only visible marking is a small 476 on the left center of the frame. The bag shaped walnut grips remain very good with light handling marks. (59563-2) {ANTIQUE} (100/200) Est. 100 - 200
2771	Stevens Diamond No. 43 Second Issue Tip-Up Pistol serial #37020 22 RF, 6" part octagon part round barrel with an oxidized and pitted bore. The barrel is a medium gray patina with scattered light oxidation and pitting while the frame retains about 75% original nickel plate flaking to dull brown with scattered fine oxidation and pitting. The smooth walnut grips remain in about very good condition with light handling marks. All numbers are matching including the grips. Pistol is sighted with a globe style front sight, screw adjustable rear peep sight and the hammer will no longer lock back. (59563-12) {C&R} (100/200) Est. 100 - 200

Lot	Title/Description
2772	Smith & Wesson No. 1 Second Issue Revolver serial #106462 22 RF, 3 1/8" ribbed octagon barrel with a very good bore showing scattered light frosting and some oxidation and good rifling throughout. The barrel and cylinder are a medium brown patina with scattered fine oxidation and light wear along the edges and muzzle. The frame retains about 95% thinning tarnished silver pate with specks of light flaking along the front strap, the exposed brass surfaces a bright ocher patina. The hammer retains 90% original case-hardened colors lightly muting to gray with bright contact wear along the right side. The numbers are not fully visible on the barrel and cylinder. The smooth rosewood grips remain in very good plus condition with light handling marks still retaining much original varnish, the right panel stamp numbered to the gun. The barrel-to-frame fit shows some minor play and the action seems to function well mechanically. (59563-8) (ANTIQUÉ) (300/500) Est. 300 - 500
2773	Forehand & Wadsworth Sidehammer Pocket Revolver serial #24761 22 RF, 2 3/8" octagon barrel with an oxidized bore showing evident rifling. The metal surfaces retain about 85% original nickel with light carry marks and staining, majority of loss due to flaking on the left front of frame, top flats and edge of cylinder. The birdshead rosewood grips remain in very good condition with light handling marks, edge wear and are both stamp numbered to the gun. The cylinder is a bit loose but seems to advance properly. (59563-9) (ANTIQUÉ) (150/250) Est. 150 - 250
2774	Otis Smith New Model Pocket Revolver serial #14078 32 RF, 3" ribbed round barrel with an oxidized and pitted bore showing traces of rifling. The metal surfaces of this revolver retain about 80% original nickel finish flaking to brown patina with scattered light dings and scratches, loss primarily on the cylinder, base pin and hammer. The topstrap markings remain crisp and the checkered hard rubber grips remain in very good condition showing minor wear. The action seems to function mechanically. (59563-7) (ANTIQUÉ) (150/250) Est. 150 - 250
2775	Ethan Allen & Co. Sidehammer Pocket Revolver serial #9016 22 RF, 2 3/8" octagon barrel with a dark oxidized and pitted bore. The engraved metal surfaces of this revolver are an overall bright silver patina with scattered fine oxidation and generous traces of original nickel plate. The mother-of-pearl grips remain in about very good condition showing light wear and staining. The sideplate, trigger, cylinder pin and small internal parts are missing. (59563-14) (ANTIQUÉ) (15/30) Est. 15 - 30
2776	Remington Model 12-A Slide Action Rifle serial #363988 22 S,L,LR, 22" round barrel with scattered fine frosting and perhaps some very fine oxidation with strong evident rifling throughout. The barrel and magazine tube retain about 80% original blue toning to brown with scattered light oxidation, tiny impact marks and scratches, majority of loss on the action bar and around the front sight. The action retains about 90% thinning original blue toning to brown with scattered fine oxidation, loss primarily on the bottom metal and wear along the edges. The plain straight grip walnut buttstock and grooved forearm remain in about very good condition with a tiny chip at the toe and scattered light handling marks and flaking on the left side of the buttstock. The checkered Remington UMC logo hard rubber buttplate remains about very good showing light wear and a chip in the toe. Rifle is sighted with a standard front sight and No. 98 1/2 rear sight. A solid early non-model marked Model 12-A rifle. (59596-1) (C&R) (500/700) Est. 500 - 700
2777	Ruger 10/22 Takedown Semi-Auto Rifle serial #0004-43471, 22 LR, 18 1/2" barrel with a bright excellent bore. The stainless steel surfaces remain in excellent condition with a couple scattered light storage marks and the checkered pistolgrip black synthetic stock remains excellent as well. Included with rifle is a factory black nylon carry case, single magazine and manual. (59598-5) (MODERN) (175/275) Est. 175 - 275
2778	Crescent Firearms Co. Victor Single Barrel Shotgun serial #605180 20 ga., 28" plain barrel choked modified with an excellent bore. The barrel retains about 40% original blue with overall light oxidation and fine pitting with a wide section of old dried fabric tape above the forend. The frame is a medium brown-gray case-hardened patina with scattered light oxidation and scratches with generous traces of original colors on the top and rear sides. The plain pistolgrip buttstock remains in fair condition with dried finish, moderate bruises and old repaired cracks in the wrist leaving the stock quite loose. The forend remains fair as well with a lengthy crack along the left side and bottom along with black tape residue matching the barrel. Lockup is a bit loose and the action does not fire properly. (59351-1) (C&R) (25/75) Est. 25 - 75

Lot	Title/Description
2779	Browning Auto-5 Standard Semi-Auto Shotgun serial #137290 12 ga., 29 1/2" plain barrel choked improved modified with a very good bright bore which may clean to excellent. The metal surfaces retain about 80% original blue toning to brown with overall light oxidation with scattered patches of moderate oxidation throughout along with light wear along the muzzle and grasping edges. The checkered round knob pistolgrip buttstock and fingergroove forearm remain good with handling marks, crazing finish and a lengthy crack in the bottom rear edge of the forearm. The hard rubber FN buttplate remains in good condition with worn chipped edges. (59418-1) (C&R) (300/500) Est. 300 - 500
2780	Marlin Model 1873 XX Standard Revolver serial #4602 22 RF, 3" ribbed round barrel with an oxidized bore showing evident rifling. The barrel and cylinder of this revolver have mostly flaked to gunmetal gray patina showing some mild brown freckling and light scratches. The barrel markings still remain quite crisp and clear. The frame retains perhaps 95% original nickel finish showing some faint edge wear, light scratches and a few minor dings. There is a hairline crack below the cylinder stop pin and the hammer shows some strong case-hardened colors throughout. The smooth rosewood grips remain in very good plus condition retaining about 90% original varnish and showing a tiny chip at the top corner of the left panel and some other light handling marks. The right panel is stamp-numbered to the gun and the left is un-numbered. The barrel and cylinder are matching the frame, barrel-to-frame fit shows a little bit of play and the action is generally functional but the hand spring is weak and the cylinder does not rotate reliably. (13A9454-7) (ANTIQUÉ) (100/200) Est. 100 - 200
2781	Winchester Model 12 Slide Action Shotgun serial #1062954 20 ga., 18 1/2" barrel that is marked "MOD." but choked cylinder and has a bright, excellent bore. The metal surfaces retain about 97-98% older reapplied blue that has some areas of light handling wear and scattered light marks and some fine specks of light oxidation throughout. The walnut stocks show evidence of having been lightly cleaned with finish added and have some light dings and other handling marks. The buttstock has a small crack on the underside of the wrist, the metal edges of the receiver are proud of the wood. The buttstock has a 13 3/4" length of pull from the trigger to an added aftermarket vented recoil pad. The shortened barrel has a nicely trimmed muzzle, a silver bead sight has been installed and the action appears to function correctly. (4A9566-1) (MODERN) (200/300) Est. 200 - 300
2782	Winchester Model 69A Bolt Action Rifle 22 S,L,LR, 25" barrel with a bright, excellent bore. The metal surfaces retain about 95% original blue that is lightly toning to brown and has light handling marks and areas of light surface oxidation with some fine pitting along the barrel. The walnut stocks rate near excellent with some light dings and other light handling marks. The wood appears to have been lightly cleaned with finish added, the hard rubber buttplate and a set of sling swivels remain intact. The original sights are also intact and mounted to the left side of the receiver is a Mossberg M4c 4X riflescope. The scope features a crosshair reticle and has very good optics. Included is a single detachable magazine. A very nice example of these classic sporting 22 rifles. (4A9627-15) (C&R) (300/400) Est. 300 - 400
2783	Marlin Model 1894 Lever Action Rifle serial #118507 32 W. (32-20), 24" round barrel with an about very good bore that has some strong rifling with areas of light to minor pitting throughout. The metal surfaces are an overall mottled gray, there are areas of minor to more moderate pitting scattered throughout. The receiver and barrel markings are still mostly all visible, some of the screws have minor slot damage. The dark colored walnut stocks appear to have some added finish and a few light handling marks. The forearm rates good and sits loose in its mount with a thumbprint sized mark and the top edge missing along the right side. The straight grip buttstock has a single groove cut below the lower tang and is missing the buttplate. The metal edges remain proud of the wood. What appear to be the original silver blade front sight and the sporting rear sight remain intact. The action appears to function correctly. Overall this is a good 1895-vintage rifle that could possibly benefit from some light restoration. (4A9607-3) (ANTIQUÉ) (200/400) Est. 200 - 400

Lot	Title/Description
2784	<p>Marlin Model 1892 Takedown Lever Action Rifle serial #80136 32 RF, 24" octagon barrel with a very good bore that has strong rifling and light pitting throughout. The metal surfaces of this first year production rifle are overall mottled brown with areas of gray and some light handling and tool marks throughout. The barrel and receiver markings remain visible, the model and caliber markings are not present. A few of the screws have minor slot damage and there is some very light pitting around the face of the muzzle. The smooth walnut stocks rate very good and have added finish over some light impact marks, small dings and other handling marks throughout. There is a small chip along the right side of the wrist at the base of the receiver and the crescent steel buttplate has some light specks of scattered oxidation. Rifle is equipped with an ivory bead front sight and has a correct sporting rear sight. The action appears to function correctly and the magazine tube remains intact and functional. A solid example of these early rimfire sporting rifles. (4A9607-4) {ANTIQUE} (300/500) Est. 300 - 500</p>
2785	<p>Custom Mauser Magazine Sporting Rifle 8mm Mauser, 23 1/2" stepped military barrel with an excellent bore. The metal surfaces retain about 95-97% added commercial blue that is flaking to brown with areas of light pitting and light handling marks scattered throughout. The military hardwood modified stock rates excellent and has been nicely shaped for sporting use. There are some filled holes and some light dings and other light handling marks throughout. The butt is fitted with a simple steel buttplate that has some light oxidation present. Commercial sling swivels have been installed along the toe line and on the underside of the barrel. A sporting ramp front sight and a two-leaf rear sight have been installed on the barrel and the bolt handle has been turned down. The parts are not matching. Overall this is a very nice looking cigarette Mauser sporting rifle that would likely be a terrific shooter. (4A9558-15) {C&R} [Senator Frederic C. Walcott Collection] (300/500) Est. 300 - 500</p>
2786	<p>Engraved Whitneyville Armory No. 1 Pocket Revolver serial #11951D, 22 RF, 3" octagon barrel with a lightly oxidized bore showing strong rifling. The barrel and base pin of this attractive revolver retain about 95% original nickel finish showing a few scattered light flakes and handling marks. The cylinder retains nearly 90% original nickel finish with overall light flaking and some light oxidation staining while the frame retains about 25-30% original nickel flaking to a pleasant ocher patina. The barrel markings were somewhat poorly-struck and are otherwise mostly legible and the hammer shows strong smoky case-hardened colors. The metal surfaces are embellished with large floral motifs along either side of the frame, lighter geometric embellishments throughout and a starburst behind the hammer along the backstrap; the engraving remains entirely intact and quite crisp. The revolver wears a set of lovely smooth antique ivory grips, they are un-numbered but very likely original and remain in near excellent condition showing a couple tiny age cracks, a few areas slightly shy of the frame and are taking on an attractive mellow patina. The action seems to function well mechanically with solid timing and lock-up. A handsome Whitney revolver. (13B9611-2) {ANTIQUE} (300/500) Est. 300 - 500</p>
2787	<p>Remington Model 700 ADL Synthetic Bolt Action Rifle serial #E6839061, 30-06, 22" barrel with a very good plus bore with scattered light pitting but strong rifling. The rifle retains about 97% original matte black finish with scattered spots of light oxidation. The checkered black synthetic pistolgrip stock is in excellent condition with only a few light handling marks, is fitted with a "Remington" marked rubber buttpad, and a 1/4" gray foam pad has been added to the comb at the raised cheekpiece via adhesive; the foam pad shows a few scattered spots of light wear. The barrel and receiver markings remain crisp. The rifle is sighted with the original open sights, and a Leupold one-piece scope base has been mounted to the receiver. A Redfield Tracker 3-9x40mm scope with clear glass and a duplex reticle is mounted in Leupold rings; the scope is in very good condition with scattered light handling marks. Included with the rifle is a set of quick detach sling swivels. (14A9544-231) {MODERN} (300/500) Est. 300 - 500</p>

Lot	Title/Description
2788	<p>British Single Shot Rook Rifle by H. Holland serial #2222 38 CF, 28" octagon barrel with an oxidized bore showing evident rifling. The metal surfaces of the rifle have a brown patina with scattered spots of light oxidation, scattered traces of original blue, and a few light handling marks; a small 1" section on the left side of the frame has been lightly cleaned to gunmetal gray. The walnut stock and forend are in very good condition as lightly cleaned with a 2" crack next to the upper tang, scattered flattened points of checkering, scattered light handling marks, and the steel buttplate is proud of the stock at the toe; the stock is loosely fit to the tang on the right side, with an about 1/16" gap. The underside of the forend is serialized and matching to the rifle. The barrel address reads "H. HOLLAND. 98 NEW BOND ST, LONDON" and is faded, the underside of the barrel is crisply marked with British proofs and is serialized and matching, the left side of the frame is lightly marked "TRANTER / PATENT / 37574", and the area around two of the pins the right side and one screw on the left are lightly engraved in a floral motif. A few of the screws show light slot damage. The front sight is missing from the rifle, but the rear sight with two flip-up leaves is present. The arm chambers 38 Colt fine and is likely chambered for the similar British 380 Long cartridge. The action appears to function well mechanically, and the barrel locks up tight. (14A9567-33) {ANTIQUE} (600/800) Est. 600 - 800</p>
2789	<p>Parker GH Grade Boxlock Double Shotgun serial #76633 10 ga on No. 3 frame, 32" damascus barrels with good to very good bores with moderate pitting, a few light dings, and a slight bulge in the left barrel at the muzzle. The metal surfaces of the shotgun have an overall dark gray patina with light oxidation, concentrated on the frame, traces of pinprick pitting on the frame, and the barrels show faded damascus pattern. The capped pistolgrip walnut stock is in very good condition as cleaned with a 1" curving crack on the left side of the tang, an about 2" hairline crack on the right side of the wrist meeting the triggerguard, scattered handling marks, and an added finish; the stock wrist shows the softened remains of checkering. A small unmarked shield medallion is inlaid in the stock about 4" from the toe, and the gripcap and hard rubber widow's peak dog head buttplate are marked "PARKER BROS". The frame of the shotgun shows faint remains of engraving, and the triggerguard and forend are serialized and matching to the shotgun. The shotgun locks up tightly but both barrels are off-face, and the shotgun features double triggers, an automatic safety, extractors, 2 7/8" chambers, a 14" length of pull with drops of 1 7/8" and 3 1/4", and is sighted with a silver bead. A robust but weathered arm in a heavy gauge. (14A9312-104) {ANTIQUE} [Dr. Daniel L. Leary, Jr. Collection] (600/800) Est. 600 - 800</p>
2790	<p>Belgian Underlever Double Hammergun serial #5255 16 ga, 30 1/2" damascus barrels choked cylinder with very good bores with scattered light pitting, a few spots of oxidation, and a few light dings. The barrels of the shotgun have a light gray-brown patina with scattered specks of oxidation and showing a striped damascus pattern. The metal surfaces of the frame have a pewter patina with light oxidation staining on the underside and on the hammers, and the triggerguard features a 3" horn extension. The checkered straight grip walnut stock is in very good condition as lightly cleaned with some softened spots of checkering, scattered handling marks, and the widow's peak steel buttplate is slightly proud at the heel and toe. The stock features a left-side cheekpiece. The frame of the shotgun is neatly engraved with a geometric pattern featuring a silver inlaid stag on the triggerguard and a silver inlaid hound on each lock plate, and the hammers, fences, and bottom of the underlever show light foliate scroll engraving. The upper tang is engraved with a flower, the pistils of which are inlaid silver. The shotgun locks up tightly, though the underlever spring is a bit weak, and the barrels appear to be on-face. The shotgun features double triggers, rebounding hammers, sling swivels on the toeline and on the underside of the rib about 9" from the forend, and has a 14" length of pull with drops of 1 7/8" and 2 3/4". (14A9600-3) {ANTIQUE} (300/500) Est. 300 - 500</p>

Lot	Title/Description
2791	Ruger Model 44 Semi-Auto Carbine serial #100-07340, 44 Magnum, 18 1/2" barrel with a bright excellent bore. The metal surfaces of the carbine retain about 95% original blue with scattered light oxidation along the barrel, light wear on the high edges and contact points, and a few light handling marks. The pistolgrip walnut stock is in very good condition with a small 1/2" triangular chip just ahead of the ejection port, a rough vacant screw hole ahead of the barrel band on the forend tip, and scattered light handling marks; the curved aluminum buttplate shows light wear on the heel and at the toe. The Ruger barrel address remains crisp, and the side of the receiver is crisply stamped "RUGER CARBINE / .44 MAGNUM CAL." between the Ruger logo and the serial number. The carbine is sighted with a gold bead front sight and a flip-up rear sight, and the carbine is drilled and tapped twice on the top of the barrel and four times on the top of the receiver; two of the holes have filler screws. A single sling swivel is mounted to the toeline of the stock. A solid carbine that would make a good brush gun. (14A9544-279) {C&R} (500/700) Est. 500 - 700
2792	Ruger Mini-30 Semi-Auto Rifle serial #189-09435, 7.62x39mm, 18 1/2" barrel with a bright excellent bore. The rifle retains about 97% original blue with light wear on the contact points, and specks of oxidation along the barrel and on the triggerguard. The Butler Creek synthetic stock is in very good plus condition with a spot of flattened points of checkering on the forend, some rough adhesive residue on the butt, and a few light handling marks. The serial number and Ruger warning label on the left side of the receiver remain crisp, as does the model and caliber designation on the top of the receiver. The rifle retains the original blade front sight, and the rear sight has been removed and replaced with two sections of 2" rails for optics mounting. Included with the rifle is a single 30-round magazine in very good condition with scattered specks of oxidation, and a brown fabric sling with quick detach sling swivels. (14A9544-222) {MODERN} (500/700) Est. 500 - 700
2793	Ruger Mini-14 Semi-Auto Rifle serial #184-90982, 223 Rem, 21 1/2" barrel with 5 1/2" integral flash hider with bayonet lug and a frosted very good bore with evident rifling. The rifle retains about 92% original blue with light wear on high edges and contact points, light oxidation on the triggerguard and speckled oxidation along the receiver, barrel, and flash hider, and scattered light handling marks. The walnut pistolgrip stock is in very good plus condition with a small ding behind the triggerguard and scattered light handling marks; the handguard is lighter in tone than the stock. The curved plastic buttplate shows light wear on the heel and scattered light dings. The receiver markings remain crisp. An aftermarket "Accu-strut" bolt-on stabilizer has been attached to the rifle below the barrel, with the intent of increasing accuracy. The rifle is sighted with a M14-style protected front sight and an adjustable aperture rear sight. Included with the rifle is a single detachable 5-round magazine with speckled light oxidation. (14A9544-209) {MODERN} (500/700) Est. 500 - 700
2794	Mossberg Model 42M-B Bolt Action Rifle serial #6000 22 S, L, LR, 23" barrel with a bright excellent bore. The metal surfaces of the rifle retain about 80% original blue with light wear on high edges and contact points, light oxidation on the bolt, buttplate, bottom metal, and scattered along the receiver and barrel, and a few light handling marks. The hardwood two-piece Mannlicher stock is in very good condition as cleaned with a 1/2" triangular chip next to the action, scattered handling marks, and the buttplate is proud of the stock along the left side and at the toe. The barrel is marked with the Mossberg barrel address, "UNITED STATES / PROPERTY / SERIAL NO. 6000", and British proofs near the receiver, dated to 1948. The receiver and bolt are also marked with "(crown) / BNP" proofs. The receiver is factory drilled and tapped for an aperture sight, with the holes remaining vacant, and the rifle is sighted with a sporting-style rear sight and a front sight with multiple blade options. The screw on dustcover is absent from the bolt, the screw holes sitting vacant, and the trapdoor in the buttplate is not present. Included with the rifle is a single detachable magazine, which is missing the spring tension screw at the bottom of the magazine; the magazine still appears to function. A very good WWII training rifle that made its way to the UK and back. (14A9544-96) {C&R} (200/300) Est. 200 - 300

Lot	Title/Description
2795	Mossberg Model 640KA Chuckster Bolt Action Rifle 22 Magnum, 24" barrel with a bright excellent bore. The metal surfaces of the rifle retain about 95% original blue with scattered light oxidation along the barrel with light pitting near the muzzle, speckled dots of wood finish along the left side of the receiver, and a few light handling marks. The capped pistolgrip walnut stock is in very good condition with scattered areas of removed finish from light cleaning along the stock and spots of roughly applied finish on the butt, marks in purple ink on the left side of the stock, and scattered light handling marks; the "Mossberg" marked hard rubber buttplate is in very good condition with light wear on the edges. The Mossberg barrel address is finely stamped and remains crisp, and the rifle is otherwise unmarked. The rifle retains the original open sights, and a Mossberg No. M4D 4X scope is mounted to the dovetail cut receiver on rings only marked "L"; the scope has clear glass and a crosshair reticle. Included with the rifle is a single detachable magazine in excellent condition. (14A9544-17) {C&R} (150/250) Est. 150 - 250
2796	Mossberg Model 42 MB(a) Bolt Action Rifle serial #39785 22 S, L, LR, 23" barrel with a bright excellent bore. The metal surfaces of the rifle retain about 95% original blue with light wear on high edges and contact points, freckling and specks of oxidation along the barrel and bottom metal, and light oxidation staining in places where the finish has thinned. The two-piece walnut pistolgrip Mannlicher stock is in near excellent condition as lightly cleaned with a few light handling marks, and the hard rubber buttplate has an about 1" chip at the toe. The lower sling mounting bracket has been removed from the butt, leaving two small holes about 2 1/2" from the toe; the triggerguard is loosely fit to the stock leaving an about 1/8" gap. The barrel and receiver are crisply marked "UNITED STATES / PROPERTY / SERIAL NO. 39785", the Mossberg barrel address is crisp, and the barrel is marked with British proofs on the left side next to the receiver. The original Mossberg receiver mounted aperture sight is present on the rifle, with screw-in aperture, and the front sight base features an added front sight blade permanently attached. The dustcover on the bolt remains intact. Included with the rifle is a single detachable magazine. (14A9544-99) {C&R} (200/400) Est. 200 - 400
2797	Mossberg Model 44 U.S. Bolt Action Rifle serial #126120 22 LR, 26" heavy barrel with a bright excellent bore. The metal surfaces of the rifle retain about 96% original blue with scattered specks of light oxidation, light wear on the steel buttplate, and a few light handling marks. The in-the-white bolt remains mostly bright with the bolt handle showing muted case color and the knob having light oxidation staining. The pistolgrip hardwood stock is in excellent condition as lightly cleaned with a few light handling marks and the buttplate is slightly proud at the heel and toe. The barrel address is softened in spots but still easily legible, and the receiver is marked "U.S. PROPERTY / SERIAL NO. 126120". The rifle is sighted with a blade front sight and a receiver mounted Mossberg Microclick S-100 aperture sight; the screw-in aperture is present. Included with the rifle is a single detachable magazine with scattered light oxidation. (14A9544-94) {C&R} (200/400) Est. 200 - 400
2798	Japanese Type 99 Bolt Action Rifle by Nagoya serial #98635 7.7 Arisaka, 25 1/2" barrel with a bright excellent bore with hints of light frosting. The receiver and barrel of the rifle has toned to gray with the finish thinning, light wear on the high edges and contact points, and a few specks of light oxidation; the receiver shows a light grind mark where the chrysanthemum was removed. The dust cover retains about 99% blue finish with light handling marks. The remaining metal surfaces have a light brown patina with similar thinning and light edge wear. The pistolgrip Asian hardwood stock is in very good condition as light cleaned with moderate dings on the toeline and wrist, and scattered handling marks consistent with field use. A small proof is stamped behind the lower tang, and the stock is otherwise unmarked. With the exception of the removed chrysanthemum, the receiver markings remain crisp, the noscap and bolt are serialized and matching to the rifle, and the rifle appears to be of series 6. A few of the screws show light slot damage. The rifle is sighted with the original rear sight anti-aircraft rear sight assembly, the wings of which are missing, and the rifle is equipped with a monopod rear band, though no monopod is present. The dust cover and cleaning rod appear to be reproductions. The action appears to function well mechanically. A solid example of the primary arm of the Japanese infantry soldier of WWII. (14A9617-3) {C&R} (200/400) Est. 200 - 400

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2799	<p>Japanese Type 38 Bolt Action Rifle by Nagoya serial #37668 6.5 Arisaka, 31" barrel with a very good bore with scattered light pitting but evident rifling. The receiver of the rifle and the base of the barrel retain about 85-90% older arsenal-quality reapplied blue with thinning on the chamber area of the barrel, light wear on the high edges and contact points, and previous light pitting beneath the finish. The remaining metal surfaces and rest of the barrel have a light brown patina with scattered spots of old oxidation, light edge wear, and a few light handling marks; the magazine floorplate had been previously lightly cleaned and shows a lighter brown patina. The Asian hardwood stock is in very good condition as lightly cleaned with the seam between the toe piece and the stock separating, scattered light handling marks consistent with field use, and the buttplate is proud of the stock at the toe; the stock features a tiger strip-style pattern of darker finish along its length. The model designating kanji on the receiver ring remain crisp, and the serial number markings are softened lightly; the rifle appears to be a series 27. The bolt is mismatched to the rifle, but the noscap is serialized and matching to the rifle. The safety does not function and requires mechanical attention, and the bolt has been stripped and is included. The rifle is sighted with the original front sight and aperture rear sight with flip-up ladder, and a cleaning rod is included. (14A9617-4) {C&R} (150/250) Est. 150 - 250</p>
2800	<p>Ithaca Flues Field Grade Boxlock Double Shotgun serial #310814 12 ga, 28" barrels choked improved modified and full with a bright excellent left bore and a near excellent right bore with light frosting and one very light ding. The shotgun barrels retain about 90% of what appears to be original blue finish with thinning along the sides of the barrel, scattered specks of oxidation and light freckling, and light wear at the muzzle. The frame of the shotgun shows muted case colors with scattered spots of oxidation staining and a few small spots of light pitting. The triggerguard shows light wear and the forend metal has a spot of light pitting with oxidation staining. The checkered capped pistolgrip walnut stock and forend are in very good condition as lightly cleaned with a 1/2" repaired chip behind the tang, some light chipping at the edges of the forend, scattered light handling marks, and an added finish. A ventilated recoil pad in very good condition with a peeling outer layer is fitted to the stock, and remains supple. Both sides of the frame are roll engraved with the image of a dog trotting through a field above "ITHACA GUN CO. ITHACA N.Y.", and the barrels are marked "SMOKELESS POWDER STEEL" and "MADE IN U.S.A."; all of which are partially faded. A screw is missing from the triggerguard. The shotgun locks up tightly with the barrels on-face, and the shotgun features double triggers, an automatic safety, extractors, is sighted with a single brass bead, and has a 14 1/2" length of pull with drops of 2" and 3 5/8". (14A9617-2) {C&R} (200/400) Est. 200 - 400</p>
2801	<p>Winchester Model 1894 Saddle Ring Carbine serial #511268 32 Special, 20" barrel with full magazine and a poor bore with remnants of rifling. The metal surfaces of the carbine have faded to gray with generous remnants of blue on the sides of the receiver and in spots along the barrel, light pitting throughout, and spots of light oxidation staining. The hardwood stock and forend are in very good condition as lightly cleaned with an old chip and a few long crack in the wrist, drying cracks on the left side of the buttstock, and three long cracks in the forend tip; the steel buttplate is proud of the stock and the receiver is proud of the forend. The markings on the tang and the barrel address are faded but still legible. The carbine shows brazed repairs to the upper tang and bolt, the magazine tube has a ding just behind the forward barrel band, and the saddle ring is intact. A few screws show light slot damage. The carbine is sighted with a bead-on-blade front sight and a Redfield sporting-style rear sight. (14A9607-19) {C&R} (200/400) Est. 200 - 400</p>

Lot	Title/Description
2802	<p>U.S. Model 1884 Trapdoor Rifle by Springfield Armory serial #310363 45-70 Govt, 32 5/8" barrel with a very good bore with a line of oxidation traveling in a serpentine fashion down the bore, but with strong rifling. The barrel, barrel bands, and noscap have toned to a brown patina with moderate wear at the muzzle, traces of original blue in the protected areas against the forend, and scattered specks of oxidation and light handling marks along its length. The breech and breechblock show muted case-hardened color with light edge wear, light oxidation, and oxidation staining; the interior face of the breechblock shows still vibrant case color. The two-piece triggerguard shows spots of wear in the blue finish on the bottom of the triggerguard and along lower tang, with scattered specks of oxidation; the lockplate shows freckling along the surface. The walnut stock is in very good condition as lightly cleaned with two cracks measuring about 5" and 3/4" on the left side of the stock next to the breech, a light chip against the lockplate, and scattered light handling marks. A boxed "SWP / 1885" inspector's cartouche is stamped on the left side of the wrist, showing light fading but still wholly legible, a circled "P" is stamped behind the lower tang with a small ding obscuring part of the lightly faded proof, and "333" is deeply stamped into the heel of the stock. The lockplate is marked with a crisp Federal Eagle next to "U.S. / SPRINGFIELD", the breech block is marked with a softened "US / MODEL / 1873", and the barrel bears faded "V / P / (eagle head) / P" proofs just ahead of the breech; the heel of the buttplate is crisply marked "US". The rifle is sighted with a blade front sight and correct Buffington rear sight, the leaf of which is slightly bent, and features an iron firing pin and slotted ramrod. The three position lock and tumbler remains crisp and functional. A solid piece of American military history. (14A9534-5) {ANTIQUE} (500/700) Est. 500 - 700</p>
2803	<p>Winchester Model 1906 Slide Action Rifle serial #290084 22 S, L, LR, 20" round barrel with a very good bore with light pitting but evident rifling. The metal surfaces of the rifle retain about 50% original blue with the barrel having toned to gray with blue remaining in the protected areas between the barrel and the magazine tube, a small section of the underside of the receiver cleaned to gunmetal, light high edge wear, and scattered oxidation and oxidation staining throughout. The straight grip gumwood stock and smooth forend are in very good condition with scattered thinning and flaking of the finish and light handling marks concentrated on the buttstock; the "WINCHESTER / TRADE-MARK" stamped hard rubber buttplate is in very good plus condition with a small chip in the toe. The two-line barrel address, "-MOD.1906-" designation, serial numbers, and Winchester trade mark on the upper tang all remain crisp. Both the receiver and barrel are marked with Winchester proofs, both of which remain mostly crisp. The left side of the receiver features a take-down screw, and the rifle is sighted sporting-style open sights. The rifle appears to function well mechanically. A nice 1911-made Model 1906 rifle. (14A9558-25) [Senator Frederic C. Walcott Collection] {C&R} (300/500) Est. 300 - 500</p>
2804	<p>Savage-Springfield Single Barrel Shotgun 16 ga, 28" barrel choked full with a bright excellent bore with a few specks of oxidation at the muzzle. The barrel of the shotgun retains about 85% original blue with light edge wear at the muzzle, moderate oxidation on the underside of the barrel for 4" past the forend tip, and light oxidation staining along the top of the barrel. The case hardened frame shows some muted case color near the top, and the right and underside of the frame has light to moderate oxidation. The checkered pistolgrip cycolac stock and forend are in very good plus condition with scattered light handling marks. The caliber designation on the barrel remains mostly crisp with a few spots of softened characters, the right side of the barrel is crisply marked "SELECTED FORGED STEEL", and the left side of the frame is crisply marked with the Savage address. The shotgun features an ejector, rebounding hammer, and is sighted with a large silver bead. (14A9290-30) {C&R} (100/200) Est. 100 - 200</p>

Lot	Title/Description
2805	Sporterized German Model 71/84 Bolt Action Shotgun serial #5974 16 ga, 27" barrel with a bright very good plus bore with scattered spots of oxidation. The metal surfaces of the shotgun have a light gray-brown patina with generous streaks of thinning reapplied blue on the barrel, scattered spots of old oxidation, light pitting on the receiver and in spots on the barrel, and a few light handling marks. The straight grip hardwood stock is in very good condition as lightly cleaned with scattered light handling marks, remnants of a darker finish around the action, and the widow's peak steel buttplate is proud of the stock at the heel and toe. The stock features a subtle schnabel forend tip and a left side cheekpiece. The receiver and barrel of the shotgun are marked with numerous German proofs, the majority of which remain crisp, the remains of "Amberg" is marked on the barrel, and a circled "16" is lightly marked on the top of the barrel. The left rear of the receiver is marked in German script "IG MOD. 71", and the right side is marked "1883.1883". The bolt and barrel are mismatched to the shotgun. The interior of the receiver shows rough machining marks, and no ejector is present, though the extractor works consistently. Sling swivels have been added to the underside of the barrel and to the toeline of the stock, and the open sights have been removed from the shotgun; a solitary hole where a bead could be fitted lays empty at the muzzle. An interesting conversion of a surplus military rifle. (14A9534-1) {ANTIQUÉ} (100/200) Est. 100 - 200
2806	New York Percussion Buchsflinte Combination Gun by Gilbert & Bales 20 ga x about .42 cal, 30" barrels with oxidized bores. The metal surfaces of the combination gun have a brown patina with scattered light handling marks and a few specks of old oxidation. The brass triggerguard, patch box, and buttplate are lightly tarnished with an ochre patina. The walnut stock is in very good condition as lightly cleaned with a small chip at the toe, two light cracks at the lockplates, scattered light handling marks, and the triggerguard and buttplate are proud of the stock; the stock is fitted with a pewter nose cap. The barrels are lightly marked "GILBERT & BALES" and "PENNYAN N.Y." The fixed rear sight is present, and the front sight is absent. A pin in the right side lockplate has been replaced with a modern screw. The locks remain crisp and appear to function well mechanically. Included with the rifle is a wooden ramrod. (14A9540-4) {ANTIQUÉ} (300/500) Est. 300 - 500
2807	Friedly Damascus Fighter Dennis Friedly of Cody Wyoming has been making custom knives for nearly half a century, this fighter measures 9 1/8" overall with a 4 3/8" double edge damascus steel blade. The blade remains unsharpened retaining all of its attractive star damascus pattern with arched Friedly Knives maker on the obverse ricasso. The hilt is composed of a rich dark desert ironwood handle centered between a rearward facing double guard and domed shaped pommel. The polished 416 stainless steel guard and pommel remain bright and is separated from the handle by black, silver and red spacers. The knife is housed in a basketweave front flap sheath with reverse handle strap. A fabulous custom dagger. (5A9543-272) [Phil Buker Collection] (500/700) Est. 500 - 700
2808	Custom Randall Model 1 All-Purpose Fighting Knife This fighting knife measures 11 3/4" overall and features a 7" stainless blade with a 3" sharpened false edge and a straight-clipped point. The blade remains unsharpened, retaining the original factory hone, and rates excellent with no discernible blemishes. The brass double hilt and brass butt cap exhibit a mellow burnished patina with a few areas on the hilt toned to bright pale yellow where verdigris from leather contact has been gently removed. The handle is white polished stag horn between red, white and blue spacers with finger grooves on the reverse face and a brass oval engraved with initials "R.O.K." inlaid on the obverse. The inlay exhibits a mellow patina matching the other brass surfaces and the rest of the handle is unblemished and in excellent condition. The matching Model A sheath is included, featuring a snap-button whetstone pouch (stone not included), and rates excellent with only minor handling marks. An excellent condition Model 1 variant. (12A9543-279) [Phil Buker Collection] (500/700) Est. 500 - 700
2809	Randall Model 23 Gamemaster This knife measures 9 1/2" overall and features a 4 1/2" single-edged stainless blade with a 2 1/2" false edge, straight-clipped point and a ridged thumb rest at the base of the spine. The blade remains unsharpened, retaining the original factory hone, and rates excellent with only the tiniest of handling marks and specks of gray patina. The brass single hilt shows a few sparse hints of patina and rates about excellent. The Duralumin butt cap shows a few handling marks and there is some light wear on the stacked leather grip; overall the handle is in near excellent condition. The included sheath, featuring a snap-button closing strap and whetstone pouch, is in very fine condition with a few areas of light patina and only minor handling marks. An excellent Randall big game knife. (129543-296) [Phil Buker Collection] (400/600) Est. 400 - 600

Lot	Title/Description
2810	French Model 1822 Light Cavalry Officer's Saber with U.S. Civil War Inscription 42 1/2" overall length, 36" curved single-edged blade with a 6" false edge, wide and narrow unstopped fullers and a trailing point. The faces of the blade are etched with foliate scroll and panoplies of arms; the ricasso is marked with French proofs on the obverse face and the arsenal signature is visible on the spine. The signature is largely faded to illegibility but appears to indicate manufacture at Klingenthal. The reverse side face of the knucklebow bears the engraved inscription "LIEUT. ALEX M. GUTHRIE / from his Chicago Friends Sep. 8 1863 (script)". This French weapon appears to have emigrated to the United States sometime before or during the Civil War, thereafter presented to Lt. Guthrie as a memento, likely by the enlisted men under his command. The blade is in very good plus to excellent condition; the majority of the surface is near mirror-bright, scattered by cloudy areas of dark smoky gray and occasional spots of ruddy ochre staining. Few if any handling marks are present except for a few tiny nicks on the slightly scabbard-dulled but otherwise excellent edge. The hilt is a brass half-basket with cast-in-relief floral designs and a black shagreen grip wound by twisted copper bullion wire. The brass surfaces are tarnished to a mottled greenish-brown tint with occasional areas patinated to a darker tobacco. Traces of original gold wash are visible in the details of the relief. The exposed surfaces of the shagreen are faded to a silvery white and the copper wire is a bit loose but remains whole. Overall the hilt is in very good plus condition with few handling marks. The included scabbard is nicked steel speckled with tiny pinpricks of ochre. Very few handling marks and no dents or dings are present and the scabbard is in quite fine condition. Overall a very fine French sword with some research potential for the Civil War enthusiast. (12C9558-31) [Senator Frederic C. Walcott Collection] (300/500) Est. 300 - 500
2811	U.S. Model 1860 Light Cavalry Saber by Providence Tool Co. 40 1/2" overall length, 34 1/2" curved single-edged blade with partial narrow fullers, wide stopped fullers, a rounded spine and a trailing point. The ricasso is marked "PROV. / TOOL / CO." on the reverse face and "U.S. / 1862" on the obverse. The blade is in near excellent condition, polished to a near-mirror bright with occasional scattered areas of thin smoky gray patina, infrequent handling marks and a few tiny nicks on the unsharpened edge. The hilt consists of a plain brass half-basket with a dark brown leather grip wound by twisted brass wire. The polished brass is pale yellow with a green-gray tint and scattered by flecks of gray and ochre-brown patina; the leather exhibits some light flaking across the surface but little more than superficial wear. Overall the hilt is in very good plus to excellent condition. The included scabbard is steel with a strong mottled pewter patina cleaned to a smooth reflective sheen. No dents, dings or handling marks are discernible and the scabbard rates very fine to near excellent as cleaned. (12A9548-6) (200/400) Est. 200 - 400
2812	U.S. Model 1840 Import Heavy Cavalry Saber by Clemen & Jung 40" overall length, 34 1/2" curved single-edged blade with partial narrow fullers, wide stopped fullers, a thick flat spine and a trailing point. The ricasso is marked "Clemen & Jung / Solingen" on the obverse face. The blade is in excellent condition except a few infrequent tiny handling marks several small nicks at the center of percussion and a tiny (about 1/4") portion of the point which has broken off clean and been resharpened. The hilt consists of a plain brass half-basket and a black leather grip wound by twisted brass wire. The brass surfaces are a strong burnished yellow scattered by dark streaks of gray-brown tarnish; the grip exhibits a few instances of flaking and the wire binding has become partially separated, otherwise the grip exhibits little wear. The hilt exhibits few handling marks and rates very good plus overall. The included scabbard is bright steel scattered throughout by a thin dusky patina of ochre oxidation. Few if any handling marks or dings are present and the scabbard is in very good condition. A fine example of an imported "Old Wristbreaker". (12A9558-32) [Senator Frederic C. Walcott Collection] (300/500) Est. 300 - 500

Lot	Title/Description
2813	<p>Contemporary Unmarked U.S. Model 1840 Heavy Cavalry Saber 38 1/2" overall length, 32 1/2" curved single-edged blade with partial narrow fullers, wide stopped fullers, a thick flat spine and a trailing point. Aside from the lack of markings, the bright blade is largely faithful in detail to historical examples, including a correct distal taper which lends the sword a period-accurate balance and weight. The edge is machined flat along the length and not intended to cut. A few blemishes are present such as a forging crack lengthwise in the first 6" of the obverse bevel, a few light tool marks here or there and a few pinprick remnants of meticulously polished pitting; otherwise the blade is polished near mirror-bright and in fine condition. The plain brass guard is tarnished to a dull tobacco with hints of bright yellow peeking through the patina. The black leather grips exhibit a few instances of flaking and light tarnish on the twisted brass wire wrap. Few if any handling marks are present and the hilt is in about good condition. The included scabbard is steel with a heavy drag and rates good; the body exhibits few handling marks, no discernible dings or indentations and speckled clouds of moderately strong dusky oxidation across the surface. A well-made reproduction which should clean up nicely into a fine accessory for the reenactor. (129558-37) [Senator Frederic C. Walcott Collection] (50/100) Est. 50 - 100</p>
2814	<p>Colombian Military Dress Sword 38" overall length, 32" straight narrow double-edged blade with a diamond cross-section and a spear-point tip. This sword is patterned after the U.S. Model 1860 Staff & Field Officer's sword with Colombian national icons rather than U.S. symbols. Either face of the stainless steel blade is etched with frosted panels depicting intricately detailed panoplies of arms and foliate scroll designs. The blade is scattered by spotted areas of white-gray patina and a few small handling marks. The hilt consists of a brass guard, pommel, backstrap and forearm with mother-of-pearl grips. The brass is cast-in-relief with foliate designs and Colombian symbols such as the national coat-of-arms on the counterguard and pommel and national motto "Libertad y Orden" on the counterguard. Generous amounts of silver wash remain across the surfaces with areas of strong black patina in the recesses. The hilt exhibits no discernible handling marks and is in overall very fine condition. The mounts on the included scabbard are decorated by crisp and detailed foliate relief and the body has acquired a slightly yellow tint; otherwise few handling marks are present and the scabbard rates very good plus to excellent. Really a quite beautiful South American dress sword. (129558-40) [Senator Frederic C. Walcott Collection] (100/200) Est. 100 - 200</p>
2815	<p>Spanish Model 1860 Cavalry Saber This robust 1894-dated saber measures 40" overall and features a 33" curved single-edged blade with an 8 1/2" false edge, wide single stopped fullers and a spear-point tip. The ricasso is marked "ARTILLERIA / FABRICA / DE / TOLEDO / 1894" on the obverse face. The hilt is ambidextrous, featuring a solid sheet steel bowl guard, ribbed wooden grip wound by brass wire, full-length steel backstrap and leather finger loop beneath the guard. The metal surfaces exhibit strong patina and areas of moderate oxidation which has been partially cleaned. The blade bears a patina of dark smoky pewter scattered by areas of dark brown and occasional areas of lightly cleaned shallow pitting concentrated in the upper half. The edges remain relatively sharp, albeit rough, with a few small nicks and a chip on the leading edge. The service-browned hilt exhibits speckled areas of dark ocher around the leather washer and on the inside faces of the guard. Strips of remnant white shagreen wrap can be seen beneath the wire in the recesses of the grip and a chip of wood is missing from the toe but the grip remains tightly fitted with little to no structural wear. Overall the sword is in very good condition. The browned steel scabbard, also marked "Toledo", exhibits varying degrees of speckled oxidation across the surface as well as shallow partially smoothed pitting throughout. Few if any handling marks and no dings or indentations are discernible and the scabbard is in very good condition, weathered yet largely undamaged. (12A9558-36) [Senator Frederic C. Walcott Collection] (150/250) Est. 150 - 250</p>

Lot	Title/Description
2816	<p>Unmarked U.S. Model 1840 Cavalry Saber 38" overall length, 32" curved single-edged blade with a 6 1/2" false edge, single wide stopped fullers and a re-ground spear-point tip. The hilt consists of a brass two-branch half-basket guard, plain brass phrygian pommel and leather-wrapped wood grip wound by twisted brass wire. The blade is moderately cleaned and polished such that no vestiges of markings are visible. The steel is mostly bright with occasional remnant hints of cleaned pinprick pitting and a bit of thin ocher patina at the ricasso. A number of small impact nicks are scattered along the leading edge and a few handling marks are present across the faces. The tip is misaligned and appears to be re-ground, possibly as an attempted field repair. The brass has been similarly cleaned, restoring much of the luster as well as leaving a few handling marks. Scattered spots of tarnish, brownish patina and instances of dark green verdigris remain here and there. The leather of the grip exhibits a bit of cracking and loss at the edges but remains mostly whole; the guard fits a bit loosely due to an area of material loss at the obverse toe of the grip. Overall the sword rates about very good plus as cleaned. The included scabbard is steel in a non-regulation pattern with the throat held in place by a pair of screw studs forward and rear. The surface is spanned by a moderate dusky ocher patina flecked by concentrated spots of textured ocher and remnant specks of black japanning. An indent is present just above the tip on the obverse face which exhibits a few small perforations. Overall the scabbard is in fair to good condition. (12A9558-30) [Senator Frederic C. Walcott Collection] (150/250) Est. 150 - 250</p>
2817	<p>U.S. Eagle's Head Hanger 33" overall, 27" curved blade with wide single unstoppered fullers and a trailing point. The hilt features a brass stirrup guard, vertically grooved bone grip and brass eagle's head pommel. The blade exhibits a smooth pewter patina scattered by clouds of smoky gray, light handling marks and occasional small spots of ocher-brown oxidation. Most of the detail has been polished smooth but remnants of original etched foliate scroll is still visible. The edge is a bit dull and exhibits a few tiny dings but no major blemishes. The brass is toned a lightly burnished mustard brown with a few handling marks. The grip has separated cleanly into two pieces and detached from the tang. As little to no material has been lost and the split is quite thin, the grip should take well to a simple adhesive repair. (12A9558-33) [Senator Frederic C. Walcott Collection] (100/200) Est. 100 - 200</p>
2818	<p>U.S. Militia Officer's Sword by H.Y. Allien & Co. 36 1/2" overall length, 30" narrow straight double-edged blade with a tapered spear-point tip. Either face of the blade is etched with frosted panels depicting foliate sprays and U.S. symbols such as U.S. lettering, panoplies of arms and the Federal Eagle. The maker's mark of H.Y. Allien & Co. of New York is etched on the obverse face of the ricasso. The hilt features a gilt brass cruciform guard and knights head pommel and a grooved white bone grip. The blade is in near excellent condition with only a few tiny handling marks and a bit of thinning of the frosted etching. The brass surfaces of the hilt exhibit spots of dark brown patina, occasional areas of verdigris and generous amounts of original gold wash finish in the protected areas. The grip is a bright clean white with no discernible handling marks. Overall the sword is in very fine to near excellent condition. The scabbard is leather with a brass tip and collar; the leather is lightly scuffed and the brass lightly tarnished, rating fine overall. Altogether a quite pretty U.S. militia sword. (129558-39) [Senator Frederic C. Walcott Collection] (75/150) Est. 75 - 150</p>
2819	<p>U.S. Model 1840 NCO Sword by C. Roby 38 1/2" overall length, 32" straight single-edged blade with single stopped fullers and a spear-point tip. The ricasso is marked "C. Roby / W. Chelmsford MA" on the reverse face and "U.S. / 1862 / FSS" on the obverse. The hilt is brass with fixed shell counterguards, a single knucklebow, globe pommel and gilt brass grip cast with imitation twisted wire. The blade is in excellent condition: a few negligible oil stains are present and the steel is near mirror-bright with very few if any handling marks. The brass surfaces of the hilt are toned to a soft yellow tinted with a light greenish-gray patina and the pommel is a darker mustard brown. Few handling marks are present and the grip is nearly unblemished except a few small spots of verdigris. Overall the hilt rates very fine. The included scabbard is black leather with a brass tip and collar; the brass exhibits a smooth mustard patina and the leather bears light scuffs and areas of fading but remains whole with excellent stitching. Overall the scabbard is in very fine to near excellent condition. A quite fine and attractive example of a Civil War-era NCO's sidearm. (12A9558-38) [Senator Frederic C. Walcott Collection] (200/400) Est. 200 - 400</p>

Lot	Title/Description	Lot	Title/Description
2820	<p>Antique Smallsword & Fencing Foil</p> <p>One decorative smallsword, likely 19th century, and one non-electric sport fencing foil. The smallsword measures 40" overall and features a 30" triangular fluted épée blade tapering to a narrow beak point. The hilt is an intricately detailed assembly of multifaceted cut steel beads and panels. While the delicate hilt is purely decorative, the blade is of the same type used for formal dueling, sharp at the point and fully suited to contests of arms. An attractive fire blue decorated by gilt sprays of foliate scroll extends along the first 8" of the forte; the blue fades into a smoky pewter for the remainder scattered by occasional specks of ocher. A few small handling marks can be felt at the edges and a small section of the tip is lost. The hilt is in about good condition, exhibiting an overall burnished gray tone with areas of subtle dusky brown patina. Several strings of the faceted beads have been lost, as has the capstan screw. The sword rates very good overall with a quite fine blade. The foil measures 43 1/2" overall and bears a 34 3/4" rectangular blade with a flat-ended tip. The blade is marked "FRANCE" on the top and bottom faces and stamped with a logo of "PR" intertwined lettering in starburst. The hilt consists of a steel rectangle guard with a buff leather pad, a French grip bound in twine cord and a weighted brass pommel. The leather pad is marked "Walcott" and was likely used by Senator Walcott himself for sporting purposes. The weapon is in about good condition, exhibiting a thin dark brown patina across the blade, numerous contact marks toning to dark ocher on the guard and an area of fraying cord at the top of the grip which has been repaired by a cloth tape wrap. No major damage is discernible, though the foible of the blade appears somewhat fragile and taking this foil out of retirement would be ill-advised. Overall a very nice pair of curios of interest to the duelist and scholar of swordsmanship. (129558-44,52) [Senator Frederic C. Walcott Collection]</p>	2823	<p>U.S. Starr Contract of 1818 Cavalry Saber</p> <p>37 1/2" overall length, 32 1/4" curved single-edged blade with single unstoppered fullers and a straight-clipped point. The ricasso features the mark "US / P / LS / N. STARR" on the obverse face which remains quite robust. The blade is excellent, cleaned bright and spanned by intermittent areas of speckled smoky gray patina, a small patch of ocher-brown staining over the markings and only a few tiny handling marks here or there. The hilt consists of a flat iron stirrup guard with a reverse-"P" knucklebow, plain iron ferrule, a ribbed walnut grip bound in black leather and a simple rounded bird's head pommel with a full-length backstrap. The metal surfaces are cleaned to a light gray textured by smoothed remnants of stippled pinprick pitting. The leather shows drying cracks throughout and remarkably little loss, remaining mostly whole except where the grip has chipped a bit where it meets the pommel. The hilt remains strongly fitted, well aligned to the blade, and rates very fine overall. The included scabbard is black japanned steel, retaining about 90% lacquer finish with scattered flaking throughout and the exposed steel toned to a cleaned plum. Very few handling marks are present and the scabbard is in very fine to near excellent condition. Overall a very fine and well-kept Federal-era sword. (12A9654-57) (200/400) Est. 200 - 400</p>
2821	<p>Replica Medieval Longsword</p> <p>49 1/2" overall length, 37 1/4" straight broad double-edged blade with shallow partial unstoppered fullers and a spear-point tip. The heavy stainless steel blade is in fine condition with a few light handling marks and scattered areas of finely speckled gray patina here or there. The cruciform hilt is brass with straight plain quillons, a large disc pommel and a grip bound in red leather and twisted brass wire. The brass surfaces are a very fine burnished yellow with just a few tiny handling marks and the grip rates near excellent with only slight signs of handling wear. Overall a very fine blade for the wall to lend a knightly accent to the room. (129614-3) (25/50) Est. 25 - 50</p>	2824	<p>U.S. Starr Contract of 1812-1813 Cavalry Saber</p> <p>38 3/4" overall length, 33 1/2" curved unfullered single-edged blade with an 8 1/2" rudimentary false edge and straight-clipped point. The ricasso is marked "P / HHP" and "N.STARR" on the obverse face. The blade is very good plus, polished bright with scattered clouds of smoky gray patina, light handling marks and hints of oxidation staining at some of the edges. A number of deep impact nicks in the cutting edge suggest that this may be a fought specimen. The surface has been cleaned and grinding marks are spaced intermittently along the length, mostly on the obverse face. The hilt consists of a stirrup guard with a reverse-"P" knucklebow, plain iron ferrule, leather-bound ribbed wooden grip and a round bird's head pommel with a full backstrap. The metal surfaces are a mottled blend of polished black, brown and gray patina with a few handling marks here or there. The leather of the grip is in remarkably excellent condition with only the barest of handling wear and appears to be a later professional-grade replacement. The thick leather washer atop the grip is also noticeably excellent with only light patina and may be a replacement as well. Overall the hilt is in very good plus to fine condition. The scabbard is iron, japanned black, with two suspension rings and rates fine: about 90% lacquer finish remains with areas of intermittent flaking and exposed steel oxidized to dark brown and ochre. (12A9654-56) (200/400) Est. 200 - 400</p>
2822	<p>U.S. Starr Contract of 1818 Cavalry Saber</p> <p>37" overall length, 32" curved single-edged blade with wide single unstoppered fullers and a straight-clipped point. The ricasso is marked "US / LS / P / N. STARR" on the obverse face, the markings remaining quite crisp with a bit of softening at the edges. The blade is excellent, cleaned to an attractive burnished gray with a pleasant smoky gray patina throughout and no discernible handling marks except a few spots of unevenness on the edge. The leather washer atop the guard is not present, though some remnants are visible. The hilt consists of a flat iron stirrup guard with a reverse-"P" knucklebow, plain iron ferrule, a ribbed walnut grip bound in red-tinted black leather and a rounded bird's head pommel with a full-length backstrap. The metal surfaces are service-browned and exhibit remnants of cleaned pinprick texturing and small areas wearing to light gray. The leather exhibits areas of flaking and occasional spots of loss exposing the wood, which itself exhibits a few cracks here or there but remains tightly fitted with no play or looseness whatsoever. The hilt overall rates very fine. The included scabbard is steel with a brass brazing seam, rating very good plus to excellent and retaining an estimated 85% applied black-gray finish scattered by cleaned areas of brown oxidation staining. Overall a very fine and well-kept Federal-era sword. (12A9654-58) (200/400) Est. 200 - 400</p>	2825	<p>U.S. Starr Contract of 1818 Cavalry Saber</p> <p>37 1/2" overall length, 32 1/4" curved single-edged blade with single unstoppered fullers and a straight-clipped point. The ricasso is crisply marked "US / P / LS / N. Starr" on the obverse face. The blade is in fine condition, toned to a dark burnished pewter throughout and scattered by speckled clouds of subtle dark brown patina and retaining a reasonably sharp edge. A number of deep impact nicks are present on the forward edge of the foible concentrated near the center of percussion, suggesting that this may be a fought specimen. The hilt is iron with a stirrup guard, reverse-"P" knucklebow, and contoured bird's head pommel with a full-length backstrap along the ribbed wooden grip. The iron surfaces are in very good condition as cleaned, exhibiting smoothed remnants of shallow pitting, dark gray patina with the edges polished to silvery bright and thin clouds of ocher oxidation scattered across the surfaces. The grip has lost its original leather wrap and exhibits some superficial drying cracks but no loss or looseness. The hilt remains strongly fitted and well aligned to the blade. The included brass-brazed iron scabbard rates about good, retaining traces of original japanned black finish and exhibiting a moderate cloudy ocher patina and cleaned remnants of shallow pitting throughout as well as several scattered indentations. A very good Federal-era sword with some honest wear that remains quite fine as a weapon. (12A9654-55) (200/400) Est. 200 - 400</p>

Lot	Title/Description	Lot	Title/Description
2826	<p>U.S. Starr Contract of 1812-1813 Cavalry Saber 39" overall length, 33 3/4" curved single-edged blade with a straight-clipped point. The ricasso is crisply marked "P / OA [Oliver Allen]/ N. Starr / U.S." on the obverse face. The inspector's mark dates this sword to 1817, the only year during which Oliver Allen inspected swords of this model. The blade is in fine condition, moderately cleaned to an even bright cloudy gray. Tiny remnants of smoothed shallow pitting are sparsely scattered across the surface, as are a number of small sharpening and handling marks. The sharpening marks predate the cleaning and are possibly from the period of use. The original leather washer is present and whole with an expected dark age patina and some drying cracks. The hilt is iron in an applied black finish with a stirrup guard, reverse-"P" knucklebow and contoured bird's head pommel with a full backstrap along the leatherbound ribbed wood grip. The iron surfaces retain about 70% reapplied finish interspersed with areas of slight flaking, ocher patina on the outside of the knucklebow and remnants of cleaned texturing but very few handling marks. The leather exhibits some age drying and patina as well as some surface flaking but remains largely whole. The hilt is strongly fitted and well aligned, rating very good plus to fine overall. The included brass-brazed iron scabbard rates very good plus, showing some handling dings here or there and retaining about 85% reapplied black finish over cleaned texturing and hints of dark ochre-brown patina. A quite nice Federal-era sword that has seen a bit of restorative attention. (12A9654-54) (200/400) Est. 200 - 400</p>	2829	<p>U.S. Eagle's Head Artillery Officer's Sword 34 1/2" overall length, 29 1/2" straight single-edged unfullered blade with a 14" false edge and a spear-point tip. The faces are scratch-engraved with floral sprays and panoplies of arms. No maker's mark is present. A sword matching this pattern is illustrated in American Swords from the Philip Medicus Collection edited by Stuart Mowbray, page 108, item 50c. The sword pictured in that volume is marked as an Ames and according to the text is "an unusual pattern for Ames, which seems to date to 1832-1847". The blade is in fine condition, polished bright and spattered by smoky gray remnants of cleaned shallow pitting mostly in the upper half. The hilt is cast brass featuring an obverse counterguard cast-in-relief with the Federal Eagle, an eagle's head pommel and a ribbed bone grip grooved for a wire binding which is not present. The brass exhibits few blemishes except hints of tarnish inside the counterguard and specks of verdigris in the relief. The grip is toned to pleasant tawny cream and shows no discernible handling marks. Overall the hilt rates excellent. The scabbard is brass with two suspension rings, the surfaces engraved with oak leaf foliate designs. A few handling marks and specks of gray tarnish are scattered across the surface and the chape has been lost, exposing some wood lining at the tip. The blemishes are minor and the scabbard rates fine as a whole. (129654-61) (200/300) Est. 200 - 300</p>
2827	<p>Reproduction Confederate Staff Officer's Sword 36" overall length, 30" straight single-edged blade with single shallow unstoppered fullers, 5 1/2" false edge and a spear-point tip. The ricasso is marked "Fayetteville / Armory" on the obverse face. Either face of the blade is etched with panels depicting reaching foliate designs centered by the letters "C.S.A." in a wreath. The blade is in very good to excellent condition and exhibits a cleaned overall patina of smoky pewter-gray. No handling marks are discernible and the etching is only slightly softened by the cleaning. The guard and pommel are cast brass and the grip is leather wound by twisted brass wire. The guard is cast-in-relief with the Louisiana coat of arms flanked by "CS" lettering on a stippled background and the knucklebow is pierced for a sword knot which is not provided. The brass exhibits a mottled patina of mustard yellow-brown and darker areas of tobacco as well as a smooth ocher area on the pommel. The grip is darkly patinated with just a few spots of minor wear and mostly unblemished. Overall the hilt rates fine. The included scabbard is steel with three brass mounts and rates very good, exhibiting a few tiny handling marks, areas of dark brown oxidation and flecks of smoky gray patina spattered throughout. A serviceable replica with some added character. (12B8937-276) [Cletus Klein Collection] (200/300) Est. 200 - 300</p>	2830	<p>Reproduction Confederate Cavalry Saber 38 1/2" overall length, 33" curved single-edged blade with a 9" false edge, wide single unstoppered fullers and slight trailing point. The ricasso is stamped "CS / 1863". The blade is overall in good condition, antiqued to a gray tone spanned by shallow cleaned pitting and a few impact marks are visible on the forward edge. The brass hilt features a half-basket guard in three branches, plain phrygian pommel with backstrap and black leather grip wound by twisted brass wire. The brass exhibits an even tobacco-colored patina and the leather is antiqued to a slightly rough texture. A few handling marks are present mostly on the backstrap and the hilt is overall in very good condition. The tang sits a bit loosely in the hilt such that the blade drifts slightly to the left. (129599-11) (150/250) Est. 150 - 250</p>
2828	<p>U.S. Model 1860 Cavalry Saber by C. Roby 40 3/4" overall length, 34 3/4" curved single-edged blade with a 6 1/2" false edge, wide stopped and narrow unstoppered fullers and a trailing point. The ricasso is marked "U.S. / 1864 / A.G.M." on the obverse face and stamped with Roby's Chelmsford address on the reverse. The markings are somewhat soft at the edges but remain mostly legible. The blade is in excellent condition, retaining a near-mirror bright surface scattered by occasional clouds of soft smoky gray with slightly stronger concentrations of patina in the first few inches above the hilt. Only a few tiny handling marks are visible on the faces and a number of small impact dings are scattered along the edge. The hilt is cast brass comprising a plain half-basket guard in two branches, a plain domed phrygian pommel and a leather grip wound by twisted brass wire. The brass is in overall good condition, exhibiting very few handling marks and a strong mottled patina of dull ocher, dark gray-brown, green and tobacco color flecked with areas of green verdigris. The leather exhibits some surface flaking and fading to a light brown but shows remarkably little loss, remaining whole except a tiny segment lost from the toe. The scabbard is steel with two suspension rings, toned plum-brown throughout, exhibiting three unobtrusive indentations about 11" from the tip and a stippled texture of cleaned shallow pitting mostly in the lower half. A dry sand-colored aggregate is present in some of the recesses of the texture. Few if any other handling marks are discernible and the scabbard is overall in very good condition. John Thillmann, author of Civil War Cavalry & Artillery Sabers, attests that C. Roby cavalry sabers are comparable in workmanship to those made by Ames; this specimen is a very nice example with an excellent blade. (12A9654-62) (200/400) Est. 200 - 400</p>	2831	<p>Brazilian Model 1880 Cavalry Saber by Alex Coppel 41 1/2" overall length, 35 1/4" slightly curved single-edged blade with a 12" false edge, single unstoppered fullers and a spear-point tip. The ricasso is marked with the stamp of Alex Coppel of Solingen on the reverse face and bears a later-applied "CS / 1864" on the obverse. Numbers are stamped in various places on the sword: "3" on the reverse of the ricasso, "75" on the guard and a series of illegible partial numerals along the backstrap. The polished blade rates very good plus to excellent, exhibiting a strong mottled dark gray and brown overall patina and few handling marks. The hilt comprises a solid sheet steel right-handed guard, checkered gutta-percha grips and a plain steel dome pommel. The guard is blued, retaining about 75% finish, and is heavily polished on the right side. Many examples of this model have the letters "EUB" in this area; this specimen shows no remaining evidence of lettering. The checkering of the grips has softened from handling and a few spots of dark oxidation are evident inside the guard. Overall the hilt is in very good to fine condition. (129599-12) (150/250) Est. 150 - 250</p>
		2832	<p>U.S. Model 1840 Musician's Sword by Ames 38 1/2" overall length, 32 1/4" straight single-edged blade with wide single stopped fullers and a diamond cross-sectioned spear-point tip. The ricasso is faintly marked "Ames Mfg. Co. / Chicopee / Mass" on the reverse face and more crisply stamped "US / AHC / 1852" on the obverse. The blade is overall in very good plus to fine condition, patinated to a dark gray with remnants of cleaned texturing throughout. A few tiny handling marks are visible along the forward edge. The cast brass hilt is toned an overall burnished mustard yellow scattered occasionally by areas of ocher-brown tarnish and small spots of dark green verdigris. Only negligible handling marks are present and the hilt is in very fine condition. Overall a quite nice pre-Civil War military sword. (129599-13) (150/250) Est. 150 - 250</p>
		2833	<p>Civil War-era U.S. Model 1840 Army NCO's Sword by C. Roby 38 1/2" overall length, 32" straight single-edged blade with single stopped fullers and a spear-point tip. The ricasso is marked "C. Roby / Chelmsford MS" [sic] on the reverse face and "US / 1862 / F.S.S." on the obverse. The blade is in overall good condition, the bright surface exhibiting scattered clouds of smoky gray patina, some accumulations of oxidation near the ricasso and a few impact dings along the edge. The faces show a number of handling marks and the bevels exhibit straight-lined grinding marks from a previous attempt to apply a cutting edge. The cast brass hilt is scattered by occasional clouds of brown, ocher and dark gray patina and a few light handling marks, rating very good plus to excellent overall. (129599-14) (150/250) Est. 150 - 250</p>

Lot	Title/Description
2834	Knights of Pythias Uniform Rank Fraternal Sword by M.C. Lilley & Co. 37 1/2" overall length, 30" straight narrow double-edged blade with a diamond cross-section and a spear point. The ricasso is marked "The / M.C. Lilley / & Co. / Columbus / Ohio". Either face of the blade is etched with frosted panels of foliate scroll and fraternal imagery and the obverse face is centered by the name "Harvey D. Taylor" in script. The nickel-plated surfaces of the blade are freckled strongly throughout by dark ochre specks along the length. No handling marks are present and the etching remains mostly crisp; overall the blade rates very good plus. The hilt is nickel silver in gold-colored lacquer, comprising a cruciform guard with eagle quillons, a chain knucklebow, a knight's head pommel and a ribbed leather grip coiled by gold-lacquered nickel silver binding. The obverse face of the guard features an oval shield counter-guard cast-in-relief with the letters "U R" flanking a lily flower; the reverse face bears the letters "FCB". The hilt is in fine condition, exhibiting few handling marks and occasional areas of black patination and contact loss of the lacquer. The scabbard is nickel-plated steel with three nickel-plated alloy mounts in gold-colored lacquer matching the hilt. The mounts depict "FCB" in triple shields, entwined "KP" lettering, Samson destroying the pillars of the temple of Dagon, calla lily and assorted other fraternal symbols. The body exhibits flecks of oxidation and the mounts show areas of finish flaking and black tarnish mostly on the reverse faces. Overall the scabbard rates very good plus to excellent. (129632-B) (75/150) Est. 75 - 150
2835	Reproduction U.S. Artillery Swords Two swords patterned after the U.S. Model 1840 Artillery Saber. Each measures 39 1/2" and features a 33 1/2" curved single-edged blade with single wide stopped fullers and a spear point. The hilts are brass with a single knucklebow and black leather grip wound in twisted brass wire. Both swords are in near excellent condition with light handling and storage wear only. Each sword includes a steel scabbard in excellent condition. (129177-1T) (30/50) Est. 30 - 50
2836	Reproduction U.S. Artillery Swords Two swords patterned after the U.S. Model 1840 Artillery Saber. Each measures 39 1/2" and features a 33 1/2" curved single-edged blade with single wide stopped fullers and a spear point. The hilts are brass with a single knucklebow and black leather grip wound in twisted brass wire. Both swords are in near excellent condition with light handling and storage wear only. Each sword includes a steel scabbard in excellent condition. (129177-1U) (30/50) Est. 30 - 50
2837	Reproduction U.S. Artillery Swords Two swords patterned after the U.S. Model 1840 Artillery Saber. Each measures 39" in length and features a 33 1/2" curved single-edged blade with single wide stopped fullers and a spear point. The hilts are brass with a single knucklebow and black leather grip wound in twisted brass wire. Both swords are in near excellent condition with light handling and storage wear only. Each sword includes a steel scabbard in excellent condition. (129177-1V) (30/50) Est. 30 - 50
2838	Reproduction U.S. Artillery Swords Two swords patterned after the U.S. Model 1840 Artillery Saber. Each measures 39 1/2" in length and features a 33 1/2" curved single-edged blade with single wide stopped fullers and a spear point. The hilts are brass with a single knucklebow and black leather grip wound in twisted brass wire. Both swords are in near excellent condition with a bit of light patina on the brass and light handling and storage wear. Each sword includes a steel scabbard in excellent condition. (129177-1W) (30/50) Est. 30 - 50
2839	Reproduction U.S. Artillery Swords Two swords patterned after the U.S. Model 1840 Artillery Saber. Each measures 39 1/2" in length and features a 33 1/2" curved single-edged blade with single wide stopped fullers and a spear point. The hilts are brass with a single knucklebow and black leather grip wound in twisted brass wire. Both swords are in about excellent condition with few if any blemishes. Each sword includes a steel scabbard in excellent condition. (129177-1X) (30/50) Est. 30 - 50
2840	Reproduction U.S. Artillery Swords Two swords patterned after the U.S. Model 1840 Artillery Saber. Each measures 39 1/2" in length and features a 33 1/2" curved single-edged blade with single wide stopped fullers and a spear point. The hilts are brass with a single knucklebow and black leather grip wound in twisted brass wire. Both swords are in near excellent condition with light handling and storage wear only. Each sword includes a steel scabbard in about excellent condition. (129177-1Y) (30/50) Est. 30 - 50

Lot	Title/Description
2841	Reproduction Lion's Head Parade Sabers Two swords with lion's head pommels. Each measures 40" overall and features a 34 1/2" curved single-edged blade with single wide stopped fullers and a spear point. The hilts are brass with a reverse-P stirrup guard, lion's head pommel with full backstrap and black leather grip wound by twisted brass wire. Both swords rate near excellent with light handling and storage wear only. Each sword includes a steel scabbard in excellent condition. (129177-1Z) (30/50) Est. 30 - 50
2842	Reproduction Lion's Head Parade Sabers Two swords with lion's head pommels. Each measures 39" overall and features a 33" curved single-edged blade with single wide stopped fullers and a spear point. The hilts are brass with a reverse-P stirrup guard, lion's head pommel with full backstrap and black leather grip wound by twisted brass wire. Both swords rate near excellent with light handling and storage wear only. Each sword includes a steel scabbard in excellent condition. (129177-1AA) (30/50) Est. 30 - 50
2843	Reproduction Lion's Head Parade Sabers Two swords with lion's head pommels. Each measures 39" overall and features a 33" curved single-edged blade with single wide stopped fullers and a spear point. The hilts are brass with a reverse-P stirrup guard, lion's head pommel with full backstrap and black leather grip wound by twisted brass wire. Both swords rate near excellent with light handling and storage wear only. Each sword includes a steel scabbard in excellent condition. (129177-1AB) (30/50) Est. 30 - 50
2844	Reproduction Lion's Head Parade Sabers Two swords with lion's head pommels. Each measures 39" overall and features a 33" curved single-edged blade with single wide stopped fullers and a spear point. The hilts are brass with a reverse-P stirrup guard, lion's head pommel with full backstrap and black leather grip wound by twisted brass wire. Both swords rate near excellent with light handling and storage wear only. Each sword includes a steel scabbard in excellent condition. (129177-1AC) (30/50) Est. 30 - 50
2845	U.S. Model 1862 Merrill Navy Rifle Bayonet Pairs with the U.S. Model 1862 Navy Rifle. 30" overall length, 25" single-edged yataghan-type blade with a 6 1/2" false edge, wide unstoppered fullers and a spear-point tip. The hilt is cast brass with a ribbed grip and a contoured bird's head pommel. The ricasso is marked "1861" on the reverse face and the spine of the grip is marked "201"; no other markings are present. The blade is in fine condition, polished to a near mirror-bright with occasional spots of smoky gray patina, scattered remnants of cleaned pinprick pitting and a few impact nicks on the edge. The hilt is patinated to a mottled mustard brown with occasional hints of ochre and a few light handling marks but few major blemishes. The included scabbard is black leather with a brass tip and collar; the brass bears a mottled brown patina and the leather exhibits moderate surface scuffing but no separation or loss, rating very good plus overall. An honest example of these lengthy bayonets. (12A9558-42) [Senator Frederic C. Walcott Collection] (200/400) Est. 200 - 400
2846	U.S. Model 1855 Saber Bayonet Pairs with the U.S. Model 1855 Percussion Rifle. 26 1/2" overall length, 21 1/2" straight single-edged blade with single unstoppered fullers and curving upwards in the last 7" to a wide trailing spear-point tip. The hilt is cast brass with a ribbed grip and contoured bird's head pommel. The ricasso is marked "U.S." on the reverse face. The blade is near excellent, polished to a near mirror-bright with areas of dark smoky gray patina above the ricasso and a number of polishing marks across the faces. The hilt is in fine condition, exhibiting a smooth mottled mustard brown patina with a few spots of thin verdigris and occasional light handling marks. The included scabbard is black leather with a brass tip and collar and rates very good plus to fine. The brass surfaces are toned to a burnished mottled tobacco with a few handling dings and an indentation on the obverse face of the tip; the leather is lightly scuffed and remains whole with excellent stitching. A nice example of these distinct American saber bayonets. (12A9558-41) [Senator Frederic C. Walcott Collection] (150/250) Est. 150 - 250

Lot	Title/Description
2847	<p>U.S. Socket Bayonets</p> <p>Two U.S. military socket bayonets: first, a U.S. Model 1862 H&P Conversion bayonet with a U.S.-marked 17 7/8" fluted triangular blade with a beak point and a 3" bottom-bridged socket with an obverse T-mortise. The bayonet is in near excellent condition, the steel mostly in-the-white with occasional sparse instances of smoky gray and tawny ocher patina here and there. The included unmarked scabbard is japanned steel with a black leather collar. The lacquer exhibits light flaking along the length with a light tobacco patina on the exposed steel. The collar is scuffed at the edges and slightly crinkled but otherwise unblemished. The second bayonet is a U.S. Model 1816 bayonet with a 15" hollow-ground back flutes, partial face flute, "US WB" marking and beak point; the socket is 2 3/4" with an open obverse L-mortise. The steel retains about 70% original blue finish with the remainder toned to a mottled pewter and speckled by spots of dark ocher oxidation throughout. The bayonet is in very good condition overall with few handling marks except a bit of dingling along the edges. (129558-45,47) [Senator Frederic C. Walcott Collection]</p>
2848	<p>European Bayonets</p> <p>Two bayonets, one German and one French. The first is an unmarked German Model 1915-1917 Ersatz bayonet measuring 16 3/4" overall and featuring an 11 3/4" blade with single unstoppered fullers and a spear-point tip. The last 1/4" or so of the tip is lost to a clean break. The hilt is all steel with a plain bulged grip and an open muzzle ring. The blade exhibits a strong pewter and dark smoky gray patina with some areas toning to a darker brown; the edge is a bit rough in spots but otherwise unblemished. The metal surfaces of the hilt are oxidation browned and lightly textured with ocher oxidation visible in the stud guide. Overall the bayonet is in fair condition. The included scabbard and leather frog also rate fair, with moderate brown and gray patina on the steel, some dents in the lower half of the body and moderate surface wear of the leather. The second is a French Model 1886 Lebel bayonet measuring 24 1/2" overall with a 20" quadrangular blade which has been severely misaligned, bearing an "S"-curve bending to the obverse side and back. The guard is steel with no hook quillon and the handle is brass. The blade is in remarkably good condition aside from the bend, retaining about 85% fire blue finish and exhibiting a few handling marks and occasional spots of ocher oxidation. The guard is strongly oxidized and the press stud no longer functions. The handle bears a strong patina of mottled dark brown and ocher as well as large areas of green verdigris. The bayonet rates poor overall. (129558-46,51) [Senator Frederic C. Walcott Collection]</p>
2849	<p>Repaired U.S. M4 Bayonets</p> <p>Two U.S. M4 bayonets with blades that have broken in two and been hurriedly re-welded with a soldering iron. Each measures 12" overall and features a 7 1/4" single-edged blade with a 3 3/4" false edge and spear-point tip. Both are marked "U.S. M4 / UTICA" on the top face of the guard. The first retains about 40% original blue with areas worn bright, mottled to pewter gray or flecked by occasional tiny spots of ocher. The guard exhibits some flaking of the black lacquer finish and the stacked leather grip exhibits some light wear and handling marks. The second retains about 60% original blue with hints of dark ocher toning in the upper half. The grip exhibits shallow drying cracks throughout the surface. The bayonets would rate about good if not for the welding and are in poor to fair condition as repaired. Included is an aluminum display mount which accommodates the bayonets in a crossed position. The mount features an embossed brass medallion depicting the U.S. Federal Eagle which fully obscures the soldered sections of the blades when assembled, perhaps accounting for the welder's disregard for aesthetics in the repair. The medallion has lost the adhesive and detached from the mount but otherwise the mount is in excellent condition. Together, the items form a nice compact U.S. military display for the wall. (12B8735-40A)</p>
2850	<p>Canadian Model 1905 Ross Rifle Bayonet</p> <p>14 3/4" overall length, 10 1/8" straight single-edged unfullered blade with a set-back asymmetrical spear-point tip. The pommel is marked "ROSS RIFLE CO. / QUEBEC / PATENT 1907" on the obverse face and "08 / 11-10" on the reverse; the obverse grip is marked "D.17". The blade is in excellent condition, protected by a factory-applied rust-inhibiting coat. Some of the coating has been removed by handling and storage wear revealing bright steel beneath which appears unblemished. The hilt, also coated throughout, rates very good plus with several small handling marks on the guard and the wooden grips and a few spots of ocher oxidation where the protective coating has worn away. (128735-40B) (75/125) Est. 75 - 125</p>
2851	<p>Chinese SKS Spike Bayonet</p> <p>15" overall length, 12" fluted triangular blade with a flat wedge tip. The blade is in excellent condition and includes all components necessary for installation to the appropriate rifle including the socket, spring and retention pin. (128735-40C)</p>

Lot	Title/Description
2852	<p>German Model 1938 Dress Bayonet</p> <p>14 3/4" overall length, 9 3/4" straight single-edged blade with single unstoppered fullers and a spear-point tip. The ricasso is marked "SOLINGEN" on the reverse face. The blade is polished bright and in near excellent condition with few blemishes save a few small handling marks. Some light marks are present about halfway along the cutting edge from what appears to be a sharpening project that was quickly abandoned. The metal surfaces of the hilt are nickel plated and the grips are checkered hard rubber held by two rivets. The nickel exhibits some instances of light bubbling and flaking on the quillon, otherwise the hilt rates about excellent with few blemishes. The scabbard is black lacquered steel with a black leather frog. The body exhibits scattered light handling marks and a few instances of flaking with the exposed steel toning to ocher-brown. The leather is somewhat dry and exhibits a few instances of separation but remains largely whole with excellent stitching. Overall a quite fine WWII-era dress bayonet. (129620-1) (75/150) Est. 75 - 150</p>
2853	<p>German Removed Sawback Model 1898/05 Bayonet</p> <p>Pairs with the Gewehr 98 and K98k rifles and variants thereof. 19 3/4" overall length, 14 1/2" straight single-edged blade with single unstoppered fullers and a broad spear-point tip. The ricasso is stamped with the trademark of Dürkopp-Werke on the obverse face. Initially produced with a sawback spine, the teeth of this specimen have been removed by the arsenal as part of a recall and reissue in response to Allied propaganda during WWI. The blade is brightly polished and in near excellent condition as cleaned, exhibiting few blemishes except occasional pinprick handling marks and tiny speckled remnants of smoky gray patina here or there. The hilt comprises a guard with a single forward hook quillon, contoured bird's head pommel, flashguard backstrap and grooved walnut grips held by two screw-bolts. The pommel is toned to a smooth mottled gray and a few small handling marks are present on the grips. Overall the hilt rates very fine with no more than minor blemishes. The included scabbard features a steel body and a leather belt frog. The body is polished bright throughout most of the surface with hints of blue finish and feldgrau paint remaining on the protected areas beneath the frog. Thin speckled areas of ocher patina and small handling dings are scattered throughout. The leather exhibits a strong patina and light to moderate surface wear but little loss or separation. The scabbard rates very good plus to fine overall. Altogether a quite nice example of these "Butcher Blade" bayonets. (129620-2) (75/150) Est. 75 - 150</p>
2854	<p>French Model 1886 Lebel Bayonet</p> <p>Pairs with the Lebel Model 1886 rifle. 22" overall length, 17 1/4" fluted quadrangular blade. The tip of the blade has been lost. The remainder of the blade is in good condition with cloudy areas of dark smoky gray patina interspersed across the bright surface. The hilt consists of a steel guard/socket and a silver alloy handle. The steel is toned to a light gray with hints of darker gray-brown patina and the handle exhibits scattered tiny handling marks and flecks of tarnish. Overall the hilt rates very good plus to fine. The included scabbard is black lacquered steel and rates very good, a number of areas exhibiting areas of flaking with exposed steel exhibiting previously cleaned dark brown oxidation. The scabbard holds the blade only loosely and very few handling marks are present. (129620-3) (50/75) Est. 50 - 75</p>
2855	<p>Japanese Type 30 Arisaka Bayonet</p> <p>Pairs with the Japanese Type 99 and related rifles. 20" overall length, 15 5/8" straight single-edged blade with single unstoppered fullers and a straight-backed point. The ricasso is stamped with the Nagoya Arsenal mark on the obverse face. The blade is in good condition, retaining about 40% original blue finish with numerous handling marks from numerous instances of grinding, resharpening and polishing. A few spots of dark gray-brown patina can also be seen here or there. The edge is maintained sharp and largely unblemished. The hilt features a forward hooked quillon, contoured bird's head pommel and wooden grips held by two screw-bolts. Light olive green paint, possibly theater-applied, coats the hilt in its entirety. Areas of dark brown staining scatter the surface of the paint and a few small spots of flaking exposed dark brown oxidized steel on the press stud and edges of the pommel. Overall the hilt is in fine condition. The included scabbard is steel in olive paint matching the hilt. Very few handling marks are discernible; a few instances of tiny bubbling can be seen and tiny scattered spots of flaking expose lightly oxidized dark brown and ocher steel beneath. This curiously finished bayonet is in overall fine condition. (129620-4) (50/75) Est. 50 - 75</p>

Lot	Title/Description
2856	<p>U.S. Zouave-Type Bayonet by Collins 27 1/8" overall length, 22 3/8" single-edged yataghan-style blade with a 6" false edge, wide single unstopped fullers and a spear-point tip. The "Collins & Co. / Hartford / Conn." address is stamped on the reverse face of the ricasso. The blade is overall in fine condition, exhibiting a polished smoky pewter tone across the face with a few tiny handling marks and shallow remnants of cleaned pitting and black patina at the tip. The hilt is cast brass toned to a pale burnished yellow with darker patina evident in the grooves of the grip and on the forward quillon. A number of negligible tiny handling marks are present and the hilt rates very good plus to excellent overall. This bayonet is similar to the Model 1862 Remington "Zouave" pattern except that the stud guide runs the full length of the hilt and does not accept the stud of a Zouave rifle, though the muzzle ring will accommodate the barrel of that arm. (129625-4) (75/150) Est. 75 - 150</p>
2857	<p>U.S. Model 1917 Bayonet by Remington Pairs with the U.S. Model 1917 Enfield rifle. 22" overall length, 17" straight single-edged blade with single squared unstopped fullers and a straight-backed point. The ricasso is marked "1917 / Remington (circled)" on the reverse and stamped with U.S. proofs on the obverse. The satin-finished blade is blued in the first 1" and in about excellent condition, exhibiting few handling marks, occasional areas of thin smoky gray patina and just a bit of fading of the blue and wear at the edges of the markings. The blued steel surfaces of the hilt are in fine condition, retaining about 80% original blue with areas of silvering at the edges and a number of small handling dings. The dark walnut grips exhibit small handling marks and remain tightly fitted with no loss or major blemishes. The included scabbard, consisting of a leather body with brass mounts and a steel throat and belt hook, is painted dark olive green throughout and in near excellent condition. A few areas exhibit a bit of flaking of the outer layer of the paint, otherwise no loss, separation, handling marks or blemishes of note are discernible. An about excellent specimen overall. (129645-55) (75/125) Est. 75 - 125</p>
2858	<p>U.S. M4 Bayonet by Aerial Pairs with the U.S. M1 Carbine. 11 1/2" overall length, 6 1/2" straight single-edged blade with a 3 1/4" false edge and spear point. The blade is toned to an overall dusky satin gray with speckled areas of dark smoky gray patina and a number of lightly polished handling marks, rating near excellent overall. The metal surfaces of the hilt retain about 60% original blue finish with areas of oxidation on the guard, tiny handling marks scattered throughout and silvering at the exposed edges and surfaces. The stacked leather grip exhibits a strong dark age patina and some surface wear but no loss, separation or other damage of note. Overall the hilt rates very good plus to fine. The included U.S. M8 scabbard rates very good, exhibiting some light to moderate soiling of the canvas belt loop, dusky ocher patina reaching across the steel throat and flaking of the OD green paint on the raised faces of the body. (129570-3A) (50/75) Est. 50 - 75</p>
2859	<p>Russian Type I AKM Bayonet Pairs with the AKM rifle and variants. 11" overall length, 5 3/4" single-edged blade with a clipped point, 2" concave false edge, pierced aperture for wire-cutting with the scabbard and a 2 1/4" sawtooth segment on the spine. The obverse face of the guard is marked "KR 3524". The blade features a white satin finish and rates about excellent, exhibiting a few tiny handling marks and hints of patina highlighting the original grinding marks on the flats. Several minute specks of oxidation can be seen between the teeth of the saw. Otherwise the blade exhibits no blemishes of note. The guard is blued and the handle is red Bakelite. The metal surfaces retain about 98% original blue with some silvering at the edges and the handle rates near excellent with a few light handling marks and some negligible wear at the stud guide. The steel scabbard is numbered to the bayonet and rates very fine, retaining about 95% original blue finish with some silvering and light handling marks. The included gray rubber insulating handle exhibits some light patina and handling marks. (129574-8A) (50/75) Est. 50 - 75</p>
2860	<p>U.S. M7 Bayonet Pairs with the U.S. M16 rifle and variants. 11 3/4" overall length, 6 3/4" single-edged blade with a 3 1/2" false edge and spear point. The black parkerized metal surfaces retain about 98% original finish with a bit of silvering at the edges of the guard and toward the tip of the blade. The edges are unsharpened and unblemished. The checkered black plastic grips rate excellent with no discernible wear. The included M8A1 scabbard rates excellent with no blemishes except a bit of patination on the brass of the closing strap snap button and belt hook. (129544-132A)</p>

Lot	Title/Description
2861	<p>Japanese Type 30 Arisaka Bayonet Pairs with the Type 99 Arisaka and related rifles. 20" overall, 15 3/4" single-edged blade with single unstopped fullers and a straight-backed point. The hilt features a hooked crossguard, flat bird's head pommel and contoured wraparound wood grips held by two steel rivets. The ricasso is stamped on the obverse face with the arsenal mark of an "unknown company under Kokura supervision" (per Bayonets from Janzen's Notebook, Jerry L. Janzen 1987). The bright blade rates near excellent with very few handling marks and scattered areas of thin smoky gray patina here and there. The metal surfaces of the hilt retain about 80% original blue finish with scattered areas of oxidation mostly on the guard and some silvering at the edges of the pommel. The grips exhibit only light handling marks. Overall the bayonet rates very good plus to excellent. The included scabbard rates good, retaining about 30% original blue finish and exhibiting moderate ocher patination and light handling marks throughout with no indentations or loss. (128783-65A) (75/125) Est. 75 - 125</p>
2862	<p>Japanese Type 30 Arisaka Bayonet Pairs with the Type 99 Arisaka and related rifles. 20" overall, 15 5/8" single-edged blade with single unstopped fullers and a straight-backed point. The hilt features a hooked crossguard, flat bird's head pommel and contoured wood grips held by screws. The ricasso is marked on the obverse face with the arsenal mark of Toyada Jidoshoki Seisakusho (Toyada Automatic Loom Works) under Nagoya supervision. The blued blade is in near excellent condition, retaining about 90% original blue finish with a bit of finish loss towards the tip and along the secondary bevel due to finish wear as well as a few tiny impact nicks in the upper half of the cutting edge. The metal surfaces of the hilt retain about 95% original blue with areas toning to mottled plum. The grips exhibit a bit of light handling wear and darkened patina. Overall the bayonet rates very fine. The included scabbard retains about 75% original blue with interspersed areas of speckled dark ocher oxidation and tiny handling marks here or there, rating very good plus to excellent. (128783-65B) (75/125) Est. 75 - 125</p>
2863	<p>Japanese Type 30 Arisaka Bayonet Pairs with the Type 99 Arisaka and related rifles. 20" overall, 15 3/4" single-edged blade with single unstopped fullers and a straight-backed point. The hilt features a hooked crossguard, flat bird's head pommel and contoured wood grips held by screws. The ricasso is marked on the obverse face with the Kokura Arsenal "Four Cannonballs". The bright blade is in fine condition: a few watery spots of black staining and flecks of oxidation can be seen along the spine and at the tip and few if any handling marks are discernible. The metal surfaces of the hilt retain about 60% original blue with areas toning to gray or dark mottled ochre. The grips exhibit a few minor handling marks. Overall the bayonet rates very good plus to excellent. The included scabbard retains about 70% original blue scattered throughout by a speckled patina of ocher oxidation. The scabbard shows no discernible handling marks and rates about good. (128783-65C) (75/125) Est. 75 - 125</p>
2864	<p>Japanese Type 30 Arisaka Bayonet Pairs with the Type 99 Arisaka and related rifles. 20" overall, 15 1/2" single-edged blade with single unstopped fullers and a straight-backed point. The hilt features a hooked crossguard, contoured bird's head pommel and contoured wood grips held by screws. The ricasso is marked on the obverse face with the Kokura Arsenal "Four Cannonballs". The blade is finished bright and tones to a light pewter gray with sparse areas of darker smoky gray patina and a few light oil stains. The edge has been resharpened, possibly during the period of use, and is about excellent with a few instances of unevenness on the cutting edge. Overall the blade is in fine condition. The metal surfaces of the hilt are oxidation-browned throughout, otherwise showing few handling marks. The grips exhibit a slight patina, a few small handling marks and short lengthwise hairline cracks at the screws but remain tightly fitted with no loss of note. The hilt is in overall good condition. The included scabbard retains about 40% original blue finish with streaks worn to silver, a few light handling marks and a textured cloudy ocher patina dispersed across the surface, overall rating very good plus to excellent. (128783-65D) (75/125) Est. 75 - 125</p>

Lot	Title/Description
2865	<p>Japanese Type 30 Arisaka Bayonet Pairs with the Type 99 Arisaka and related rifles. 20" overall, 15 3/4" single-edged blade with single unstoppered fullers and a straight-backed point. The hilt features a hooked crossguard, flat bird's head pommel and contoured wraparound wood grips held by rivets. The ricasso is marked on the obverse face by the arsenal mark of an "unknown company under Kokura supervision" (per Bayonets from Janzen's Notebook, Jerry L. Janzen 1987). The bright blade is near excellent with few if any handling marks and some clouds of speckled smoky gray patina. The metal surfaces of the hilt retain about 90% original blue with some silvering at the edges and occasional dispersed flecks of ocher oxidation. The grips have only light handling marks. Overall the hilt rates fine to near excellent. The included steel scabbard rates fine, retaining about 80% original blue interspersed with a thin dark ocher patina across the surface, a few light handling marks and no indentations or other blemishes of note. (128783-65E) (75/125) Est. 75 - 125</p>
2866	<p>Japanese Type 30 Arisaka Bayonet Pairs with the Type 99 Arisaka and related rifles. 20" overall, 15 5/8" single-edged blade with single unstoppered fullers and a straight-backed tip. The hilt features a hooked crossguard, flat bird's head pommel and contoured wraparound wood grips held by rivets. The ricasso is marked on the obverse face by the arsenal mark of an "unknown company under Kokura supervision" (per Bayonets from Janzen's Notebook, Jerry L. Janzen 1987). The blade retains about 70% blue finish with streaks worn to bright on the flats due to scabbard wear. The edge has been cleanly resharpened, possibly during period of use, and rates excellent. The metal surfaces of the hilt are browned with oxidation interspersed with about 35% original blue and few handling marks. The grips remain well fitted and exhibit hairline cracks near the rivets and a couple chips at the rear corner of the obverse grip. Overall the hilt rates about good. The included scabbard is in very good plus to excellent condition and retains about 75% original blue with a patina of speckled ocher dispersed throughout. A few light handling marks are present with no dings or indentations. (128783-65F) (75/125) Est. 75 - 125</p>
2867	<p>Italian Model 1891 Carcano Bayonet Pairs with the Model 1891 Mannlicher-Carcano rifle and most M1891 carbines. 16 1/2" overall, 12" single-edged blade with single stopped fullers and a spear point. The guard is marked "VOR4322" on the obverse face. The blade rates about fine, retaining about 60% gray parkerized finish with areas streaking to bright from handling and scabbard wear. The metal surfaces of the hilt are toned to an overall smoky pewter with dark brown oxidation on the quillons and about 30% original blue at the head of the pommel. The grips are slightly patinated with very few handling marks. Overall the hilt is in good condition. The included scabbard is leather with brass mounts and rates good: the leather exhibits moderate cracking throughout with no loss or separation; the brass surfaces exhibit a patina of dull gray-brown tarnish with few handling marks and remain well fitted. (128783-65G) (50/75) Est. 50 - 75</p>
2868	<p>Unmarked Mauser Export Bayonet 15" overall length, 10" single-edged blade with single unstoppered fullers and a spear-point tip. The hilt consists of a thick flat guard with a partial muzzle ring, slanted walnut grips held by screw-bolts and a contoured bird's head pommel with a 1 3/4" stud guide. The guard is numbered "4339" on the obverse side. No further markings are present; handling marks on the ricasso suggest possible prior markings that have been worn and polished away. The blade is bright and scattered by light gray specks of patina and a number of small handling and polishing marks. The edge has been reground. Overall the blade is in good condition. The metal surfaces of the hilt retain about 40% original blue mostly on the pommel and spanned by cloudy areas of ocher oxidation and spots worn to bright. The grips are darkly patinated and the reverse grip exhibits a 2" crack extending from the oil hole which is beginning to separate the rear segment of the grip. The hilt rates fair to good overall. The included steel scabbard is marked "9540 /m" below the throat and retains about 20% original blue with a cloudy ocher oxidation patina throughout, areas of silvering at the edges and a number of minor handling dings, rating about good overall. (128783-65H) (50/75) Est. 50 - 75</p>

Lot	Title/Description
2869	<p>French Model 1874 Gras Bayonet by St. Etienne Pairs with the Model 1874 Gras rifle. 25 1/2" overall, 20" single-edged T-back blade with a 5 1/2" false edge and a spear point. The hilt consists of a hooked crossguard, contoured slanted walnut grips held by rivets and a brass contoured bird's head pommel. The spine is crisply marked "Mre d'Armes de St. Etienne F��rier 1879". The guard is marked "P 16085" on the reverse face at the base of the quillon. The bright blade is in excellent condition with very few handling marks and just a bit of patina at the base of the blade. The steel surfaces of the guard are smoothly browned with occasional flecks of ocher and the brass pommel exhibits a smooth dark patina. The grips exhibit some minor handling marks and remain well fitted with no loss. Overall the hilt rates very fine. The included steel scabbard is numbered to the bayonet and retains about 85% original blue finish scattered by patches of ocher oxidation, rating very good plus to excellent overall. A fine French bayonet. (128783-65J) (50/75) Est. 50 - 75</p>
2870	<p>U.S. Model 1917 Bayonet by Remington Pairs with the U.S. Model 1917 Rifle 21 3/4" overall, 17" single-edged blade with single unstoppered fullers and a straight-backed point. The ricasso is marked "1918 / Remington (circled)" on the reverse face and stamped with "US" lettering and proofs on the obverse. The bright satin blade is in fine condition, exhibiting very few handling marks and occasional cloudy areas of dark smoky gray patina here or there. The metal surfaces of the hilt are finished bright and exhibit a number of very light handling marks and scattered instances of ocher-tinged oxidation staining; the grips exhibit several minor handling marks and remain well fitted. Overall the hilt rates very good plus to fine. The included scabbard comprises an OD green leather body with two blued steel mounts. The scabbard rates very good plus to excellent, exhibiting some light scuffing and retaining about 25% original blue on the steel with the remainder lightly oxidized throughout. The body remains whole and the stitching excellent. (128783-65K)</p>
2871	<p>U.S. Model 1892/98 Krag Bayonet Pairs with the Krag Rifle 16 1/4" overall, 11 3/4" single-edged blade with a 4 1/2" false edge, single unstoppered fullers and a spear point. The ricasso is marked "1899" on the reverse face and "US" on the obverse. The bright blade is in very good plus to excellent condition and has been lightly cleaned, exhibiting a few light handling marks, scattered thin clouds of smoky gray patina and the slightest deformation at the point. The bright metal surfaces of the hilt exhibit a speckled dark ocher patina and a few light handling marks; the walnut grips are darkly patinated and otherwise unblemished. Overall the hilt is in very good plus to excellent condition as well. The included scabbard rates good, exhibiting a cloudy patina of brown oxidation throughout with concentrated areas of slightly brighter ocher and no discernible handling marks or indentations. (128783-65L) (75/125) Est. 75 - 125</p>
2872	<p>U.S. Model 1816 Socket Bayonet 3" bottom-bridged obverse-side T-mortise socket, 16" triangular blade with hollow-ground back flutes and partial face flute running 8 1/2" from the prow tip. The obverse face of the socket is marked "LC" and "93"; the base of the blade is stamped "US / M". The metal surfaces are polished bright and spanned by a speckled smoky gray patina with few handling marks and several small instances of ocher patina. Overall the bayonet is in fine condition. (128783-65M)</p>
2873	<p>U.S. Model 1816 Socket Bayonet 3" bottom-bridged obverse-side T-mortise socket, 16" triangular blade with hollow-ground back flutes and partial face flute running 8 1/2" from the prow tip. The metal surfaces are overall bright spanned by speckled dark brown oxidation with concentrated areas on the socket and at the tip. Overall the bayonet is in good condition. (128783-65N)</p>
2874	<p>U.S. Model 1816 Socket Bayonet 3" bottom-bridged obverse-side T-mortise socket, 14 1/2" straight triangular blade with hollow-ground back flutes and partial face flute running 8 1/4" from the prow tip. The steel surfaces are toned to a burnished pewter gray with areas of smoky gray, near-black and ocher patina scattered throughout as well as traces of an original blue evident on the socket. Few handling marks are present and the bayonet is in overall very good condition. (128783-65P)</p>
2875	<p>U.S. Model 1855-70 Socket Bayonet 3" bottom-bridged obverse-side L-mortise clasped socket, 18" triangular blade with hollow-ground back flutes, shallow face flute, "US" marking and a beak point. The steel surfaces are finished bright and spanned by speckled areas of dark ocher oxidation and few handling marks. Overall the bayonet is in good condition. (128783-65Q)</p>

Lot	Title/Description
2876	U.S. Model 1855-70 Socket Bayonet 3" bottom-bridged obverse-side L-mortise clasped socket, 18" triangular blade with hollow-ground back flutes, shallow face flute, "US" marking and a beak point. The bayonet is nickel-plated, flaking to bright for the majority of the blade except at the end of the tip. The exposed faces of the blade exhibit areas of smoky gray-brown patina spanning most of the length and the surfaces of the socket are lightly freckled with small dots of ochre. Few handling marks are present and the bayonet is in very good condition overall. (128783-65R)
2877	U.S. Model 1808-12 Socket Bayonet 3" bottom-bridged obverse-side L-mortise socket, 16" triangular blade with hollow-ground back flutes and partial face flute running 8 3/4" from the prow point. The blade is "US"-marked and the socket is numbered "606" above the bridge, "6" ahead of the mortise and "38" above the shank, all on the obverse side. The steel surfaces retain about 65% original blue with streaks worn to bright gray and a thin speckled ochre patina dispersed throughout. Overall the bayonet is in very good condition. (128783-65S)
2878	U.S. Model 1816 Socket Bayonet 3" bottom-bridged obverse-side T-mortise socket, 16" triangular blade with hollow-ground back flutes and partial face flute running 9" from the prow point. The blade is marked "U / US" at the base. The metal surfaces retain about 80% blue finish with silvering at the edges of the socket and is interspersed with shallowly pitted ochre oxidation throughout. Overall the bayonet is in fair to good condition. (128783-65T)
2879	Vintage Waidmesser Hunting Knife by Puma-Werk 9" overall length, 4 1/2" single-edged fixed blade with a shallow straight-clipped point and a 1 1/8" serrated section at the bottom of the cutting edge. The blade is etched with the Puma logo and the text "PUMA-WERK / SOLINGEN / MADE IN GERMANY", "HANDARBEIT" and "BESTELL - NO. / 3591" on the reverse face and "Original / Waidmesser / für Schalenwild" on the obverse. Additional tools fold outwards from the staghorn handle including a 2 1/2" gutting blade, a 3 1/4" bonesaw and a 2" corkscrew. The blades are mirror-bright stainless steel and are in near excellent condition. Some smoky gray remnants of cleaned oxidation are present in spots on the main blade and hints of thin dark oxidation appear here or there on the corkscrew, otherwise the metal surfaces are largely unblemished and the cutting edges are razor sharp and excellent. A practical and attractive high-end hunter's tool from the renowned cutlery of Solingen. The original leather sheath is included, rating very good plus to excellent with some light scuffing at the edges. (12A9596-3) (150/250) Est. 150 - 250
2880	Indonesian Kris Knives Two kris knives from Indonesia. The first measures 13 1/2" overall and features an 8 3/4" forward-curved single-edged blade with a recurved leading edge, straight-backed point and a flare of flame-shaped points in place of a fingerguard. The metal is acid-etched with chaotic medium-contrast swirls; unlike some modern knives which imitate Damascus, acid-etching for its own sake is a traditional method of decoration for the kris. The grip is smooth horn of a woody tan and tobacco color in a curious "L" shape which braces the handle against the crease of the palm. The blade exhibits scattered areas of speckled smoky gray patina, spots of previously cleaned pinprick pitting and occasional instances of dark oxidation. The edge is a bit rough in spots but is well maintained and remains quite sharp. The handle bears a 2" crack running lengthwise from the base of the spine and a few drying cracks are present here or there, otherwise few handling marks are present. Overall the knife is in very good plus to excellent condition. The included sheath is sanded wood with stippled designs at the throat and shallow foliate engraving on the faces. The scabbard rates very good with no separation or loss and a number of small handling marks. The second knife measures 25 3/4" overall and features a 20 1/4" forward-curved double-edged blade with a broad spear-point tip. The blade flares at the base in traditional form with decorative swirls and points on the obverse and a bladed quillon-type extension at the reverse. The handle is black horn with an aluminum ferrule and terminates in a large flat-faced crested bird's head pommel. The blade exhibits a strong pewter patina with hints of shallow pitting which have been previously cleaned to nearly smooth; the edges are sharp and near excellent. The handle exhibits a few spots of verdigris on the ferrule and occasional tiny handling marks but no major blemishes. Overall the knife is in very good plus condition. The included scabbard is varnished hardwood with a black horn throat; portions of the throat material have been lost and the wood exhibits some light to moderate surface scuffing, otherwise the scabbard is in very good plus to fine condition. (12A9558-29,34) [Senator Frederic C. Walcott Collection]

Lot	Title/Description
2881	Large Moroccan Koummiya Knife This ornate North African knife measures 21 1/4" overall and features an 11 1/2" curved single-edged blade with a trailing point; interestingly, the blade is sharpened only on the concave reverse edge. The brass handle flares into a large crescent-shaped pommel. The handle is engraved with intricate foliate scroll as well as red, blue and yellow enameled swirls; the pommel is adorned with raised floral hemispheres enameled in green, black and orange. Generous amounts of silver wash finish remain on the brass, largely patinated to a strong burnished black. The obverse face of the handle is more simply decorated with foliate scroll engraved in the brass and traces of silver wash. The blade is unadorned, toned to a clean dusky gray and spanned by speckled areas of dark gray patina. Overall the knife is in very good plus to excellent condition. Like the hilt, the silvered brass scabbard is also intricately decorated on the reverse face by finely detailed foliate engraving and raised diamond-shaped flanges. Generous amounts of silver finish remain, accented by areas of darkening patina in the recesses and occasional hints of brass shining throughout. The scabbard rates very fine overall. A nice display piece for the exotic knife aficionado. (129558-28) [Senator Frederic C. Walcott Collection] (50/75) Est. 50 - 75
2882	Moroccan Koummiya Knives Two decorative North African knives. The first measures 15 3/4" overall and features an 8 1/2" curved blade with a trailing point, sharpened for 7 1/2" on the reverse edge and 5" on the obverse. The blade is unadorned and exhibits areas of smoky gray patina and few handling marks, rating very fine overall. The hilt is brass engraved with swirling patterns and decorated on the reverse face by nickel plating, areas of red and black enamel, a ferrule with alternating turquoise and yellow loops and a pair of raised diamond-shaped flanges above and below the grip. The hilt is in about good condition, exhibiting several instances of flaking and a light accumulation of grime. The scabbard is in similar condition and continues the pattern of the hilt with additional engraving, traces of red enamel at the edges and three more raised flanges. The second knife measures 15 1/2" overall and features a 9" curved blade with a trailing point, sharpened for 6 1/4" on the obverse edge and for the full length of the reverse. The blade exhibits scattered hints of smoky gray patina and polished remnants of shallow pitting at the tip, rating very fine overall. The handle is hardwood with nickel-plated brass fittings and pommel. Few handling marks are present save an indentation on the obverse face of the grip and the plating is worn through to the brass in spots; the hilt is overall in about good condition. The scabbard is sheet brass, nickel plated on the reverse face and engraved with floral panels. Brass is exposed at some of the edges and several solder repairs are present on the obverse face. Otherwise the scabbard bears few handling marks and is in very good condition. (129558-49,50) [Senator Frederic C. Walcott Collection]
2883	Vintage Chinese Paired Swords One pair of twin short swords sharing a single scabbard. Each measures 22" long and features a 16 1/2" straight double-edged blade with a diamond cross-section and a spear-point tip. The blades are near excellent with no handling marks and the slightest hints of storage wear. Each hilt is flat on one side and mirrors the other, creating the illusion of a single hilt when both swords are held in the scabbard. Both are composed of a cast brass lion's head guard, engraved brass pommel and black horn grip with engraved brass ferrule. The brass surfaces are toned to a somewhat pale yellow with dark patina in the recesses; the grips exhibit a few small handling marks and a 1" chip in the toe of one of the grips. The pieces exhibit a bit of play from the tang and the hilts rate very good plus overall. The scabbard comprises two compartments of wood in smooth black and white shagreen binding with engraved brass mounts. Except for a bit of looseness at the throat and patina in the recesses of the mounts, the scabbard is in near excellent condition with few blemishes. (129558-43) [Senator Frederic C. Walcott Collection]
2884	Novelty "Rhine Maiden" Hunting Knife by Korium Produced by Korium of Solingen in the 1950's, this post-war German commercial knife measures 9 3/4" and features a 5 3/4" straight single-edged blade with a 2" false edge, strong secondary bevel and a spear-point tip. The handle is cast pewter in the shape of a gold-painted female figure in the nude. The bright blade exhibits a few hints of thin smoky gray patina and a number of irregular grind marks on the bevels from a previous resharpening. Except for a bit of irregularity at the point, the edge is excellent as resharpened and near razor sharp. The quillon is in overall fine condition: a few shallow handling dings are present and the paint is worn to gray on some of the raised surfaces; the crosspiece has been lost and there is a gap between the blade and the handle but the tang remains firmly affixed with very little play. The original leather sheath is included and rates very good plus to excellent, exhibiting several small creases and a small section of separation near the brass tip. (129558-53) [Senator Frederic C. Walcott Collection]

Lot	Title/Description
2885	<p>Nepalese Kukri Knife One traditional kukri knife with accompanying sheath and companion knives. The kukri measures 17 1/2" overall length, 13" forward-curved blade with a recurved leading edge, drop point and double narrow fullers in the first 5" of the blade before the curve. The blade is in good condition, exhibiting a few small forging cracks, scattered areas of dark oxidation, cleaned remnants of spotted black pitting and numerous handling dings mostly on the spine. A number of deep impact nicks are present at the center of percussion in the last 4" from the tip, indicating previous heavy use; the edge is otherwise excellent, well maintained and razor sharp. The hardwood handle exhibits a few drying cracks and handling marks but remains strong and tightly fitted, rating very fine. Both companion knives are present, the sharp karda for fine detailed tasks and the blunt chakmak for field honing. Each measures 5" overall with a 3 1/2" blade mirroring the shape of the kukri. The karda is razor sharp and exhibits some hints of oxidation on the blade; the original adhesive has degraded and the tang detaches from the handle. The chakmak exhibits a moderate dark pewter patina with hints of brown tint and shallow pitting, rating very good plus overall and still excellent for honing purposes. The included sheath is wood in brown leather, rating very good plus to excellent with a few scattered handling marks and a bit of separation at the forward edge of the throat. A rugged and capable example of these famous Nepalese knives. (129558-48) [Senator Frederic C. Walcott Collection]</p>
2886	<p>Nigerian Decorative Axe One axe of a pattern attributed to the Eloyi (or Afo) people of Nigeria, decorated with engraved designs. The head is a crescent of steel with a narrow flared blade measuring 6 3/4" from the haft and 1 3/4" at the bit and a beak at the reverse which measures 5 3/4" in length. The haft is 23" long with the head pierced through the wood 3" from the tip. The wood is hand-carved with geometrical patterns and the head is adorned by punched swirls of stippling. The bright steel head exhibits some instances of smoky gray patina and a few spots of light oxidation near the bit. The haft exhibits some light handling marks but no major damage or blemishes. Overall the axe is in fine condition. (129885-54) [Senator Frederic C. Walcott Collection]</p>
2887	<p>Vintage Machetes Two machetes: first, a Collins No. 22 machete measuring 31" overall with a 26" Latin-style blade. The grips are riveted horn of a black and translucent gray-green color terminating in a squared bird's head pommel. The blade is in about excellent condition with just a few expected handling marks and just a few spots of gray patina here or there. The Spanish-language Collins address and logo stamped on the reverse face of the ricasso are both crisp; the adhesive shadow of the paper sticker is visible on the obverse but the sticker has been lost. The edge is excellent, sharp and unblemished. The included sheath is leather embossed with foliate designs and the Collins Legitimus logo, rating very good plus to fine with some light surface wear. The second machete is a Weyersberg Gebrüder ("Weyersberg Hermanos" on the Spanish-language address stamp) No. 87 machete measuring 33 1/2" overall and featuring a 28" single-edged straight blade with a straight-edged 45 degree tip. The grips are finger-grooved black horn fixed by brass rivets. The blade is in very good condition, exhibiting areas of near-black patina, light brown staining and smoky gray clouds at the ricasso. Numerous handling and resharpening marks are present on the faces and bevels and a few impact nicks are visible on the edge near the tip. The edge is overall excellent, well-maintained and near razor sharp. The grips rate about good, exhibiting several chipped areas of loss while remaining sturdily fitted. The included leather sheath is embossed with foliate scroll and rates very good plus, exhibiting some scuffing and surface wear mostly at the tip. A fine pair of collectible machetes which continue to be durable and effective agricultural tools. (12A9558-27,35) [Senator Frederic C. Walcott Collection]</p>
2888	<p>Antique Unmarked S-Guard Bowie Knife 17 1/2" overall length, 13 1/2" single-edged blade with a 5" false edge and a straight-clipped point. The bevel of the false edge is more pronounced on the obverse face. The bright blade is in overall fine condition with areas of mottled smoky gray-brown patina, a few small spots of dark brown oxidation and scattered small handling marks. The edges remain cutting sharp with few blemishes except a bit of roughness at the belly of the forward edge. The hilt comprises an S-shaped black iron handguard and a one-piece grip of black-stained American hardwood, possibly oak. The quillons are pronounced, each extending a full 2" lengthwise from the plane of the guard. The iron exhibits a few small areas of ocher-brown oxidation and the grip shows some light handling marks and finish wear. Overall the knife is in very fine condition. (12A9599-5) (150/250) Est. 150 - 250</p>

Lot	Title/Description
2889	<p>Antique Unmarked Bowie Knife 14 3/4" overall length, 10 1/8" straight single-edged blade with a clipped point and 4 1/2" false edge. The blade is in very good to fine condition, exhibiting a strong mottled dark gray patina interspersed with areas of cleaned shallow pinprick pitting and dark ocher-brown patina, trending brighter toward the edges with a number of handling marks from sharpening and maintenance during the period of use. A small segment from the end of the tip has been lost, about 1/8" of material. The hilt is a simple configuration with a sheet steel guard, plain steel ferrule, American hardwood handle (likely oak or hickory) and flat steel pommel. The metal surfaces are darkly patinated, matching the blade, and the handle is lightly worn but shows no major blemishes save a few partial drying cracks which have no effect on the fit. The included scabbard is sheet steel in a leather cover. The cover is in quite fine condition considering its apparent age, darkly patinated and exhibiting light to moderate surface wear with occasional small instances of loss. The stitching remains very fine and the scabbard remains largely whole. Overall the knife is in very fine condition. (129540-7) (150/250) Est. 150 - 250</p>
2890	<p>Custom Fighting Dirk 13 3/4" overall length, 8 1/2" straight double-edged blade with a strong diamond cross-section and tapered spear-point tip. The precisely ground blade is toned to a dark smoky pewter and rates very fine, exhibiting few handling marks and a quite sharp edge with a small impact ding here or there. The hilt comprises a flat blackened steel guard, a plain browned iron grip fixed by hammered brass rivets and a large round sanded walnut pommel. The text "M150" is hand-painted in white on the top of the guard. Small areas of ocher oxidation are visible on the guard and a few negligible handling marks are scattered on the pommel and grip. Overall the hilt is in fine condition. A rugged weapon whose simple design belies its excellent construction. (129599-8) (50/100) Est. 50 - 100</p>
2891	<p>Vintage Staghorn Fixed Blade Knives Two knives with stag handles. The first is 8 1/2" overall and features a 4 3/4" single-edged blade with a concave clipped point and 3 1/2" unbeveled false edge. The blade is marked "Geo. Wostenholm & Sons / Celebrated I*XL Cutlery / Sheffield-England" on the reverse face. The presence of the Sheffield address indicates a probable 20th or very late 19th century date of manufacture following the U.S. Tariff Act of 1890. The blade is in fine condition, patinated to a mottled smoky pewter, showing signs of previous cleaning and maintenance. Remnants of cleaned shallow pitting are visible on the faces and the markings remain crisp. The handle is polished staghorn held by steel pins and finishing in a flat steel capstan pommel. A lengthwise hairline separation runs about 1" along the rear edge from the base of the blade, otherwise no handling marks are present. The knife remains tightly fitted, exhibiting no play or looseness, and the edge remains serviceably sharp with no discernible blemishes. Really a very well-maintained old knife serving as a testament to Sheffield cutlery. The second knife is 8 1/4" overall length, 3 3/4" single-edged blade with a 2 1.4" false edge and shallow concave clipped point. The only indicator of this knife's origin is the marking "J. (illegible) / Landshut" on the reverse face, an unidentified cutler apparently based in Bavaria. The blade has been polished and resharpened during the period of use, leaving remnants of dark brown oxidation, smoky gray patina, hints of smoothed pinprick pitting and an overall burnished pewter gray tone to the steel. The handle is stag horn with a German silver ferrule and rates fine, exhibiting few handling marks and a hint of tarnish on the ferrule. The base of the handle is carved for a pommel cap which is not present. The included sheath is leather with a German silver collar. The sheath is in overall good condition, the leather remaining mostly whole with light scuffing and some separation occurring at the tip which exposes the point of the blade. The collar exhibits a few instances of verdigris and has come loose and can be removed. (9599-6,7) (50/75) Est. 50 - 75</p>

Lot	Title/Description
2892	<p>Iron Bit Brass Pipe Tomahawk</p> <p>One brass pipe tomahawk with an inlaid iron bit. The head measures 8 3/4" overall with a large teardrop eye, the leading edge 5 1/2" from the haft and the bit 2 1/2" from heel to toe. The pipe bowl extends 2" from the poll and is decorated only by plain chevrons at the base and a raised rim. The haft is unfinished hardwood, possibly ash or hickory, decorated by three sections of brass wire rings bordered by brass tacks and drilled through the core to function as a pipe. The head rates very good plus to excellent, the brass surfaces toned to mustard yellow with a slight mottled gray-brown patina and hints of scattered green verdigris. Tiny handling marks are present here and there across the edges and surfaces of the head. The iron bit is strongly oxidation-browned, lightly textured and remains sharp. The haft rates fair and exhibits light to moderate age patina and handling stains as well as a few drying and stress cracks. Several of the rings and tacks from the upper and middle bindings have been partially damaged or lost. The head is somewhat loose and shifts lengthwise along the last inch or so of the haft but remains attached. (12A9540-12) (75/150) Est. 75 - 150</p>
2893	<p>Antique California Bowie Knife by Will & Finck</p> <p>This California-style bowie measures 8 3/8" overall and features a 4 3/4" straight single-edged blade with a 2 1/2" false edge and a spear-point tip. The ricasso is marked "Will & Finck / S.F. Cal" on the reverse face. The blade is in very good condition, exhibiting a light patina of smoky gray, a small ring of oxidation around the base of the ricasso and bright grind marks around the forward edge from a later resharpening. The markings remain quite crisp with just a bit of wear at the left side of the address. The flared handle is polished horn held by a screw-bolt at the butt and fitted with a German silver guard. The hilt rates very good plus to excellent, the horn toned to a pleasing light cream with areas of tawny brown, hints of green verdigris staining (likely from previous contact with a leather sheath which is not provided) and a less polished tobacco-colored area located near the guard on the obverse side. A few cracks and hairline separations are visible, none of which show any signs of pending loss or looseness. The handle remains sturdy, whole and tightly fitted to the tang. Established in 1863 following the economic boom of the California Gold Rush, Will and Finck would go on to become the largest of the San Francisco cutlers and one of the most prolific makers of the distinctive California Bowie. (12A9540-8) (150/250) Est. 150 - 250</p>
2894	<p>Browning Cased Commemorative Robert E. Lee D-Guard Bowie Knife</p> <p>One large D-guard Bowie knife presented in a wooden display case commemorating General Robert E. Lee. 16 3/4" overall, 11 3/4" broad single-edged blade with a 5 1/2" false edge and a clipped point. The obverse face of the ricasso is numbered "0018 of 1807". The reverse face of the blade is etched in gilt type reading "First Gentleman of Virginia". The guard is bright yellow brass and the handle is sanded oak which, according to the text of the display case, is "from a black oak tree taken from the General's family estate in Arlington, Virginia." Either side of the handle is escutcheoned with thirteen brass stars in the cross pattern of the Battle Flag of the Army of Northern Virginia. The case is walnut with a glass top. The backdrop is a segment of tactical map depicting various troop positions from a Civil War battlefield and features a portrait of the General above the quote "Abandon your animosities and make your sons Americans". Both case and knife are in excellent condition. Really an excellent display set for collectors of Civil War commemorative memorabilia. (129543-304) [Phil Buker Collection] (200/400) Est. 200 - 400</p>
2895	<p>Browning Declaration of Independence Cased Commemorative Trade Knife</p> <p>14" overall length, 8 1/2" single-edged blade with a 5" false edge and a straight-clipped point. The reverse face of the blade is etched with gilt script reading "The Unanimous Declaration of the thirteen United States of America / July 4, 1776". The ricasso is marked "Model 001" and the guard is numbered "18 of 1776", both on the obverse face. The hilt is bright yellow brass with inlaid hardwood grips which, according to the case, are made from "Wood from the last surviving Liberty Tree, a Tulip Poplar, Annapolis, Maryland." Each grip is escutcheoned with a copper star at each end. The case is American Black Walnut and features a backdrop image of the Declaration itself, an oval-framed painting depicting the signing of the document and the quote "Give me Liberty or give me Death" by Patrick Henry. Both case and knife are in excellent condition. A fine acquisition for collectors of Patriotic memorabilia. (12A9543-302) [Phil Buker Collection] (200/400) Est. 200 - 400</p>

Lot	Title/Description
2896	<p>Browning Vietnam Cased Commemorative Knife</p> <p>11 1/2" overall length, 6 3/4" single-edged blade with a 3" false edge and a concave clipped point. The blade is etched "Lest We Forget" in gilt text the obverse face of the guard is numbered "18-1975". The hilt is brass mounted and the hardwood handle is, according to the case, "made from a Khan Hin tree taken from the jungles of Vietnam". The case is oak with a backdrop image depicting a topographical map of Vietnamese terrain overlaid with photographs of U.S. Bell UH-1 Iroquois ("Huey") helicopters in flight. Both knife and case are in excellent condition. (12A9543-299) [Phil Buker Collection] (200/400) Est. 200 - 400</p>
2897	<p>Browning Jim Bowie Cased Commemorative Bowie Knife</p> <p>15" overall length, 9 3/4" single-edged blade measuring 2" wide ahead of the choil with a 4" false edge, single unstopped fullers and a concave clipped point. The reverse face of the blade is etched in gilt script with the quote "Give me help, oh my country" by William Travis, 1836. The hilt is numbered "0018 of 1856" on the obverse side. The hilt is brass inlaid with hardwood grips centered by brass escutcheons of the Texas Lone Star. According to the case, the grips are "Live oak wood from the grounds of the Alamo." The case is walnut with a map of Texas as a backdrop overlaid with a portrait of Jim Bowie and William Travis's same quote from the blade. Both blade and case are in excellent condition. A fine acquisition for the collector of Bowie knives and Texas commemorative memorabilia. (12A9543-300) [Phil Buker Collection] (200/400) Est. 200 - 400</p>
2898	<p>Browning Crazy Horse Cased Commemorative Obsidian Knife</p> <p>9 1/4" overall length, 4 1/2" double-edged flint-knapped obsidian blade tapered to a spear-point tip. The blade is bound by rawhide to a hardwood handle which, according to the case, is made from "Aspen wood from the Tree of Life, Black Hills, South Dakota". The handle is decorated by a tassel of horse hair with a bird's feather. The sheath is brain-tanned tasseled buckskin hand-beaded with multicolored horses on a blue field bordered by geometric designs. The case is walnut featuring a portrait of Lakota war leader Tashunka Witco aka Crazy Horse. Beneath the portrait is a quote attributed to Crazy Horse reading "My lands are where my dead lie buried." Both blade and case are in excellent condition. An unusual primitive knife of excellent craftsmanship and a fine acquisition for collectors of Native American commemorative memorabilia. (1A29543-303) [Phil Buker Collection] (200/400) Est. 200 - 400</p>
2899	<p>Browning Normandy Cased Commemorative Fighting/Utility Knife</p> <p>Patterned after the U.S.M.C. Fighting/Utility Knife (commonly known as the Ka-Bar), this knife measures 13" overall and features an 8" single-edged dark satin-gray blade with single unstopped fullers, a 2" false edge and a clipped point. The reverse face is etched in gilt type reading "Normandy 1944 - 'Let's Go.'", quoting General Dwight D. Eisenhower on the morning of June 6th, giving the order to proceed with the attack. The handle is, according to the case, "made from the wood of an ash tree taken from the General's boyhood home in Dennison, Texas." The case is walnut with a backdrop depicting a map of Normandy overlaid with a photograph of Eisenhower addressing a group of GIs. Both case and knife are in excellent condition. Alternate versions exist of Eisenhower's D-Day order, including multiple conflicting accounts by Eisenhower himself who presumably had more pressing concerns at the time than quotability. Volunteers for the U.S. National D-Day Memorial use the phrase "Ok, let's go" in the official tour script. A fine acquisition for collectors of WWII and commemorative memorabilia. (12A9543-301) [Phil Buker Collection] (200/400) Est. 200 - 400</p>
2900	<p>German Hunting Dagger by Weyersberg & Co.</p> <p>17 3/4", 13" straight single-edged blade with flat edges and a fine spear-point tip. The ricasso is stamped "Weyersberg / & Co. / Solingen" on the reverse face. Either face of the blade is etched with panels featuring hunting imagery including a traditionally dressed German hunter and dog and panoplies of wreathed hunting arms centered by a stag's head. The obverse face is centered by a woodland scene of feeding deer and the reverse is centered by script reading "Gott Mit Uns". The blade is in excellent condition with few blemishes except occasional unobtrusive specks of gray patina at the corners. The hilt is brass with a pierced design of an auerhahn (wood grouse) on the counterguard, "S"-quillon guard with acorn finials, stag grips each held by two brass screw-bolts and an eagle's head pommel. Aside from a few small hints of green verdigris, the hilt is unblemished and excellent. The included scabbard is leather with two brass mounts featuring an acorn frog stud on the collar and an embossed auerhahn on the chape that matches the counterguard. The scabbard is in fine condition with only very light handling wear and a minor softening of the embossed detail. (129658-1) (200/400) Est. 200 - 400</p>

Lot	Title/Description
2901	<p>Ivory Hilted Naval Dirk Inscribed to George Spencer, Duke of Marlborough</p> <p>23" overall length, 17 1/2" curved double-edged blade with a diamond cross-section, double unstopped narrow fullers and a trailing point. Dirks of this style were popular among naval forces of the 18th and 19th centuries and this specimen appears to be a later construction drawing from that tradition. The ricasso is marked "19" on the reverse face to the right of the medial ridge, likely part of a date stamp that has been partially worn away. The blade is well constructed with even bevels characterized by highly professional straight-lined grind marks. The steel is in fine condition as cleaned, polished to a brilliant sheen throughout and exhibiting a dusky patina of speckled smoky gray dusted by clouds of brown as well as dark gray instances of texturing from polished shallow pitting. The edges are largely unblemished and reasonably sharp. The hilt is carved ivory, the quillons forming scrolled waves and the grip carved in the likeness of a bearded satyr. The quillons bear the inscription "George Spencer / Duke of Marlborough". The ivory is aged to a pleasing cream and in excellent condition. The name George Spencer first belonged to the 4th Duke of Marlborough, born 1739, a direct ancestor to the renowned Sir Winston Churchill, Prime Minister of Britain from 1940-1945 and 1951-1955. The name George Spencer-Churchill was held by the 5th, 6th and 8th Dukes of Marlborough and is also the name of the current Marquess of Blandford, son of the current (12th) Duke of Marlborough James Spencer-Churchill. This dirk's connection to the Spencer-Churchill lineage is unconfirmed, still this blade remains a fascinating curio and a quite fine dirk in its own right. (12B9654-60) (200/400) Est. 200 - 400</p>
2902	<p>Ivory Hilted Hunting Sword</p> <p>28 1/2" overall length, 23" straight double-edged unfullered blade with a spear-point tip. The blade rates very good plus to excellent, polished bright with scattered clouds of smoky gray patina, straight-lined polishing marks along the length and trace remnants of the original scratch-engraving near the edges around the ricasso. Any maker's mark has been worn away. The hilt is brass mounted and features a scabbard seal atop the cruciform guard and ivory grips line with a sheet brass band around the edges held by brass pins. Three oval brass escutcheons are mounted on either grip. The ivory is toned to a pleasant cream tone; several cracks are visible but none exhibit any separation and the grip remains tightly fitted with no discernible loss. The brass shows some small handling marks and scattered flecks of tarnish and the hilt is in fine condition as a whole. The included scabbard is wood bound in patinated tawny leather with brass tip and throat mounts. A segment of the body is faded where it once held a middle mount as well. The collar has lost its retention pin and can be removed. A number of drying cracks in the leather, gray-brown patches of patina on the brass and small handling marks scattered throughout can be seen, otherwise the scabbard exhibits very little loss and rates very good plus to fine as a whole. The edges of the sword are well-maintained and near razor sharp with a fine applesseed profile. Really a very nice little sword built to serve as both dress accessory and hunter's companion arm. (12A9654-59) (150/250) Est. 150 - 250</p>
2903	<p>Reproduction Miniature Confederate Saber</p> <p>This approximately 2:3 scale miniature measures 26" in overall length and features a 21 1/2" curved single-edged blade with a 5" false edge, single unstopped fullers and a spear-point tip. The ricasso is crisply stamped "Boyle & Gamble / Richmond" on the obverse face and "CS / 1862" on the reverse. The blade is in very good condition, toned to a smooth dark gray scattered by shallow antiqued pitting throughout. The hilt is brass with a half-basket guard with two branches spanned by "CS" lettering, a plain domed phrygian pommel and black leather grip wound by twisted brass wire. The brass is patinated to a dark tobacco color with a few contact points worn to bright pale yellow and scattered tiny handling marks. The leather is antiqued to a rough texture with some areas of flaking loss. Overall the hilt is about good. The tang is slightly loose-fitting and the blade alignment drifts a bit to either side. An interesting miniature replica. (129599-9) (150/250) Est. 150 - 250</p>
2904	<p>Arno Bernard Predator Series "Cheetah" Hunting Knife</p> <p>This fine hunting knife measures 8 1/2" overall and features a 4 1/4" single-edged full tang blade with a drop point. The bright excellent blade is near razor sharp and exhibits no discernible blemishes. The grips are polished tawny brown and white giraffe bone held by steel pins. Includes a fitted sheath of cape buffalo leather. Both knife and sheath are in excellent condition. A splendid hunting blade by this esteemed South African knifemaker. (12A9543-281) [Phil Buker Collection] (200/400) Est. 200 - 400</p>

Lot	Title/Description
2905	<p>Arno Bernard Scavenger Series "Wild Dog" Hunting Knife</p> <p>This fine hunting knife measures 7 3/8" overall and features a 3 3/4" single-edged full tang blade with a drop point and a forefinger cutout forward of the ricasso. The blade is in excellent condition with an immaculate near razor edge and no discernible blemishes. The grip scales are natural crocodile hide. Includes a fitted sheath of cape buffalo leather. Both knife and sheath are in excellent condition. A splendid hunting blade by this esteemed South African knifemaker. (12A9543-292) [Phil Buker Collection] (200/300) Est. 200 - 300</p>
2906	<p>Arno Bernard Bush Baby Series "Porcupine" Sheath Knife</p> <p>This slender belt knife measures 5 7/8" overall and features a 3 7/8" single-edged full tang blade with a trailing point. The polished steel blade is in excellent condition with an immaculate razor edge and no discernible blemishes. The handles are highly polished warhog tusk held by steel pins, colored with an attractive cream and tan figure and exhibiting no discernible blemishes. Includes a fitted sheath of cape buffalo leather. Both knife and sheath rate excellent. A marvelous little blade of exceptional quality. (12A9543-283) [Phil Buker Collection] (150/250) Est. 150 - 250</p>
2907	<p>Custom Fixed Blade Sheath Knife by D.E. Friedly</p> <p>6 1/2" overall length, 2 7/8" single-edged full tang blade with a shallow-angled drop point. The blade is polished mirror bright and in excellent condition with a razor sharp edge and no discernible blemishes. The grips are maroon micarta held by flush steel rivets. Includes a russet leather tube sheath in very fine condition with only very light storage and handling wear. A sleek little knife of superb craftsmanship and in excellent condition. (129543-298) [Phil Buker Collection] (200/400) Est. 200 - 400</p>
2908	<p>Custom Fixed Blade Sheath Knife by SK</p> <p>7 1/4" overall length, 3 3/4" single-edged recurved full tang blade with a straight-backed point. Sections of undulating filework decorate the spine of the blade and the rear edge of the tang. The logo (circled) "SK" is etched on the reverse face of the ricasso. The bright blade is in excellent condition with a near razor edge and no discernible blemishes. The grips are white camel bone and mesquite burl centered by a small band of stabilized maple burl, each grip held by two steel pins in the bone and a decorated mosaic pin in the mesquite. A small partial crack can be seen in the obverse grip near the toe and heel which exhibit no signs of looseness or pending loss. A short leather lanyard decorated by white bone beads hangs from the hole at the end of handle. Overall the handle is in about excellent condition. The included tube sheath is tan leather with an aluminum swivel clasp and rates excellent with no discernible blemishes. (12A9543-288) [Phil Buker Collection] (200/300) Est. 200 - 300</p>
2909	<p>Custom Fixed Blade Sheath Knife by SK</p> <p>8" overall length, 3 1/4" single-edged recurved full tang blade with a straight-backed point. Sections of scalloped filework decorate the spine of the blade and the rear edge of the tang. The logo "SK (circled)" is etched on the reverse face of the ricasso. The bright blade is in excellent condition with a near razor edge and no discernible blemishes. The grips feature bands of polished malachite between panels of mesquite burl and rosewood held by steel pins and centered by a small brass-accented mosaic rivet on either face. Includes a black leather sheath hand-tooled in a large pebbled pattern. Both sheath and knife rate excellent. Really a quite attractive and well-made belt knife. (12A9543-293) [Phil Buker Collection] (200/300) Est. 200 - 300</p>
2910	<p>Custom Fixed Blade Sheath Knife by Hinds Brothers</p> <p>7" overall length, 3 1/4" single-edged full tang blade with a drop point. Attractive filework begins 1 3/4" from the point and runs the length of the spine and tang to the toe of the handle. The reverse face is stamped "Hinds Brothers / Maker / Bandera, Texas". The blade is excellent and razor sharp with an expertly polished applesseed edge. The grips are tawny yellow bone with stainless steel bolsters. The bolsters exhibit slight cloudiness and a yellow tint, otherwise the handle is unblemished and rates excellent overall. The included sheath is russet leather stamped with a beautiful design of overlapping spotted scales. Overall a splendid knife of exceedingly fine make. (129543-275) [Phil Buker Collection] (200/300) Est. 200 - 300</p>

Lot	Title/Description
2911	Custom Fixed Blade Sheath Knife by Jerry Halfrich 7 1/4" overall length, 3 1/2" single-edged full tang blade with a drop point and ridged thumb rest along the spine above the handles. The blade is about excellent with a razor sharp unblemished edge, sparse minute handling marks and a few tiny specks of smoky gray patina on the bevels. The handles are highly polished white bone held by mosaic rivets, exhibiting no discernible blemishes and rating excellent. The included sheath is smooth black leather and rates very fine with only light handling and storage marks. An elegant knife of straightforward design and impressive craftsmanship. (12A9543-276) [Phil Buker Collection] (300/500) Est. 300 - 500
2912	Custom Fixed Blade Sheath Knife by Keith Richard 7 1/2" overall length, 3 1/4" single-edged full tang blade with a drop point. The blade is excellent, polished to mirror bright and featuring an immaculate razor edge with a fine applanated profile. The handles are highly polished white and gray stag horn held by brass pins and topped by brass bolsters. The brass surfaces exhibit a subtle varied patina with some areas worn brighter by scabbard contact. The bone is unblemished and the handles are in excellent condition as a whole. The included sheath is dark russet brown leather engraved on the obverse face with a stag's head just below the throat. The sheath is in excellent condition with only minimal handling and storage wear. An exceptionally made custom belt knife. (1A29543-280) [Phil Buker Collection] (250/350) Est. 250 - 350
2913	Custom Fixed Blade Sheath Knife by F. Bradley 8" overall length, 4" single-edged blade with a drop point. The spine of the blade features a section of scalloped filework and a ridged thumb rest. The bright excellent blade is near razor sharp with no discernible blemishes. The guard is stainless steel and the handle is stabilized bird's eye maple, dyed purple with a band of natural color set between stainless steel spacers. The hilt is in excellent condition. The included sheath is russet top-grain leather decorated by a cross-section of white stag horn. The sheath rates about excellent with just a few very light storage and handling marks. (12A9543-289) [Phil Buker Collection] (100/200) Est. 100 - 200
2914	Custom Fixed Blade Sheath Knife by Wilson Tactical 9" overall length, 4 1/4" single-edged full tang blade with a 3" false edge, straight-clipped point and a filework thumb rest along the flat of the spine. The bright excellent blade is razor sharp with no discernible blemishes. The guard is stainless steel and the handles are highly polished sambar stag held by steel rivets. The included sheath is black shark skin leather and rates excellent. An attractive blade of excellent quality. (12A9543-277) [Phil Buker Collection] (300/400) Est. 300 - 400
2915	Custom Fixed Blade Sheath Knife by Bruce Gillespie 9 1/2" overall length, 4 1/2" single-edged full tang blade with a 2 1/2" false edge, straight-backed point and diagonally grooved filework on the flat of the spine. The bright excellent blade is razor sharp and nearly unblemished save a few tiny hints of patina on the bevels. The grips are spalted maple held by brass pins and the guard is brass with a bit of light cloudy tarnish. Overall the handle rates excellent. The included leather tube sheath is also unblemished and in excellent condition. An appealing sportsman's companion for both practical and aesthetic purposes. (12A9543-278) [Phil Buker Collection] (150/250) Est. 150 - 250
2916	Damascus Scrimshaw Hunter by Lonewolf 9 1/4" overall length, 4 3/4" single-edged blade with a trailing point and undulating filework along the spine. The blade features a chaotic pattern of high-contrast Damascus swirls and rates excellent with a near razor edge and few if any blemishes. The handle is stag between a brass guard and a stabilized maple buttcap; the obverse face of the handle is scrimshawed with an image depicting a Native American brave in war paint. The hilt is in excellent condition with no handling marks or blemishes except some very light hints of tarnish and verdigris on the guard. The included sheath is of dark brown leather stitched with broad black leather binding and decorated by a cross-section disc of stag horn. The sheath is in very fine condition with a bit of light handling wear. A magnificent example of an expertly crafted art knife. (12A9543-286) [Phil Buker Collection] (300/500) Est. 300 - 500

Lot	Title/Description
2917	Fox-n-Hound Gut Hook Skinner 7" overall length, 3 1/2" single-edged blade with a drop point and a gut hook cutout. The faces are etched with undulating low-contrast faux Damascus swirls and stripes. The blade is in about excellent condition with an unblemished near razor edge and occasional tiny flecks of gray patina. The hilt comprises a single brass fingerguard and a white polished stag handle beneath brass and leather spacers, finishing in a white stag buttcap made from a separate piece of horn. The hilt is in excellent condition with few if any discernible blemishes. Overall a quite nice blade that should make a fine skinner. (12A9543-305) [Phil Buker Collection] (25/50) Est. 25 - 50
2918	Custom Damascus Fixed Blade Sheath Knife by R. Johnson 8" overall length, 3 1/4" single-edged blade with a drop point. The blade is pattern-welded steel with undulating smoky gray medium-contrast lines and swirls, rating about excellent with an unblemished near razor edge and a few tiny handling marks and instances of patina here or there. The handle is rosewood between brass and red leather spacers, finishing in a brass fingerguard and a brass buttcap. The wood is in excellent condition and the brass surfaces rate very fine, exhibiting areas of thin cloudy patina concentrated mostly on the pommel and a few handling marks. The included sheath is leather and rates about excellent with the barest handling marks which are largely negligible. An attractive and comfortable short-bladed belt knife. (12A9543-287) [Phil Buker Collection] (100/200) Est. 100 - 200
2919	Custom Etched Satin Fighting Knife by Jim Siska 9 1/2" overall length, 4 1/2" recurved single-edged blade with a 2 1/2" false edge and a straight-clipped point. The blade features a black satin finish decorated by attractive semi-chaotic stripes of bright acid-etched swirls. The handle is elegantly contoured ironwood burl between a double-fingerguard and a thin bird's head pommel, both of blue-anodized steel. The knife as a whole is in excellent condition with razor sharp edges and no discernible blemishes. The included leather sheath is hand-marked "Siska / 03" on the reverse face and also rates excellent. Really a quite gorgeous custom fighter, as comfortable in the hand as it is pleasing to the eye. (12A9543-297) [Phil Buker Collection] (400/600) Est. 400 - 600
2920	Custom Throwing Mouse Tomahawks Two small custom throwing axes: the first features a hand-forged steel head measuring 4" from bit to poll with flared blade and a 2 1/4" bit. The head is mounted on an 11" contoured hickory haft pierced at the butt for a lanyard. The bit is polished to near mirror bright, sharp with no discernible blemishes. Overall the axe is in about excellent condition with just a bit of play at the eye. This axe also includes a russet leather snap-button blade cover in very fine condition with a few light handling and storage marks. The second axe features a satin gray-finished steel head measuring 4 3/4" from bit to poll with a 2" bit. The "Beathe Knives" maker's mark has softened somewhat. The head is in near excellent condition, retaining a sharp smooth edge and exhibiting occasional flecks of ocher on the bevel. The straight haft is dark red curly maple, tightly fitted and excellent. An altogether wonderful little pair of well-made lightweight throwing axes. (12A9543-282) [Phil Buker Collection] (50/75) Est. 50 - 75
2921	Limited Edition Graf von Frankenberg Folding Knife No. 478 of 734 by Puma Werk 8 3/4" overall length, 5" closed, 4" single-edged blade with a 2 1/4" false edge and concave clipped point. Puma produced 734 of these knives in 1976 commemorating Graf Ruthard von Frankenberg, an ancestor of Otto von Frankenberg, then-president of Puma-Werk; fewer than half (330 knives) were created for U.S. distribution. Either face of the blade is etched with frosted panels depicting oak leaves and the coat of arms of the Graf von Frankenberg is etched on the reverse face. Each panel is centered by text reading "AD 734 Graf von Frankenberg" on the reverse and "Puma Germany 478" on the obverse. The blade is in excellent condition with a sharp edge, generous traces of gilt in the lettering and coat of arms on the obverse face and few if any blemishes or handling marks. The handles are engraved ivory depicting a boar on the reverse and a stag on the obverse; the bolsters are brass cast-in-relief with fine oak leaf designs. Hints of verdigris can be seen in the recesses of the brass, otherwise the handle is unblemished and excellent. Includes the velvet-lined factory presentation box and factory certification parchment in German, English and French language. A beautiful collectible Solingen folder and some of Puma's finest work. (12A9543-290) [Phil Buker Collection] (500/700) Est. 500 - 700

Lot	Title/Description
2922	<p>Winchester 150 Year Theodore Roosevelt Commemorative Knife Set</p> <p>Two knives in a commemorative steel case with a red velvet-lined plastic insert. First, a fixed blade knife measuring 10" overall and featuring a 5 1/2" stainless steel full tang single-edged blade with a 2 1/4" false edge and concave clipped point. The grips are black hardwood laminate held by steel pins and pierced for a lanyard near the squared bird's head butt. The second knife is a folder measuring 3 1/2" closed and featuring three stainless steel blades: 2 3/4" with a shallow straight-clipped point, 2" with a sheepfoot point and 2" with a drop point. The grips are black hardwood laminate with steel pins and the bolsters are stainless steel. Both knives are in excellent condition and the case rates near excellent with a few light handling marks. Includes a nylon sheath for the larger knife. (12A9543-285) [Phil Buker Collection] (50/75) Est. 50 - 75</p>
2923	<p>Push Daggers</p> <p>Three push daggers. The first measures 6" in length with a straight bone handle 3" across and a 3 3/4" double-edged blade with a diamond cross section and a spear point tip. The blade is in about excellent condition with polished maintenance marks across the faces and sharp unblemished edges. The brass double fingerguard is patinated to a tawny yellow-brown with areas of ocher. The bone handle is toned to a pleasant cream and rates very fine, exhibiting a few hairline cracks and striations and remaining tightly fitted with no pending loss or looseness. Overall the dagger is in fine condition. The second dagger measures 3 3/4" overall and features a 3 1/2" concavo-convex full tang handle with plastic grips and a 2 1/4" double-edged blade with a broad spear-point tip. The steel is deeply engraved with crisp foliate scroll on either face of the blade and the center faces of the handle between the grips. The blade rates near excellent with a few tiny handling marks on the faces and sharp unblemished edges. The grips are eggshell white and exhibit a few tiny handling marks upon close inspection. Overall the dagger rates near excellent. The third dagger measures 5" overall and features a 2 3/4" kydex handle and a 2 1/2" double-edged blade with narrow serrations on the forward edge, wide serrations on the reverse edge and a spear-point tip. The dagger is in excellent condition with no discernible blemishes and razor sharp edges. Includes one clip-on kydex sheath. Overall a nice assortment of push daggers. (128931-183A)</p>
2924	<p>Fixed Blade Knives</p> <p>Two knives: the first measures 7 1/4" overall and features a 3 3/4" double-edged stainless blade with a diamond cross-section and a spear point tip. The edges remain serviceably sharp and the surfaces are scattered by occasional areas of textured dark gray patina mostly near the edges; overall the blade is in good condition. The handle consists of a brass crosspiece, wooden one-piece grip and plain brass buttcap. The hilt shows a few light handling marks here and there and slight tarnish of the brass, rating very good overall. Includes one black leather sheath with a snap-button closing strap. The second item is a black one-piece cast polymer knife measuring 7 3/4" in length and featuring a 3 3/4" double-edged blade with a thick diamond cross-section and a spear point tip. The obverse face of the grip is labeled "Executive Letter Opener II". The edge is serviceably sharp and the knife is unblemished in excellent condition. (128931-183B)</p>
2925	<p>Dan Burke #65 Baby Sunfish Folding Knife by Queen Cutlery</p> <p>3 3/4" closed, two blades: the first 2 3/4" single-edged with a pronounced spey point, the second 1 1/2" single-edged with a spear point. The handles are highly polished tawny orange bone between steel bolsters, the faces scrimshawed with numerous variations of the Queen Cutlery Co. logo. The knife is unused, never resharpened, and in overall excellent condition. Includes the original Queen Cutlery Co. two-piece box. (12A8931-183C) (150/250) Est. 150 - 250</p>
2926	<p>Uncle Henry Pro Trapper Folding Knife</p> <p>4" closed, two single-edged blades: the first 3 1/4" with a spey point, the second 3 1/4" with a straight-clipped point. The handles are faux stag between nickel silver bolsters and held by brass pins. The knife is in excellent condition with no discernible blemishes and excellent razor sharp edges on each of the blades. An excellent everyday folder. (128931-183D) (30/50) Est. 30 - 50</p>

Lot	Title/Description
2927	<p>Folding Knives</p> <p>Three knives. The first is a Case Knives folder which measures 3" closed and features two single-edged blades: the first is 1 5/8" with a spear point, the second 2" with a drop point. The handles are satin-ivory colored acrylic between nickel silver bolsters. A few instances of smoky gray patina are present on the faces of the blades, otherwise the knife is unblemished and rates near excellent overall. The second knife measures 3 1/4" closed and features a single 2 1/2" curved single-edged blade with a trailing point, bottle opener cutout on the reverse edge and can opener cutout on the leading edge just above the ricasso. The handles are faux stag on steel bolsters and held by brass pins. The knife is in excellent condition with a sharp edge and few blemishes. The third knife is a Frost Knives folder which measures 4 1/2" closed and features a spring clip on the obverse of the handle and a 3 1/2" single-edged black coated blade with 1 1/2" of serrations at the base of the leading edge, stainless steel thumb stud on the reverse face and a spear point tip. The grips are plastic in a cattail reed print. The blade is unblemished, sharp and excellent and the handles are about excellent with one or two unobtrusive handling marks. (128931-183E)</p>
2928	<p>Contemporary Primitive Flint Knife</p> <p>6 3/4" overall, 3" double-edged knapped flint blade with a spear point. The blade is attached to a lightly polished bone handle by rawhide binding. The knife is in excellent condition, unblemished save a bit of graying patina on the bone. A well-crafted example of a classic design. (12A8931-183F)</p>
2929	<p>German Hunting Knife Set by Sternitzky</p> <p>Two hunting knives with a single combination sheath. The larger knife measures 14 3/4" overall and features a 9 1/2" single-edged blade with 3 3/4" false edge, single stopped fullers and a spear point. The blade is bright steel polished to a beautiful and exceedingly clear mirror finish; very light handling marks and unobtrusive minute specks of smoky gray patina can be seen here or there, otherwise the blade is in about excellent condition and mostly unblemished. The hilt consists of an S-quillon guard, japanned clamshell counter guard on the obverse side and a slightly contoured steel handle with stag grips held by iron rivets. The maker's mark "Sternitzky / Linz" is stamped on the obverse face of the rear quillon. The metal surfaces retain traces of original blue and translucent gray lacquer finish with very light handling marks, overall toning to a smooth mottled pewter gray. The grips are unblemished and excellent. The smaller knife measures 8" overall and features a 4" full tang single-edged blade with a spear-point tip. The steel is also polished to a clear mirror bright and rates excellent with only very tiny handling marks and pinpricks of gray patina mostly concentrated on the ricasso. The grips are stag held by steel pins, matching the larger knife, and rate excellent. The scabbard is wood bound in black thickly lacquered leather with two steel mounts. The metal surfaces are an attractive mottled blend of blue and dark gray and rate very fine with only the barest handling marks. The leather is unblemished, protected by the strong lacquer. Overall a very fine set of German hunting blades. (129632-7) (500/700) Est. 500 - 700</p>
2930	<p>Gerber Mark II 20th Anniversary Limited Edition Knife</p> <p>serial # xx2092, 11 3/4" overall, 6 3/4" double-edged leaf blade with a diamond cross-section and a spear point. The blade is canted 5 degrees from the hilt for ease of carry. The blade is etched "Mark II / 20th Anniversary 1966-1986" on the reverse face, stamped with the Gerber logo and address on the reverse of the ricasso and stamped with the serial number on the obverse. The hilt comprises a textured aluminum handle with a black-painted guard and butt. The knife is in excellent condition with no discernible blemishes and appears unused. Includes the original factory box and complete packaging, including certificate of authenticity numbered to the knife and an accompanying leather sheath, also unused in excellent condition. Celebrating the 20th Anniversary of the Gerber Mark II design, only 5000 of these limited edition knives were ever made. (12A9312-158A) (300/500) Est. 300 - 500</p>
2931	<p>Custom Damascus Staghorn Tanto</p> <p>11 1/2" overall, 6 5/8" single-edged Damascus blade with a 6 1/4" unsharpened false edge, tanto point and 1 1/2" serrated segment on the forward edge just above the choil. The guard is a rectangle of Damascus steel and the handle is stag horn between polished horn and brass spacers and a Damascus disc buttcap. The blade is patterned with medium-contrast concentric rings and rates very fine, exhibiting few handling marks and scattered spots of dark smoky gray patina. Flecks of oxidation are present on the guard and pommel and a few negligible handling marks can be seen on the handle. The knife is well-fitted with no play or looseness and the edge is sharp and unblemished. Overall the knife is in about excellent condition. A handily crafted custom knife, both an attractive collector's piece and a robust tool. (12A9312-158B) (100/200) Est. 100 - 200</p>

Lot	Title/Description
2932	Applegate-Fairbairn Covert Folding Knife by Gerber 5" closed, 3 7/8" single-edged blade with partially serrated edge, ridged thumb rest at the base of the spine and dual thumb studs behind the ricasso on either side. The ATS-34 satin stainless blade is etched on the reverse face with the signatures of Rex Applegate and William E. Fairbairn and the ricasso is stamped "Gerber" on the reverse face and "U.S.A." on the obverse. The handle consists of black glass-silicon nylon grips held by steel screws and features a steel pocket clip and manual safety lock. The knife is in excellent condition with no discernible blemishes. All parts function well mechanically and the blade is sharp and excellent. Includes the original factory box. (12A9312-158C)
2933	CRKT M16-12LE Law Enforcement Folding Knife 4 1/4" closed, 3 1/4" single-edged black-coated blade with partially serrated edge, tanto drop point and dual checkered thumb studs. The handles are glass-reinforced black nylon and feature a safety lock and a steel pocket clip on the obverse side. The knife is in excellent condition with no discernible blemishes. All parts function well mechanically and the edge is sharp and excellent. Includes factory box and paperwork. (129312-158D)
2934	Kershaw Speed-Safe Black Leek Assisted Opening Folding Knife 4" closed, 3" matte black single-edged blade with dual thumb studs and Speed-Safe rear flipper. The handles are matte black coated steel, matching the blade, and feature a stainless steel pocket clip and safety lock on the obverse side. The knife is in excellent condition with no discernible blemishes. All parts function well mechanically and the edge is sharp and excellent. Includes factory box and paperwork. (129312-158E)
2935	Ambidextrous Double Scout Carry Tactical Micro Stiletos Two knives in a combined horizontal nylon belt sheath with snap-button closing straps. Each knife measures 7" long and features a 3 3/4" stainless double-edged blade with a diamond cross-section, spear point and 1" serrated midsection on either edge. The handles are black checkered rubber. Both knives and sheath are in excellent condition with no discernible blemishes. (129312-158F)
2936	Boker Automatic Folding Knife 4" closed, 3" matte black single-edged blade with a drop point. The handles are black-finished aluminum with stippled pebble-grain textured rubber grip panels and the knife opens via a low-profile inlaid button on the reverse handle. The knife is in excellent condition with no discernible blemishes, smooth mechanical operation and an immaculate factory near-razor edge. Includes one Boker nylon belt pouch in near excellent condition with the barest light staining. {Please note: all automatic knives may be sold to New Hampshire residents only.} (129312-158G) (50/75) Est. 50 - 75
2937	Folding Knives Two folding knives. The first measures 2 3/4" closed and features a 2 1/4" stainless steel hawkbill blade. The handles are bone with stainless steel bolsters and brass bolster lining. The reverse-side handle is scrimshawed with a pleasant landscape of a lighthouse. The knife folds and locks well and retains a sharp factory edge. Only a few small handling marks are present and the knife is in about excellent condition. The second knife measures 4 1/8" closed and features a 3 1/4" stainless steel clipped point blade with a 2" concave false edge. The curved handles are oak held by brass pins on stainless steel bolster linings. The knife folds and locks well and retains a sharp factory edge. Few if any discernible blemishes are present save a bit of darkening of the brass and the knife is in excellent condition. (129312-158H)
2938	CRKT Ryan Plan B Fixed Blade Knife 7" overall length, 3" forward-curved full-tang satin stainless steel blade with a partially serrated edge and a drop point. The grips are stippled black thermoplastic in a zig-zag pattern held by steel screws. The knife is in excellent condition with a sharp factory edge and few if any blemishes except some very light handling wear on the grips. Includes one fitted kydex sheath with a reversible pocket/belt clip and a cotton cord strap. (129312-158J)
2939	Zero Tolerance 0350 G-10 Assisted Opening Folding Knife 4 1/2" closed, 3 1/2" recurved black coated blade with a concave thumb rest cutout, dual thumb studs, spring-assisted flipper and drop point. The handles are checkered G-10 fiberglass laminate on stainless steel bolster linings and feature a steel pocket clip on the obverse side. The knife opens and locks well mechanically and retains a razor sharp unblemished factory edge. No discernible blemishes are present and the knife is in excellent condition overall. Includes the original factory box and owner's manual. (129312-158K) (100/150) Est. 100 - 150
2940	MTech Large Folding Stiletto 7" closed, 6 1/4" single-edged satin stainless blade with a 3 1/2" false edge, front and rear flippers, reverse-face thumb stud and a spear point. The grips are rosewood with satin stainless bolsters and bolster linings. The knife folds and locks well and retains an unblemished sharp factory edge. No discernible blemishes are present and the knife is in overall excellent condition. (129312-158L)

Lot	Title/Description
2941	NRA Collectible Knives Four NRA-marked knives. The first measures 3 3/8" closed and features a 2 5/8" single-edged stainless steel blade with a straight-clipped point. The handles are rosewood held by brass pins with stainless steel bolsters and linings. The second is a Dakota Outdoor Cutlery folder which measures 2 3/4" closed and features three blades: 1 3/8" sheepsfoot, 2" straight-clipped point, 1 1/2" drop point. The handles are faux stag with nickel silver bolsters and brass bolster linings. The factory box is included. The third knife measures 4" closed and features a 3 1/4" single-edged black coated blade with dual thumb studs, spring-assisted rear flipper and a drop point. The handles are checkered black aluminum and feature a steel pocket clip on the obverse face. The fourth is a fixed blade sheath knife sheath measuring 6 1/4" overall and featuring a 2 3/4" single-edged full tang stainless steel blade with a straight-backed point. The handles are white bone with stainless steel bolsters etched with foliate designs. Includes a black leather sheath with a snap-button closing strap. All knives function well mechanically and are in excellent condition with sharp edges and few if any blemishes. (129312-158M) (30/50) Est. 30 - 50
2942	Tomahawk Custom Cutlery U.S.M.C. Mameluke Saber Folding Knife 4" closed, 3 1/4" single-edged stainless steel blade with a narrow drop point. The reverse face of the blade is etched "United States Marines". The handle is modeled after the U.S. Marine Corps Mameluke Saber with cream-colored plastic grips and yellow-anodized bolsters, bolster linings and embossed star pins. The knife folds and locks well and retains a sharp unblemished factory edge. Only a few very light handling marks are present and the knife rates excellent overall. Includes the factory box. (129312-158N) (50/75) Est. 50 - 75
2943	Leatherman Multitool One stainless steel multitool measuring 4" closed. Featured tools include: 8"/20cm ruler; pliers; file; knife blade, 2 3/4" single-edged clipped point; reamer; flathead screwdriver, 1/4" bit; flathead screwdriver, 3/8" bit; can/bottle opener; Phillips head screwdriver; flathead screwdriver, 1/8" bit. A previous owner's initials and the date "1991" are scratch-engraved on the obverse face of the handles. A few tiny spots of patina and handling wear are sparsely scattered here and there which are cosmetic only. All tools are functionally excellent. Includes a Leatherman fitted belt pouch in near excellent condition, exhibiting some largely negligible patina on the metal fittings. (12A9312-158P) (50/100) Est. 50 - 100
2944	NRA 140th Anniversary Commemorative Folding Knife 3 1/2" closed, 3" single-edged stainless steel blade with a straight-clipped point. The reverse face of the blade is etched "NRA". The handles are sanded oak with brass bolsters and steel bolster linings. A brass Minuteman escutcheon is inlaid in the reverse-side handle. The knife comes in a commemorative steel case; the inside of the lid is printed with the painting "The Battle at Old North Bridge" by Alonzo Chappel (1828-1887) and the first verse of "The Concord Hymn" by Ralph Waldo Emerson. Both knife and case are in excellent condition. (129312-158Q)
2945	A.G. Russel Folding Knife 4 1/4" closed, 3 3/4" single-edged clip point blade with a 2" concave false edge. The handles are stag held by steel rivets with stainless steel bolsters and bolster linings. A braided leather lanyard hangs from the butt. The knife folds and locks well and the razor sharp factory edge is unblemished and excellent. An attractive and well-made folding knife. (129312-158R) (150/250) Est. 150 - 250
2946	Folding Knives Two folding knives. The first is a Smith & Wesson Special Tactical folder measuring 4 3/4" closed and featuring a 3 1/2" single-edged satin stainless blade with a partially serrated edge, front and rear flippers, reverse-face thumb stud and tanto drop point. The handles are checkered black rubber with a satin stainless pocket clip on the obverse side. The knife is in about excellent condition with a few small handling marks on the blade. The second knife is a Cold Steel folder measuring 3 5/8" closed and featuring a 2 3/4" single-edged clipped point blade. The grips are checkered hard rubber. The edge is razor sharp and the knife shows no discernible blemishes, rating excellent overall. Includes one fitted black nylon belt pouch. (129312-158S)
2947	CRKT M16-11k Compact EDC Folding Knife 4" closed, 3 1/4" single-edged black coated blade with a partially serrated cutting edge, 2 5/8" false edge, dual checkered thumb studs, rear flipper and spear point. The handles are pierced black anodized aluminum and feature a safety lock and pocket clip on the obverse side. The knife is in excellent condition with a razor sharp factory edge and no discernible blemishes. Includes the factory box and manual. (129312-158T) (25/50) Est. 25 - 50

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
2948	CRKT M21-02 Carson Design Folding Knife 4 1/4" closed, 3 1/4" single-edged satin stainless blade with dual checkered thumb studs, rear flipper and a drop spear point. The handles are pierced gray-anodized aluminum and feature a satin stainless pocket clip and safety lock on the obverse side. The knife is in excellent condition with a razor edge and no discernible blemishes. Includes the original factory box. (129312-158U) (50/75) Est. 50 - 75
2949	CRKT M21-04 Carson Design Folding Knife 5 3/8" closed, 4" single-edged satin stainless blade with dual checkered thumb studs, rear flipper and a drop spear point. The handles are pierced gray-anodized aluminum and feature a satin stainless pocket clip and safety lock on the obverse side. The knife is in excellent condition with a razor edge and no discernible blemishes. Includes the original factory box. (129312-158V) (50/75) Est. 50 - 75
2950	Smith & Wesson 1251 U.S. Army Issue Law Enforcement-Military Automatic Folding Knife 4" closed, 3" satin stainless single-edged blade with a tanto drop point and a push-button automatic release. The reverse face of the blade is etched "Smith & Wesson / U.S. Army Issue". The handles are matte black fiberglass with a blued steel pocket clip on the obverse side. The knife deploys via a small silver button on the reverse-face handle. The knife functions well mechanically and retains a razor sharp unblemished factory edge. No discernible blemishes are present and the knife rates excellent overall. Includes the factory box. (Please note: all automatic knives may be sold to New Hampshire residents only.) (12A9312-158W) (75/100) Est. 75 - 100
2951	Smith & Wesson Extreme Ops SW50 Automatic Folding Knife 4 1/2" closed, 3 1/2" single-edged recurved satin stainless blade with a drop point and a push-button automatic release. The handles are bright grooved aluminum with a satin stainless pocket clip on the obverse side. The knife functions well mechanically and retains a razor sharp unblemished factory edge. No discernible blemishes are present and the knife rates excellent overall. Includes the factory box. (Please note: all automatic knives may be sold to New Hampshire residents only.) (12A9312-158X) (75/150) Est. 75 - 150
2952	Beretta Airlight Folding Knife 5" closed, 3 3/4" single-edged stainless steel blade with partially serrated cutting edge, 2 1/8" false edge, dual checkered thumb studs and a spear point. The handles are black fiberglass with a brass Beretta escutcheon on the reverse face. Overall the knife rates excellent with no discernible blemishes and a sharp unblemished factory edge. Includes the factory two-piece box. (129312-158Z) (50/75) Est. 50 - 75
2953	Beretta Airlight Folding Knife 4 1/4" closed, 3 1/4" single-edged stainless skeletonized blade with a fully serrated cutting edge, 1" false edge, dual checkered thumb studs and a straight-clipped point. The handles are black fiberglass with a brass Beretta escutcheon on the reverse face. Overall the knife rates excellent with no discernible blemishes and a sharp unblemished factory edge. Includes the factory two-piece box. (129312-158AA) (40/60) Est. 40 - 60
2954	Benchmade 2500 Mini Reflex Automatic Folding Knife 4 1/4" closed, 3 1/4" single-edged gray satin blade with a drop point and push-button automatic release. The handles are matte black aluminum with a tip-up pocket clip on the obverse side. The action functions well mechanically and the sharp factory edge is unblemished and excellent. No discernible blemishes are present and the knife is in overall excellent condition. Includes the factory box and manual. (Please note: automatic knives may be sold to New Hampshire residents only.) (12A9312-158AB) (100/200) Est. 100 - 200
2955	Benchmade 3500S Mel Pardue Automatic Folding Knife 4 1/8" closed, 3 1/4" single-edged bright blade with a partially serrated cutting edge, 2 1/2" false edge, a spear point and a push-button automatic release. The handles are black anodized aluminum and feature a tip-down pocket clip and rear safety switch. The action functions well mechanically and the factory edge is sharp and unblemished. No discernible blemishes are present and the knife is in overall excellent condition. Includes the factory box and manual. (Please note: automatic knives may be sold to New Hampshire residents only.) (12A9312-158AC) (100/200) Est. 100 - 200

Lot	Title/Description
2956	Benchmade 1000 Auto Spike Automatic Folding Knife 4 1/2" closed, 3 1/2" single-edged blade with a narrow tapered spear point and push-button automatic release. The handles are black coated aluminum each with three vertical grooves. The action functions well mechanically and the factory edge remains sharp and unblemished. No discernible blemishes are present and the knife is in overall excellent condition. Includes the factory box and manual. (Please note: automatic knives may be sold to New Hampshire residents only.) (12A9312-158AD) (100/200) Est. 100 - 200
2957	Benchmade 835SBT Ascent Folding Knife 5" closed, 3 5/8" single-edged partially serrated black-coated blade with dual thumb studs and a drop point. The handles are black thermoplastic and feature a reversible pocket clip held by three screws on the obverse side. The knife folds and locks well and the factory edge is sharp and unblemished. Overall the knife is in excellent condition. Includes the factory box and manual. (129312-158AE) (50/75) Est. 50 - 75
2958	Pro-Tech TR-1PSBT Tactical Response Automatic Folding Knife 4 1/2" closed, 3 1/4" single-edged partially serrated black coated blade with a tanto point and a push-button automatic release. The handles are pierced black-anodized aluminum with a tip-up pocket clip on the obverse face. The action functions well mechanically and the factory edge is razor sharp and unblemished. Overall the knife is in excellent condition. Includes the factory box. (Please note: automatic knives may be sold to New Hampshire residents only.) (12A9312-158AF) (150/250) Est. 150 - 250
2959	Pro-Tech TR-3 SWAT Tactical Response Automatic Folding Knife 4 5/8" closed, 3 3/4" single-edged partially serrated black coated blade with a 2 3/4" false edge, drop spear point and a push-button automatic release. The handles are black anodized aluminum equipped with a tip-up pocket clip on the obverse face. The action functions well mechanically and the factory edge is razor sharp and unblemished. Overall the knife is in excellent condition. Includes the factory box. (Please Note: automatic knives may be sold to New Hampshire residents only.) (12A9312-158AG) (150/250) Est. 150 - 250
2960	Lone Wolf Knives U.S. 45 First Production Run Folding Knife 4 1/4" closed, 3 1/4" single-edged clipped point blade with a 2" false edge and dual thumb studs. The handles are modeled on the Colt M1911 pistol, featuring double diamond checkered cherry wood grips with black coated steel bolsters and bolster linings. The obverse side is equipped with a stainless steel tip-down pocket clip. The knife folds and locks well and the factory edge is sharp and unblemished. Overall the knife is in excellent condition. Includes the factory box. (12A9312-158AH) (100/200) Est. 100 - 200
2961	Lone Wolf Knives Double Duty Auto Automatic Folding Knife 4" closed, 3 1/8" single-edged satin stainless blade with a pierced thumb hole and a spear point. The handles are black checkered G-10 fiberglass laminate with satin stainless bolsters and a tip-down pocket clip on the obverse face. The blade can be opened manually or released via the hidden auto-mechanism activated by sliding the reverse-side handle to the rear. The action functions quickly and smooth for both manual and automatic operation and the lock spring is quite strong and sturdy. The factory edge is razor sharp and unblemished. Overall the knife is in excellent condition. Really a very impressive automatic folder with an inventive low-profile design. Includes the factory box and instruction card. (Please note: all automatic knives may be sold to New Hampshire residents only.) (12A9312-158AJ) (300/500) Est. 300 - 500
2962	Camillus CUDA-2S First Production Run Folding Knife 5" closed, 4" single-edged gray satin partially serrated blade with a tanto point. The handles are checkered G-10 fiberglass laminate equipped with a tip-down steel pocket clip on the obverse and a checkered thumb stud slide on the reverse which opens the blade. The blade folds and locks well and the factory edge is sharp and unblemished. Overall the knife is in excellent condition. Includes the factory box and manual. (12A9312-158AK)
2963	Queen Cutlery Co. Folding Knife 3 1/4" closed, 2 3/4" single-edged stainless steel blade with a drop point. The handles are stag held by stainless steel pins with stainless bolsters and brass bolster linings. The knife is in excellent condition with a sharp factory edge and no discernible blemishes. Includes the factory box. (129312-158AL) (30/50) Est. 30 - 50

Lot	Title/Description
2964	<p>Beautiful Custom Bowie Knife by Duke 14" overall length, 8" straight single-edged blade with a clipped point, 4 3/8" false edge and a single finger groove carved into the forward edge of the ricasso. A brass band stamped "SER.500" is forged into the groove and the blade is otherwise unmarked. The knife is in overall excellent condition. The blade is exquisitely polished to a perfect mirror bright which returns a completely undistorted reflection on the flats of the faces; the edge is immaculate, razor sharp and completely unblemished. The brass quillons finish in serrated fishtails each centered by a thin splinter of malachite; the brass is a rich burnished yellow with areas toning to darker gray, brown, and blue that resembles a case-colored effect. The handle is meticulously polished staghorn with a curve that ergonomically conforms to the shape of the palm; a brass disc stamped with the logo "Duke" above an image of a bowie knife is inlaid on the obverse side. The end of the grip finishes in a flat cross-section of the horn which is escutcheoned by a scalloped malachite gemstone with a beautiful swirling grain. The knife comes housed in a hand-carved case of varnished hickory with brass fleur-de-lis latches closed by black horn pins on brass chains, serrated carved edges, red fabric interior lining and a decorative length of polished bone atop the lid which is inlaid with a brass disc matching the handle of the knife. The case is in near excellent condition with a few very light handling marks. Also included is a brown leather sheath by L.C. Blair of Warner, N.H. decorated by floral and scalloped engraving and in excellent condition. A really quite gorgeous knife by a maker of obvious skill. (12C6286-3) (175/275) Est. 175 - 275</p>
2965	<p>British Post-WWII Socket Bayonets Three bayonets which pair with the Lee-Enfield No. 4 rifle, comprising (2) No. 9 Mk. 1 knife bayonets and (1) No. 4 Mk. II spike bayonet. The No. 9 bayonets each feature an 8" straight single-edged bright blade with a 2" concave false edge, single unstoppered fullers and a clipped point. The No. 4 bayonet features a 7 3/4" spike with a bright finish. All three include their respective correct scabbards and all items are in very fine to near excellent condition with some light handling marks. (1X129353-101L)</p>
2966	<p>British No. 4 Mk. II* Spike Bayonets Pairs with the Lee-Enfield No. 4 Mk. II rifle. One pair of spike bayonets, each consisting of a 7 7/8" spike with a beveled tip and a 2" socket with a rear press stud locking system. The first is marked "P" on the reverse face of the socket; remnants of other markings are present but have been faded to illegibility. The socket is lightly oxidation-browned with a few specks of ochre here and there; the blade is pewter-toned with a bit of ochre-brown patina on the bevels at the tip. Overall this bayonet is in very good to fine condition. The second bayonet is marked "No. 4 Mk. II*" and "N.30" on the reverse face of the socket. The socket exhibits some minor handling dings and retains approximately 50% thinning blue finish blended with dark brown staining. The blade is bright and in near excellent condition. Overall this bayonet is in very good plus to excellent condition. Both bayonets include a blued steel scabbard, each retaining about 75% original blue with scattered flecks of oxidation and staining. (1X128832-10M)</p>
2967	<p>U.S. MODEL 1896 CADET KRAG BAYONET This attractive second type knife bayonet measures 16 1/4" overall and bears an 11 5/8" straight single-edged blade with squared single unstoppered fullers, flat spine, 4 1/2" false edge and tapered spear point. The obverse face of the ricasso is marked "US" and the reverse is dated "1896". This example is the longer of two known Krag bayonet types used by the U.S. Corps of Cadets and shares dimensions with the standard-issue model. The nickel-plated blade rates just about excellent with some light handling marks and scabbard scratching. The grip and pommel, also nicked, exhibit a few instances of minute dinging but otherwise rate excellent as well. The red-tinged linseed-oiled walnut grips show a few light handling marks and barely visible flecks of white and blue paint. The hilt rates near excellent as a whole. A beautiful West Point dress bayonet. (3X128752-134C) (100/200) Est. 100 - 200</p>

Lot	Title/Description
2968	<p>Theater-Made Fighting Knife This hand-crafted dagger measures 9 5/8" overall and features a straight, broad double-edged blade 5 3/4" long and 1 3/8" wide at the base, ground from a file or rasp and tapering to a spear-point tip. The obverse edge bears a small oblong notch which either broke away due to stress or was intentionally cut; the reverse edge bears a length of numerous small jagged scores which may be an amateurish attempt at serration. The blade exhibits instances of ochre and smoky gray staining throughout mixed with areas unevenly polished bright and scattered with scratches from repeated sharpening; the edges remain cutting sharp with a few nicks here or there and exhibit a fine gradual appressed bevel which should take to a fresh edge quite well if honed. The crosspiece and pommel are relatively soft metal, likely hard lead or pewter, with a layered matte gray and brass-colored lacquer finish; the handle is a light-colored varnished hardwood, likely oak. The hilt exhibits a few light handling marks and much of the lacquer coat has flaked away; the pieces are sturdily fitted and the wear is largely superficial. The obverse quillon also exhibits some impact flattening as if it has been used as a hammer. Overall the knife is in fine condition, having seen some heavy use but overall proving quite resilient. (1X129353-104) (25/75) Est. 25 - 75</p>
2969	<p>U.S. MODEL 1816 SOCKET BAYONET This bayonet features a 3" bottom-bridged three-step socket with an T-mortise and a 16" triangular blade with hollow-ground back flutes, prow-tipped point and partial face flute terminating 8" from the tip. The metal exhibits a smoky gray patina throughout flecked by specks of ochre and cleaned pinprick pitting on the socket. The edges of both blade and socket show silvering and light handling marks. The bayonet rates about fine as a whole. (2X128752-134BQ)</p>
2970	<p>U.S. Model 1816 Socket Bayonet 15 7/8" triangular blade with full-length hollow-ground back flutes and a narrow face flute running 9 1/2" from the prow-point tip; 23" bottom-bridged socket with an obverse-side T-mortise. The forward aperture of the socket is indented into a "D" shape. The edges are rough and the steel exhibits moderate to strong oxidation throughout. Overall the bayonet is in fair condition. (1X128783-65K)</p>
2971	<p>U.S. Socket Bayonet This bayonet is of similar configuration to the U.S. Model 1855/70 but with slightly larger dimensions: 19 3/4" triangular blade with hollow-ground full-length back flutes and a full-width face flute running 18 3/4" from the beak-point tip; 3" socket with a bottom-bridged three-step obverse-side L-mortise and a clasp ring. The bore diameter measures approximately 0.898" at the forward aperture. The top face of the socket is marked "E. 54". The steel surfaces are bright with a smoky gray patina, stronger on the top face than in the back flutes, with darker pewter patina in the last 4" at the tip and occasional hints of ochre staining on the socket. (1X128783-65E)</p>
2972	<p>YEOMAN & SON BOWIE KNIFE This large bowie measures 18" overall with a 12" clip point style blade equipped with a 3 3/4" unsharpened false edge. The obverse side of the blade is lightly etched with oak leaves and acorns and the ricasso is maker marked "YEOMAN & SON / CUTLER St. / SHEFFIELD". The blade remains overall bright with scattered light scuffs, spots of fine oxidation and a slightly rounded tip. The dual triangular shaped German silver guard has shallow v-notched centers, alternating circular finials and has mellowed slightly with spots of very light tarnish. The curved stag handle is centered between a decorative nickel silver collar and pommel and has darkened nicely with a few small age cracks at the butt. There is no sheath present, a very handsome 1960 Sheffield Bowie. (59363-5) (400/600) Est. 400 - 600</p>
2973	<p>Contemporary Display Jian 36 1/2" overall, 29 1/2" straight double-edged unsharpened stainless steel blade with a diamond cross-section, spear point and a full tang. The hilt is held by a hex screw at the pommel and is made of yellow-anodized aluminum with a faux bone grip, white nylon cord tassel and Yin-Yang symbol inlaid on the obverse face of the guard; an identical symbol has been lost from the reverse face. The sword is in excellent condition with no other discernible blemishes and is well-assembled with a tight fit. The included scabbard is wood in a matte white lacquer with yellow brass and yellow-anodized aluminum mounts. The two middle carrying mounts feature a rectangular white nylon braided cord handle. The scabbard is in about excellent condition with a few tiny handling marks. A fine display weapon suitable for decoration or demonstration purposes. (129497-8)</p>

Lot	Title/Description
2974	Winchester Model 1873 Socket Bayonet Pairs with the Winchester Model 1873 Repeating Rifle. 3" socket with obverse-side bridge, L-mortise and clasp ring; 18" blade with hollow-ground back flutes and shallow face flute extending 16" from the beak point. The metal surfaces are spanned by patina of smoky gray on the blade and cloudy textured dark brown on the socket with about 40% original blue remaining in the recesses of the back flutes. A few light handling marks can be seen at the base of the blade and the bayonet is in good condition overall. The included black leather scabbard is also in good condition, remaining largely whole with some light to moderate surface cracking. The brass tip has become separated but is present and included. (127668-6A)
2975	U.S. Socket Bayonets Two U.S.-marked socket bayonets. The first is a U.S. Model 1855-70 bayonet featuring a 3" socket with a bottom bridge and obverse-side L-mortise; the clasp ring is not present. The triangular blade measures 18" with hollow-ground back flutes, a shallow face flute and a beak point. The surfaces retain about 95% older-reapplied matte blue-black finish with visible texture from previously cleaned oxidation beneath the finish and areas silvering or toning to plum. The second bayonet is an early pattern, likely one of the 1795-1808 transitional models: the socket is 3" with a shallow bottom bridge and reverse-side L-mortise. The blade is 16" with hollow-ground back flutes, soft "U.S. / BB" marking at the base of the face flat and a partial face flute running 9" from the prow point. The socket exhibits a speckled dark brown patina with areas of cleaned oxidation and the blade is a mottled smoky pewter gray throughout. A forging crack runs lengthwise in the face flute for 3 1/4" from the tip. Few other handling marks are present and the bayonet is in overall good condition. (128927-217A)
2976	Pattern 1853 Enfield Socket Bayonet Pairs with the British Pattern 1853 Enfield Rifle-Musket. 3" socket with a bottom bridge, obverse-side L-mortise and a clasp ring; 17 3/4" triangular blade with hollow-ground flutes, raised shoulders and a beak point. The bayonet is in near excellent condition with a near-mirror polish, the burnished gray surfaces mottled with areas of dark gray and cleaned speckled brown patina. The absence of British proof marks suggests this specimen was likely imported to the U.S. during the Civil War. (129590-1A)
2977	22 LR Ammunition Included in this lot are 10 sealed 100-round boxes (1000 total) of Winchester Super X 40 gr. Power-Point ammunition in excellent condition, item #X22LRPP1. (239412-20R1)
2978	22 LR Ammunition Included in this lot are 10 sealed 100-round boxes (1000 total) of Winchester Super X 40 gr. Power-Point ammunition in excellent condition, item #X22LRPP1. (239412-20R2)
2979	22 LR Ammunition Included in this lot are 10 sealed 100-round boxes (1000 total) of Winchester Super X 40 gr. Power-Point ammunition in excellent condition, item #X22LRPP1. (239412-20R3)
2980	22 LR Ammunition Included in this lot are 10 sealed 100-round boxes (1000 total) of Winchester Super X 40 gr. Power-Point ammunition in excellent condition, item #X22LRPP1. (239412-20R4)
2981	22 LR Ammunition Included in this lot are 10 sealed 100-round boxes (1000 total) of Winchester Super X 40 gr. Power-Point ammunition in excellent condition, item #X22LRPP1. (239412-20R5)
2982	22 LR Ammunition Included in this lot are 10 sealed 100-round boxes (1000 total) of Winchester Super X 40 gr. Power-Point ammunition in excellent condition with one box showing a small chip in one corner which has no effect on the ammunition, item #X22LRPP1. (239412-20R6)
2983	22 LR Ammunition This lot consists of two sealed 500-round miniature wooden boxes (1000 total) of Winchester Super X 36 gr. copper plated HP ammunition in presumably excellent condition. The excellent condition wooden boxes are marked "Winchester" in the typical font along with the "Super X" symbol and "Limited Edition" in script, item #22LR500WB. (239412-20AK1)
2984	22 LR Ammunition This lot consists of two sealed 500-round miniature wooden boxes (1000 total) of Winchester Super X 36 gr. copper plated HP ammunition in presumably excellent condition. The excellent condition wooden boxes are marked "Winchester" in the typical font along with the "Super X" symbol and "Limited Edition" in script, item #22LR500WB. (239412-20AK2)

Lot	Title/Description

Lot	Title/Description
3295	Norinco NS522 Magazine One blued steel 5 round magazine for the Norinco NS522 rifle. The magazine is overall excellent and retains about 95% plus original finish with some light silvering and handling marks from previous use. (129626-50E)
3296	Kimber 17 HM2 Magazines Two satin gray single stack polymer magazines for a Kimber 1911 semi-automatic pistol. Both are in about excellent condition with hints of handling wear on the followers from previous use. (129543-254A)
3297	Blaser R93 Magazine One black polymer 3-round magazine for a Blaser R93 rifle. Supports the following calibers: 7mm Rem Mag; 257 Weatherby Mag; 300 Weatherby Mag; 300 Rem Ultra Mag; 284 Win Mag; 300 Win Mag; 308 Win Mag; 7mm STW. The magazine exhibits no discernible blemishes or mechanical issues and is in excellent condition overall. (129543-291A) (150/250) Est. 150 - 250
3298	Blaser R93 Magazine One black polymer 3-round magazine for a Blaser R93 rifle. Supports the following calibers: 7x64mm; 8.5x63mm; 30-06; 6.5x65 RWS; 270 Win; 280 Rem; 6x62 Freres; 6.5-284 Norma; 8x64 S. The magazine exhibits no discernible blemishes or mechanical issues and is in excellent condition overall. (129543-291B) (150/250) Est. 150 - 250
3299	U.S. M1 Carbine Magazine & Buttstock Pouch One steel 15 round magazine for an M1 carbine and one tan canvas buttstock magazine pouch for the same. The magazine is in overall good condition with a few handling marks, retaining about 20% original blue mostly on the floorplate. The remainder exhibits a strong dark smoky gray patina with a few instances of dark brown oxidation. The follower spring continues to function well. The pouch rates very good plus to excellent, exhibiting moderate staining and areas of discoloration throughout but no instances of loss or separation and only a few tiny snags in the fabric. (129570-3B)
3300	U.S. M1 Carbine Magazines & Buttstock Pouch Two steel 15 round magazines for an M1 carbine and one OD green canvas buttstock magazine pouch for the same. The first magazine rates excellent, retaining about 95% original blue finish with some silvering at the contact points and a couple tiny flecks of oxidation. The second magazine rates very good plus to excellent, retaining about 85% original blue toning to plum in some areas and exhibiting expected silvering at the contact points. Both function well mechanically with excellent springs. The pouch is ink-stamped "U.S." on the front of the flap and "BISCAYNE TENT & AWNING CO. / INC. / 1943" on the rear face. The pouch is in very fine condition, exhibiting a few light ocher stains and a small hole on the rear face but otherwise few blemishes and no other signs of loss or separation. (129645-19A)
3301	AK-47 Magazine This Russian-style 75-round drum magazine is not maker marked and has an S-428 stamped on the winder. It exhibits strong arsenal blue with the usual light handling marks from use and remains in overall excellent condition. (108925-35A)
3302	AK-47 Magazine This Russian-style 75-round drum magazine is not maker marked and has a S-490 stamped on the winder. It exhibits strong arsenal blue with the usual light handling marks associated with use and remains in excellent condition. (108925-35)
3303	AK-47 Magazine This Russian-Style 75-round drum magazine is not maker marked and has a CG-520 stamped on the winder. It exhibits strong arsenal blue finish with spots of dried oil staining and light handling marks consistent with use and remains in excellent condition. (108925-35B)
3304	Ak-47 Magazine This Chinese-manufactured 75-round drum magazine remains in its original sealed plastic packaging. It has a sticker on the back above the winder that reads "Made in China by Norinco" and remains in as-new condition. (108925-35C)
3305	AK-47 Magazine This Chinese-manufactured 75-round drum magazine remains in its original sealed plastic packaging. It has a sticker above the winder that reads "Made in China by Norinco" and remains in as-new condition. (108925-35D)

3307	AK-47 Magazine This Russian-style 75-round drum magazine is not maker marked and has a CD-029 stamped on the winder. It remains in excellent condition and comes wrapped in paper inside a green canvas pouch with 1" wide grey web-style carry strap. (108925-35F)

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
3308	Suomi Magazine This M31 Finnish-marked 71-round drum magazine is numbered 67981 / SA on the front and 55995 on the back. It retains perhaps 50% of its arsenal blue finish that is blended with areas of brown and dull grey and all marks remain crisp and legible. A fine example overall. (108925-20A)
3309	Suomi Magazine This M31 Finnish-marked 71-round drum magazine is numbered 58350 / SA on the front and 07957 on the back. It retains about 65% of its arsenal blue finish with areas blending to brown and dull grey. The markings are slightly washed but remain legible and this magazine remains in very good condition. (108925-20)
3310	Suomi Magazines This lot includes eight 36-round M31 stick magazines with Finnish SA markings and finger-loops. The magazines retain 95% plus of their original finish with minor handling marks and remain in excellent condition. (108925-20B)
3311	Suomi Magazines This lot includes eight 36-round M31 stick magazines with Finnish SA markings and finger-loops. The magazines retain near all of their original blue finish with some light handling marks and remain in excellent condition. (108925-20C)
3312	Suomi Magazines This lot includes eight 36-round M31 stick magazines with Finnish SA markings and finger-loops. The magazines retain near all of their original blue finish and exhibit some very minor handling marks but remain in excellent condition. (108925-20D)
3313	HK 91/G3 Magazines This lot includes seven unmarked 30-round 91/G3 style magazines. The magazines retain near all of their original finish with varying amounts of light handling marks and remain in fine overall condition. (108925-10H)
3314	HK 91/G3 Magazines This lot includes seven unmarked 30-round 91/G3 style magazines. There are three in plain white cardboard boxes and four without. The magazines retain near all of their original finish with some varying levels of light handling marks scattered about. These magazines remain in excellent condition. (108925-10I)
3315	Tommy Gun Magazines This lot includes eight 30-round stick magazines for the Thompson sub-machinegun. There are seven Seymour and one U.S. marked all showing varying levels of light handling marks, dings, or spots of fine oxidation staining. The magazines are coated in a thin layer of grease and remain in fine overall condition. (108925-19N)
3316	Unmarked HK MP-5 Magazines This lot includes seven 30-round likely Korean-manufactured magazines for the MP-5. They retain near all of their original phosphate finish aside from a few light handling marks and come in their original packaging. (108925-19R)
3317	Unmarked HK MP-5 Magazines This lot includes seven 30-round likely Korean-manufactured magazines for the MP-5. They retain near all of their original phosphate finish aside from a few light handling marks and come in their original packaging. (108925-19S)
3318	Aftermarket HK MP-5 Magazines This lot includes seven 30-round magazines. There are two straight body blued finish with "Made in Pakistan" stickers and five curved American Tactical marked with phosphate finish all in excellent condition. (108925-19P)
3319	Aftermarket HK MP-5 Magazines This lot includes seven 30-round magazines. There are three straight body likely Pakistani-manufactured and four curved likely Korean-manufactured all retaining most of their original finish with a few light handling marks and spots of adhesive residue from stickers on the straight body magazines. (108925-19Q)
3320	Suomi M31 Magazines This lot includes three 50-round unmarked "Coffin" style magazines. The magazines retain near all of their blue finish with scattered light handling marks. The springs are strong and they are in fine condition overall. (108925-18)
3321	Suomi M3 Magazines This lot includes four unmarked 50-round "Coffin" style magazines with leather military style pouch. The magazines retain nearly all of their original finish with varying amounts of light handling and wear marks consistent with use. The springs remain strong and they have small finger-loops at the base. The leather two-pocket pouch shows scattered light usage marks with spots of mildew and ingrained dirt staining. The stitching remains tight and it is marked possibly "F. Muller / Solingen / Motiers" between the pouches. The markings are visible but hard to decipher due to wear and staining on the leather. The carry strap remains intact and shows some minor staining and overall these items are in fine condition. (108925-18A)

Lot	Title/Description
3322	Mixed Military Magazines This lot is made up of nine various 36-round stick magazines. There are four SA marked likely for the Finnish Suomi and the magazines retain nearly all of their original blue finish with varying amounts of light handling marks and spots of fine oxidation staining. Also included are two Persian marked and two Carl Gustaf marked likely for the Swedish K submachinegun. These magazines have both blued and phosphate finish with scattered light handling marks and spots of oxidation and oxidation staining. Last is a single blued finish magazine that is unmarked with a replacement magazine catch similar to both aforementioned items with the exception of the front piece being flat and it measures roughly 1/2" x 2 1/4" overall. (108925-18B)
3323	Sten Magazines This lot includes nine 36-round steel bodied magazines and two loading tools. The magazines have either blued or phosphate finish and exhibit minor handling marks with some scattered spots of fine oxidation staining. A fine grouping overall. (108925-18C)

3456	Gunrafter 50 GI Magazines This lot includes three. There are two 9-round and one rudimentarily fitted with a G30 Kriss Super V extension kit. The 9-round magazines remain in excellent condition and the modified one will need some attention as the follower is lodged inside the well. (108925-89B)
3457	Para-Ordnance Magazines This is a lot of two Promag 20 rd. black polymer .45 acp. Para-Ordnance magazines for Warthog, P-12, P-13 and P14. The magazines rate as-new in original packaging. (2X78925-63A)
3458	6.8mm AR magazines This lot consists of three C Products 25 rd. magazines: (2) blued; (1) parkerized. The magazines appear unused and rate excellent. (2X78925-8A)

Lot	Title/Description
3459	6.8mm AR magazines This lot consists of three: (2) Barrett parkerized 30 rd.; (1) PRI blued 25 rd., all in excellent condition. (2X78925-8B)
3460	Heckler & Koch P9S Magazines This lot includes four quality new-production 8-round magazines for the H&K P9S made by United Defense LLC. All magazines rate excellent to as-new and two magazines remain in their original packaging. These reproduction magazines appear to be excellent quality with robust springs. (139679-2)
3461	Beretta 92/CX4 Magazine Lot This lot includes five 30-round 9mm magazines (#C89282) for the Beretta 92 series of pistols or CX4 carbine. Four of the magazines are in their original packaging and all appear to be new. (238925-29A)
3462	Beretta 92/CX4 Magazine Lot This lot includes five 20-round 9mm magazines (#1385979/1) for the Beretta 92 series of pistols or CX4 carbine. All magazines are new in their original packaging. (238925-29B)
3463	Ruger Mini-14 6.8mm Rem Spc Magazines Two blued steel 5-round magazines. Both rate excellent with just the slightest bit of silvering at the contact points. Also includes one unmarked 10-round polymer magazine for an unidentified 22LR pistol in excellent condition. (129543-291D) [Phil Buker Collection]
3464	Sako/Beretta 85M 6.5x55 SE Magazine One stainless steel 3-round magazine, rating excellent with no discernible blemishes. (129543-291E) [Phil Buker Collection]
3465	Desert Eagle 50 AE Magazine One blued steel 7-round magazine. The metal surfaces retain about 98% original blue finish with some silvering at the contact points and some lightly textured speckled ocher patina on the floorplate. Overall the magazine is in about excellent condition. (129543-291F) [Phil Buker Collection]
3466	AR-15 9mm Converted Magazines Three parkerized steel magazines, likely 30-round capacity, converted to fit an AR-15 magwell. The magazines retain about 95-98% original finish with some light silvering mostly at the contact points and are in about excellent condition. Also includes one parkerized steel loading tool in excellent condition. (128866-2)
3467	U.S. M3 Magazine One 30 round blued steel magazine for the U.S. M3 "Grease Gun". The front face is numbered "KL GL C153427". The metal surfaces retain about 96% original finish with scattered tiny handling marks and a small few isolated instances of oxidation. Overall the magazine is in about excellent condition. (128735-38)
3468	Rare WWI Springfield Model 1903 Air Service 20 Round Extension Magazine One parkerized steel 20 round magazine extension for a Springfield Model 1903 bolt-action rifle. Compatible with any standard configuration Model 1903 service rifle, this magazine extension increases the rifle's capacity to an impressive 25 rounds. The metal surfaces retain about 98% Parkerized finish and exhibit only the tiniest specks of silvering, handling marks or barely discernible ocher. The follower spring is strong and operates smoothly. Overall the magazine is in excellent condition. Includes the original factory two-piece box, also in excellent condition with just a bit of expected storage wear. (12A7668-5A) (300/500) Est. 300 - 500
3469	U.S. M14 Magazines Two parkerized steel 20 round magazines for the M14 or M1A rifle. The magazines retain about 95% and 90% original finish, respectively, with light handling marks and areas of silvering due to contact wear as well as the occasional spot of light ocher patina. Each includes a U.S.-marked, 1961-dated OD green canvas belt pouch in about excellent condition with some very light handling marks. (127668-5B)
3470	Assorted Magazines Three items: (1) unmarked blued steel 5 round magazine for an M1 carbine, rating near excellent to excellent and retaining about 95% original blue with some light silvering due to handling wear. (1) blued steel Colt Woodsman 22LR magazine, rating near excellent and retaining about 95% original blue with some silvering at the edges and areas of lightly textured oxidation in the lower half. (1) black plastic Universal Firearms Corp. M1 Carbine magazine, in fine condition with few if any handling marks; the follower does not return to position when depressed and the state of the spring is undetermined. (127668-5D)
3471	H&R Reising Model 50 Magazines Two 30 round .45 cal. steel magazines for the H&R Reising Model 50 submachine gun and its variants. The first retains about 98% original blued finish with very few handling marks, rating excellent overall. The second is in good condition with few handling marks and a thinly speckled patina of ocher oxidation spattered about the bright steel surfaces. Also includes a 1943-dated U.S.M.C.-marked tan canvas sling in excellent condition. (129544-285A)

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
3472	Nikon Inline XR 3-9x40 Riflescope One new-in-box Nikon Inline XR 3-9x40 muzzleloader scope (item #6793) featuring: BDC 300 reticle, Realtree APG camouflage outer coating, fully multicoated optics, 5" constant eye relief, precise 1/4 MOA adjustments, spring-loaded zero-reset turrets, quick focus eyepiece, waterproof/fogproof/shockproof construction, bikini lens covers, manual and paperwork. (239412-18F2)
3473	Leupold Scope Leupold Vari-X IIc 4-12x40 riflescope with duplex reticle and bright excellent optics. The scope retains 98% plus original matte black finish with light signs of previous mounting and a couple faint dings in the finish on the right turret cap. (239412-18K1)
3474	Simmons Rimfire Scope One new-in-original packaging Simmons 4x20 rimfire scope with Truplex reticle (item #899805) featuring: coated optics, 1/4 MOA adjustments, 3/4" tube, parallax free at 50 yards and the scope includes a pair of rings. (239412-18L1)
3475	Simmons Rimfire Scope One new-in-original packaging Simmons 4x20 rimfire scope with Truplex reticle (item #899805) featuring: coated optics, 1/4 MOA adjustments, 3/4" tube, parallax free at 50 yards and the scope includes a pair of rings. (239412-18L2)
3476	EOTech Sight One EOTech 557AR223 holographic weapon sight that remains in excellent condition possibly having seen very light use with a few tiny handling marks in the matte black anodized finish. Sight includes original factory box, manual and outer cardboard sleeve with inspection sticker dated "07/07/2009". This model is night vision compatible and features left side buttons designed to work with night vision/magnifiers, runs on two AA batteries (not included), is submersible to 33 ft. and features a circle dot reticle with 65 MOA outer circle and 4 vertically aligned 1 MOA dots calibrated for the ballistic drop of 223 Rem ammunition. (239412-21C)
3477	TruGlo Crossbow Sight One TruGlo crossbow sight in about excellent condition with a few very light handling marks in the black anodized finish. The included packaging details that the sight features four selectable red or green descending dot patterns to match the trajectory of your crossbow, a 24x34mm wide-field window, an anti-reflective coating, is parallax free from 30 yards and has an integrated Weaver-style mounting system. The sight is currently non-operational likely just needing a new CR2032 battery and it comes in its original clamshell packaging with cleaning cloth and user manual. (239412-21D)
3478	EOTech MPO Sight and Magnifier This EOTech MPO (Multi-Purpose Optic) kit includes one EOTech 557AR223 holographic weapon sight and one G23 3x magnifier both in excellent condition having seen very little use with a few tiny impact marks on the matte black anodized finish. The 2009-manufactured sight is night vision compatible and features left side buttons designed to work with night vision/magnifiers, runs on two AA batteries (not included), is submersible to 33 ft. and features a circle dot reticle with 65 MOA outer circle and 4 vertically aligned 1 MOA dots calibrated for the ballistic drop of 223 Rem ammunition. The 3x magnifier features a durable rubberized housing, an A.R.M.S. quick detach mount with throw lever and a Samson Quickflip flip-to-the-side riser which mounts the magnifier at the same height as the optic. The optic and magnifier come in their original hard plastic case with outer cardboard shipping sleeve, user manuals, and tool. (23A9412-21B)
3479	Redfield Pistol Scope One Redfield 4X MP pistol scope with duplex reticle and clear very good optic retaining about 98% original blue finish with two pairs of short scratches on each side of the body from mounting. (239412-18B1)
3480	CenterPoint Scope One CenterPoint 3-9x32 riflescope with red/green illuminated mil-dot reticle and bright very good optics. The scope retains about 97% plus black anodized finish with a few scattered tiny impact marks from light use. The illuminated reticle is currently non-functional likely only needing a new CR1620 battery. Scope includes a pair of flip up lens covers. (239412-18L3)
3481	Burriss Scope and Binocular Set One sealed, new-in-box Burriss Fullfield II 3-9x40 scope with Ballistic Plex reticle and one Burriss Landmark 10x32 binocular. The scope features a matte black finish and multicoated optics while the dark green binocular features fully coated optics, is water resistant and includes a neck strap. Both the scope and binocular are in the same sealed box, item #2001 62-BIN 10. (239412-18A1)

Lot	Title/Description
3482	Burriss Scope and Binocular Set One sealed, new-in-box Burriss Fullfield II 3-9x40 scope with Ballistic Plex reticle and one Burriss Landmark 10x32 binocular. The scope features a matte black finish and multicoated optics while the dark green binocular features fully coated optics, is water resistant and includes a neck strap. Both the scope and binocular are in the same sealed box, item #2001 62-BIN 10. (239412-18A2)
3483	Burriss Scope and Binocular Set One sealed, new-in-box Burriss Fullfield II 3-9x40 scope with Ballistic Plex reticle and one Burriss Landmark 10x32 binocular. The scope features a matte black finish and multicoated optics while the dark green binocular features fully coated optics, is water resistant and includes a neck strap. Both the scope and binocular are in the same sealed box, item #2001 62-BIN 10. (239412-18A3)
3484	Long Distance Laser Designator One sealed new-in-box Laser Genetics ND3x40 Subzero green laser designator. Packaging specifies that the product can illuminate targets up to 400 yards away, is nitrogen charged and o-ring sealed and will provide up to seven hours of continuous use on two CR123 batteries and includes: 1" scope mount, tripod mount, Weaver mounts, protective carry case, momentary pressure switch and batteries. Item #LG-ND3x40SZ. (239412-18I1)
3485	Long Distance Laser Designator One new-in-box Laser Genetics ND3x50 Subzero green laser designator. Packaging specifies that the product can illuminate targets up to 500 yards away, is nitrogen charged and o-ring sealed and will provide up to seven hours of continuous use on two CR123 batteries and includes: 1" scope mount, tripod mount, Weaver mounts, protective carry case, momentary pressure switch and batteries. Item #LG-ND3x50SZ. (239412-18I2)
3486	Bushnell Sportview Scope Bushnell Sportview 4x32 riflescope with duplex reticle and bright very good plus optics retaining about 97% plus original blue finish with a few minor dings and impact marks from light use. The scope includes a pair of rings for a grooved rimfire receiver. (239412-18D1)
3487	Simmons Prohunter Handgun Scope New-in-box Simmons Prohunter 2-6x32 handgun scope with Truplex reticle and presumably bright excellent optics (model #822009). The scope features a matte black finish, fully coated optics, is waterproof, fogproof and shockproof. (239412-18B2)
3488	Simmons 22 MAG Scope New-in-box Simmons 22 MAG 4x32 riflescope with Truplex reticle and presumably bright excellent optics (model #511033). The scope features a matte silver finish, fully coated optics, QTA (Quick Target Acquisition eyepiece technology), and HydroShield water and condensation dispersing lens coating. Scope includes a pair of matte silver rings. (239412-18B3)
3489	Simmons .44 Mag Scope New-in-box Simmons .44 MAG 3-10x44 wide angle riflescope with Truplex reticle and presumably bright excellent optics (model #441044). The scope features a matte black finish, multi-coated optics, QTA (Quick Target Acquisition eyepiece) and includes bikini lens covers. (239412-18B4)
3490	Excalibur Twilight DLX Crossbow Scope New-in-box Excalibur Twilight DLX 3-6x44 crossbow scope with red/green illuminated adjustable Multiplex reticle and presumably bright excellent optics (model #1962). This scope is designed for crossbows shooting 300-400 fps and features fully multi-coated optics, is shockproof and waterproof and includes manual, lens cloth and lens covers. (239412-18E1)
3491	Nikon Monarch Scope New-in-box Nikon Monarch 2-8x32 riflescope with Nikoplex reticle and bright excellent optics (model #8437). The scope features a matte black finish, Monarch Eye Box Technology, Interchangeable Turret Technology, locking side focus parallax adjustment, Ultra ClearCoat optical system and is waterproof, fogproof, and shockproof. Scope includes flip-up lens covers, manual, Fog Eliminator wipe, and cleaning cloth. While new-in-box, the box itself displays minor storage wear. (239412-18F1)
3492	Tasco Target Scope Tasco Target 10-40x50 riflescope with crosshair and 1/8" dot reticle and adjustable objective with very good optics (model #TG1040X50DS). The scope retains about 95% original matte black rubberized finish with scattered light scratches and signs of previous mounting. The scope features oversized target turrets with 1/8 MOA click adjustments, multi-coated optics and is waterproof, shockproof and fogproof. Included with the scope is a screw-on sunshade, screw-on lens covers, a pair of blued steel rings and a pair of Allen wrenches. (239412-18G2)

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
3493	Trijicon ACOG Sight Trijicon ACOG (Advanced Combat Optical Gunsight) TA01 4x32 sight with 223 Rem BDC crosshair reticle and bright exceptional optics. The scope is equipped with an AR-15 carry handle base and is in excellent condition retaining 98% plus original matte black anodized finish with a couple very tiny impact marks and signs of light use. The Tritium in the optic no longer illuminates the reticle which ranges out to 800 meters for 223 Rem/5.56mm NATO. Trijicon customer service verifies the authenticity of this TA01 and quoted reillumination of the reticle at \$188-\$300. The optic comes in the original heavy-duty lockable polymer case with Trijicon-marked Lenspen and Scopecoat protective cover along with manual, paperwork and mounting tool. (23A9412-21A)
3494	Simmons Rimfire Scope One sealed in original packaging Simmons 3-7x20 rimfire scope with Truplex reticle and presumably bright very good optics. The scope features coated optics, 1/4" MOA adjustments and includes rings and lens covers. (239412-18B5)
3495	CenterPoint Scope One sealed in original packaging CenterPoint AR22 Series 3-9x32 scope with red/green illuminated mil-dot reticle and presumably bright very good optics. The packaging details that the scope is waterproof, fogproof, shockproof and has been "torture" tested up to a 416 Rigby. The matte black scope comes with rings, flip-open lens covers and a neoprene scope cover. (model #CP392RG). (239412-18L4)
3496	Leupold Scope One sealed new-in-box Leupold VX-1 3-9x50 scope with LR duplex reticle and presumably bright excellent optics (item #113884). The matte black scope is waterproof, fogproof, and features 1/4 MOA click adjustments, Multi-coat 4 lens system and lens covers. (239412-18K2)
3497	Leupold Scope One sealed new-in-box Leupold VX-1 2-7x33 scope with LR duplex reticle and presumably bright excellent optics (item #113865). The matte black scope is waterproof, fogproof, and features 1/4 MOA click adjustments, Multi-coat 4 lens system and lens covers. (239412-18K3)
3498	Leupold Scope One sealed new-in-box Leupold VX-1 3-9x40 scope with LR duplex reticle and presumably bright excellent optics (item #113876). The matte black scope is waterproof, fogproof, and features 1/4 MOA click adjustments, Multi-coat 4 lens system and lens covers. (239412-18K4)
3499	Leupold Scope One sealed new-in-box Leupold VX-1 2-7x33 scope with duplex reticle and presumably bright excellent optics (item #113863). The matte black scope is waterproof, fogproof, and features 1/4" MOA click adjustments, Multi-coat 4 lens system and lens covers. (239412-18K5)
3500	Leupold Scope One sealed new-in-box Leupold VX-1 3-9x50 scope with duplex reticle and presumably bright excellent optics (item #113882). The matte black scope is waterproof, fogproof, and features 1/4 MOA click adjustments, Multi-coat 4 lens system and lens covers. (239412-18K6)
3501	Leupold Scope One sealed new-in-box Leupold VX-1 2-7x33 scope with duplex reticle and presumably bright excellent optics (item #113863). The matte black scope is waterproof, fogproof, and features 1/4 MOA click adjustments, Multi-coat 4 lens system and lens covers. (239412-18K7)
3502	Bushnell Elite Scope One sealed new-in-box Bushnell Elite 4200 2.5-10x40 scope with Multi-X reticle and presumably bright excellent optics (model #42-2104M). The matte black scope features RainGuard coating, 1/4 MOA adjustments, fully multi-coated optics and "magnum recoilproof construction". (239412-18H1)
3503	Bushnell Elite Scope One new-in-box Bushnell Elite 4200 2.5-10x50 with Multi-X reticle and bright excellent optics (model #42-2105M). The matte black scope features RainGuard coating, 1/4 MOA adjustments, fully multi-coated optics, "magnum recoilproof construction" and comes with lens cover, manual and paperwork. (239412-18H2)
3504	Simmons Scope One new-in-box Simmons Varmint/Predator 4.5-18x44 riflescope with Truplex Reticle and presumably bright excellent optics (model #654518). The matte black scope features multi-coated optics, True Zero adjustable turrets, side parallax adjustment and according to the packaging is waterproof, fogproof and recoil-proof and includes a sunshade. (239412-18B6)
3505	Millett Scope Millett Buck Gold Varmint Target 4-16x56 riflescope with mil-dot reticle and bright very good optics. The scope remains in very good plus condition retaining 98% original matte black anodized finish with a few minor impact marks on the turret covers and high edges. The scope features side parallax adjustment, 1/8 MOA click adjustments and includes a pair of 30mm rings and see-through lens covers and comes in a box labeled for another scope. (239412-18G1)

Lot	Title/Description
3506	Bushnell Banner Scope One new-in-box Bushnell Banner Dusk & Dawn 4-12x40 riflescope with Multi-X reticle and presumably bright excellent optics (model #714124). The matte black scope features an adjustable objective, multi-coated lens, 1/4 MOA adjustments, Fast Focus eyepiece, and is waterproof, fogproof and shockproof. (239412-18D2)
3507	Simmons Scope One new-in-box Simmons Master Series ProSport 6-18x50 riflescope with Truplex reticle and presumably bright excellent optics (model #510491). The matte black scope features an adjustable objective, Quick Target Acquisition (QTA) eyepiece, fully-coated optics, rubberized SureGrip surfaces and is waterproof, fogproof and shockproof. (239412-18B7)
3508	Tasco Scope One new-in-box Tasco World Class 4-16x40 scope with Vital Zone reticle and presumably bright very good optics (model #DWC416X46N). The matte black scope features SuperCon multi-layered lens coating and is waterproof, fogproof and shockproof. (239412-18G3)
3509	Tasco Scope One new-in-box Tasco Target Varmint 6-24x42 scope with mil-dot reticle and presumably bright very good optics (model #VAR624X42M). The matte black scope features an adjustable objective, SuperCon multi-layered lens coating, 1/4" MOA adjustments, and is waterproof, fogproof and shockproof. (239412-18G4)
3510	Alpen MagnaView Binocular One new in box Alpen MagnaView 10x42 binocular with presumably bright excellent optics (model #259). The green rubber covered binocular features BAK4 high index glass, long eye relief, fully coated optics, twist-up eyecups and is waterproof and fogproof and includes a neck strap and carrying case. (239412-18J1)
3511	Sig Sauer Red Dot Optic and Mount One new-in-box Sig Sauer STS-081 Mini Red Dot Sight and Bridge Mount for P220, P226, P228, P229 and SP2022 railed models only (item #8500401). The STS-081 sight can mount on any Picatinny-style or Weaver rail and features a 4 MOA red dot with 11 brightness settings and uses one CR2032 battery. The polymer Bridge mount enables the sight to be mounted ahead of the ejection port on the previously mentioned models of pistol. Items come in the original factory box and shipping sleeve. (239413-82D)
3512	BSA Red Dot Optic/Laser/Light BSA Stealth Tactical STS RGBD30 LL red/green/blue dot sight with removable laser sight and flashlight in near excellent condition with a few very minor signs of light use/mounting. Unit features an integrated 5/8" rail mount at the 6 o'clock position and 5/8" rails at the 3 and 9 o'clock position for the included laser and flashlight. Sight, light and laser are currently in need of new batteries. Sight features a five MOA red/green/blue dot with three brightness settings, twist cap lens shutter system and comes in its original black ammo can-style metal box with outer cardboard box and includes two tape switches for the laser and flashlight, adjustment tools, lens cloth and manual with paperwork. (239413-82E)
3513	Colt Carry Handle Scope One original Colt-marked 3x20 carry handle scope for AR-15 style rifles with a duplex reticle and bright excellent optics in near excellent condition retaining about 98% plus original matte black anodization with a few small spots of light silvering on the high edges from mounting and some very light loss on the turret caps. The original white cardboard box with gold colored "COLT" and "3 X 20" on the lid remains in very good plus condition displaying a tear in one edge of the lid along with a few minor scuffs and light discoloration from age. The scope includes black leather "bikini" style lens covers and a yellow "Read Owners Manual" tag. The Japanese-manufactured scope retains its yellow inspection sticker and features a BDC reticle calibrated for 5.56mm NATO M195/223 Rem 55 gr. FMJ out of 20" barrels with 1/12" twists and the ocular lens is adjustable for parallax. (23A9413-82F)
3514	Bushnell Elite Scope One Bushnell Elite 3200 3-10x40 short action compact riflescope with Multi-X reticle and bright excellent optics. Scope remains in excellent plus condition retaining 99% plus original matte black anodized finish with faint marks on the hammer forged aluminum/titanium alloy tubes from previous mounting. The scope features multi-coated lens treated with Bushnell's Rainguard coating and is water/fog/shock proof and includes lens covers. (239453-162A)
3515	Zeiss Scope One Zeiss Conquest HD5 3-15x42 riflescope with Z-Plex reticle and bright exceptional glass. There are a couple very faint signs of previous mounting on the body with the scope otherwise remaining in excellent plus condition. The scope features side parallax adjustment, lockable target turrets and the protective LotuTec and T Coatings provide the brightness, contrast and clarity for which Carl Zeiss lens are famous. (23A9543-33A)

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
3516	Limited Edition Leupold Scope One Leupold VX-II Century Limited Edition 3-9x40 scope with LR duplex reticle and bright excellent optics in excellent condition retaining 99% plus original gloss blue with only slight evidence of previous mounting. Lot	Title/Description
3560	Leupold Pistol Scope This lot consist of a single Leupold M8-2X Extended Eye relief scope with black anodized finish, clear optics and duplex reticle. The finish rates about excellent with a few light handling marks on the edges of the tube and eye piece. (89522-58A)
3561	Aimpoint 1000 This red dot scope remains in excellent condition showing only minor handling marks. It includes a B-Square mount but it is not marked for the firearm it fits. The Aimpoint uses Weaver style base and should transfer to any gun using that style scope base. The dot still functions but will need 357 batteries. (89301-37)
3562	Leupold Pistol Scope This lot consist of a single Leupold Vari X 2.5-8x33 Extended Eye relief variable scope with black anodized finish, clear optics and duplex reticle. The finish rates about excellent with a few light handling marks. (89574-126D)
3563	Leupold Scope This lot consists of a Leupold Vari-XIII 4.5-14x40 adjustable objective riflescope. This matte finished scope features a duplex reticle and has bright, excellent optics. There are light ring marks from mounting but overall the scope is in excellent condition. A set of Burreis lens covers are included. (49543-169A)
3564	Leupold Scope This lot consists of a Leupold LPS 1.5-6x42 riflescope with a 30mm tube. This matte finished premier series scope features a duplex reticle and bright, excellent DiamondCoat optics. The tube has some light rings marks from mounting but overall the scope remains in excellent condition. The Leupold Premier Scope models were considered to be part of the top of the product line for Leupold optics during their production and were competitors for the quality European scope market. (49543-147A)
3565	Leupold Scope This lot consists of a Leupold Mark 4 8.5-25x50 LRT riflescope. This matte finished tactical series scope features a mil-dot reticle and bright excellent DiamondCoat optics. Features include target turrets with 1/4 MOA adjustments and a side focus knob. Flip-up lens covers and a set of tactical ring for mounting to virtually any picatinny rail type mount system are included. An excellent example of these long-range tactical series scopes. (49543-48A)
3566	Vortex Scope This lot consists of a Vortex 4-16x44 Diamondback series riflescope. This black matte tactical scope features the EBR-2C (MOA) reticle and has bright excellent optics. A set of factory bikini style lens covers and a Vortex Pro Extended Cantilever mount are included. The mount is capable of being secure to most Picatinny style rails. An overall excellent example of these tactical series riflescopes. (49543-37A)
3567	Millett Scope This lot consists of a Millett DSM-1 1-4x24 riflescope. The scope features the illuminated donut dot reticle and has excellent optics. The scope utilizes a CR2032 style battery, however one is not included and the scope could not be tested for proper operation. A Colt cantilever extended scope mount is included. The mount is designed to attached to most Picatinny style rails. An excellent example overall. (49543-3A)
3568	Nikon Scope This lot consists of a Nikon 3-9x50 ProStaff series riflescope. This matte finished scope features a duplex reticle and has excellent optics. There are a few light ring marks from mounting but overall the scope remains in excellent condition. (49543-152A)
3569	Leupold Scope This lot consists of a Leupold Vari-XII 2-7X riflescope. This gloss blue finished scope features the target dot reticle and has excellent optics. There are light ring marks on the tube from mounting but overall the lower-profile scope remains in excellent condition. (49543-179A)
3570	Redfield Scope This lot consists of a Denver, CO vintage Redfield 3-9x40 riflescope. This gloss finished scope features Redfield's 4-plex reticle and is most likely a "Tracker" model. There are light ring marks from mounting but overall this vintage scope remains in excellent condition. (49543-27A)
3571	Maine Vue Scope This lot consists of a Maine Vue Optics Guide Series 6-24x50 riflescope. This matte finished scope features a target dot reticle and has excellent optics. Other features include an adjustable objective and target turrets, and included are a 4" factory sunshade and a set of factory screw-in lens covers. There are a few light ring marks but overall it remains in excellent condition. (49522-50A)
3572	Leupold Scope This lot consists of a Leupold FX-II 2.5X28 Scout riflescope. This matte finished scope features a duplex reticle and has an intermediate eye relief and bright excellent optics. A set of Leupold QRW rings and a factory rubber bikini lens cover are included. An excellent example overall. (49543-19A)

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
3573	MDM BTS V 1.5-4.5x26mm Scope This scope measures 10 3/4" long and retains 99% black finish, with only a few minor handling marks. The scope glass is clear, the magnification ring turns easily, and the scope features a Swarovski 4N-style reticle with a red illuminated center dot. The capped turrets are hand adjustable and feature 1/2" at 100 yards adjustments. (149543-28A) [Phil Buker Collection]
3574	Swarovski Z5 3.5-18x44P Scope This scope measures 14 5/8" long and retains 98% black finish with a few light wear marks from previous rings. The scope glass is crisp and clear, the magnification ring turns easily, and the scope features a Swarovski BRX reticle. The capped turrets are hand adjustable and feature 1/4" at 100 yards adjustments, and the scope has a easily used parallax adjustment. Included with the scope are scope covers, the manual, and paperwork. (149543-165A) [Phil Buker Collection]
3575	Swarovski Habicht 3-9x36mm Scope This scope measures 11 5/8" long and retains about 99% black finish with only a few light mounting marks. The scope glass is crisp and clear, the magnification ring turns easily, and the scope features a Swarovski 4A reticle. The capped turrets are hand adjustable and feature 1/4" at 100 yards adjustments. Included with the scope is a Devtron Scopecoat. (149543-65A) [Phil Buker Collection]
3576	Swarovski Habicht 3-10x42 A Scope This scope measures 12 1/4" long and retains about 99% black finish with a few light handling marks. The scope glass is crisp and clear, the magnification ring turns easily, and the scope features a Swarovski ML (muzzleloading) reticle with BDC points. The capped turrets are hand adjustable and feature 1/4" at 100 yards adjustments. Included with the scope is the factory box which has a light compression bend, owner's manual, reticle manual, assorted muzzleloading dope cards, two Allen wrenches, and a glass cloth. (149418-5A)
3577	Vintage Lyman Target Scope This fixed 10X Lyman Junior Targetspot scope measures 21 1/2" long and retains about 95% original blue with scattered light wear marks, a few scattered specks of oxidation, and a few small spots toning to brown. The scope glass remains clear, and both lenses are protected by metal screw-on caps. The scope is equipped with target block mounts, the rear of which is adjustable, and the objective lens is adjustable for distance. The Lyman markings are lightly faded, but the scope is clearly numbered "4753". A nice example of these vintage target scopes. (14A8927-223A)
3578	Tritium Pistol Night Sights This lot includes two sets of TRUGLO Brite Site tritium night sights, and one set of Zone 3 tritium night sights. The TRUGLO sights are for the S&W M&P series and compatible models, and the Glock low set. The S&W TRUGLO sights remain bright when in the dark, while the Glock compatible TRUGLO sights have dimmed. The Zone 3 sights are compatible with the Springfield XD models; these sights have also dimmed. All sights remain in their original packaging. (149413-109)
3579	Leupold Vari-X III 1.5-5x20 Scope This scope measures 9 1/2" in length and features clear excellent optics with a duplex reticle. The matte blue finish retains about 99% matte blue finish with no discernible blemishes and the scope rates excellent overall. (129520-3A)
3580	Weaver T-16 16x40 Riflescope This scope measures 15 5/8" in length and features clear excellent optics with a fine crosshair reticle. The metal surfaces retain about 99% original blue finish with few if any handling marks and the scope is in overall excellent condition. (129543-66A) [Phil Buker Collection]
3581	Schmidt & Bender 1.25-4x20 Scope This scope measures 10 3/4" in length and features clear excellent optics with a heavy duplex reticle. The metal surfaces retain about 99% original blue finish and the scope is in excellent condition overall with few if any blemishes besides a bit of scope ring wear (rings not included). (129100-664A) (150/250) Est. 150 - 250
3582	Swift 8-32x50 Scope This scope measures 16 1/2" in length and features clear excellent optics with a duplex reticle. The metal surfaces retain about 98% original matte blue finish with tiny instances of silvering mostly at the edges near the objective lens and the turret caps. Overall the scope is in excellent condition. Includes one 3 1/4" objective lens sun shade. (129522-43A) [Phil Buker Collection]
3583	Burris 2-7x25 Mini Scope This scope measures 9 1/2" in length and features clear excellent optics with a duplex reticle. The metal surfaces retain about 99% original blue finish with few if any handling marks. Overall the scope is in excellent condition. (129543-140A) [Phil Buker Collection]

Lot	Title/Description
3584	Carl Zeiss Conquest 3-9x50 MC Riflescope This scope measures 12 3/8" in length and features clear excellent optics with a duplex reticle. The matte blue metal surfaces retain about 99% original finish with no discernible blemishes except a bit of negligible scope ring wear (rings not included). Overall the scope is in excellent condition. Includes one pair of Zeiss hard rubber bikini-style lens covers. (129543-120A) [Phil Buker Collection] (400/600) Est. 400 - 600
3585	Leupold Vari-X II 2-7x33 Scope This scope measures 11" in length and features clear excellent optics with a Leupold LR Duplex reticle. The matte blue metal surfaces retain about 99% original finish and the scope is in excellent condition with no discernible blemishes. Includes a Leupold soft nylon protective sleeve. (129543-4A) [Phil Buker Collection]
3586	Nikon Buckmasters 4.5-14x40 Scope This scope measures 14 3/4" in length and features clear excellent optics with a duplex reticle. The matte blue surfaces retain about 98% original blue finish with a bit of silvering due to scope ring wear (rings not included). Overall the scope is in excellent condition. (129543-60A) [Phil Buker Collection]
3587	Leupold UltimateSlam 2-7x33 Scope This scope measures 11" in length and features clear excellent optics with a Leupold Sabot Ballistic reticle. The matte blue surfaces retain about 99% original finish with no discernible blemishes and the scope is in excellent condition. Includes one screw-in flip-up ocular lens cover. (129543-206A) [Phil Buker Collection]
3588	Burris 1.75-5x20 Fullfield Scope This scope measures 10 7/8" in length and features clear excellent optics with a target dot reticle. The matte blue surfaces retain about 95% original finish with very few blemishes save a single area worn to bright on the right side of the tube and tiny instances of silvering on the turret caps. Overall the scope is in about excellent condition. (129522-32A) [Phil Buker Collection]
3589	Leupold Vari-X III 2.5-8x33 Scope This scope measures 11 1/2" in length and features clear excellent optics with a duplex reticle. The blue metal surfaces retain about 99% original finish with no discernible handling marks except negligible hints of scope ring wear (rings not included). Overall the scope is in excellent condition. (129543-148A) [Phil Buker Collection]
3590	Swarovski Optik Habicht 3-9x36 Scope This scope measures 11 5/8" in length and features clear excellent optics with a duplex reticle. The matte blue metal surfaces retain about 99% original finish with no discernible blemishes and the scope is in overall excellent condition. (129543-7A) [Phil Buker Collection]
3591	Leupold Vari-X III 1.5-5x20 Scope This scope measures 9 1/2" and features clear excellent optics with a German #4 reticle centered by an illuminated red dot. The illumination is fully functional with 11 levels of brightness. The matte blue metal surfaces retain 99% original finish and the scope is in overall excellent condition. (129543-14A) [Phil Buker Collection]
3592	Leupold Vari-X 3-9x33 Compact Scope This scope measures 10 3/4" in length and features clear excellent optics with a duplex reticle. The blue metal surfaces retain about 98% original finish with very few blemishes and a bit of scope ring wear (rings not included). (129543-176A) [Phil Buker Collection]
3593	Leupold Vari-X II 3-9x40 Scope This scope measures 12 3/8" and features clear excellent optics with a fine duplex reticle. The matte blue metal surfaces retain about 99% original finish with no discernible blemishes and the scope is in overall excellent condition. Includes one screw-on objective lens cover and one yellow screw-on objective lens filter. (129543-8A) [Phil Buker Collection]
3594	Leupold Vari-X III 2.5-8x36 Boone & Crockett Club Scope This scope measures 11 1/4" in length and features clear excellent optics with a Leupold Boone & Crockett reticle. The matte blue metal surfaces retain about 99% original finish with tiny hints of scope ring wear. Overall the scope is in excellent condition. Includes one pair of matching Leupold scope rings. (129543-15A) [Phil Buker Collection]
3595	Leupold Vari-X IIc 3-9x40 Scope This scope measures 12" in length and features clear excellent optics with a duplex reticle. The silver anodized metal surfaces retain about 99% original finish with no discernible blemishes and the scope is in excellent condition. (129531-8A)
3596	Leupold Alaskan 4x25 Scope This scope measures 10" in length and features clear excellent optics with a duplex reticle. The blue metal surfaces retain about 99% original finish with no discernible blemishes and the scope is in excellent condition. (129543-134A) [Phil Buker Collection]
3597	Leupold Vari-X IIc 3-9x40 Scope This scope measures 12 1/4" in length and features clear excellent optics with a duplex reticle. The blue metal surfaces retain about 99% original finish with no discernible blemishes and the scope is in excellent condition overall. (129522-41A) [Phil Buker Collection]

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
3598	Redfield Widefield 1.75-5x20 Scope This scope measures 10 3/4" in length and features clear excellent optics with a duplex reticle. The blued metal surfaces retain about 99% original finish with very few blemishes except a bit of scope ring wear (rings not included). Overall the scope is in excellent condition. (129100-850A) [Richard "Stretch" Kennedy Collection]
3599	Leupold Vari-X I 3-9x40 Scope This scope measures 12 1/8" in length and features clear excellent optics with a duplex reticle. The blued metal surfaces retain about 99% original finish with few if any blemishes and overall the scope is in excellent condition. Includes one soft nylon protective case. (129543-54A) [Phil Buker Collection]
3600	Schmidt & Bender 1.25-4x20 Scope This scope measures 10 1/2" in length and features clear excellent optics with a German #4 reticle. The blued metal surfaces retain about 99% original finish with few blemishes aside from very light scope ring wear (rings not included). Overall the scope is in excellent condition. Includes one pair of bikini-style hard rubber lens covers. (129100-860A) [Richard "Stretch" Kennedy Collection]
3601	Swarovski Habicht 4-12X Scope This scope measures 13 1/2" in length and features clear excellent optics with a duplex rangefinding reticle. The matte blue metal surfaces retain about 99% original finish and the scope is in excellent condition overall. (12A9543-151A) [Phil Buker Collection] (300/500) Est. 300 - 500
3602	Leupold Vari-X III 1.5-5x20 Scope This scope measures 9 1/4" in length and features near excellent very slightly foggy optics with a duplex reticle. The blued metal surfaces retain about 98% original finish with very few blemishes save a bit of scope ring wear (rings not included). Overall the scope is in near excellent condition. (129100-667A) [Richard "Stretch" Kennedy Collection]
3603	Three Scopes Three scopes: first, a Bushnell Banner Lite-Site 1.5-6X measuring 10" in length and featuring clear excellent optics with a duplex reticle. The toggle-switch illumination is nonfunctional but appears undamaged and may require only a new battery. The blued metal surfaces retain about 99% original finish with few if any discernible blemishes and the scope rates excellent overall. Second, a Bushnell Banner II 3-9X measuring 11" in length and featuring clear excellent optics with a fine crosshair reticle. The blued metal surfaces retain about 98% original finish with few blemishes besides a few instances of silvering and light scope ring wear (rings not included). Overall the scope rates near excellent to excellent. Third, one BSA Catseye 3-9X scope measuring 13 1/2" in length and featuring clear excellent optics with a German #4 reticle. The rubber-coated steel surfaces rate about good, exhibiting handling wear and slight tackiness throughout. Overall the scope is in good condition. (129100-779A)
3604	Weaver K10 60-B 10x33 and Universal 4x32 Scopes Two scopes: First, a Weaver Model K10 60-B 10x33 scope measuring 15 1/2" in length, featuring an adjustable objective lens and clear excellent optics with a fine crosshair reticle. The blued metal surfaces retain about 99% original finish with a bit of light scope ring wear (rings not included) and the scope rates excellent overall. Second, a Universal 4x32 scope measuring 11 3/4" in length and featuring clear excellent optics with a duplex reticle. The blued steel surfaces retain about 99% original finish with few if any blemishes and the scope rates excellent. Includes a pair of blued steel weaver scope rings in excellent condition. (129100-1294A)
3605	Leupold Vari-X II 3-9x40 Scope This scope measures 12 1/2" in length and features clear excellent optics with a German #4 reticle. The matte blue metal surfaces retain about 99% original blue finish with few blemishes aside from some very light scope ring wear (rings not included). Overall the scope is in excellent condition. (129532-9A)
3606	Nikon Prostaff P3 3-9x40 Scope This scope measures 12 1/4" in length and features clear excellent optics with a duplex reticle. The matte blue metal surfaces retain about 99% original finish with few if any discernible blemishes aside from very light scope ring wear (rings not included). The scope is overall in excellent condition. (129522-22A) [Phil Buker Collection]
3607	Leupold Vari-X III 1.5-5x20 Scope This scope measures 9 1/2" in length and features clear excellent optics with a duplex reticle. The blued metal surfaces retain about 99% original finish with scattered tiny handling marks here or there. Overall the scope is in excellent condition. (129522-27A) [Phil Buker Collection]
3608	Tasco World Class 3-9x40 Scope This scope measures 12 3/4" in length and features clear excellent optics with a mil-dot reticle. The black anodized aluminum surfaces retain about 98% original finish with very light scope ring wear (rings not included) and occasional tiny hints of silvering. Overall the scope is in excellent condition. (129574-37A)

Lot	Title/Description
3609	Redfield Revolution 2-7x33 Scope This scope measures 11 1/8" in length and features clear excellent optics with a duplex circle reticle over a single rangefinding dot on the vertical crosshair. The matte black metal surfaces retain about 99% original finish with no discernible blemishes and the scope is in excellent condition overall. (129522-56A) [Phil Buker Collection]
3610	Redfield Traditional 3-9x40 Variable Scope This scope measures 12 1/2" in length and features clear excellent optics with a post and crosshair reticle. The blued metal surfaces retain about 98% original finish with scattered tiny handling marks here or there. Overall the scope is in excellent condition. (129560-22A)
3611	Leupold Rifleman 3-9x50 Scope This scope measures 12" in length and features clear excellent optics with a duplex reticle. The matte blue metal surfaces retain about 99% original finish with very slight scope ring wear (rings not included). Includes a pair of Leupold screw-in flip-up lens covers. (129543-155A) [Phil Buker Collection]
3612	Vortex Diamondback Tactical 4-12x40 Scope This scope measures 14" in length and features clear excellent optics with a VMR-1 MOA reticle. The matte blued metal surfaces retain about 99% original finish with no discernible blemishes and the scope is in excellent condition overall. Includes one pair of bikini-style lens covers, two piece factory box and user's manual. (129543-205A) [Phil Buker Collection]
3613	Burriss 4-12X Fullfield Scope This scope measures 15 1/4" in length and features clear excellent optics with a fine duplex reticle. The blued metal surfaces retain about 99% original finish with just a few barely perceptible instances of silvering. Overall the scope is in excellent condition. (129522-47A) [Phil Buker Collection]
3614	Weaver Classic V-3 1-3x20 Scope This scope measures 9" in length and features clear excellent optics with a duplex reticle. The matte blue metal surfaces retain about 99% original finish with no discernible blemishes and the scope is in excellent condition overall. (129543-182A) [Phil Buker Collection]
3615	Leupold Vari-X Ilc 4-12x40 Scope This scope measures 12" in length and features clear excellent optics with a fine duplex reticle. The matte blue metal surfaces retain 98% finish with hints of silvering due to scope ring wear (rings not included). Overall the scope is in excellent condition. (129543-153A) [Phil Buker Collection]
3616	Burriss Fullfield II 4.5-14x42 Scope This scope measures 13" in length and features clear excellent optics with a duplex BDC reticle. The matte blue metal surfaces retain about 95% original finish with some light scope ring wear (rings not included). The scope is in excellent condition overall. Includes a pair of rubber bikini-style lens covers. (129543-70A) [Phil Buker Collection]
3617	Zeiss Conquest 3.5-10x44 Scope This scope measures 12 1/2" in length and features clear excellent optics with a duplex reticle. The matte black metal surfaces retain about 99% original finish and the scope is in overall excellent condition. (129543-172A) [Phil Buker Collection]
3618	Leupold Vari-X III 1.5x20 Scope This scope measures 9 1/2" in length and features clear excellent optics with a duplex reticle. The blued metal surfaces retain about 99% original finish with no discernible blemishes and the scope is in excellent condition overall. Includes one pair of silver anodized Weaver-style scope rings. (129543-268) [Phil Buker Collection]
3619	Leupold Vari-X I 2-7x33 Scope This scope measures 11" in length and features clear excellent optics with a duplex reticle. The matte blue metal surfaces retain about 99% original finish with hints of light scope wear (rings not included). Overall the scope is in excellent condition. Includes one soft nylon carrying sleeve. (129543-206B) [Phil Buker Collection]
3620	Leupold Vari-X I 1/4x Shotgun Scope This scope measures 9 1/4" in length and features clear excellent optics with a heavy duplex reticle. The matte blue metal surfaces retain about 99% original finish with a few tiny specks of silvering here or there at the edges. Overall the scope is in excellent condition. Includes a pair of blued Weaver scope rings on thumbscrew mounts. (129543-262) [Phil Buker Collection]
3621	Leupold Vari-X Ilc 1-4x Scope This scope measures 9" in length and features clear excellent optics with a duplex reticle. The blued metal surfaces retain about 99% original finish with few if any blemishes. Overall the scope is in excellent condition. Includes one pair of blued Leupold scope rings. (129543-269) [Phil Buker Collection]

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
3622	Leupold Vari-X III 1.5-5x20 Scope This scope measures 9 1/4" in length and features clear excellent optics with a duplex reticle. The blued metal surfaces retain about 99% original finish with occasional tiny hints of silvering here or there and no other discernible blemishes. Overall the scope is in excellent condition. (129543-263) [Phil Buker Collection]
3623	Burris Signature 3-9x40 Scope This scope measures 13" in length and features clear excellent optics with a duplex reticle and illuminated red dot. The illumination is adjustable to medium and high brightness settings and remains fully functional. The blued metal surfaces retain about 98% original finish with just a few tiny handling marks here or there. Overall the scope is in excellent condition. (129543-255) [Phil Buker Collection]
3628	iProtec Illuminated Red/Green Dot Sight This sight measures 6 1/4" in length and features clear excellent optics with an adjustable illuminated dot reticle. The reticle adjusts to five levels each of red and green and remains fully functional. The matte blue metal surfaces of the tube retain about 99% original finish with no discernible blemishes. Overall the sight is in excellent condition. (129543-261) [Phil Buker Collection]
3629	TruGlo Tru-Brite 3-9x44 Red/Green Illuminated Reticle Scope This scope measures 12 3/4" in length and features clear excellent optics with an illuminated duplex reticle. The illumination adjusts to five levels each of red and green and remains fully functional. The matte black metal surfaces retain about 98% original finish with occasional tiny instances of silver and handling marks here or there. Overall the scope is in excellent condition. Includes one pair of blued Leupold scope rings. (129543-258) [Phil Buker Collection]
3630	Zeiss Conquest 3-12x Scope This scope measures 15 1/4" in length and features clear excellent optics with a heavy duplex reticle. The matte black metal surfaces retain about 99% original finish with a few minute instances of silvering. Overall the scope is in excellent condition. Includes one pair of matching matte black Weaver-style scope rings. (129353-259) [Phil Buker Collection]
3631	Thompson/Center Electra Dot RP 2.5x20 Scope This scope measures 8 1/2" in length and features clear excellent optics with an illuminated Electra Dot reticle. No battery is included and illumination has not been tested for functionality. The blued metal surfaces retain about 98% original finish with a bit of silvering at the edges of the mounting rail. Overall the scope is in near excellent condition. (129543-264) [Phil Buker Collection]
3632	Schmidt & Bender 3-12x50 Illuminated Reticle Scope This scope measures 13 3/4" in length and features clear excellent optics with German #4 crosshairs and a red-illuminated circle-x reticle. The illumination is adjustable to 11 levels of brightness and remains fully functional. The matte black metal surfaces retain about 99% original finish with no discernible blemishes. Overall the scope is in excellent condition. Includes one pair of matte blue scope rings on a Leupold-style proprietary barrel mount for a Blaser R93 rifle barrel. (129543-260) [Phil Buker Collection] (700/900) Est. 700 - 900

Lot	Title/Description
3633	Leupold M8-4x27 Extended Eye Relief Scope This scope measures 8 1/4" in length and features clear excellent optics with a duplex reticle. The blued metal surfaces retain about 99% original finish with few if any discernible blemishes. Overall the scope is in about excellent condition. (129543-125A) [Phil Buker Collection]
3634	Burris 2x20 Handgun Scope and Red Dot Sight Two Burris optics: first, a 2x20 Handgun scope which measures 8 3/4" in length and features clear excellent optics with a duplex reticle. The matte black metal surfaces retain about 99% original finish with a few tiny instances of silvering here or there. Overall the scope is in excellent condition. Second, one Burris red dot sight on a thumbscrew Weaver-style mount. The illuminated dot adjusts to four levels of brightness and is fully functional. The sight rates excellent overall. (129543-157A, 129A) [Phil Buker Collection]
3635	Burris Signature 8-32x50 Daylight/Twilight Scope This scope measures 18" in length and features clear excellent optics with a duplex reticle. The matte blue metal surfaces retain about 99% original finish with a few tiny instances of silvering and the barest softening of the focus adjustment markings. The turret caps are not present. Overall the scope is in very fine to near excellent condition. Includes a pair of Butler Creek flip-up rubber lens caps. (129626-33A)
3636	Leupold Vari-X II 4-12x40 Scope This scope measures 13" in length and features clear excellent optics with a duplex reticle. The matte blue metal surfaces retain about 99% original finish with no discernible blemishes. Overall the scope is in excellent condition. Includes one pair of Butler Creek flip-up rubber lens caps. (129626-26A)
3637	Simmons Model 1022T 3-9x33 Scope This scope measures 12" in length and features clear excellent optics with a duplex reticle. The matte black metal surfaces retain about 98% original finish with a bit of silvering due to scope ring wear (rings not included). Overall the scope is in about excellent condition. Includes one pair of Butler Creek flip-up rubber lens caps. (129626-4A)
3638	Nikon Buckmasters 4.5-14x40 Scope This scope measures 15" in length and features clear excellent optics with a duplex reticle. The matte blue metal surfaces retain about 99% original blue finish with no discernible blemishes. Overall the scope is in excellent condition. Includes one pair of Butler Creek flip-up rubber lens caps. (129626-22A)
3639	Simmons Wide Angle 44 Mag 6.5-20x44 Scope This scope measures 14 1/2" in length and features clear excellent optics with a duplex reticle. The matte blue metal surfaces retain about 99% original finish with no discernible blemishes. Overall the scope is in excellent condition. Includes one factory pair of Simmons plastic bikini-style lens covers. (129626-39A)
3640	Leupold Rifleman QDManager 3-9x40 Scope This scope measures 12 1/4" in length and features clear excellent optics with a BDC reticle. The matte blue metal surfaces retain about 99% original finish with no discernible blemishes. Overall the scope is in excellent condition. Includes one pair of Butler Creek flip-up rubber lens caps. (129626-19A)
3641	Leupold Vari-X III 2.5-8x33 Scope This scope measures 11 1/4" in length and features clear excellent optics with a duplex reticle. The blued metal surfaces retain about 99% original finish with a few tiny instances of silvering. Overall the scope is in excellent condition. (129522-48A) [Phil Buker Collection]
3642	Redfield Widefield 4x40 Scope This scope measures 11 3/4" in length and features clear excellent optics with a duplex reticle. The blued metal surfaces retain about 99% original finish with a bit of very light scope ring wear (rings not included). Overall the scope is in excellent condition. (129522-30A) [Phil Buker Collection]
3643	Vortex Crossfire II 2-7x32 Scope This scope measures 11 1/2" in length and features clear excellent optics with a dead-hold BDC reticle. The matte blue metal surfaces retain about 99% original blue finish with no discernible blemishes. Overall the scope is in excellent condition. Includes one factory pair of hard plastic bikini-style lens covers. (129543-63A) [Phil Buker Collection]
3644	Leupold UltimateSlam 3-9x40 Scope This scope measures 12 3/4" in length and features clear excellent optics with a circle-x BDC reticle. The matte blue metal surfaces retain about 99% original finish with only very light scope ring wear (rings not included). Overall the scope is in excellent condition. (129522-19A) [Phil Buker Collection]
3645	Leupold Vari-X II 2-7x33 Shotgun Scope This scope measures 11" in length and features clear excellent optics with a duplex reticle. The matte blue metal surfaces retain about 99% original finish with no discernible blemishes. Overall the scope is in excellent condition. (129543-229A) [Phil Buker Collection]

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
3646	Leupold Vari-X II 2.5-8x32 Handgun Scope This scope measures 9 3/4" in length and features clear excellent optics with a duplex reticle. The blued metal surfaces retain about 99% original finish with no discernible blemishes. Overall the scope is in excellent condition. Includes on Leupold soft nylon carrying sleeve. (129543-124A) [Phil Buker Collection]
3647	Tasco High Country 4-16x40 Scope This scope measures 14 1/4" in length and features clear excellent optics with a duplex reticle. The blued metal surfaces retain about 98% original blue finish with some light handling marks and silvering due to scope ring wear (rings not included). Overall the scope is in about excellent condition. (129543-243A)
3648	Burris Fullfield II 3-9x40 Scope This scope measures 12 1/2" in length and features clear excellent optics with a BDC reticle. The matte blue metal surfaces retain about 99% original finish with just a bit of silvering on the turret caps and hints of scope ring wear (rings not included). Overall the scope is in excellent condition. (129543-226A) [Phil Buker Collection]
3649	Zeiss Diavari V 3-12x56 Scope This scope measures 13 1/4" in length and features clear excellent optics with a heavy duplex reticle. The matte blue metal surfaces retain about 99% original finish with no discernible blemishes. Overall the scope is in excellent condition. Includes one pair of Zeiss factory hard rubber bikini-style lens caps. (129543-228A) [Phil Buker Collection]
3650	Burris Fullfield II 3-9x40 Illuminated Reticle Scope This scope measures 12" in length and features clear excellent optics with a duplex reticle centered by an illuminated target dot. The push-button illumination is currently non-functional and likely requires only a new battery. The matte blue steel surfaces retain about 99% original finish with few if any discernible blemishes. Overall the scope is in about excellent condition. (129543-242A)
3651	Nikon 2-7x32 Scope This scope measures 11 1/4" in length and features clear excellent optics with a duplex reticle. The blued metal surfaces retain about 98% original finish with some light handling marks due to scope ring wear (rings not included). Overall the scope is in excellent condition. (129543-227A) [Phil Buker Collection]
3652	Nikon Prostaff 3-9x40 Scope This scope measures 12" in length and features clear excellent optics with a duplex reticle. The matte blue metal surfaces retain about 99% original finish with no discernible blemishes. Overall the scope is in about excellent condition. (129543-171A)
3653	Leupold RF Special 4x28 Scope This scope measures 9" in length and features clear excellent optics with a duplex reticle. The blued metal surfaces retain about 98% original finish with a bit of light scope ring wear (rings not included). Overall the scope is in excellent condition. (129543-210A) [Phil Buker Collection]
3654	Pentax 3-9x36 Scope This scope measures 13" in length and features clear excellent optics with a duplex reticle. The blued metal surfaces retain about 99% original finish with tiny hints of silvering on the turret caps. The rubber lining around the objective lens is partially loose in one spot, otherwise the scope exhibits no discernible blemishes and overall is in about excellent condition. (129522-6A) [Phil Buker Collection]
3655	Leupold Vari-X 3-9x40 Scope This scope measures 12 1/4" in length and features clear excellent optics with a duplex reticle. The blued metal surfaces retain about 99% original finish with no discernible blemishes. Overall the scope is in excellent condition. (129522-7A) [Phil Buker Collection]
3656	Leupold Vari-X Compact 3-9x33 Scope This scope measures 10 3/4" in length and features clear excellent optics with a duplex reticle. The matte blue metal surfaces retain about 99% original finish with tiny hints of scope ring wear (rings not included). Overall the scope is in excellent condition. (129522-11A) [Phil Buker Collection]
3657	Thompson Center Model 8666 Hawken Hunter Series 4-12x44 Scope This scope measures 13" in length and features clear excellent optics with a duplex reticle and an adjustable objective lens. The metal surfaces retain about 99% black anodized finish with negligible scope ring wear (rings not included). Overall the scope is in excellent condition. Includes one pair of plastic bikini-style lens covers. (129574-46A) [James Traynor Collection]
3658	Leupold Vari-X III 4.5-14x40 Scope This scope measures 12 1/4" long and features clear excellent optics with a duplex reticle, an adjustable objective lens and a screw-in 2 1/4" objective sun shade. The metal surfaces retain about 99% original matte blue finish with a few tiny instances of silvering here or there. Overall the scope is in excellent condition. (129543-189A) [Phil Buker Collection]

Lot	Title/Description
3659	Hakko Electro-Point Mark VIII 3-9x40 Scope This scope measures 13" in length and features clear excellent optics with an illuminated Electro-Point reticle. The metal surfaces retain about 98% original blue finish with a few light handling marks and instances of silvering. Overall the scope is in about excellent condition. Battery not included. (129522-10) [Phil Buker Collection] (100/200) Est. 100 - 200
3660	Leupold M8 Compact 2.5x20 Scope This scope measures 8 1/2" in length and features clear excellent optics with a duplex reticle. The metal surfaces retain about 98% original blue finish with scattered handling marks and tiny instances of silvering across the body. Overall the scope is in near excellent to excellent condition. (129522-9A) [Phil Buker Collection]
3661	Leupold M8 7.5x40 Scope This scope measures 12 1/4" in length and features clear excellent optics with a fine German #4 reticle. The metal surfaces retain about 99% original blue finish with a few tiny handling marks here or there. The turret caps, ocular lens adjustment ring and rim of the objective lens assembly are toned to plum. Overall the scope is in very fine condition. (129574-47A) [James Traynor Collection]
3662	Leupold Vari-X III 1.5-5x20 Scope This scope measures 9 1/4" in length and features clear excellent optics with a duplex reticle. The metal surfaces retain about 99% original matte blue finish with no discernible blemishes except tiny instances of silvering on the turret caps. Overall the scope is in excellent condition. Includes one pair of Butler Creek (129543-64A) [Phil Buker Collection]
3663	Bushnell Elite 3200 3-10x40 scope This scope measures 11 1/2" in length and features clear excellent optics with a duplex reticle. The metal surfaces retain about 99% original matte blue finish with no discernible blemishes. Overall the scope is in excellent condition. Includes one pair of factory hard rubber bikini-style lens covers. (129522-36A) [Phil Buker Collection]
3664	Bushnell Trophy Slug Gun 3-9x40 Scope This scope measures 12 1/4" in length and features clear excellent optics with a DOA 200 ballistic reticle. The metal surfaces retain about 98% original matte blue finish with some light handling marks due to scope ring wear (rings not included). Overall the scope is in excellent condition. (129543-55A) [Phil Buker Collection]
3665	Leupold Vari-X III 2.5-8x36 Scope This scope measures 11 1/4" in length and features clear excellent optics with a duplex reticle. The metal surfaces retain about 99% original matte blue finish with only minute instances of silvering on the turret caps. Overall the scope is in excellent condition. Includes one pair of Anderson & Co. rubber bikini-style lens covers. (129522-21A) [Phil Buker Collection]
3666	Hensoldt Wetzlar Duralyt 1 1/2x27 Scope This scope measures 12" in length and features clear excellent optics with a German #4 reticle. The metal surfaces retain about 99% original blue finish and the scope is in excellent condition overall. Includes two Akah leather carrying cases, both in about excellent condition with some crazing of the carrying straps. (129543-55B)
3667	Springfield Armory Art IV 3-9x33 Scope This scope measures 13" in length and features clear excellent optics with a duplex reticle and a pair of rangefinding stadia on the low end of the vertical crosshair. The metal surfaces retain about 99% original matte blue finish with no discernible blemishes except a bit of light coin slot wear on the turrets. Overall the scope is in excellent condition. (129544-253A)
3668	Leupold Vari-X III 1.5-5x20 Scope This scope measures 9 3/4" in length and features clear excellent optics with a duplex reticle. Metal surfaces retain about 99% original blue finish with only a few tiny instances of silvering. Overall the scope rates excellent. Includes one pair of matte blue Weaver 1" scope rings. (129574-36A)
3669	Redfield Traditional 3-9x40 Scope This scope measures 12 1/2" and features clear excellent optics with a duplex reticle. The metal surfaces retain about 99% original blue finish with sparse pinprick instances of silvering. Overall the scope is in excellent condition. Includes one pair of plastic Redfield lens caps. (129594-4A)
3670	Leupold Scope This VX-L 3.5-10x50mm mate black scope measures 12 1/2" overall with a Boone & Crocket reticle and crisp clear optics. There are faint ring marks along the 1" diameter tube and a few scattered light handling marks and the scope remains in excellent condition. (109543-61A)
3671	Carl Zeiss Scope This Conquest 4.5-14x50 matte black scope measures 14" overall with duplex reticle and crisp clear optics. The scope features a fast focus ring, 1/4 MOA adjustments and comes with a set of unmarked tactical style mounts and bikini-style lens covers. (10A9543-5A)

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
3672	Leupold Scope This LPS 3.5-14x50mm satin finish black scope measures 13 1/2" overall with a duplex reticle and crisp clear optics. This side focus scope has very faint ring marks along its 30mm tube and a couple of very minor light handling marks hardly worth mentioning and remains in excellent condition. (10A9543-47A)
3673	Kahles Scope This Helia C 1.1-4x24mm matte black scope measures 10 1/2" overall with a heavy post and crosshair reticle and crisp clear optics. There are a set of Warne style QD rings and bases included and this quality optic remains in excellent condition. (10A9543-29A)
3674	Burris Scope This 2-7x32mm gloss black hand gun scope measures 10" overall with crosshair reticle and has clear crisp optics. There are faint ring marks along the 1" diameter tube and a few light handling marks scattered about. This scope remains in excellent condition. (109543-193A)
3675	Burris Scope This 3-9x40mm Fullfield II matte black rifle scope measures 12 1/8" overall with a ballistic plex reticle and crisp clear optics. There are faint ring marks along the 1" diameter tube and included is a set of Burris marked bikini-style lens covers. (109543-202A)
3676	Leupold Scope This 1.5-5x20mm VX-III matte black scope measures 10" overall with a duplex reticle and crisp clear optics. There are faint ring marks along the 1" diameter tube and included are a set of Leupold flip-up lens covers. (109543-26A)
3677	Leupold Scope This 2.5x28mm FX-II Scout matte black scope measures 10 1/4" overall with a duplex reticle and crisp clear optics. There are faint ring marks along the 1" diameter tube and the scope remains in excellent condition. (109543-39A)
3678	Cabela's Scope This Magnitude 8-32x50mm matte black scope measures 15 1/2" overall with EXT reticle and crisp clear optics. There are faint ring marks along the 30mm tube and included is a black foam slip on cover. (109543-20A)
3679	Burris Rifle Scope This Euro Diamond 1-4x24mm matte black scope measures 11 1/8" overall with a German 3P #4 reticle and crisp clear optics. There are faint ring marks along the 30mm tube and a few scattered light handling marks. A set of Burris bikini-style lens covers is included and the scope remains in excellent condition. (109543-32A)
3680	Nikon Scope This Prostaff 3.5-14x40mm matte black scope measures 13 1/2" overall with BDC Long Range Hunting Reticle and crisp clear optics. There are light ring marks along the 1" diameter tube and the scope remains in excellent condition. Included is a set of bikini-style lens covers. (109543-200A)
3681	Redfield Scope This 6-18x42mm AO Varmint scope has a gloss black finish with 4-Plex reticle and crisp clear optics. The scope measures 14" overall and has faint ring marks along the 1" diameter tube and a few unobtrusive light handling marks and remains in excellent condition. (109574-17A)
3682	Tasco 636A Scope This 1.75-5x32 rifle scope measures 12 1/4" overall with a gloss black finish, duplex reticle and has crisp clear optics. There are faint ring marks and light scratches along the 1" diameter tube with some light dings and abrasions along the lip of the bells. (3X109125-1B)
3683	Thompson/Center 3 RP 3x44 Scope This scope measures 8 3/4" in length, features clear excellent optics with a duplex reticle and includes a pair of matte black steel quick-release Weaver-style scope rings. The blued finish is thinning to a dark burnished yellow-brown in an area on the right side of the tube comprising about 40% of the total surface. Otherwise the metal surfaces are unblemished and feature few if any handling marks or finish loss even on the discolored area. Overall the scope is in very fine to near excellent condition. (1X126056-2A)
3684	Unmarked Rifles Sights and Collectible Lyman Sight Box One set of rifle sights housed in a non-matching vintage box. The box is labeled for a Lyman Improved Comb. Rear Sight No. 2A for a Stevens "Favorite" rifle; the included sights are not the model listed on the label. The sights comprise an unmarked 2 3/4" U-notch ramp dovetail rear sight, complete with elevator, and a German silver 7/8" blade front sight on a 3/4" by 1/2" dovetail base. The metal surfaces are in very fine good condition with little wear and the occasional spot of ochre oxidation here or there. The box is in near excellent to excellent condition with the barest hints of handling wear and age staining. (1X128939-7)

Lot	Title/Description
3685	Aimpoint Sight One Aimpoint 3000 red dot optic retaining 99% original black anodized finish with perhaps a faint handling mark or two. This Swedish-manufactured optic won awards in both the USA and France when it was introduced in 1989 and served with elite forces in Operation Desert Storm. It features a 1" tube, 3 MOA red dot, 9 brightness settings and up to a 250 hour battery life. (23A9531-6A)
3686	R.A. Litschert Spot-Shot Scope This is a Spot-Shot 12X40mm with 3/4" tube by R.A. Litschert. The scope rates about excellent with 99% original blue and anodized finishes exhibiting scattered light marks from handling and previous mounting, the anodizing on the ocular lens is toning to a plum color. The scope has clear optics with fine crosshairs and includes the target mounts and recoil spring. (8A8958-92A) (200/300) Est. 200 - 300
3687	Leupold Compact Rifle Scope This lot includes a single Leupold M8-4x28mm Compact rifle scope with black anodized finish, clear optics and duplex reticle. The finish rates about excellent with a few minor handling and mounting marks. (8A9531-3A)
3688	Redfield Bear Cub 2.75x20mm Scope This scope measures 10" in length and features clear excellent optics with a post and crosshair reticle. The metal surfaces retain about 98% original blue finish with sparse tiny handling marks and instances of silvering. Overall the scope is in near excellent condition. (129544-249A) (50/100) Est. 50 - 100
3689	Redfield 20-45x60mm Spotting Scope with Tripod This scope measures 12 3/4" in length and features clear excellent optics. The rubberized and matte blue surfaces are in excellent condition with few if any discernible blemishes. The included tripod exhibits moderate amounts of light handling wear and silvering across the Parkerized finish and some small drying cracks on the rubber tip covers of the legs. All parts of the tripod are present and function well mechanically. Includes the aluminum factory hard case. (12A6048-5) (100/200) Est. 100 - 200
3690	Rimfire Scopes Two Crosman 4x15mm scopes and one Weaver V22 3-6x17 scope. The Crosman scopes each measure 10 3/4" in length and feature clear excellent optics with a duplex reticle. The first retains about 95% silver anodized finish with several small handling marks; the turret caps have been lost. The second retains about 98% original blue finish with occasional tiny handling marks. Both are equipped with a pair of Weaver-style scope mounts matching their respective finishes. The Weaver scope measures 12 1/2" and features near excellent barely occluded optics with a fine crosshair reticle. The metal surfaces retain about 90% original blue and are scattered evenly with dark ochre flecks of oxidation. Overall the scope is in very good plus to fine condition. Includes a set of matching Weaver scope rings. (126048-4)
3691	Lyman Alaskan All-Weather 2.5x15mm Scope This scope measures 10 1/2" in length and features clear excellent optics with a fine crosshair reticle. The metal surfaces retain about 98% original blue finish with some light handling marks and instances of silvering as well as a bit of lacquer flaking to exposed brass at the rim of the ocular lens. Overall the scope is in near excellent to excellent condition. (12A9560-32A) (300/400) Est. 300 - 400
3692	Weaver Model 329 3x15mm Scope This scope measures 10" in length and features clear excellent optics with a fine crosshair reticle. The metal surfaces retain about 98% original blue finish with a few small areas of oxidation here or there. Overall the scope is in very fine to excellent condition. (127668-5E) (100/200) Est. 100 - 200
3693	Falling Block Works Barreled Action serial #K133, 32-40, 24" barrel with an excellent bore. The frame and lever retain 97-98% original blue with freckling and blemishes. The barrel is left in-the-white with two drilled and tapped holes on the underside at the muzzle and two more near the breech. Transfers as a "firearm". (229522-84) (75/150) Est. 75 - 150
3694	Thompson Center Custom Shop Encore Barrel 6.5x55 Swedish Mauser, 26" barrel with a bright excellent bore. The metal surfaces retain about 99% original matte blue finish with only the tiniest hints of wear at the edges of the receiver contact points. Overall the barrel rates excellent. The barrel is equipped with one matte blued scope base and a pair of matte blued scope rings. (129543-229) [Phil Buker Collection] (200/400) Est. 200 - 400

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
3695	Thompson Center TCR 87 Barrel 6mm CF, 23" barrel with a bright excellent bore. The metal surfaces retain about 98% original blue finish with very light wear at the edges of the receiver contact points. Overall the barrel is in excellent condition. The barrel is equipped with one blued scope base and a pair of blued scope rings. (129543-243) [Phil Buker Collection] (200/400) Est. 200 - 400
3696	Blaser R93 Rifle Barrel 7x64mm, 22 3/4" barrel with a bright excellent bore. The matte blue steel surfaces retain about 99% original finish with no discernible blemishes and the barrel is in excellent condition. The barrel is equipped with a proprietary scope mount and a pair of matching matte blue Leupold-style rings. (129543-226) [Phil Buker Collection]
3697	Blaser R93 Rifle Barrel 300 Win Mag, 25 1/2" barrel with a bright excellent bore. The metal surfaces retain 99% original matte blue finish with no discernible blemishes and the barrel is in excellent condition. Includes a matte blue proprietary quick-release scope mount with a matching pair of rings. (129543-228) [Phil Buker Collection]
3698	Thompson Center Encore Barrel 6.5x55 Swedish Mauser, 24" barrel with a bright excellent bore. The blued steel surfaces retain about 98% original finish with the barest of handling marks at the receiver contact points. The barrel is equipped with a white-beaded dovetail blade front sight and a silver anodized Leupold Lock scope base with quick-detach rings. Overall the barrel rates excellent. (129543-242) [Phil Buker Collection] (200/400) Est. 200 - 400
3699	Browning Model 71 Barrel 348 Win, 20" barrel with a bright excellent bore. The blued steel surfaces retain about 99% original finish with very few if any discernible blemishes. The barrel is equipped with an elevation-adjustable semi-buckhorn rear sight and a brass-beaded dovetail blade front sight. Overall the barrel rates excellent. (129543-233) [Phil Buker Collection] (150/250) Est. 150 - 250
3700	Thompson Center TCR 87 Barrel 348 Win, 23" barrel with a bright excellent bore. The blued steel surfaces retain about 99% original finish with no discernible blemishes. The scope is equipped with a brass bead dovetail blade front sight, windage-adjustable flip-up U-notch rear sight and matte blue Leupold-style scope base and rings. Overall the barrel rates excellent. (129543-227) [Phil Buker Collection] (200/400) Est. 200 - 400
3701	Remington 870 Barrel 20 ga., 20" barrel with a bright excellent bore. The metal surfaces retain about 98% original blue, exhibiting a few tiny handling marks, flecks of oxidation on the bases of the sights and finish toning to plum on the magazine tube ring. The barrel is equipped with a white bead front sight and U-notch rear sight adjustable for elevation and windage. Overall the barrel is in fine condition. (129543-174A) [Phil Buker Collection]
3702	Thompson Center Contender Barrel 22 WMR, 12" barrel with a bright excellent bore and adjustable factory sights. The metal surfaces retain 99% original blue finish with no discernible blemishes. Overall the barrel is in excellent condition and appears unused. Includes the original factory packaging. (129543-270) [Phil Buker Collection] (100/200) Est. 100 - 200
3703	Freedom Arms Model 2008 Barrel 338 Federal, 15" barrel with a bright excellent bore. The metal surface retains about 99% silver anodized finish with no discernible blemishes and the barrel is in excellent condition. The barrel is equipped with a silver anodized Burris 2x scope measuring 8 3/4" and featuring clear excellent optics with a duplex reticle. The scope retains about 99% finish with no blemishes and also rates excellent. Includes the original factory box. (129543-199) (200/300) Est. 200 - 300
3704	Desert Eagle Barrel 44 Mag, 10" barrel with a bright excellent bore. The stainless steel surfaces are in excellent condition with few if any blemishes. The barrel is equipped with a Leupold M8 2x Extended Eye Relief scope measuring 8" in length and featuring clear excellent optics with a duplex reticle. The silver anodized surfaces of the scope rate excellent. The scope is attached via a pair of Weaver thumbscrew rings on a silver anodized Weaver-style rail mount. Includes the original factory box for the barrel. (129400-127A) (200/400) Est. 200 - 400

Lot	Title/Description
3705	Desert Eagle Barrel 44 Mag, 14" barrel with a bright excellent bore. The metal surfaces retain about 95% parkerized finish with some very light handling marks and silvering at the contact points. The barrel is equipped with a Bushnell Holo Sight holographic sight which is fully functional and in excellent condition. Includes the original factory box for the barrel. (129400-127B) (200/400) Est. 200 - 400
3706	Lot of AR Sights This lot consists of two A.R.M.S. rear sights, each marked "#40 L-P/.50" that were designed for U.S. Special Operations Forces and show minor wear and are fully functional including the windage knob where each click moves the aperture 1/2". (78172-14C)
3707	Lot of Cylinders This lot contains two .32 caliber cylinders. First is a nickel-plated cylinder likely for a Smith & Wesson top break revolver in 32 Short. It is numbered 51481 and retains perhaps 15% of its nickel-plate with overall oxidation staining and dark. Second is a nickel plated 32 Long cylinder likely for a "Bulldog" or similar style revolver with overall oxidation staining and dark bores. (3X108817-28)
3708	Colt New Service cylinder lot This lot includes a single cylinder assembly designed for the Colt New Service / Shooting Master Revolver. In addition to the cylinder, the extractor-rod and ratchet are present but the extractor rod head is not. The cylinder shows only light prior use and retains about 99% original blue with a light turn ring and a few minor handling marks. (2X8A9312-20A)
3709	1911 Mainspring Housings Two blued mainspring housings, one flat stipple-textured housing showing signs of being installed and one flat housing showing a type of skip-line checkering that looks to be somewhat amateurishly done, both show signs of operational use but are in about excellent condition. (2X229013-11J)
3710	Ruger Super Blackhawk barrel This 7 1/2" .44 cal. stainless steel barrel has an excellent bore. The stainless steel surfaces rate about very good to excellent with light scratches toward the muzzle. The barrel includes a blue finish serrated ramp front sight, ejector rod housing, ejector rod and ejector rod spring. The barrel shows light use and is ready to upgrade or repair your favorite Ruger "44". (89314-295A)
3711	Yugoslavian M92 7.62x39mm Parts Kit One all matching Zastava-manufactured Yugo M92 parts kit in excellent condition retaining 99% arsenal Parkerized finish. Kit includes assembled underfolding stock, barrel with a bright excellent bore with installed gas block/front sight combination and trunnion dated to 2005 with hinged dust cover, booster, gas tube with handguard, forend, in-the-white bolt and bolt carrier, synthetic ribbed pistolgrip, recoil spring assembly, safety lever, triggerguard, fire control group and small parts. All parts rate excellent and are ready for a top notch build. No magazine is included. (238925-97) {NON-GUN}
3712	Yugoslavian M92 7.62x39mm Parts Kit One all matching Zastava-manufactured Yugo M92 parts kit in excellent condition retaining 99% arsenal Parkerized finish. Kit includes assembled underfolding stock, barrel with a bright excellent bore with installed gas block/front sight combination and trunnion dated to 2003 with hinged dust cover, booster, gas tube with handguard, forend, in-the-white bolt and bolt carrier, synthetic ribbed pistolgrip, recoil spring assembly, safety lever, triggerguard, fire control group, small parts and green canvas sling. All parts rate excellent and are ready for a top notch build. No magazine is included. (238925-77) {NON-GUN}
3713	Yugoslavian M56 7.62 Tokarev Parts Kit One non-matching Zastava-manufactured Yugo M56 submachinegun parts kit in excellent condition with a barrel with a bright excellent bore. The Parkerized parts (barrel, magazine well, underfolding stock, recoil assembly) retain about 90% arsenal finish while the synthetic lower receiver and pistolgrip rate near excellent with some light handling marks and are heavily coated in protective cosmoline and the in-the-white bolt remains mostly bright with some very light oxidation staining. Lower receiver appears to contain all the necessary fire control parts and the kit also includes one original 32-round magazine in excellent condition retaining 99% gray enamel finish. (238925-94) {NON-GUN}

Lot	Title/Description
3714	Bulgarian RPK 5.45x39mm Parts Kit One unnumbered Bulgarian RPK parts kit in excellent condition retaining 99% arsenal black and gray Parkerized finish with most parts still sealed in their original packaging. The plum-colored synthetic furniture all rates excellent and includes a clubfoot stock, pistolgrip, upper and lower handguards and necessary fasteners. No magazine or barrel trunnion is included but the kit features two chrome-lined barrel assemblies with excellent bores with installed front and rear sight towers with sights, gas block, handguard retainer, flash hider and folding bipod. Also included is a complete fire control group, recoil spring assembly, dust cover, safety lever, bolt and bolt carrier, muzzle device detent parts, cleaning rod, trunnion pin and other smaller pins. (238925-67) {NON-GUN}
3715	Yugoslavian RPK 7.62x39mm Parts Kit One unnumbered Yugo RPK parts kit in excellent condition with the Parkerized parts retaining 99% arsenal finish while the in-the-white parts (barrel with an excellent bore, bolt, bolt carrier, gas block, sight towers, receiver rails etc.) rate excellent with a few small spots of light oxidation on the bolt carrier. The European hardwood buttstock and upper and lower handguard rate excellent as does the ribbed polymer pistolgrip. No magazine or barrel trunnion is included but the kit does appear to contain all other necessary parts including: dustcover, recoil spring assembly, bipod and parts, fire control group, rear trunnion, triggerguard, safety lever, handguard retainer, sight assemblies and various rivets, pins and springs. (238925-102) {NON-GUN}
3716	Yugoslavian M92 7.62x39mm Parts Kit One all matching Zastava-manufactured Yugo M92 parts kit in excellent condition retaining 99% arsenal Parkerized finish. Kit includes assembled underfolding stock, barrel with a bright excellent bore with installed gas block/front sight combination and trunnion dated to 2005 with hinged dust cover, booster, gas tube with handguard, forend, in-the-white bolt and bolt carrier, synthetic ribbed pistolgrip, recoil spring assembly, safety lever, triggerguard, fire control group, and small parts. All parts rate excellent and are ready for assembly. No magazine is included. (238925-57) {NON-GUN}
3717	Israeli Galil ARM 5.56mm NATO Parts Kit One unnumbered Israeli Galil ARM squad automatic weapon parts kit in very good condition retaining about 85% arsenal Parkerized finish with some scattered spots of light oxidation, silvering on the wear points and high edges (especially on the folding stock) and a thick coat of protective cosmoline overall. The kit includes two chrome-lined barrels one of which has a bright excellent bore and one is bright and very good with some scattered light pitting and it has the gas block and handguard retainer installed. The wooden handguard rates very good with minor finish wear and plenty of soiling while the polymer pistolgrip and rubber coating on the buttstock rate very good with minor signs of military service. Kit includes: dust cover with rear sight, bolt and bolt carrier, safety lever, recoil spring assembly, bipod, carry handle, gas tube, flash hider, fire control group, magazine release and various other small parts. (238925-74) {NON-GUN}
3718	Bulgarian AKS-74U 5.45x39mm Parts Kit One all matching Bulgarian "Krinkov" parts kit in excellent condition with a chrome-lined barrel with a bright excellent bore. All parts retain 99% arsenal paint over Parkerized finish with the chromed piston head and chrome-lined booster and gas block remaining bright with the matching parts including: barrel trunnion, bolt, bolt carrier, and top cover. The polymer pistolgrip, metal triangle side folding stock and wooden upper and lower handguards all rate about excellent. Also included are the recoil spring assembly, safety lever, cleaning kit, fire control group, pins, springs, handguard retainer, pistolgrip screw, cleaning rod and other assorted small parts. No magazine is included. An excellent condition parts kit ready to assemble into an iconic and desirable AKS-74U. (238925-100) {NON-GUN}
3719	Yugoslavian M72 RPK 7.62x39mm Parts Kit One excellent condition Zastava-manufactured RPK parts kit retaining 99% arsenal Parkerized finish while the in-the-white bolt and bolt carrier remain bright. All parts are heavily coated in protective cosmoline including the barrel whose bore is presumably excellent. Matching parts include the barrel trunnion, gas tube, cut receiver, and stock. The polymer pistolgrip and laminated hardwood stock and upper and lower handguards rate excellent with some dark discoloration where the buttstock meets the receiver which will likely clean up. The finned barrel has the trunnion, front and rear sight towers, gas block, handguard retainer and bipod installed. Also included is the recoil spring assembly, safety lever, triggerguard, fire control group and small parts. No magazine is included. (238925-62) {NON-GUN}

Lot	Title/Description
3720	Romanian PSL 7.62x54R Parts Kit One non-matching very good condition PSL parts kit retaining 95% arsenal Parkerization with a few scattered light handling marks and minor silvering on the high edges and wear points. The chrome-lined barrel has a bright excellent bore and comes complete with installed muzzle device, front sight base, gas block, hand guard retainer and rear sight base. The laminated hardwood thumbhole stock and upper handguard rate very good plus with a few minor handling marks while the lower handguard rates good with a flexing crack in the right side running from the front to the second ventilation hole. Kit comes complete with bolt, bolt carrier, dust cover, recoil spring assembly, front and rear trunnion, Bakelite gripcap, safety lever, triggerguard, complete fire control group, magazine release parts, receiver rails, barrel trunnion pin and various other small parts. No magazine is included. (238925-58) {NON-GUN}
3721	Yugoslavian M65 RPK 7.62x39mm Parts Kit One very good condition Zastava-manufactured RPK parts kit retaining about 85% arsenal Parkerized finish with scattered small spots of light oxidation and some minor handling marks and the typical silvering on the high edges and bearing surfaces. The bore appears oxidized though all parts are coated in heavy cosmoline and it may just need a thorough cleaning. The in-the-white bolt and bolt carrier remain mostly bright with scattered areas of light oxidation staining and the following parts are serial-matched to the gun: bolt, bolt carrier, dust cover, gas tube, recoil spring assembly and buttstock. The European hardwood buttstock and upper and lower handguard rate very good with a small chip in the left side of the upper handguard and scattered minor dings and handling marks from military service while the ribbed polymer pistolgrip rates very good plus with light signs of use. The front and rear sight bases, gas block, bipod and handguard retainer are installed on the barrel and the kit also includes the safety lever, trigger guard and complete fire control group. No magazine is included. (238925-98) {NON-GUN}
3722	Czech vz.61 Skorpion 32 ACP Parts Kit One excellent condition vz.61 Skorpion parts kit retaining 96% original blue with some light silvering on the high edges and wear points with the barreled upper receiver and folding wire stock serial-matched to the remnants of the cut-up lower receiver. The chrome-lined barrel is bright and excellent while the grooved hardwood pistolgrip rates near excellent with some very light handling marks. The kit also includes the bolt and recoil springs, one 10-round magazine and two 20-round magazines, cocking knobs, pistolgrip assembly, actuator assembly, pistolgrip cap and actuator spring, triggerguard, and numerous springs, detents, pins and various other small parts. The kit also includes a leather two cell magazine pouch, leather flap holster, lanyard and complete cleaning kit. An excellent condition parts kit ready to build into the famous Skorpion PDW. (238925-101) {NON-GUN}
3723	Portuguese FBP M/48 9mm Parts Kit One very good condition FBP M/48 parts kit retaining about 80% original blue. Kit includes grip module containing fire control group, wire collapsing stock, end cap, barrel with a bright excellent bore, two bolts, two telescoping recoil assemblies, rear sight, cut receiver, part of the lower receiver and one 32-round magazine. (238925-56) {NON-GUN}
3724	Czech SA vz.26 7.62 Tokarev Parts Kit One non-matching excellent condition vz. 26 parts kit retaining 97% original blue, Parkerization and gray enamel finishes with a few light handling marks and silvering of the high edges. The Bakelite lower receiver/grip module rates excellent while the bore of the barrel is bright and near excellent. Kit contains barrel with installed front sight, lower receiver with fire control group and rear sight, bolt with recoil springs but no bolt face, folding metal stock and end cap. No magazine is included. (238925-6A) {NON-GUN}
3725	Czech SA vz.26 7.62 Tokarev Parts Kit One matching excellent condition vz. 26 parts kit retaining 97% original blue, Parkerization and gray enamel finishes with a few light handling marks and silvering of the high edges. The Bakelite lower receiver/grip module rates excellent while the bore of the barrel is bright and excellent. Kit contains barrel with installed front sight, lower receiver with fire control group and rear sight, bolt with recoil springs but no bolt face, and folding metal stock. No magazine is included. (238925-6B) {NON-GUN}
3726	Cobray M11/9 9mm Parts Kit One excellent condition Cobray M11/9 parts kit retaining 99% original Parkerization and the bore of the barrel is bright and excellent. Parts kit includes barreled upper receiver with front sight, charging handle, bolt and recoil assembly along with the grip and three bags of various necessary small parts, springs and pins. No magazine is included. (238925-50) {NON-GUN}

Lot	Title/Description
3727	<p>Yugoslavian M72 RPK 7.62x39mm Parts Kit</p> <p>One all-matching near excellent condition Zastava-manufactured RPK parts kit retaining 99% arsenal Parkerized finish while the in-the-white bolt and bolt carrier remain bright. All parts are heavily coated in protective cosmoline including the barrel whose bore is presumably excellent. Matching parts include the bolt, bolt carrier, gas tube, cut receiver, dust cover and stock. The polymer pistolgrip rates about excellent, the laminated hardwood upper and lower handguard rate very good plus with a few light dings and handling marks from military service while the stock likely has a story to tell as it has a small hole in the right side and a corresponding moderate chip in the left. The finned barrel has the trunnion, front and rear sight towers, gas block, handguard retainer and bipod installed. Also included is the recoil spring assembly, safety lever, triggerguard, and complete fire control group. No magazine is included. (238925-99) {NON-GUN}</p>
3728	<p>Yugoslavian M72 RPK 7.62x39mm Parts Kit</p> <p>One all-matching very good condition Zastava-manufactured RPK parts kit retaining 75-80% arsenal Parkerized finish with most of the loss on the barrel, minor silvering of the high edges and wear points and scattered areas of light oxidation on the dust cover, barrel and bipod. The in-the-white bolt and bolt carrier remain bright with a few small spots of oxidation staining. The barrel is mostly bright showing a few scattered patches of light pitting in the strong rifling. Matching parts include the bolt, bolt carrier, gas tube, cut receiver, barrel trunnion, dust cover and stock. The polymer pistolgrip rates excellent, the laminated hardwood upper and lower handguard and stock rate very good with a few light dings and handling marks from military service. The finned barrel has the trunnion, front and rear sight towers, gas block, handguard retainer and bipod installed. Also included is the recoil spring assembly, safety lever, triggerguard, and complete fire control group. No magazine is included. (238925-59) {NON-GUN}</p>
3729	<p>Yugoslavian M65 RPK 7.62x39mm Parts Kit</p> <p>One good condition Zastava-manufactured RPK parts kit retaining about 85% arsenal blue with the barrel toning to a dark gray patina with scattered spots of light oxidation and minor pitting, some light handling marks and the typical silvering on the high edges and bearing surfaces while the bore of the barrel is oxidized. The in-the-white bolt and bolt carrier remain mostly bright with scattered areas of light oxidation and some small spots of pinprick pitting and the following parts are serial-matched to the gun: bolt, bolt carrier, dust cover, and gas tube. The European hardwood buttstock and lower handguard rate very good with scattered minor dings and handling marks from military service, the upper hand guard rates good with a 2" chip in the right edge and the ribbed polymer pistolgrip rates very good plus with light signs of use. The front and rear sight bases, gas block, bipod and handguard retainer are installed on the barrel and the kit also includes the safety lever, trigger guard and complete fire control group. The triggerguard has been slightly bent in storage and no magazine is included. (238925-96) {NON-GUN}</p>
3730	<p>Finnish M31 Suomi 9mm Parts Kit</p> <p>One Suomi parts kit retaining 98% arsenal blue with scattered areas of light pitting beneath the finish on the barrel, a few scattered minor handling marks and light silvering on the high edges. The in-the-white bolt appears to remain bright though it is coated in protective cosmoline while the smooth European hardwood pistolgrip stock rates poor with a flexing crack through the left side of the wrist where an arsenal repair was attempted. Replacement stocks remain readily available. The kit includes a barrel with a bright excellent bore, bolt, charging handle, rear sight, trigger group, barrel shroud, recoil spring and spring cap, selector and assorted other small parts. No magazine is included. (238925-73) {NON-GUN}</p>
3731	<p>British Sterling MK4 L2A3 9mm Parts Kit</p> <p>One Sterling L2A3 submachinegun parts kit in good condition retaining 85% arsenal Parkerization with the majority of the loss on the folding buttstock which displays light oxidation throughout, the bolt shows scattered spots of light oxidation with minor silvering of the high edges and bearing surfaces overall. The black Bakelite pistolgrip rates near excellent as lightly soiled. The kit contains a complete grip assembly with installed fire control group, cut magazine well showing model designation and serial #, folding stock, shrouded barrel with a bright excellent bore, bolt, end cap, charging handle, magazine release/catch assembly, and recoil assembly. (238925-104) {NON-GUN}</p>

Lot	Title/Description
3732	<p>Polish RPD 7.62x39mm Parts Kit</p> <p>One all matching Radom-manufactured RPD parts kit in excellent condition retaining about 98% arsenal blue with a few light handling marks. The in-the-white barrel has areas of light oxidation staining throughout while the bore remains bright and excellent. The smooth hardwood clubfoot stock, grooved pistolgrip and handguards rate near excellent for their age with a few light handling marks. Kit includes lower receiver with complete fire control group and buttstock, barrel, operating slide and piston, 1959-dated feed cover, bipod, feed tray, operating handle, front sight, bolt, bolt locking flap, gas regulator, cut upper receiver, and numerous small parts. No driving spring, rod or spring guide are present and no drum magazine is included. An excellent condition high-quality parts kit ready for a top notch build. (238925-65) {NON-GUN}</p>
3733	<p>Yugoslavian M92 7.62x39mm Parts Kit</p> <p>One virgin Yugo M92 parts kit in excellent condition retaining 99% arsenal Parkerized finish while the in-the-white barrel, bolt and bolt carrier also rate excellent with the barrel having a bright excellent bore. The hardwood upper and lower handguards and ribbed polymer pistolgrip appear as-new. Kit also includes booster, rear trunnion, chrome-lined gas block/front sight base, recoil spring assembly, safety lever, receiver rails, triggerguard, underfolding stock, folding stock parts, dust cover with rear sight, rear block, handguard retainer, complete fire control group, grip screw, small parts and rivets. All parts rate excellent, and with the addition of a quality receiver and barrel trunnion, they are ready for a top notch build. Note: rear trunnion will need to be drilled for folding stock mechanism and no magazine is included. (238925-75) {NON-GUN}</p>
3734	<p>Soviet PPSH-41 7.62 Tokarev Parts Kit</p> <p>The parts retain about 95% arsenal blue with some scattered small spots of light oxidation and minor handling marks along with light silvering of the high edges. The original barrel has a bright excellent bore while the in-the-white bolt remains bright thanks to a generous coating of protective cosmoline. The smooth hardwood pistolgrip stock rates good with a flexing crack in each side of the wrist and a bolt repair through the upper wrist and a few other minor signs of service and features an intact fire control group, magazine well and folding magazine release. Also included is the rear of the upper receiver with attached sight, upper receiver pivot pins and recoil assembly. Kit is incomplete with no barrel shroud and potentially other necessary parts and does not include a drum magazine. (238925-69A) {NON-GUN}</p>
3735	<p>Soviet PPS-43 7.62 Tokarev Parts Kit</p> <p>The parts retain about 85% arsenal thinning blue which is toning to plumb in areas along the receiver with scattered spots of light oxidation overall, but particularly on the magazine, and silvering on the edges of the lower receiver, high edges and bearing surfaces. The chrome-lined barrel has a bright excellent bore and the bolt has aged to a dull gray patina with a few small spots of light oxidation staining. The black Bakelite pistolgrip remains in very good condition with a few light handling marks. The kit also includes the rear of the upper receiver with complete overfolding stock, lower receiver with fire control group and magazine well with magazine release, barrel shroud with front sight, sling loop and muzzle device, remnant of upper receiver with rear sight, recoil spring assembly, pivot pin and one lightly oxidized original magazine is included. (238925-69B) {NON-GUN}</p>
3736	<p>AR-15 Parts</p> <p>Assorted items for the AR-15 platform: (1) black pebble-grain polymer stock; (1) black polymer magwell; (1) 22LR conversion magazine; matte blue optical mount. All items are in about excellent condition with very light handling and storage wear only. (128866-3)</p>
3737	<p>Mossberg 535 12 ga. Barrel</p> <p>22" ventilated rib Accu-choke barrel with a bright excellent bore. The metal surfaces retain about 98% Realtree camouflage finish with a few light handling marks here or there. The barrel is equipped with a green fiber-optic front sight and red fiber-optic rear sight adjustable for both windage and elevation and one cylinder Accu-Choke is included. Overall the barrel is in excellent condition. (129319-279A)</p>
3738	<p>M72 LAW Trigger Housings</p> <p>(7) fully and partially assembled trigger housings for the M72 Light Anti-Tank Weapon (LAW). Comprises (2) fully assembled and ready for installation, factory sealed at the top to protect internal components; (2) partially assembled without plastic case or trigger spring; (2) partially assembled with plastic cases and trigger spring but without rubber trigger cover; (1) fully assembled with cutouts in the trigger spring cover and sideplate for viewing internal components. Items are in very good plus to excellent condition with a bit of light handling and storage wear. Also included are four clear plastic front covers/sights and three sealed label sets for the weapon, all in excellent condition. (127668-4)</p>

Lot	Title/Description
3739	<p>Assorted Parts</p> <p>Four items: (1) blued steel barrel manufactured by Hi-Standard for a M1911 pistol in .45 ACP, bright excellent bore, retaining about 90% original blue with areas of slight oxidation and silvering. The link and link pin are not present. (1) gray steel K98k sight sleeve complete with adjustable sight, near excellent condition with hints of light ocher patina here or there. (1) black japanned steel gas cylinder for an M1 Garand, rating near excellent with a few light handling marks and silvering at the edges. (1) pair of Weaver scope rings, blued, in excellent condition in the original packaging, opened for cursory examination only. (127668-5C)</p>
3740	<p>Electronic Handgun Safe</p> <p>One new-in-box GunVault SpeedVault SV 500 portable safe measuring 13" L x 3.5" W x 6.5" H which according to the box easily mounts in various locations and features: protective foam-lined interior, tamper resistant door, 18-gauge steel housing, 9V battery power supply (battery not included) with audio and LED low battery warning. Safe includes mounting hardware and user manual. (239413-95A)</p>
3741	<p>Multipurpose Electronic Safe</p> <p>One sealed new-in-box GunVault MultiVault Deluxe GV 2000D portable safe measuring 14" L x 10.1" W x 7.9" H (tapering to 6.3" H) and features: foamed lined interior with shelf, 16-gauge steel housing, "No-Eyes" keypad, "tamper-proof" omni-directional spring-loaded door, interior light, motion detector with audio alarm, programmable computer lock with key lock override, silent mode, tamper indicator, power connection jack with adapter, 9V battery power supply (battery not included), and audio/LED low battery warning. Mounting hardware and template are included. (239413-95B)</p>
3742	<p>Electronic Handgun Safe</p> <p>One new-in-box GunVault SpeedVault SV 500 portable safe measuring 13" L x 3.5" W x 6.5" H which according to the box easily mounts in various locations and features: protective foam-lined interior, tamper resistant door, 18-gauge steel housing, 9V battery power supply (battery not included) with audio and LED low battery warning. Safe includes mounting hardware and user manual. (239413-95C)</p>
3743	<p>Electronic MiniVault Deluxe Safe</p> <p>One new-in-box GunVault MiniVault Deluxe GV 1000D portable safe measuring 12" L x 8.1" W x 4.9" H (tapering to 3" H) featuring: a foamed lined interior, 16-gauge steel housing, "No-Eyes" keypad, "tamper-proof" omni directional spring-loaded door, interior light, motion detector with audio alarm, programmable computer lock with key lock override, silent mode, tamper indicator, power connection jack with adapter, 9V battery power supply (battery not included) and audio/LED low battery warning. Includes user manual, mounting hardware and template. (239413-95D)</p>
3744	<p>Multipurpose Electronic Safe</p> <p>One sealed new-in-box GunVault MultiVault Deluxe GV 2000D portable safe measuring 14" L x 10.1" W x 7.9" H (tapering to 6.3" H) and features: foamed lined interior with shelf, 16-gauge steel housing, "No-Eyes" keypad, "tamper-proof" omni-directional spring-loaded door, interior light, motion detector with audio alarm, programmable computer lock with key lock override, silent mode, tamper indicator, power connection jack with adapter, 9V battery power supply (battery not included), and audio/LED low battery warning. Mounting hardware and template are included. (239413-95E)</p>
3745	<p>Hornady Sonic Cleaner</p> <p>One new-in-box Hornady Lock-N-Load Sonic Cleaner 2L with tank dimensions 7.25" x 6" x 3" featuring 80W ceramic heater, two liter stainless tank, 1-30 minute timer, and de-gas feature. While new-in-box, the outer box shows minor storage wear and the unit includes a user manual. (239413-79A)</p>
3746	<p>RCBS Partner Press Kit</p> <p>One new-in-box RCBS Partner press reloading kit for rifles and pistols (item #87466) which includes: partner press w/ primer arm, RC-130 scale, case lube kit, powder funnel, primer tray, deburring tool, case loading block, Speer reloading manual and complete instructions. (239413-64A)</p>
3747	<p>RCBS Partner Press Reloading Kit</p> <p>One sealed new-in-box RCBS Partner press reloading kit (item #87467) which includes: Partner single stage press, RC-130 scale, case lube kit, powder funnel for .22-.45 calibers, universal case loading block, case neck brushes and handle for .22-.30 caliber, .17-.60 caliber chamber and deburring tool, accessory handle-2, and latest edition of Speer reloading manual. (239413-64B)</p>

Lot	Title/Description
3748	<p>RCBS Explorer Plus Reloading Kit</p> <p>One new-in-box RCBS Explorer Plus reloading kit (item #09287) which includes: Reloader Special-5 press, Uniflow powder measure, 1,500 grain digital mini scale, Nosler 7th edition reloading manual, hand primer tool, universal case loading block, deburring tool, powder funnel, Case Slick spray lube, Powder Trickler-2, Advanced Powder Measure stand, Pow'r Pull bullet puller kit, stainless steel dial caliper, Uniflow powder measure with large and small measuring cylinders, six extra die lock rings, #2, 3, 4, 10, 43 shell holders, and product instructions. Also included are the following new handgun cases: one Ruger-branded Allen Double Handgun Case (item #27959), one Plano Gun Guard scoped pistol hard case (item #1010137), two Uncle Mike's padded and handled pistol pouches (item #52271), three green Plano Gun Guard soft pistol cases in small, medium and large (item #70900, 71300, 71500), and one 8" tan Plano soft pistol case (item #44-8) with a slightly bent zipper pull. Also included is one excellent condition Bob Allen size 15 tan soft pistol case, and two vinyl long gun bags with one in very good condition and one in fair condition with a few tears. (239413-78A, 96A)</p>
3774	<p>Hogue Grips Lot</p> <p>This lot includes nine new-in-package grips including six Monogrips as follows: one S&W N frame square butt, one S&W N frame round butt, one S&W K/L frame round butt, one S&W J frame round butt, one Ruger GP100/Super Redhawk and one Ruger SP101. Also included is one Bantam grip for S&W J frame round butt, one Automatic grip for Sig Sauer P228/P229 in 9mm and 40 S&W, and one Automatic grip for S&W Compact 3rd Gen. 6900 series. Some of the packages show minor storage wear. (239413-98A)</p>
3775	<p>Long Gun Accessory Lot</p> <p>This lot includes five new-in-package items including: one Caldwell AR-15 Mag Charger (item #397488) for loading all AR-15 style magazines, one Troy black two-point padded sling (item #SSLI-2PS-00BT-00), one Blackhawk Multicam camouflage Storm XT single point sling (item #70GS16MC) one Uncle Mike's rifle cartridge slide (item #8841-1) and one Uncle Mike's buttstock shotgun shell holder (item #8849-1). While new, the clamshell packaging of the AR-15 magazine loader has cellophane tape in a few spots along the edges. (239413-72A, 96B, 105A)</p>

Lot	Title/Description
3776	<p>Long Gun Accessory Lot</p> <p>This lot includes five new-in-package items including: one Caldwell AR-15 Mag Charger (item #397488) for loading all AR-15 style magazines, one Troy black two-point padded sling (item #SSLI-2PS-00BT-00), one Blackhawk Multicam camouflage Storm XT single point sling (item #70GS16MC) one Uncle Mike's rifle cartridge slide (item #8841-1) and one Uncle Mike's buttstock shotgun shell holder (item #8849-1). While new, the clamshell packaging of the AR-15 magazine loader has cellophane tape in a few spots along the edges. (239413-72B, 96C, 105B)</p>
3777	<p>H-S Precision Sako Stock</p> <p>H-S Precision textured black and gray fiberglass pistolgrip stock with flared shadow line cheekpiece for Sako rifles with L691 magnum actions and barrel dimensions of about 31.25 mm at the junction of the barrel and action and about 21.5 mm at the tip. The stock remains in near excellent condition save for a very tiny crack in the right side of the stock and recoil pad by the toe and a thin line of dried adhesive where the stock and recoil pad meet. (239543-46A)</p>
3778	<p>Heckler & Koch Steel Bipod</p> <p>This is a genuine HK German-manufactured, not reproduction or contract, all steel bipod in excellent condition retaining 99% original gray Parkerized finish with the slightest silvering from installation. This bipod will work with any HK G3/91/33/93 or similar clone rifles using the wide forearm with bipod grooves. New genuine HK bipods sell for \$400-\$600 when in stock online. (23A9647-13A)</p>
3779	<p>Remington Model 870 12 ga. Rifled Slug Barrel</p> <p>One fully-rifled 20" barrel with a bright excellent bore. The barrel retains 99% original matte blue and is topped by a cantilever mount equipped with a pair of 1" rings ready for your choice of optic. (23A9574-29B)</p>
3780	<p>Remington Model 1100 12 ga. Magnum Barrel</p> <p>One 30" ventilated rib barrel choked full with a bright excellent bore. This barrel is marked "FOR 3 IN. SHELLS" and retains about 97% original blue with light muzzle and bearing surface wear and a few specks of light oxidation and a couple scattered handling marks. Barrel is sighted with a silver bead. (23A9466-10B)</p>
3781	<p>Remington Model 1100 12 ga. Steel Shot Barrel</p> <p>One 26" ventilated rib Rem Choke barrel with a bright excellent bore. The barrel is sighted with a silver bead and is marked "2 3/4 IN MAGNUM OR 3 IN MAGNUM SHELLS-STEEL SHOT". Barrel retains 99% original blue with perhaps a scattered handling mark or two and includes one Rem Choke modified choke tube. (23A9466-10A)</p>
3782	<p>RPD Photograph and T-Shirt Lot</p> <p>This lot consists of one full-color matted and natural oak framed photograph of a RPD machine gun measuring 16 1/4" x 13 1/4 in near excellent condition with scattered small orange specks on the textured ivory mat. Also included are three new-in-package white XL size t-shirts with a picture of a RPD machine gun and Cyrillic writing saying "Light Machinegun Degtyaryov (RPD)" and "Union of Soviet Socialist Republics" on the center back and the same writing on the left chest. (23B9647-18A)</p>
3783	<p>Crosman Quest 1000X Barrel Cocking Airgun</p> <p>serial #D09X00840, .177 cal., 18 1/2 barrel with a bright excellent bore. The metal surfaces retain 98% original blue with scattered spots of light oxidation overall. The smooth American hardwood Monte Carlo pistolgrip stock rates excellent with a few scattered light handling marks. The barrel is sighted with a green fiber optic bead front and red fiber optic two dot fully-adjustable notch rear and mounted to the grooved receiver is a Center Point 4x32 scope with Mil Dot-style reticle with very good optics retaining 99% original black anodization with a few drips of dried paint around the turrets. (23A9466-16) {NON-GUN}</p>
3784	<p>Mossberg 500 Barrel</p> <p>One Mossberg 500 12 ga. 24" barrel choked cylinder with a bright excellent bore. The barrel features a 3" chamber and rifle sights and retains about 99% original blue with some scattered small spots of light oxidation and a few light handling marks. (23A9601-6)</p>
3785	<p>Gould & Goodrich Shoulder Holster</p> <p>One right-hand fully-adjustable brown leather rig with dual mag pouch for use with Smith & Wesson Third Generation semi-auto pistols or similar in near excellent condition. The fitted holster, straps and mag pouch are all marked "GOULD & / GOODRICH", the snap closure mag pouch is marked "LGE 3" and the holster is marked "LGC 600". (22A9663-3)</p>
3786	<p>92FS Holster</p> <p>One excellent condition black leather right-hand Galco Concealable Belt Holster Model CON202B for use with a Beretta 92FS pistol or similar. (229584-1A)</p>

Lot	Title/Description
3787	<p>Interesting and Macabre Photos, Postcards and Papers</p> <p>A very neat look into the past with very crisp images in mostly excellent condition including: Four identical prints of Colonel W. F. Cody, two 4 5/8" x 7" and two 6 3/4" x 9 1/2". 15 color and black-and-white postcards including but not limited to a portrait of Chief Red Cloud of the Lakota, indigenous peoples of the southwest and a tattered Moose Head at Gem Bar El Paso, Texas. 16 color and black-and-white postcards and photos including but not limited to the Scriver Building where a bank robbery marked the beginning of the end for the James-Younger gang, postcards of the James-Younger Gang showing Clel Miller, Charlie Pitts and Bill Stiles in death, Jesse James, Bob Younger and Cole Younger, a postcard with a note from Cole Younger to a county Sheriff stating "Be true to your friends of the heavens fall Cole Younger". An 1874 (Form No. 5) invoice/discharge paper detailing Pvt Robert Nealy's travel home with his pay and expenses, the private earned a whopping \$13.00 per month during his travel home and paid \$.25 for "army asylum". The final piece is an affidavit signed by John Selman, famous for being the man that shot John Wesley Hardin in the Acme Saloon in El Paso, Texas. The paper is missing small sections around the edges and there are a few stains and archival tape repairs along the folds and in a couple other small areas. The affidavit is signed in black ink and is a complaint against a "Dr. Mechaund", it appears to be the real-deal. (22C9005-15)</p>
3788	<p>Feinwerkbau Model 65 Single Shot Match Air Pistol</p> <p>serial #25258 .177 cal., 7 1/2" barrel with a bright excellent bore. The metal surfaces retain about 98% original black finishes with light scratches on the front of the triggerguard, and a few other handling marks. The stippled walnut factory wrap-around thumb rest grips rate about excellent showing a few dents on the butt. The pistol features a flat faced Patridge front sight, fully adjustable black blade rear sight and adjustable trigger. The pistol includes a black leather covered hard brief case with blue velvet lined French fit interior that rates excellent, (2) partial 500 pellet tins of Daisy .177 cal. Diablo-Kugeln pellets, (1) partial plastic container of Daisy .177 cal. Quick Silver pellets and unmarked pellet sizing tool. The case has locking hasp but no key is provided. Also included are a spare rear sight assembly that is missing the rear sight screw, rear sight mounting screw and possibly other parts; other spare parts and a tool. (8A8840-87) {NON-GUN} [Roy Jinks Collection] (300/500) Est. 300 - 500</p>
3789	<p>Leather Holster Lot</p> <p>This unmarked handmade brown leather flap holster is lined with soft calfskin. The holster measures 12 1/4" long, has a brass finial with a matching slot on the flap for closure, strong stitching and is sized to fit a Colt Officers Model revolver or similar revolver or pistol. It appears to accommodate a barrel length of about 8" on a revolver and 10" on a Camp Perry. Larger frame guns seem to fit but depending on the grips the flap may not close. The belt slot in the rear will accept up to a 3" wide belt. The holster rates excellent. (89558-3A)</p>
3790	<p>Vintage Colt Police Positive Box</p> <p>This is a maroon hinged factory box for a 6" Colt Police Positive Special Target 22 caliber revolver. The serial number on the bottom of the box is 23302, the end labels rate excellent and overall the box remains in very good condition. The right-side edge of the cover has partially separated and there are scattered light handling marks. (8A9558-3B)</p>
3791	<p>Ruger / Altamont Dynawood Grips</p> <p>This grip is a birch composite dyed to a rose burgundy color and includes black Ruger Phoenix medallions and a single grip screw. The panels have fleur-de-lis borders at the top and bottom with large relieved diamond with smaller raised diamond in each cut and a large raised diamond around each escutcheon. These grips are designed to fit the Ruger NVB grip frame with internal lock. The set appears to have seen little if any use and rate excellent. (89645-51A)</p>
3792	<p>Thompson Center Barrel and Forend</p> <p>This is a 10" Thompson Center ventilated rib heavy barrel chambered in 357 Magnum and designed to shoot the old T/C Hot Shot shotshell cartridges or ball ammunition. The barrel retains 99% original blue with a few handling marks. It includes a checkered walnut forend that rates very good to excellent with handling marks. The barrel features a ventilated rib with fold down windage adjustable rear sight and elevation adjustable front sight. The screw-in internal choke tube is not present. (89301-35A)</p>
3793	<p>Thompson Center Barrel and Forend</p> <p>This is an 8" ported Thompson Center octagon barrel chambered in 44 Magnum and designed to shoot the old T/C Hot Shot shotshell cartridges or ball ammunition. The barrel retains 99% original blue with a few handling marks. It includes a checkered walnut forend that rates excellent with minor handling marks. The barrel features a Patridge front sight on a serrated base, T/C adjustable rear sight, two-barrel ports on each side of the front sight and external choke. (89301-35B)</p>

Lot	Title/Description
3794	<p>Thompson Center Grip and Soft Case Lot</p> <p>This lot includes (3) right-handed grips for the Contender pistol. Included are (1) smooth walnut thumb rest grip with square butt featuring a heavy unmarked brass buttplate and stock screw, (1) checkered walnut thumb rest with pewter buttplate featuring a Cougars head (no screw) and (1) smooth walnut finger groove thumb rest with plastic buttplate with T/C logo and grip screw. All three rate about excellent with light handling marks. It also includes a T/C marked black Contender soft case with handles that measures about 11 1/2" x 16" closed, is sheepskin lined and has three-barrel compartments sewn in. (89301-35C)</p>
3795	<p>Smith & Wesson Magna Grips</p> <p>This lot consist of (2) pairs of walnut S&W K-frame square butt Magna grips with silver S&W medallions in excellent condition and (1) pair of walnut S&W N-frame square butt Magna grips with silver S&W medallions also in excellent condition. (89301-36)</p>
3796	<p>German Model E.L. 24 mm. Conversion Unit for Mauser Gew.98 Rifle by Erma</p> <p>serial #3484d, 22 LR, 26 3/8" barrel with an excellent bore. This Erma Erfurt sub-caliber repeating conversion unit remains in excellent condition. The finished metal surfaces retain about 97% original blue with most of the loss to assembly and operational wear in addition to a few handling marks. One magazine has tool marks around the take down button on the base plate. The in-the-white barrel shows light handling marks and stains from oxidation but still rates excellent. There are German "[eagle]/77" Waffenamt marks and German nitro proofs. The conversion unit is complete with barrel, bolt and receiver assemblies, a pair of magazines, magazine floorplate assembly and installation tool. The wooden box is routed to hold the Unit and rates about very good to excellent showing light to moderate handling wear. An excellent example of a conversion unit. (8A8281-33) (FIREARM) (800/1200) Est. 800 - 1,200</p>
3797	<p>Period Holster</p> <p>This lot features a period Slim-Jim style holster with riveted and sewn edges decorated with a straight row of brass studs on the front, six are dome-shaped and the top two pyramid-shaped. The whip stitching along the edge is later added and it features a simple belt slot cut into the leather. The holster rates about very good with light crazing and handling marks. Holster appears to fit a small frame spur trigger revolver with longer barrel. (8A9632-6A)</p>
3798	<p>Marble's Model 1921 Game Getter Frame Assembly</p> <p>serial #14389. It includes the complete frame assembly and folding buttstock but no barrels are provided. The metal surfaces of the frame have toned to mostly brown with traces of blue in the protected areas and along the bottom plus light stains from oxidation. The folding metal skeleton buttstock retains about 95% original nickel plate showing scattered light scratches, oxidation blemishes and operational wear. The trigger is mostly gray but the hammer has robust case-hardened colors with light operational wear. The smooth walnut factory grips rate about excellent with light handling marks. The assemblies that are present work mechanically. A search of the Marble's site shows this gun shipped April 16, 1925, with 15" barrels but other information is given. It also includes an unmarked leather holster with shoulder strap. The holster rates fair with heavy crazing, cracking, stitching is separating along most of its length and one strap has separated. (8A9574-136) (FIREARM) [James Traynor Collection] (300/500) Est. 300 - 500</p>
3799	<p>Period Smith & Wesson Revolver Box</p> <p>This is a hinged maroon leatherette covered box that is end labeled for a Smith & Wesson 22/32 Target Revolver, blued with 6" barrel and the bottom has the hand written serial number 525994. The box rates about good with light to moderate edge scuffing, three torn corners on the cover and one corner separating on the base. The inside cover is printed with instructions for this revolver in English and Spanish. The box includes a nylon bore brush on a wire rod, bore mop on a wire rod, a pair of "Caution" papers regarding cleaning, factory sample of a U.S.R.A. 20-yard Bulls Eye target center, a Colt's Special Instruction pamphlet and a copy of a S&W factory repair invoice dated May 8, 1935. (89556-16)</p>

Lot	Title/Description
3800	<p>Miniature Colt Single Action Army Revolver by Uberti</p> <p>serial #1926 .21 caliber. This is a non-firing functional 47% scale replica of the famous Colt Single Action Army Revolver. The metal surfaces retain about 99% plus original nickel plate. The one-piece walnut grips rate excellent. It features an early black powder pinched frame, one-piece walnut grips, two-line patent date (you can actually read the dates), "45 CAL." on the triggerguard strap and "Bulls Eye" ejector rod head. The gun has fully operational safety, loading and full cock notches with functional loading gate, ejector rod and removable base pin. The bottom of the barrel is marked "A. UBERTI - ITALY". Overall length is 4 7/8" long x 2 3/8" tall with a 2 1/4" plugged faux barrel. If you are a Colt Single Action Army enthusiast, you have to have this lovely replica. (8A9554-2) (NON-GUN) (500/700) Est. 500 - 700</p>
3801	<p>Thompson Center Contender Barrel</p> <p>This is a 14" solid rib 45 Colt / 410 bore barrel with an excellent bore featuring a screw-in straight-rifled choke tube. The barrel retains about 99% original blue finish. It features a full-length solid rib, silver bead front sight, fixed "U" notch rear sight and dual forend screws "dovetail locks" for mounting longer forend wood. It includes the factory box that is correctly end labeled to the barrel. Strangely, Thompson Center list this a "ventilated" rib barrel on the label but there are no vents to be found, probably old labels and a single choke tube wrench. The barrel appears to be as new in the box. (89574-126A)</p>
3802	<p>Thompson Center Contender Barrel</p> <p>This is a 10" octagon 22 Hornet barrel with an excellent bore. The barrel retains about 99% original blue finish showing a few light operational marks. It features a Patridge front sight, adjustable rear sight and the single "dovetail lock" for the forend screw is missing. This barrel appears to have seen only light use. (89574-126B)</p>
3803	<p>Thompson Center Contender Barrel</p> <p>This is a 10" heavy 357 Remington Maximum barrel with Muzzle Tamer (muzzle brake) and an excellent bore. The barrel retains about 99% original blue finish showing a few light handling marks. It has no iron sights but a T/C scope base with 1" rings is mounted. Also provided is a long factory walnut forend with dual forend screws that rates excellent and the original factory box that is end labeled to the barrel but the Muzzle tamer is not mentioned. This barrel appears to have seen only light use. (89574-126C)</p>

(59413-93F)</p>	3819	<p>Mossberg Rifled Shotgun Barrel</p> <p>This lot contains one Mossberg 24" rifled barrel with a bright very good bore with scattered pinprick pitting throughout. The barrel retains about 97% original blue with scattered specks of light oxidation throughout, and streaks of browning on the underside of the barrel near the breech. The barrel is marked as accepting 2 3/4" and 3" shells, has an integral cantilever scope base, and the barrel is ported. The barrel appears to be for the Mossberg 500 model shotgun. (149413-102B)</p>
3810	<p>6.5MM/250 SAV. Reloading Dies</p> <p>This lot consists of Redding Custom series two piece kit set containing a full length sizing and decapping die and a bullet seating and crimping die. An extra decapping pin is included, the shell holder however is no longer present. Please note: If the same buyer wins both rifles chambered in this caliber in the live auction this lot will be awarded to them free of charge. (59468-6,7A)</p>	3820	<p>Bell & Carlson Remington 700 BDL Stock</p> <p>This lot contains one Bell & Carlson made checkered pistolgrip synthetic stock for the Remington Model 700 BDL bolt action rifle. The external surfaces of the stock retain 99% black textured finish, and the internal areas of the action and barrel channel show some lightly flaking of the finish and rub marks. The barrel channel is marked "BDL" and "SHORT". The stock is fitted with front and rear sling swivels and a 1/2" recoil pad marked "BELL & CARLSON". (149413-112)</p>
3811	<p>Thompson/Center Encore Custom Shop Barrel</p> <p>This lot consists of a 26" T/C Custom Shop Encore Rifle barrel in 6.5x55 Swedish. The barrel includes the black synthetic forearm and has a black matte finish with only a few light handling marks noted. There are no provisions for sights and mounted to the barrel is a Leupold one-piece base which holds a Thompson/Center Hawken 3-9X40 riflescope. The scope features a duplex reticle and has excellent optics. (49532-1A)</p>	3821	<p>Assorted BoreSnake Lot</p> <p>This lot contains three Hoppe's BoreSnake bore cleaners, in calibers .204, 6mm/.243, and .32/8mm, and three Hoppe's BoreSnake Viper bore cleaners, in calibers .270/7mm, .40/.41, and .223/5.56mm. All are in their original packaging; the .204 packaging having toned to yellow and the 6mm/.243 packaging showing light deformation due to storage. The boresnakes appear in as new condition. (149413-65)</p>
3812	<p>Range Safety Gear Lot</p> <p>This lot contains hearing and eye protection equipment. Included are four sets of Peltor President black earmuffs, with a 26 NRR, four pairs of Smith & Wesson SW103 safety glasses with carry cases, one previously opened package of Howard Leight 25 NRR ear muffs and clear safety glasses, and one package of Walker's 34 NRR ear muffs, yellow tinted safety glasses, and a pair of foam ear plugs. With the one exception, all remain in their original packaging. (149413-73)</p>	3822	<p>Assorted Smallbore BoreSnake Lot</p> <p>This lot contains one Hoppe's BoreSnake bore cleaner for .204 caliber, and four Hoppe's BoreSnake Viper bore cleaners for calibers .22, 6mm/.240/.243/.244, 12 ga, and .223/5.56mm. All are in their original packaging, with light deformation to the packaging of the .204 caliber boresnake. The boresnakes appear in as new condition. (149413-65A)</p>
3813	<p>Range Safety Gear Lot</p> <p>This lot contains hearing and eye protection equipment. Included are two pairs of Smith & Wesson safety glasses with carry cases, a pair of 25 NRR Howard Leight ear muffs and safety glasses, a pair of 35 NRR Walker's ear muffs with safety glasses, a pair of 26 NRR Peltor President ear muffs, and two pairs of 21 NRR Peltor Shotgunner ear muffs. Also included are two packages of 2-pair 26 NRR Howard Leight corded ear plugs, 3 packages of Peltor Combat Arms ear plugs with cases, and six packages of 26 NRR Peltor Tri-Flange corded ear plugs. All safety equipment is in original packaging. (149413-73A)</p>	3823	<p>Weaver Scope Base Lot</p> <p>This lot contains seven assorted Weaver top mount scope bases. Weaver bases are one #420M, two #417M, one #96, one #61, one #98, and an about 7" length of picatinny rail for the Savage 110. Some of the compatible firearms include the Savage 10, Mossberg 500, Winchester Model 70 long action, and Remington Model 700. Bases are in their original packaging, and included necessary mounting screws. (149413-68)</p>
3814	<p>SureStrike Laser Cartridge Ultimate Kit</p> <p>This kit allows one to safely practice with their firearm in their own home, by projecting an eye-safe laser briefly when struck by the firing pin. The Laser Ammo SureStrike Laser Cartridge Ultimate kit includes the SureStrike 9mm laser cartridge, user guide, battery pack, carry case, 6 reflective targets, safety pipe, nut and extension, and adapters for .223 Rem, 40 S&W, and 45 Auto. The kit is sealed in the original packaging. (149413-82)</p>	3824	<p>Walther GSP Expert Scope Mount</p> <p>This lot contains one Walther GSP Expert scope mount. The mount is made of aluminum and retains 98% of a light blue finish with only a few light wear marks on the high edges and around the screw holes. Included with the mount is a small Allen wrench and four small set screws, which are currently in place in the mount. (149413-68A)</p>
3815	<p>SureStrike Laser Cartridge Ultimate Kit</p> <p>This kit allows one to safely practice with their firearm in their own home, by projecting an eye-safe laser briefly when struck by the firing pin. The Laser Ammo SureStrike Laser Cartridge Ultimate kit includes the SureStrike 9mm laser cartridge, user guide, battery pack, carry case, 6 reflective targets, safety pipe, nut and extension, and adapters for .223 Rem, 40 S&W, and 45 Auto. The kit is sealed in the original packaging. (149413-82A)</p>	3825	<p>Walther Hammerli Scope Base</p> <p>This lot contains a 5" long aluminum Weaver-style scope base. The base comes with three small mounting screws and a small Allen wrench. Base is in a "Walther" marked plastic bag. (149413-68B)</p>
3816	<p>Caldwell Front Rest Nest XL and Plano Pistol Hardcases</p> <p>This lot contains three Plano Gun Guard pistol hardcases, and one Caldwell Front Rest Nest XL. Hardcases have a black plastic exterior with two foam inserts within. The Front Rest Nest has a black plastic exterior in excellent condition with a molded interior that will fit "The Rock BR", "Rock BR-1000", and similar rests. Cases are in excellent condition with hangtags still attached. (149413-78)</p>	3826	<p>Walther Hammerli Scope Base</p> <p>This lot contains a 5" long aluminum Weaver-style scope base. The base comes with three small mounting screws and a small Allen wrench. Base is in a "Walther" marked plastic bag. (149413-68C)</p>
3817	<p>Benelli Rifled Shotgun Barrel</p> <p>This lot contains one Benelli 24" rifled barrel with a bright very good plus bore with scattered spots of frosting on the lands. The barrel features a Realtree Advantage Timber camouflage finish and is sighted with rifle sights, the rear sight being adjustable for elevation and windage. The barrel is marked as accepting 2 3/4" and 3" shells, and appears to be for the Benelli M1 and M2 shotguns. (149413-102)</p>	3827	<p>Walther Hammerli Scope Base</p> <p>This lot contains a 5" long aluminum Weaver-style scope base. The base comes with three small mounting screws and is in a "Walther" marked plastic bag. (149413-68D)</p>
3818	<p>Remington Shotgun Barrel</p> <p>This lot contains one Remington 21" neatly shortened ventilated rib Remchoked barrel with a bright excellent bore. The barrel retains about 98% matte blue finish with scattered specks of light oxidation along the length of the barrel, and the barrel has an about 9" long area of camouflage tape applied to the muzzle end of the barrel, the breech end of which is flaking. The barrel is sighted with a single silver bead, and the included Remchoke is marked "FULL". The barrel appears to be for the Remington 1100 model shotgun. (149413-102A)</p>	3828	<p>Assorted Scope Rings</p> <p>This lot contains three sets of Weaver Quad Lock 1" High extension rings (#49062), and one set of Warne Maxima series 1" High steel rings for the Bruno-CZ rifles. 		3829	<p>Assorted Reloading Tools Lot</p> <p>This lot contains (1) RCBS standard bullet puller collet for .27 caliber, (1) RCBS small primer pocket uniformer, (1) RCBS #10 shell holder, (1) RCBS 5-pack of large decapping pins, (1) small RCBS primer pocket brush, (1) small RCBS case neck brush, (1) small RCBS QC metering screw assembly, and (1) RCBS .30 cal flash hole deburring tool. Also included is one MTM Deluxe 50-round green plastic ammo case. (149413-53,87)</p>

Lot	Title/Description	Lot	Title/Description
3830	<p>Cabinet of Collectible Ammunition</p> <p>Presented here is a substantial and varied collection of ammunition stored within the 12 drawers of an attractive handmade veneer cabinet. This arrangement represents what must surely be decades worth of meticulous appraisal and acquisition of desirable cartridges, now available here as an instant collection unto itself. The drawers contain a wide variety of cartridges and related items, many of which are labeled by the original collector or otherwise identifiable by their headstamps. A number of rare, unusual or otherwise intriguing cartridges are included, as is a quite comprehensive selection of more common specimens from a variety of periods and makers. Notable examples include but are not limited to the following: extremely tiny brass pinfire casings, each case measuring no more than 1/8" in length; cutaway examples of cartridges such as 433 Remington Egyptian and 8mm Mannlicher; steel Lazy Dog projectiles; miscellaneous flechettes of varying sizes; Waterbury Farrel-marked brass-jacketed rimfire cartridges; tiny cartridges such as 2.7mm Kolibri and 3mm Kolibri; an unusual caseless cartridge which appears to be about 8mm caliber and may be experimental; a small selection of Maynard cartridges and brass in 40-60, 35-30, 38-50, 64 Shot and more; .450 Mountain Gatling; .45 Maxim; 10.15x61R Jarmann; .388 Win Mag FC; .44 S&W Spl. W-W; .280 Ross; 276 Enfield Pattern 13; Kynoch Adaptor cartridges; UMC .236 R; UMC .236 USN; 6mm Lee; .276 Pederson (live and dummy); one Du Pont Ballistite powder dip, 24-26 grains, with a bit of patina but otherwise in excellent condition; an iron nail wrapped around a large-caliber copper-jacketed handgun bullet, seemingly a curio recovered from a stray shot; 1944-dated .380 ACP manufactured in Chile; 1983-dated ICCA .416 Rigby; a Pennsylvania Cartridge Collectors 56-52 Spencer Commemorative 2005 Show Cartridge with commemorative fact card; assorted .60 Cal cartridges (live and dummy); a curious .50 Cal cartridge modified for a .30 Cal primer; a red 20mm Oerlikon blank; a UMC .50-70 cartridge included with an X-ray revealing the arrangement of lead shot within; a collectible partial 50 rd. box of Winchester .22 Short; assorted 8x57mm; several rounds of 7.62mm NATO Duplex Round including one disassembled cartridge complete with casing, both bullets and a small plastic tube containing the original powder; 9.3x72R; .43 Mauser; 8.15x46R; 11.15x65R; 6x29.5R; 12x50mm Stahl; Pz. B. 9.9/13 Anti-tank, headstamped "41 / 62al / aux / WaA109"; 7.92x107mm DS (labeled "8mm Polish Anti Tank Rifle"); assorted .25 Duplex cartridges; assorted .22 Hornet; Winchester .224 E2; Remington-UMC .222 Mag; an unstamped cartridge labeled "22 Experimental / Rem. Mfg."; 7.92mm CETME; .224 Rem. labeled "Experimental"; .22-06; .22 NATO including one cartridge labeled "Electric Primed"; 8mm Duplex; 5.6x61mm Vom Hofe Super Express; one 1938-dated 8x56R cartridge with an Austrian headstamp including the Nazi party eagle; .280-30 by various manufacturers and one .280 round labeled "Pre-NATO"; a variety of .17 and .223 Remington including blanks and tracers; 8mm Siamese Mauser; 8mm Danish Krag; 8x50mmR Austrian Mannlicher; 8x56mm Hungarian Mannlicher; a variety of .43 Spanish from several manufacturers; .43 Egyptian in blank, shot, riot (lead cubes) and round ball; 7.5x54mm French Model 1929-D, both "light ball" and "heavy ball"; 11x58mmR Werndl; 8x51R French Model 1932-N ball; assorted 8mm Lebel; .43 Russian; 11mm Mauser; .43 Mauser shot cartridges (possibly riot loads); .43 Spanish Reformado; 9.5x60R Turkish Peabody; 11.3x50R Beaumont including both shot and round ball; 7mm Mauser including dummy rounds; 11x59mm Vickers; assorted 6.5mm Swedish Mauser including match, tracer and dummy rounds; 6.5x53.5mm Daudeteau; 6.5x53mm Dutch Mannlicher including some in tin casings (for use in the Tropics) and several dummy rounds; .222 Remington and action-proving dummy rounds of same; .218 Bee; .22 Remington Jet; .221 Remington; .256 Win Mag; .303 Savage; assorted .38-55; assorted .38-56; various .32-20 including shot and round ball; assorted .22 Hornet including action proving dummy rounds; .22 EX Long Maynard; various .25-20; .32 Ideal; .32 C.L.M.R.; .32 WCF; assorted 7.65x54mm Argentine including ball, AP and blank; 7.65mm Turkish Mauser; .25-21 Stevens; several caseless Dardick trounds (triangular rounds); 7.5mm Swiss including dummy, jacketed, proof load, tracer, grenade blank, cadet blank, match load and AP; 7.5mm Schmidt Rubin; .41 Swiss; .297/250 Rook; .255 Jeffery Rook; .577 Snider in both paper and metal casings including shot and round ball; assorted .270 WCF including action proving dummy rounds; .300 H&H Magnum; .577/450 Martini; .401 Winchester SL; .351 SL; .256 Newton; .280 Rem; 8.15x46R; 9x57mm Mauser; assorted .44 including .44 Evans Long, .44 Wesson and .44 L; .38 XL; .310 cartridges; a wide variety of small caliber rimfire including .22 short, .32 Ex Long, .38 RF, .44 SH; .44 Henry; .46 Remington Carbine; .56-50 Spencer shot, blank and round ball; .400 Whelen; .35 Whelen; assorted W.C.F. cartridges including .45-85, .40-60, .40-70 and .40-65; 7.62x45mm Czech; .25-36 Marlin; .250-3000 Savage; .32-40 Win and .32-40 HV; .358 Win; Remington .33 CF; .32 Spl including a steel proof cartridge; .22 Savage; assorted .30-30 including an action proving dummy round; 7.65mm French; 7mm French; 7mm Nambu; 8x22mm Nambu; 11mm French Ordnance; .32</p>	<p>S&W Long; Rem-UMC 5-in-1; 11.3mm Montegro; .30 Rook; 7.63x32 Long Mannlicher pistol carbine; 9mm Steyr, 8mm Roth Steyr; 8mm French Ordnance; 11.35 Schouboe; .450 Colt; 7.63x25mm Mauser; .500 Eley; a variety of .25-2 including shot and round ball; 7.8x23mm Czech "Cattle Killer"; a wide variety of differently sized pinfire cartridges; .58 Roberts including some blanks; .50 Remington; .58 Berdan musket; .50-70 Govt.; a large assortment of 9mm from a variety of manufacturers and origins, including proof and dummy rounds; .30 Luger; an 11mm French Chassepot self-contained linen cartridge; one 13x87R Mitralleuse multi-ball line cartridge; two .52 Sharps linen cartridges; several .50 linen cartridges including Gallager and Smith; assorted .50 cal. cartridges, brass, projectiles, dummies and cutouts; 14.5x114mm Russian; one 1" Nordenfelt cartridge; one brass stripper clip for .50 cal. cartridges; an assortment of 20mm cartridges including proof and dummy rounds such as Swiss Solothurn S-18/1000, German Rheinmetall RH-120, Japanese Type 99 Mk. 1 Cannon/Machine Gun and U.S. M18A1 practice rounds; .600 Nitro; .577 Nitro; .577-500 Blackpowder Express; 11.2x72 Express; 40-50 Sharps; .40-70 Sharps; .44-77 Sharps; Kynoch.500/450; Kynoch .470; .416 Rigby; 9.3x72mmR; 6.5x58mmR Czech; 50-95 Win shot; assorted fuze parts which appear to be recovered from deactivated small explosives such as grenades; assorted conical ball muzzleloader bullets. As mentioned, an assortment of other cartridges are included which are not recounted here. The collection is in varying condition; some specimens are excellent and others exhibit tarnish of the brass and strong white oxidation of the exposed lead, particularly the older items. No items appear in less than very good condition and the specimens rate very fine on average; very few have more than the slightest of handling marks or blemishes beyond the patination expected of age. The cabinet itself is in near excellent condition with negligible storage and handling wear. Brimming with many desirable cartridges which are exciting finds in their own right and sure to provide countless hours of fascination and satisfaction to the discerning munitions enthusiast, this collection represents a rare opportunity not likely to be seen again. (12H7668-3) (2000/4000) Est. 2,000 - 4,000</p>	

Lot	Title/Description

Several of the measures are stained from previous use but otherwise the kit is unblemished and in excellent condition; assorted Speer Target-38 bullets, cases and assembled cartridges comprising (1) partial 50 rd. box of red plastic cases, (3) partial 50 rd. boxes of black plastic target bullets, (1) partial 50 rd. box of assembled cartridges with primers and about (30)+/- assembled cartridges without primers. (126056-8A)</p>
3832	<p>RCBS Reloading Equipment</p> <p>Assorted RCBS reloading devices: (1) RCBS 09070 Reloading Scale, complete in box, possibly previously used but rating excellent with no discernible blemishes; (1) RCBS 09094 Powder Trickler, in box, excellent condition; (1) RCBS Trim Pro case trimmer in near excellent condition with light signs of use, including (6) assorted shell plates numbered 02, 03, 04, 06, 10 and 18 as well as (9) pilots in sizes 22, 24, 25, 27, 28, 30, 35, 44 and 45; (1) RCBS powder thrower and stand, excellent condition; (1) RCBS Rock Chucker press, seating arm not present, otherwise in near excellent condition with light signs of previous use; (1) RCBS Primer Tray-2, excellent condition; (1) MTM Case-Gard universal loading tray, accepting 17 Rem, .222 Rem, .38 Spl, .357 Mag, 6mm, .308, .30-06, WSSM, Rem Ultra Mag, .500 S&W Mag, 9mm and .45, near excellent condition; (1) RCBS Trim Mate electric case prep center, fully functional in very fine condition; assorted brushes and small hand tools. A fine assortment of gear to grant the aspiring reloader a head start on their setup. (126056-8B)</p>
3833	<p>Hogue Rubber Monogrips</p> <p>(5) black pebble grain rubber finger-grooved Hogue Monogrips for Smith and Wesson revolvers: (2) N-frame grips with S&W logo; (2) N-frame grips with Hogue Monogrip logo; (1) K/L-frame grip with S&W logo. All grips are in very fine condition with some light handling wear. (126056-7C)</p>
3834	<p>Hogue N-Frame Round Butt Grips</p> <p>(4) assorted grips for Smith & Wesson N-frame round butt revolvers: (2) pairs rosewood laminate smooth grips with finger grooves; (1) pair diamond checkered cocobolo grips with finger grooves; (1) smooth cocobolo one-piece grip with finger grooves. All grips are in excellent condition. (126056-7D)</p>
3835	<p>Hogue Smith & Wesson Revolver Grips</p> <p>(4) assorted grips sized for Smith & Wesson N- or perhaps K-frame revolvers: (1) pair smooth cocobolo square butt combat grips with S&W medallions, speedloader cutout and finger grooves; (1) smooth pau ferro square butt Monogrip with finger grooves; (1) smooth cocobolo round butt Monogrip with finger grooves; (1) smooth rosewood round butt Monogrip with finger-grooves. All grips are in excellent condition. (126056-7E)</p>
3836	<p>Hogue Smith & Wesson Revolver Grips</p> <p>(3) assorted Hogue Monogrips sized for Smith & Wesson N- or perhaps K-frame revolvers: (2) smooth cocobolo round butt grips with finger grooves; (1) smooth rosewood square butt grip with a large ebony palm rest. All grips are in excellent condition. (126056-7F)</p>
3837	<p>Hogue Smith & Wesson Revolver Grips</p> <p>(4) assorted grips for Smith & Wesson round butt N- or perhaps K-frame revolvers: (1) smooth cocobolo Monogrip with finger grooves; (1) pair smooth pau ferro combat grips with finger grooves; (1) checkered rosewood Monogrip with finger grooves; (1) smooth bag-shaped walnut Monogrip. All grips are in excellent condition. (126056-7G)</p>
3838	<p>Handgun Grips</p> <p>(4) assorted grips: (2) checkered goncalo alves S&W Magna grips for an N- or perhaps K-frame revolver rating very fine with a few tiny handling marks; (1) checkered cocobolo Hogue Monogrip in near excellent condition with a chip at the bottom of the backstrap; (1) checkered rubber Volquartsen one-piece target grip for a Ruger Mk. I or Mk. II pistol with finger grooves and thumb, finger and palm rests, in excellent condition. (126056-7H)</p>

Lot	Title/Description
3839	<p>Antique Leather Goods</p> <p>One leather carbine scabbard and one pair of riding chaps adorned with star-embossed aluminum discs. The scabbard is unmarked, measures 33" in length and is in fair condition with moderate surface wear and little to no loss or separation. The chaps are in good condition overall with some moderate scuffing across the surfaces and a few instances of minor separation and fraying here or there. (126286-5)</p>
3840	<p>Liberty Safe Accessory Door Panel</p> <p>One nylon door panel measuring 30" by 49" for use with a size 48-64 gun safe. Features include an assortment of storage options such as quick draw holsters, choke tube holders, document storage and zip pockets. This item is dealer stock, as-new in original packaging. (129413-108A)</p>
3841	<p>Liberty Safe Accessory Door Panel</p> <p>One nylon door panel measuring 30" by 49" for use with a size 48-64 gun safe. Features include an assortment of storage options such as quick draw holsters, choke tube holders, document storage and zip pockets. This item is dealer stock, as-new in original packaging. (129413-108B)</p>
3842	<p>Liberty Safe Accessory Door Panel</p> <p>One nylon door panel measuring 24" by 49" for use with a size 30-35-40 gun safe. Features include an assortment of storage options such as quick draw holsters, choke tube holders, document storage and zip pockets. This item is dealer stock, as-new in original packaging. (129413-108C)</p>
3843	<p>Liberty Safe Accessory Door Panel</p> <p>One nylon door panel measuring 30" by 49" for use with a size 48-64 gun safe. Features include an assortment of storage options such as quick draw holsters, choke tube holders, document storage and zip pockets. This item is dealer stock, as-new in original packaging. (129413-108D)</p>
3844	<p>Lot of Holsters</p> <p>(17) commercial holsters and accessories in assorted configurations for a variety of frame sizes and barrel lengths. Examples include: De Santis right-hand thumb break scabbard for Colt Government Model, Gold Cup or Delta Elite; Triple K Mfg. Style 196LH Carrylite for Ruger .22 Auto Mk. I, II and III; Uncle Mike's size 16 faux suede right-hand IWB holster; D'Andrea left-hand IWB holster for a Ruger LC9. Conditions remain very good plus to near new, most with no blemishes or only light handling wear and a few with some scattered scuffs. (129413-93G)</p>
3845	<p>Lot of Holsters</p> <p>(22) commercial holsters and accessories in assorted configurations for a variety of frame sizes and barrel lengths. Examples include: Uncle Mike's Size 5 left-hand Sidekick; SigTac No. 238 IWB; BladeTech kydex right-hand OWB for S&W M&P; Fobus kydex right-hand OWB paddle holster for Beretta 92/96 models. All are in excellent condition, some items still in original packaging. (129413-93H)</p>
3846	<p>U.S. 1872 Pattern Officer's Chapeau in Tin by H.V. Allien & Co.</p> <p>One bicorn hat covered in black beaver felt and featuring a gold bullion cockade, gold bullion end knots, ostrich feathers and a cream-colored silk inner lining. The hat is in about excellent condition, with strong gilt and very little wear except a line of separation along the top of the crown which is obscured by the ostrich feathers. The ostrich feathers are not attached but rest comfortably tucked into the folds of the brim. The hat comes in the original shaped storage tin which rates near excellent, exhibiting few if any dents or dings and showing instances of flaking black paint across the surface. Really a beautiful officer's chapeau from the late 19th century, an excellent addition to any U.S. Military collection. (12A9425-8) (500/700) Est. 500 - 700</p>
3847	<p>Thompson/Center Contender "Super 14" Barrel with Muzzle Tamer</p> <p>222 Rem, 15 1/8" barrel with a bright excellent bore, Muzzle Tamer extension and factory Weaver-style scope base. The metal surfaces rate excellent, retaining about 98% plus original blue finish with no discernible blemishes. (126056-1A)</p>
3848	<p>Thompson/Center Contender Barrel</p> <p>44 Mag, 10" barrel with a bright excellent bore and factory sights. The metal surfaces rate excellent, retaining about 98% plus original blue finish with few if any blemishes. (126056-1B)</p>
3849	<p>Thompson/Center Contender Barrel</p> <p>22 LR, 10" barrel with a bright excellent bore and factory sights. The metal surfaces rate excellent, retaining about 98% plus original blue finish with no discernible blemishes. Includes a factory walnut forend also in excellent condition. (126056-1C)</p>
3850	<p>Thompson/Center Contender "Super 14" Barrel</p> <p>45 Colt/410 Bore, 14" ventilated rib barrel with a bright excellent bore and internal screw-in choke. The metal surfaces rate excellent, retaining about 98% plus original blue finish with no discernible blemishes. The barrel is equipped with a fixed v-notch rear sight and silver bead front sight. Includes an internal choke tube removal tool. (126056-1D)</p>

Lot	Title/Description
3851	Thompson/Center Contender Barrel 44 Mag/44 Hot Shot, 10" ventilated rib barrel with a bright excellent bore and internal screw-in choke. The metal surfaces rate excellent, retaining about 98% original blue finish with tiny instances of silvering at the contact points. The barrel is equipped with an elevation-adjustable ramp front sight and windage-adjustable square notch folding rear sight. Includes one choke wrench multitool. (126056-1E)
3852	Thompson/Center Contender "Super 14" Barrel with Muzzle Tamer 44 Mag, 15 1/8" barrel with a bright excellent bore, Muzzle Tamer extension and factory Weaver-style scope base. The metal surfaces rate excellent, retaining about 98% plus original blue finish with no discernible blemishes. (126056-1F)
3853	Thompson/Center Contender "Super 14" Barrel with Muzzle Tamer 357 Rem Max, 15 1/8" barrel with a bright excellent bore, Muzzle Tamer extension and factory Weaver-style scope base. The metal surfaces rate excellent with few if any blemishes. Includes a factory walnut forend also in excellent condition. (126056-1G)
3854	Texas Longhorn Display Mount One shield-shaped wooden wall plaque mounted with a pair of horns from Texas Longhorn cattle. The horns span 33" from tip to tip and are bound at the center by a yellow-tan velvet fabric binding. Two shorter horn tips are affixed at the bottom of the plaque extending upwards. The display is in very fine condition overall with the horns exhibiting a fine blended tone of cream and gray-brown darkening at the tips. Some of the velvet surface has been lost from the fabric and a few small tears are present. The horns are excellent with few if any handling marks or blemishes of note. A distinctive piece of Western décor that could perhaps also serve as a gun rack. (127536-24)
3855	Reproduction Luger Board Stock One walnut board stock for a Luger P08 semi-automatic pistol. The stock is in about excellent condition with only very light handling marks. No holster included. (127546-122)
3856	German DM109 Schallsignal Underwater Grenade Cutaway One display plaque featuring a cutaway example of a German DM109 Schallsignal stun grenade fitted with a DM106 underwater detonator. The display is in excellent condition with just a bit of handling and storage wear. (12A7546-135)
3857	Cartridge Ignition Display Model One wooden model of a firearm action demonstrating the movement of the breech and firing pin relative to the cartridge and breech casing. Beneath the model, mounted on the wooden backplate, a brass plaque details the distance of the breech from the breech-casing at various stages of the process with the stages indicated by a series of labeled guide lines. The model is in very good plus condition exhibiting some light handling wear on the wood and a moderately strong oxidation patina on the brass plaque. The action functions well mechanically and remains suitable for demonstrative purposes. An interesting curio showcasing a basic principle of firearms engineering. (12A7546-82)
3858	Wooden Cartridge Boxes Two wooden cartridge boxes. The first is unmarked, drilled with 10 holes shaped to cartridges of approximately .50 cal. and held by brass pins. The box measures 5 3/4" by 1 1/2" by 2 5/8" in a slightly arced shape. Either end is fitted with a brass loop which appears to have once held a leather carrying strap and the upper outside (convex) edge is decorated by a strip of brass. The wood is in fine condition with some light handling wear and the brass rates very good with a relatively dark brown patina throughout. The second is a Freeland brand wooden cartridge box with 50 slots for 22 LR cartridges and a center slot which accommodates a standard 50 round box of the same. The box is in about excellent condition with only very light storage wear and includes 80 rounds of 22 LR ammunition in about excellent condition. (127546-146, 147)
3859	Powder Horns Five powder horns, detailed as follows: (1) 13 1/2", plain, tawny brown, flat walnut plug; (1) 12 1/2", plain, cream and grey toning to tobacco at the tip, flat ash plug; (1) 9", plain, honey colored, flat walnut plug, 5" crack in one side fully repaired by adhesive; 7", plain, strongly curved body, flat walnut plug, gray and brown, with leather strap and walnut stopper; (1) 13 1/2", overall gray with areas blending cream, brown and tobacco, body carved in 11 flat faces, scalloped medial ring located 3" from the spout, plain raised rim at the spout, red-brown bulbous walnut plug with concentric scalloped ridges, walnut stopper. All horns are in very fine condition with no more than light handling marks except where otherwise stated. (127546-142)

Lot	Title/Description
3860	Colt Single Action Army Revolver Presentation Cases Two wooden display cases. First, one case measuring 15" by 9" by 3" sized for a commemorative Colt Single Action Army revolver (firearm not included). The case is lined with burgundy velvet and the lid features an aluminum plate which reads "One of 5000 / Colonel SamL ("L" in superscript) Colt / Sesquicentennial Models / 1814-1964". The lining is in excellent condition and the outer surfaces rate very good plus, exhibiting some light handling marks across the surfaces and a few areas of delamination due to slight water damage. Some cloudiness is present on the aluminum plate. Also included are (12) nickel-plated 45 Colt dummy rounds, rating very good plus to fine with accumulations of moderate green-white verdigris, and three Colt factory wrenches in fine condition. Second, one walnut case measuring 15 1/2" by 10 1/2" by 3 1/4" and sized for a Colt Single Action Army revolver with a barrel of about 7". The lining is green velvet and in excellent condition. The outer surfaces rate very good with handling marks and scuffs scattered throughout. (128937-444,445) [Cletus Klein Collection]
3861	Colt Revolver Case with Hand-Tooled Custom Lid One leatherbound presentation case measuring 17" by 12" by 3 1/4" for a pair of Colt Single Action Army revolvers with about 4 3/4" barrels. The lid is hand-tooled with a portrait of a horse bordered by maple leaves. The inner lining is red velvet with yellow braided silk trim. The lining is in near excellent condition with a bit of cylinder wear from the previous occupants of the case. The inside limiting hasp has lost a retention pin and the case now hinges a full 180 degrees rather than 90. The outer surfaces are in good condition with moderate fraying at the edges and scuffs across the faces with little loss; the face of the lid remains excellent. (12B8937-438) [Cletus Klein Collection]
3862	WWII German M40 Stahlhelm One black-painted steel helmet with embossed vent holes and rolled skirt edges, marked on the left side with a black left-facing Reichsadler shield decal on a white field centered by a red diagonal stripe and on the right side by a shield decal of thin black SS runes on a white field. The rear skirt is crisply stamped "S441" beneath a much softer marking which is less legible but appears to read "Q66". The helmet is in fine condition with scattered handling marks and occasional small flakes exposing steel oxidized to dark brown. The inside leather lining is size-stamped "59" and exhibits a moderately strong patina, scuffing and surface loss due to flaking but remarkably little material loss and few if any tears or separations. No chinstrap is present. The lining rates very good plus to excellent overall. According to Mr. Craig Brown's notes, the white shield with diagonal red stripe represents the region of Weissruthenien (White Russia, today eastern Belarus). He attributes this Stahlhelm to the 30th Waffen-Grenadier Division of the SS, the majority of personnel thereof being conscripted from the Weissruthenien area. The exact origin of the Wehrmacht Reichsadler on the decal is unknown; Mr. Brown speculates that the original owner could have been a native German assigned to the division, an ethnic German from the Weissruthenien area or that the Reichsadler was applied as an "affirmation of German allied status". (12C7879-440DD) [Craig Brown Collection] (400/600) Est. 400 - 600
3863	WWII German M42 Stahlhelm One black-painted steel helmet with embossed vent holes and unrolled skirt edges, marked on the left side with a crude Reichsadler and on the right side with a black and white striped shield emblem. The markings appear to be later-applied in white paint, now slightly flaking and aged to a mottled yellow-brown. The rear inside of the skirt is marked "EP66" and "1766" and also features a note, possibly by Mr. Craig Brown himself, reading "Latvian auxiliary?" in thin white ink. Our research has neither confirmed nor disproved this supposition. The shell exhibits some minor handling marks, occasional thin streaks of splashed white paint and hints of dark brown patina where tiny flecks of black finish have been lost. The inner lining is possibly a later replacement and is in very good plus condition, exhibiting light scuffing and staining with no loss or separation. No chinstrap is present. (12A7879-440DE) [Craig Brown Collection] (300/500) Est. 300 - 500
3864	WWII German M40 Stahlhelm One black-painted steel helmet with embossed vent holes and rolled skirt edges, marked on the left side with a shield decal of a straight-aligned white swastika on a black field. The inside rear of the skirt is marked by a stamp with a slightly softened prefix which appears to read "DI 148" and the inside left of the skirt is marked "Q62". The inner lining is size-stamped "55" and in about excellent condition, exhibiting some wrinkling and scuffs as well as patination to a rich ochre-brown throughout with little to no material loss. No chinstrap is included. Overall a nice Stahlhelm in fine condition. (12B7879-440DF) [Craig Brown Collection] (300/500) Est. 300 - 500

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
3865	Kimber Government Model Conversion Kit 17 HM2, 5 1/4" barrel with a bright excellent bore. The matte black surfaces of the slide retain about 99% original finish with few if any handling marks or blemishes and the kit is in overall excellent condition. Includes a similarly finished magazine in about excellent condition with some light silvering from previous use and a black factory hard case from a different kit. (129543-254) (200/400) Est. 200 - 400
3866	Walther CP88 Competition CO2 Pistol serial #A0068368, .177 Cal, 6" barrel with a bright excellent bore. The metal surfaces retain about 99% satin nickel finish with no discernible blemishes. The stippled walnut grips are also excellent. All parts function well mechanically and the pistol is in overall excellent condition. Includes the blue factory hard case, one Daisy 12g CO2 canister, eight 8-round rotary magazines and a partial tin of Dynamil Nobel 500 Superpoint .177 Cal. pellets. (129543-158) (NON-GUN) [Phil Buker Collection] (100/200) Est. 100 - 200
3867	Daisy Model 94 Western Carbine Lever Action Air Rifle BB/.177 Cal. The steel surfaces retain about 98% original blue finish with some light handling marks. The gold-painted western scenes on the sideplates are somewhat faded, though the general impression remains. The wood-grain style stock and forend exhibit only tiny handling marks and are in about excellent condition. All parts seem to function well mechanically and the rifle is in very fine condition overall. Includes a Daisy BB Gun instruction manual and Daisy Air Rifle Instruction Program booklet, both dated 1962, as well as a full or nearly full paper cartridge container of Daisy BBs which appears to be of similar vintage. (129522-46) (NON-GUN) [Phil Buker Collection] (75/150) Est. 75 - 150
3868	Skeeter Skelton Addressed Ruger No. 3 Single Shot Carbine Box Box only, firearm not included. This lot comprises one Ruger two-piece factory cardboard box for a Ruger No. 3 single shot carbine, 45-70, serial #130-50022. The shipping label on the top face is addressed to one Skeeter Skelton. With a background of U.S. Marine Corps service and extensive law enforcement experience, Charles "Skeeter" Skelton enjoyed a notable career as a firearms author and long-time editor of Shooting Times magazine from 1967 until his death in 1988. The box is in fine condition with some expected light handling and storage wear. The postage stamp is partially faded and the shipping label a little worn but Mr. Skelton's name and P.O. box address remain clearly legible. A neat curio connected to a prolific and well-respected name in firearms literature. (129543-271) [Phil Buker Collection]
3869	German Scheissbecher Gewehrgranatengerät Rifle Grenade Launcher Kit One grenade launcher kit dated to 1943, including a leather case, spanner, Scheissbecher cup/barrel assembly, launcher sight with rifle attachment, wood-tipped dummy ignition cartridge and two inert grenades: one anti-personnel and one anti-armor. The manufacturer code stamped on the cup reads "hnz" and the case "dkk / 43". The stamp on the spanner is slightly softened and appears to read "clc". The barrel and cup show areas of oxidation in the threads but the fit is unaffected and the assembly screw together nicely. The cup retains about 85% blue finish with light handling marks and areas of silvering at the contact points; the barrel retains about 98% with a few light handling marks. The grenades rate about good, exhibiting areas of slight oxidation and a few instances of flaking black paint. The cartridge exhibits some very light ocher-brown patina and rates very fine. The sight retains about 99% blued finish with very few handling marks. The spanner also retains about 99% finish and rates excellent. The case is very fine, showing some expected storage soiling of the canvas carry strap and light wrinkling across the surfaces of the leather but no material loss. The stitching is about excellent with no instances of separation except at one slightly loose edge of the bottom face. Seldom found as a full set, this kit is an exciting find for the WWII collector. (128281-32) (800/1200) Est. 800 - 1,200
3870	Lot of Holsters (8) assorted commercial leather holsters in an assortment of configurations, mostly for various short-barreled revolvers. Examples include: Don Hume No. 78; Bianchi #55L "Lightning"; Strong 931 / 9; Roy's Original Pancake Holster #001 DET 2. Items are in very good plus to excellent condition with some light handling wear and scuffing, retaining excellent stitching and no damage, loss or separation. (129543-216AA)
3871	R93 Scope Mount One proprietary quick-release scope mount for a Blaser R93 rifle with a pair of 1" Leupold-style scope rings, all finished matte blue. The metal surfaces exhibit no discernible blemishes and the mount is in excellent condition overall. (129543-291C) (200/400) Est. 200 - 400

Lot	Title/Description
3872	Ruger Blackhawk Cylinder 357 Mag. The blued steel surfaces retain about 98% original finish with some very light handling marks and the cylinder is in overall excellent condition. Includes one Ruger red felt storage pouch. (129543-112A)
3873	Powder Flasks Two plain powder flasks. The first is brass in dark black-brown lacquer, measuring 6 1/2" and featuring a Hawksley-marked screw-off fireproof patent top with an outside spring and a three-step screw-off adjustable charger labeled from 2 1/4 to 2 3/4 drams in increments of 1/4. The top rates excellent and the body very fine with light handling marks scattered across the surface and an overall mottled tobacco color. The second flask is steel bound in leather, measuring 7" and featuring a Dixon-marked screw-off fireproof patent top with an outside spring and a nickel silver five-step flip-up adjustable charger labeled from 3 to 4 drams in increments of 1/4. The top exhibits a light yellowed tint and the body a few minute handling marks. Overall the flask is in about excellent condition. (128937-443A)
3874	Abercrombie & Fitch .410 Shotgun Case One leather-covered shotgun case for a .410 bore shotgun. The name "Harold S. Chase" is engraved on top of the lid. The interior is lined with red felt and accommodates a barrel length of up to 24". A Parker Shotgun label is attached to the inside of the lid. The lining is in excellent condition with no discernible blemishes. The outer surfaces exhibit light handling marks across the surface and a mellow darkened patina on the brass latches, rating fine overall. No key is present. Includes one two-piece wooden cleaning rod and two yellow brass .410 gauge dummy shell cases. (12A8963-153A) (200/300) Est. 200 - 300
3875	Abercrombie & Fitch .410 Shotgun Case One leather-covered luggage-style shotgun case for a Parker .410 Skeet shotgun. The lid is engraved "T.B.S. / N.Y." and features a brass plaque which reads "PARKER / 410 SK SK". The interior is lined with burgundy felt and accommodates a barrel length of 26". A Parker Shotgun label and a brass plaque reading "PARKER / 410 SKEET SKEET" are attached to the inside of the lid. The lining is in excellent condition with a few small marks in the felt from internal contact with its previous contents. The outer surfaces rate near excellent with only minor handling marks scattered sparsely across the leather and some light to moderate patina on the brass latches. Includes two nickel silver .410 snap caps and one polished pewter oil bottle. (12A8963-156A) (200/300) Est. 200 - 300
3876	Shotgun Luggage Cases Two leather-bound luggage-style shotgun cases. The first measures 34 1/2" by 9" by 3 1/2". The barrel compartment measures 32" in length; the shelf blocks have come loose and will need to be refitted before use. The green felt-lined interior is in very good plus condition, exhibiting a few minor stains and a loose wall to one compartment, otherwise there is very little wear and the felt is near excellent. The outer surfaces exhibit moderate scuffing and crazing with some light separation and loss concentrated mostly at the edges. The flip-up brass latch exhibits a darker yellow-brown patina and few handling marks. No key is included. Overall the case rates very good. The second case measures 32 1/2" by 9" by 3". The barrel compartment measures 30 1/2" in length and the shelf blocks have come loose. The red felt-lined interior rates poor to fair overall. The compartment walls remain intact and the felt exhibits moderate and heavy degradation throughout. The outer surfaces exhibit moderate scuffing and surface wear, occasional drying cracks and instances of light finish loss. The handle has also become detached from one side. Overall the case rates fair. (128937-443) [Cletus Klein Collection]
3877	Vintage Gun Case One brass-fitted walnut gun case measuring 31 1/2" by 10" by 3". The interior is lined with green felt and features a 30" barrel compartment. Some of the compartment walls are partially separated and some of the spacing blocks are lost. The felt is stained in places and separated at some of the corners but remains nearly whole with very little loss. The outer surfaces rate about good, exhibiting a mottled dull mustard patina on the brass and several long cracks and striations in the wood with no instances of loss. Includes a small assortment of accessory items including a small pewter oil bottle, two wood-handled flathead screwdrivers and a brass percussion capper. (128937-446AA)

Lot	Title/Description
3878	<p>Antique Gun Case</p> <p>One oak fitted gun case measuring 36" by 9 1/2" by 4". The interior is lined with maroon velvet and features a 34" barrel compartment. The interior exhibits some fading and staining of the lining but otherwise is complete with little wear and in overall fine condition. The outer surfaces are in very good condition overall with minor handling marks scattered across the surface. Includes an assortment of accessories including two partial tins of percussion caps, a steel oil bottle, two wooden ramrods, one wood handled pewter Walsrode 32 grain powder measure, one wood handled brass J. Proctor base pour bullet mould and steel bullet starter. (128937-446AB) [Cletus Klein Collection]</p>
3879	<p>Antique Gun Cases</p> <p>Two wooden gun cases. The first is walnut with brass fittings measuring 34 3/4" by 9 1/2" by 3" and featuring a 32" barrel compartment. The interior is lined in dark green felt and rates very good plus to excellent: all compartments walls are intact with no discernible damage and the lining exhibits some areas of light degradation. The outer surfaces are in about good condition: the brass is patinated to a dark tobacco-color, several long cracks are visible on the top and bottom faces and light handling marks are scattered throughout. None of the cracks seem to be trending toward separation or loss and the case remains overall well fitted. The second case is oak and measures 38 1/2" by 8 3/4" by 3 1/2". The barrel compartment is 37" in length. The inner lining material has been lost and the compartment walls remain fully intact. The outer surfaces exhibit a number of cracks, chips at the edges and moderate handling marks throughout. The closing latch has been lost. Overall the case rates about fair. Also comes with a small assortment of accessory items, including: (3) wooden cleaning rods, (2) unmarked brass nose-pour conical bullet moulds, a patch-cutter assembly and a number of cut patches. (128937-446AC) [Cletus Klein Collection]</p>
3880	<p>Reproduction Civil War New Jersey Militia Cartridge Box Plate</p> <p>One lead and brass oval plate with iron wire loops, the brass front face embossed with "NJ" lettering. The buckle is in very good condition with a light handling marks, instances of oxidation on the loops and instances of tarnish and green verdigris on the brass. (12B9397-1A)</p>
3881	<p>Reproduction Civil War New Jersey Militia Belt Plate</p> <p>One lead and brass oval plate with iron wire hooks, the brass front face embossed with "NJ" lettering. The buckle is in very good condition with few handling marks, instances of oxidation on the iron wire and varying degrees of light to moderate patination across the faces. (12B9397-1B)</p>
3882	<p>Reproduction Civil War New Jersey Militia Belt Plate</p> <p>One lead and brass oval plate with iron wire hooks, the brass front face embossed with "NJ" lettering. The wire is strongly oxidized throughout and has left ochre stains in spots on the rear face. The brass is darkly patinated and spanned by a moderately strong coat of light green verdigris. Few handling marks are present and the buckle is in fair condition overall. (12B9397-1C)</p>
3883	<p>Reproduction Civil War Ohio Volunteer Militia Belt Plate</p> <p>One lead and brass oval plate with iron wire hooks, the brass front face embossed with "OVM" lettering. The plate is in fair condition: the wire exhibits strong ochre oxidation and the brass is darkly patinated and spanned by light green verdigris. The raised edges of the plate are somewhat rough, otherwise the plate exhibits few handling marks. (12B9397-1D)</p>
3884	<p>Reproduction Civil War Confederate Belt Plate</p> <p>One lead and brass rectangular plate with iron wire hooks, the brass front face embossed with "CSA" lettering. The plate is in fair to good condition: the iron wire and lead rear face are moderately to strongly oxidized with areas of white and ochre. The brass front face is patinated to a dull mustard brown and a bit rough at the edges. (12B9397-1E)</p>
3885	<p>Type 30 Arisaka Bayonet Scabbard</p> <p>One steel scabbard for a Japanese Type 30 Arisaka bayonet. The metal retains about 65% original blue finish with the edges wearing to bright steel and areas of ochre and small handling marks scattered throughout. Overall the scabbard is in about good condition. (128783-65U)</p>
3886	<p>WWII German Meran Standschützen Bataillon Tunic</p> <p>One feldgrau wool felt tunic. Approximate measurements are as follows: 16" backwaist, 28" total back length, 24" sleeves, 47" chest, 17" neck. The lapels are stitched with forest green lozenge patches; the right-side patch is embroidered "II / 2". A green felt diamond patch on the left sleeve depicts a red left-facing Reichsadler and the text "Standschützen / Bataillon / Meran". The fabric shows no discernible instances of loss or separation, exhibiting several spots of light wear and fading as well as a few unobtrusive stains. Overall the tunic has been well kept and is in fine condition. (127879-438AA) [Craig Brown Collection] (300/500) Est. 300 - 500</p>

Lot	Title/Description
3887	<p>WWII German Innsbruck Standschützen Bataillon Tunic</p> <p>One apfelgrün wool felt tunic with a green wool collar, silk-lined sleeves and black hard rubber buttons. The green lozenge lapel patches are embroidered with silver-colored oak leaves of aluminum bullion and the shoulder straps are adorned by interlaced light green cotton cord. The green felt diamond patch on the left sleeve depicts a red left-facing Reichsadler and the text "Standschützen / Bataillon / Innsbruck". Approximate measurements are as follows: 16" backwaist, 27" total back length, 24" sleeves, 43" chest, 17" neck. The tunic is in excellent condition and, except for some staining at the rear of the collar which appears to be from the period of use, exhibits no discernible blemishes. (127879-438AB) [Craig Brown Collection] (300/500) Est. 300 - 500</p>
3888	<p>WWII German Innsbruck Standschützen Bataillon Overcoat</p> <p>One feldgrau wool felt coat with gray cotton lining and German silver buttons. The lapels are stitched with lozenge-shaped felt patches each centered by an aluminum star. The green felt diamond patch on the left sleeve depicts a red left-facing Reichsadler and the text "Standschützen / Bataillon / Innsbruck / III (silver embroidered)". The lining is stamped "LAGO / 1943" in black ink. Approximate measurements are as follows: 16" backwaist, 31" total back length, 22" sleeves, 53" chest, 17" neck. Overall the coat is in excellent condition, showing only minor instances of barely discernible fabric discoloration, light spotted gray patina on the buttons and no instances of loss or separation. (127879-438AC) [Craig Brown Collection] (300/500) Est. 300 - 500</p>
3889	<p>WWII German Bregenz Standschützen Bataillon Tunic</p> <p>One apfelgrün wool felt tunic with black cotton lining, OD green-painted pewter buttons and rectangular light gray lapel patches with lime green stripes. The left sleeve is stitched with a diamond patch depicting a red left-facing Reichsadler and the text "Standschützen / Bataillon / Bregenz". The lining is stamped in white ink with a mostly faded 1944-dated size label with measurements which appear to read: backwaist 46cm, total back length 60cm, sleeves 68cm, chest 90cm, neck 43cm. Overall the tunic is in near excellent condition, exhibiting some negligible color fading of the wool and some darkening of the lapel patches; some separation and fraying is evident at the seam beneath the rear of the right sleeve. The remainder of the fabric shows no signs of loss or separation and few if any discernible blemishes. (127879-438AD) [Craig Brown Collection] (300/500) Est. 300 - 500</p>
3890	<p>German Wehrmacht Tunic</p> <p>One feldgrau wool felt tunic with green cotton lining, an apfelgrün collar and OD green-painted pewter buttons. The dark green shoulder straps are embroidered with the number "4" in white and trimmed with cream-white piping. The lapel lozenge patches are also dark green with embroidered gray and white stripes. The left sleeve is stitched with a triangle felt patch embroidered with a gray-green double V centered by a bright aluminum star. The tunic is overall in excellent condition with few if any discernible blemishes. (127879-438AE) [Craig Brown Collection] (200/400) Est. 200 - 400</p>
3891	<p>German Wehrmacht Tunic</p> <p>One feldgrau wool felt tunic with black cotton lining and buttons of brown horn and pewter. The pewter buttons are embossed with the Prussian crown. The lapel is embroidered at the corners with white-trimmed gray "V" patches and the collar features a pair of brass buttons at the rear depicting a Bavarian lion and shield. The shoulder straps are trimmed in red piping. No size label is present, approximate measurements are as follows: 17" backwaist, 30" total back length, 24" sleeves, 40" chest, 16" neck. The tunic is in very fine condition, showing only some sparsely scattered tiny perforations in the wool and some tiny snags in the lining with no major blemishes or instances of loss or separation. (127879-438AF) [Craig Brown Collection] (200/400) Est. 200 - 400</p>
3892	<p>WWII German Bludenz Standschützen Bataillon Uniform</p> <p>One apfelgrün wool felt tunic with green-painted pewter buttons and gray cotton sleeve lining and one pair of matching uniform trousers. The collar is trimmed with silver embroidery and features dark green felt lozenge patches, the left patch centered by a bright aluminum star and the right embroidered "II / 4". The shoulder straps are trimmed with silver embroidery matching the collar and edged with green piping. Approximate measurements are as follows: 15" backwaist, 26" total back length, 24" sleeves, 40" chest, 16" neck. The pants measure 38" at the waist and 28" at the inseam. The garments rate excellent, exhibiting just a few instances of wear on the interior of the tunic and some expected age yellowing of the white cotton lining of the trousers. (127879-438AG) [Craig Brown Collection] (300/500) Est. 300 - 500</p>

Lot	Title/Description
3893	<p>Foliage Powder Flask</p> <p>One brass powder flask with a foliate motif matching Riling's No. 661. The flask measures 6 1/2" in length and features a brass Hawksley-marked fixed common top with an outside spring and screw-off three-step unlabeled adjustable charger. The carry rings are threaded with a tasseled cotton cord. The top is in good condition, toned throughout to a burnished mustard-brown; the brass of the charger exhibits the beginnings of some separation below the third step. The charger adjusts freely and the spring functions well mechanically. The body is overall tobacco-toned worn to a lighter yellow brown at the raised surfaces of the design. Overall the flask is in fine condition. (12A9501-49A)</p>
3894	<p>Large Fluted Powder Flasks</p> <p>Two large powder flasks with fluted designs. The first measures 7 1/2" in length and resembles Riling's No. 277, featuring a brass screw-off patent top with an inside spring and a screw-off four-step adjustable charger labeled from 2 1/4 to 3 drams in increments of 1/4. The top is an overall mustard yellow-brown with areas of darker brown patina in recessed areas. The charger adjusts freely and the spring functions well mechanically. The body is tobacco-toned across the majority with areas wearing to mottled coppery brass on some of the raised surfaces, occasional specks of green verdigris and a small number of light handling marks. Overall the flask is in fine condition. The second flask measures 8" in length and resembles Riling's No. 298, featuring a screw-off patent top with an outside spring. The charger has been lost. The top exhibits a mottled brown patina and a few minute handling marks; the spring functions well mechanically. The body exhibits an overall mottled yellow-brown patina with tobacco finish retained in the recesses, specks of dark brown scattered throughout and few handling marks. The four carry rings exhibit some light oxidation and one of the lower rings has been lost. Overall the flask is in good condition. (12A9501-49B)</p>
3895	<p>Eagle Powder Flasks</p> <p>Two brass powder flasks with eagle designs. The first measures 3 1/2" in length and matches Riling's No. 760, featuring a fixed brass common top with an outside spring and a screw-off non-adjustable charger. The spring functions well mechanically and the top exhibits areas of spotted dark brown patina. The body is lacquered brown with some areas partially worn to exposed brass and few handling marks. Overall the flask is in about excellent condition. The second flask measures 3 3/4" and matches Riling's No. 773, featuring a fixed common top with an outside spring and a fixed non-adjustable charger. The spring functions well mechanically and the top exhibits some spots of dark patina and a bit of oxidation on the spring. The body is overall tawny yellow with sparse areas of finely speckled dark brown patina scattered throughout, concentrated in the recesses of the design, a few handling marks and an indentation on either face of the swell. Overall the flask is in very good condition. (12A9501-49C)</p>
3896	<p>Shell Powder Flasks</p> <p>Two brass powder flasks embossed with shell designs. The first measures 6 1/4" in length and resembles Riling's No. 359, featuring a brass Dixon-marked screw-off patent top with an outside spring and a five-step adjustable charger labeled from 2 1/2 to 3 1/2 drams in increments of 1/4. The top exhibits an overall burnished tawny brown color with a lightly speckled smoky patina in spots. The charger adjusts freely and the spring functions well mechanically. The body is finished in tobacco-colored lacquer mottled with spots of dark patina and raised areas worn to a dark caramel. Few if any handling marks are present and the flask is in fine condition overall. The second flask measures 6 1/2" in length and resembles Riling's No. 365, featuring a brass fixed common top with an outside spring and a non-adjustable charger. The top is lightly patinated and the spring functions well mechanically. The body is toned to an overall dark coppery brown with a dark brown-black speckled patina throughout and a small number of minor indentations on the bottom edge of the swell. Overall the flask is in good condition. (12A9501-49D)</p>
3897	<p>Grapevine Powder Flask</p> <p>One brass powder flask embossed with grapevine designs on either face matching the rear face of Riling's No. 630. The flask measures 7" in length and features a fixed patent top with an outside spring and a five-step adjustable charge labeled from 3 to 4 drams in increments of 1/4. The top exhibits a light tawny patina with areas of cloudy dark brown and ocher. The charger adjusts freely and the spring functions well mechanically. The body is a subtly blended caramel and mustard brown tone throughout with few handling marks and one or two hints of verdigris. Overall the flask rates excellent. (12A9501-49E)</p>

Lot	Title/Description
3898	<p>Batty 1847-Dated Peace Flask</p> <p>One brass Peace Flask matching the design of Rilings No. 861. The flask measures 7 3/4" in length and features a Batty-marked brass fixed patent top with an inside spring and a screw-off unlabeled adjustable charger. The charger is currently fixed in place but appears to have no mechanical issues. The spring functions well mechanically. The body is toned to a mottled tawny yellow-brown with sparsely scattered specks of patina. The detailing is only slightly worn at the raised surfaces and remains overall quite crisp. A few dings and tiny handling marks can be seen throughout which are unobtrusive. Overall the flask is in very fine to near excellent condition. (12A9501-49F)</p>
3899	<p>Oak Leaf Powder Flask</p> <p>One powder flask with oak leaf designs closely resembling Riling's No. 560. The flask measures 4" in length and features two cylindrical compartments in the base and an American Flask & Cap Co.-marked screw-off patent top with an inside spring and an unlabeled three-step adjustable charger. The top exhibits only a very light brownish patina, the charger adjusts somewhat loosely and the spring functions well mechanically. The body is a gleaming burnished goldenrod tone with few if any handling marks or blemishes. Overall the flask is in excellent condition. (12A9501-49G)</p>
3900	<p>Dixon Game Powder Flask</p> <p>One Dixon-marked brass powder flask with an embossed design depicting a rabbit and game birds, matching Riling's No. 622. The flask measures 6 1/2" in length and features a screw-off patent top with an inside spring and a four-step adjustable charger labeled from 2 to 2 3/4 drams in increments of 1/4. The top exhibits a light speckled gray-brown patina in spots. The charger has lost the retention screw and the spring functions well mechanically. The flask is toned to an overall tawny mustard brown scattered by freckled areas of dark brown patina across the surface and a few light handling marks. Overall the flask rates very good plus to excellent. (12A9501-49H)</p>
3901	<p>Foliage Powder Flasks</p> <p>Two brass powder flasks embossed with designs of foliage. The first measures 6 1/2" in length and matches Riling's No. 1348, featuring a Hawksley-marked screw-off patent top with a screw-off four-step unlabeled adjustable charger and an inside spring. The top exhibits a thin patina of gray-brown across the surfaces. The charger is fixed in its current position and the threading is partially stripped and no longer attaches securely. The spring functions well mechanically. The body exhibits few handling marks, slight softening of the detailing and areas of subtle darkened patina across the surface. Overall the flask rates very good plus to excellent. The second flask measures 6 1/2" in length and matches Riling's No. 662, featuring a Hawksley-marked screw-off patent top with an inside spring and a screw-off four-step adjustable charger labeled from 2 to 2 3/4 drams in increments of 1/4. The brass surfaces of the top exhibit a brown patina with speckled spots of dark gray here and there. The charger adjusts freely and the spring functions well mechanically. The body is a dull copper tone with areas of darkened patina along the bottom edges of the swell and in the recesses of the relief alongside hints of white-green verdigris. Few handling marks and no dings or indentations are present and overall the flask rates very good plus to excellent. (12A9501-49J)</p>
3902	<p>M2 Rifle Bipod</p> <p>One bipod marked "U.S. W.M.I. / Bipod Rifle M2". The parkerized and blued steel surfaces retain about 98% original finish with some very light operational wear. Overall the bipod is in excellent condition. (129544-200A)</p>
3903	<p>Sig Sauer Conversion Kit</p> <p>This lot includes a 22 caliber conversion kit for a P220 pistol. Kit includes a complete slide with threaded barrel, adjustable target sights, manual, tool and magazine. This is as-new dealer stock. (10A8172-8D)</p>
3904	<p>Sig Sauer Conversion Kit</p> <p>This lot includes a 22 caliber conversion kit for a P226 pistol. Kit includes a complete slide with threaded barrel, adjustable target sights, manual, tool, and magazine. This is as-new dealer stock. (10A8172-8M)</p>
3905	<p>Sig Sauer Conversion Kit</p> <p>This lot includes a 22 caliber conversion kit for a P229R pistol. Kit includes a complete slide with threaded barrel, adjustable target sights, manual, tool and magazine. This is as-new dealer stock. (10A8172-8B)</p>
3906	<p>Sig Sauer Conversion Kit</p> <p>This lot includes a 22 caliber conversion kit for a P220 pistol. Kit includes a complete slide with threaded barrel, adjustable target sights, manual, tool and magazine. This is as-new dealer stock. (10A8172-8I)</p>
3907	<p>Sig Sauer Conversion Kit</p> <p>This lot includes a 22 caliber conversion kit for a P220 pistol. Kit includes a complete slide with threaded barrel, adjustable target sights, manual, tool and magazine. This is as-new dealer stock. (10A8172-8A)</p>

Auction - Amoskeag Online #125 - March 2020 03/30/2020 12:20 PM EDT

Lot	Title/Description
3908	Guncrafter Industries 50 GI Conversion Kit This kit is for converting the following Glock pistols: 20 and 21, and according to the manufacturer it will work on any generation of aforementioned models. The slide retains 99% of its Melonite finish and is complete ready to drop-in. The kit comes with a 9-round magazine, manual and plastic hard case. (10A8925-89A)
3909	Remington 870 Barrel This 12 ga., 18 1/2" round barrel is choked improved cylinder with a bright excellent bore. The barrel retains nearly all of its parkerized finish and has rifle style sights. Barrel comes in its original shipping box. (108172-24)
3910	Sig Armors Tool Kit This standard P-series kit includes safety glasses, four punches, curved tipped hemostats, safety tipped mallet, star tipped Allen wrench and combination sight tool (this is a multi-bit tool not a sight pusher). This is as-new dealer stock and is model #ATK-STD. (108172-10A)
3911	Sig Armors Tool Kit This standard P-series kit includes safety glasses, four punches, curved tipped hemostats, safety tipped mallet that shows moderate use, star tipped Allen wrench and combination sight tool (this is a multi-bit tool not a sight pusher). This is model #ATK-STD kit that remains in overall very good condition. (108172-10AB)
3912	HK USP Rear Sight Tool This milled sight adjustment tool is HK marked and shows oxidation on one of the handles. The tool appears complete with its original shipping box and remains in fine condition. (108172-15)
3913	M249 Barrel Assembly This lot includes an 18" barrel assembly for a SAW light machinegun still sealed in its original packaging. The barrel appears as-new and remains in excellent condition. (108172-21E)
3914	M249 Barrel Assembly This lot includes a 16 1/4" barrel assembly for a SAW light machinegun still sealed in its original packaging. The barrel measures 13 7/8" overall from breech to end of muzzle break and appears as-new and remains in excellent condition. (108172-21C)
3915	M249 Barrel Assembly This lot includes a 16 1/4" barrel assembly for a SAW light machinegun still sealed in its original packaging. The barrel measures 13 7/8" overall from breech to end of muzzle break and appears as-new and remains in excellent condition. (108172-21B)
3916	Benelli M1 / M2 Entry Barrel This matte blue 12 ga., plain barrel measures 14 1/2" with a bright excellent bore that is choked cylinder. The barrel has a post front sight with white dot and shows some scattered light handling marks and remains in excellent condition. (108172-22A)
3917	Benelli M2 Ghost Ring Barrel This 12 ga., matte blue 18 1/2" plain barrel with a bright excellent bore and screw in choke has scattered light handling marks and spots of fine oxidation staining scattered about. It has a post front sight and the included choke is full. (108172-22B)
3918	FN Herstal Tactical Police Barrel This 12 ga. 14" plain barrel with a bright excellent bore and screw in choke retains nearly all of its parkerized finish with scattered light handling marks and spots of fine oxidation staining most prevalent near the muzzle and front sight. The barrel has a single raised brass bead front sight and the included choke is modified. (108172-23)
3919	GG&G QD Multi-Flex Mounts Included are three as-new GGG-1016 style mounts with rings. These quick detach mounting systems are for the ITT 6015/PVS-14 Night Vision Monocular and come sealed in their original factory packaging. (108172-13)
3920	GG&G QD Multi-Flex Mounts Included are two as-new GGG-1016 style mounts with rings. These quick detach mounting systems are for the ITT 6015/PVS-14 Night Vision Monocular and come sealed in their original factory packaging. (108172-13A)
3921	GG&G QD Multi-Flex Mounts Included are two as-new GGG-1016 style mounts with rings. These quick detach mounting systems are for the ITT 6015/PVS-14 Night Vision Monocular and come sealed in their original factory packaging. (108172-13B)
3922	Daniel Defense Complete Upper Receiver This 556 mm M4 style receiver is complete with 14 1/2" M4-profile barrel with a bright excellent bore, screw on flash hider, A2 front sight with bayonet lug, M4 detachable carry handle with rear sight, and Daniel Defense bolt assembly. There are scattered light handling marks and strong rifling in the barrel. This short barreled upper remains in excellent condition. (108172-12B)

Lot	Title/Description
3923	Complete M4 Style Upper Receiver This Cerro Forge receiver is complete with 14 1/2" BMP marked 556 mm M-4 profile barrel with 1:7" rate of twist and a bright excellent bore. The upper retains nearly all of its original finishes with scattered light handling marks throughout. It features a carbine length handguard, A2 front sight with bayonet lug, M4 carry handle with rear sight and a complete bolt assembly. This short barrel upper remains in fine condition. (108172-12D)
3924	Complete A2 Style Upper Receiver This Kaiser Forge marked receiver is complete with unmarked 16" H-BAR barrel, most likely 223 Rem. with a bright excellent bore. The upper retains nearly all of its original finish with some scattered light handling marks and one small abrasion at the back of the ejection port. This upper has a A2 style front sight with bayonet lug, 7" handguard, Sure Fire flash suppressor and remains in very good condition. (108712-12E)
3925	Complete A2 Style Upper Receiver This Cerro Forge marked receiver is complete with 16" BMP marked 5.56, 1:9" rate of twist M4-profile barrel with a bright excellent bore. The upper has A2 style carry handle, A2 front sight with bayonet lug, 7" handguard and bird cage style flash suppressor. The mechanism is extremely stiff and requires some force to open the bolt and should be looked at by a professional gunsmith prior to firing. The parts retain nearly all of their finish and show only a few minor handling marks. (108712-12G)
3926	M4 Barreled Upper Receiver This Brass Aluminum Forging Enterprises LLC., marked receiver is fitted with a 14 1/2", SA marked, 5.56, 1:9" rate of twist M4-profile barrel with a bright excellent bore. This upper retains nearly all of its original finish with a few very minor light handling marks visible and is equipped with a carbine length handguard and flip up YHM front sight with bayonet lug. This item remains in excellent condition. (108712-12F)
3927	M4 Barreled Upper Receiver This receiver is unmarked and is fitted with an 11 1/2" unmarked 556 mm. barrel with bright excellent bore. The receiver retains all of its black anodized finish and the barrel has a carbine length handguard and A2 style sight with bayonet lug. (108712-12C)
3928	Complete A2 Style Upper Receiver This Anchor Harvey marked receiver is fitted with a 20" BMP marked, 5.56, 1:9" rate of twist, H Bar barrel with a bright excellent bore. The upper retains nearly all of its anodized and parkerized finishes with scattered light handling marks and spots of fine oxidation staining. This upper features standard A2 style carry handle with integral rear sight, flash suppressor, Midwest industries long quad hand rail, and A2 style front sight with bayonet lug. (108172-12H)
3929	A2 Barreled Upper Receiver This ArmaLite marked A2 receiver is fitted with a 16" M4-profile barrel with a bright excellent bore that has no markings, most likely 223 Rem. This component features an integral A2 style carry handle with rear sight, A2 style front sight with bayonet lug, carbine length handguard and flash suppressor. (1081712-12A)
3930	Ithaca Advertising Memorabilia This lot includes a complete 1928-dated "The New Ithaca Gun" brochure measuring 6 1/8" x 3 3/4" with a mixture of black and white and color illustrations over 19 pages of print. The brochure has crisp edges and exhibits some mild foxing and light ingrained dirt staining on the pages but remains in a lovely state of condition. (10A9558-16A)
3931	Winchester Wood Working Planes This lot includes four. First is an 18" Winchester W6 Jack plane. The metal surfaces retain 35% of their black enamel finish with some spots of flaking, scattered patches of fine oxidation staining and related handling marks from use. The hardwood handles rate good overall with areas of flaking varnish and light handling marks and the rear handle has a grain crack through the base that could be repaired if one chose to. The cutting edge remains clean and all parts appear to work correctly. Second is a 14" Winchester Trademark (W5) Jack plane. The metal surfaces retain 25-30% of their black enamel finish with the sides and base mostly a dark pewter color with light handling marks and some scattered spots of fine oxidation staining. The hardwood handles rate very good with light handling marks and spots of flaking varnish. The cutting edge has a few waves along its length but could be trued and all parts seem to function properly. Third is a W103 low angle block plane measuring 5 1/2" retaining much of its enamel finish with areas of flaking, and wear that have toned a rich brown color. All parts work appropriately and the cutting edges remains in excellent condition. Last is a W26 wooden bottom Jack plane measuring 15" with the metal surfaces retaining a mixture of black enamel and rich brown patinas. The handles and body rate excellent and the cutting edge has a couple of small nicks that likely could be honed out with a good sharpening. A nice pairing of Winchester Memorabilia for both the craftsman and sportsman. (10A8857-10)

Lot	Title/Description
3932	Winchester Western Thermometer This lot includes a large advertising outdoor thermometer measuring 7 1/4"x 26 1/4" in the shape of a Winchester / Western AA shotshell. There are a few nicks in the finish along the edges and a couple of light rub marks along the face from storage but this handsome piece of advertising memorabilia remains in excellent condition. (10A8857-11)
3933	Winchester Memorabilia This lot includes 2 items. First is a free standing wire store counter display for rimfire cartridges. There are four vertical compartments with a black top trim piece that displays the Winchester logo centered between to riders. Second is a Winchesters Collectors Association table cover that measures 60"x120" and is light grey in color. Both items are in excellent condition. (108857-12,14)
3934	Winchester Flashlights This lot includes four variations to include; one Junior two cell nickel-plated light catalog No. 6411, one octagon head two cell, one all nickel-plated two cell and one corrugated fiber cased two cell. All in varying levels of condition from about very good to excellent. (108857-12A)
3935	Winchester Flashlights This lot includes three all metal two cell flashlights in slightly different configurations between the switches and lens heads. There is one octagon style head and two round with one conical shaped base the other two flat and all show expected light handling marks with spots of scattered light oxidation staining but remain in very good overall condition. (108857-12B)
3936	Lot of Handcuffs This lot consists of four pair of S&W model 100 handcuffs of steel construction and satin nickel finish. They feature 20 locking positions and dual locks and fit wrist sizes 5 1/4" to 8". Included are two keys and instruction sheet and the condition rating is as-new in the box. (78172-19F)
3937	Lot of Handcuffs This is a lot of four sets of S&W model 100 handcuffs that are of steel construction and satin nickel finish. They feature 20 locking positions and dual locks and fit wrist sizes 5 1/4" to 8". Included are two keys and instruction sheet. The condition rating is as-new in the box. (78172-19G)
3938	Lot of Handcuffs This is a lot of four pair of S&W model 100 handcuffs that are of steel construction and satin nickel finish and feature dual locks and 20 locking positions suitable for wrist sizes 5 1/4" to 8". Each excellent condition set is unused and comes with two keys, instruction sheet and original box. (78172-19H)
3939	Lot of Handcuffs This is a lot of four sets of S&W model 100 steel handcuffs with satin nickel finish, dual locks and 20 locking positions suitable for wrist sizes 5 1/4" to 8". Each unused set comes in the original box with two keys and instruction sheet. (78172-19I)
3940	Lot of Handcuffs This lot consists of four sets of S&W model 100 steel handcuffs with satin nickel finish, dual locks and 20 locking positions suitable for wrist sizes 5 1/4" to 8". The condition is as-new in the box with two keys and instruction sheet. (78172-19J)
3941	Lot of Handcuffs This lot consists of four pair of S&W model 100 handcuffs of steel construction with satin nickel finish, dual locks and 20 locking positions. The handcuffs fit wrist sizes 5 1/4" to 8" and are in as-new condition with two keys, instruction sheet and factory box. (78172-19K)
3942	Lot of Handcuffs This lot consists of four pairs of S&W model 100 handcuffs of steel construction with satin nickel finish, dual locks and 20 locking positions. They fit wrist sizes 5 1/4" to 8" and come with two keys and instruction sheet and rate as-new in the box. (78172-19L)
3943	Lot of Handcuffs This is a lot of four sets of S&W model 100's of steel construction and satin nickel finish. The handcuffs feature dual locks and 20 locking positions for wrist sizes 5 1/4" to 8" and come with two keys and instruction sheet. The condition rating is as-new in the box. (78172-19M)
3944	Lot of Handcuffs This lot consists of three sets of S&W mode 100 steel handcuffs with satin nickel finish, dual locks and 20 locking positions. They fit wrist sizes 5 1/4" to 8" and come with two keys and instruction sheet and the condition is as-new in the box. (78172-19N)

Lot	Title/Description
3945	Lot of AR Tools and Parts This is a diversified lot beginning with Brownells items in their original factory sealed packaging: (2) DPMS front sight springs; (2) High Standard front sight posts; (2) pivot pin detent installation tools; (1) barrel nut alignment gauge; (1) sight wrench; (1) W.H. Merchant .223 throat erosion gage. Also from Brownells is a slightly used 3/4 plastic/brass hammer and an apparently unused upper receiver action block. Also included and in individual factory sealed packaging are (7) headspace chamber gauges in .223 Rem. by Forster Products, a Hoppes Bore Snake bore cleaner for .22 and .223 Rem, as new in original packaging, an excellent condition castle nut wrench marked "Viewpoint Marketing" and an unmarked detach carry handle that adjusts for elevation and windage and showing a couple of areas of handling marks. (78172-14A)
3946	Lot of AR Tools This lot consists of two items beginning with an armorer's barrel wrench marked "5855 01 506 5750/USMC" and capable of installation and removal of barrels up to 1 1/4" diameter. The wrench shows little indication of use and retains about 90% parkerized finish with areas toning to brown and some isolated handling marks. There is also an unmarked set of barrel vise jaws of machined aluminum construction rating excellent and showing only minor handling marks. (78172-14B)
3947	Lot of Micrometers This is a lot of two Starrett no. 436 outside micrometers: (1) 1"; (1) 2"/3". The analog micrometers are fully functional with minor wear marks evident here and there. (78172-14D)
3948	Saiga Factory Furniture Sets This lot consists of two sets of black injection-moulded Saiga factory stocks and forends. The pistolgrip stocks remain in very good plus condition with numerous light scuffs and other handling marks and their sling swivels are intact. One of the forends rates very good with a small chip in the base which will not be seen once installed in a receiver while the other forend rates near excellent and both have intact sling swivels. (2X237814-13)
3949	Colt Handgun Grips Three pairs of grips for Colt handguns. The first is a pair of Hogue grips for a Colt Government Model automatic pistol made of checkered cocobolo and inlaid with Rampant Colt medallions. The grips come in the original factory box (previously opened) and are in excellent condition. Next are two black rubber Pachmayr Presentation grips for Colt D Frame revolvers, one finger-grooved and one in classic unadorned style; each is checkered and inlaid with Rampant Colt medallions and both rate excellent with no discernible blemishes. (1X128939-6)
3950	AR Handguard Lot This lot consists of three (3) unmarked sets of round style black composite carbine length handguards for the AR-15 style uppers. All measure about 6 3/4" long and are in excellent overall condition. (2X49375-94C)
3951	AR Handguard Lot This lot consists of three (3) unmarked sets of round style black composite handguards for AR-15 style uppers. Two are rifle length at 12" long, one is equipped with a 5" picatinny rail adapter. The third is mid length at 9" long and has a 4" rail adapter installed. All three are in excellent overall condition. (1X49375-94D)
3952	AR-15 Accessories This lot includes five items. First is a Samco FAS-2 quick release flashlight holder that has a few light handling marks and scratches. Second is an adjustable New Frontier Armory butt that has light scratches and minor handling marks. Third are two sets of carbine length handguards, one set with heat shields and set of DPS Glacier Guards with both sets in excellent condition. Fourth is a contoured finger rest pistolgrip with checkered backstrap that shows light handling marks and some ingrained dirt staining. A great spare parts group. (1X108444-4)
3953	German P.08 Luger Accessory Lot Included is a more modern right hand holster and magazine. The holster is a soft flap holster made of brown vinyl with a green baize lining and snap button strap closure. The holster remains in very good plus condition showing some light discoloration along the exterior and a few small moth bites scattered about the lining. The magazine is an Interarms Mauser magazine with blue body and black plastic base in near excellent condition showing a couple tiny specks of light oxidation staining, Mauser banner at the bottom of the spine and strong spring. (1X139312-67A) [Dr. Daniel L. Leary, Jr. Collection]
3954	Unmarked Primer Extractor / Priming Tool This hand held loading tool is marked "44" in the shell holder with "Pat. Applied" along the left edge. The metal surfaces are a mix of brown and gray having areas of oxidation, and silvering along the high edges. The screws show minor slot wear and the tool appears complete in overall good condition. (3X108169-44A)

Lot	Title/Description
3955	<p>Double-Tiered Sportsman's Case</p> <p>One double-tiered walnut gun case with green felt lining. Many double-tiered sportsman's cases held either a spare set of barrels or a kit of fisherman's gear in the upper tier with the gun and accessories stored below. The upper tray on this example has unfortunately been lost. The case is 10" by 6" by 32" in the outer dimensions and accommodates barrels up to 30" in length. Some of the interior dividers are missing or separated but the majority remain in place. The case is brass-bound and features brass corners on the lid. The interior of the lid is centered by a slightly age-stained maker's label reading "Jaye / Gun Maker / Orwell Street / Ipswich". The case includes a pair of dark brown leather straps of indeterminate purpose, exhibiting a bit of wear and slight flaking; a small canvas bag containing some lead shot; a steel wad or patch cutter; and a brass flask with a patent top, the body embossed on either side with a design of a dog's head centered within a circle of daisy petals. The body of the flask exhibits an ochre caramel patina with hints of verdigris in the recesses of the detailing. The top of the lid exhibits a large crack along the length and some of the brass bindings are loose at the corners of the body; the remainder of the wood is only lightly scuffed from expected handling and storage wear and nearly all of the interior felt is whole except for the occasional instance of isolated loss here or there. Overall the case rates about very good, in somewhat weathered but still quite serviceable condition. (1X128937-146A) [Cletus Klein Collection]</p>
3956	<p>Spyglass and Powder Measure</p> <p>One collapsible spyglass and one small powder measure. The spyglass is composed of five brass segments, the outermost of which is finished in red-brown lacquer. The level of zoom is variable depending on how many segments are extended. The inner segments exhibit a thin light brown patina of tarnish; the outermost segment shows dark brown tarnish and areas of green verdigris on the areas of exposed glass. The top three sections separate from the bottom two when lightly pulled due to a loosened fit but the lenses remain clear and bright and the spyglass is otherwise fully functional. The powder measure is steel and measures 2" with an inner diameter of .43". The steel rates near excellent with the barest hints of dark brown pinprick speckling visible upon close examination. (2X128937-433M) [Cletus Klein Collection]</p>
3957	<p>U.S. Cartridge Box with Boston Navy Yard Markings</p> <p>This is a Civil War era U.S. Navy leather cartridge box that is marked for the Boston Navy Yard. The leather has moderate crazing over the top flap and some minor cracking with a small hole on the back side. The top flap is also missing its securing tab. The inner flap is marked "U.S.N.Y. / BOSTON" and the metal box lining is intact, but has some minor oxidation. A very good example associated with the local area that would serve well as a piece in any naval history collection. (148482-6) (400/600) Est. 400 - 600</p>
3958	<p>Target Pistol Grips</p> <p>Assorted pistol grips: (1) pair checkered walnut Colt Woodsman grips with palm rest and grooved thumb rest, rating about good with a large chip missing at the upper rear of the left panel; (1) pair sanded walnut Hi-Standard grips with checkered grip panels, thumb, palm and finger rests, in fair condition with chips missing at the upper front and rear of the left panel; (1) pair walnut pistol grips, probably for a Hammerli, Walther or similar, rating very good plus with a few light handling marks here or there, the grip screws are no longer present. (126519-401AJ) [Richard "Stretch" Kennedy Collection]</p>
3959	<p>West Virginia Duck Stamp Print</p> <p>This 1987 lithograph by Daniel Smith was First of State West Virginia Duck Stamp Print, numbered 398 of 10064, measures 12" x 14" with a 6 1/2" x 9" view of a pair of Canada Geese winging through a stormy West Virginia sky. Suitable for framing, print is in excellent condition with only a slight bend in the lower right corner, signed and numbered by the artist and includes an unsigned stamp and protective portfolio. (1X59239-4)</p>
3960	<p>Colorado Duck Stamp Print</p> <p>This 1990 lithograph First of State Colorado Duck Stamp Print & Governor's Wetland Relief Stamp by Robert Steiner is first in a series of a four print suite and is entitled "High Plains Honkers", numbered 9,591 of 14,500 and measures 12" x 14" with a 6 1/2" x 9" view of Canada Geese landing in a wooded pond. Suitable for framing, print is in excellent condition with only a slight bend in the lower right corner, signed and numbered by the artist and includes two stamps one of which is signed by the artist and a protective portfolio. (1X59239-5)</p>
3961	<p>Canada Duck Print</p> <p>This 1985 First of Canada Wildlife Habitat lithograph of the original acrylic painting by Robert Bateman, numbered 348 of 41,740 and measures 12" x 14" with a 6 1/2" x 9" view of a pair of standing Mallards in an early winter wetland setting. Suitable for framing, print is in excellent condition, signed and numbered by the artist and includes an unsigned and undetached stamp and protective portfolio. (1X59239-11)</p>

Lot	Title/Description
3962	<p>Canada Duck Print</p> <p>This Medallion Edition 1985 First of Canada Wildlife Habitat lithograph of the original acrylic painting by Robert Bateman, numbered 123 of 7691 and measures 12" x 14" with a 6 1/2" x 9" view of a pair of standing Mallards in an early winter wetland setting. Suitable for framing, print is in excellent condition, signed and numbered by the artist and includes a gold plated duck stamp medallion, two undetached stamps one signed by the artist and protective portfolio and outer jackets. (1X59239-10)</p>
3963	<p>Deer Unlimited Stamp Print</p> <p>1982 lithograph by Edward J. Bierly is numbered 331 of 1500, measures 12" x 13 3/4" with a 6 1/2" x 9" view of two majestic bucks in a wooded meadow. Suitable for framing, print is in excellent condition, is signed and numbered by the artist and includes an unsigned stamp and outer jacket. (1X59239-13)</p>
3964	<p>Georgia Wildlife Management Stamp Print</p> <p>No. 164 of 750, this lithograph "Wild Turkeys" print by Larry Farist measures 12" x 14" with a 6 1/2" x 9" view of two alert male gobblers in the woods with two female turkeys in the background. Suitable for framing, print is signed and numbered by the artist, is in excellent condition and includes an unsigned stamp and outer jacket. (1X59239-14)</p>
3965	<p>Pennsylvania Conservation Stamp Print</p> <p>1982 Pennsylvania Conservation stamp print by James P. Fisher No. 325 of 1300, this lithograph measures 12 1/2" x 14 1/2" and the view depicts a wooden male Mallard decoy with weight at center with three landing ducks in marsh scene in the background. Suitable for framing, print is in near excellent condition with a few spots of light staining along the top and left edge. Signed and numbered by the artist, an unsigned stamp and outer jacket are included. (1X59239-15)</p>
3966	<p>Utah Migratory Waterfowl Stamp Print</p> <p>1986 lithograph by Leon Parson is numbered 4631 of 14,028 and measures 12" x 14" with a 6 1/2" x 9" view of flying Snow Geese over a mountain lake. Suitable for framing, print is in excellent condition, is signed and numbered by the artist and includes an unsigned stamp and outer jacket. (1X59239-2)</p>
3967	<p>Federal Duck Stamp Print</p> <p>1985-1986 lithograph by Gerald Mobley is numbered 16,695 of 18,200 and measures 12" x 14" with a 6 1/2" x 9" view of a swimming Cinnamon Teal drake. Suitable for framing, print is in near excellent condition with some light staining along the top edge, is signed and numbered by the artist and includes an unsigned stamp, artist's biography and outer jacket. (1X59239-8)</p>
3968	<p>Federal Duck Stamp Print</p> <p>1986-1987 lithograph by Burton Moore Jr. is numbered 4983 of 16,310 and measures 12" x 14" with a 6 1/2" x 9" view of a swimming Fulvous Whistling duck. Suitable for framing, print is in excellent condition, is signed and numbered by the artist and includes artist's biography and outer jacket. (1X59239-9B)</p>
3969	<p>U.S. M1863 Combination Tool</p> <p>This lot includes a tool that measures 3 9/16" overall with wrench head and two screw driver blades. The all steel tool has 90% of its fire blue finish with spots of oxidation staining and light silvering. A very nice example in overall. (1X108426-144D)</p>
3970	<p>Sharps Combination Tool</p> <p>This lot includes what is likely a post-Civil War era combination screw driver measuring 3 1/8" overall with the metal surface retaining much of their blue finish. The tool remains in excellent condition. (1X108426-144J)</p>
3971	<p>AR-15 Barreled Upper Assembly</p> <p>One unmarked flat-top upper receiver with 7.5" heavy profile barrel in excellent condition retaining 98% black anodized finish with a few light handling marks and silvering at the wear points. The barrel features M4 feed ramps, shaved FSB, and what appears to be a YHM Phantom-style flash hider while the upper is equipped with what appears to be a Knight's Armament RAS quad rail forend (based on the patent number) with two KAC rail covers, PRI charging handle, folding front sight and an unmarked full-auto profile bolt carrier group. (23A8925-92)</p>
3972	<p>Bushmaster AR-15 Barreled Upper Assembly</p> <p>One "CH" forge-coded A2 upper receiver with 10.3" heavy profile barrel in very good plus condition retaining 97% original gray Parkerized finish with some light high edge wear and some minor silvering on the barrel beneath the carbine handguards. The A2 flash hider shows a small spot of light oxidation in one of the slots and minor silvering on the wrench flats and is not timed properly which can be easily fixed with a new crush washer. The handguards with heat shields rate excellent, no bolt carrier group is included and the upper comes with the original factory manual. (23A8925-93)</p>

Lot	Title/Description	Lot	Title/Description
3973	<p>Italian Bodeo Model 1889 .45 Caliber Revolver Parts Lot</p> <p>This lot does not include the frame but most of the other parts are present. The 4 1/2" octagon barrel has an oxidized and pitted bore. The barrel, sideplate and cylinder are mostly brown with strong original blue on the barrel in addition to moderate handling marks, oxidation and pitting. The checkered walnut grips rate about very good showing light handling marks. Other parts included but not limited to: hammer assembly, trigger assembly, base pin, mainspring, loading gate (pin appears damaged), hand, cylinder stop and (7) other assorted unidentified screws and parts. (89567-26)</p>	3979	<p>Civil War-Era Officer's Epaulettes</p> <p>Two mismatched brass bullion fringed epaulettes for 19th Century U.S. military uniforms. The first features fringe of 1/8" diameter (Lieutenant rank) and a small gold-washed button reading "Mass. Volunteer / Militia" circled around a raised arm holding a saber. The epaulette shows instances of slight fraying around the trim, partial separation and loss of the silk lining and darkened areas of patination scattered across the surfaces. The second epaulette features fringe of 1/2" diameter (ranks Major through General); no further identifying features are present. The epaulette exhibits an overall dull mustard-brown patina with occasional spots of green verdigris. The silk and cotton lining on the underside exhibits areas of fraying, separation and loss exposing the steel base plate and cotton padding. Overall the epaulettes rate very good with largely unobtrusive wear. (12A8735-30) (100/200) Est. 100 - 200</p>
3974	<p>Italian "Eprouvette" Flintlock Powder Tester by Giacomo & Guarneri</p> <p>This pistol-like tester is marked on the lock "Giacomo & Guarneri" although the "i" in the second name is no longer visible. The metal surfaces are mostly brown with areas of pewter showing oxidation blemishes, pitting and handling marks. The brass triggerguard, buttcap and sideplate are ochre with handling marks. The triggerguard has pineapple finials at both ends and the right side buttcap extension shows a fracture about an inch from the end. The one-piece walnut stock shows light sanding and later applied varnish with handling marks. The top mounted combustion wheel is calibrated from one through twelve with heavy ratchet style teeth and spring steel release. The lock still functions but there is a fair amount of play in the fit of the hammer to the hammer stud and the frizzen lightly strikes the side of the upright combustion chamber. With the huge variations in early powders this was an important instrument for checking its consistency and power. (8A9567-1) {NON-GUN} (200/400) Est. 200 - 400</p>	3980	<p>Shooter's Lot</p> <p>Includes: (1) J. Purdey & Son leather hand protector for a 20 ga. double shotgun; one Bulldog black nylon 5 1/2" handgun holster; one walnut forend for a small rifle; one instruction manual for a Ruger Over & Under shotgun; one russet leather Schrade 6" rectangular belt sheath. Items are in very good plus to excellent condition with little if any wear. (129249-13)</p>
3975	<p>Japanese Replica Revolver</p> <p>This lot consist of a single MGC (Model Gun Corp) Manufacture blank firing replica of the Colt Frontier Six-Shooter revolver. The cylinder and barrel are blocked to prevent the use of live ammunition and is designed for 44-40 Long blank. The metal surfaces show moderate to heavy wear with about 60-70% original enamel finish remaining plus handling marks. The checkered synthetic grips have an RMI medallion and rate excellent. The barrel has been shortened to 5 1/16" long, the front sight is missing, but the barrel insert is still present. The firing pin on the hammer has broken off, as is a portion of the hammer nose and the replica gun no longer times or locks up. The left side of the frame is marked "CAL 44-40 Long black / MGC MANUFACTORY" with "JAPAN" on the butt. (88927-282A) {NON-GUN}</p>	3981	<p>Bore Brushes</p> <p>A small assortment of bore cleaning items including steel wire brushes and mops in 20ga and 12ga and a small assortment of brass brushes in .35-38 cal. All items are in excellent condition, most if not all appearing unused. (129249-5)</p>
3976	<p>.45 Pistol Holster</p> <p>One unmarked leather flap holster for a Colt Government Model 45 Auto pistol or similarly sized arm. The leather is finished dark brown and exhibits a moderate amount of light surface scuffing. The brass fittings are patinated to a darker mustard-brown and exhibit a bit of green verdigris bloom around the edges. Overall the holster exhibits only superficial wear and is in very fine condition. (128318-11A)</p>	3982	<p>Miscellaneous German Collectibles</p> <p>An eclectic assortment of items, several of which relate to the Imperial German military. Notable examples include: (3) Hamburg regimental helmet cockades; a red, black and white handkerchief printed with diagrams and illustrations from Imperial German military documentation including an exploded diagram of a Gewehr 88, fitness drills and pictures detailing various medals and rank insignia; one chain-pull steel lantern (nonfunctional); a large iron caltrop and several lengths of barbed wire (presumably German in origin); one pair of black leather riding gaiters, each with a small black stamp on the interior which has faded to illegibility; one feldgrau-painted unmarked leather cartridge pouch belt. Conditions remain in very good to fine with light handling and storage wear on some items. (127884-36A) [Craig Brown Collection]</p>
3977	<p>Scarce Complete Maynard Tape Primer Tin</p> <p>One steel container holding a full (10) rolls of Maynard tape primers designed for use with percussion firearms. All rolls are wrapped in the original paper and unopened. The container retains about 80% original copper-tone japanned finish scattered throughout by tiny handling marks; the exposed flecks of steel are toned to varying degrees of silvery bright and dark pewter and the steel cap is toned to a dark pewter. Overall the container is in very fine to near excellent condition and the rolls of tape rate excellent with only some expected age darkening of the paper. Also included are two wooden tompons with diameters of about 0.44" and 0.68", respectively. An exciting find for collectors of Edward Maynard's firearm innovations. (12B8735-41) (400/600) Est. 400 - 600</p>	3983	<p>Redding 32 ACP Reloading 3 Die Set</p> <p>item #RE80220. Includes a full length resizing die, expander die and seater die housed in the green factory case. All are in excellent condition and appear unused. (128866-4)</p>
3978	<p>Cairns & Brother Fire Helmet</p> <p>This is a leather fire helmet from Cairns & Brothers of Clifton New Jersey. It features the Cairns sanitary cushion lining and would appear to be a #8, stamped on the inside of the liner is "Property of Lexington Fire Department". The helmet features an embossed leather brim with a sharply down-turning skirt at the rear. The leather is moderately freckled and flaked and is somewhat dry with the seam stitching remaining mostly intact around the periphery of the crown. There are six reflective squares of tape affixed at sides and rear of the crown panels and the brass shield support is in place. The shield has been removed and is not present leaving six very small holes in the front of the crown. The interior liner shows light soiling and sweat staining, the interior of the liner is stuffed with newspaper dated June 27, 1974. (38655-2)</p>	3984	<p>Maxon 49-FX Short Range Communicators</p> <p>Two short-range radio devices with accompanying microphones and earpieces. The devices feature voice-activated and push-to-talk activation and thumbwheel-adjustable volume, VOX level and five available channels. The devices are in very fine condition with few signs of wear. Batteries not included, devices not tested for functionality. (126048-8)</p>
		3985	<p>Smith & Wesson N-Frame Grips</p> <p>One pair of expertly carved dark rosewood grips for a Smith & Wesson N-frame square butt revolver. The faces are decorated by an engraved relief of oak leaves with hand-tooled carving channels in the recessed areas; similar channels are visible on the inner faces where the wood has been cut to fit the precise tolerances of the frame. Few if any handling marks are discernible and the grips rate excellent overall. (129563-15)</p>
		3986	<p>Handgun Grips</p> <p>Assorted handgun grips: (1) one-piece Franzite checkered faux ivory grip for a Mauser Model 1910 Pocket Pistol; (1) pair faux mother-of-pearl and walnut grips for a Colt D-frame revolver; (1) pair vertically grooved rosewood grips for a Browning Model 1910 pistol; (1) pair checkered black horn grips for a Spanish Buffalo 32 ACP pistol. All items are in very fine to near excellent condition with only light handling wear. All except the D-frame grips are missing the retention screw. (126519-401AM)</p>
		3987	<p>Reloader's Lot</p> <p>Assorted miscellaneous items including: (3) large bags of 12 ga. 1 1/8 oz. replacement plastic wads; (1) Thompson/Center single cavity mould block No. 7320, in packaging; two boxes of lead bullets; (1) Quinetics Corp. kinetic bullet puller; Uncle Mike's Sidekick 4 Scoped black nylon holster. Items are in fine condition with some light storage wear. (126048-6)</p>

Lot	Title/Description
3988	<p>Revolver Holsters</p> <p>Two leather flap holsters for .44 caliber revolvers. The first is right-handed, accommodates barrels of up to 8" and rates very good, exhibiting a bit of separation at the rear seam of the pocket, light handling wear scattered across the surface and a bit of green verdigris around the brass closing stud. The second is a symmetrical holster with a centered brass-buckled closing strap, also accommodating up to 8" barrels, and rates very fine to excellent with excellent stitching, very light handling marks here and there and a distinguished dark patina on the brass. (129558-1A) [Senator Frederic C. Walcott Collection]</p>
3989	<p>Brass U.S. Regulation Bugle</p> <p>One U.S. regulation bugle manufactured by the company U.S. Regulation Bugle. The instrument is brass with a silver-colored brass mouthpiece and is stamped "IMPROVED / U.S. REGULATION BUGLE / MADE IN U.S.A." at the base of the bell. The brass surfaces exhibit scattered small specks of tarnish and verdigris throughout and several negligible handling marks scattered across the tube. Overall the bugle is in fine condition and should clean up nicely into a serviceable instrument. Not tested for functionality. (127668-10)</p>
3990	<p>Wooden Display Cases</p> <p>Three oak display cases measuring 10 1/4" by 11" by 2". The cases are in good to fine condition with only superficial wear, each exhibiting a number of light handling marks scattered across the surfaces. (127668-11B)</p>
3991	<p>European Cleaning Kit and Rifle Cleaning Accessories</p> <p>An assortment of cleaning tools and accessories including: (1) European military-style cleaning kit in a canvas fold-out carrying pouch, containing items such as two round steel oil cans, bore brush, 4-piece steel cleaning rod and an 8mm Lebel cartridge attached to a curved steel rod. All compartments appear to contain their appropriate tools and the kit is in overall good condition, exhibiting light handling marks and patina on some of the tools and moderate soiling of the canvas. (4) plastic tubes each containing a thin steel oil applicator rod and a bore cleaning head of cotton cord wrapped around a brass cleaning rod tip, in very good condition; (1) 3-piece aluminum 30" cleaning rod with a black T-handle, rating excellent; (1) partial box of Outers Gunslick gun cleaning patches; (1) Marbles jointed brass rifle rod, 4 pieces, 30" and sized for .22 and .25 caliber rifles. The rod comes with the original factory canvas pouch and rates very fine with a smooth dark patina on the brass and some light soiling on the pouch. (127668-6B)</p>
3992	<p>WW2 Individual Protective Gas Covers</p> <p>Two wrapped protective covers for use against poison gases. The covers are in the original military-issue packaging which exhibits some drying cracks and partial instances of opening on parts of the faces and edges. Some sticker labels applied by a previous owner have bonded to the surface. Otherwise the covers are in very fine to excellent condition. These items are offered for collection purposes only; Amoskeag Auction Company makes no guarantee of protection against hazardous materials. (127668-8C)</p>
3993	<p>Assorted Ammunition Links</p> <p>Assorted links for a variety of cartridges: (65) linked rounds of 30-06 Blank casings with primers, rating very fine with an even dark tone on the brass; (24) rounds of 8x50R Lebel ammunition on a Hotchkiss machine gun feed strip, rating very good plus to excellent, the brass toned dark greenish-yellow with areas of ocher by an expected smooth patina; (1) 50-link chain for 7.92mm cartridges for the German MG34 and MG42 machine guns; (1) 29-link chain for 7.62x39mm cartridges; (8) T61E3 links for 20mm M39 and M39A1 cannon rounds, in excellent condition with only light handling marks. (127668-8F)</p>
3994	<p>Assorted Military Collectibles</p> <p>A variety of items including: (1) U.S. issue American Optical Co. rocket launcher face mask, Stock No. 74-M-126, in good condition in the original opened box with some partial cracks on the lenses; (1) A/P25S-1 Personnel Distress Signal kit comprising one hand-held projector and 7 distress flares, all in excellent condition; (1) brown leather cartridge belt, about size 34, with (15) cartridges of .303 British, the belt in about excellent condition and the cartridges rating very good with instances of tarnish and verdigris at the points of contact; (5) steel stripper clips for .30 Mauser ammunition in near excellent condition with only light handling marks; several brass number plates for inventory purposes in very good plus to excellent condition; (1) OD green canvas carrying strap designated for 100 rounds of linked 7.62mm NATO ammunition, in excellent condition. (127668-8G)</p>

Lot	Title/Description
3995	<p>Reloader's Lot</p> <p>An assortment of reloading dies, tools and bullets. Includes: (1) 3-die set for .38 and .357 cal. cartridges comprising a carbide full length sizing die (decapping stem not present), a 2-step neck expander die and a bullet seating and crimping die; (1) Lyman 2-die set for 30-06 cartridges comprising a full-length resizing die with neck expander and decapper and a bullet seating and crimping die; (1) C&H seating and crimping die in 30-06; (1) C&H full-length sizer with decapping stem (decapping pin and expander not present); (1) RCBS seating and crimping die in 30-06; (1) L.E. Wilson cartridge case check gauge in 30-06; (1) primer pocket reamer for large pistol and large rifle calibers; (1) L.E. Wilson chamfer and deburring tool; (1) Lyman single-cavity bullet mould no. 557489; (1) box loose 30 cal. (.307") 165 gr. FMJ bullets; (1) box loose 30 cal. (.308") 174 gr. FMJ boat tail bullets; (1) vintage U.S. Cartridge Co. loader and cap ejector set. Items are in very good plus to excellent condition, some exhibiting small spots of ocher patina and all remaining serviceably functional. (127668-8K)</p>
3996	<p>German P.08 Luger Holster</p> <p>This holster is in good condition with strong original black finish showing some light scuffing, crazing and areas of minor cracking. The holster is marked "B.B.K. P1.1.35." on the upper edge of the front face of the body and the rear is stamped by a softened stamp which appears to read "1b66". The stitching is tight except for a segment of the top flap which has come loose; the buckle and pull tab remain intact. Includes the Parkerized steel takedown tool in near excellent condition with some light handling wear and silvering. (129574-138A)</p>
3997	<p>German P.08 Luger Holster</p> <p>This holster is in very fine condition with a very strong black finish and some moderate crazing mostly in the interior. Part of the maker's paper label remains inside the flap but has been worn to illegibility. The buckle and pull tab are fully intact. Includes the Parkerized steel takedown tool and a contemporary blued steel P.08 Luger magazine in excellent condition. (129591-1A)</p>
3998	<p>Japanese Nambu Pistol Holster</p> <p>One layered canvas holster for a Japanese Type 14 Nambu pistol. The holster is in excellent condition, retaining tight stitching throughout and exhibiting a few light scuffs and a few darkened specks here and there. Includes a steel cleaning rod and a spare firing pin, both in excellent condition. (129574-140A)</p>
3999	<p>Reproduction Mauser C96 Pistol Stock Holster</p> <p>One walnut stock/holster for a Mauser C96 pistol. The stock is in near excellent condition with a few light handling marks and one or two unobtrusive hairline cracks in the body repaired by adhesive filler. (129574-142A)</p>
4000	<p>Whitetail Mount</p> <p>This lot includes a custom mount on a hardwood cabinet by Hanco wood products. The non typical 9 pointer has an 18 3/4" outside spread and faces to the right of the viewer. The shoulder mount is attached to the top of the woodland decorated cabinet. The deer has 4 points on the right side and 5 on the left however; one could argue 6 as it has a small fork on one tine that a wedding ring will hang on. The hide remains full and soft to the touch. The two drawer hardwood cabinet measures 22 1/2"x25 1/2" and stands 32 1/2" tall. The top of the cabinet is arranged in a woodland pattern with branches, leaves, pine cones and moss. This mount will take up a space roughly 23"x36"x70" and would pair nicely with the following mount. (107858-6) [Please note: crating and freight shipping will apply]</p>
4001	<p>Whitetail and Pheasant Mount</p> <p>This lot includes a custom mount on a hardwood cabinet with overall dimensions of 23"x36"x70". The deer is a non typical 9 point whitetail with outside spread of 17 1/2" having four points on the right and 5 on the left. The hide still is full and feels soft to the touch. There is a split across its nose that could be easily fixed by a taxidermist. The shoulder mount is attached to the top of the woodland decorated cabinet. A walking pheasant is mounted to the front and the feathers pop with vibrant colors. The two drawer custom made cabinet by Hanco Wood Products measures 22 1/2"x25 1/2" across the top of the crown and stands 32 1/2" tall. This is an interesting mount that faces to the left of the viewer and remains in very good condition. (107858-5) [Please note: crating and freight shipping will apply]</p>
4002	<p>Excellent Massachusetts Arms Company Revolver Powder Flask</p> <p>This is a lovely small powder flask measuring about 4 1/8" long with a foliate design along both sides surrounding "MASSACHUSETTS / ARMS / COMPANY / CHICOPEE FALLS", and above this design a pair of flags and an outstretched arm holding a Wesson & Leavitt revolver. The body retains most of its original finish and is a fine deep bronze tone showing some small spots thinned to ocher brass and a few other light handling marks. The spout is a bright goldenrod showing a little minor freckling and the spring retains almost all of its wonderful brilliant fire blue. A very handsome little flask to complete your cased Mass. Arms Co. revolver ensemble. (13A9556-15A) (150/250) Est. 150 - 250</p>

Lot	Title/Description
4003	<p>Colt Custom Shop Semi-Auto Pistol Presentation Case</p> <p>This walnut case measures about 18" x 9" x 3" and is French-fitted for three pistols, two Model 1903 or 1908 Pocket Hammerless pistols and one 1908 Vest Pocket Hammerless. The exterior rates very fine showing a few small spots of moderate flaking varnish along the back edge of the lid, some scattered very light scratches and dings. The lid is inlaid with a brass Custom Shop medallion and there is a knurled lock escutcheon. The interior is lined with a handsome maroon baize that rates excellent. No key is present. (13A9526-1D)</p>
4004	<p>Colt Custom Shop Semi-Auto Pistol Presentation Case</p> <p>This walnut case measures about 19 1/4" x 10 3/4" x 3" and is French-fitted for three pistols, two Model 1903 or 1908 Pocket Hammerless pistols and one 1908 Vest Pocket Hammerless. The exterior rates very fine showing a few light scuffs along the lid and some other scattered light handling marks. The lid is inlaid with a brass Custom Shop medallion and there is a knurled lock escutcheon. The interior is lined with black baize that rates excellent. No key is present. (13A9526-2D)</p>
4005	<p>Rare Remington Arms 1912 Commemorative Centennial Book</p> <p>One copy of the Remington centennial commemorative volume A New Chapter In An Old Story published by Remington Arms UMC in the year 1912. The descriptive subtitle summarizes the contents succinctly, "Being an Interesting Account of the Strange Steps by Which A Great Modern Business Has Grown Out of Ancient Conditions Together With A Look Into The Future". The front cover depicts, in illustration-colored photograph, a lone modern hunter seated at his campfire admiring his Remington repeating rifle. He is joined by the ghosts of his forefathers from across the ages: the primitive caveman, the early musketeer, the soldiers and hunters trained in the use of flintlock and percussion arms, all gazing with admiration at the Remington cartridge rifle. The contents of the book begin with a speculative history of the development of missile weapons across human history from the thrown rock of early man to the sling, the bow, the crossbow and early firearms such as the matchlock all leading up to the pinnacle of modern ballistic science: the Remington firearm (according to the unbiased and thoroughly impartial historians of Remington Arms). The book continues in the latter half with the history of Remington Arms, beginning with the first gun barrel crafted by Eliphalet Remington Jr. at his father's forge in Iliion Gorge and concluding with a literary tour of the Remington plant at Bridgeport to showcase the testing and manufacturing process of the modern day (as of 1912). The tale is illustrated by numerous photographs, diagrams and other artist's renditions of the subjects discussed, including several full-page photographs of man challenging the beasts of the wild with his ballistic superiority. The volume is in fine condition, the cover exhibiting some slight wear at the edges and corners with little to no loss and strong intact binding. The pages are near excellent to excellent, blemished only by expected scattered instances of foxing and a few tiny crimps and light tears at the edges located sparsely throughout the book. These blemishes are largely superficial and the careful reader may enjoy this volume without much concern. A fine addition to the library of any arms collector, particularly the Remington enthusiast. (12A9459-36C) (75/150) Est. 75 - 150</p>

Lot	Title/Description
4006	<p>Rare Remington Arms 1912 Commemorative Centennial Book</p> <p>One copy of the Remington centennial commemorative volume A New Chapter In An Old Story published by Remington Arms UMC in the year 1912. The descriptive subtitle summarizes the contents succinctly, "Being an Interesting Account of the Strange Steps by Which A Great Modern Business Has Grown Out of Ancient Conditions Together With A Look Into The Future". The front cover depicts, in illustration-colored photograph, a lone modern hunter seated at his campfire admiring his Remington repeating rifle. He is joined by the ghosts of his forefathers from across the ages: the primitive caveman, the early musketeer, the soldiers and hunters trained in the use of flintlock and percussion arms, all gazing with admiration at the Remington cartridge rifle. The contents of the book begin with a speculative history of the development of missile weapons across human history from the thrown rock of early man to the sling, the bow, the crossbow and early firearms such as the matchlock all leading up to the pinnacle of modern ballistic science: the Remington firearm (according to the unbiased and thoroughly impartial historians of Remington Arms). The book continues in the latter half with the history of Remington Arms, beginning with the first gun barrel crafted by Eliphalet Remington Jr. at his father's forge in Iliion Gorge and concluding with a literary tour of the Remington plant at Bridgeport to showcase the testing and manufacturing process of the modern day (as of 1912). The tale is illustrated by numerous photographs, diagrams and other artist's renditions of the subjects discussed, including several full-page photographs of man challenging the beasts of the wild with his ballistic superiority. The volume is in very good plus to excellent condition, the cover exhibiting some moderate wear at the edges, loss of the outer layer of the spine and numerous tiny handling marks across the faces. Otherwise the binding remains intact mostly intact with a partial separation at the front cover and the pages are in about excellent condition with only scattered light foxing. While the book would benefit from light restorative work, the careful reader may enjoy this volume as-is with minimal concern. A fine addition to the library of any arms collector, particularly the Remington enthusiast. (12A9459-36D) (75/150) Est. 75 - 150</p>
4007	<p>Vintage Remington Arms UMC Catalogs</p> <p>Two Remington Arms UMC catalogs detailing firearms, parts and ammunition dated 1910 and 1911-1912, respectively. The 1910 catalog features a gray cardstock cover and is in near excellent condition. The front cover is lightly stained and the spine of the cover has been lost but the stitching and adhesive of the binding remain fully intact. The pages are excellent with only occasional instances of very light foxing here or there. The second catalog is paper-bound and rates very good plus overall with most of the wear concentrated on the outer surfaces. The cover exhibits some light crimping and tearing at the edges and corners and there is some crazing at the edges of the pages, some of which exhibit unobtrusive swatches of cellophane tape repair. The faces of the pages are in very fine condition, exhibiting some expected age yellowing and occasional spots of foxing with crisp print and overall minimal wear. Overall a fine pair of early 20th century Remington catalogs. (12A9459-35A)</p>
4008	<p>Vintage Remington Arms UMC Catalogs</p> <p>Two paperback Remington Arms UMC catalogs detailing firearms, parts and ammunition dated 1918-1919 and 1923, respectively. The 1918-1919 catalog is in very good condition overall: the cover exhibits some edge wear, some of the corners of the pages are folded inwards. A couple of noticeable but largely unobtrusive water stains can be seen through the left side of the cover and first few pages and through the right edge of the pages throughout the volume. The staining is almost entirely limited to the margins and the pages retain crisp print, the barest foxing and little to no further blemishes of note. The 1923 catalog is bound in paper cardstock and rates very fine. The cover is moderately soiled and exhibits light crazing along the spine and edges but overall shows very little loss or significant wear. The pages are in excellent condition with crisp print and little wear besides expected age yellowing, occasional areas of foxing and a few thumbprint stains (possibly oil) at the edges of the pages. Overall a fine pair of early 20th Century Remington catalogs. (12A9459-35B)</p>
4009	<p>Signed Copy of Civil War Cavalry & Artillery Sabers</p> <p>One copy of Civil War Cavalry & Artillery Sabers by John H. Thillman, First Edition, Mowbray Publishers 2001, hardcover with sleeve, 519 pages. The book is in excellent condition, appearing new and unused. Inside the front cover on the endsheet there is a sticker which reads "Greetings and Best Wishes from the Author / John Thillman (typed)" next to a black and white sketch of a U.S. Model 1850 Staff & Field Officer's sword; the sticker is also signed in pen by the author. (129425-2D)</p>
